TO: Historic Preservation Advisory Board
DATE: June 18, 2026
APPLICANT: Richard and Sarah Allegretto
CASE NUMBER: H2026-003; *Small Matching Grant for 402 Munson Street*

On March 18, 2026, staff received an application for a *Small Matching Grant* from the property owners -- *Richard and Sarah Allegretto* -- for the purpose of obtaining a *Small Matching Grant* to allow the restoration and repair of an original, historic wood framed, stained-glass window. The subject property is located at 402 Munson Street and is designated as a *High Contributing Property*. According to Section 08, *Small Matching Grants*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), residential properties located within the Old Town Rockwall (OTR) Historic District or the Southside Residential Neighborhood Overlay (SRO) District, that are *Contributing* (i.e. *High, Medium, or Low Contributing*) or *Landmarked Properties*, are eligible for matching funds up to \$1,000.00. In this case, the subject property is located within the Old Town Rockwall (OTR) District and is classified as a *High Contributing Property*. According to Section 08, *Small Matching Grants*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), "(t)he Small Matching Grants Program was established for eligible properties located within the City's Historic Districts for the purpose of encouraging small improvements and beautification projects." The proposed project includes improvements that will be visible from the street (i.e. *original window in the front façade of home*) and -- *based on the applicant's scope of work* --, the restoration of the stained-glass window does appear to meet the intent of the program. The total valuation of the project provided by the applicant is \$1,710.00, and would be qualified for a *Small Matching Grant* of up to \$855.00; however, approval of this request is a discretionary decision for the Historic Preservation Advisory Board (HPAB). As of October 1, 2025, the Historic Preservation Advisory Board (HPAB) has approved two (2) *Small Matching Grants* for FY2026. Should this request be approved, the *Small Matching Grants Fund* would be reduced to \$2,645.00.

Dear Members of the Historic Preservation Advisory Board,

We are requesting consideration for a Small Matching Grant for the restoration and repair of an original historic wood-framed colored glass window located on the front façade of our home in the Old Town Rockwall Historic District.

The window is an original architectural feature of the home and is highly visible from the street. Over time, the wood muntins and sash surrounding the glass deteriorated significantly due to age and weather exposure. In April 2026, we discovered that the lower primary clear glass pane had partially detached and was hanging precariously from the frame, creating a serious safety concern. The opening was temporarily stabilized and later secured with plywood to prevent injury and additional damage until a proper restoration could be completed.

We obtained multiple professional evaluations and proposals for the repair. After careful consideration, we selected Historic Window Solutions because their proposal focuses on preservation and restoration of the original historic wood sash and muntin system while salvaging and reusing the existing historic colored glass wherever possible. Their proposed approach maintains the historic construction and appearance of the window rather than replacing it with a substantially altered system.

The proposed project includes:

- restoration and reconstruction of deteriorated wood sash and muntins,
- salvaging and reinstalling the original colored glass,
- reinstallation of the restored window assembly,
- and preservation of the original appearance and character of the front façade.

Attached photographs show the historic window prior to failure, the deteriorated condition of the wood muntins and sash, the detached lower glass pane, and the temporary plywood stabilization installed to protect occupants and preserve the remaining historic materials until proper restoration can occur.

We believe this project aligns closely with the goals of the Historic Preservation Advisory Board by preserving an original visible historic architectural feature and maintaining the historic integrity of the neighborhood.

Thank you for your consideration and for supporting preservation efforts within Old Town Rockwall.

Sincerely,

Ricky & Sarah Allegretto

Scope of Work / Reason for Evaluation

PROJECT DESCRIPTION

Restoration and repair of an original historic wood-framed colored glass window on the front façade of the residence.

The existing historic window experienced severe deterioration of the wood muntins and sash due to age and moisture exposure. In April 2026, the lower primary clear glass pane partially detached and became a safety hazard. The pane was temporarily stabilized and later removed, and the opening was temporarily secured with plywood to prevent injury and further damage.

The proposed work will restore and preserve the original historic character of the window by salvaging and reusing the existing colored and clear glass where possible, repairing and reconstructing the original wood sash and muntin system to match the historic appearance, reinstalling the restored window assembly, and removing the temporary plywood covering.

The project is intended to preserve the historic architectural integrity and appearance of the home while addressing safety and deterioration concerns.
