DMG	0-10V dimming wires pulled outside fixture (for use with an external control, ordered separately)[11]			**Shipped separately**	
DS	Dual switching[12,13]			BS	Bird spikes[14]
				EGS	External glare shield[14]

Performance Data

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient	Lumen Multiplier
0°C	32°F	1.04
5°C	41°F	1.04
10°C	50°F	1.03
15°C	59°F	1.02
20°C	68°F	1.01
25°C	**77°F**	**1.00**
30°C	86°F	0.99
35°C	95°F	0.98
40°C	104°F	0.97

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the platforms noted in a **25°C ambient**, based on 10,300 hours of LED testing. Tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate L77, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	Lumen Maintenance Factor
0	1.00
25,000	0.96
50,000	0.92
100,000	0.85

Motion Sensor Default Settings

Option	Dimmed State	High Level (when triggered)	Photocell Operation	Dwell Time	Ramp-up Time	Ramp-down Time
PIR or PIRH	3V (37%) Output	10V (100%) Output	Enabled @ 5FC	5 min	3 sec	5 min
*PIR1FC3V or PIRH1FC3V	3V (37%) Output	10V (100%) Output	Enabled @ 1FC	5 min	3 sec	5 min

*For use when motion sensor is used as dusk to dawn control.

Electrical Load

	Performance Package	LED Count	Drive Current	Wattage	Current (A) 120	208	240	277	347	480

Controls Options

Nomenclature	Description	Functionality	Primary control device	Notes
FAO	Field adjustable output device installed inside the luminaire, wired to the driver dimming leads.	Allows the luminaire to be manually dimmed, effectively trimming the light output.	FAO device	Cannot be used with other controls options that need the 0-10V leads
DS	Drivers wired independently for 50/50 luminaire operation	The luminaire is wired to two separate circuits, allowing for 50/50 operation.	Independently wired drivers	Requires two seperately switched circuits. Consider nLight AIR as a more cost effective alternative.
PERS or PER7	Twist-lock photocell receptacle	Compatible with standard twist-loc photocells for dusk-to-dawn operation, or advanced control nodes that provide 0-10V dimming signals.	Twist-lock photocells such as DLL Elite or advanced control nodes such as ROAM.	Pins 4 & 5 to dimming leads on driver, Pins 6 & 7 are capped inside luminaire
PIR or PIRH	Motion sensors with integral photocell. PIR for 8-15' mounting, PIRH for 15-30' mounting	Luminaires dim when no occupancy is detected.	Acuity Controls SBOR	Also available with PIR1FC3V when the sensor photocell is used for dusk-to-dawn operation.
NLTAIR2 PIRHN	nLight AIR enabled luminaire for motion sensing, photocell and wireless communication.	Motion and ambient light sensing with group response. Scheduled dimming with motion sensor over-ride when wirelessly connected to the nLight Eclypse.	nLight Air rSGKR	nLight AIR sensors can be programmed and commissioned from the ground using the GWBRy Pro app.

Ordering Information

Accessories

Ordered and shipped separately.

DLL127F 1.5 SI	Photocell - SSL twist-lock (120-277V) [15]
DLL347F 1.5 CUL SI	Photocell - SSL twist-lock (347V) [15]
DLL480F 1.5 CUL SI	Photocell - SSL twist-lock (480V) [15]
DSHORT SBK U	Shorting cap [15]
DSX19S SOC U	House-side shield for P1, P2, P3, P4 and P5[15]
DSX19S 40C U	House-side shield for P6 and P7[15]
DSX19S 60C U	House-side shield for P8, P9, P10, P11 and P12[15]
PUMBA DDBXD U*	Square and round pole universal mounting bracket (specify finish)[15]
KMA8 DDBXD U	Mast arm mounting bracket adapter (specify finish)[15]

For more control options, visit DTL and ROAM® online.

NOTES
1. P10, P11, P12 or P13 and rotated optics (L90, R90) only available together.
2. Not available with HS.
3. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
4. Single fuse (SF) requires 120V, 277V or 347V. Double fuse (DF) requires 208V, 240V or 480V.
5. Not available in P1 or P10.
6. Universal mounting brackets intended for retrofit on existing, pre-drilled poles only. 1.5 G vibration load rating per ANSI C136.31.
7. Must order fixture with SPA option. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
8. Must be ordered with PIRHN. Sensor cover available only in dark bronze, black, white and natural aluminum colors.
9. Photocell ordered and shipped as a separate line item from Acuity Brands Controls.
10. Photocell ordered and shipped as a separate line item from Acuity Brands Controls. See accessories. Not available with DS option. Shorting cap included.
11. If ROAM® node required, it must be ordered and shipped as a separate line item from Acuity Brands Controls. Node with integral dimming.
12. Provides 50/50 luminaire operation via (2) independent drivers. Not available with PER, PERS, PER7, PIR or PIRH. Not available P1, P2, P3, P4 or P5.
13. Requires (2) separately switched circuits with isolated neutral. See Outdoor Control Technical Guide for details.
14. Reference Motion Sensor table on page 4.
15. Reference controls options table on page 4 to see functionality.
16. Not available with other dimming controls options.
17. Not available with BLC, LCCO and RCCO distribution. Also available as a separate accessory; see Accessories information.
18. Must be ordered with fixture for factory pre-drilling.
19. Requires luminaire to be specified with PIER, PIERS or PIER7 option. See PEIR Table on page 3.
20. For retrofit use only.

A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and system-level interoperability.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is A+ Certified when ordered with DTL® controls marked by a shaded background. DTL DLL equipped luminaires meet the A+ specification for luminaire to photocontrol interoperability!
- This luminaire is part of an A+ Certified so ution for ROAM® or XPoint™ Wireless control networks, providing out-of-the-box control compatibility with simple commissioning, when ordered with drivers and control options marked by a shaded background.

To learn more about A+, visit www.acuitybrands.com/aplus.

1. See ordering tree for details.
2. A+ Certified Solutions for ROAM require the order of one ROAM node per luminaire. Sold Separately: Link to Roam; Link to DTL DLL

FEATURES & SPECIFICATIONS

INTENDED USE

The sleek design of the D-Series Size 1 reflects the embedded high performance LED technology. It is ideal for many commercial and municipal applications, such as parking lots, plazas, campuses, and streetscapes.

CONSTRUCTION

Single-piece die-cast aluminum housing has integral heat sink fins to optimize thermal management through conductive and convective cooling. Modular design allows for ease of maintenance and future light engine upgrades. The LED drivers are mounted in direct contact with the casting to promote low operating temperature and long life. Housing is completely sealed against moisture and environmental contaminants (IP65). Low EPA (1.01 ft²) for optimized pole wind loading.

FINISH

Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tig-fly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Available in both textured and non-textured finishes.

OPTICS

Precision-molded proprietary acrylic lenses are engineered for superior area lighting distribution, uniformity, and pole spacing. Light engines are available in standard 3000 K, 4000 K and 5000 K (70 CRI) configurations. The D-Series Size 1 has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL

Light engine configurations consist o' high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (up to L85/100,000 hours at 25°C). Class 1 electronic drivers are designed to have a power factor >90%, THD <20%, and an expected life of 100,000 hours with <1% failure rate. Easily serviceable 10kV surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

STANDARD CONTROLS

The DSX1 LED area luminaire has a number of control options. Dusk to dawn controls can be utilized via optional NEMA twist-lock photocell receptacles. Integrated motion sensors with on-board photocells feature field-adjustable programing and are suitable for mounting heights up to 30 feet.

nLIGHT AIR CONTROLS

The DSX1 LED area luminaire is also available with nLight® AIR for the ultimate in wireless control. This powerful controls platform provides out-of-the-box basic motion sensing and photocontrol furctionality and is suitable for mounting heights up to 40 feet. Once commissioned using a smartphone and the easy-to-use CLARITY app, nLight AIR equipped luminaires can be grouped, resulting in motion sensor and photocell group response without the need for additional equipment. Scheduled dimming with motion sensor over-ride can be achieved when used with the nLight Eclypse. Additional information about nLight Air can be found here.

INSTALLATION

Included mounting block and integral arm facilitate quick and easy installation. Stainless steel bolts fasten the mounting block securely to poles and walls, enabling the D-Series Size 1 to withstand up to a 3.0 G vibration load rating per ANSI C136.31. The D-Series Size 1 utilizes the AERIS™ series pole drilling pattern (template #8). NEMA photocontrol receptacle are also available.

LISTINGS

UL Listed for wet locations. Light engines are IP66 rated; luminaire is IP65 rated. Rated for -40°C minimum ambient. U.S. Patent No. D672,492 S. International patent pending.

DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product.
Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

International Dark-Sky Association (IDA) Fixture Seal of Approval (FSA) is available for all products on this page utilizing 3000K color temperature only.

WARRANTY

5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application.
All values are design or typical values, measured under laboratory conditions at 25 °C.
Specifications subject to change without notice.

LED wall mount luminaires - Asymmetrical flat beam light distribution

BEGA

Application
LED wall mount luminaire with asymmetrical flat beam light distribution designed for the illumination of parking areas and roadways.

Materials
Luminaire housing and mounting canopy constructed of die-cast marine grade, copper free (≤0.3% copper content) A360.0 aluminum alloy
Clear safety glass with anti-reflective coating for increased transmission
Reflector made of pure anodized aluminum
Silicone applied robotically to casting, plasma treated for increased adhesion
High temperature silicone gasket
Mechanically captive stainless steel fasteners

NRTL listed to North American Standards, suitable for wet locations
Protection class IP66
Weight: 17.2 lbs

Electrical

Operating voltage	120-277VAC
Minimum start temperature	-30° C
LED module wattage	62.8 W
System wattage	76.0 W
Controllability	0-10V dimmable
Color rendering index	Ra > 80
Luminaire lumens	9,357 lumens (3000K)
Lifetime at Ta= 15° C	> 500,000 h (L70)
Lifetime at Ta= 45° C	213,000 h (L70)

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	September 10, 2019
APPLICANT:	Ryan Moorman; *R. D. Moorman, Inc.*
CASE NUMBER:	SP2019-031; *Site Plan for 259 Ranch Trail*

SUMMARY

Discuss and consider a request by Ryan Moorman of R. D. Moorman, Inc. for the approval of a site plan for an office building on a 1.244-acre parcel of land identified as Lot 22, Rainbow Acres Addition, City or Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 259 Ranch Trail, and take any action necessary.

BACKGROUND

The subject property was annexed in 2004 [*Ordinance No. 04-34*] and zoned Commercial (C) District. In 2017, the City Council approved a replat [*Case No. P2017-050*] to subdivide the subject property (*i.e. Lots 22 and 23*) from the adjacent property in order for it to be developed for the construction of a mini-warehouse facility on Lot 23. Currently situated on the subject property is a single-family home that has been converted into an office building. In addition, the subject property has a detached garage and a metal accessory building located behind the primary structure.

PURPOSE

The applicant is requesting to construct a 4,950 SF metal office building in conjunction with and adjacent to the existing office building. The subject property is a 1.244-acre parcel of land that is zoned Commercial (C) District. According to the applicant, the purpose of the building is to provide additional office space and storage.

ADJACENT LAND USES AND ACCESS

The subject property is located at 259 Ranch Trail. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are several commercial structures. Beyond this is vacant tract of land adjacent to County Line Road. County Line Road is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. These areas are all zoned Commercial (C) District.

South: Directly south of the subject property several are commercial structures. Beyond this is vacant tract of land that is adjacent to FM-3097. FM-3097 is identified as a M4D *(Major Collector, four [4] lane, divided roadway)* on the City's Master Thoroughfare Plan. These areas are zoned Commercial (C) District.

East: Directly east of the subject property is a 7.489-acre parcel of land where a mini-warehouse facility has been proposed to be constructed. This is followed by a 131.39-acre tract of vacant land (*i.e. Tract 43-01 of the W. W. Ford Survey, Abstract No. 80 – commonly referred to as the Wallace Tract*). These areas are zoned Commercial (C) and Agricultural (AG)

District. Beyond this are two (2) single-family residential subdivisions (*i.e. the Oaks of Buffalo Way and Willowcrest Estates Subdivisions*), which are zoned Single-Family Estates 1.5 (SFE-1.5) District.

West: Directly west of the subject property is Ranch Trail, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this are several commercial structures, that are zoned Commercial (C) District.

DENSITY AND DIMENSIONAL REQUIREMENTS

According to Section 1.1, *Land Use and Buildings,* of Article IV, *Permissible Uses,* of the Unified Development Code (UDC), an office building is permitted by-right in a Commercial (C) District and no additional approvals are necessary with regard to the proposed land use. With the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Commercial (C) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*X=54,210 SF; In Conformance*
Minimum Lot Frontage	*60-Feet*	*X=200-Feet-In Conformance*
Minimum Lot Depth	*100-Feet*	*X=227-336-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*X=15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*
Maximum Building Height	*60-Feet*	*X=16-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*X=14%; In Conformance*
Minimum Number of Parking Spaces	*17 Parking Spaces*	*X=26 Spaces; In Conformance*
Minimum Landscaping Percentage	*15%*	*X=41%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*X=41%; In Conformance*

The proposed office building will be approximately 4,950 SF, 16-feet in height, and be situated adjacent to the north façade of the existing office building. The structure will be constructed of metal and utilize a four (4) foot brick wainscot, storefront glass, and a roll-up door on the front façade. According to the applicant, the existing metal accessory building will be removed. Staff should note that most of the surrounding buildings are metal and this office building will be located directly in front of a proposed mini-warehouse facility that will consist of 575 units within 19 metal buildings.

TREESCAPE PLAN

The submitted landscape plan identifies that there are no protected trees being removed from the site.

CONFORMANCE WITH THE CITY'S CODES

According to Subsection 4.05, *Commercial (C) District*, of Section 4, *Commercial Districts*, Article V, *District Development Standards*, of the Unified Development Code (UDC), the Commercial (C) District is a district "…intended to provide commercial land uses such as retail, large shopping centers, and restaurants. Commercial (C) Districts are generally situated in close proximity to an arterial or major collector that is capable of carrying the traffic generated by the land uses in the district…" In addition, these areas "…may require increased water, fire protection, and wastewater and drainage capacity. Since the Commercial (C) District is general in nature, development standards are less stringent as lower intensity districts such as Residential-Office (RO), Neighborhood Services (NS), and General Retail (GR) Districts…" In this case, the applicant's request appears to conform to the requirements of the Unified Development Code (UDC). Specifically, the subject property is adjacent to Ranch Trail

Road -- *identified as a Minor Collector on the City's Master Thoroughfare Plan* --, and the proposed land use (*i.e. office*) is not typically a high-volume water/wastewater user. With regard to the land use, an office building is permitted by-right in a Commercial (C) District.

Subsection 5.2, *Screening of Off-Street Loading Docks*, of Section 5, *Mandatory Provisions*, of Article VIII, *Landscape Standards,* of the Unified Development Code (UDC), off-street loading docks in commercial zoning classification must be screened from public streets and any residential district that abuts or is directly across a public street or alley from the lot. In this case, the proposed office building incorporates one (1) roll-up door (*i.e. loading dock*) that will face Ranch Trail. The applicant is proposing to screen the loading dock by providing additional landscaping directly in front of the roll-up door to limit visibility from Ranch Trail. Additionally, the landscape buffer adjacent to Ranch Trail will also provide screening from the street. Staff should note, although screening is being provided, it is possible that the roll-up door will still have limited visibility from Ranch Trail. In addition, this seems to be similar to other buildings that are located along Ranch Trail. The Planning and Zoning Commission is tasked with reviewing the proposed screening and determining additional screening is necessary. Approval of this request is a discretionary decision for the Planning and Zoning Commission.

EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following exceptions to the requirements of the Unified Development Code (UDC):

(1) Building Articulation

(a) *Maximum Wall Length*. Subsection 4.01, *General Commercial District Standards*, of Section 4, *Commercial District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), stipulates that the maximum wall length shall not exceed more than three (3) times the wall's height without a recess or projection of an architectural element. In this case the maximum wall length is approximately 48-feet; however, the length of the north and south façade of the proposed metal building will be 110-feet and will not utilize a projection, recess, or architectural element. Since this exceeds the maximum wall length, an exception to the building articulation standards is required to be approved by the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB). Section 9, *Exceptions and Variances,* of Article XI, *Zoning Related Applications,* of the Unified Development Code (UDC), gives the Planning and Zoning Commission the ability to grant an exception to the building articulation standards where unique or extraordinary conditions exists or where strict adherence to the technical requirements of the Unified Development Code (UDC) would create an undue hardship. In cases where an exception is being requested the applicant is required to provide a letter to staff outlining [1] the reason for the exception being requested, [2] the unique or extraordinary conditions that exists, and [3] the proposed compensatory measures (*e.g. increased landscaping, masonry building materials in percentages equal to or greater than the surrounding properties, etc*.). The applicant has provided staff with a letter outlining the proposed compensatory measures; however, did not provide [1] the reason for the exception being requested or [2] the unique or extraordinary circumstance that exists. In this case, the Planning and Zoning Commission is tasked with reviewing the proposed compensatory measures and determining if additional compensatory measures are necessary to offset the exception being requested.

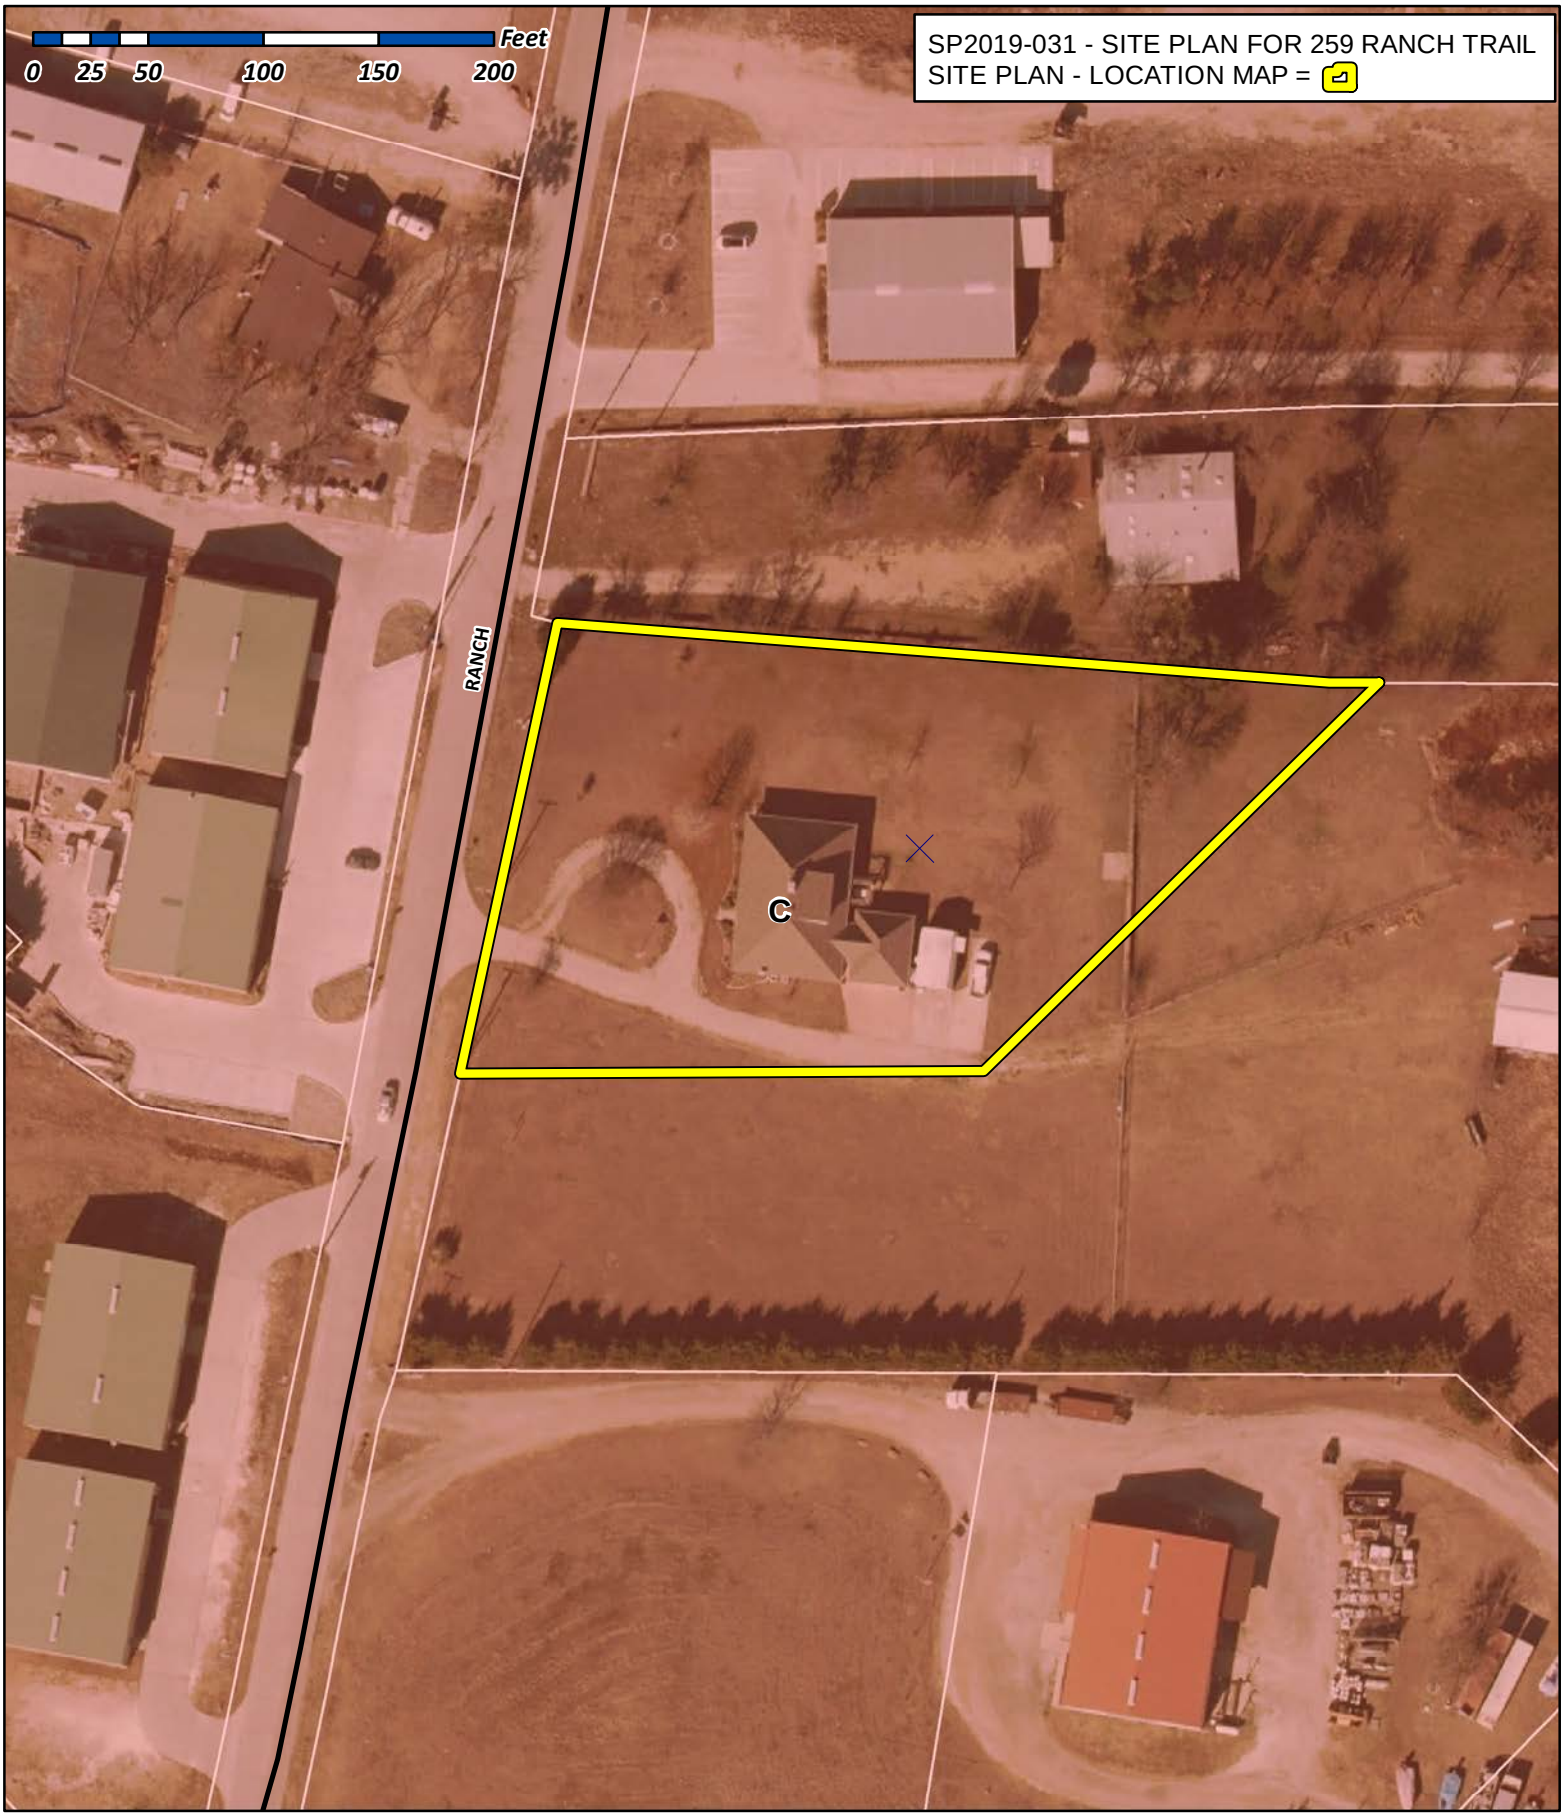
This exception is a discretionary decision for the Planning and Zoning Commission and requires a super-majority vote with a minimum of four (4) votes in the affirmative for approval. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The Future Land Use Plan adopted with the OurHometown Vision 2040 Comprehensive Plan indicates that the subject property is located in the ***Southwest Residential District*** and is situated within an area that is identified as a *Transitional Area*. According to the district, the *Transitional Area* is defined as, "…currently transitioning from interim land uses and building types to more permanent structures with conforming land uses. These areas should be given special consideration with regard to requests that further the establishment of uses and structures that will improve the property values of the adjacent properties…" In this case, this use and the proposed metal buildings are similar to the existing buildings in the area, and the proposed improvements are similar to other buildings that have been approved along Ranch Trail since this area was annexed by the City in 2004.

The Comprehensive Plan aims to encourage quality commercial development throughout the city by ensuring that industrial/office uses are adequately buffered and/or screening from residential land uses. Roadways and open space serve as a natural separation between non-residential areas and residential subdivisions. Landscape buffers utilizing a combination of berms and mature landscaping should be utilized for non-residential properties that area adjacent to residential or agricultural land. In this case, the subject property is largely surrounded by commercial/industrial uses. The applicant is also providing a landscape buffer adjacent to Ranch Trail. Due to these reasons, this request seems to generally conform to the policies of the Comprehensive Plan regarding screening of non-residential properties.

ARCHITECTURAL REVIEW BOARD (ARB):

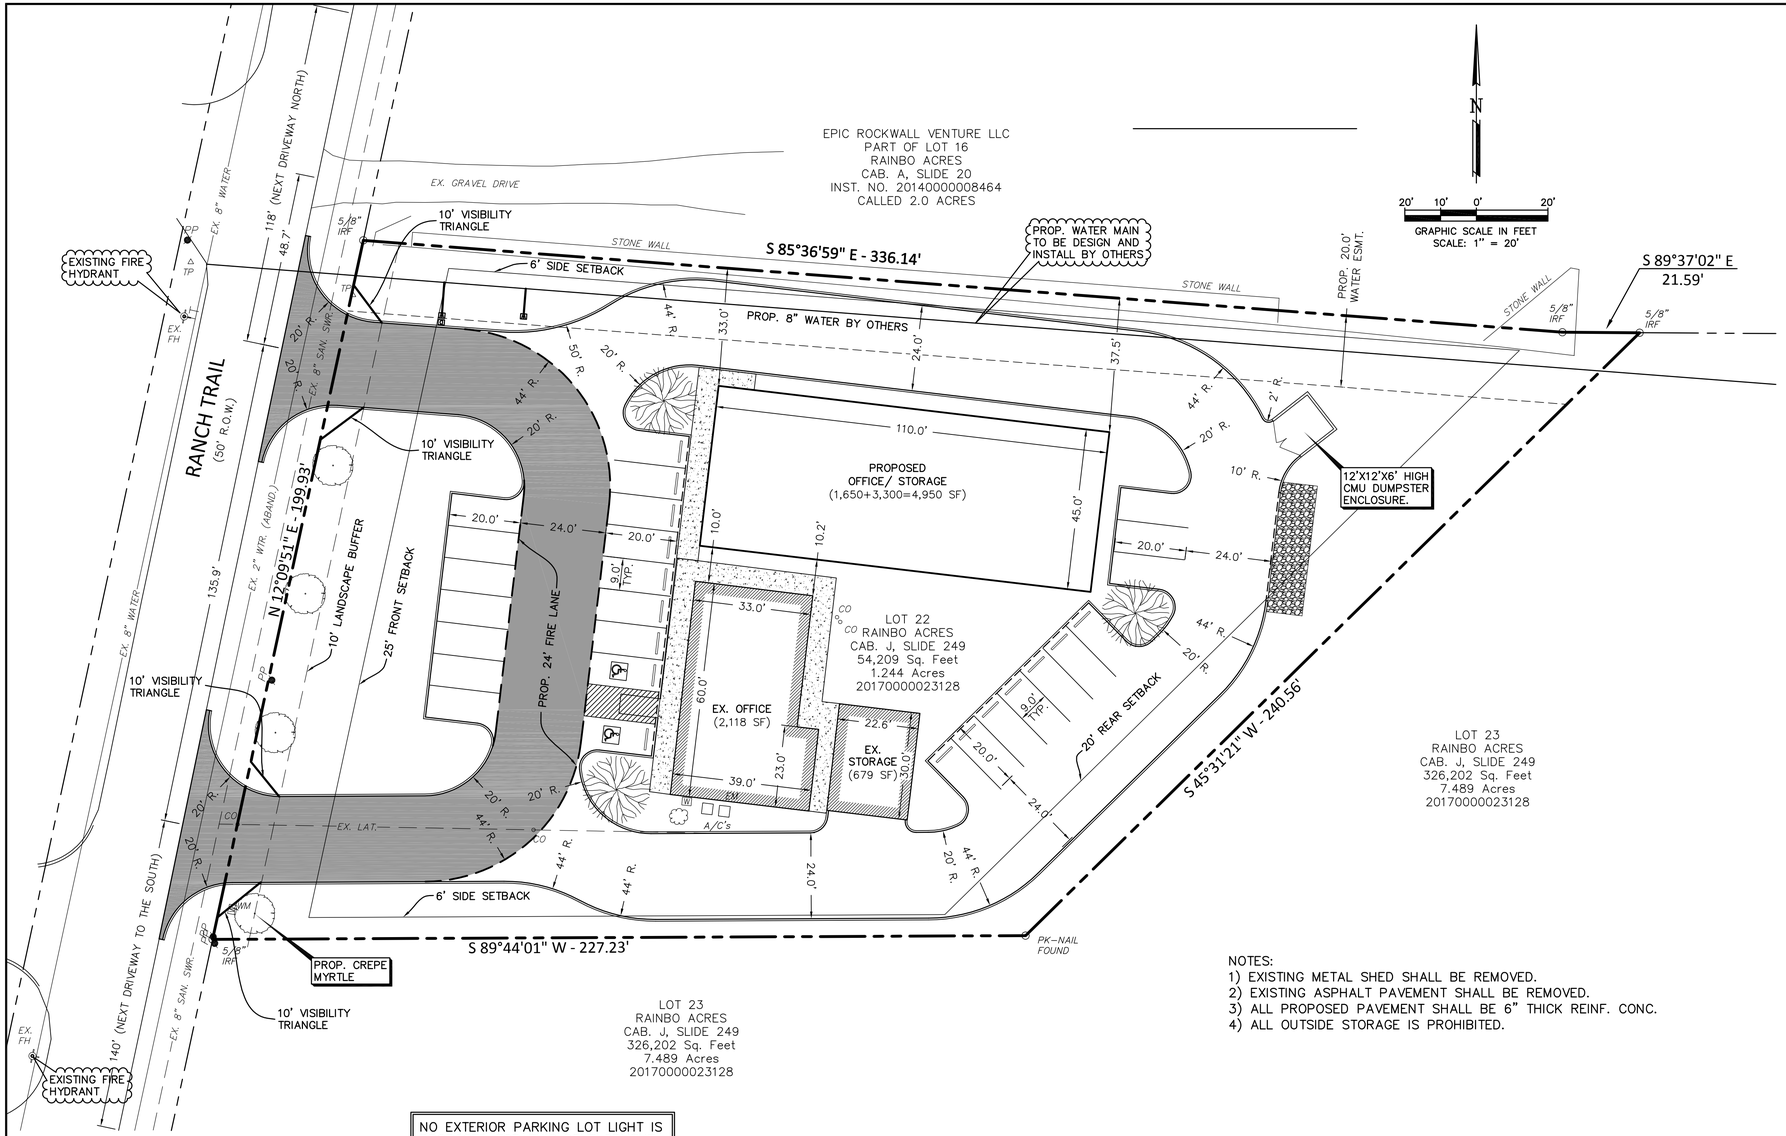


On August 28, 2019, the Architectural Review Board (ARB) reviewed the proposed building elevations and passed a motion to recommend approval of the site plan by a vote of 3-1 with Board Member Neill dissenting and Board Members Meyrat, Wacker, and Johnson absent.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the applicant's site plan then staff would propose the following conditions of approval:

(1) The existing metal accessory building shall be removed prior to issuance of a Certificate of Occupancy (CO). This requirement is due to the change of use on the property and the non-conforming nature of the structure.



(2) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

TO:	Planning and Zoning Commission
DATE:	September 10, 2019
APPLICANT:	Jimmy Strohmeyer, *Strohmeyer Architects, Inc.*
CASE NUMBER:	SP2019-033; *Site Plan for the Harbor Height Retail and Restaurants*

SUMMARY

Discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of a site plan for a strip retail center and restaurant on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary.

BACKGROUND

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistricts that contained individual development and land use standards. On November 17, 2014, the City Council adopted *Ordinance No. 14-51*, which contained a PD Development Plan for a 2.893-acre tract of land located in the *Hillside Subdistrict* (*i.e. the subject property*). This PD Development Plan showed a series of buildings would be constructed along Harbor Heights Drive in conformance to the requirements of *Ordinance No. 10-21*. With the approval of *Ordinance No. 14-51*, the City Council also approved waivers to the building placement requirements and pedestrian access requirements to allow retaining walls ranging from seven (7) to nine (9) feet in height to be established along Harbor Heights Drive. The approval of these walls were tied to building elevations submitted by the applicant and which were tied down as apart of the City Council's approval. On May 1, 2017, the City Council adopted *Ordinance No. 17-22*, which amended *Ordinance No. 10-21* to update various exhibits in the ordinance; however, no changes were made to the requirements of the *Hillside Subdistrict* or for the subject property.

On May 15, 2019, the applicant -- *Jimmy Strohmeyer of Strohmeyer Architects, Inc.* -- submitted an application requesting to amend *Ordinance No. 14-51* to change the PD Development Plan approved for the subject property (*i.e. Case No. Z2019-013*). The new PD Development Plan showed additional buildings being added along Sunset Ridge Drive and a central green space being incorporated adjacent to Harbor Heights Drive. This request was approved on July 1, 2019 by *Ordinance No. 19-25*.

PURPOSE

Based on the approval of *Ordinance No. 19*-25, the applicant -- *Jimmy Strohmeyer of Strohmeyer Architects, Inc.* -- submitted a site plan for the proposed retail and restaurant development on the 2.893-acre subject property on May 15, 2019.

ADJACENT LAND USES AND ACCESS

The subject property is located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a 0.293-acre tract of land zoned Planned Development District 32 (PD-32), which is located within the *Hillside Subdistrict*. Currently situated on this property is a ~3,743 SF multi-tenant office building. Beyond this are the frontage roads and main lanes of IH-30.

South: Directly south of the subject property is Harbor Heights Drive, which is classified as a *Street Type 'D'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. Beyond this is a 6.1978-acre tract of land owned by the City of Rockwall, and which currently has a parking lot that serves the greater *Harbor District*. This property is zoned Planned Development District 32 (PD-32) and is located within the *Hillside Mixed-Use Subdistrict*.

East: Directly east of the subject property is Sunset Ridge Drive, which is identified as a *Street Type 'B'* and *'E'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. East of this roadway is a seven (7) story office building (*i.e. Trend Tower*), which is situated on a 2.0617-acre parcel of land that is located within the *Summit Office Subdistrict*.

West: Directly east of the subject property is a restaurant (*i.e. Culpepper Steakhouse*), which is situated on a 1.40-acre parcel of land that is located within the *Hillside Subdistrict*. Beyond this is Shoreline Trial, which is identified as a *Street Type 'A'* according to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*]. Beyond this is a restaurant (*i.e. the Oar House*), which is situated on a 0.65-acre parcel of land that is located within the *Freeway Frontage Subdistrict*.

All property within these areas are zoned Planned Development District 32 (PD-32) and are subject to the requirements of *Ordinance No. 17-22*.

DENSITY AND DIMENSIONAL REQUIREMENTS

The site plan submitted by the applicant shows the construction of two (2) buildings (*i.e. a 5,000 SF restaurant along Sunset Ridge Drive, and a two [2] story 13,500 SF restaurant and office building at the corner of the intersection of Sunset Ridge Drive and Harbor Heights Drive*) and the addition of two (2) retail/restaurant pad sites (*i.e. a pad site for a 6,000 SF building at the corner of the intersection of Sunset Ridge Drive and the IH-30 frontage road, and a 4,000 SF building along Harbor Heights Drive*). In addition, the site plan depicts the incorporation of a private park area that will be provided in between the proposed pad site and proposed building adjacent to Harbor Heights Drive. A park plan for this area showing the provision of small amenities (*i.e. play cubes -- similar to the ones situated in the Harbor retail areas --, park benches, and landscaping*) was submitted for the Parks and Recreation Board's review.

With the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the PD Development Plan approved with *Ordinance No. 19-25*, the design guidelines contained in *Resolution No. 10-40*, the technical requirements contained within *Ordinance No. 17-22,* and the UDC for a property located within the *Hillside Subdistrict* of Planned Development District 32 (PD-32). A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Build-To-Line (Distance from ROW Line)	*8' (Harbor Heights Drive)* *4' (Sunset Ridge Drive)*	*Approved Per Ord. 19-25*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Setback from ROW	*250' (IH-30 Frontage Road)* *5' (Harbor Heights & Sunset Ridge)*	*Approved Per Ord. 19-25*
Minimum Building Façade along ROW	*85% (Harbor Heights)* *100% (Harbor Heights & Sunset Ridge)*	*Approved Per Ord. 19-25*
Maximum Lot Coverage	*30%*	*27.5%; In Conformance*
Ground Floor Uses	*Retail/Restaurant*	*Approved Per Ord. 19-25*
Second Floor Uses	*Retail/Restaurant/Office*	*Approved Per Ord. 19-25*
Maximum Building Height	*2 Stories or 35'*	*In Conformance*
Surface Parking Setbacks	*20' (IH-30 Frontage Road)* *10' (All Other Roads)*	*x>20'/x>10'; In Conformance*
Surface Parking	*100%*	*100%; In Conformance*
Minimum Pedestrian Ways	*2*	*2; In Conformance*
Minimum Stone Requirement	*20%*	*x<20%; Variance Requested*

TREESCAPE PLAN

The subject property does not currently have any trees on it, and as a result the Treescape Plan requirement was waived for this case.

VARIANCES/EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following exceptions and variances to the requirements of the Unified Development Code (UDC):

(1) *Building Materials.* The material percentages included with the building elevations incorporated the glazing in the calculations, which -- *according to the procedures for calculating building material percentages* – should be excluded from the formula. The revised percentages are as follows:

Building A

	North		East		South		West	
Brick	934	34.14%	640	36.72%	364	12.01%	480	30.32%
Stone	817	29.86%	295	*16.92%*	1,683	55.51%	114	*7.20%*
Metal	101	3.69%	71	4.07%	57	1.88%	34	2.15%
Stucco	884	32.31%	737	42.28%	928	30.61%	955	60.33%
	2,736	100.00%	1,743	100.00%	3,032	100.00%	1,583	100.00%

Building B

	North		East		South		West	
Brick	450	30.30%	195	14.86%	125	9.12%	414	28.26%
Stone	310	20.88%	333	25.38%	871	63.53%	201	*13.72%*
Metal	45	3.03%	51	3.89%	91	6.64%	39	2.66%
Stucco	680	45.79%	733	55.87%	284	20.71%	811	55.36%
	1,485	100.00%	1,312	100.00%	1,371	100.00%	1,465	100.00%

RED: Variance to the Material Requirements

(a) *Stone Percentage Requirement*. According to Section 6, *General Overlay District Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), a minimum of 20% natural or quarried stone is required on all building façades. In this case, the applicant is showing percentages less than 20% on the east (*16.92%*) and west (*7.20%*) façades of *Building A* and the west (*13.72%*) façade of *Building B*.

(b) *Natural Stone Requirement*. According to Section 6, *General Overlay District Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the Planning and Zoning Commission, upon recommendation from the Architectural Review Board

(ARB), may grant the use of a high quality manufactured or cultured stone in lieu of natural or quarried stone if it is determined that the application of the manufactured or cultured stone will be complimentary and integral to the design of the building. In making this determination the shape, texture, size, quality and warranty of the product should be considered. In this case, the applicant is proposing to use a *natural stone veneer*, which does not meet this requirement. Staff has requested a material sample of the veneer for the Architectural Review Board (ARB) to review and provide a recommendation to the Planning and Zoning Commission.

(2) *Articulation Requirements.*

a) *Primary Building Façades.* According to Section 5.01.C.1, *General Industrial District Standards*, of Article V, *District Development Standards*, of the UDC, primary facades require projections associated with entryways, architectural elements and wall lengths. Specifically, primary architectural/entryway elements are required to extend a minimum of 25% above the top of the wall and a minimum of 25% from the walls surface. In addition, no wall should exceed a length of four (4) time the walls height without an architectural/entryway element. In this case, the proposed building does not meet the required vertical or horizontal projections on the primary façades.

b) *Secondary Building Façades.* According to Section 5.01.C.1, *General Industrial District Standards*, of Article V, *District Development Standards*, of the UDC, secondary facades require projections associated with entryways and architectural elements. Specifically, the secondary architectural/entryway elements are required to extend a minimum of 15% above the top of the wall and a minimum of 15% from the walls surface. In this case, the proposed building does not meet the required vertical or horizontal projections on the secondary façades.

The applicant has stated that the reason for the articulation variance is tied to the topography of the site, which has a dramatic grade change along Harbor Heights Drive. Based on this grade change the applicant asserts that the site will be highly articulated in ways that the formulas cannot capture. In addition, the design and footprints of the buildings were referenced as part of *Case No. Z2019-013*; however, the variance was not specifically stated in the case memo nor was it addressed in *Ordinance No. 19-25*. With regard to the variances and exceptions relating to stone staff should point out that alternative stone products have been approved in various percentages (*i.e. less than 20%*) on other buildings in the Harbor District. As compensatory measures to requested variances, the applicant has provided additional landscaping and a private park amenity.

These variances and exceptions are discretionary decisions for the Planning and Zoning Commission and require approval by a *¾-majority vote* of the Planning and Zoning Commission. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

By virtue of being in Planned Development District 32 (PD-32), generally conforming to *Ordinance No. 17-22* and the approved PD Development Plan (*i.e. Ordinance No. 19-25*), the proposed site plan conforms to the majority of the district strategies intended for properties in the *Harbor District* as stipulated by the *Land Use Plan* outlined in the OURHometown Vision 2040 Comprehensive Plan. In addition, the incorporation of the park/central green space conforms to the goals and policies contained in Chapter 3, *Parks, Open Space, and Trails*, of the OURHometown Vision 2040 Comprehensive Plan. Specifically, this section states that staff should, "(e)ncourage the creation of small, private greens and common areas in new neighborhoods, commercial shopping centers, and industrial developments for the purpose of enhancing the character, desirability and quality of social interaction in the city." The programing and layout of the proposed park/central green space will be reviewed by the Parks and Recreation Board and any recommendations shall be approved with the final plat.

ARCHITECTURAL REVIEW BOARD (ARB):

On August 27, 2019, the applicant met with the Architectural Review Board (ARB) to discuss the proposed building elevations. At this meeting the applicant introduced two (2) different design schemes. Based on the proposed design schemes, the ARB requested that the applicant utilize the contrasting building material scheme (*i.e. the scheme that proposed elements that contrasted with the colors and materials used on the Trend Tower elevations*). In addition, the ARB requested that the applicant better conform to the vertical articulation requirements and revise the tower element on the building at the corner of the intersection of Sunset Ridge Drive and Harbor Heights Drive. The ARB also requested a material sample board for the purpose of reviewing the proposed stone veneer and providing a recommendation to the Planning and Zoning Commission. The applicant has since submitted building elevations conforming with the majority of the ARB's recommendations; however, the applicant is requesting a variance to the articulation requirements. The applicant has stated that a stone sample will be provided to the ARB at the meeting on September 10, 2019.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to approve the applicant's site plan and associated variances/exceptions, then staff would propose the following conditions of approval:

(1) All of the conditions required by *Ordinance No. 19-25* and that were established with *Case No. Z2019-013* shall be conditions of approval of this site plan.

(2) The Parks and Recreation Board shall review the private park/open space amenity package and make recommendations in conjunction with the approval of the final plat.

(3) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

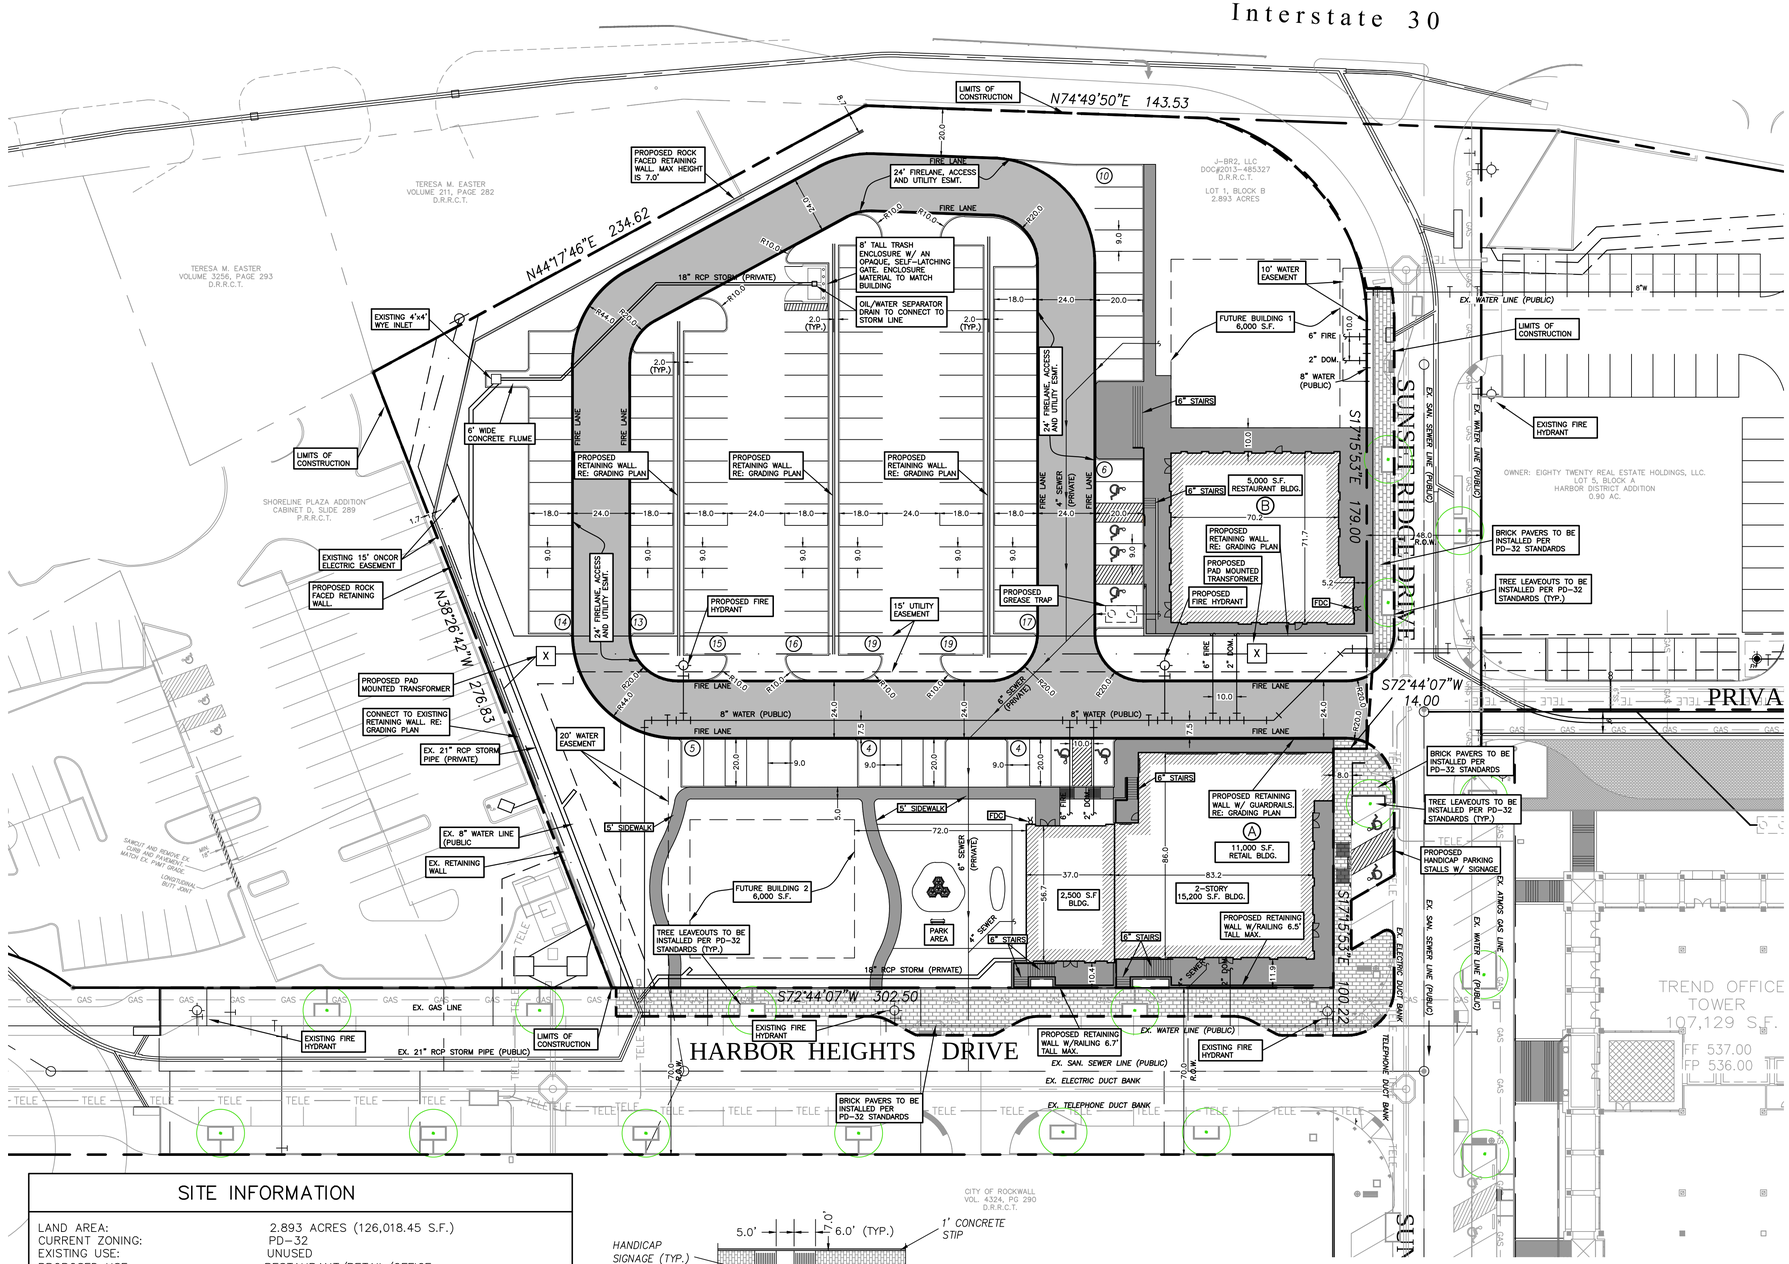
Re: Harbor Heights Restaurant Retail – SP2019-033

Ryan,

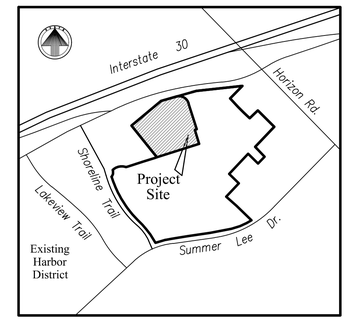
I am requesting a variance on the above-referenced project for the following items:

1. Stone requirement for each building façade – While we do not meet the 20% per façade, overall we exceed the 20% stone for the total of all facades. Stone is provided on all facades for consistency.
2. Building articulation formulas – Due to the natural topography of the site, the buildings have extreme vertical articulation that is not captured by the formula calculations.

Compensatory measures provided:

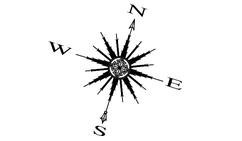


1. Park and green space with amenities
2. Additional landscaping beyond required



Thank you for your consideration of these variances. If you need further information, please let us know.

Sincerely,



Jimmy Strohmeyer, AIA, NCARB
President & CEO

  - LANTANA TRAILING, WHITE JAP — 1 GAL., 18" O.C. MAX.
- BG — BERMUDA GRASS
- PLANTING POTS AT 20' SPACING IN FRONT OF BUILDINGS ALONG HARBOR HEIGHTS DRIVE

LANDSCAPING GENERAL REQUIREMENTS

PROPOSED PARKING SPACES - 142 SPACES
REQUIREMENT - 1 - 3" CALIPER 65 GALLON TREE PER 8 PARKING SPOTS
REQUIRED TREES - 18
PROVIDED - 36 TREES

IH 30 OVER LAY REQUIREMENTS

20' LANDCAPE BUFFER
2 CANOPY TREES & 4 ACCENT TREES PER 100 FEET OF IH30 FRONTAGE.

IH 30 FRONTAGE = 170 LF
CANOPY TREES REQUIRED: 4
CANOPY TREES PROVIDED: 4
ACCENT TREES REQUIRED: 7
ACCENT TREES PROVIDED: 7

LANDSCAPING GENERAL NOTES:

1. NO LANDSCAPING TREES SHALL BE WITHIN 5' OF ANY UTILITY.

2. A MINIMUM CLEARANCE OF 5' SHALL BE MAINTAINED BETWEEN LANDSCAPING AND FIRE HYDRANTS.

3. IRRIGATION SHALL BE IN ACCORDANCE WITH THE UNIFIED DEVELOPMENT CODE.

SITE LANDSCAPING SCHEDULE:

1. CANOPY TREES OF THE FOLLOWING VARIETY ARE ACCEPTABLE: CEDAR ELM, TEXAS RED OAK, HOMESTEAD ELM, LACE BARK ELM, BALD CYPRESS, CHINESE PISTACHIO, OCTOBER GLORY MAPLE, PECAN, TEXAS ASH, LIVE OAK, CHINQUAPIN OAK, BURR OAK. 4" CALIPER, 60 GALLON, 12'-14' HEIGHT.

2. UNDERSTORY ORNAMENTAL(ACCENT) TREES OF THE FOLLOWING VARIETY ARE ACCEPTABLE: TEXAS REDBUD, MEXICAN PLUM, DOWNY HAWTHORN, WAX MYRTLE YAUPON, DECIDUOUS YAUPON. 3" CALIPER, 60 GALLON, 8'-10' HEIGHT.

3. SHRUBS SHALL BE 3 GALLON EVERBLOOMING ROSE AND 7 GALLON EDWARD GOUICHER ABELIA.

4. PERENNIAL ORNAMENTAL GRASS SHALL BE HAMELIN 1 GALLON FOUNTAIN GRASS.

5. PERENNIALS SHALL BE 1 GALLON RED VELVET EVERGREEN DAYLILLIES AND 1 GALLON WHITE LANTANA TRAILING.

6. WHERE NOTED, AREAS SHALL BE SOLID SODDED WITH BERMUDA GRASS.

PARK PLAN

PK-1

SP2019-033

/tmp/AcPublish_440/HHRR-Photo-090419.dwg

STREET SCAPE ELEMENTS*

PEDESTRIAN PAVING MATERIALS

CONCRETE PAVING: ALL PEDESTRIAN WALKWAYS SHALL BE AN UPGRADED PEDESTRIAN CONCRETE PAVING WITH INTEGRAL COLOR (SCOFIELD CHROMIX C-24 CHARCOAL OR C-15 COACHELLA SAND), LIGHT SANDBLAST FINISH, AND SAWCUT CONTROL JOINTS.

CONCRETE PAVERS: CONCRETE PAVERS SHALL BE PAVESTONE CONCRETE PAVERS, HOLLAND 98 PARKWAY PROVENCIAL, ANTIQUE TERRA COTTA COLOR, 6 CM THICKNESS. PAVERS SHALL BE PLACED IN A RUNNING BOND PATTERN PERPENDICULAR TO THE STREET CURB.

VEHICULAR PAVING MATERIALS

CONCRETE PAVING: THE STANDARD VEHICULAR PAVING MATERIAL SHALL BE CONCRETE IN ACCORANCE WITH CITY OF ROCKWALL STANDARDS.

CONCRETE PAVERS: UPGRADED VEHICULAR PAVING SHALL BE CONCRETE PAVERS. CONCRETE PAVERS SHALL BE PAVESTONE CONCRETE PAVERS, HOLLAND 98 PARKWAY PROVENCIAL, ANTIQUE TERRA COTTA COLOR, 6 CM THICKNESS. PAVERS SHALL BE PLACED IN A HERRINGBONE PATTERN.

LIGHTING

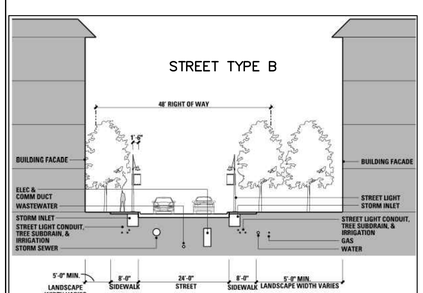
PEDESTRIAN SCALE STREET LIGHT: AMERLUX PT01/D154–TS20 HR–GL 100W METAL HALIDE FIXTURE ON AMERLUX DP04/PLT–12 ROUND POLE WITH AMERLUX CBR40–1–24 BANNER ARMS, POWDER COAT COLOR RAL#7003 MOSS GREY.

TREE UPLIGHT: ALL STREET TREE WELLS WITHIN THE RIGHT OF WAY SHALL HAVE UPLIGHTS PER VISION–3 SPECIFICATION ON THIS SHEET.

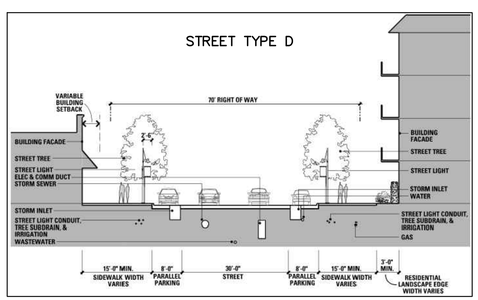
TREE PLANTING

STREET TREES WITHIN THE RIGHT OF WAY SHALL BE THE FOLLOWING SIZES:

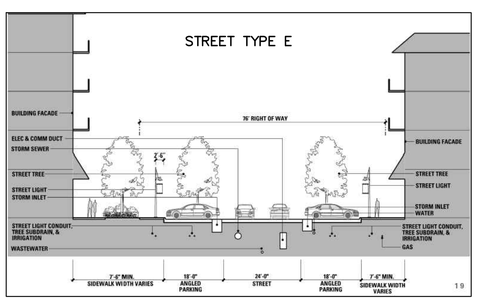
STREET TREES IN TREE WELLS AT DISTANCES SHOWN SHALL BE 4" CALIPER, 100 GAL.



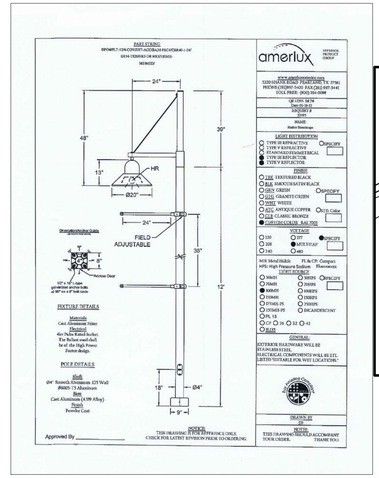
STREET TREES IN PARKING ISLANDS AT DISTANCES SHOWN SHALL BE 6" CALIPER.



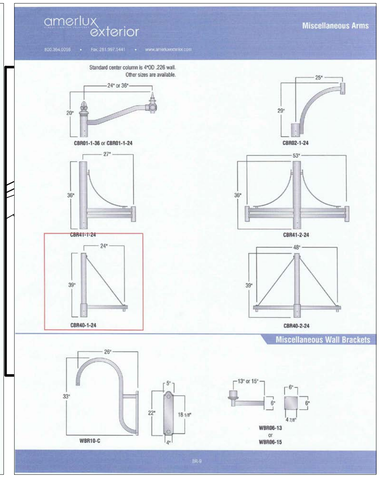
PER MASTER TREE PLAN:



STREET TYPE B: SHALL CONTAIN CEDAR ELM TREES AS SHOWN ON THIS PLAN.



STREET TYPE D&E: SHALL CONTAIN, AS SHOWN ON THIS PLAN, CEDAR ELM, RED OAK, POND CYPRESS OR BALD CYPRESS, AND ITALIAN CYPRESS TREES.



*ALL STREET TYPE INFORMATION IS REFERENCED IN THE HARBOR DISTRICT FORM BASED CODE

Gullwing

G18 Area Luminaires

The Philips Gardco Gullwing is an area luminaire defined by its sleek profile and rugged construction. The housing is one-piece, die cast aluminum and mounts directly to a pole or wall without the need of a separate support arm. The multifaceted arc-image duplicating optical systems provide IES Types I, II, III, IV and V distributions. The door frame is single-piece diecast aluminum and retains an optically clear tempered flat glass lens. The luminaire is completely sealed and gasketed preventing intrusion from moisture, dust and insects. Gullwing luminaires are finished with a fade and abrasion resistant TGIC powdercoat. Flat glass lens luminaires provide full cutoff performance. Sag Lens luminaires provide cutoff performance.

SPECIFICATIONS

GENERAL DESCRIPTION: The Philips Gardco Gullwing is an area luminaire defined by its sleek profile and rugged construction. The housing is one-piece, diecast aluminum and mounts directly to a pole or wall without the need of a separate support arm. The multifaceted arc-image duplicating optical systems provide IES Types I, II, III, IV and V distributions. The door frame is single-piece diecast aluminum and retains an optically clear tempered flat glass lens. The luminaire is completely sealed and gasketed preventing intrusion from moisture, dust and insects. The Gullwing luminaires are finished with a fade and abrasion resistant TGIC powdercoat.

HOUSING: A one-piece die cast aluminum housing mounts directly to a pole or wall without the need for a support arm. The low profile rounded form reduces the effective projected area of the luminaire to only 1.2 ft^2/.11 m^2.

LENS ASSEMBLY: A single-piece diecast aluminum lens frame hinges down from the housing and is secured by a stainless steel lanyard and hinge pin.

An optically clear, heat and impact resistant tempered flat glass lens is mechanically secured with eight retainers. The electrical and optical chambers are thoroughly sealed with a one-piece memory retentive hollow-core EPDM gasket to prevent intrusion by moisture, dust, and insects.

OPTICAL SYSTEMS: The segmented optical systems are manufactured from homogenous sheet aluminum which has been electrochemically brightened, anodized and sealed. The multifaceted arc image duplicating systems are designed to produce IES Types I (1), II (2XL), III (3XL), IV (4XL and BLC), and V (Q). With the 2XL, 3XL and 4XL luminaries, the reflector facets form a conical fan around the arc tube with each facet positioned to be precisely tangent to the top of the arc tube.

The lampholder is glazed porcelain with a nickel plated screw shell. Position-oriented mogul base sockets to accept high output horizontal metal halide lamps are supplied standard.

ELECTRICAL: All electrical components are UL recognized and factory tested. Electronic and magnetic HID ballasts are high power factor and mounted on a unitized tray with quick electrical disconnects. Magnetic HID ballasts are the separate component type. Electronic and magnetic HID ballasts are capable of providing reliable lamp starting down to -20°F / -29°C.

Luminaires provided with the CosmoPolis or MasterColor Elite high performance ceramic metal halide electronic systems include high power factor electronic ballasts, designed specifically for the system selected.

FINISH: Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

LABELS: All luminaires bear UL or CUL (where applicable) Wet Location labels.

WARRANTY: 5 year limited warranty. See philips.com/warranties for complete details and exclusions.

FULL CUTOFF PERFORMANCE: Full cutoff performance means a luminaire distribution where zero candela intensity occurs at an angle at or above 90° above nadir . Additionally, the candela per 1000 lamp lumens does not numerically exceed 100 (10 percent) at a vertical angle of 80° above nadir. This applies to all lateral angles around the luminaire.

CUTOFF PERFORMANCE: Cutoff performance means a luminaire distribution where the candela per 1000 lamp lumens does not numerically exceed 25 (2.5 percent) at an angle at or above 90° above nadir, and 100 (10 percent) at a vertical angle of 80° above nadir. This applies to all lateral angles around the luminaire.

AGENDA
CAPITAL IMPROVEMENT ADVISORY COMMITTEE
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 10, 2019
6:30 P.M.

CALL TO ORDER

APPOINTMENTS

1. **MIS2019-001** **(Ryan)**
   Appointment with Eddie Hass of Freese and Nichols, Inc. and Matt Hickey, PE of Birkoff, Hendricks & Carter, LLP to discuss and consider the Draft Roadway Impact Fee Report, the Draft Water and Wastewater Impact Fee Report, and the proposed impact fee and collection rate, and take any action necessary.

DISCUSSION ITEMS

2. Additional discussion concerning the Impact Fee Update and Capital Improvements Advisory Committee issues.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 6th day of September 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

DRAFT

Chapter 1: Introduction

Shrinking funds available for transportation improvements on city thoroughfares limit many cities from upgrading infrastructure to meet increasing travel demands. To meet the needs of new growth, many cities collect "impact fees" from new development to help fund transportation improvements necessitated by such development. What is unique about impact fees is that they often finance roadway improvements that are considered “offsite” to new development. However, when considering the traffic implications created by new development on the roadway system, impact fees provide a means by which infrastructure may keep pace with new development.

Texas initially authorized the use of impact fees with the 1987 legislature. Now codified in Chapter 395 of the Texas Local Government Codes, the legislation authorizes cities to collect fees from new developments to finance new construction or expansion of capital improvements such as water treatment and distribution facilities, storm and wastewater facilities, and transportation facilities. The law stipulates that all fees collected from new development must not exceed the maximum amount calculated by the methodology described therein.

The law also mandates that impact fee systems be updated periodically to ensure that an appropriate cost per service unit is calculated commensurate with an impact fee capital improvements program. The law also mandates that as new transportation improvements are completed, actual costs are inserted into the cost per service unit calculation to reflect a more accurate reading of service area costs as opposed to estimated costs that were established at the onset of the impact fee system. Finally, new capital improvement projects may be added to the program, subject to meeting eligibility requirements.

In September 2001, Chapter 395 was amended which revised called for several technical and administrative changes of impact fee systems including:

- Expansion of the permissible service area structure for roadway facilities from three to six miles;
- A credit for the portion of ad valorem tax revenues generated by improvements over the program period, or the credit equal to 50% of the total projected cost of implementing the capital improvements plan;
- A city's share of costs on the federal or Texas highway system, including matching funds and costs related to utility line relocation, the establishment of curbs and gutters, sidewalks, drainage appurtenances, and rights-of-way;
- Increase in the time period of update of impact fee land use assumptions and capital improvements plan from a three to five-year period;
- Changes in compliance requirements as they relate to annual reporting; and
- Consolidation of the land use assumptions and capital improvements plan hearings.

The implementation and administration of roadway impact fee systems offers several advantages to both a city and new development among which include: 1) a systematic, structured approach to assessment of fees, 2) a clear, equitable distribution of costs associated with the impact of new development, 3) the ability to pool funds for project initiation within a service area, 4) assurance that fees collected will be spent in the area where new development is occurring, 5) up-front knowledge of fees to be imposed, 6)

credits for developer participation, and 7) ability for developers to demonstrate that, pursuant to city guidelines, specific unit equivalencies (service unit generation) may be different from those presented in the land use equivalency table.

Recognizing the need to provide adequate facilities and desiring to have equitable funding of transportation improvements, the City of Rockwall embarked in the development of a roadway impact fee system in January 2008 and is updating the program to comply with legislative requirements identified in Chapter 395. The program was updated in 2013. This update amends the roadway capital improvements program based on updated land use assumptions as well as, input by the designated impact fee Capital Improvements Advisory Committee. To assist with this study, the City of Rockwall retained Freese and Nichols, Inc. to update the roadway impact fee system.

Study Methodology

To update the roadway impact fee for the City of Rockwall, a series of work tasks were undertaken and are described below:

1. Meetings were held with the City of Rockwall Staff and the Capital Improvement Advisory Committee to discuss the approach and roadway methodology to be used in the study update.

2. Impact fee service areas were reviewed and amended for any city annexations. Roadway service areas are contained to the current city limits.

3. The vehicle-mile of travel (VMT) during the PM peak hour was retained as the unit of measure for the roadway impact fee system.

4. A roadway conditions inventory was conducted on Rockwall thoroughfares for lane geometries, roadway classifications and segment lengths. New arterial and/or collector streets not previously assessed were added to the program database.

5. The existing roadway network was evaluated based on traffic volume count data collected May 2019, to determine roadway capacity, current utilization, and if any capacity deficiencies exist within each impact fee service area.

6. Projected 10-year growth, in terms of vehicle-miles of demand, was calculated for the service areas based on updated land use assumptions (projections of population and employment growth) prepared by Rockwall City Staff in June 2019 and supplemented with the updated land use equivalency table. The Land Use Assumptions for Impact Fees report was reviewed and approved by the Capital Improvements Advisory Committee (CIAC) prior to development of VMT growth projections and capital improvements plan (CIP) update.

7. The existing impact fee CIP was evaluated with updated traffic count data to ensure that excess capacity remained within each impact fee project for retention in the system. The analysis of the existing impact fee CIP revealed excess capacity and therefore could remain in the impact fee program.

DRAFT

8. A roadway impact fee CIP was reviewed and amended relative to projected growth from the updated land use assumptions, analysis of existing system deficiencies, likelihood of project initiation over the short-term, the Rockwall Comprehensive Plan, and input by the CIAC and City Staff. The CIP was amended for John King Boulevard to include portions of the roadway that were previously out of the city and the addition of several new projects to the program.

9. Roadway costs associated with construction, engineering, right-of-way, and project financing for recoupment projects were provided by the City. Cost estimates for new projects were prepared by Freese and Nichols. Costs for study updates are eligible for recovery and were included in the total project cost. Roadway cost data was compiled and distributed by service area.

10. The cost of capacity supplied, cost attributable to new development and the maximum cost per service unit was calculated for each service area. A credit of 50% was applied to the overall cost of the capital improvements program for use in the calculation of the cost per service unit.

11. This report was prepared to document the procedures, findings, and conclusions of the study.

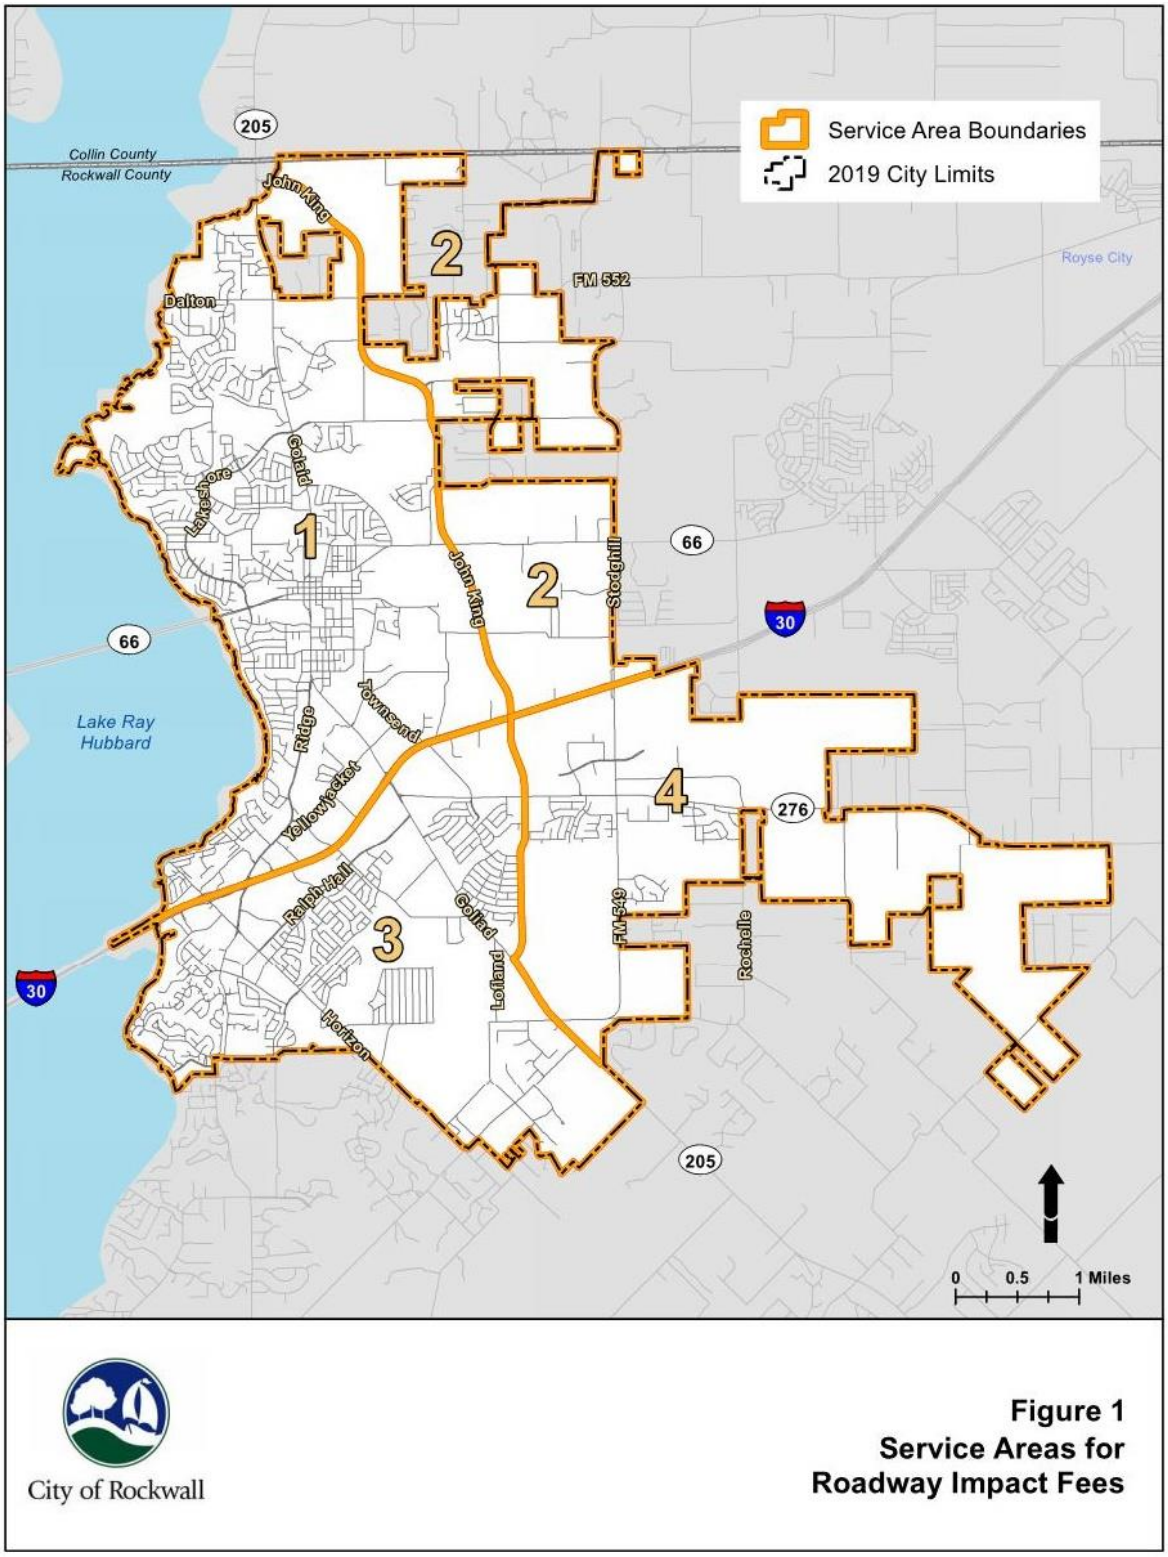
Organization of Report

This report describes the background information, analysis, and findings of the study in six parts, with a chapter devoted to each:

- Roadway Impact Fee Service Areas (Chapter 2)
- Roadway Impact Fee Service Units (Chapter 3)
- Existing Conditions Analysis (Chapter 4)
- Projected Conditions Analysis (Chapter 5)
- Calculation of Impact Fees (Chapter 6)
- Conclusion (Chapter 7)

DRAFT

Chapter 2: Roadway Impact Fee Service Areas



Chapter 395 requires that service areas be defined for impact fees to ensure that facility improvements are in proximity to the area that is generating the need. Legislation mandates that roadway service areas be limited to a six-mile maximum and must be located within the current city limits. Roadway service areas are different from other impact fee service areas, which can include the city limits and Extra-Territorial Jurisdiction (ETJ). This is primarily because roadway systems are "open" to both local and regional use as opposed to a defined limit of service that is provided with water and wastewater systems. The result is that new development can only be assessed an impact fee based on the cost of necessary capital improvements within that service area.

The service area structure was developed using the criteria defined in Chapter 395 as it relates to conformance with city limits and the six-mile boundary limits. Other considerations included use of physical or natural features, potential roadway projects and their relation to undeveloped areas of the community, and the planning areas used in long-range plan efforts (for consideration of service area expansion due to possible annexation).

Four service areas were initially developed for the program in 2007 and have been retained in each of the program updates and are generally delineated by John King Boulevard and IH-30. Changes to the service area structure include city annexations on the northern and southern sector of the city. The service area structure for Rockwall is illustrated in **Figure 1**.

DRAFT

Figure 1: Service Areas for Roadway Impact Fees

Chapter 3: Roadway Impact Fee Service Units

An important aspect of the impact fee system is the determination of the proper service unit to be used to calculate and assess impact fees for new developments. As defined in Chapter 395, "Service unit means a standardized measure of consumption, use, generation, or discharge attributable to an individual unit of development in accordance with generally accepted engineering or planning standards for a particular category of capital improvements or facility expansions."

To determine the roadway impact fee for a development, the service unit must accurately identify the impact that the development will have on the transportation system serving the development. This impact is a combination of the number of new trips generated by the development, the peaking characteristics of the land-use(s) within the development, and the length of each new trip on the transportation system.

The correct service unit must also reflect the supply, which is provided by the roadway system, and the demand placed on the system during the time in which peak, or design, conditions are present on the system. Transportation facilities are designed and constructed to accommodate volumes expected to occur during the peak hours (design hours). These volumes typically occur during the morning (AM) and evening (PM) rush hours as motorists travel to and from work.

The vehicle-mile was retained as the service unit for calculating and assessing transportation impact fees in Rockwall. The vehicle-mile as a service unit establishes a way to relate the intensity of land development to the demand on the system with published trip generation data. It also recognizes state legislation requirements with regards to trip length.

The PM peak hour was retained as the time period for assessing impacts because the greatest demand for roadway capacity occurs during this hour. Roadways are sized to meet this demand, and roadway capacity can more easily be defined on an hourly basis. Traffic volume data collected in May 2019 was used as the basis for the system update.

Service Units

Service units create a link between supply (roadway projects) and demand (development). Both can be expressed as a combination of the number of vehicles traveling during the peak hour and the distance traveled by these vehicles in miles.

Service Unit Supply

For roadway capital projects improvement, the number of service units provided during the peak hour is simply the product of the capacity of the roadway in one hour and the length of the project. For example:

> Given a four-lane divided roadway project with a 600 vehicle per hour per lane capacity and a length of two miles, the number of service units provided is:
>
> *600 vehicles per hour per lane x 4 lanes x 2 miles = 4,800 vehicle-miles*

DRAFT

Service Unit Demand

The demand placed on the system can be expressed in a similar manner. For example, a development generating 100 vehicle trips in the PM peak hour with an average trip length of two miles would generate:

100 vehicle-trips x 2 miles/trip = 200 vehicle-miles

Likewise, the existing demand placed on the roadway network is calculated in the same manner with a known traffic volume (peak hour roadway tube counts) on a street and a given segment length.

Service Units for New Development

An important objective in the development of the impact fee system is the development of a specific service unit equivalency for individual developments. The vehicle-miles generated by a new development are a function of the trip generation and average trip length characteristics of that development. The following describes the process used to develop the vehicle-equivalency table, which relates land use types and sizes to the resulting vehicle-miles of demand created by that development.

Travel characteristics were reviewed and deemed to be similar in nature to the previous system update, and therefore no changes were made to the resultant land use equivalency table.

Trip Generation

Trip generation information for the PM peak hour was based on data published in the Tenth Edition of *Trip Generation* by the Institute of Transportation Engineers (ITE). *Trip Generation* is a reference publication that contains travel characteristics of over 160 land uses across the nation and is based on empirical data gathered from over 4,600 studies that were reported to the Institute by public agencies, developers and consulting firms. Data contained in this publication is generally accepted for use in studies by transportation engineers throughout the nation. Data not available was drawn from other published information. Rates were established for specific land use types within the broader categories of residential, office, commercial, industrial and institutional land uses. Within each of the land use categories, a rate was also established for any land uses not specifically identified.

Adjustments

The actual "traffic impact" of a specific site for impact fee purposes is based on the amount of traffic added to the street system as a result of new development. To accurately estimate new trips generated, adjustments must be made to trip generation rates and equations to account for pass-by and diverted trips. The added traffic is adjusted so that each development is assigned only for a portion of trips associated with a specific development and thus reducing the possibility of over-counting by counting only primary trips generated. Trip generation rates were reduced by percentages presented in **Table 1** to isolate the primary trip purpose.

Pass-by trips are those trips that are already on a route for a different purpose and simply stop at a development on that route. For example, a stop at a convenience store on the way home from the office is a pass-by trip for the convenience store. A pass-by trip does not create an additional burden on the street system and therefore should not be counted in the assessment of impact fees of a convenience store.

DRAFT

A diverted trip is a similar situation, except that a diversion is made from the regular route to make an interim stop. For example, a trip from work to home using Ridge Road (from IH-30) would be a diverted trip if the travel path were changed Yellow Jacket and Goliad for the purpose of stopping at a retail site. On a system-wide basis, this trip places a slightly additional burden on the street system but in many cases, this burden is minimal.

Table 1 contains the documented estimates of trip rate adjustments used in determining the appropriate rate to use in the impact fee calculation process. Adjustments were based on studies documented in the ITE trip generation manual.

The resulting recommended trip rates are illustrated as part of Table 3 Land Use/Vehicle Mile Equivalency Table illustrated later in this chapter. Rates were developed in lieu of equations to simplify the assessment of impact fees by the City and likewise, the estimation of impact fees by persons who may be required to pay an impact fee in conjunction with a development project.

A local study may also be conducted to confirm rates in *Trip Generation* or change rates to reflect local conditions. In such cases, a minimum of three sites should be counted. Selected sites should be isolated in nature with driveways that specifically serve the development and not other land uses. The results should be plotted on the scatter diagram of the selected land use contained in *Trip Generation* for comparison purposes. It is recommended that no change be approved unless the results show a variation of at least fifteen percent across the range of sample sizes surveyed. *Trip Generation* was used as the primary source of information for this study.

Trip Length

Trip lengths (in miles) are used in conjunction with site trip generation to estimate vehicle-miles of travel. Trip length data was based on information generated in the 1995 North Central Texas Council of Governments (NCTCOG) Workplace Survey and the National Workplace Survey. These travel characteristics were applied to Rockwall to determine average trips lengths for common land use types.

Table 2 summarizes the derived average trip lengths for major land use categories. These trip lengths represent the average distance that a vehicle will travel between an origin and destination of which either the origin or destination contains the land-use category identified below. Data compiled by the Workplace Survey represents the best available information on trip lengths for this area.

DRAFT

Adjustments

The assessment of an individual development's impact fee is based on the premise that each vehicle-trip has an origin and a destination and that the development end should pay for one-half of the cost necessary to complete each trip. Thus, the development is charged only for a portion of the vehicle-trip associated with that development.

To prevent double charging, and to fairly attribute the demand placed on the system to each trip end location, the trip length was adjusted to remove travel on the federal roadway system and then divided by two to reflect half of the vehicle trip to and from the development. Data from the NCTCOG travel forecast model was used to compare vehicle-miles of travel (VMT) by roadway functional class. Data revealed 43% of travel to use the federal system and thus the average trip length was reduced by this percentage to reflect localized travel on city streets (reflected in column 2). The average trip length, localized trip length, and adjustment for one-half trip length are illustrated in column 3 of Table 2. Where specific land uses were considered to exhibit different trip length characteristics than those identified in Table 3, engineering judgment was used to estimate the average trip length. Finally, as the service area structure was based on a six-mile boundary, those land uses that exhibited trip lengths greater than six miles were limited to this threshold.

Service Unit Equivalency Table

The result of combining the trip generation and trip length information is an equivalency table which establishes the service unit rate for various land uses. These service unit rates are based on an appropriate development unit for each land use. For example, a dwelling unit is the basis for residential uses, while 1,000 gross square feet of floor area is the basis for office, commercial, and retail uses. Other less common land uses are based on appropriate independent variables.

Separate rates have been established for specific land uses within the broader categories of residential, commercial, industrial and institutional to reflect the differences between land uses within the categories. However, even with these specific land use types, information is not available for every conceivable land use, so limitations do exist.

The updated equivalency table is illustrated in **Table 3**. Table 3 is reflective of adjusted trip rates (detailed in Table 1) and trip lengths (Table 2).

Chapter 4: Existing Conditions Analysis

Chapter 395 identifies specific requirements necessary in the capital improvements plan for impact fees. The existing conditions, including defining the existing roadway system, and analysis of the total capacity, the level of current usage, and commitments for usage of the existing roadway, are required as part of the capital improvements plan. This chapter discusses the existing conditions.

Existing Conditions

An inventory of the collector and arterial roadway facilities was conducted to determine existing conditions throughout Rockwall. This analysis determines the capacity provided by the existing roadway system, the demand currently placed on the system, and the potential existence of deficiencies on the system. Updated data for the inventory was obtained from traffic volume counts conducted by the City and field reconnaissance of current roadway sections.

The roadways were divided into segments based on volume changes, major intersections, service area boundaries, and capacity changes. For each roadway segment, the length, number of lanes, cross-section, and PM peak hour volume data were obtained. Lane capacities were assigned to each segment based on functional street classification, associated roadway lane capacities and the present number of lanes. Lane capacities used in the analysis are shown in **Table 4.**

Table 4: Roadway Facility Vehicle-Mile Lane Capacities

Roadway Facility	Designation	Hourly Vehicle-Mile Capacity per Lane Mile of Roadway Facility
Divided Arterial	DA	600
Divided Collector	DC	500
Undivided Arterial	UA	575
Undivided Collector	UC	475

Roadway hourly volume capacities are based on information reflecting Level-of-Service “C” operation, as identified in the transportation element of the Rockwall Comprehensive Plan.

Existing Volumes

Existing directional PM peak hour volumes were obtained from automated traffic counts conducted in May 2019 by the City. Automated traffic counts at 25 separate locations were collected on major roadways (as identified in the Thoroughfare Plan as arterial or collector status) throughout Rockwall. To minimize the total number of counts, data was collected at locations where traffic volumes would typify link volumes on the major segments within the immediate area. For segments not counted, existing volumes were used, or estimates were developed based on data from adjoining roadway counts.

Data was compiled for roadway segments throughout the city and entered into the database for use in calculations. A summary of volumes by roadway segment is included in **Appendix D** as part of the existing capital improvements database.

Vehicle-Miles of Existing Capacity Supply

An analysis of the total capacity for each service area was performed. For each roadway segment, the existing vehicle-miles of capacity supplied were calculated using the following equation:

Vehicle-Miles of Capacity = Link capacity per peak hour per lane x Number of lanes x Length of segment (miles)

A summary of the current capacity available on the roadway system is shown in **Table 5**. It is important to note that the roadway capacity depicted in Table 5 is system-wide for most major roadways and not restricted to those roadways proposed in the impact fee capital improvements plan. Directional calculations of capacity were performed separately. For a detailed listing of vehicle-miles of capacity by roadway segment, refer to Appendix D.

Vehicle-Miles of Existing Demand

The level of current usage in terms of vehicle-miles was calculated for each roadway segment. The vehicle-miles of existing demand were calculated by the following equation:

Vehicle-Miles of Demand = PM peak hour volume x Length of segment (miles)

Table 5 also lists total vehicle-miles of demand. Appendix D includes a detailed listing of vehicle-miles of demand by directional roadway segment.

Vehicle-Miles of Existing Excess Capacity and Deficiencies

For each roadway segment, the existing vehicle-miles of excess capacity and/or deficiencies were calculated. Each direction was evaluated to determine if vehicle demands exceeded the available capacity. If demand exceeded capacity in one or both directions, the deficiency is deducted from the supply associated with the impact fee capital improvement plan. A summary of peak hour excess capacity and deficiencies are shown in **Table 6**. A detailed listing of the existing excess capacity and deficiencies by roadway segment is also located in Appendix D.

4	3,666	808
Total	31,085	2,871

DRAFT

Chapter 5: Projected Conditions Analysis

Chapter 395 requires a description of all capital improvements or facility expansions and their costs necessitated by and attributable to new development within the service area. This chapter describes the projected growth, vehicle-miles of new demand, capital improvements program, vehicle-miles of new capacity supplied, and costs of the roadway improvements.

Projected Growth

The projected growth for each transportation service area is represented by the increase in the number of new vehicle-miles generated over the 10-year planning period. The basis for the calculation of new demand is the population and employment projections that were prepared as part of a technical report entitled Land Use Assumptions for Roadway Impact Fees by the Rockwall Planning Department in June 2019. Estimates of population and employment were prepared for the years 2019 and 2029.

Population data was provided in terms of the number of dwelling units, households and persons. Employment data is aggregated into three sectors of employees: basic, service and retail. These employment sectors serve as the typical components used in the traffic forecast modeling process. The employment grouping also correlate with the North American Industrial Classification (NAIC) system and include: basic employment (NAIC 210000-422999) generally encompasses the industrial and manufacturing uses; service employment (NAIC 520000-928199) encompasses government, office and professional uses; and retail employment (NAIC 440000-454390) generally includes commercial and retail use.

Projected Vehicle-Miles of New Demand

Projected vehicle-miles of demand were calculated based on the growth expected to occur during the 10-year planning period and the service unit generation for each of the population and employment data components (basic, service and retail). Separate calculations were performed for each data component and were then aggregated for the service area. Vehicle-miles of demand for population growth were based on dwelling units, and vehicle-miles of demand for employment were based on the number of employees and estimates of square footage per employee.

Table 7 lists the projected vehicle-miles of demand over the 10-year planning period for Rockwall. **Appendix C** contains the projected demand calculation worksheet.

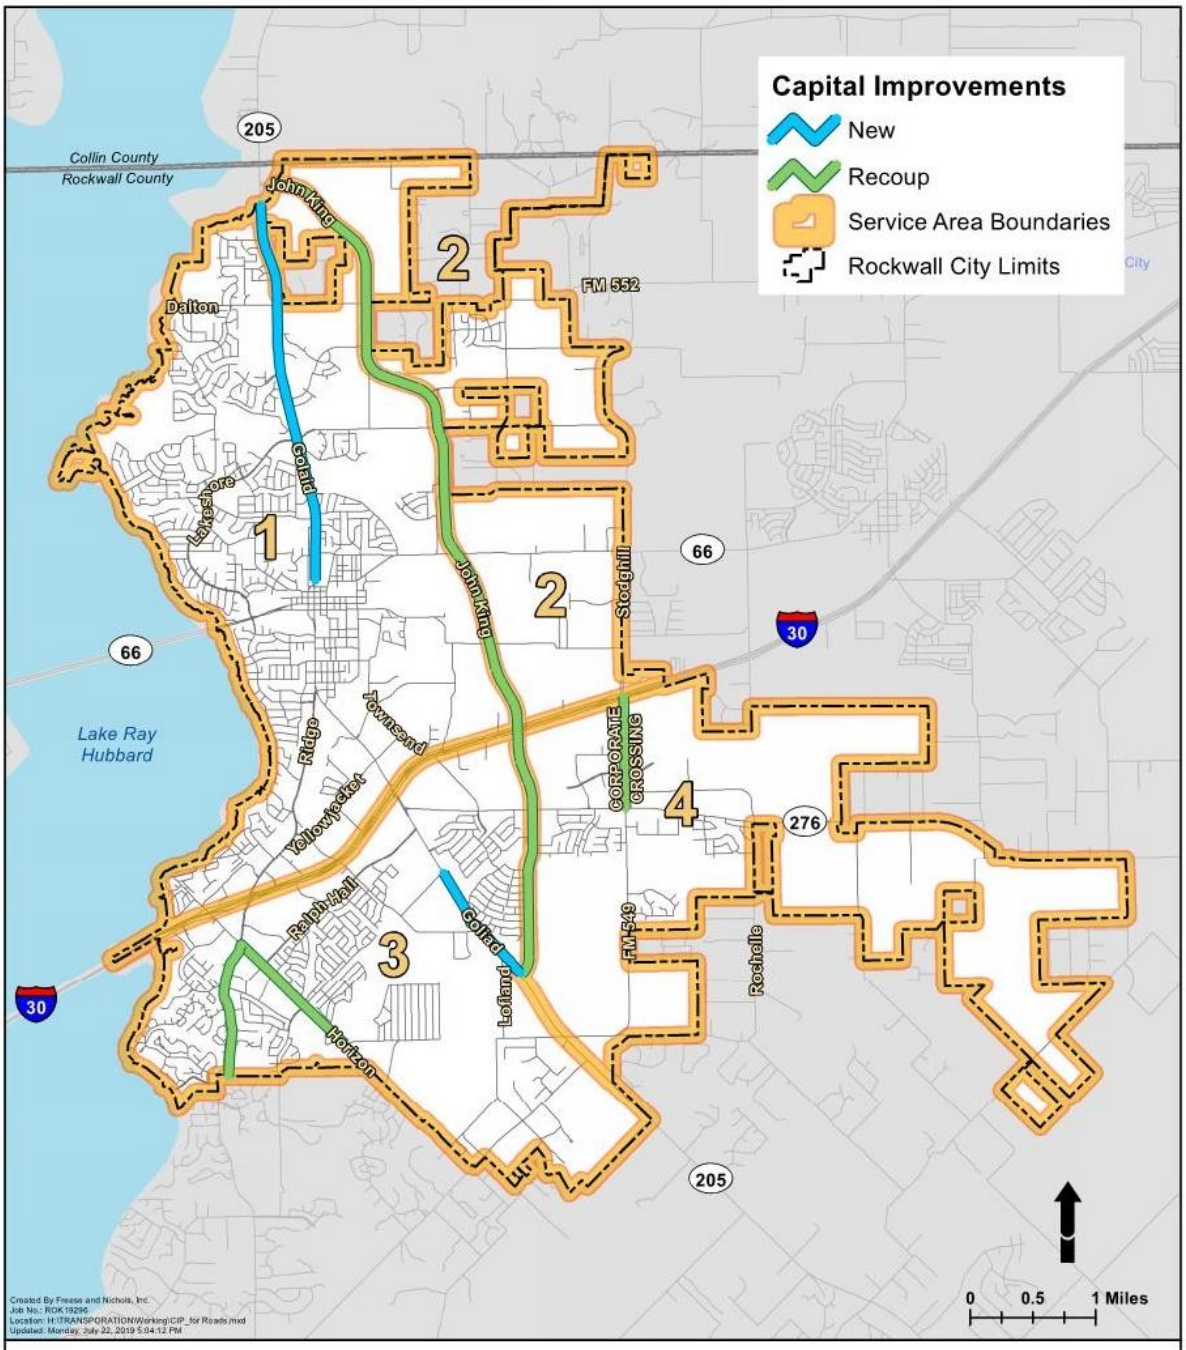
Table 7: Vehicle-Miles of New Demand

Service Area	Projected 10-Year Growth (Vehicle-Miles)
1	13,731
2	3,676
3	13,001
4	2,814
Total	33,222

Capital Improvements Program

Evaluation of Existing Impact Fee CIP

At the outset of the update process, capacity of the CIP was evaluated to ensure that excess capacity remained in impact fee projects. Chapter 395 mandates that only CIP projects with excess capacity are eligible for consideration. The initial impact fee program contained only one project, John King Boulevard, which extended from the northern city limit to Goliad Street (SH205) just north of FM549. Traffic volume count data collected at several locations within this corridor was used to determine if excess capacity remains on this project. The analysis revealed all segments of John King Boulevard to contain excess capacity and therefore can be retained in the program.



Impact Fee CIP

John King Boulevard was the lone project identified for the initial impact fee program in 2008 and 2013 update. At the time the impact fee system was initiated, not all portions of this roadway in the north were within the city limits. The segment between FM552 and SH205 was within the county and not eligible for impact fee consideration. With annexations in 2013, additional portions of the facility were included in the program. As part of this update, five projects were added to the program. Three of the added projects recently implemented and considered recoupment. Two other projects are planned for implementation in the upcoming years. Costs estimates for new project segments were prepared by Freese and Nichols. Actual costs for project recoupment were provided by City Staff. **Figure 2** illustrates the location of this capital improvement in relation to the city and associated service areas. Project costs were broken into general categories of construction, engineering, right-of-way and finance (debt service). The breakout of costs among the various service areas are listed in **Table 8**.

The cost of the impact fee program is $145.9 million. When considering the state mandated credit (50%), the cost eligible for impact fee consideration totals $72.9 million. The impact fee CIP also includes the cost of two five-year updates estimated at $40,000 each.

DRAFT

Projected Vehicle-Miles Capacity Available for New Growth

The vehicle-miles of new capacity supply were calculated similar to the vehicle-miles of existing capacity supplied. The equation used was:

Vehicle-Miles of New Capacity Supplied = Link capacity per peak hour per lane
x Num. of lanes within Service Area
x Length of segment (miles)

Vehicle-miles of new supply provided by the CIP are listed in **Table 9**. While the project has not been built, there are system deficiencies (by service area) that have been removed from the total supply to properly account for new "net" availability. Table 9 depicts net availability of supply by the CIP. **Appendix E** details capacity calculations provided by the CIP program.

Table 9: Vehicle-Miles of New Capacity Supplied

Service Area	Vehicle-Miles of New Capacity Supplied	Vehicle-Miles of Net New Capacity Supplied
1	13,836	5,869
2	6,096	3,114
3	11,489	4,476
4	4,751	2,405
Total	36,172	15,864

Cost of Roadway Improvements

The total and net cost to implement the roadway improvements plan projects by service area is shown in **Table 10**. If traffic exists on proposed CIP project roadways or there are any deficiencies present in each respective service area, the total system cost is adjusted to reflect the net capacity being made available by the impact fee program. In other words, only the unused portion of the CIP and its associated costs are considered eligible. A detailed listing by project segment in each service area can be found in **Appendix F**. **Appendix G** details system costs by service area.

Table 10: Summary of Roadway Improvements Plan Cost Analysis

Service Area	Actual Cost of Proposed Impact Fee Program	Adjusted Cost (50% Credit) of Proposed Impact Fee Program
1	$73,550,103	$36,775,052
2	$31,656,236	$15,828,118
3	$26,175,186	$13,087,593
4	$14,519,597	$7,259,799
Total	$145,901,123	$72,950,562

State law is specific in identifying that only the portion of the CIP necessitated and attributable to new development is eligible for cost recovery. For example, if only 60% of the net service units supplied by the CIP are needed in the next 10 years, only 60% of the cost (credited at 50% per legislative requirements) may be considered in the calculation of fees. All the capacity provided by the impact fee CIP will be necessitated to address future growth over the 10-year planning period. The cost attributable to new

growth is $31.9 million and represents the citywide cost to implement projects on the impact fee program. **Table 11** depicts CIP costs attributable to new growth by service area.

Table 11: Capital Improvements Plan Costs Attributable to New Development

Service Area	Adjusted Cost (50% Credit) of Net New Capacity	Adjusted Cost (50% Credit) Attributable to New Growth
1	$15,598,596	$15,598,596
2	$8,084,777	$8,084,777
3	$5,098,520	$5,098,520
4	$3,675,714	$3,675,714
Total	$31,993,304	$31,993,304

DRAFT

Chapter 6: Calculation of Impact Fees

This chapter discusses the calculation of the cost per service unit and the calculation of roadway impact fees. The transportation impact fee will vary by the land use, service area, and size of the development. Examples are included to better illustrate the method by which the transportation impact fees are calculated.

Cost Per Service Unit

The cost per service unit is calculated by dividing the cost of the CIP necessitated and attributable to new demand (net cost) by the projected service units of growth over the 10-year planning period.

Generally, the cost per service unit varies by service area because of variations in cost of CIP, projected growth and the number of service units necessitated by new growth between zones. Where net capacity supplied is greater than demand, the cost per service unit is simply the cost of the net capacity divided by the number of service units provided. In this case, only the portion of the CIP necessitated by new development is used in the calculation. If the net capacity supplied is *less* than projected new demand, then the cost per service unit is calculated by dividing the total cost of net supply by the portion of new demand attributable and necessary by development. The result is generally a decrease in the cost per service unit, because such cost is spread over the larger number of service units of growth.

Table 12 lists the results of the cost per service unit calculation by service area. The actual cost per service unit reflects the true burden to the City for the implementation of the roadway capital improvements program. As per state law, a credit for the portion of ad-valorem tax revenues generated by improvements over the program period, or a credit equal to 50% of the total projected cost of implementing the capital improvements plan must be given. Based on this analysis, the maximum collection rate reflects the maximum amount per service unit that can be charged to follow the state statute. **Appendix G** details the maximum fee per service unit calculation for each service area.

Table 12: Cost Per Service Unit Summary

Service Area	Actual Cost Per Service Unit	Maximum Fee per Service Unit (50% Credit)
1	$2,272.00	$1,136.00
2	$4,398.00	$2,199.00
3	$784.00	$392.00
4	$2,612.00	$1,306.00
Total	$1,926.00	$963.00

DRAFT

Calculation of Roadway Impact Fees

The calculation of roadway impact fees for new development involves a two-step process. Step one is the calculation of the total number of service units that will be generated by the development. Step two is the calculation of the impact fee due by the new development.

Step 1: Determine number of service units (vehicle-miles) generated by the development using the equivalency table.

No. of Development Units	x	Vehicle-miles per development unit	=	Development's Vehicle-miles

Step 2: Calculate the impact fee based on the fee per service unit for the service area where the development is located.

Development's Vehicle-miles	x	Fee per vehicle-mile	=	Impact Fee due from Development

Examples: The following fees would be assessed to new developments in Service Area 3 if the cost per service unit were retained at the current collection rate $256.00 (adopted in 2008, retained in 2013).

Single-Family Dwelling

1 dwelling unit x 3.12 vehicle-miles/dwelling unit = 3.12 vehicle-miles
3.12 vehicle-miles x $256.00 /vehicle-mile = $798.72

20,000 square foot (s.f.) Office Building

20 (1,000 s.f. units) x 3.92 vehicle-miles/1,000 s.f. units = 78.40 vehicle-miles
78.40 vehicle-miles x $256.00 /vehicle-mile = $20,070.40

100,000 s.f. Retail Center

100 (1,000 s.f. units) x 1.77 vehicle-miles/1,000 s.f. units = 177.00 vehicle-miles
177.00 vehicle-miles x $256.00 /vehicle-mile = 45,312.00

200,000 s.f. Industrial Development

200 (1,000 s.f. units) x 1.77 vehicle-miles/1,000 s.f. units = 354.00 vehicle-miles
354.00 vehicle-miles x $256.00 /vehicle-mile = $90,624.00.

DRAFT

Chapter 7: Conclusions

Chapter 395 authorizes the assessment and collection of impact fees in Texas for transportation related capital improvements that must be met in order to assess and collect impact fees. This study was conducted to fulfill the requirements of Chapter 395 in developing a transportation-related impact fee for the City of Rockwall.

Three service areas were created for Rockwall. This service area structure was configured so that no point is greater than the six-mile maximum set forth by law. The six-mile limit ensures that roadway improvements are near the development paying the fees that it serves.

Vehicle-miles of travel in the PM peak hour are used as the service unit for calculating and assessing impact fees. Vehicle-miles establish a relationship between the intensity of land development and the demand on the roadway system using published trip generation data and average trip length. The PM peak hour is used as the time period for assessment because typically the greatest demand for roadway capacity occurs during this hour. Additionally, roadways are sized to meet this demand and roadway capacity can more accurately be defined on an hourly basis.

The service units (vehicle-miles) for new development are a function of trip generation and the average trip length for specific land uses. Trip generation information was based on data published by the Institute of Transportation Engineers as reported in the initial study. Where appropriate, trip generation rates were adjusted to reflect the primary trip purpose. This ensures that new development is assigned for the portion of trips associated with that specific development. Average trip length data was based on information compiled by NCTCOG and based on data from a NCTCOG Workplace Survey, statistics from the US Census Bureau National Workplace Survey and tailored to Rockwall.

The result of combining trip generation and trip length information is an equivalency table that establishes a service unit rate for various land uses. Separate rates were established for specific land uses within the broader categories of residential, community, industrial and institutional uses.

An analysis of existing conditions revealed that the current roadway system provides over 74,952 vehicle-miles of capacity. The existing demand placed on the system was determined to be 46,738 vehicle-miles. Evaluation of the existing roadway system found 2,871 vehicle-miles of deficiencies on the existing roadway network.

Projected growth, in terms of vehicle-miles over the 10-year planning period, was based on population and employment data that was prepared in the Land Use Assumptions for Roadway Impact Fees dated August 2019 by the City Planning Department. Based on this growth, the projected vehicle-miles of demand calculated to be 33,222.

Rockwall City Staff identified the roadway impact fee capital improvements program for the 10-year planning period. Projects eligible for this CIP include arterial and collector streets that have been designated on the officially adopted Thoroughfare Plan of the City. Developer funded roadways are not eligible for inclusion in calculating impact fees. Projects totaling $145.9 million, was identified for impact fee consideration based on need, projected growth, project affordability and achievability, financial

DRAFT

considerations, jurisdictional issues, the Thoroughfare Plan, and staff recommendation. The credited (50%) cost attributable to new growth is $72.94 million and represents 100% of the net capacity made available for development by impact fee roadway projects. The recommended CIP program will provide 15,864 vehicle-miles of new net capacity.

The *actual* cost per service unit was calculated to be between $784.00 and $4,398.00 and was based on the total cost of net capacity supplied by the CIP and the demand attributable to new development over the 10-year planning period. State legislation requires that a credit for the portion of ad-valorem tax revenues generated by improvements over the program period, or a credit equal to 50% of the total projected cost of implementing a roadway impact fee capital improvements program be given. Based on a 50% credit, the cost per service unit ranges between $392.00 and $2,199.00.

The determination of fees due from new development is based upon the size of development, its associated service unit generation (equivalency table) and the cost per service unit derived or adopted for each service area.

DRAFT

APPENDICES

DRAFT

A. Roadway Impact Fee Definitions

DRAFT

ROADWAY IMPACT FEE DEFINITIONS

Average Trip Length - the average actual travel distance between two points. The average trip length by specific land use varies.

Diverted Trip - similar to pass-by trip, but a diversion is made from the regular route to make an interim stop.

Impact Fee - a charge or assessment imposed by a city against new development to generate revenue for funding or recouping roadway improvements necessitated and attributable to new development.

Maximum Fee Per Service Unit - the highest impact fee that may be collected by the City per vehicle-mile of supply. Calculated by dividing the costs of the capital improvements by the total number of vehicle-miles of demand expected in the 10-year planning period.

Pass-by Trip - a trip made as an intermediate stop on the way from an origin to a primary trip destination. For example, a stop at a convenience store on the way to office from home.

PM Peak Hour - the hour when the highest volume of traffic typically occurs. Data collection (May 2019) revealed the peak hour of travel between 5:00 and 6:00 pm for Rockwall.

PM Peak Hour Traffic Counts - the number of vehicles passing a certain point during the peak hours of travel. Traffic counts are conducted during the PM peak hour because the greatest demand for roadway capacity occurs during this hour.

Primary Trip - a trip made for the specific purpose of visiting a destination; for example, from home to office.

Roadway Demand - the demand placed on the roadway network as a result of development. Determined by multiplying the trip generation of a specific land use by the average trip length.

Roadway Supply (or Capacity) - the number of service units provided by a segment of roadway over a period of time. Determined by multiplying the lane capacity by the roadway length.

Service Area - the area within the city boundaries to be served by capital improvements. Criteria for developing the service area structure include; 1) restricted to six-mile limit by legislation (to ensure proximity of roadway improvements to development), 2) conforms to census or forecast model boundaries, 3) projects on CIP as boundaries, 4) effort to match roadway supply with projected demand, or 5) city limit boundaries.

DRAFT

Service Unit - a measure of use or generation attributable to new development for roadway improvements. Also used to measure supply provided by existing and proposed roadway improvements.

Trip - a single, one-direction vehicle movement from an origin to a destination.

Trip Generation - the total trip ends for a land use over a given period or the total of all trips entering and exiting a site during that designated time. Used in the development of 10-year traffic demand projections and the equivalency table for Rockwall. Based primarily on data prepared by the Institute of Transportation Engineers (ITE).

Vehicle - for impact fee purposes, any motorized appurtenance that carries passengers and/or goods on the roadway system during peak periods of travel.

Vehicle-mile - a unit used to express both supply and demand provided by, and placed on, the roadway system. A combination of a number of vehicles traveling during a given time period and the distance in which these vehicles travel in miles.

DRAFT

B. Land Use Definitions

DRAFT

LAND USE DEFINITIONS

Residential

Single-Family Detached - Any single-family detached home on an individual lot is included in this category. A typical example of this land use is a home in a suburban subdivision. Also included are duplex residential units and manufactured homes and other residential land uses not specified above.

Multi-Family - This land use includes both low-rise ("walk-up" dwellings) and high-rise multi-family apartments. An apartment is defined as a dwelling unit that is located within the same building with three or more dwelling units. Also included in this land use are residential condominiums, townhomes, triplex and quadplex units. Residential condominiums and townhomes are defined as single-family units that have at least one other single-family unit within the same building structure.

Independent Senior Living Facility - Retirement communities - restricted to adults or senior citizens - contain residential units like apartments or condominiums and are usually self-contained villages. They may also contain special services such as medical facilities, dining facilities, and some limited supporting retail facilities.

Office

General Office Building - A general office building houses one or more tenants and is the location where affairs of a business, commercial or industrial organization, and professional activity are conducted. The building or buildings may be limited to one tenant or contain a mixture of tenants including professional services, insurance companies, investment brokers, company headquarters, and services for the tenants such as a bank or savings and loan, a restaurant or cafeteria, and several retail facilities. Also included in this category are office parks, and other office uses not specified above.

Medical Office Building – A building that provides diagnoses and outpatient care on a routine basis but is unable to provide prolonged in-house medical and surgical care. One or more private physicians or dentists generally operate this type of facility.

Commercial/Retail

General Retail – General retail includes a variety of land uses that include shopping centers, home improvement stores, hardware stores selling a complete assortment of food, household goods and materials, apparel, servicing items. A shopping center is an integrated group of commercial establishments that is planned, developed, owned, and managed as a unit. It is related to its market area in terms of size, location, and type of store. Shopping centers provide on-site parking facilities. Some centers may include non-merchandising uses such as small office professional services, post offices, banks, health clubs, video rentals, and recreational facilities such as ice-skating rinks or video arcades.

DRAFT

Restaurant - This land use consists of sit-down eating establishments. Quality and high-turnover (sit-down) restaurants are included in this category. Quality restaurants usually have a turnover rate of at least one hour or longer. The turnover rate for a high-turnover (sit-down) restaurant is usually less than one hour.

Fast Food Restaurant - This category includes fast food restaurants with or without drive-through windows, such as McDonalds, Burger King, Dunkin Donuts, and Taco Bell. Some establishments may include an indoor or outdoor playground.

Convenience Store/Gas Station - Any convenience market that sells convenience foods, newspapers, magazines, and often, beer and wine and may have gasoline pumps. Gas stations generally are located at intersections or freeway interchanges and may include facilities for servicing, repairing, fueling motor vehicles and may have convenience stores. Convenience stores/gas stations that have a fast-food restaurant contained within should be calculated on a separate basis based on the appropriate independent variable.

Bank - This land use includes walk-in and drive-in banks. Walk-in banks are generally free-standing buildings with their own parking lots. These banks do not have drive-in windows. Drive-in banks provide banking facilities for the motorist while in a vehicle; many also serve patrons who walk into the building. Savings and loan companies should also be included in this category.

Hotel/Motel – A place of lodging that provides sleeping accommodations, small restaurants, lounges, and meeting spaces. Some hotels or motels may provide banquet rooms or other retail and service shops.

Furniture and Appliance Sales - A store specializing in the sale of furniture, household appliances and goods and often, carpeting.

Theater – This land use consists of a movie or live theater and contains audience seating, single or multiple auditoriums, lobby, offices and refreshment stands.

Self-Storage Facilities - A self-serve storage unit or vault that is rented for the storage of goods. Each unit is physically separated from other units and access is usually provided through an overhead door or other common access point.

Industrial

General Industrial – General industrial includes a variety of land uses such as light industrial, manufacturing, salvage, facilities for preparation/assembly and warehouse/distribution of goods. Other uses include materials testing laboratories, high-tech facilities and assemblers of technical equipment. Most facilities are free standing and devoted to a single use. Also included in this category are any other industrial uses not specified above.

Manufacturing – Facilities where the primary activity is the conversion or fabrication of raw materials to finished products. In addition to production of goods, manufacturing facilities may also have ancillary office, warehouse and associated functions.

DRAFT

Warehousing – These facilities are primarily devoted to the storage of materials. These facilities differ from mini warehouse in that they are generally not self-service in nature.

Institutional

Private School - Private schools serve students between the kindergarten and middle school or high school levels. Private schools are usually centrally located in residential communities in order to facilitate student access and have no student drivers.

Community College - Community college provides two and four-year advanced degrees. Vocational and technical schools are other uses that may fall under this category.

Day Care Center - A day care center is a facility where care for pre-school age children is provided, normally during the daytime hours. Day care facilities generally include classrooms, offices, eating areas, and playgrounds. Some centers also provide after-school care for older children.

Hospital - A hospital is any institution where medical or surgical care is given to non-ambulatory and ambulatory patients, and overnight accommodations are provided.

Nursing Home - A nursing home is any facility whose primary purpose is to care for persons who are unable to care for themselves. The term applies to rest homes, chronic care, and convalescent homes.

Religious Facilities – Churches, synagogues or houses of worship that provide public worship services, and generally house an assembly hall or sanctuary, meeting rooms, classrooms, and occasionally dining, catering, or party facilities.

Activity Centers – A recreational center or private club such as a YMCA that may offer classes and clubs for adults and children; a day care or a nursery school, meeting rooms, swimming pools and whirlpools; saunas, tennis, racquetball and handball courts, exercise classes, weightlifting equipment and locker rooms. Some may offer a small restaurant or snack bar within.

U.S. Post Office – A building that contains service windows for mailing packages and letters, post office boxes, offices, sorting and distributing facilities for mail and vehicle storage areas.

DRAFT

D. Existing Capital Improvements

DRAFT

EXISTING CAPITAL IMPROVEMENTS

Definitions

LANES	The total number of lanes in both directions available for travel.
TYPE	The type of roadway (used in determining capacity): DA = divided arterial UA = undivided arterial UC = undivided collector
PK-HR VOLUME	The existing volume of cars on the roadway segment traveling during the afternoon (P.M.) peak hour of travel. A and B indicate the two directions of travel. Direction A is a northbound or eastbound and direction B is southbound or westbound. If only one half of the roadway is located within the service area (see % in service area), the opposing direction will have no volume in the service area.
% IN SERVICE AREA	If the roadway is located on the boundary of the service area (with the city limits running along the centerline of the roadway), then half of the roadway is inventoried in the service area and the other half is not. This value is either 50% or 100%.
VEH-MI SUPPLY PK-HR	The number of total service units (vehicle-miles) supplied within the service area, based on the length and established capacity of the roadway type.
VEH-MI TOTAL DEMAND PK-HR	The total service unit (vehicle-mile) demand created by existing traffic on the roadway segment in the afternoon peak hour.
EXCESS CAPACITY PK-HR VEH-MI	The number of service units supplied but unused by existing traffic in the afternoon peak hour.
EXISTING DEFICIENCIES PK-HR VEH-MI	The number of service units of demand in excess of the service units supplied.

NOTE: Excess capacity and existing deficiencies are calculated separately for each direction. It is possible to have excess capacity in one direction and an existing deficiency in the other. When both directions have excess capacity or deficiencies, the total for both directions are presented.

E. Roadway Improvement Plan Projects

DRAFT

ROADWAY IMPROVEMENTS PLAN PROJECTS

Definitions

LANES	The total number of lanes in both directions available for travel.
TYPE	The type of roadway (used in determining capacity): DA = divided arterial
PK-HR VOLUME	the existing volumes of cars on the roadway segment traveling during the afternoon (P.M.) peak hour of travel.
% IN SERVICE AREA	If the roadway is located on the boundary of the service area (with the city limits running along the centerline of the roadway), then half of the roadway is inventoried in the service area and the other half is not. This value is either 50% or 100%.
VEH-MI SUPPLY TOTAL	The number of total service units (vehicle-miles) supplied within the service area, based on the length and established capacity of the roadway type.
VEH-MI TOTAL DEMAND PK-HR	The total service unit (vehicle-mile) demand created by existing traffic on the roadway segment in the afternoon peak hour.
EXCESS CAPACITY PK-HR VEH-MI	The number of service units supplied but unused by existing traffic in the afternoon peak hour.

City of Rockwall

Impact Fee Engineer's Opinion of Probable Construction Cost Estimate

SH 205

Olive St to Live Oak St

Roadway Information:			
Functional Classification:	Arterial	No. of Lanes:	4
Length (lf):	1,725		
Right-of-Way Width (ft.):	70		
Median Type:	None		
Pavement Width (BOC to BOC):	45		
Description:	Widen existing roadway to thoroughfare standard		

Roadway Construction Cost Estimate:

I. Paving Construction Cost Estimate

Item No.	Item Description	Quantity	Unit	Unit Cost	Item Cost
1	Acquire ROW	0	SF	$ 1.00	$ -
2	Right of Way Preparation	18	STA	$ 4,000.00	$ 72,000
3	Remove Existing Pavement	18	STA	$ 1,000.00	$ 18,000
4	Unclassified Street Excavation	3,200	CY	$ 20.00	$ 64,000
5	8" Lime Stabilized Subgrade	9,100	SY	$ 10.00	$ 91,000
6	Lime for Stabilization (48 lb/SY)	200	TON	$ 180.00	$ 36,000
7	10" Concrete Pavement w/ Integral Curb	8,700	SY	$ 75.00	$ 652,500
8	4" Concrete Sidewalk and Ramps	20,700	SY	$ 55.00	$ 1,138,500
9	Solid Sod	22,400	SY	$ 5.00	$ 112,000
				Paving Estimate Subtotal:	**$ 2,184,000**

II. Non-Paving Construction Components

Item No.	Item Description	Pct. Of Paving	Item Cost
10	Pavement Markings & Signage	2%	$ 43,700
11	Traffic Control	4%	$ 87,400
12	Erosion Control	3%	$ 65,600
13	Drainage Improvements (RCP, Inlets, MH, Outfalls)	20%	$ 436,800
14	Utility Adjustments	5%	$ 109,200
	Other Components Estimate Subtotal:		**$ 742,700**

III. Special Construction Components

Item No.	Item Description	Notes	Allowance	Item Cost
15	Drainage Structures	None	$ -	$ -
16	Bridge Structures	None	$ -	$ -
17	Traffic Signals	None	$ -	$ -
		Special Components Estimate Subtotal:		**$ -**

I, II, & III Construction Subtotal:		$ 2,926,700
Mobilization	5%	$ 146,400
Contingency	10%	$ 307,400
Construction Cost Estimate Total:		**$ 3,380,500**

Impact Fee Cost Estimate Summary

Item Description	Notes	Allowance	Item Cost
Construction		-	$ 3,380,500
Engineering/Survey/Testing		7.0%	$ 236,600
Right-of-Way Acquisition	Cost per sq. ft.: $ 1.00	$ 17,300	$ 17,300
	Impact Fee Project Cost Estimate Total:		**$ 3,634,400**
	Estimated Finance Cost (11.9%; i.e. 3% over 10 years)		**$ 432,400**

Median Type:	Raised		
Pavement Width (BOC to BOC):	50		
Description:	Widen existing roadway to thoroughfare standard		

Roadway Construction Cost Estimate:

I. Paving Construction Cost Estimate

Item No.	Item Description	Quantity	Unit	Unit Cost	Item Cost
1	Acquire ROW	157,400	SF	$ 1.00	$ 157,400
2	Right of Way Preparation	158	STA	$ 4,000.00	$ 632,000
3	Remove Existing Pavement	158	STA	$ 1,000.00	$ 158,000
4	Unclassified Street Excavation	32,100	CY	$ 20.00	$ 642,000
5	8" Lime Stabilized Subgrade	94,500	SY	$ 10.00	$ 945,000
6	Lime for Stabilization (48 lb/SY)	1,990	TON	$ 180.00	$ 358,200
7	10" Concrete Pavement w/ Integral Curb	87,500	SY	$ 75.00	$ 6,562,500
8	4" Concrete Sidewalk and Ramps	188,820	SY	$ 55.00	$ 10,385,100
9	Solid Sod	361,900	SY	$ 5.00	$ 1,809,500
				Paving Estimate Subtotal:	**$ 21,492,300**

II. Non-Paving Construction Components

Item No.	Item Description	Pct. Of Paving	Item Cost
10	Pavement Markings & Signage	2%	$ 429,900
11	Traffic Control	4%	$ 859,700
12	Erosion Control	3%	$ 644,800
13	Drainage Improvements (RCP, Inlets, MH, Outfalls)	20%	$ 4,298,500
14	Utility Adjustments	5%	$ 1,074,700
	Other Components Estimate Subtotal:		**$ 7,307,600**

III. Special Construction Components

Item No.	Item Description	Notes	Allowance	Item Cost
15	Drainage Structures	1 minor	$ 150,000	$ 150,000
16	Bridge Structures	175' long bridge south of Lakeshore Blvd	$ 1,139,600	$ 1,139,600
17	Traffic Signals	3 Existing Signals; 1 new @ N John King	$ 600,000	$ 600,000
		Special Components Estimate Subtotal:		**$ 1,889,600**

I, II, & III Construction Subtotal:		$ 30,689,500
Mobilization	5%	$ 1,534,500
Contingency	10%	$ 3,222,400
Construction Cost Estimate Total:		**$ 35,446,400**

Impact Fee Cost Estimate Summary

Item Description	Notes	Allowance	Item Cost
Construction		-	$ 35,446,400
Engineering/Survey/Testing		7.0%	$ 2,481,200
Right-of-Way Acquisition	Cost per sq. ft.: $ 1.00	$ 314,700	$ 314,700
	Impact Fee Project Cost Estimate Total:		**$ 38,242,300**
	Estimated Finance Cost (11.9%; i.e. 3% over 10 years)		**$ 4,550,800**

F. Roadway Improvements Plan Cost Analysis

DRAFT

ROADWAY IMPROVEMENTS PLAN COST ANALYSIS

Definitions

LANES	The total number of lanes in both directions available for travel.
TYPE	The type of roadway (used in determining capacity): DA = divided arterial
% IN SERVICE AREA	If the roadway is located on the boundary of the service area (with the city limits running along the centerline of the roadway), then half of the roadway is inventoried in the service area and the other half is not. This value is either 50% or 100%.
TOTAL SEGMENT COST	The estimated cost (in dollars) of the entire segment of the proposed improvement.
TOTAL COST IN SERVICE AREA	The estimated cost (in dollars) of the portion of the proposed roadway improvement within the service area.

CITY OF ROCKWALL
2019 – 2029 WATER & WASTEWATER IMPACT FEE UPDATE

SECTION I – INTRODUCTION

A. GENERAL

In accordance with the requirements of Chapter 395.052 of the Local Government Code, this report establishes the City of Rockwall's Capital Improvement Plan for water and wastewater impact fees and calculates the maximum allowable fee for each. Land use assumptions for impact fees were generated under a separate document prepared by the City of Rockwall's Planning Department.

Chapter 395, of the Local Government Code is an act that provides guidelines for financing capital improvements required by new development in municipalities, counties, and certain other local governments. The basis for determination of an impact fee requires the preparation and adoption of a land use plan and growth assumption, and the preparation of a 10-year capital improvement plan. The capital improvement plan requires an analysis of total capacity, the level of current usage and commitments of capacity of existing capital improvements. From these two phases, a maximum impact fee is calculated.

The Act allows the maximum impact fee to be charged if revenues from future ad valorem taxes, and water and sewer bills are included as a credit in the analysis. If not, the Act allows the maximum fee to be set at 50% of the calculated maximum fee. The following items were included in the impact fee calculation:

1. The portion of the cost of the new infrastructure that is to be paid by the City, including engineering, property acquisition and construction cost.

2. Existing excess capacity in lines and facilities that will serve future growth and which were paid for in whole or part by the City.

3. Engineering and quality control fees for construction projects.

4. Interest and other finance charges on bonds issued by the City to cover its portion of the cost. 5% is assumed for this analysis.

The engineering analysis portion of the Water and Wastewater Fee determines utilized capacity cost of the major water distribution and wastewater collection facilities between the year 2019 and the year 2029. Facilities in this analysis include, water pump stations, water storage tanks, water transmission lines and wastewater collection lines. The North Texas Municipal Water District (NTMWD) water treatment, and water distribution components were excluded from this analysis. The study period is a ten-year period with 2019 as the base year. The impact fee calculations for the water and wastewater systems are based on land use assumptions prepared by the City of Rockwall. Prior to this impact fee update, the City's Water Distribution and Wastewater Collection hydraulic models were updated for 2019, 2029 and buildout conditions. The hydraulic model results are available for review from the City of Rockwall. The equivalency factors utilized in this analysis conform to the American Water Works Association Standards (C700 - C703).

B. WATER & WASTEWATER IMPACT FEE GLOSSARY

1. Advisory Committee means the capital improvements advisory committee established by the City for purposes of reviewing and making recommendations to the City Council on adoption of the City's impact fee program.

2. Area-Related Facility means a capital improvement or facility expansion which is designated in the impact fee capital improvements plan and which is not a site-related facility. Area-Related Facility may include capital improvements that are located off-site, or within or on the perimeter of the development site.

3. Assessment means the determination of the amount of the maximum impact fee per service unit that can be imposed on new development.

4. Capital Improvement means either a water facility or a wastewater facility with a life expectancy of three or more years, to be owned and operated by or on behalf of the City.

5. City means the City of Rockwall, Texas.

6. Credit means the amount of the reduction of an impact fee due, determined under this ordinance or pursuant to administrative guidelines that is equal to the value of area-related

facilities provided by a property owner pursuant to the City's subdivision or zoning regulations or requirements, for the same type of facility.

7. Debt Service means the 20-year financing costs of projects applied to all eligible existing and proposed water and wastewater facilities.

8. Facility Expansion means either a water facility expansion or a sewer facility expansion.

9. Impact Fee means either a fee for water facilities or a fee for wastewater facilities, imposed on new development by the City pursuant to Chapter 395 of the Texas Local Government Code in order to generate revenue to fund or recoup the costs of capital improvements or facility expansion necessitated by and attributable to such new development. Impact fees do not include the dedication of rights-of-way or easements for such facilities, or the construction of such improvements, imposed pursuant to the City's zoning or subdivision regulations.

10. Impact Fee Capital Improvements Plan means either a water capital improvements plan or a wastewater capital improvement plan adopted or revised pursuant to the impact fee regulations.

11. Land Use Assumptions means the projections of population and growth, and associated changes in land uses, densities and intensities over at least a ten-year period, as adopted by the City and as may be amended from time to time, upon which the capital improvements plans are based.

12. Land Use Equivalency Table means a table converting the demands for capital improvements generated by various land uses to numbers of service units, as may be amended from time to time.

13. New Development means the subdivision of land; the construction, reconstruction, redevelopment, conversion, structural alteration, relocation, or enlargement of any structure; or any use or extension of the use of land; any of which increases the number of service units.

14. Recoupment means the imposition of an impact fee to reimburse the City for capital improvements that the City had previously oversized to serve new development.

15. Service Area means either a water service area or wastewater service area which impact fees for capital improvements or facility expansion will be collected for new development occurring within such area, and within which fees so collected will be expended for those types of improvements or expansions identified in the type of capital improvements plan applicable to the service area.

16. Service Unit means the applicable standard units of measure shown on the land use equivalency table in the Impact Fees Capital Improvements Plan that can be converted to water meter equivalents, for water or for wastewater facilities, which serves as the standardized measure of consumption, use or generation attributable to the new unit of development.

17. Site-Related Facility means an improvement or facility which is for the primary use or benefit of a new development, and/or which is for the primary purpose of safe and adequate provision of water or wastewater facilities to serve the new development, and which is not included in the impact fees capital improvements plan and for which the property owner is solely responsible under subdivision or other applicable development regulations.

18. Utility Connection means installation of a water meter for connecting a new development to the City's water system, or connection to the City's wastewater system.

19. Wastewater Facility means a wastewater interceptor or main, lift station or other facility included within and comprising an integral component of the City's collection system for wastewater. Wastewater facility includes land, easements or structure associated with such facilities. Wastewater facility excludes site-related facilities.

20. Wastewater Facility Expansion means the expansion of the capacity of any existing wastewater improvement for the purpose of serving new development, but does not include the repair, maintenance, modernization, or expansion of an existing sewer facility to serve existing development.

21. Wastewater Capital Improvements Plan means the adopted plan, as may be amended from time to time, which identifies the wastewater facilities or wastewater expansions and their associated costs which are necessitated by and which are attributable to new development, for a period not to exceed 10 years.

22. Water Facility means a water main, pump station, storage tank or other facility included within and comprising an integral component of the City's water storage or distribution system. Water facility includes CCN acquisition, land, easements or structures associated with such facilities. Water facility excludes site-related facilities.

23. Water Facility Expansion means the expansion of the capacity of any existing water facility for the purpose of serving new development, but does not include the repair, maintenance, modernization, or expansion of an existing water improvement to serve existing development.

24. Water Capital Improvements Plan means the adopted plan, as may be amended from time to time, which identifies the water facilities or water expansions and their associated costs which are necessitated by and which are attributable to new development, for a period not to exceed 10 years.

25. Water Meter means a device for measuring the flow of water to a development, whether for domestic or for irrigation purposes.

C. LAND USE ASSUMPTIONS *(Prepared By: City of Rockwall Planning Department)*

The impact fee land use assumptions utilized in this update were prepared by the City of Rockwall's Planning Department and are presented in a separate document. The land use assumptions projected an ultimate residential population of approximately 149,525 in the City of Rockwall's ultimate planning boundary.

The residential and non-residential growth provided by the City for the year 2019 through 2029 is summarized in Table No. 1.

TABLE NO. 1

Residential and Non-Residential Growth from 2019 to 2029

Year	LUA Residential Population *	Residential Population Served **	Non-Residential Uses*** Employees	
2019	49,616	44,748	25,369	
2029	73,228	64,768	34,064	
Res. Growth Rate	**1.48**		**Non-Res. Growth Rate**	**1.34**

** Residential Population Inside Planning Boundary*
*** Residential Population Served Inside Existing City of Rockwall City Limit Boundary*
**** Basic – Industrial Land Uses*
**** Service – Office & Institutional Land Uses*
**** Retail – Commercial Land Uses*

As shown in Table No. 1, increases in the residential population and non-residential uses will occur during the 10-year capital recovery period. The water demand and wastewater flows from the residential and non-residential uses dictate the ultimate size of facilities, while the rate of growth is important to determine the timing of system improvements to meet the City's growing needs. The eligible water impact fee facilities are shown **on Exhibit 1**. The eligible wastewater facilities are shown on **Exhibit 2** in this report.

SECTION II

WATER & WASTEWATER C.I.P. AND IMPACT FEE ANALYSIS

A. DEFINITION OF A SERVICE UNIT – WATER AND WASTEWATER

Chapter 395 of the Local Government Code requires that impact fees be based on a defined service unit. A "service unit" means a standardized measure of consumption, use generation, or discharge attributable to an individual unit of development calculated in accordance with generally accepted engineering or planning standards. This impact fee defines a water and wastewater service unit to be a *5/8-inch water meter* and has referred to this service unit as a Single Family Living Unit Equivalent (SFLUE). The SFLUE is based on the continuous duty capacity of a 5/8-inch water meter. This is the City of Rockwall's typical meter used for a single family detached dwelling, and therefore is considered to be equivalent to one "living unit". Other meter sizes can be compared to the 5/8-inch meter through a ratio of water flows as published by the American Water Works Association as shown in **Table No. 2** below. This same ratio is then used to determine the proportional water and wastewater impact fee amount for each water meter size.

TABLE NO. 2

Living Unit Equivalencies For Various Types and Sizes of Water Meters

Meter Type	Meter Size	Continuous Duty Maximum Rate (gpm) [a]	Ratio to 5/8" Meter
Simple	5/8"	10	1.0
Simple	1"	25	2.5
Simple	1-1/2"	50	5.0
Simple	2"	80	8.0
Compound	2"	80	8.0
Turbine (Irrigation)	2"	160	16.0
Compound	3"	160	16.0
Turbine (Irrigation)	3"	350	35.0
Compound	4"	250	25.0
Turbine (Irrigation)	4"	650	65.0
Compound	6"	500	50.0
Turbine (Irrigation)	6"	1,400	140.0
Compound	8"	800	80.0
Turbine (Irrigation)	8"	2,400	240.0
Turbine	10"	3,500	350.0
Turbine	12"	4,400	440.0

B. CALCULATION OF WATER & WASTEWATER - LIVING UNIT EQUIVALENTS

The City of Rockwall provided the existing water meter count by size category as of December 2018. In total, there are 15,680 domestic water and irrigation meters serving an existing population of 49,616 residents and business. **Table No. 3** shows the number of existing meters, the living unit equivalent factor and the total number of living unit equivalents for each sized water meter.

Similar, the City provided the number of wastewater accounts by corresponding water meter size. This number of wastewater accounts is 15,053. **Table No. 4** illustrates the existing wastewater accounts and the SFLUE's. The difference between the water and wastewater accounts is irrigation meters are not included in the wastewater accounts.

The residential growth rate of 1.48 in **Table 1** was applied to 5/8-inch through 1-1/2-inch meters. The non-residential growth rate of 1.34 in **Table 1** was applied to 2-inch through 12-inch meters. Utilizing these growth rates in a straight-line extrapolation of the existing water and wastewater accounts, the numbers of new accounts was calculated for the year 2029. City records indicate the historical growth of 5/8-inch and 1-inch meters is approximately 96% 5/8-inch meters and 4% 1-inch meters for the base meter sizes. These percentages were applied to the total growth of 5/8-inch and 1-inch meters. Living unit equivalents were then applied to the water meters and wastewater accounts for 2019 and 2029, resulting in a total number of living units. The difference in the total number of 2019 and 2029 living units results in the new living unit equivalents during the impact fee period. The calculation of living unit equivalents is summarized in **Table 3 and Table 4**.

TABLE NO. 3

Water Living Unit Equivalents 2019 – 2029

Meter Size	2019			2029			New Living Unit Equivalents During Impact Fee Period
	Number of Water Meters	Living Unit Equivalent Ratio for 5/8" Used	Total Number of Living Units	Number of Water Meters	Living Unit Equivalent Ratio for 5/8" Used	Total Number of Living Units	
5/8"	14,261	1.0	14,261	21,108	1.0	21,108	6,847
1"	597	2.5	1,493	882	2.5	2,205	712
1-1/2"	188	5.0	940	278	5.0	1,390	450
2"	617	8.0	4,936	827	8.0	6,616	1,680
3"	5	16.0	80	7	16.0	112	32
4"	10	25.0	250	13	25.0	325	75
6"	2	50.0	100	3	50.0	150	50

Totals	**15,053**		**18,946**	**22,227**		**27,656**	**8,710**

C. COST OF FACILITIES

Unit costs for proposed water and wastewater lines larger than 12 inches in diameter that are anticipated to be constructed between 2019 and 2029 by private development include the City's oversize cost participation only. These water and wastewater lines are colored green on **Exhibits 1 and 2**. Oversize cost participation from City is based on availability of funds. For City participation, the developer must bid the 12-inch as a base and the oversize as an additive alternate. City initiated water and wastewater lines include the full cost of the proposed facility. These water and wastewater lines are colored red on **Exhibits 1 and 2**. Developer initiated water and wastewater line projects which are 12 inches or less in diameter are not included in this Impact Fee analysis, as the cost for these size lines are the responsibility of the developer. These water and wastewater lines are colored light blue (cyan) on **Exhibits 1 and 2**.

Actual construction costs of the various existing elements of the water and wastewater systems were utilized where the information was known. The existing cost of facilities was determined from Contractor's final pay requests, City purchase orders, bid tabulation forms and developer's agreements. Existing water and wastewater facilities included in the impact fee analysis are only those with excess capacity available for future growth are colored dark blue on **Exhibits 1 and 2**.

Cost data for existing water and wastewater facilities included in the impact fee analysis were provided by the City. A 5% debt service, over a period of 20-years, has been added to all projects. Actual costs were used for those existing projects where records were available.

D. WATER DISTRIBUTION SYSTEM

Computer hydraulic models for the years 2019, 2029 and Buildout were prepared and analyzed by Birkhoff, Hendricks & Carter, L.L.P. The models were developed and water demand distributed from residential population and non-residential land use projections prepared by the City of Rockwall's Planning Department. The projected developed land areas from the City's Land Use Assumptions follow closely to the construction of major facilities in the system. These facilities include pump stations, storage tanks, and major distribution lines. All computer models were run for the Maximum Hourly Demands in a three-day extended period simulation to ensure proper sizing of the facilities to meet peak demands.

1. Existing Pump Stations, Ground Storage Reservoirs & Elevated Storage Tanks

The existing water distribution system included in the impact fee analysis (As of December 2018) includes the facilities summarized in **Table No. 5** and **Table No. 6**.

TABLE NO. 5

Water Distribution System -- Existing Pump Stations & Ground Storage

Pump Station	Number of Pumps	Rated Capacity (MGD)	Number of Ground Storage Tanks	Total Ground Storage Available (Gallons)
Heath Street 698.75	6	17.7	1	3,000,000
Eastside 698.75	6	25.9	1	3,000,000
698.75 Subtotal:	**12**	**43.6**	**2**	**6,000,000**
Eastside 780	3	8.6	1	1,000,000
780 Subtotal:	**3**	**8.6**	**1**	**1,000,000**
Total:	**15**	**52.2**	**3**	**7,000,000**

TABLE NO. 6

Existing Elevated Storage Tanks

Elevated Storage Tanks	Capacity in Million Gallons
Southside Elevated Storage Tank	1.0
Country Lane Elevated Storage Tank	2.0
Springer Elevated Storage Tank	2.0
Total	**5.0**

The pump stations and ground storage facilities were analyzed with the maximum daily demand, while elevated storage acts dynamically and therefore was analyzed utilizing the difference between the Maximum Hourly Demand and the Maximum Daily Demand.

2. Distribution Lines

The distribution lines consist of all lines within the Service Area planning boundary supplying water to customers in the City of Rockwall. Existing and proposed distribution lines vary in size from 5/8-inch services to 48-inch transmission lines and pump station piping. The cost of water lines includes construction cost, appurtenances (water valves, fire hydrants, taps and the like), utility relocations, purchase of easements and engineering costs. Financing cost over a 20-year term is included for each project.

Unit cost for proposed capital improvement water lines 12-inches and larger in diameter classified as City initiated, or City participation in oversize water lines. Developer's initiated water line projects, 12 inches or less in diameter were not included in this Impact Fee analysis, as the cost for these size lines are the responsibility of the developer.

3. Water Supply

The City of Rockwall currently receives all of its water supply from the North Texas Municipal Water District (NTMWD). Rockwall's allocation of the capital cost of services as a Member of the NTMWD was specifically excluded from the impact fee analysis.

If included, Rockwall's share of the NTMWD capital cost could include the original construction cost, expansion cost and financing cost of the following components:

a) Water Rights Cost in Lake Lavon and other Sources

b) Raw Water Intake Structures

c) Raw Water Pump Stations

d) Treatment Plant and Expansion

e) High Service Pump Stations

f) Transmission Lines

g) NTMWD Owned Ground Storage Facilities

NTMWD has indicated that determining Rockwall's portion of cost for these items would not be possible, thus these costs have not been included in this analysis.

4. Water Distribution System Capital Improvement Projects for Impact Fees

In order to meet the demands of the anticipated growth over the next 10-years, as provided in the Land Use Assumptions prepared by the City of Rockwall, certain water distribution system improvements are required. **Exhibit 1** shows the recommended water system improvements and **Table No. 7** itemizes each project and the project cost in 2019 dollars. These recommended improvements form the basis for the water system impact fee calculation.

The capital improvement plan for impact fees provides for system improvements within the defined Service Area Planning Boundary. Most of the capital improvements are within the city limits, as requested by the City due to new State of Texas Annexation Laws.

5. Utilized Capacity

Utilized capacity for the water distribution system was calculated based on the water line size required for each model year (2019, 2029 and buildout). Analysis of the water distribution system is based on the maximum daily demand, maximum hourly demand, and the minimum hourly demand. Pump station capacity is generally based on the maximum daily system demand while transmission and distribution facilities are sized based on either the maximum hourly demand or the minimum hourly demand, whichever demand is greater for a particular water line. Often times, the capacity of water lines are determined by the flows generated by the minimum hourly demand. The minimum hourly flows are usually higher in those lines that are used to refill elevated storage. For each line segment in the water distribution model, the maximum buildout flow rate in the line was compared to the flow rate in the same line segment for the 2019 and the 2029 models.

The percent utilized capacity was then calculated for each year based on the buildout capacity. The utilized capacity during the Impact Fee period is the difference between the year 2029 capacity and the year 2019 capacity. **Table No. 8** below summarizes the project cost and utilized capacity cost over the Capital Recovery Period (CRP) of 2019 - 2029 for each element of the Water Distribution System. The utilized capacity for each water distribution facility, both existing and proposed, is presented in detail in Impact Fee Capacity Calculation **Table Nos. 9, 10, 11, 12, 13 and 14.**

Table No. 8

Summary of Eligible Water Distribution Project Cost and Utilized Capacity Cost

Water System Facility	20-Year Project Cost	Utilized Capacity ($) In the CRP
Existing Pump Stations & Storage	$24,635,679	$8,804,864
Existing Transmission/Distribution Lines	$14,222,504	$2,863,156

E. WASTEWATER COLLECTION SYSTEM

Computer models for the years 2019, 2029 and Buildout were prepared by Birkhoff, Hendricks & Carter L.L.P. The models were developed and peak flows calculated from the residential population and non-residential land use projections prepared by the City of Rockwall's Planning Department. Computer models were run to determine peak wet weather flow to insure proper sizing of the collection system.

1. Collection Lines

The natural creeks, whose basins will collect wastewater through the installed system of collection lines that flow into the geographic treatment area serviced by the NTMWD.

The wastewater collection system analysis covered all of the drainage basins within the Service Area planning boundary. Each collection system was analyzed for line sizes 12-inches in diameter and larger. Eliminating line sizes smaller than 12-inches in diameter from the study leaves only the interceptor and trunk lines included in the study. The wastewater project costs include necessary appurtenances (manholes, lift stations, aerial crossings and the like), purchase of easements, utility relocation, pavement removal and replacement, and engineering costs. For existing Impact Fee projects, actual costs were utilized where known. Future project cost estimates were based on 2019 average unit cost per linear foot and includes engineering, easements, and construction cost.

All eligible wastewater collection line projects in the Service Area planning boundary were included in the impact fee analysis. Eligible existing and proposed wastewater facilities are shown on **Exhibit 2** and have capacity for future growth.

2. Treatment

The North Texas Municipal Water District (NTMWD) provides the City of Rockwall with the entirety of wastewater treatment. NTMWD owns and operates the Squabble Creek and Buffalo Creek Wastewater Treatment Plants (WWTP). Excess flows above the permit levels of the Squabble Creek and Buffalo Creek WWTP's are conveyed to the NTMWD Buffalo Creek Regional system. Rockwall pays NTMWD for the cost of this service according to the City's percentage of wastewater flow contributions in any given year.

This Impact Fee study includes the cost of NTMWD regional collection and transportation, and facilities located within the City's Service Area planning boundary that were paid for by NTMWD. Existing treatment plant and future treatment plant expansion costs of NTMWD were included in this Impact Fee analysis.

3. Wastewater System Capital Improvement Projects for Impact Fees

The 10-year Wastewater System Capital Improvement Plan for Impact Fees was developed by Birkhoff, Hendricks & Carter L.L.P. **Exhibit 2** shows the recommended system improvements and **Table No. 15** itemizes each project and the project cost. These recommended improvements form the basis for the Wastewater System Impact Fee Calculation.

The capital improvement plan for impact fees provides for system improvements within the defined Service Area Planning Boundary.

DRAFT

NTMWD SQUABBLE CREEK WASTEWATER TREATMENT PLANT
EXISTING CAPACITY: 1.0 MGD
2020- PROPOSED DECOMMISSIONING OF EXISTING PLANT

SQUABBLE CREEK LIFT STATION
EXIST. FIRM PUMPING CAPACITY - 3.0 MGD
2019- INCREASE CAPACITY TO 10.0 MGD W/THREE NEW 250 HP PUMPS (20)
2026 - INCREASE CAPACITY TO 15.0 MGD BY ADDING 2ND WET WELL WITH THREE NEW 250 HP PUMPS (24)

NTMWD TURTLE COVE (AKA LAKESIDE) LIFT STATION
EXIST. FIRM PUMPING CAPACITY - 3.7 MGD
PROPOSED EXPANSION/IMPROVEMENTS (A2)
PROP. FIRM PUMPING CAPACITY: 5.3 MGD

FM 3097 NO. 2 LIFT STATION
EXIST. FIRM PUMPING CAPACITY - 2.9 MGD
2024- INCREASE CAPACITY TO 6.0 MGD BY REPLACING TWO 25 HP PUMPS W/TWO NEW 35 HP PUMPS (23)

NTMWD BUFFALO CREEK WASTEWATER TREATMENT PLANT
EXISTING CAPACITY: 2.25 MGD

FM 3097 NO. 1 LIFT STATION
EXIST. FIRM PUMPING CAPACITY - 2.2 MGD
2024- INCREASE CAPACITY TO 5.0 MGD BY REPLACING TWO 45 HP PUMPS W/TWO NEW 90 HP PUMPS (22)

NTMWD SOUTH MESQUITE REGIONAL WWTP
FUTURE EXPANSIONS TBD

NTMWD BUFFALO CREEK LIFT STATION
2020 PROPOSED EXPANSION (A3)

NTMWD BUFFALO CREEK PARALLEL INTERCEPTOR SEWER
2019-PHASE 1: FROM BUFFALO CREEK WWTP TO FORNEY (A1)
2026- PHASE 2: FROM FORNEY TO BUFFALO CREEK LIFT STATION (A5)

			Total: NTMWD Wastewater System Improvements:		**$ 60,964,600**	**$ -**	**$ 60,964,600**

(A) Opinion of Cost includes:

a) Engineer's Opinion of Construction Cost

b) Professional Services Fees (Survey, Engineering, Testing, Legal)

c) Cost of Easement or Land Acquisitions

Notes: 1. City obligations estimated based on City of Rockwall's contracted proportion or historical usage of NTMWD Regional Systems.

2. 10-Year CIP for NTMWD Regional Systems based on project listings provided for "Summary of Sewer System CIP" and "Summary of Regional Wastewater System CIP", both dated May 11, 2018.

Planning Expenses

	Project Description	Engineering Services	Opinion of Project Cost (A)
2029	Wastewater Masterplan & Impact Fee Update	$ 59,850	$ 59,850
		Total: Planning Expenses:	**$ 59,850**
Grand Total, City of Rockwall & NTMWD Wastewater System Improvements:			**$ 112,316,560**

4. Utilized Capacity

Utilized capacity for the wastewater collection system was calculated based on land use assumptions prepared by the City of Rockwall. The population and non-residential growth in each wastewater drainage basin was determined utilizing the City's growth projections. These growth rates were utilized to calculate 2019, 2029 and buildout peak design flows.

The percent-utilized capacity was calculated for the design flow of each study year based on the buildout capacity. The utilized capacity during the Impact Fee period is the difference between the year 2019 capacity and the year 2029 capacity. **Table No. 16** below summarizes the project cost and utilized cost over the impact fee period of 2019 – 2029. The utilized capacity for each eligible existing and proposed wastewater collection line is presented in detail in the Impact Fee Capacity Calculation **Table Nos. 17 and 18**. **Table No. 19** summarizes the utilized capacity of lift stations eligible for impact fee recovery. **Table 20** summarizes the utilized capacity of NTMWD facilities eligible for impact fee recovery. **Table 21** includes the summary of utilized capacity allocation between the City of Rockwall and NTMWD.

TABLE NO. 16

Summary of Eligible Capital Cost and Utilized Capacity Cost

Wastewater System Facility	20-Year Project Cost	Utilized Capacity ($) in the CRP Period
Existing Wastewater Collection Line	$12,344,474	$3,863,647
Existing Wastewater Facilities	$6,402,514	$629,875
Proposed Wastewater Collection Line	$12,426,705	$9,608,437

Proposed NTMWD Facility Total						**$ 60,964,600**		**$ 60,964,600**							**$ 20,229,523**	**$ 29,856,651**	**$ 9,627,128**

Notes: 1. City obligations estimated based on City of Rockwall's historical usage of NTMWD Regional Systems.
2. 10-Year CIP for NTMWD Regional Systems based on project listings provided for "Summary of Sewer System CIP" and "Summary of Regional Wastewater System CIP", both dated May 11, 2018.
3. Funded by NTMWD, 100% City Responsibility
4. Part of NTMWD Buffalo Interceptor System, assumed 59% City Responsibility
5. Part of NTMWD Regional Systems, assumed 2.915% City Responsibility
6. Utilized capacities for NTMWD facilities were determined using the proportion of the existing and projected 2029 population as compared to the build-out population.

TABLE NO. 21

Summary of Utilized Capacity Allocation between City of Rockwall & NTMWD Wastewater System

	CITY OF ROCKWALL Utilized Capacity		NTMWD Utilized Capacity		TOTAL	
	($)	%	($)	%	($)	%
Existing Wastewater System	$ 4,493,522	100.00%	$ -	0.00%	$ 4,493,522	100%
Proposed Wastewater System & Planning Cost	$ 28,851,740	74.98%	$ 9,627,128	25.02%	$ 38,478,868	100%
TOTAL	**$ 33,345,262**	**77.60%**	**$ 9,627,128**	**22.40%**	**$ 42,972,390**	**100%**

F. CALCULATION OF MAXIMUM IMPACT FEES - WATER & WASTEWATER

Chapter 395, of the Local Government Code allows the maximum impact fee to be charged if revenues from Future Ad Valorem Taxes, and water and sewer bills are included as a credit in the analysis. If not, the Act allows the maximum assessable fee to be set at 50% of the calculated maximum fee. The maximum impact fees for the water and wastewater systems are calculated separately by dividing the cost of the capital improvements or facility expansions necessitated and attributable to new development in the Service Area within the ten year period by the number of living units anticipated to be added to City within the ten year period. To simplify collection, we recommend the fee remain fixed throughout the 5-year period, unless changed by Council.

The **Water System** impact fee for a 5/8" meter is calculated as follows:

$$\text{Maximum Impact Fee} = \frac{\text{Eligible Existing Facility Cost} + \text{Eligible Proposed Facility Cost}}{\text{Number of New Living Unit Equivalent over the Next 10-Years}}$$

$$= \frac{\$12,324,530 + \$18,582,427}{9,846} = \frac{\$30,906,957}{9,846}$$

Calculated Water Maximum Impact Fee = $3,139.04 *

* Maximum Allowable Water Impact Fee is 50% of the Calculated Water Maximum Impact Fee

Maximum Assessable Water Impact Fee = $3,139.04 X 50% = $1,569.52

The **Wastewater System** impact fee for a 5/8" water meter is calculated as follows:

$$\text{Maximum Impact Fee} = \frac{\text{Eligible Existing Facility Cost} + \text{Eligible Proposed Facility Cost}}{\text{Number of New Living Unit Equivalent over the Next 10-Years}}$$

$$= \frac{\$4,493,522 + \$38,478,868}{8,710} = \frac{\$42,972,390}{8,710}$$

Calculated Water Maximum Impact Fee = $4,933.68 *

* Maximum Allowable Water Impact Fee is 50% of the Calculated Water Maximum Impact Fee

Maximum Assessable Wastewater Impact Fee = $4,933.68 X 50% = $2,466.84

Table No. 22 summarizes the per service unit equivalent maximum assessable impact fee that can be charged based on the calculated 50% credit above.

TABLE NO. 22

Maximum Assessable Water & Wastewater Impact Fee

Maximum Assessable Water Impact Fee per Living Unit Equivalent: $1,569.52

Maximum Assessable Wastewater Impact Fee per Living Unit Equivalent: $2,466.84

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 24, 2019
6:00 P.M.

CALL TO ORDER

OPEN FORUM

CONSENT AGENDA

1. Approval of Minutes for the *August 27, 2019* Planning and Zoning Commission meeting.

2. **P2019-037** (Korey)
   Consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Carla Rankin Real Estate Holding for the approval of a final plat for Lot 1, Block A, Rankin Addition being a 0.29-acre tract of land identified as Tract 22 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Residential Office (RO) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 4035 N. Goliad Street [*SH-205*], and take any action necessary.

3. **P2019-038** (David)
   Consider a request by Bryon Connally of CBG Surveying Texas, LLC on behalf of Shannon McCord Riddell for the approval of a replat for Lot 1, Block A, Goliad-Riddle Addition being a 0.4079-acre tract of land identified as Lot C, Block 117, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 501 S. Goliad Street, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

DISCUSSION ITEMS

5. **Z2019-021** (David)
   Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

6. **Z2019-022** (Korey)
   Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

7. **Z2019-024** (David)
   Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*], and take any action necessary.

8. **SP2019-035** (Korey)
   Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [*FM-3097*], and take any action necessary.

9. **SP2019-037** (David)
   Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

10. Director's Report of post Council meeting outcomes of Planning & Zoning cases (Ryan).

- ✓ P2019-017: Preliminary Plat for the Emerson Farms Addition [*Approved*]
- ✓ P2019-031: Final Plat for Saddle Star South, Phase 1 Addition [*Approved*]
- ✓ P2019-033: Replat for Lot 47, Block D, Park Place West, Phase II Addition 1 [*Approved*]
- ✓ Z2019-017: Zoning Change (AG to PD) for Townhomes (*1st Reading*) [*Withdrawn*]
- ✓ Z2019-018: Amendment to Planned Development District 5 (PD-5) (*1st Reading*) [*Approved*]
- ✓ Z2019-019: Specific Use Permit (SUP) for a Freestanding Commercial Antenna (*1st Reading*) [*Withdrawn*]
- ✓ Z2019-020: Zoning Change (AG to C) for the Panzner Addition (*1st Reading*) [*Approved*]

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 20th day of September 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

CONSENT AGENDA

1. **SP2019-038** (David)
   Consider a request for the approval of an amended site plan for an existing restaurant (*i.e. Braum's Ice Cream & Dairy Store*) on a 1.30-acre parcel of land identified as Lot 1A, Block A, Braum's Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, and addressed as 1820 S. Goliad Street., and take any action necessary.

ACTION ITEMS

2. **SP2019-035** (Korey)
   Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [*FM-3097*], and take any action necessary.

3. **SP2019-037** (David)
   Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

ADJOURNMENT

The City of Rockwall Architecture Review Board (ARB) reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 20th day of September 2019, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
August 27, 2019
6:00 P.M.

I. CALL TO ORDER

Vice-Chairman Eric Chodun called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Jerry Welch, Tracey Logan, Mark Moeller and Sedrick Thomas. Absent from the meeting was Annie Fishman and John Womble. Staff members present were Planning Director, Ryan Miller, Planning Manager, David Gonzales, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, and Civil Engineer Sarah Hager.

II. OPEN FORUM

Vice-Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time. There being no one coming forward to speak Vice-Chairman Chodun closed the open forum.

III. CONSENT AGENDA

1. Approval of Minutes for the July 30, 2019 Planning and Zoning Commission meeting.

2. P2019-032
Consider a request by Jay and Terri Bedford of A. J. Bedford Group, Inc. on behalf of Raymond Jowers for the approval of a replat for Lot 8, Block A, Bodin Industrial Addition being a 2.029-acre parcel of land identified as Lot 7, Block A, Bodin Industrial Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 2040 Kristy Lane, and take any action necessary.

3. P2019-034
Consider a request by Matt Atkins of Engineering Concepts on behalf of Scott Lewis of RRDC, LTD. for the approval of a replat for Lots 29-33, Block A, Whisper Rock Addition being a 1.177-acre tract of land currently identified as Lots 1-5, Block A, Whisper Rock Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 1206, 1210, 1214, 1218 & 1222 Whisper Rock Drive, and take any action necessary.

4. P2019-036
Consider a request by Price Pointer of TCB Construction Group, LLC for the approval of a replat for Lot 1, Block A, TCB Addition being a 0.23-acre parcel of land identified as Block 20B of the Amick Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential-Office (RO) District, addressed as 505 N. Goliad Street, and take any action necessary.

5. SP2019-034
Consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of Suresh Shridharani of Harlan Properties, Inc. for the approval of a site plan for the Emerson Farms Subdivision containing 107 single-family residential lots on a 138.756-acre tract of land identified as Tract 1 of the J. Lockhart Survey, Abstract No. 137, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 76 (PD-76) for Single Family 1 (SF-1) District land uses, generally located on the east side of Dowell Road south of the intersection of SH-276 and Dowell Road, and take any action necessary.

Commissioner Welch made a motion to approve the consent agenda. Commissioner Logan seconded the motion which passed by a vote of 5-0 with Commissioners Womble and Fishman absent.

IV. APPOINTMENTS

6. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

Vice-Chairman Chodun indicated agenda item #7 would be moved to the end of the agenda.

V. ACTION ITEMS

7. Hold an election to elect a Chairman and Vice-Chairman for the Planning and Zoning Commission.

Commissioner Moeller nominated Vice-Chairman Chodun for Chairman of the Commission. Commissioner Logan seconded the motion which passed by a vote of 5-0 with Commissioners Fishman and Womble absent. Commissioner Moeller made a motion to nominate Commissioner Welch as Vice-Chairman. Commissioner Thomas seconded the motion which passed by a vote of 5-0 with Commissioners Fishman and Womble absent.

VI. DISCUSSION ITEMS

8. Z2019-017

Hold a public hearing to discuss and consider a request by Lance Tyler of Marc Development, LLC for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Two-Family (2F) District land uses to allow townhomes on a 1.27-acre tract of land identified as Tract 29 & 29-1 of the S. S. McCurry Survey, Abstract No. 146, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, addressed as 1451 FM-1141, and take any action necessary.

Vice Chairman Chodun asked the applicant to come forward and speak.

Lance Tyler
1501 The Rock
Rockwall, TX

Mr. Tyler came forward and provided information and background pertaining to his request. Mr. Tyler indicated he was available for questions.

Vice-Chairman Chodun asked for questions from the Commission. Commissioner Logan asked in regards to the access. Commissioner Moeller shared concern with the high density and rear driveway being the only access for parking. Commissioner Welch asked in regards to the design.

There being no further questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2019-018

Hold a public hearing to discuss and consider a request by Rob Whittle for the approval of an amendment to Planned Development District 5 (PD-5) to change the garage setback requirements for an 11.003-acre tract of land identified as Lots 1-40, Block A, the Highlands Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 5 (PD-5) for Zero Lot Line (ZL-5) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, located at the northwest corner of the intersection of SH-66 and FM-1114, and take any action necessary.

Planning Director, Ryan Miller, provided a brief summary and background of the request. Mr. Miller indicated that the applicant was present and available for questions as well as staff.

Vice Chairman Chodun asked the applicant to come forward and speak.

Rob Whittle
P.O. Box 369
Rockwall, TX

Mr. Whittle came forward and provided additional information in regards to the request. Mr. Whittle indicated he was available for questions.

Vice-Chairman Chodun asked for questions from the Commission.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2019-019

Hold a public hearing to discuss and consider a request by Doug Henderson of Crafton Communications, Inc. for the approval of a Specific Use Permit (SUP) allowing a *Freestanding Commercial Antenna* on a 0.0055-acre portion of a larger 1.24-acre parcel of land, identified as Lot 9, Block A, Horizon Ridge Center Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, addressed as 920 Rockwall Parkway, and take any action necessary.

Vice Chairman Chodun asked the applicant to come forward and speak.

Doug Henderson
1870 Crown Drive
Dallas, TX

Mr. Henderson came forward and provided a brief summary of the request. He indicated he was available for questions.

Vice-Chairman Chodun asked for questions from the Commission. Commissioner Welch asked if the subject property is owned by the City of Rockwall. Senior Planner, Korey Brooks, indicated that the city tower is in a city facility. The request is to add an additional tower with the existing one remaining on the site. Commissioner Moeller asked in regards to the platforms within the tower.

There being no further questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

11. Z2019-020

Hold a public hearing to discuss and consider a request by Todd Panzner for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 11.85-acre tract of land identified as Tract 1-1 of the J. H. Bailey Survey, Abstract No. 22, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-276 Overlay (SH-276 OV) District, generally located south of the intersection of Green Circle and SH-276, and take any action necessary.

Vice Chairman Chodun asked the applicant to come forward and speak.

Todd Panzner
1600 Eldridge Parkway
Houston, TX

Mr. Panzner came forward and provided brief comments in regards to details pertaining to the request and indicated he was available for questions.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

12. P2019-017

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of Suresh Shridharani of Harlan Properties, Inc. for the approval of a preliminary plat for the Emerson Farms Subdivision containing 107 single-family residential lots on a 138.756-acre tract of land identified as Tract 1 of the J. Lockhart Survey, Abstract No. 137, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 76 (PD-76) for Single Family 1 (SF-1) District land uses, generally located on the east side of Dowell Road south of the intersection of SH-276 and Dowell Road, and take any action necessary.

Senior Planner, Korey Brooks provided brief comments in regards to the request. The case is before the Commission because it will go before the Parks Board to access fees and will be on the consent agenda at the next scheduled meeting.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

13. P2019-031

Consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owner Jeff Kennemer of the Saddle Star Land Development, LLC for the approval of a final plat for Phase 1 of the Saddle Star South Subdivision containing 66 single-family residential lots on a 26.411-acre tract of land identified as a portion of a larger 44.292-acre tract of land identified as Tract 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

Planning Manager, David Gonzales, shared that the purpose for discussion on the request is due to some adjustments that needed to be made to some of the lots within the subdivision and those as well as comments that staff has forwarded are being worked on by the applicant. The item will be on the consent agenda at the next scheduled meeting.

Mr. Gonzales indicated that the applicant was present and available for questions as well as staff.

Vice-Chairman Chodun asked for questions from the Commission.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

14. P2019-033

Consider a request by Bill Bricker of Columbia Development Company, LLC on behalf of David and Laura Cline for the approval of a replat for Lot 47, Block D, Park Place West Phase II Addition being a 0.184-acre parcel of land being currently identified as Lot 20, Block D, Park Place West Phase II Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 59 (PD-59) for Single-Family 7 (SF-7) District land uses, addressed as 408 Jordan Farm Circle, and take any action necessary.

Senior Planner, Korey Brooks, shared that the case was on the agenda due to issues with the easements and should the issues be resolved it will be on the consent agenda at the next scheduled meeting.

Mr. Brooks indicated staff was available for questions. Vice-Chairman Chodun asked for questions from the Commission.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

15. P2019-035

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of Adam Buczek of Stone Creek Phase 10, LTD for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of the intersection of Featherstone Drive and John King Boulevard, and take any action necessary.

Planning Manager, David Gonzales, shared that the applicant indicated they would like to withdraw the application and no action is necessary from the Commission. Mr. Gonzales indicated staff was available for questions.

Vice-Chairman Chodun asked for questions from the Commission.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

16. SP2019-030

Discuss and consider a request by David A. Morales of Pross Design Group, Inc. on behalf of Carolina Molina of Alvaplast US (SPR Packaging) for the approval of a site plan for an expansion of an existing office/warehouse/manufacturing facility on a 10.1893-acre tract of land identified Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

Planning Manager, David Gonzales, shared that the Architectural Review Board reviewed the site plan and forwarded a recommendation of approval along with the variances and exceptions being requested. Mr. Gonzales indicated that the applicant was present and available for questions as well as staff.

Vice Chairman Chodun asked the applicant to come forward and speak.

Bobby Pross
4050 Wayne's Brick Road
Dallas, TX

Mr. Pross came forward and provided comments in regards to the request and indicated he was available for questions.

Vice-Chairman Chodun asked for questions from the Commission.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

17. SP2019-031

Discuss and consider a request by Ryan Moorman of R. D. Moorman, Inc. for the approval of a site plan for an office building on a 1.244-acre parcel of land identified as Lot 22, Rainbow Acres Addition, City or Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 259 Ranch Trail, and take any action necessary.

Vice Chairman Chodun asked the applicant to come forward and speak.

Ryan Moorman
417 Windermere
Heath, TX

Mr. Moorman came forward and provided comments pertaining to the request for approval of a site plan for an office building. Mr. Moorman indicated he was available for questions.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

18. SP2019-033

Discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of a site plan for a strip retail center and restaurant on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary.

Vice Chairman Chodun asked the applicant to come forward and speak.

Jimmy Strohmeyer
2701 Sunset Ridge
Rockwall, TX

Mr. Strohmeyer came forward and provided comments pertaining to the request for approval of the site plan for a strip retail center and restaurant they are bringing forward. Mr. Strohmeyer indicated he was available for questions.

There being no questions Vice-Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

19. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2019-029: Preliminary Plat for the Northgate Subdivision [*Approved*]
- ✓ P2019-026: Master Plat for the Northgate Subdivision [*Approved*]
- ✓ Z2019-015: SUP for a Minor Automotive Facility [*Approved*]
- ✓ Z2019-016: Legislative Update Text Amendment (*1st Reading*) [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

VII. ADJOURNMENT

Chairman Chodun adjourned the meeting at 6:54 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	September 24, 2019
APPLICANT:	Dub Douphrate; *Douphrate & Associates, Inc.*
CASE NUMBER:	P2019-037; *Lot 1, Block A, Rankin Addition*

SUMMARY

Consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Carla Rankin Real Estate Holding for the approval of a final plat for Lot 1, Block A, Rankin Addition being a 0.29-acre tract of land identified as Tract 22 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Residential Office (RO) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 4035 N. Goliad Street [SH-205], and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to final plat a 0.29-acre tract of land (*i.e. Tract 22, of the J. Strickland Survey, Abstract No. 187*) into one (1) lot (*i.e. Lot 1, Block A, Rankin Addition*) for the purpose of converting a single-family home into an office.

☑ The subject property was annexed in 1983 [*Ordinance No. 83-57*] and currently contains a single-family home. On June 25, 2019, the Planning and Zoning Commission approved a site plan [*Case No. SP2019-020*] for the purpose of converting a single-family home into an office.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Lot 1, Block A, Rankin Addition*, staff would propose the following conditions of approval:

(1) The final plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2019-037; Lot 1, Block A, Rankin Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Carla Rankin Real Estate Holding for the approval of a final plat for Lot 1, Block A, Rankin Addition being a 0.29-acre tract of land identified as Tract 22 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Residential Office (RO) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 4035 N. Goliad Street [SH-205]
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2019-037) in the lower right-hand corner of all pages on future submittals.
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).
M.5 Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:
(1) Please label the Point of Beginning
(2) Please show and label front setback and Landscape buffer.
(3) Show and label adjacent properties. It is not necessary to show Glenmere Court.
(4) Can this plat be reduced to one page?
(5) Please note, the graphic scale is off.
I.6 Please note that failure to address all comments provided by staff by 5:00 PM on October 1, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; The Planning & Zoning Meeting September 26, 2019.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL

We, **CARLA RANKIN REAL ESTATE HOLDINGS, LLC** the undersigned owners of the land shown on this plat, and designated herein as the **RANKIN ADDITION** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **RANKIN ADDITION** subdivision have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall;

7. Property owner is responsible for maintenance, repair, and replacement of all detention/drainage facilities in easements;

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, my (our) successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

A.J. Bedford Group, Inc.
301 North Alamo Road
Rockwall, Texas 75087

GENERAL NOTES:

It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have bee accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

The use of the word "certify or certificate" used hereon constitutes an expression of professional opinion regarding those facts of findings which are the subject of the certification, and does not constitute a warranty or guarantee, either expressed or implied.

Basis of Bearings: Bearings are based on document recorded in Clerk File #2019000000444 or the Official Public Records, Rockwall County, Texas.

FLOOD STATEMENT: According to Community Panel No. 48397C0030L, dated September 26, 2008 of the Federal Emergency Management Agency, National Flood Insurance Program map this property is within Flood Zone "X", which is not a special flood hazard area. If this site is not within an identified special flood hazard area, this flood statement does not imply that the property and/or the structures thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This statement shall not create liability on the part of the Surveyor

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	September 24, 2019
APPLICANT:	Bryon Connally; *CBG Surveying Texas, LLC*
CASE NUMBER:	P2019-038; *Lot 1, Block A, Goliad-Riddell Addition*

SUMMARY

Consider a request by Bryon Connally of CBG Surveying Texas, LLC on behalf of Shannon McCord Riddell for the approval of a replat for Lot 1, Block A, Goliad-Riddle Addition being a 0.4079-acre tract of land identified as Lot C, Block 117, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 501 S. Goliad Street, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 0.4079-acre parcel of land [*i.e. Lot 1, Block A, Goliad-Riddell Addition*] for purpose of establishing a drainage & detention easement for the in conjunction with the expansion of the existing building on the subject property. The *subject property* is zoned General Retail (GR) District and addressed as 501 S. Goliad Street.

☑ On August 13, 2019, the Planning and Zoning Commission approved a site plan [*i.e.SP2019-029*] for the purpose of expanding an existing personal service facility [*i.e. Jour Salon & Spa*] subject property. The proposed expansion will increase the total square footage of the existing structure to 3,448 SF (*i.e. an increase of 736 SF*). According to the Rockwall Central Appraisal District (RCAD) records, the existing structure was constructed in 1990.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the replat for *Lot 1, Block A, Goliad-Riddell Addition*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(9/20/2019 9:38 AM DG)
P2019-038: Replat – Goliad-Riddell Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a replat for Lot 1, Block A, Goliad-Riddle Addition being a 0.4079-acre tract of land identified as Lot C, Block 117, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 501 S. Goliad Street.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (P2019-038) in the lower right hand corner of all pages on future submittals.

I.4 The final plat shall conform to all standards and requirements of the Unified Development Code(UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

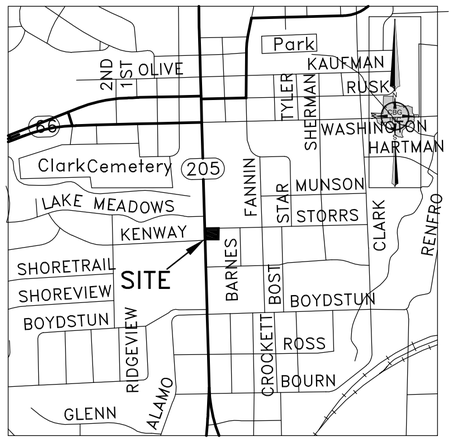
M.5 Correct Title Block to read as follows:
Final Plat
GOLIAD-RIDDELL ADDITION
Lot 1, Block A
17,769 Sq. Ft. / 0.4079-acres
Being a replat of Lots C, Block 117, BF Boydston Addition,
Situated in the E.P. Gaines Chisum Survey, Abstract No. 64
City of Rockwall, Rockwall County, Texas

I.6 Provide a label indicating the center line of both street rights-of-way (i.e. S. Goliad Street & Storrs Street).

M.7 Remove the following improvements from the plat as these items are not associated with a final plat (Sec. 38-10, Final Plat, Art. I, UDC):
1) Remove building footprint.
2) Remove parking lot improvements and striping detail.
3) Remove all tree detail and symbols.
4) Remove retaining wall detail.

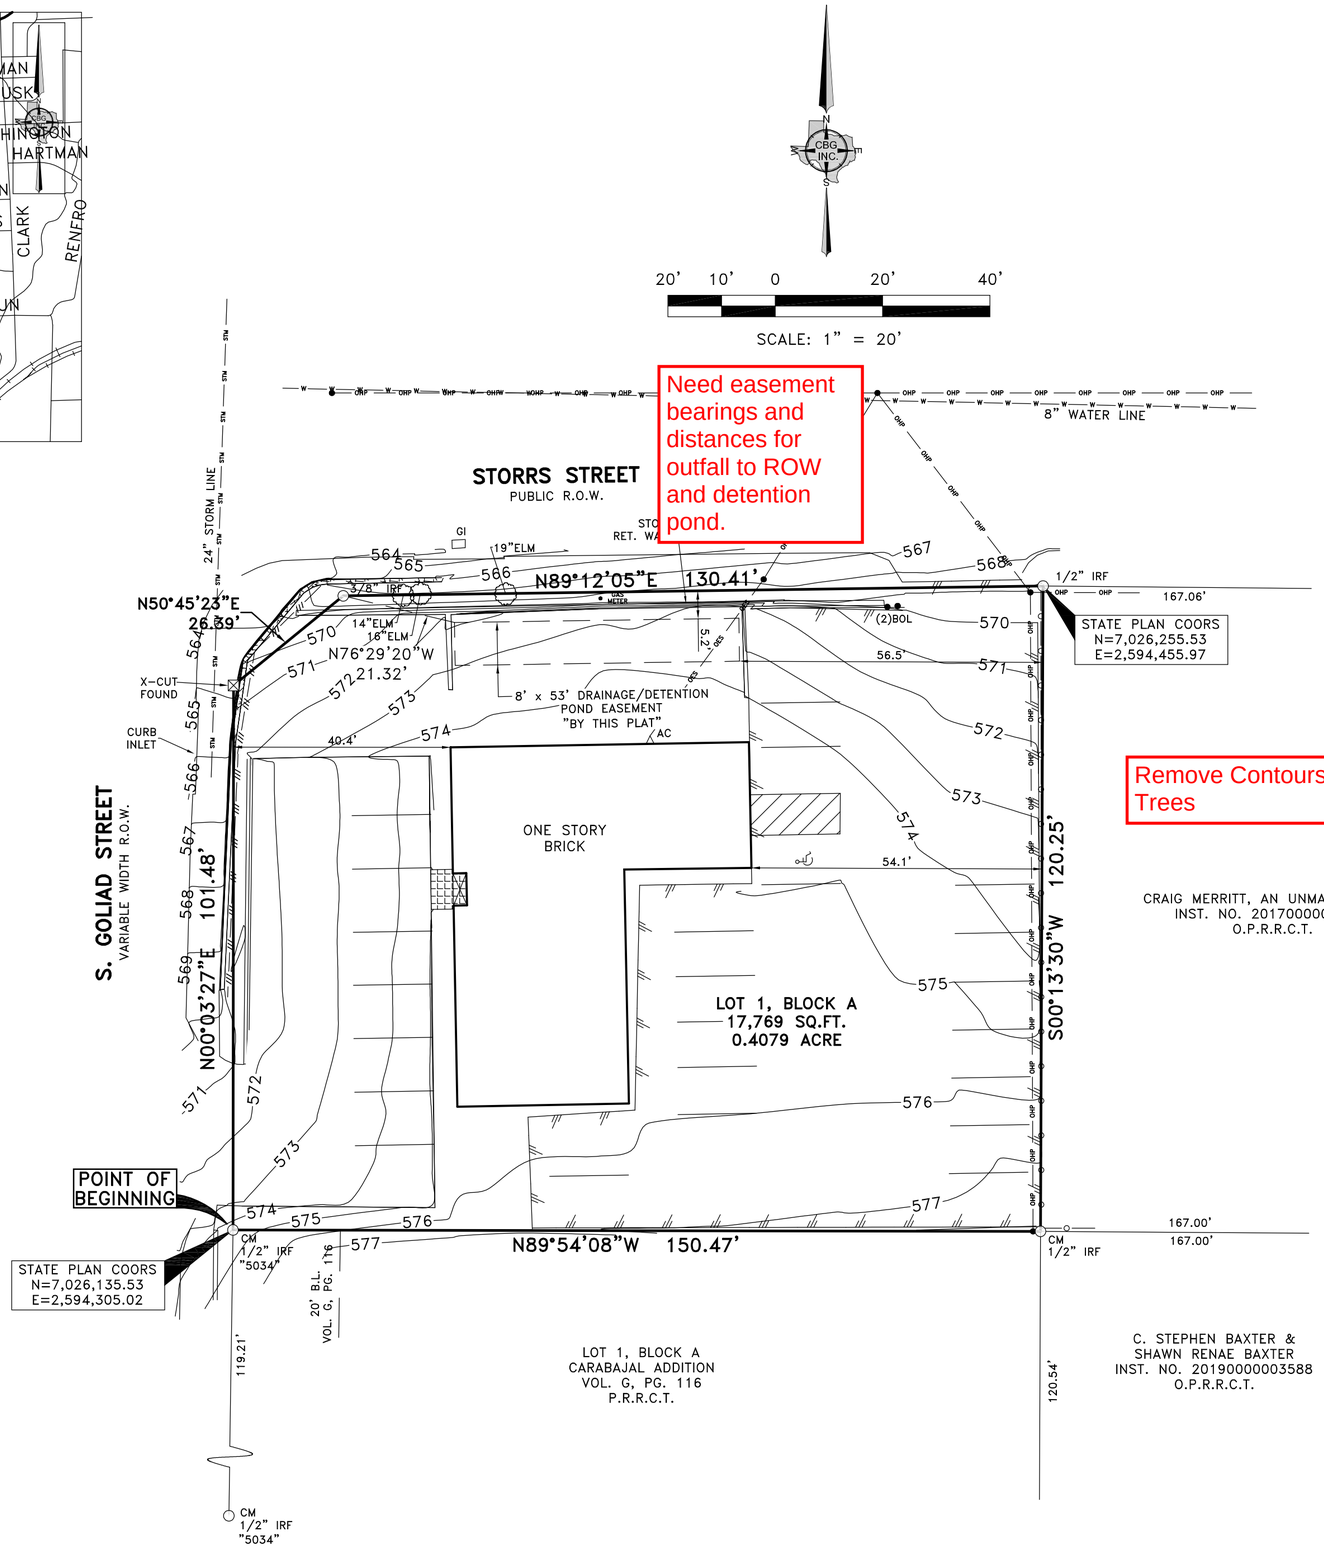
M.8 Provide the following information on the plat (Sec. 38-10, Final Plat, Art. I, UDC):
1) Provide a label for the addition's name above Lot 1, Block A (i.e. Goliad-Riddell Addition).
2) Delineate and label building setbacks adjacent to streets.
3) Delineate and label all easements (i.e. existing and proposed).
4) Delineate and label the street rights-of-way (i.e. Storrs Street).
5) Use a lighter gray scale for contour lines (or dashed lines).

I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for the applicants to submit revisions as soon as possible to give staff ample time to review the case for compliance. Please provide one (1) large copy [18" X 24" FOLDED] and one PDF version for a final



review by staff.

I.10 The Planning and Zoning meeting will be held on September 24, 2019. This case will be on the Consent Agenda.



I.11 The City Council meeting will be held on October 7, 2019. This case will be on the Consent Agenda.

I.12 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.

I.13 Staff recommends that a representative be present for the meetings as scheduled above The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

VICINITY MAP

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Shannon McCord Riddell, a married woman, being the owner of a tract of land situated in the E.P. Gaines Chisum Survey, Abstract No. 64 and being that same tract of land conveyed to Shannon McCord Riddell by General Warranty Deed recorded in Instrument No. 20140000018421, Official Public Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a 1/2 inch iron rod stamped "5034" found at the Northwest corner of Lot 1, Block A of Carabajal Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the map recorded in Volume G, Page 116, Map Records, Rockwall County, Texas, said point being on the East right-of-way line of S. Goliad Street (variable width right-of-way);

THENCE North 00 degrees 03 minutes 27 seconds East, along said East right-of-way line of said S. Goliad Street, a distance of 101.48 feet to an "X" found at a corner clip;

THENCE North 50 degrees 45 minutes 23 seconds East, along said corner clip, a distance of 26.39 feet to a 3/8 inch iron rod found for corner on the South right-of-way line of Storrs Street (public right-of-way);

THENCE North 89 degrees 12 minutes 05 seconds East, along said South right-of-way line of said Storrs Street, a distance of 130.41 feet to a 1/2 inch iron rod found at the Northwest corner of a tract of land conveyed to Craig Merritt by Deed recorded in Instrument No. 20170000016401, Official Public Records, Rockwall County, Texas, said corner being in the South right-of-way line of said Storrs Street;

THENCE South 00 degrees 13 minutes 30 seconds West, along the West line of said Merritt tract, a distance of 120.25 feet to a 1/2 inch iron rod found for corner, said corner being the Southwest corner of said Merritt tract, also being the Northwest corner of a tract of land conveyed to C. Stephen Baxter and Shawn Renae Baxter by Deed recorded in Instrument No. 20190000003588, Official Public Records, Rockwall County, Texas, said corner also being the Northeast corner of said Lot 1, Block A, Carabajal Addition;

THENCE North 89 degrees 54 minutes 08 seconds West, along the North line of said Lot 1, Block A, Carabajal Addition, a distance of 150.47 feet to the POINT OF BEGINNING and containing 17,769 square feet or 0.4079 of an acre of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner(s) of the land shown on this plat, and designated herein as the **GOLIAD-RIDDELL ADDITION**, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **GOLIAD-RIDDELL ADDITION** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CASE NO. _____

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Shannon McCord Riddell, a married woman, being the owner of a tract of land situated in the E.P. Gaines Chisum Survey, Abstract No. 64 and being that same tract of land conveyed to Shannon McCord Riddell by General Warranty Deed recorded in Instrument No. 20140000018421, Official Public Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a 1/2 inch iron rod stamped "5034" found at the Northwest corner of Lot 1, Block A of Carabajal Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the map recorded in Volume G, Page 116, Map Records, Rockwall County, Texas, said point being on the East right-of-way line of S. Goliad Street (variable width right-of-way);

THENCE North 00 degrees 03 minutes 27 seconds East, along said East right-of-way line of said S. Goliad Street, a distance of 101.48 feet to an "X" found at a corner clip;

THENCE North 50 degrees 45 minutes 23 seconds East, along said corner clip, a distance of 26.39 feet to a 3/8 inch iron rod found for corner on the South right-of-way line of Storrs Street (public right-of-way);

THENCE North 89 degrees 12 minutes 05 seconds East, along said South right-of-way line of said Storrs Street, a distance of 130.41 feet to a 1/2 inch iron rod found at the Northwest corner of a tract of land conveyed to Craig Merritt by Deed recorded in Instrument No. 20170000016401, Official Public Records, Rockwall County, Texas, said corner being in the South right-of-way line of said Storrs Street;

THENCE South 00 degrees 13 minutes 30 seconds West, along the West line of said Merritt tract, a distance of 120.25 feet to a 1/2 inch iron rod found for corner, said corner being the Southwest corner of said Merritt tract, also being the Northwest corner of a tract of land conveyed to C. Stephen Baxter and Shawn Renae Baxter by Deed recorded in Instrument No. 20190000003588, Official Public Records, Rockwall County, Texas, said corner also being the Northeast corner of said Lot 1, Block A, Carabajal Addition;

THENCE North 89 degrees 54 minutes 08 seconds West, along the North line of said Lot 1, Block A, Carabajal Addition, a distance of 150.47 feet to the POINT OF BEGINNING and containing 17,769 square feet or 0.4079 of an acre of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner(s) of the land shown on this plat, and designated herein as the **GOLIAD-RIDDELL ADDITION**, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **GOLIAD-RIDDELL ADDITION** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

By: _____
Shannon McCord Riddell, (Owner)

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared Shannon McCord Riddell, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____day of_____, 2019.

By: _____

printed name: _____
Notary Public in and for the State of Texas

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Bryan Connally, a Registered Professional Land Surveyor, licensed by the State of Texas, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

Dated this the_____ day of _____, 2019.

RELEASED FOR REVIEW 8/8/19 PRELIMINARY, THIS DOCUMENT SHALL NOT BE RECORDED FOR ANY PURPOSES AND SHALL NOT BE USED OR VIEWED OR RELIED UPON AS A FINAL SURVEY DOCUMENT.

Bryan Connally
Texas Registered Professional Land Surveyor No. 5513

(9/20/2019 11:43 AM DG)
Z2019-021: Amendment to PD-79 Saddle Star South Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-39] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (Z2019-021) in the lower right hand corner of all pages on future submittals.

I.4 The proposed zoning change shall conform to all standards and requirements of the Unified Development Code (UDC), staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

M.5 If approved, any development shall conform to all standards and requirements of Article V, of the Unified Development Code (UDC); including Planned Development District 79 (PD-79), SH-205 By-Pass Overlay (SH-205 BY-OV) District, and the General Residential District Standards.

M.6 Provide staff with an updated Concept Plan and make changes to the Land Use Data Table indicating the changes per the draft ordinance regarding the number of lots for the development, density of dwelling units per acre (i.e. du/ac), and the percentage & acres of open space provided.

I.7 Please review the attached draft ordinance prior to the September 24, 2019 Planning & Zoning Commission meeting, and provide staff with your markups by October 1, 2019. Additionally, please provide staff with a letter of consent regarding the changes to the draft ordinance.

I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 8, 2019 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 24, 2019.

I.9 The projected City Council meeting dates for this case will be October 21, 2019 [1st Reading] & November 4, 2019 [2nd Reading].

I.10 Staff recommends that a representative be present for the meetings as scheduled above. Failure to have a representative present for the scheduled meetings may result in a delay of the request. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-021: Saddle Star South

Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-39] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

CONCEPT PLAN

TRACT ONE

BEING 44.292 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "First Tract" being a called 32.5 acres and the "Second Tract" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, L.P., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Volume 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John Kind Boulevard (variable width right-of-way) at the common north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John Kind Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44°02'06" West, a distance of 1,073.12 feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31 feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John Kind Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract common to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the common east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185 acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT TWO

BEING 11.121 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner near the edge of an asphalt surface in the east margin of Hays Road, said point also being the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52 feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described in a Special Warranty Deed to R & R Hance Investments, L.P., as "Second Tract," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19 feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east margin of said Hays Road;

THENCE North 01°19'17" West along the west line of said Reed tract and the east line of said Hays Road, a distance of 442.88 feet to the PLACE OF BEGINNING and Containing 11.121 acres, or 484,450 square feet, of land.

TRACT THREE

BEING 14.955 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and all of a called 15.00 acre tract of land described in a Warranty Deed to Steve L. Branch and wife Judy C. Branch, recorded in Volume 234, Page 527 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the original Hays Road at the common west corner of said 15.00 acre tract and a tract of land described in a deed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 01°10'15" West, continuing along and within Hays Road and with the west line of said 15.00 acre Branch tract, a distance of 596.15 feet, to a 1/2” iron rod found for corner at the northwest corner thereof, common to the southwest corner of a called 15.00 acre tract of land described in a deed to Gerald Glen Cox and wife Rosalba Cox, recorded in Volume 3295 Page 9, (DRRCT);

THENCE North 89°26'26" East, along the common line of last mentioned tracts, a distance of 1,099.11 feet, to a point for corner at the common east corner thereof, and also being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), from which a 1/2” iron rod with a yellow cap stamped “5034” bears South 68°26'26" West, a distance of 0.18 feet;

THENCE South 00°32'13" East, along the common line of said Branch tract and said Park Ridge Estates, a distance of 596.04 feet, to a 1/2" iron rod found for corner at the southeast corner thereof, common to the northeast corner of said Reed tract;

THENCE South 89°26'12" West, along the common line of last mentioned tracts, a distance of 1,092.52 feet to PLACE OF BEGINNING and Containing 653,191 square feet, or 14.995 acres of land.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) [*ORDINANCE NO. 16-39*] FOR THE PURPOSE OF AMENDING THE DEVELOPMENT STANDARDS AND CONCEPT PLAN ON A 70.408-ACRE TRACT OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 79 (PD-79) FOR SINGLE FAMILY 8.4 (SF-8.4) DISTRICT LAND USES, BEING IDENTIFIED AS TRACTS 1, 1-03, 1-5 & 2-03 OF THE P. B. HARRISON SURVEY, ABSTRACT NO. 97, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the purpose of amending Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] in order to change the development standards and concept plan for a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, generally located east of the intersection of Featherstone Drive and John King Boulevard, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 79 [*Ordinance No. 16-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 16-39*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

DRAFT 09.24.2019

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

DRAFT 09.24.19

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF NOVEMBER, 2019.

_____
Jim Pruitt, *Mayor*

ATTEST:

_____
Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____
Frank J. Garza, *City Attorney*

DRAFT ORDINANCE 09.24.19

Exhibit 'A':
Legal Description and Survey

TRACT 1:

BEING 44.292 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "*First Tract*" being a called 32.5 acres and the "*Second Tract*" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, LP., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Vol u me 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John King Boulevard (120' right-of-way) at the com mon north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John King Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44° 02' 06" West, a distance of 1,073.12-feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31-feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John King Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract com mon to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the com mon east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185-acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner near the edge of an asphalt surface in the east margin of Hays Road, said point being the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52-feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P., as "*Second Tract*," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19-feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east margin of said Hays Road;

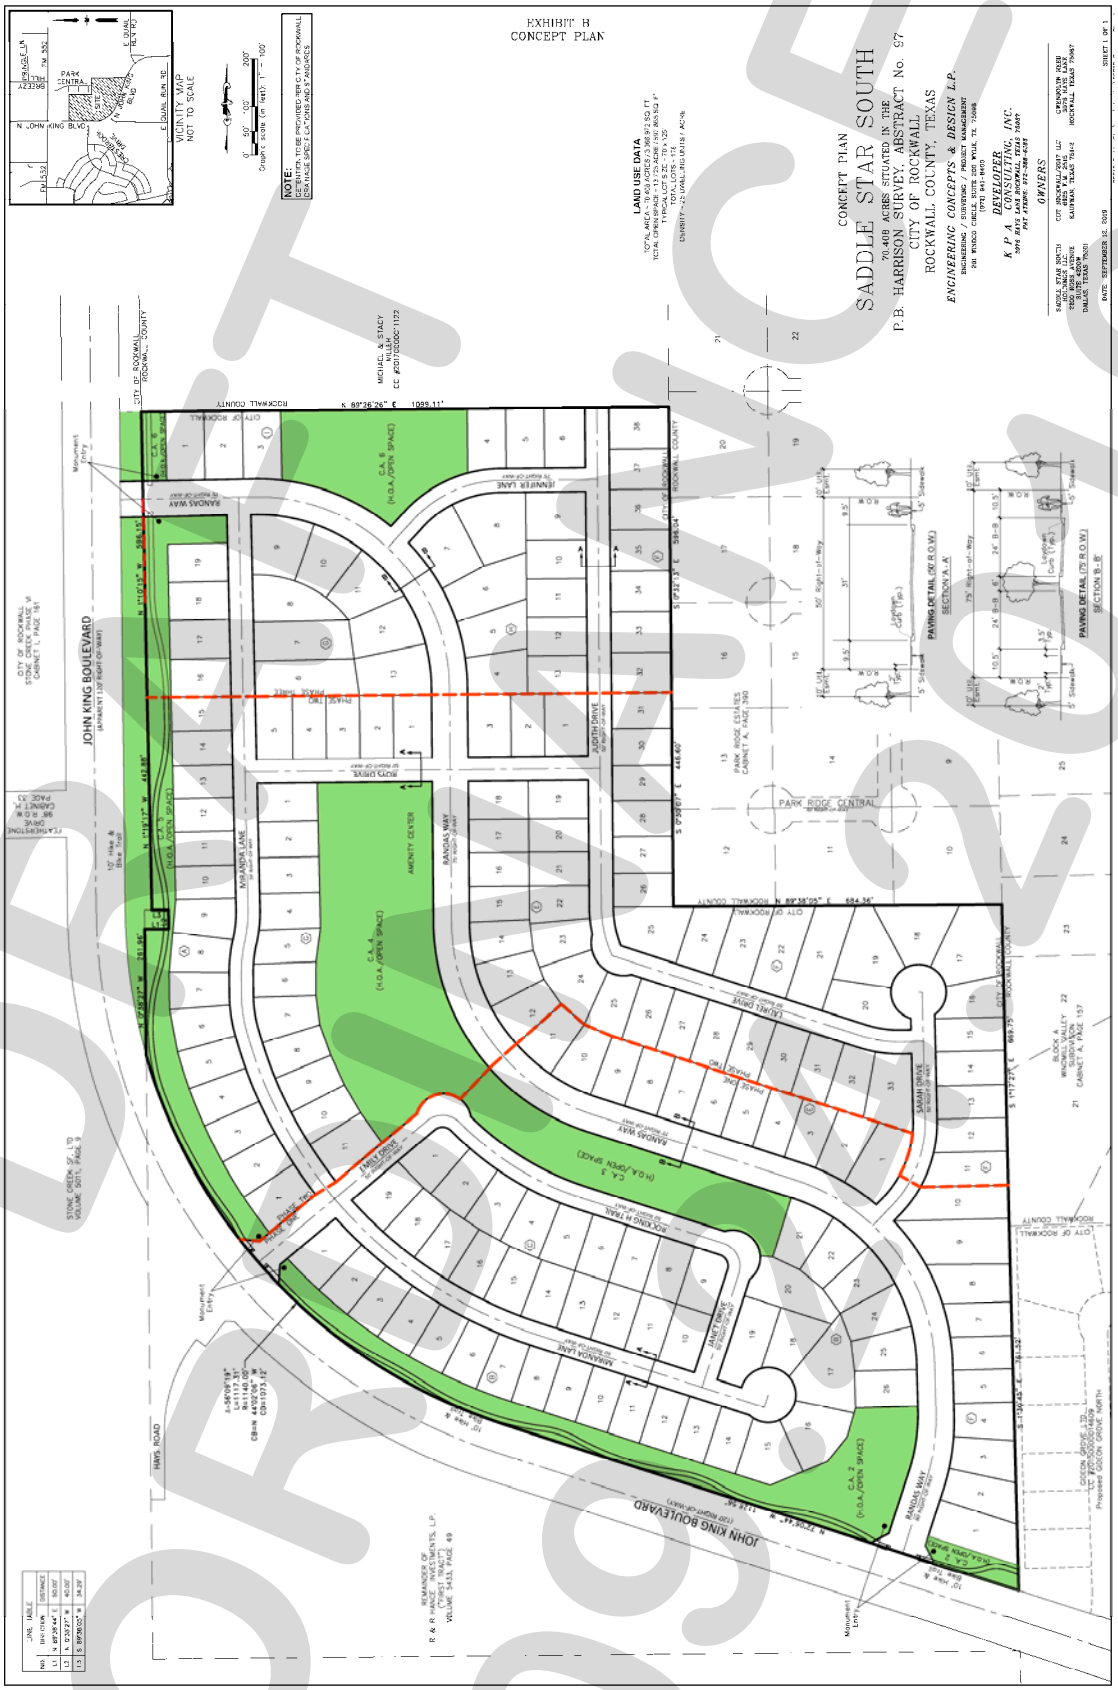
THENCE North 01°19'17" West along the west line of said Reed tract and the east line of said Hays Road, a distance of 442.88-feet to the PLACE OF BEGINNING and Containing 11.121-acres, or 484,450 square feet, of land.

TRACT 3:

BEING 14.955 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and all of a called 15.00 acre tract of land described in a Warranty Deed to Steve L. Branch and wife Judy C. Branch, recorded in Volume 234, Page 527 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the original Hays Road at the common west corner of said 15.00 acre tract and a tract of land described in a deed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 01°10'15" West, continuing along and within Hays Road and with the west line of said 15.00 acre Branch tract, a distance of 596.15 feet, to a 1/2" iron rod found for corner at the northwest corner thereof, common to the southwest corner of a called 15.00 acre tract of land described in a deed to Gerald Glen Cox and wife Rosalba Cox, recorded in Volume 3295 Page 9, (DRRCT);



THENCE North 89°26'26" East, along the common line of last mentioned tracts, a distance of 1,099.11 feet, to a point for corner at the common east corner thereof, and also being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), from which a 1/2" iron rod with a yellow cap stamped "5034" bears South 68°26'26" West, a distance of 0.18 feet;

THENCE South 00°32'13" East, along the common line of said Branch tract and said Park Ridge Estates, a distance of 596.04 feet, to a 1/2" iron rod found for corner at the southeast corner thereof, common to the northeast corner of said Reed tract;

THENCE South 89°26'12" West, along the common line of last mentioned tracts, a distance of 1,092.52 feet to PLACE OF BEGINNING and Containing 653,191 square feet, or 14.995 acres of land.

DRAFT ORDINANCE 09.24.2019

Exhibit 'B':
Concept Plan

DRAFT
ORIGINAL
09/23/2019

Exhibit 'C':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 8.4 (SF-8.4) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	70' x 125'	8,750 SF	176	100.00%
		Maximum Permitted Units:	*176*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 8.4 (SF-8.4) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.499* dwelling units per gross acre of land; however, in no case should the proposed development exceed *176* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width [1]	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback [2] & [5]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'
Minimum Length of Driveway Pavement	25'
Maximum Height [3]	30'
Minimum Rear Yard Setback [4]	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks [5]	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

4. *Building Standards.* All development shall adhere to the following building standards:

DRAFT 09.24.2019

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

(b) *Roof Pitch.* A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) *Garage Orientation.* A minimum of 35% of garages shall be oriented in a traditional swing (or j-swing) configuration. The remainder of garages maybe configured in a front entry configuration with a minimum setback of 20-feet (i.e. allowing the garage to be flush with the front façade of the primary structure). In this case the front façade of the primary structure does not include a permitted encroachment (e.g. a porch, sunroom, etcetera) allowed in Table 2 above.

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	70' x 125'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on John King Boulevard shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Permitted Encroachment Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Permitted encroachments (*i.e. porch and sunroom*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

DRAFT
09.24.2019

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

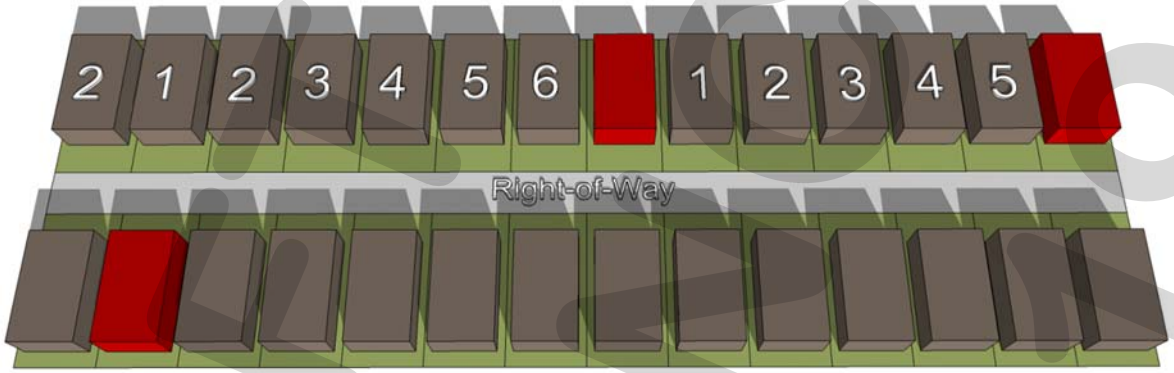


Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

(c) Corner Lots. Corner lots fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar

fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (John King Boulevard). A minimum of a 50-foot landscape buffer shall be provided along the frontage of John King Boulevard (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and shrubbery along the entire length of the frontage. Berms and shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a ten (10) foot curvilinear sidewalk situated within the 50-foot landscape buffer adjacent to John King Boulevard.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

DRAFT 09.23.19

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

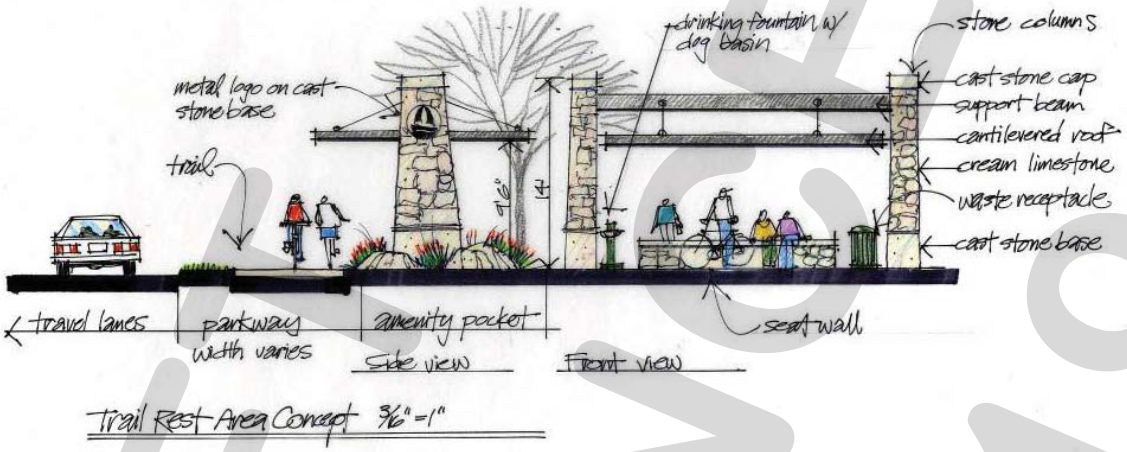
(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.



12. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 14.082-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

Continued on Next Page …

13. *Trail Rest Area.* The developer shall be responsible for the construction of a *Trail Rest Area* that generally conforms to the rest area depicted in *Figure 1* (*below*).

Figure 1: *Trail Rest Area Concept*

DRAFT ORDINANCE 09.24.2019

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

16. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

Z2019-022; SUP for Accessory Building
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2019-022) in the lower right-hand corner of all pages on future submittals.
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).
M.5 In order to constitute a complete submittal all applications are required to provide the following elements [1] concept plan, [2] survey and legal description, [3] elevations for the proposed accessory building. This application is considered to be complete.
M.6 Specific Use Permit (SUP).

1) Please review the draft ordinance and provide comments to staff prior to the Planning and Zoning Meeting on October 8, 2019.

I.7 Please note that failure to address all comments provided by staff by 5:00 PM on October 1, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; The Planning and Zoning Worksession is September 24, 2019 and the Planning & Zoning Meeting is October 8, 2019. The City Council Meetings are October 21, 2019 and November 4, 2019.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-022: SUP for Accessory Building

Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

PLEASE RETURN THE BELOW FORM

Case No. Z2019-022: SUP for Accessory Building

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Planning and zoning:

The situs address is 2340 Saddlebrook Ln. Rockwall, Texas 75087. We hope to build a storage building on our property. The property is 1 acre and currently has our home, pool, cabana, accessory building and all fence is wrought iron and a 8 foot wood fence on the east side that belongs to my neighbor.

What we plan to do is move our current accessory building to the north end of the property and add a storage building just of south of that structure. The proposed storage building will have a slab 30x40. The structure will include 24x40 of storage and a 6x40 porch on the west side. All windows and walk-in doors will be on the porch side and it will include overhead roll up door on the north and south end of the building. Maximun height will be 13 foot 8 inches. Colors will be Sandstone, Brown and wainscot trim on the bottom. No plumbing will be added and electricity will be added at a later time. A 90 foot driveway will be added to meet up with the proposed building at a later time.

We have a building quote from Eversafe Buildings for a total of $14,245.52 not including the slab. Eversafe has also included the concrete slab recommendations, which I have included in this packet. The slab cost is estimated to be approx. $9600.00, for a total project cost of approx. $23,850.00.

In our neighborhood we have other projects that also went past the maximum square footage and one having a second floor and going well above the 15-foot maximum height requirement.

Our use of this building to store several antique cars. The reason for the porch was my wife's idea.

I have included:

Site map of my property indicating proposed building site and feet between borders

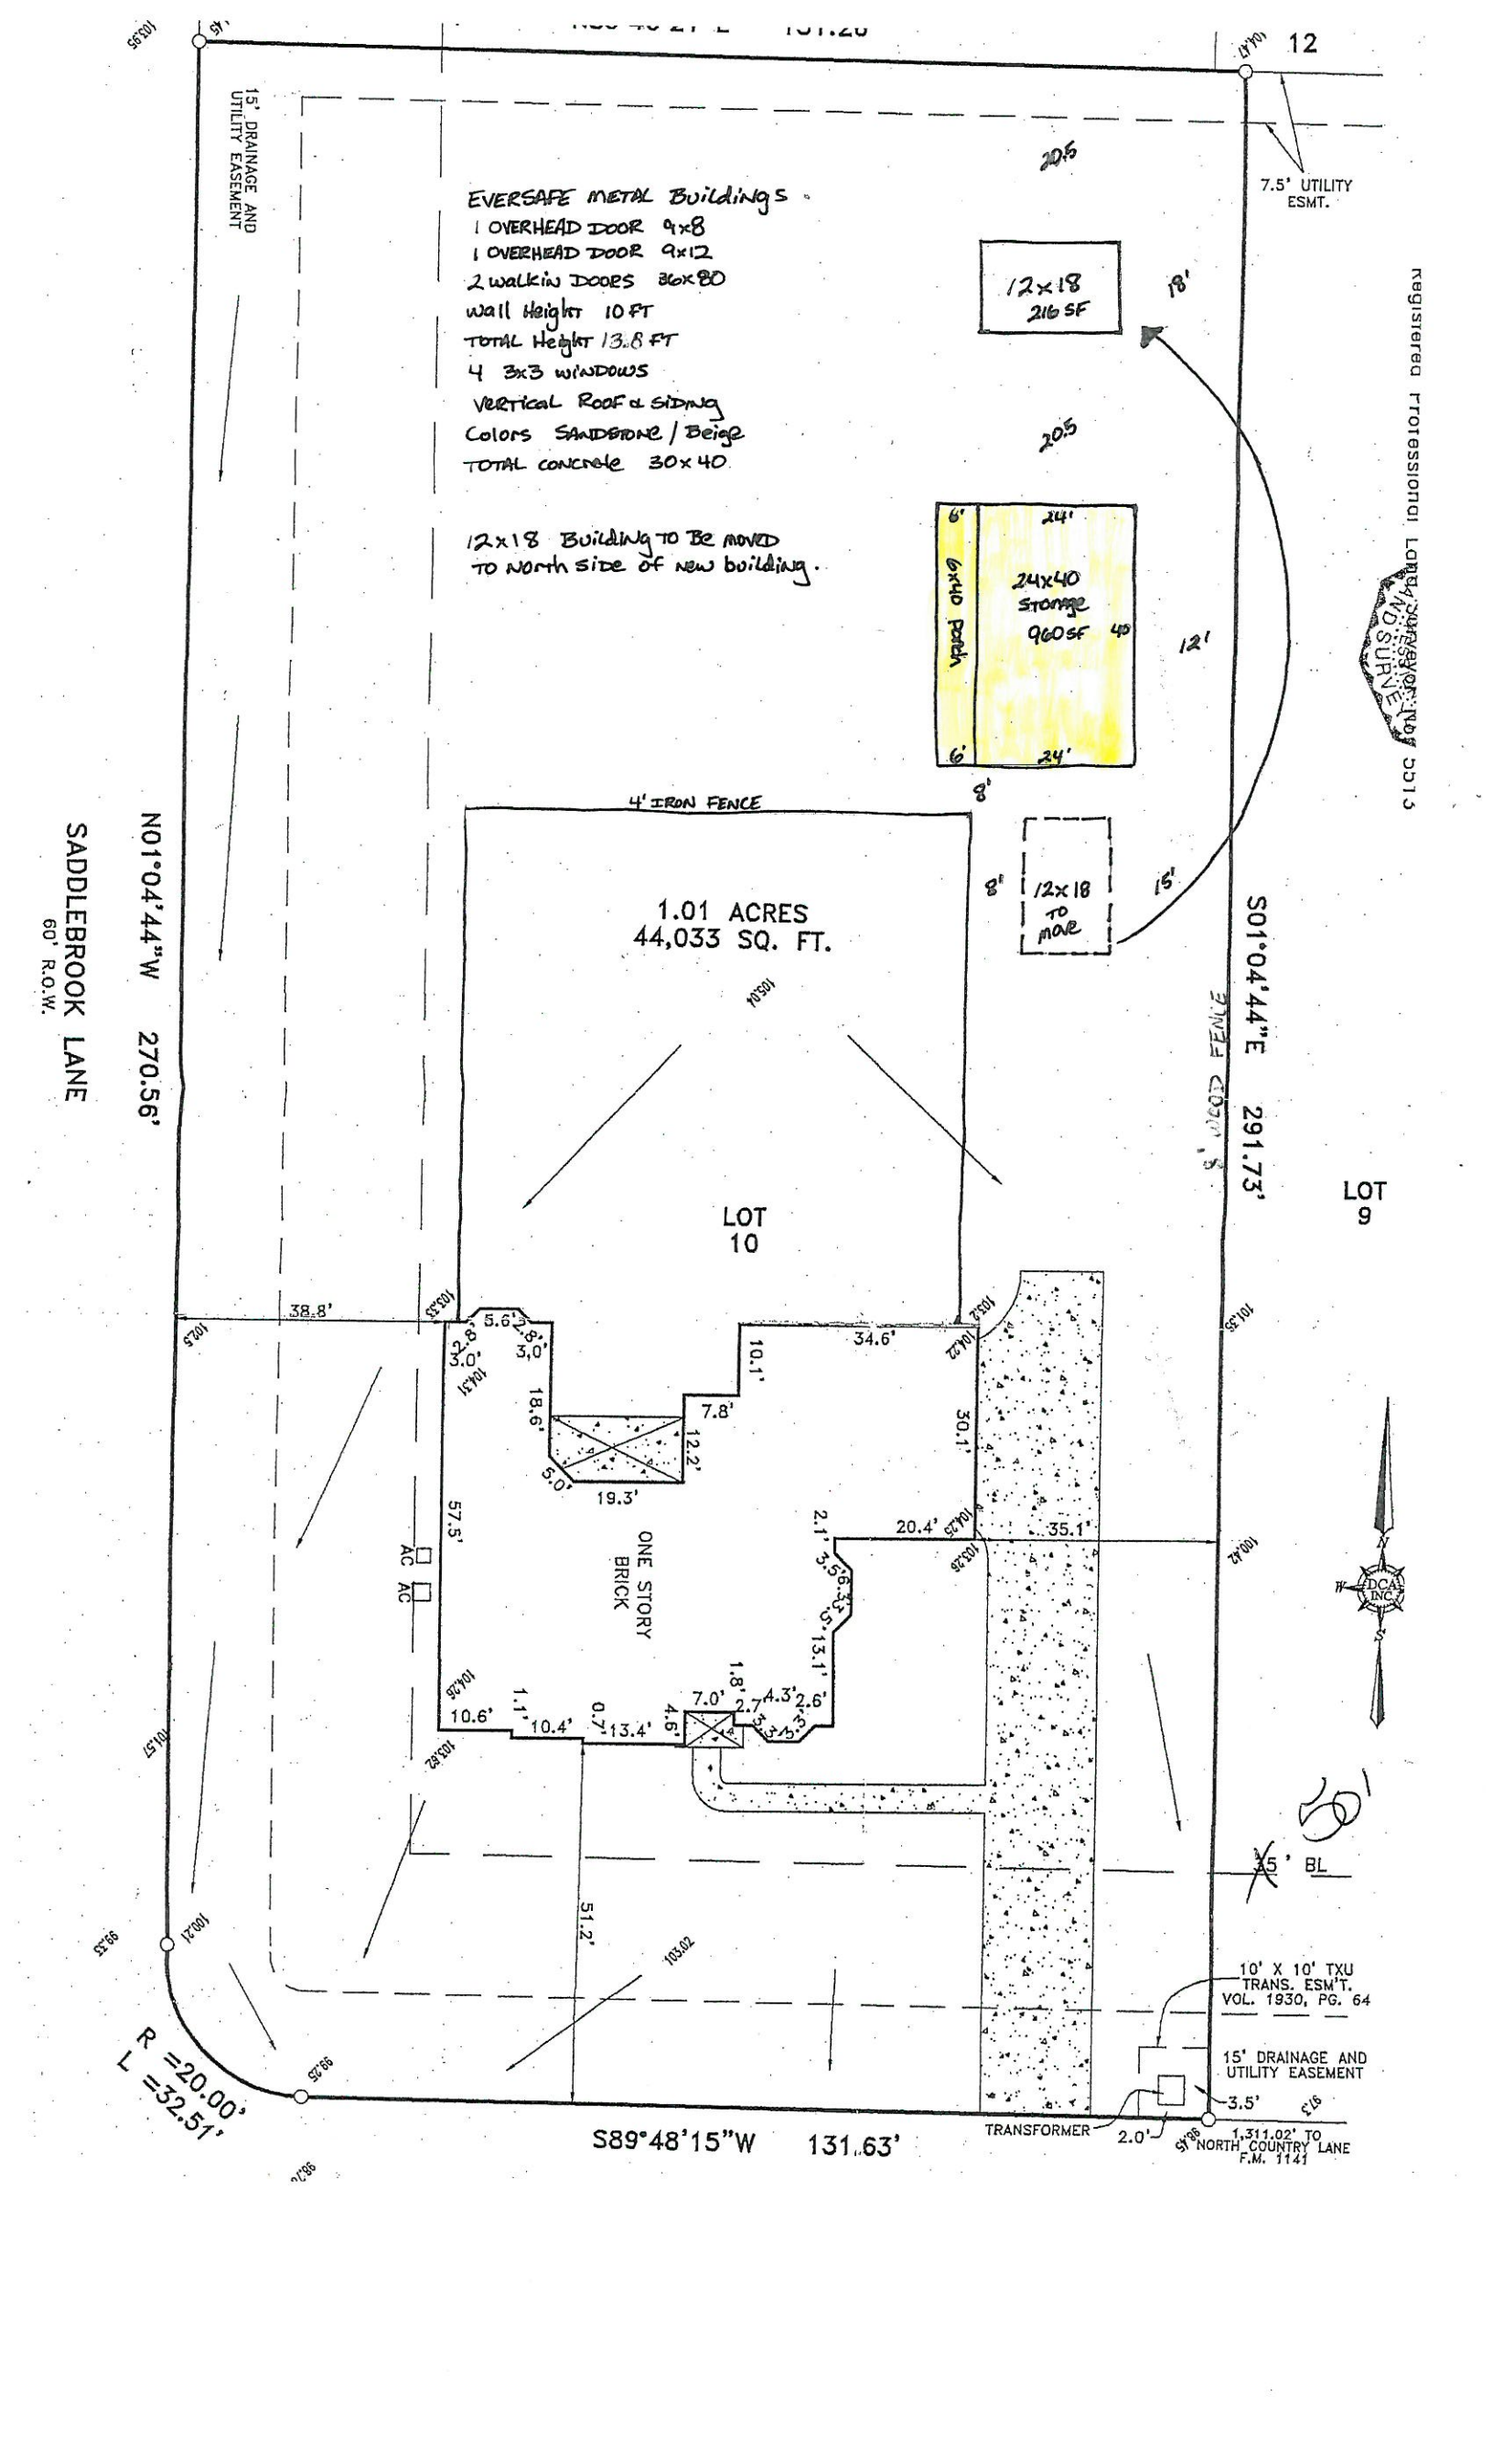
Building quote

Recommendation of concrete slab

3D models of proposed storage building

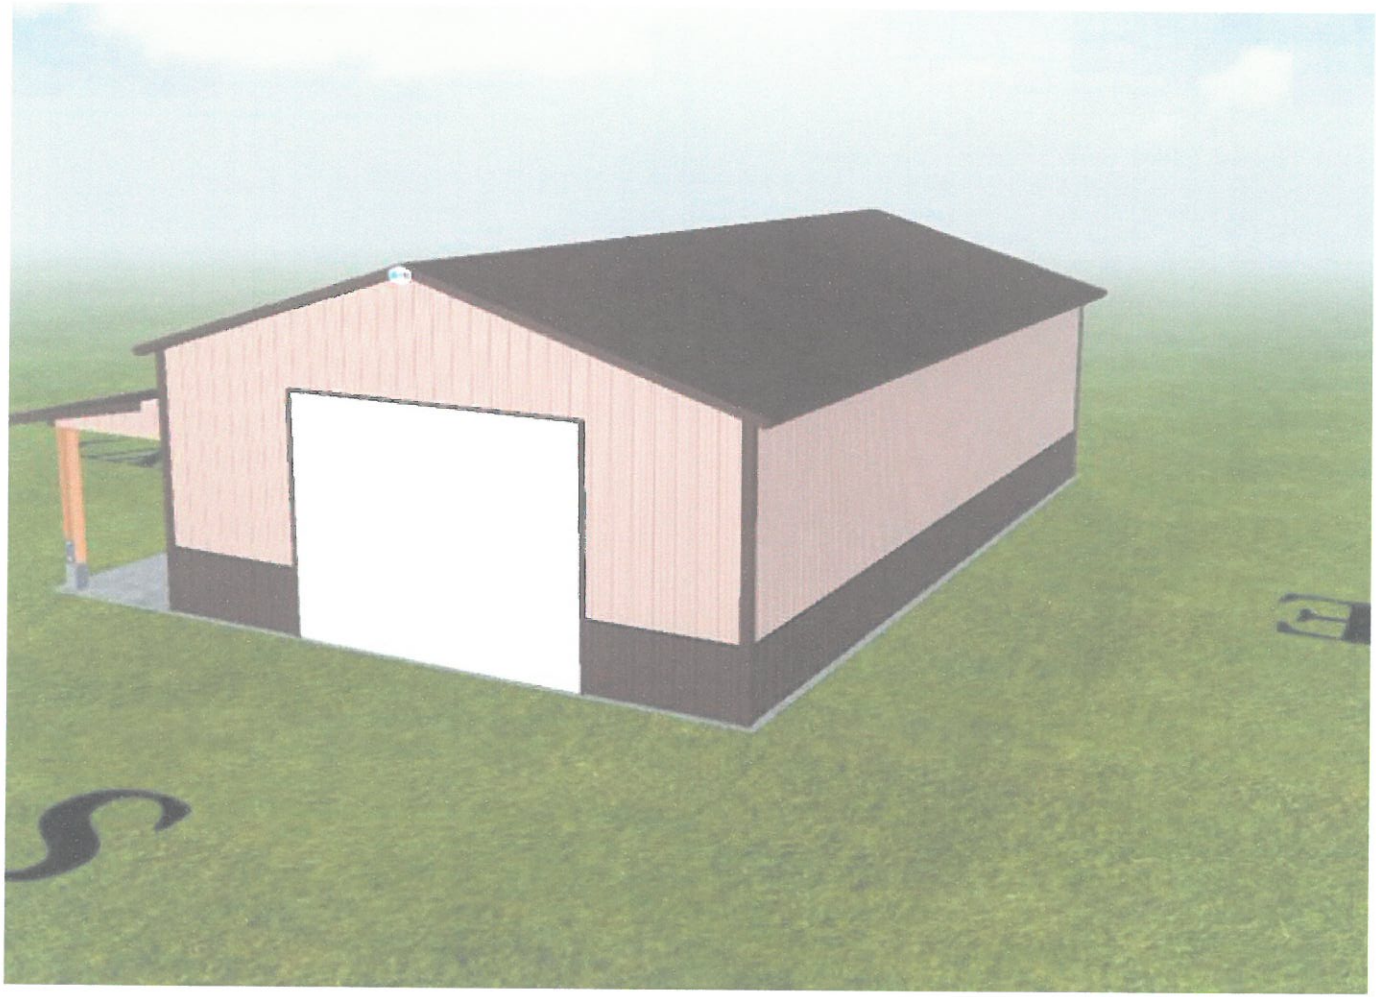
Two photos of current accessory building to be moved

Two photos of proposed site of building



If you need any other information, please call me or email anytime.

Thanks for your time,



Marty and Debra Wright

Eversafe steel building quote

From: Bob Fuerstenau (bfuerstenau@eversafebuildings.com)

To: mwright-1@att.net

Date: Thursday, September 12, 2019, 9:44 AM CDT

Hi Marty,

Here is the updated quote for the new building size we spoke about. Let me know if you need anything else.

Thanks,

Bob Fuerstenau

Concrete Specifications

From: Bob Fuerstenau (bfuerstenau@eversafebuildings.com)

To: mwright-1@att.net

Date: Friday, September 6, 2019, 10:41 AM CDT

Marty,

The concrete slab that we recommend should be/have:

- 4" thick ***(minimum)*** w/ a 12"x12" continuous footer
- same exact dimensions as your building frame (e.g. 24'x35')**
- 2,500 PSI concrete ***(minimum)***
- two #5 rebar continuous
- NO wet-set anchors (anchors will be provided at installation)

**If pulling a permit using our generic engineer-stamped drawings, foundation should be 5 5/8" wider than the building frame with a ¾" step down all around.

This e-mail is strictly for the purposes of budgeting and obtaining estimates. Please do not use the information herein as sole guidelines for pouring concrete slab.

Let me know if you have any questions or concerns.

Sincerely,

Bob Fuerstenau

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW AN *ACCESSORY BUILDING* THAT EXCEEDS THE MAXIMUM ALLOWABLE SIZE ON A ONE (1)-ACRE PARCEL OF LAND, IDENTIFIED AS LOT 10, BLOCK B, SADDLEBROOK ESTATES #2 ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Marty Wright for the approval of a Specific Use Permit (SUP) to allow an *accessory building* that exceeds the maximum allowable size on a one (1)-acre parcel of land being described as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing an *accessory building* as stipulated by Subsection 7.04, *Accessory Structure Development Standards,* of Section 7, *District Development Standards*, of Article V, *District Development Standards*, the Unified Development Code (UDC) [*Ordinance No. 04-38*] on the *Subject Property*; and,

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the requirements set forth in Subsection 7.04, *Accessory Structure Development Standards*, of Section 7, *District Development Standards,* of Article V, *District Development Standards*, of the Unified

PREVIOUS 05.21.19

Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of an *accessory building* on the *Subject Property* and conformance to these conditions are required for continued operations:

1) The accessory building shall generally conform to the concept plan and the conceptual building elevations depicted in *Exhibits 'B'* & *'C'* of this ordinance;

2) The accessory building shall not exceed a maximum size of 960 SF;

3) The accessory building shall not exceed an overall height of 15-feet;

4) The subject property shall not have more than two (2) accessory buildings;

2.2 COMPLIANCE

Approval of this ordinance in accordance with Subsection 2.05, City *Council Action*, of Article XI, *Zoning Related Applications,* of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a building permit, should the homeowner fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 2.02.D(3) of Article XI, *Zoning Related Applications*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF NOVEMBER, 2019.

DRAFT OF 09.24.19

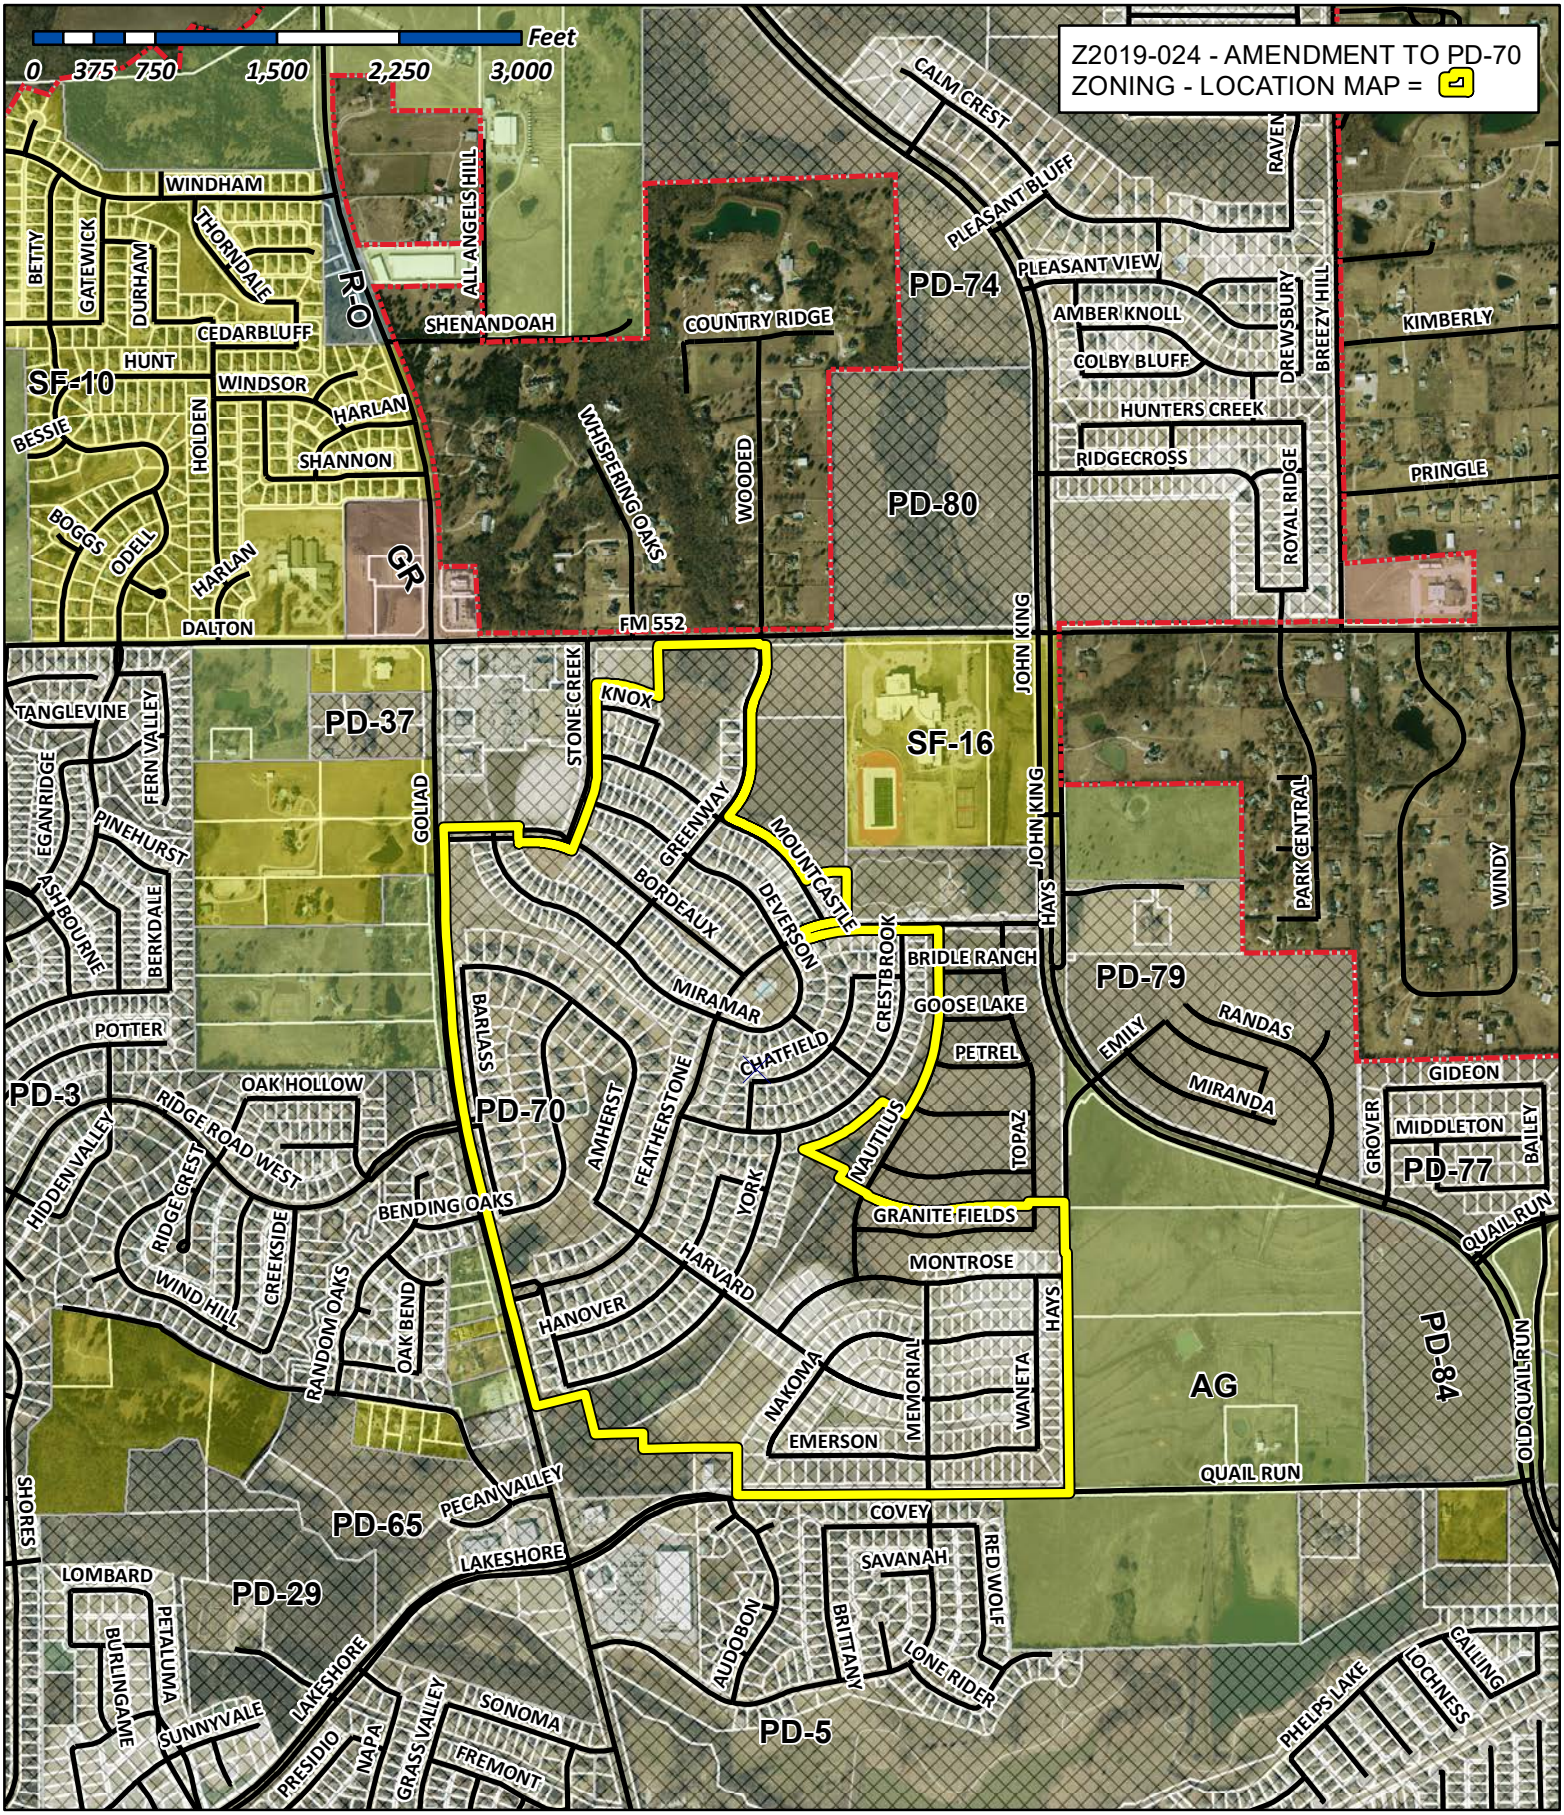
(9/20/2019 12:01 PM DG)
Z2019-024: Amendment to PD-70 Stone Creek Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [N. Goliad Street].

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (Z2019-024) in the lower right hand corner of all pages on future submittals.

I.4 The proposed zoning change shall conform to all standards and requirements of the Unified Development Code (UDC), staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.



M.5 If approved, any development shall conform to all standards and requirements of Article V, of the Unified Development Code (UDC); including Planned Development District 70 (PD-70), SH-205 By-Pass Overlay (SH-205 BY-OV) District, and the General Residential District Standards.

I.6 Please review the draft ordinance -- when received -- prior to the September 24, 2019 Planning & Zoning Commission meeting, and provide staff with your markups by October 1, 2019. Additionally, please provide staff with a letter of consent regarding the changes to the draft ordinance

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 8, 2019 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 24, 2019.

I.8 The projected City Council meeting dates for this case will be October 21, 2019 [1st Reading] & November 4, 2019 [2nd Reading].

I.9 Staff recommends that a representative be present for the meetings as scheduled above. Failure to have a representative present for the scheduled meetings may result in a delay of the request. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-024: PD Amendment to PD-70

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [N. Goliad Street], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

PLEASE RETURN THE BELOW FORM

Case No. Z2019-024: PD Amendment to PD-70

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

SKORBURG COMPANY

8214 Westchester Drive, Suite 710
Dallas, Texas 75225

Mr. Ryan Miller
Director of Planning & Zoning
385 S. Goliad Street
Rockwall, Texas 75087

September 12, 2019

Dear Mr. Miller:

Please accept this request for a zoning change to reduce the required number of hard edge retention ponds from four (4) to three (3) as described in Exhibit "C" (Planned Development District No. 70) to PD Ordinance No. 07-13 (as amended by Ordinance No. 09-44), more specifically contained in the last paragraph of Section C ("Standards for District Design and Connectivity"), Paragraph 6(d) (under "Parks and Open Space"). No other changes to the PD are being requested.

The original Stone Creek PD was approved in 2007 that included a requirement to have four (4) hard edge ponds built throughout Stone Creek Estates. The exact location and configuration of the ponds was to be determined at the time of development.

To date, three (3) ponds have been fulfilled: two (2) hard edge retention ponds were constructed with Phase I, and the third pond is located within the 11.3 acre City park that was dedicated to the City of Rockwall in January 2014. An exhibit showing the location of these three (3) existing ponds is included on the attached **Exhibit "A"**. While the pond located in the City park does not have a hard edge, it has been counted towards the PD requirement as it was the City's decision to not install a hard edge to be eligible for a State matching grant for the park. Hence, three (3) of the four (4) hard edge ponds as required by the existing PD have been satisfied.

For additional background on this request, Phase I was constructed in 2007-08, which included two (2) hard edge retention ponds. In 2012, we received notice from the Texas Commission on Environmental Quality ("TCEQ") about changes in surface water regulations that required us to obtain a retroactive permit and make a payment to the TCEQ to avoid being fined in connection with the Phase I ponds.

It is our understanding that the City of Rockwall had to work through similar issues with the TCEQ for other ponds located within the City limits, and since that time, the City and we have agreed that it is in the best interests of both the City and Stone Creek Estates to not construct any additional hard edge ponds to avoid the potential of having future conflicts with the TCEQ.

To avoid potential future issues with the TCEQ, we respectfully request the PD language to be modified per the attached **Exhibit "B"** to reduce the number of hard edge ponds from four (4) to three (3).

In lieu of installing a hard edge around the City park pond and a fourth hard edge pond somewhere that could pose potential future TCEQ issues in the future, we redirected value to Stone Creek residents and the City by enlarging the park dedication area (resulting in fewer lots), and will be finishing the build out of Stone Creek Estates with 32 fewer lots than allowed under the PD (the PD allows a maximum of 918 total SF lots, but the final phase of Stone Creek will result in the build out being only 886 SF lots based on the City approved preliminary plat for the final phase).

We look forward to visiting with the Planning and Zoning Commission and City Council on this proposed amendment to our master planned community.

Sincerely,

Adam J. Buczek
Skorburg Company, Development Partner
On behalf of Stone Creek Balance, Ltd, a Texas limited partnership (Owner and Applicant)

EXHIBIT "A"

Three (3) Existing Pond Locations

The single-family zoned land of Stone Creek Estates is outlined in yellow below.

The two (2) existing hard edge retention ponds are outlined in **BLUE.**

The one (1) existing City park pond (no hard edge, but counted toward PD hard edge pond requirement) is outlined in **ORANGE**.

EXHIBIT "B"

Requested Stone Creek PD Language Modification

With respect to Exhibit "C" (Planned Development District No. 70) to PD Ordinance No. 07-13 (as amended by Ordinance No. 09-44), this zoning application requests that the last paragraph of Section C ("Standards for District Design and Connectivity"), Paragraph 6(d) (under "Parks and Open Space") be modified to read as follows:

"Developer shall provide a minimum of three (3) retention ponds in the District with hard edges as generally shown on the Concept Plan. The exact configuration and location of the ponds will be determined at development. All retention pond hard edges shall be similar to the hard edge shown on Appendix C."

NEED PICTURE PROOF IF THERE IS A HARD EDGE AROUND THIS ENTIRE POND AREA.

Adam Buczek

SP2019-35; Site Plan for Kwik Kar
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [FM-3097].
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2019-035) in the lower right-hand corner of all pages on future submittals.
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).
M.5 In order to constitute a complete submittal all applications are required to provide the following elements [1] a site plan, [2] landscape plan, [3] building elevations and this submittal is complete.
M.6 Site Plan. Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

Article IV, Permissible Uses, of the Unified Development Code (UDC)

I.7 Subsection 2.03.H.2, Minor Auto Repair Garage, of Section 2, Conditional Land Use Standards and Definitions, of Article IV, Permissible Uses, of the Unified Development Code (UDC).

The proposed use, a Minor Auto Repair Garage is defined as the following:

a. The replacement of any part or repair of any part that does not require removal of the engine head or pan, engine transmission or differential; incidental body and fender work, minor painting and upholstering service. It also includes quick lube type businesses. This applies to only to passenger automobiles and trucks not in excess of 7,000 pounds gross weight.
b. In a General Retail (GR) District, a Minor Auto Repair Garage is permitted as an accessory to a retail use, when the gross floor area of the auto repair and related storage does not exceed 30 percent of the retail sales floor area. If it is a stand-alone use, it shall require a Specific Use Permit (SUP).
c. In a Commercial (C) District, a Minor Auto Repair Garage is permitted as an accessory to a retail use, provided all work is conducted wholly within a completely enclosed building. If it is a stand-alone use, it shall require a Specific Use Permit (SUP).
d. Garage doors or bays shall not face the street or a residential lot.
e. Vehicles, equipment, parts or inventory shall not be stored outside overnight unless granted by the Planning and Zoning Commission and City Council through a Specific Use Permit (SUP). If permitted all stored items shall be screened from public right-of-way, sidewalks and open space, and any residentially zoned or used property in accordance with the requirements of Article IV, Permissible Uses, and Article VIII, Landscape and Fence Standards.
f. A site plan must be approved prior to issuance of any building permit.

Article V, District Development Standards, of the Unified Development Code (UDC)

M.8 SUBSECTION 1.05: SCREENING STANDARDS

All development shall adhere to the following screening standards:
(2) Trash/Recycling Enclosures. Trash/Recycling enclosures shall be four (4) sided. These receptacles shall be screened by a minimum six (6) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. The opaque, self-latching gate shall not be constructed utilizing wood fencing materials. If the primary building does not use masonry materials, a masonry material that is complimentary in color

and scale shall be utilized. These enclosures shall be located to the side or rear of the primary building, and shall not front on to apublic right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. All trash/recycling enclosures shall be constructed in conformance to the diagram shown in this section unless otherwise approved/required by the City and/or its contractor for trash services. Please indicate on site plan.
(3) Utility Equipment and Air Condition Units. Pad or roof mounted utility equipment and air conditioning units shall be screened from the view from of any adjacen public streets or properties. Roof mounted utility equipment and air conditioning units shall be screened using a parapet wall that completely impairs the visibility of the equipment, and is constructed on all sides of the building. Ground mounted Utility equipment and air conditioning units shall be screened utilizing plantings, berms, walls matching the main structure, or an architectural feature that is integral to the building's design. Please indicate on site plan.
(4) Aboveground Storage Tanks. Aboveground storage tanks shall be screened utilizing walls matching the main structure Screening plans for above ground storage tanks shall generally conform to the diagram below (i.e. incorporate primary screening -- screening wall -- and secondary screening) and be approved by the Planning and Zoning Commission in conjunction with a site plan. Will this project have any aboveground storage tanks?

M.9 SUBSECTION 1.08: PUBLIC RIGHT-OF-WAY VISIBILITY

(A) Street/drive intersection visibility obstruction triangles. A landscape plan showing the plan of the street on both sides of each proposed drive/street to the proposed development with the grades, curb elevations, proposed street/drive locations, and all items (both natural and manmade) within the visibility triangles as prescribed below shall be provided with all site plans, if they are not on engineering plans that are submitted at the same time. this plan shall show no horizontal or verticalrestrictions (either existing or future) within the areas defined below. Please show visibility triangles on the site plan and landscape plan.

(B) Obstruction/interference triangles defined. No fence, wall screen, billboard, sign face, tree or shrub foliage, berm, or any other item, either manmade or natural, shall be erected, planted, or maintained in such a position or place so as to obstruct or interfere within the following minimum standards; however, on non-residentially zoned lots, a single pole for mounting a sign may be placed within this area provided the pole does not exceed12-inches in diameter, and provided every portion of the sign has a minimum height clearance of nine (9) feet:
1. Visibility Triangles. Vision at all intersections which intersect at or near right angles shall be clear at elevations between24-inches and nine (9) feet above the top of the curb elevation, within a triangular area formed by extending the two (2) curblines from their point of intersection, for the following minimum distances for the applicable intersection, and connecting these points with an imaginary line, thereby making a triangle. If there are no curbs existing, the triangular area shall be formed by extending the property lines from their point of intersection for a distance as prescribed below, and connecting these points with an imaginary line, thereby making a triangle as shown below.
2. Intersection of two (2) public streets. The minimum required distance from the curb shall be 30-feet and the minimum distance from the property line on streets without a curb shall be 20-feet.
3. Intersection of a public street and an alley. The minimum required distance measured from the property line shall be15-feet, or 25-feet from street curb.
4. Intersection of private drive and public street. The minimum required distance from the curb shall be 15-feet and the minimum distance from the property line on streets without a curb shall be ten (10) feet. Subsection B is informative

M.10 SECTION 4: COMMERCIAL DISTRICTS
SUBSECTION 4.01: GENERAL COMMERCIAL DISTRICT STANDARDS
All commercial development shall conform to the following standards:

(C) Building Articulation.

(1) Primary Building Façades. A primary building façade is any building façade that has a primary entryway for a business or that has an adjacency to a public right-of-way, open space/green space, public/private park, and/or a residential zoning district or residentially used property. All commercial buildings shall meet the following standards for articulation on primary building façades:

- Wall Length. The maximum wall length shall not exceed three (3) times the wall height without a secondary entryway/architectural element
- Secondary Entryway/Architectural Element Length. The minimum length of the secondary entryway or projecting architectural element shall be 25% of the wall length
- Wall Projection. The minimum wall projection for a primary and/or secondary entryway/architectural element shall be 25% of the wall height
- Primary and/or Secondary Entryway/Architectural Element Width. The minimum width of the primary and/or secondary entryway/architectural element shall extend for twice the required wall projection
- Projection Height. The primary and secondary entryways/architectural element shall extend a minimum of 25% of the wall height above the top of the wall
- Primary Entryway/Architectural Element Length. The primary entryway/architectural element shall meet all of the same projections as the secondary entryway/architectural element, but shall extend for a minimum of twice the length of the secondary element. Currently, you will need an exception to the building articulation standards for the front and the rear facades

M.11 SUBSECTION 7.03: NON-RESIDENTIAL DISTRICT DEVELOPMENT STANDARDS
Please see the below table and make revisions to include this data on the site data table on each page

Non-Residential District Development Standards

Minimum Landscaping (%) 25%

M.12 ARTICLE VIII, LANDSCAPE AND FENCE STANDARDS, of the Unified Development Code (UDC)
SECTION 2: APPLICATION OF ARTICLE
SUBSECTION 2.01: APPLICABILITY

(A) Landscape and Screening.

(1) The landscape and screening provisions of this Article shall apply to:

(a) All new residential or non-residential development within the corporate limits of the City of Rockwall with the exception of the exemptions listed in Subsection 2.01.(A)(2).
(b) The expansion of a non-residential building or structure that increases the existing floor area by 30% or that adds 2,000 SF of floor area.
(c) The expansion of a non-residential parking lot that increases the existing impervious area by 30% or that adds 2,000 SF of impervious coverage. Please note, since b and/or c apply, the landscaping will have to meet standards.

M.13 SECTION 4: APPROVED LANDSCAPING MATERIALS

In satisfying the landscape requirements of this Article, it is recommended that all landscaping utilize high-quality, hardy plant materials. Such plant materials shall adhere to the following requirements:

(A) Approved Planting Materials.

(1) All planting materials should conform to the recommendedplanting materials outlined in Appendix F, Landscape Guidelines and Requirements; however, alternative tree, shrub, and grass varieties may be approved by the Director of Planning and Zoning pending the submission of a Landscape Plan and/or a written request.

(2) Unless otherwise noted in this Unified Development Code (UDC), the minimum tree and shrub size at the time of installation shall be as follows:
(a) Canopy Trees shall be a minimum of four (4) caliper inches at DBH.
(b) Accent Trees shall be a minimum of four (4) feet in total height.
(c) Shrubs shall be a minimum of three (3) gallons in size. Please note.

M.14 SECTION 5: LANDSCAPE STANDARDS

SUBSECTION 5.01: LANDSCAPE BUFFERS

The minimum requirements for landscape buffers shall be as follows:

(B) Non-Residential Landscape Buffers.

(1) Abutting a Public Right-of-Way. A minimum of a ten (10) foot wide landscape buffer shall be required along the entire length of any non-residential lot that abuts a public right-of-way (i.e. collector street, arterial roadway, or alleyway) or a residentially zoned or used property that is located directly across a public street (regardless of the size of the street). All landscape buffers adjacent to a public right-of-way shall incorporate ground cover, a built-up berm and shrubbery along the entire length of the frontage. Berms and shrubbery shall have a total minimum height of 30-inches. In these areas a minimum of one (1) canopy tree and one (1) accent tree shall be incorporated into the landscape buffer per 50-linear feet of frontage along the adjacency. Clustering of trees shall be permitted as long as all required trees are situated within the landscape buffer. Please incorporate into landscape plan.

M.15 SUBSECTION 5.02: LANDSCAPE SCREENING
(C) Headlight Screening. Head-in parking adjacent to a street shall incorporate one (1) of the following screening methods to mitigate the potential hazard that headlights may pose for on-street vehicular traffic:
(1) Alternative #1. A minimum of a two (2) foot berm with mature evergreen shrubs along the entire adjacency of the parking areas.
(2) Alternative #2. A minimum of a three (2) foot masonry wall with mature shrubs situated between the wall and the right-of-way along the entire adjacency of the parking areas. Please provide one of the options above on landscape plan.

(D) General Screening Requirements. All screening shall meet the following requirements:

(1) Approval of a Screening Plan. Prior to construction of any required screening, a site plan and landscape plan shall be approved by the Planning and Zoning Commission showing the type of screening, the proposed materials, and the plant spacing. In approving screening plans, the Planning and Zoning Commission shall determine:

(a) If the proposed screening plan will adequately screen the non-residential land use.
(b) If the proposed screening plantings will withstand the pressures of time and nature. Please note.

M.16 SUBSECTION 5.03: LANDSCAPE REQUIREMENTS

(A) Amount of Landscaping. The following landscaping percentages shall be required and shall apply to the total site area to be developed Please note required landscaping below and revise landscape plan accordingly.

ZONING DISTRICT REQUIRED LANDSCAPING (%) REQUIRED LANDSCAPING WITH MAXIMUM ELIGIBLE CREDITS (%)
Multi-Family 14 (MF-14) District 35 22½
Downtown (DT) District See Subsection 4.07, Downtown (DT) District, of Article V, District Development Standards
Residential Office (RO) District 30 17½
Neighborhood Services (NS) District 25 12½
General Retail (GR) District 20 7½
Commercial (C) District 20 7½
Heavy Commercial (HC) District 15 2½
Light Industrial (LI) District 15 2½
Heavy Industrial (HI) District 10 2½

(F) Protection of Landscape Areas. Required landscape areas must be protected from vehicular traffic through the use of a concrete curb, or other permanent barrier. Please note

(G) Landscaping in Landscape Buffers and Public Right-of-Way. All landscape buffers and public right-of-way located adjacent to a proposed development shall be improved with grass (i.e. sod -- hydro mulch shall be prohibited in these areas) prior to the issuance of a Certificate of Occupancy (CO). In addition, it shall be the responsibility of the developer to design the irrigation system within the lot to ensure that the grass placed in public right-of-way is watered and maintained, and to ensure that minimal water will be shed on to the street. The designer of the irrigation system shall base the systems design on the ultimate proposed width of the street. The plans for design of the irrigation system shall be approved by the Building Inspections Department prior to installation and acceptance of the project Please note. Your landscape plan references hydromulch Please make revisions in accordance to this standard.

Additional Comments -Site Plan.
M.18 Please greyscale all existing pavement, buildings, etc.
M.19 Please show utilities and easements.
M.20 Please dimension typical parking space. Is any new parking being added?
M.21 Please label property line.
M.22 Please show firelane.
M.23 Please dimension all drive aisles.
M.24 Please differentiate existing/proposed on the site data table.
M.25 Please show centerline of Horizon Road.
M.26 Please show and label front setback and landscape buffer.
M.27 Please show actual footprint of new building.
M.28 Please show and label adjacent properties.

Additional Comments – Landscape Plan
M.29 Please label the property line
M.30 Please show and label adjacent properties.
M.31 Please provide vicinity map.
M.32 Please provide site data table.
M.33 Please note, the landscape % for Commercial (C) District is 25% as show above.
M.34 Please same items as site plan such as parking, utilities, etc. and greyscale.
M.35 Please note hydromulch is not allowed in ROW landscaping.
M.36 Please note, the property line adjacent to Horizon Road appears to be off scale. Please check scale.

M.37 Please show and label the 10-foot landscape buffer adjacent to Horizon Road

I.38 Please note that failure to address all comments provided by staff by 5:00 PM on October 1, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.39 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019.

M.40 Based on your request, your development cycle will consist of meetings with Architectural Review Board (ARB) and the Planning and Zoning Commission. The following is a description of each meeting:

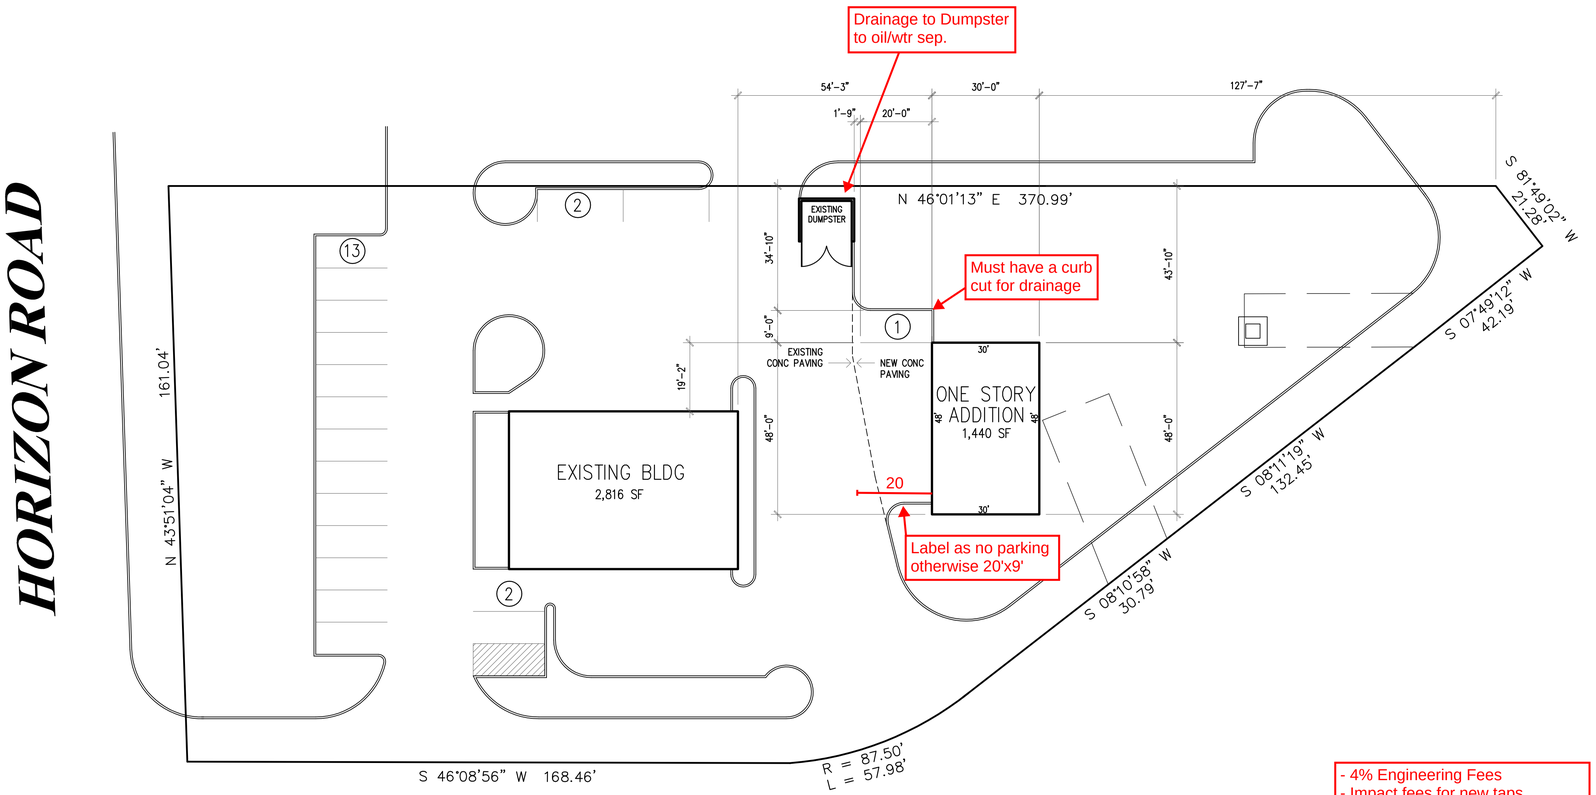
- At the ARB Meeting the Board will review building elevations and make recommendations and discuss any variances/exceptions. This meeting is typically appropriate for the architect and owner. The Board may ask for revisions that will be discussed at the next meeting. The Board may approve your request as submitted. In this case, there will be no additional ARB Meetings.
- At the Planning and Zoning Worksession, your representative will present your request to the Commission and answer any question that may be asked. The Commission may ask for additional information. It is recommended that the owner and/or a representative who is familiar with the project attends this meeting
- At the Planning and Zoning Meeting, staff will present your request and discuss relevant ordinances with the Commission. The Commission may ask you additional questions. Following, the Commission takes action. If approved, you will be able to move to the Engineering Phase of the Development Process. It is recommended that the owner and/or a representative who is familiar with the project attends this meeting

M.41 Below are the meeting dates for your request. A representative is required to attend all meetings

- September 24, 2019 - Architectural Review Board (ARB) Meeting - 5:00 p.m.—immediately before the Planning and Zoning Worksession.
- September 24, 2019 – Planning and Zoning Worksession – 6:00 p.m. – immediately following the ARB Meeting.
- October 8, 2019 – 2nd Architectural Review Board (ARB) Meeting (at the discretion of the ARB) – 5:00 p.m. - immediately before the Planning and Zoning Meeting.
- October 8, 2019 – Planning and Zoning Meeting – 6:00 p.m. – immediately following the ARB Meeting.

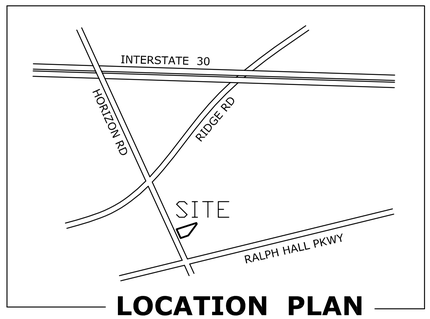
M.42 Please see standard site plan wording below.

SITE PLAN SIGNATURE BLOCK



APPROVED:

I hereby certify that the above and foregoing site plan for a development in the City of Rockwall, Texas, was approved by the Planning & Zoning Commission of the City of Rockwall on the [DAY] day of [MONTH], [YEAR].



WITNESS OUR HANDS, this [DAY] day of [MONTH], [YEAR].

Planning & Zoning Commission, Chairman Director of Planning and Zoning

CONTRACTOR TO VERIFY PLANS AND TO VISIT SITE AND NOTIFY MERSHAWN ARCHITECTS OF ANY DISCREPANCIES BEFORE CONSTRUCTION.

- 4% Engineering Fees
- Impact fees for new taps
- Must meet city standards
- Must show existing and proposed utilities and your connection.
- Label and show all easements.

(9/20/2019 8:44 AM DG)
SP2019-037; Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-037) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], Resolution No. 10-40 (Design Guideline of PD-32), and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

I.6 Provide Site Data Table on all revised plans (i.e. landscape, treescape, photometric, and site plan).

I.7 Please relabel the proposed street section to Glen Hill Way (i.e. not Cemetery Road) on all revised plans (i.e. landscape, treescape, photometric, site plan).

M.8 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please relabel the street to Glen Hill Way (i.e. not Cemetery Road).
2) Verify the building square footage. Indicates 7,025 SF. The SF for each unit = 7,195 SF.
3) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
4) Will there be a dedicated 24-ft firelane in the parking lot? If so, please label.
5) Remove the label "to be abandoned" underneath Cemetery Road.
6) Is the chain link fence being removed? If so, please remove label from all other plans.
7) Under the Construction Schedule legend, No. 7 indicates a detail for the dumpster enclosure is located on the building elevations. The detail was not provided.
8) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required if not screened or reoriented.
9) Parking for a retail (4,592 SF) and restaurant (2603 SF) uses requires as follows: A) Retail Facility - a minimum of one (1) parking space per 250-SF (i.e. 1:250 SF = 18 parking spaces) & B) Restaurant - a minimum of one (1) parking space per 100-SF (i.e. 1:100 SF = 26 parking spaces) of gross floor area. Based on these uses, the proposed 7,025 SF facility requires a minimum of 44 parking spaces. Approval of a variance to Section 5, Off-Street Parking Requirements, of Article VI, Parking and Loading is required by the Planning and Zoning Commission.
10) The proposed parking lot has more than one (1) full row of parking (i.e. two rows of parking with a drive aisle) that is between the primary building façade and the right-of-way (i.e. Ridge Road) and requires a variance. (Subsection 6.02.D.2, Art. V, UDC).

M.9 Dumpster Enclosure. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, Trash/Recycling Receptacles and Dumpster Enclosures. Trash/Recycling Enclosures shall be four (4) sided. These receptacles shall be screened by a minimum eight (8) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. These enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building.

1) Provide detail of dumpster meeting the Scenic Overlay District's minimum standard for height, materials, etc. (Sec. 6.02.D.7, Art. V, UDC)

M.10 Streetscape Plan. Please provide a streetscape plan that shows conformance to the requirements of Ordinance No. 17-22. According to this ordinance the required streetscape plan shall include cut sheets and product specification sheets indicating the proposed products, and a plan indicating the location of all the products.

M.11 Building Elevations. Resolution No. 10-40 lays out three (3) architectural styles (i.e. Tuscan, Traditional, and/or Transitional) that are acceptable within Planned Development District 32 (PD-32). The proposed building elevations do not appear to adhere to any of the recommended architectural styles

M.12 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the submitted building elevations does not appear to have stone incorporated into the building's design. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.13 Building Elevations. Please review the articulation formulas contained in Section 4.01.C of Article V, District Development Standards, of the UDC. The submitted building elevations do not appear to meet all the formulas required for building articulation This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

I.11 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.
3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west).
4) Provide calculation of building materials as a percentage.

M.14 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
2) A minimum of two (2) canopy and four (4) accent trees are required in the 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC). Please indicate conformance to this requirement on the landscape plan and relabel where needed
3) Please provide an exhibit showing headlight screening for the head-in parking adjacent to the street (Subsection 5.02(C), Art. VIII, UDC).
4) Please provide an exhibit showing that all parking spaces are located within 80-feet from the trunk of a large canopy tree (Sec. 5.9; Art. VIII, UDC).
5) Parking Lot Landscaping – requires one (1), three (3) inch caliper 65 gallon tree be provided for every eight (8) parking spaces and the trees are to be provided in

5-ft x 5-ft diamond planters or island planters. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide tree leave outs.

6) Parking Lot Landscaping – landscape buffers adjacent to public streets are to consist of trees, shrubs, perennial, and/or ornamental grasses in natural groupings. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide exhibit.

7) Please provide an identifying symbol for each tree type to better identify what is being planted

8) Please ghost-in the existing trees in order to distinguish between proposed plantings.

9) Under General Planting Notes, number 5 indicates the "City of Canyon". Please change to City of Rockwall.

M.15 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, the director of planning and zoning, or his/her designee, shall review the treescape plan and approve the plan per the requirements of this article, or forward any recommendations to the planning and zoning commission As part of the treescape plan review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees The planning and zoning commission will review and approve or disapprove the treescape plan The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted

(1) Adjust mitigation inches due for all landscape trees being provided The minimum size required for planting of a canopy tree is four(4) inches. (Sec. 4.A.2, Art VIII, UDC)

M.16 Photometric Plan. Ordinance No. 17-22 stipulates a design standard for all pedestrian scale street lighting and parking lot light fixtures The proposed pedestrian scale street light does appear to conform to the design standards for this district

M.17 Based on the submittal staff has identified the following variances

1) Building Materials. The proposed addition exceeds the maximum permitted percentage of secondary materials and does not include a minimumof20% stone.
2) Building Articulation. The proposed addition does not meet the articulation standards established by the UDC.
3) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street.
4) Parking Count. The proposed site does not meet the minimum parking standards.
5) Parking Restrictions. The proposed parking lot has more than one (1) full row of parking (i.e. two (2) rows of parking with a drive aisle) adjacent to Ridge Road and within the Scenic Overlay (SOV) District.

To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two(2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.18 Please note that failure to address all comments provided by staff by5:00 PM on September 4, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.19 Staff has identified the aforementioned items necessary to continue the submittal process Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 8, 2019 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 24, 2019.

I.20 The Architectural Review Board (ARB) meeting will be held on September 24, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

forward a recommendation to the Planning and Zoning Commission.

I.21 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

GENERAL PLANTING NOTES

1. CONTRACTOR SHALL ADHERE TO CITY CONSTRUCTION REQUIREMENTS INCLUDING BUT NOT LIMITED TO ANY PERMITS, INSPECTIONS, AND METHODS OF MATERIAL INSTALLATION.
2. CONTRACTOR SHALL ADHERE TO ALL AGENCY REQUIREMENTS MEANS AND METHODS OF CONSTRUCTION.
3. CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UTILITIES ABOVE AND BELOW GRADE, AS WELL AS FINDING OUT EACH COMPANY'S RESTRICTIONS ON WORKING WITHIN THEIR EASEMENTS AND UTILITY LINES PRIOR TO COMMENCING CONSTRUCTION.
4. CONTRACTOR SHALL VERIFY LOCATION OF ALL EXISTING IMPROVEMENTS AND TO NOT DISTURB THOSE THAT ARE OUTSIDE OF THE SCOPE OF WORK. ANY STRUCTURES THAT ARE TO REMAIN WITHIN THE SCOPE OF WORK AREA SHALL NOT BE DAMAGED. PHOTOGRAPHS AND NOTES SHOULD BE MADE FOR ANY EXISTING DAMAGED CONDITIONS PRIOR TO COMMENCING CONSTRUCTION AND DISTRIBUTED TO OWNERS REPRESENTATIVE.
5. A LANDSCAPE IRRIGATION PLAN SHALL BE PREPARED PRIOR TO LANDSCAPE CONSTRUCTION AND WILL BE DESIGNED BY A TEXAS LICENSED IRRIGATION DESIGNER. ALL PLANTING AREAS SHALL BE IRRIGATED WITH AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE AND RAIN SENSOR. THE SYSTEM SHALL BE DESIGNED TO MEET THE CITY OF CANYON AND THE STATE OF TEXAS IRRIGATION REQUIREMENTS. THE IRRIGATION INSTALLER SHALL BE A STATE OF TEXAS LICENSED IRRIGATION DESIGNER.
6. CONTRACTOR SHALL NOTIFY OWNERS REPRESENTATIVE IF THERE ARE ANY WATER RESTRICTIONS AND WHAT IF ANY IMPACT THIS MAY HAVE ON THE INSTALLATION OF PLANT MATERIAL.
7. QUANTITIES SHOWN IN PLANT LIST FOR PLANT MATERIAL AREA PROVIDED AS A COURTESY FOR THE CONTRACTOR. CONTRACTOR SHALL VERIFY PRIOR TO BIDDING THAT THE QUANTITY WILL COVER THE SPECIFIED AREAS AT THE SPACING STATED IN THE PLANT LIST UNDER THE REMARKS COLUMN. IF THERE IS A DIFFERENCE, THE CONTRACTOR SHALL MAKE NOTE ON THEIR BID AND SHOW THE ADDED OR REDUCED COST.
8. CONTRACTOR SHALL ESTABLISH SOURCES FOR ALL PLANT MATERIAL ON PLANT LIST WHEN BIDDING PROJECT. NO PLANTS SUBSTITUTIONS.
9. CONTRACTOR SHALL BECOME FAMILIAR WITH THE DRAWINGS FOR THIS PROJECT PRIOR TO INSTALLATION.
10. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ADVISE THE OWNERS REPRESENTATIVE OF ANY CONDITION FOUND ON-SITE WHICH PROHIBITS INSTALLATION AS SHOWN ON THESE PLANS.
11. ALL NEW PLANTING BEDS SHALL HAVE A MINIMUM SIX (6") INCHES OF BED PREPARATION.
12. LAWN AREA SHALL HAVE FERTILE AND CLEAN TOP SOIL TILLED 4" DEEP.
13. GRADING IN PLANTING BEDS SHALL BE SMOOTH AND PROVIDE POSITIVE DRAINAGE.
14. CONTRACTOR SHALL STAKE OUT LOCATION OF ALL TREES, AND SHRUBS FOR APPROVAL BY OWNERS REPRESENTATIVE PRIOR TO PLANTING.
15. MULCHING OF SHRUB AND ANY GROUND COVER AREAS SHALL HAVE 3 INCHES OF SHREDDED HARDWOOD MULCH.
16. LANDSCAPED AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS, AND OTHER SUCH MATERIAL OR PLANTS NOT A PART OF THE LANDSCAPING.
17. THE PROPERTY OWNER, TENANT AND ANY AGENT THEREOF SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING MATERIALS IN GOOD CONDITION AT ALL TIMES SO AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE. ANY LANDSCAPING MATERIAL THAT DIES SHALL BE REPLACED WITH HEALTHY MATERIAL WITHIN A REASONABLE TIME. ALL LANDSCAPED AREAS SHALL BE CONTINUOUSLY MAINTAINED FREE OF WEEDS, DEBRIS AND LITTER. WEEDS AND NATURAL UNCULTIVATED GRASS SHALL NOT BE CONSIDERED LANDSCAPING.

GENERAL PLANTING NOTES

1. CONTRACTOR SHALL ADHERE TO CITY CONSTRUCTION REQUIREMENTS INCLUDING BUT NOT LIMITED TO ANY PERMITS, INSPECTIONS, AND METHODS OF MATERIAL INSTALLATION.
2. CONTRACTOR SHALL ADHERE TO ALL AGENCY REQUIREMENTS MEANS AND METHODS OF CONSTRUCTION.
3. CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UTILITIES ABOVE AND BELOW GRADE, AS WELL AS FINDING OUT EACH COMPANY'S RESTRICTIONS ON WORKING WITHIN THEIR EASEMENTS AND UTILITY LINES PRIOR TO COMMENCING CONSTRUCTION.
4. CONTRACTOR SHALL VERIFY LOCATION OF ALL EXISTING IMPROVEMENTS AND TO NOT DISTURB THOSE THAT ARE OUTSIDE OF THE SCOPE OF WORK. ANY STRUCTURES THAT ARE TO REMAIN WITHIN THE SCOPE OF WORK AREA SHALL NOT BE DAMAGED. PHOTOGRAPHS AND NOTES SHOULD BE MADE FOR ANY EXISTING DAMAGED CONDITIONS PRIOR TO COMMENCING CONSTRUCTION AND DISTRIBUTED TO OWNERS REPRESENTATIVE.
5. A LANDSCAPE IRRIGATION PLAN SHALL BE PREPARED PRIOR TO LANDSCAPE CONSTRUCTION AND WILL BE DESIGNED BY A TEXAS LICENSED IRRIGATION DESIGNER. ALL PLANTING AREAS SHALL BE IRRIGATED WITH AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE AND RAIN SENSOR. THE SYSTEM SHALL BE DESIGNED TO MEET THE CITY OF CANYON AND THE STATE OF TEXAS IRRIGATION REQUIREMENTS. THE IRRIGATION INSTALLER SHALL BE A STATE OF TEXAS LICENSED IRRIGATION DESIGNER.
6. CONTRACTOR SHALL NOTIFY OWNERS REPRESENTATIVE IF THERE ARE ANY WATER RESTRICTIONS AND WHAT IF ANY IMPACT THIS MAY HAVE ON THE INSTALLATION OF PLANT MATERIAL.
7. QUANTITIES SHOWN IN PLANT LIST FOR PLANT MATERIAL AREA PROVIDED AS A COURTESY FOR THE CONTRACTOR. CONTRACTOR SHALL VERIFY PRIOR TO BIDDING THAT THE QUANTITY WILL COVER THE SPECIFIED AREAS AT THE SPACING STATED IN THE PLANT LIST UNDER THE REMARKS COLUMN. IF THERE IS A DIFFERENCE, THE CONTRACTOR SHALL MAKE NOTE ON THEIR BID AND SHOW THE ADDED OR REDUCED COST.
8. CONTRACTOR SHALL ESTABLISH SOURCES FOR ALL PLANT MATERIAL ON PLANT LIST WHEN BIDDING PROJECT. NO PLANTS SUBSTITUTIONS.
9. CONTRACTOR SHALL BECOME FAMILIAR WITH THE DRAWINGS FOR THIS PROJECT PRIOR TO INSTALLATION.
10. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ADVISE THE OWNERS REPRESENTATIVE OF ANY CONDITION FOUND ON-SITE WHICH PROHIBITS INSTALLATION AS SHOWN ON THESE PLANS.
11. ALL NEW PLANTING BEDS SHALL HAVE A MINIMUM SIX (6") INCHES OF BED PREPARATION.
12. LAWN AREA SHALL HAVE FERTILE AND CLEAN TOP SOIL TILLED 4" DEEP.
13. GRADING IN PLANTING BEDS SHALL BE SMOOTH AND PROVIDE POSITIVE DRAINAGE.
14. CONTRACTOR SHALL STAKE OUT LOCATION OF ALL TREES, AND SHRUBS FOR APPROVAL BY OWNERS REPRESENTATIVE PRIOR TO PLANTING.
15. MULCHING OF SHRUB AND ANY GROUND COVER AREAS SHALL HAVE 3 INCHES OF SHREDDED HARDWOOD MULCH.
16. LANDSCAPED AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS, AND OTHER SUCH MATERIAL OR PLANTS NOT A PART OF THE LANDSCAPING.
17. THE PROPERTY OWNER, TENANT AND ANY AGENT THEREOF SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING MATERIALS IN GOOD CONDITION AT ALL TIMES SO AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE. ANY LANDSCAPING MATERIAL THAT DIES SHALL BE REPLACED WITH HEALTHY MATERIAL WITHIN A REASONABLE TIME. ALL LANDSCAPED AREAS SHALL BE CONTINUOUSLY MAINTAINED FREE OF WEEDS, DEBRIS AND LITTER. WEEDS AND NATURAL UNCULTIVATED GRASS SHALL NOT BE CONSIDERED LANDSCAPING.

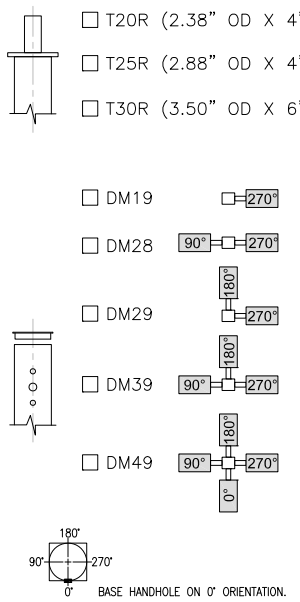
Calculation Summary						
Calculation Grid Location	Calc. Height (Ft.)	Units	Avg	Max	Min	Avg/Min
CalcPts@Property Line	N.A	Fc	0.05	0.1	0.0	N.A.
PARKING LOT		Fc	1.56	5.2	0.1	15.60



Notes:
1. Surface reflectances: Vertical/Horizontal - 50/20.
2. Calculation values are at height indicated in summary table.
3. Mounting heights are designated on drawing with "MH."
4. Luminaire description does not necessarily reflect specification model number. Contact salesperson for verification.
5. Sylvania lamp data used unless otherwise noted. LED luminaires use integrated photometric lamp data provided by manufacturer.
6. Lighting power density is calculated based on estimated ballast/driver energy consumption. Engineer to verify.
7. For lumen output of scaled luminaires, multiply Total Lumen Output by User Defined Factor.

DETAIL 3 | POLE TOP

DETAIL 1 | BASE PLATE

DETAIL 2 | ANCHOR BOLT

1) HARDWARE TO BE GALVANIZED TO: ASTM A153
2) ANCHOR BOLTS SHALL BE FULLY GALVANIZED PER ASTM A153.
3) ALL WELDING TO CONFORM TO: AWS D1.1 MOST RECENT EDITION.
4) FABRICATION MEETS AISC (AMERICAN INSTITUTE OF STEEL CONSTRUCTION) QUALITY CERTIFICATION.
5) PROVISIONS FOR GROUNDING LOCATED AT BASE HAND HOLE.
6) VIBRATION DISCLAIMER: ALTHOUGH RARE, VIBRATIONS SEVERE ENOUGH TO CAUSE DAMAGE CAN OCCASIONALLY OCCUR IN STRUCTURES OF ALL TYPES. BECAUSE THEY ARE INFLUENCED BY MANY INTERACTING VARIABLES, VIBRATIONS ARE GENERALLY UNPREDICTABLE. THE USERS MAINTENANCE PROGRAM SHOULD INCLUDE OBSERVATION FOR EXCESSIVE VIBRATION AND EXAMINATION FOR ANY STRUCTURAL DAMAGE. ALP WARRANTY EXCLUDES FATIGUE FAILURE OR SIMILAR PHENOMENA RESULTING FROM INDUCED VIBRATION, HARMONIC OSCILLATION OR RESONANCE ASSOCIATED WITH MOVEMENT OF AIR CURRENTS AROUND THE POLE.

Specifications

EPA:	1.01 ft² (0.09 m²)
Length:	33″ (83.8 cm)
Width:	13″ (33.0 cm)
Height H1:	7-1/2″ (19.0 cm)
Height H2:	3-1/2″
Weight (max):	27 lbs (12.2 kg)

Introduction

The modern styling of the D-Series is striking yet unobtrusive - making a bold, progressive statement even as it blends seamlessly with its environment. The D-Series distills the benefits of the latest in LED technology into a high performance, high efficacy, long-life luminaire.

The outstanding photometric performance results in sites with excellent uniformity, greater pole spacing and lower power density. It is ideal for replacing up to 750W metal halide in pedestrian and area lighting applications with typical energy savings of 65% and expected service life of over 100,000 hours.

A+ Capable options indicated by this color background.

For more control options, visit DTL and ROAM online.

NOTES

1 P10, P11, P12 or P13 and rotated optics (L90, R90) only available together.
2 Not available with HS.
3 MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
4 Single fuse (SF) requires 120V, 277V or 347V. Double fuse (DF) requires 208V, 240V or 480V.
5 Not available in P1 or P10.
6 Universal mounting brackets intended for retrofit on existing, pre-drilled poles only. 1.5 G vibration load rating per ANCI C136.31.
7 Must order fixture with SPA option. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
8 Must be ordered with PIRHN. Sensor cover available only in dark bronze, black, white and natural aluminum colors.
9 Must be ordered with NLTAIR2. For more information on nLight Air 2 visit this link.
10 Photocell ordered and shipped as a separate line item from Acuity Brands Controls. See accessories. Not available with DS option. Shorting cap included.
11 If ROAM® node required, it must be ordered and shipped as a separate line item from Acuity Brands Controls. Node with integral dimming.
12 Provides 50/50fixture operation via (2) independent drivers. Not available with PER, PER5, PER7, PIR or PIRH. Not available P1, P2, P3, P4 or P5.
13 Requires (2) separately switched circuits with isolated neutrel. See Outdoor Control Technical Guide for details.
14 Reference Motion Sensor table on page 4.
15 Reference controls options table on page 4 to see functionality.
16 Not available with other dimming controls options
17 Not available with BLC, LCCO and RCCO distribution. Also available as a separate accessory; see Accessories information.
18 Must be ordered with fixture for factory pre-drilling.
19 Requires luminaire to be specified with PER, PER5 or PER7 option. See PER Table on page 3.
20 For retrofit use only.

Performance Data

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient		Lumen Multiplier
0°C	32°F	1.04
5°C	41°F	1.04
10°C	50°F	1.03
15°C	50°F	1.02
20°C	68°F	1.01
25°C	**77°F**	**1.00**
30°C	86°F	0.99
35°C	95°F	0.98
40°C	104°F	0.97

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the platforms noted in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	Lumen Maintenance Factor
0	1.00
25,000	0.96
50,000	0.92
100,000	0.85

Motion Sensor Default Settings						
Option	Dimmed State	High Level (when triggered)	Phototcell Operation	Dwell Time	Ramp-up Time	Ramp-down Time
PIR or PIRH	3V (37%) Output	10V (100%) Output	Enabled @ 5FC	5 min	3 sec	5 min
*PIR1FC3V or PIRH1FC3V	3V (37%) Output	10V (100%) Output	Enabled @ 1FC	5 min	3 sec	5 min
*for use when motion sensor is used as dusk to dawn control.

Controls Options				
Nomenclature	Descripton	Functionality	Primary control device	Notes
FAO	Field adjustable output device installed inside the lumiaire; wired to the driver dimming leads.	Allows the lumiaire to be manually dimmed, effectively trimming the light output.	FAO device	Cannot be used with other controls options that need the 0-10V leads
DS	Drivers wired independantly for 50/50 luminaire operation	The luminaire is wired to two separate circuits, allowing for 50/50 operation.	Independently wired drivers	Requires two seperately switched circuits. Consider nLight AIR as a more cost effective alternative.
PER5 or PER7	Twist-lock photocell recepticle	Compatible with standard twist-lock photocells for dusk to dawn operation, or advanced control nodes that provide 0-10V dimming signals.	Twist-lock photocells such as DLL Elite or advanced control nodes such as ROAM.	Pins 4 & 5 to dimming leads on driver, Pins 6 & 7 are capped inside luminaire
PIR or PIRH	Motion sensors with integral photocell. PIR for 8-15' mounting; PIRH for 15-30' mounting	Luminaires dim when no occupancy is detected.	Acuity Controls SBOR	Also available with PIRH1FC3V when the sensor photocell is used for dusk-to-dawn operation.
NLTAIR2 PIRHN	nLight AIR enabled luminaire for motion sensing, photocell and wireless communication.	Motion and ambient light sensing with group response. Scheduled dimming with motion sensor over-ride when wirelessly connected to the nLight Eclypse.	nLight Air rSDGR	nLight AIR sensors can be programmed and commissioned from the ground using the CIAIRity Pro app.

A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and system-level interoperability.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is A+ Certified when ordered with DTL® controls marked by a shaded background. DTL DLL equipped luminaires meet the A+ specification for luminaire to photocontrol interoperability1
- This luminaire is part of an A+ Certified solution for ROAM® or XPoint™ Wireless control networks, providing out-of-the-box control compatibility with simple commissioning, when ordered with drivers and control options marked by a shaded background[1]

To learn more about A+, visit www.acuitybrands.com/aplus.

1. See ordering tree for details.
2. A+ Certified Solutions for ROAM require the order of one ROAM node per luminaire. Sold Separately: Link to Roam; Link to DTL DLL

FEATURES & SPECIFICATIONS

INTENDED USE

The sleek design of the D-Series Size 1 reflects the embedded high performance LED technology. It is ideal for many commercial and municipal applications, such as parking lots, plazas, campuses, and streetscapes.

CONSTRUCTION

Single-piece die-cast aluminum housing has integral heat sink fins to optimize thermal management through conductive and convective cooling. Modular design allows for ease of maintenance and future light engine upgrades. The LED drivers are mounted in direct contact with the casting to promote low operating temperature and long life. Housing is completely sealed against moisture and environmental contaminants (IP65). Low EPA (1.01 ft^2) for optimized pole wind loading.

FINISH

Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Available in both textured and non-textured finishes.

OPTICS

Precision-molded proprietary acrylic lenses are engineered for superior area lighting distribution, uniformity, and pole spacing. Light engines are available in standard 3000 K, 4000 K and 5000 K (70 CRI) configurations. The D-Series Size 1 has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL

Light engine configurations consist of high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (up to L85/100,000 hours at 25°C). Class 1 electronic drivers are designed to have a power factor >90%, THD <20%, and an expected life of 100,000 hours with <1% failure rate. Easily serviceable 10kV surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

STANDARD CONTROLS

The DSX1 LED area luminaire has a number of control options. Dusk to dawn controls can be utilized via optional NEMA twist-lock photocell receptacles. Integrated motion sensors with on-board photocells feature field-adjustable programing and are suitable for mounting heights up to 30 feet.

nLIGHT AIR CONTROLS

The DSX1 LED area luminaire is also available with nLight® AIR for the ultimate in wireless control. This powerful controls platform provides out-of-the-box basic motion sensing and photocontrol functionality and is suitable for mounting heights up to 40 feet. Once commissioned using a smartphone and the easy-to-use CLAIRITY app, nLight AIR equipped luminaries can be grouped, resulting in motion sensor and photocell group response without the need for additional equipment. Scheduled dimming with motion sensor over-ride can be achieved when used with the nLight Eclypse. Additional information about nLight Air can be found here.

INSTALLATION

Included mounting block and integral arm facilitate quick and easy installation. Stainless steel bolts fasten the mounting block securely to poles and walls, enabling the D-Series Size 1 to withstand up to a 3.0 G vibration load rating per ANSI C136.31. The D-Series Size 1 utilizes the AERIS™ series pole drilling pattern (template #8). NEMA photocontrol receptacle are also available.

LISTINGS

UL Listed for wet locations. Light engines are IP66 rated; luminaire is IP65 rated. Rated for -40ºC minimum ambient. U.S. Patent No. D672,492 S. International patent pending.

DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product.
Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

International Dark-Sky Association (IDA) Fixture Seal of Approval (FSA) is available for all products on this page utilizing 3000K color temperature only.

WARRANTY

5-year limited warranty. Complete warranty terms located at:
www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application.
All values are design or typical values, measured under laboratory conditions at 25 °C.
Specifications subject to change without notice.

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 8, 2019
6:00 P.M.

CALL TO ORDER

OPEN FORUM

APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

2. **Z2019-021** **(David)**
   Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

3. **Z2019-022** **(Korey)**
   Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

4. **Z2019-024** **(David)**
   Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*], and take any action necessary.

ACTION ITEMS

5. **SP2019-035** **(Korey)**
   Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [*FM-3097*], and take any action necessary.

DISCUSSION ITEMS

6. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 4th day of October 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	10/08/2019
APPLICANT:	Pat Atkins; *KPA Consulting, Inc.*
CASE NUMBER:	Z2019-024; *Amendment to Planned Development District 79 (PD-79)*

SUMMARY

Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

BACKGROUND

On January 4, 2016, the City Council approved Planned Development District 79 (PD-79) [*Case No. Z2015-034; Ordinance No. 16-07*], which rezoned a 45.292-acre portion of the subject property from an Agricultural (AG) District to a Planned Development District establishing an entitlement for a single-family residential subdivision consisting of 113 single-family lots. On May 16, 2019, the applicant voluntarily annexed an additional 11.121-acre tract of land [*A2016-001*] and amended Planned Development District 79 (PD-79) [*Z2016-015; Ordinance No. 16-39*], incorporating this property into the subdivision. The annexation created a 55.413-acre residential subdivision. The amendment to PD-79 also increased the lot count from 113 to 138 lots, and granted an increase in the maximum front entry garages from 0% to 50%. On January 22, 2019, the applicant voluntarily annexed an additional 14.995-acre tract of land [*A2018-004*] with the intent of incorporating it into Planned Development District 79 (PD-79).

PURPOSE

On September 13, 2019, the applicant submitted an application requesting to amend PD-79 [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan by incorporating the additional 14.995-acre tract of land into the existing 55.413-acre tract of land to create an additional phase (*i.e. Phase III*) for the Saddle Star Estates Subdivision. This amendment would increase the total acreage of the subdivision to 70.408-acres.

ADJACENT LAND USES AND ACCESS

The subject property is located on the north side of John King Boulevard south of Featherstone Drive. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is the corporate boundaries of the City of Rockwall followed by two (2) single-family homes on large tracts of land situated within the City's Extraterritorial Jurisdiction (ETJ).

South: Directly south of the subject property is John King Boulevard, which is identified as a P6D (*principle arterial, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is a 67.50-acre tract of land (*i.e. Tracts 2-01, 2-04 & 2-05, of the P. B. Harrison Abstract No. 97*) zoned Agricultural (AG) District.

East: Directly east of the subject property is the corporate limits of the City of Rockwall followed by Park Ridge Estates and Windmill Valley Subdivisions. Both subdivisions are situated within the City's Extraterritorial Jurisdiction (ETJ).

West: Directly south of the subject property is John King Boulevard, which is identified as a P6D (*principle arterial, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this arterial is a vacant property zoned Planned Development District 70 (PD-70) for Single Family 10 (SF-10) District land uses. This is scheduled to be the final phase of the Stone Creek Subdivision.

CHARACTERISTICS OF THE REQUEST

Currently, Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] allows the applicant to construct 138, 70' x 125' single-family lots on 55.413-acres. The proposed amendment would increase the size of the proposed subdivision to 70.408-acres (*i.e. adding an additional 14.995-acres*) and add an addition 38, 80' x 125' single family lots. The new lot product would be subject to all of the same standards as the existing lot type; however, the applicant would be incorporating 100% j-swing or traditional swing garages as opposed to the 50% flat front entry currently permitted on the 138, 70' x 125' lot product. A summary of the resulting lot mix and development standards is as follows:

Table 2: Lot Dimensional Requirements

Lot Type >	*A*	*B*
Minimum Lot Width [1]	70'	80'
Minimum Lot Depth	125'	125'
Minimum Lot Area	8,750 SF	10,000 SF
Minimum Front Yard Setback [2] & [5]	20'	20'
Minimum Side Yard Setback	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'	10'
Minimum Length of Driveway Pavement	25'	25'
Maximum Height [3]	30'	30'
Minimum Rear Yard Setback [4]	20'	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF	2,700 SF
Maximum Lot Coverage	65%	65%
Permitted Encroachment into Required Setbacks [5]	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single-family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

INFRASTRUCTURE

Based on the applicant's request to rezone the subject property, the following infrastructure will be required to be constructed in order to provide adequate public services to the subject property:

Water: The City does not currently have the rights to serve the proposed 14.995-acre addition to Planned Development District 79 (PD-79). The applicant will need to work with Mt. Zion Water Supply Corporation to secure the right for the City of Rockwall to serve the additional acreage.

Wastewater: The lift station located at John King Boulevard and FM-552 is not currently sized to serve the proposed 14.995-acre addition to Planned Development District 79 (PD-79). The applicant will be required to perform an infrastructure study to determine the upgrades necessary to meet the required capacity.

All proposed infrastructure improvements must meet the Engineering Department's *Standards of Design and Construction*.

CONFORMANCE WITH THE CITY'S CODES

The changes to Planned Development District 79 (PD-79) do not change the conformance of the proposed subdivision with regards to the City's existing codes.

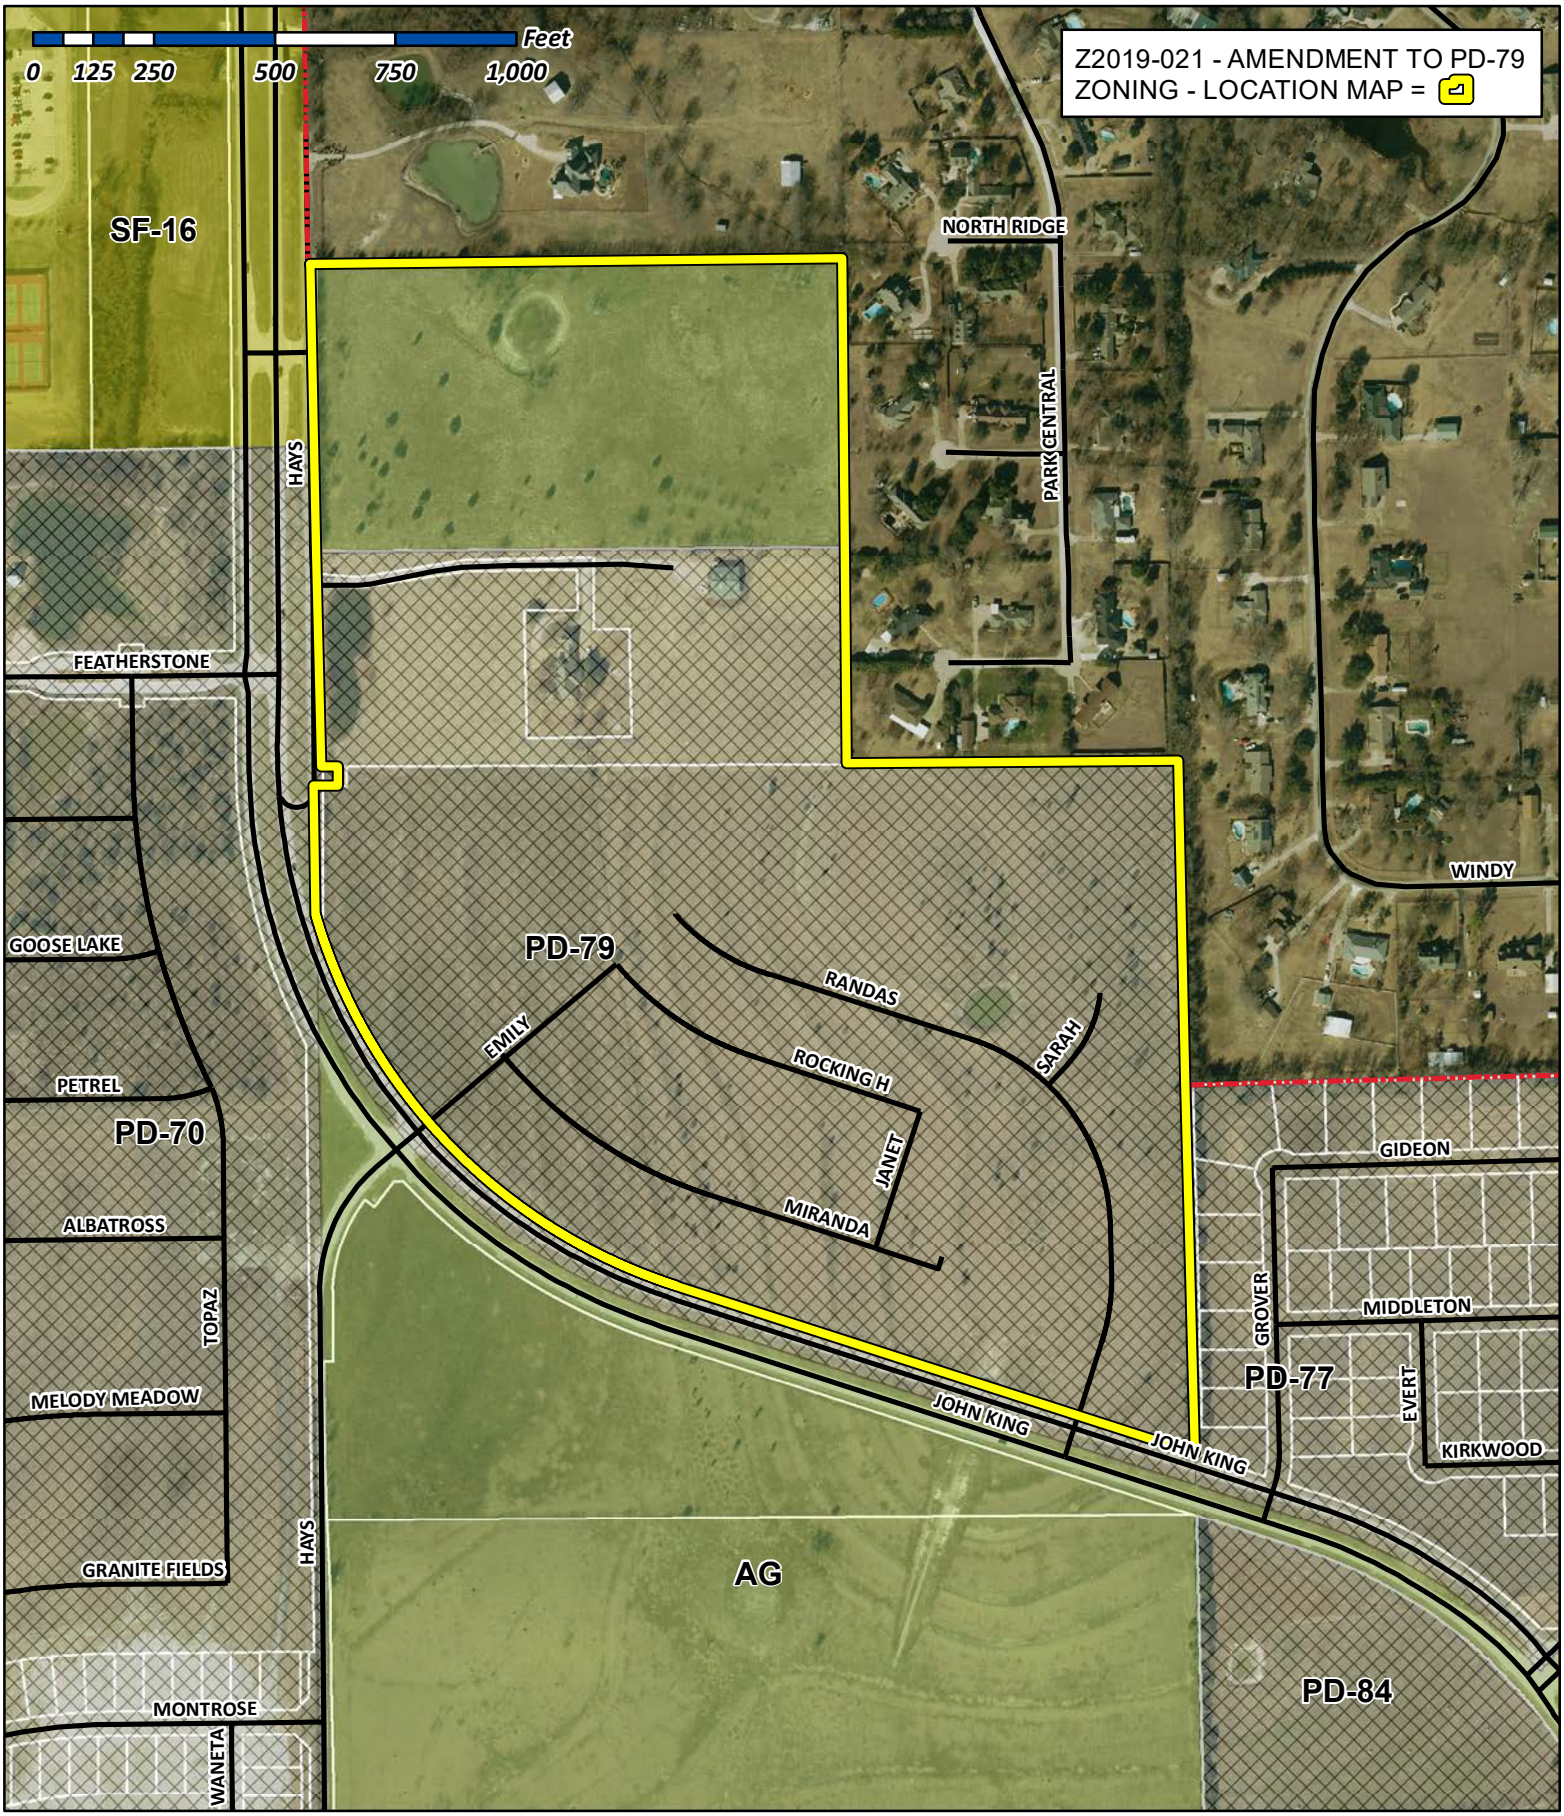
CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

Since the applicant's request does not change the underlying use of the majority of the property and the additional 14.995-acre tract of land being incorporated into the PD is being rezoned in conformance with the Future Land Use Map (*i.e. to a Low Density Residential designation*) the request does not change Planned Development District 79 (PD-79) conformance to the OURHometown Vision 2040 Comprehensive Plan. With regard to the goals and policies contained in this document, the following goals and policies apply to the applicant's request:

(1) *Chapter 8; Section 2.03; Goal 3; Policy 3:* In cases where flat front entry garages (*i.e. even with the front façade of the primary structure*) are requested as part of a development, no greater than 20% should be incorporated into the development. In addition, flat front entry garages should have a minimum of a 25-foot front yard building setback to allow vehicles to be parked in the driveway without overhanging public right-of-way. This type of garage may not be appropriate for all developments and should be generally discouraged.

In this case, Planned Development District 79 (PD-79) was approved with 50% flat front entry garages. The proposed amendment would actually reduce the number of flat front entry garages in the subdivision to 39.20% bringing it closer to conforming to the current goals and policies of the Comprehensive Plan. With this being said the applicant's request to amend the existing Planned Development District is a discretionary decision for the Planning and Zoning Commission and City Council.

NOTIFICATIONS



On September 20, 2019, staff mailed nine (9) notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Stone Creek and Stoney Hollow Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property participating in the notification program. Additionally, staff posted a sign adjacent to the subject property along N. Goliad Street [*SH-205*] and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff had not received any notices regarding the applicant's request.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 79 (PD-79), then staff would propose the following conditions of approval:

(1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

(2) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

TRACT ONE

BEING 44.292 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "First Tract" being a called 32.5 acres and the "Second Tract" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, L.P., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Volume 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John Kind Boulevard (variable width right-of-way) at the common north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John Kind Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44°02'06" West, a distance of 1,073.12 feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31 feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John Kind Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract common to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the common east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185 acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT TWO

BEING 11.121 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner near the edge of an asphalt surface in the east margin of Hays Road, said point also being the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52 feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described in a Special Warranty Deed to R & R Hance Investments, L.P., as "Second Tract," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19 feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east margin of said Hays Road;

THENCE North 01°19'17" West along the west line of said Reed tract and the east line of said Hays Road, a distance of 442.88 feet to the PLACE OF BEGINNING and Containing 11.121 acres, or 484,450 square feet, of land.

TRACT THREE

BEING 14.955 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and all of a called 15.00 acre tract of land described in a Warranty Deed to Steve L. Branch and wife Judy C. Branch, recorded in Volume 234, Page 527 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the original Hays Road at the common west corner of said 15.00 acre tract and a tract of land described in a deed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 01°10'15" West, continuing along and within Hays Road and with the west line of said 15.00 acre Branch tract, a distance of 596.15 feet, to a 1/2” iron rod found for corner at the northwest corner thereof, common to the southwest corner of a called 15.00 acre tract of land described in a deed to Gerald Glen Cox and wife Rosalba Cox, recorded in Volume 3295 Page 9, (DRRCT);

THENCE North 89°26'26" East, along the common line of last mentioned tracts, a distance of 1,099.11 feet, to a point for corner at the common east corner thereof, and also being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), from which a 1/2” iron rod with a yellow cap stamped “5034” bears South 68°26'26" West, a distance of 0.18 feet;

THENCE South 00°32'13" East, along the common line of said Branch tract and said Park Ridge Estates, a distance of 596.04 feet, to a 1/2" iron rod found for corner at the southeast corner thereof, common to the northeast corner of said Reed tract;

THENCE South 89°26'12" West, along the common line of last mentioned tracts, a distance of 1,092.52 feet to PLACE OF BEGINNING and Containing 653,191 square feet, or 14.995 acres of land.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) [*ORDINANCE NO. 16-39*] FOR THE PURPOSE OF AMENDING THE DEVELOPMENT STANDARDS AND CONCEPT PLAN ON A 70.408-ACRE TRACT OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 79 (PD-79) FOR SINGLE FAMILY 8.4 (SF-8.4) DISTRICT LAND USES, BEING IDENTIFIED AS TRACTS 1, 1-03, 1-5 & 2-03 OF THE P. B. HARRISON SURVEY, ABSTRACT NO. 97, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the purpose of amending Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] in order to change the development standards and concept plan for a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, generally located east of the intersection of Featherstone Drive and John King Boulevard, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 79 [*Ordinance No. 16-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 16-39*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

DRAFT 10.08.19

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

DRAFT
ORDINANCE
10.08.2019

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF NOVEMBER, 2019.

_____
Jim Pruitt, *Mayor*

ATTEST:

_____
Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____
Frank J. Garza, *City Attorney*

DRAFT ORDINANCE 10.08.2019

Exhibit 'A':
Legal Description and Survey

TRACT 1:

BEING 44.292 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "*First Tract*" being a called 32.5 acres and the "*Second Tract*" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, LP., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Vol u me 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John King Boulevard (120' right-of-way) at the com mon north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John King Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44° 02' 06" West, a distance of 1,073.12-feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31-feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John King Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract com mon to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the com mon east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185-acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner near the edge of an asphalt surface in the east margin of Hays Road, said point being the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52-feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P., as "*Second Tract*," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19-feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east margin of said Hays Road;

THENCE North 01°19'17" West along the west line of said Reed tract and the east line of said Hays Road, a distance of 442.88-feet to the PLACE OF BEGINNING and Containing 11.121-acres, or 484,450 square feet, of land.

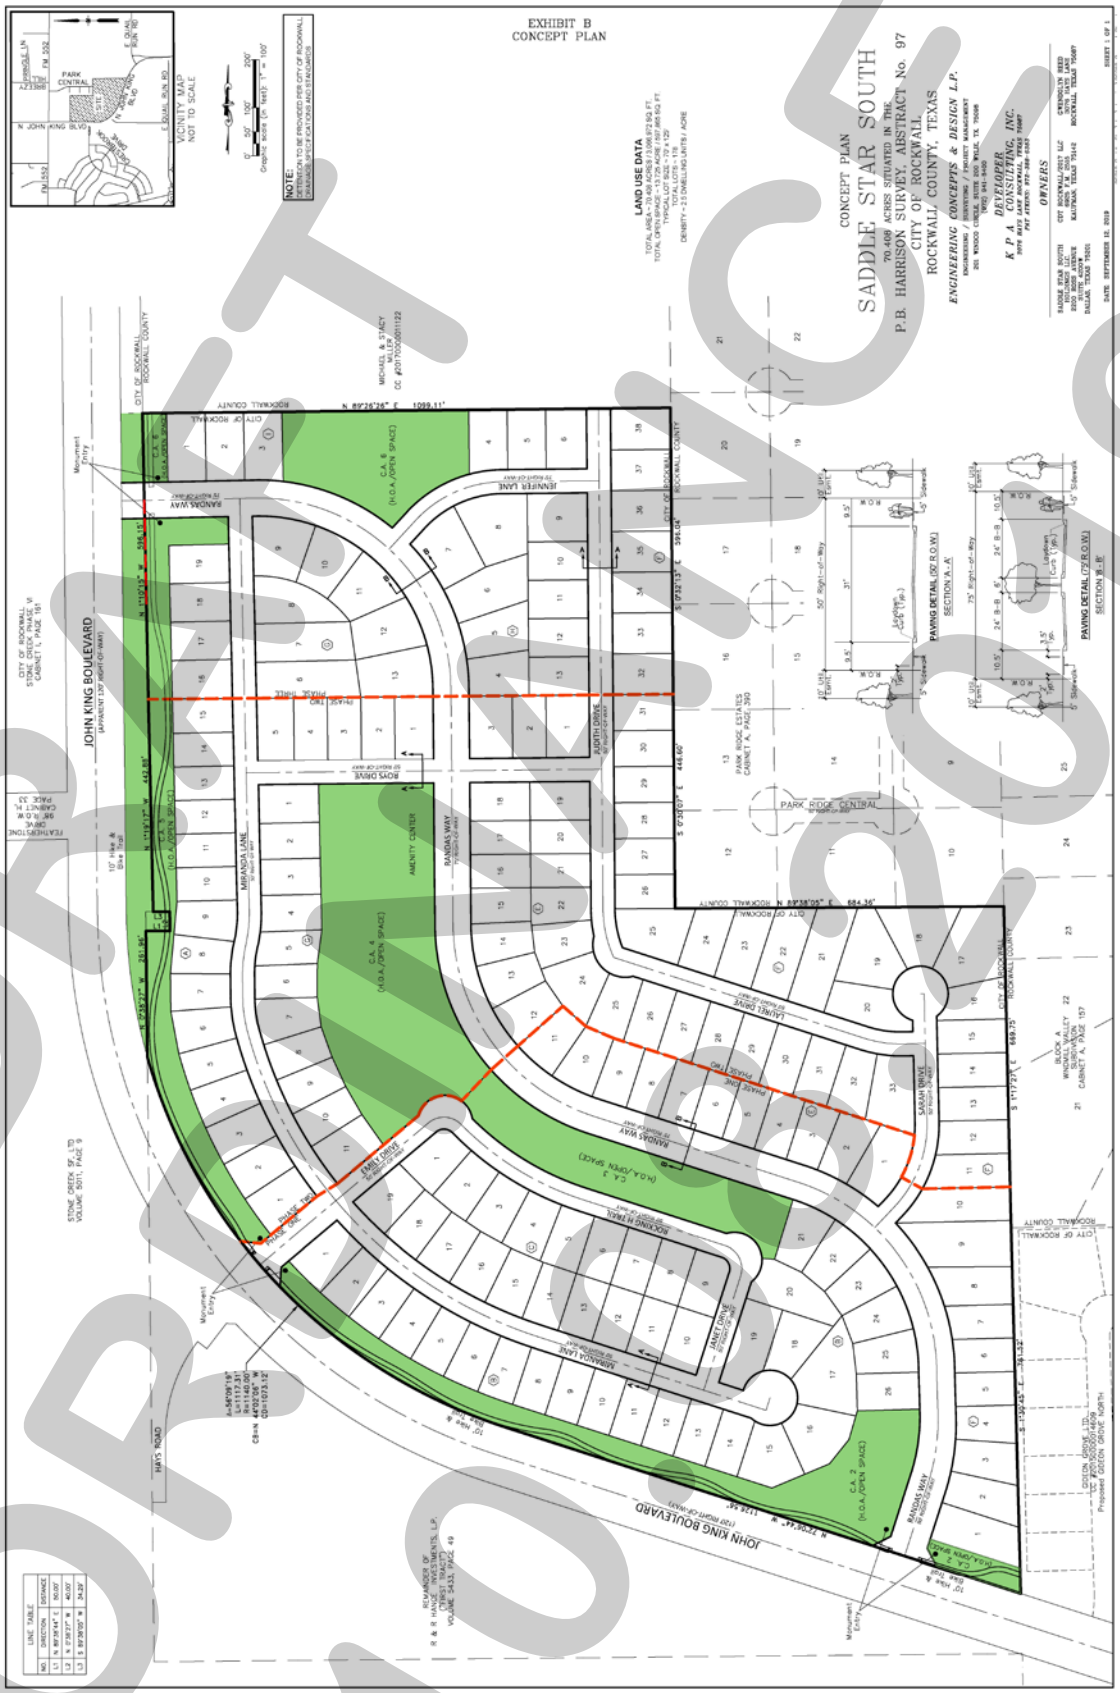
TRACT 3:

BEING 14.955 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and all of a called 15.00 acre tract of land described in a Warranty Deed to Steve L. Branch and wife Judy C. Branch, recorded in Volume 234, Page 527 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the original Hays Road at the common west corner of said 15.00 acre tract and a tract of land described in a deed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 01°10'15" West, continuing along and within Hays Road and with the west line of said 15.00 acre Branch tract, a distance of 596.15 feet, to a 1/2" iron rod found for corner at the northwest corner thereof, common to the southwest corner of a called 15.00 acre tract of land described in a deed to Gerald Glen Cox and wife Rosalba Cox, recorded in Volume 3295 Page 9, (DRRCT);

THENCE North 89°26'26" East, along the common line of last mentioned tracts, a distance of 1,099.11 feet, to a point for corner at the common east corner thereof, and also being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), from which a 1/2" iron rod with a yellow cap stamped "5034" bears South 68°26'26" West, a distance of 0.18 feet;



DRAFT ORDINANCE 10.08.2019

THENCE South 00°32'13" East, along the common line of said Branch tract and said Park Ridge Estates, a distance of 596.04 feet, to a 1/2" iron rod found for corner at the southeast corner thereof, common to the northeast corner of said Reed tract;

THENCE South 89°26'12" West, along the common line of last mentioned tracts, a distance of 1,092.52 feet to PLACE OF BEGINNING and Containing 653,191 square feet, or 14.995 acres of land.

DRAFT ORDINANCE 10.08.2019

Exhibit 'B':
Concept Plan

DRAFT
ORDINANCE
2019

Exhibit 'C':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 8.4 (SF-8.4) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	70' x 125'	8,750 SF	138	78.41%
B	80' x 125'	10,000 SF	38	21.59%
		Maximum Permitted Units:	*176*	*100.00%*

3. *Density and Dimensional Requirements*. Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 8.4 (SF-8.4) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.50* dwelling units per gross acre of land; however, in no case should the proposed development exceed *176* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Lot Type >	*A*	*B*
Minimum Lot Width [1]	70'	80'
Minimum Lot Depth	125'	125'
Minimum Lot Area	8,750 SF	10,000 SF
Minimum Front Yard Setback [2] & [5]	20'	20'
Minimum Side Yard Setback	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'	10'
Minimum Length of Driveway Pavement	25'	25'
Maximum Height [3]	30'	30'
Minimum Rear Yard Setback [4]	20'	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF	2,700 SF
Maximum Lot Coverage	65%	65%
Permitted Encroachment into Required Setbacks [5]	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single-family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

4. *Building Standards.* All development shall adhere to the following building standards:

DRAFT
ORDINANCE
10.08.19

(a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

(b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) *Garage Orientation.* A minimum of 50% of the garages for the *Type A* lots and 100% of the *Type B* lots shall be oriented in a *traditional swing* (*or j-swing*) configuration. The remainder of garages maybe configured in a front entry configuration with a minimum setback of 20-feet (*i.e. allowing the garage to be flush with the front façade of the primary structure*). In this case the front façade of the primary structure does not include a permitted encroachment (*e.g. a porch, sunroom, etcetera*) allowed in *Table 2* above. All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code.

5. Anti-Monotony Restrictions. The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	70' x 125'	(1), (2), (3), (4)
B	80' x 125'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on John King Boulevard shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Permitted Encroachment Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

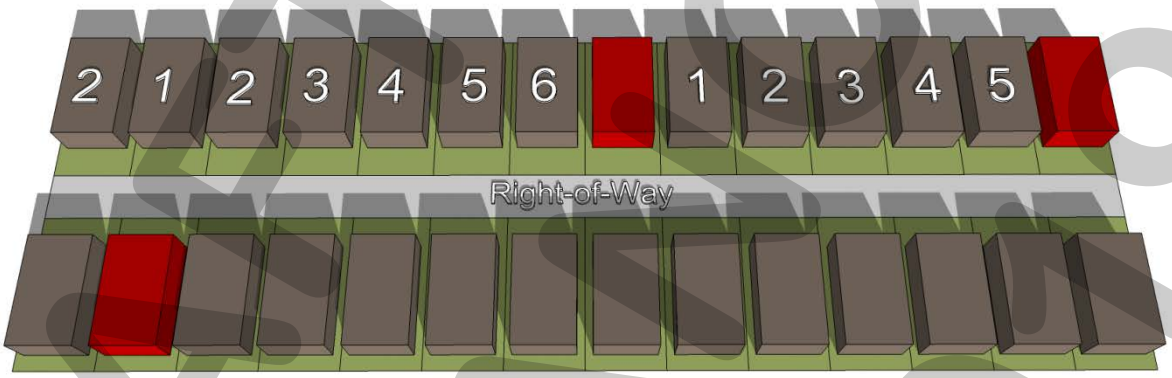
(3) Permitted encroachments (*i.e. porch and sunroom*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient

DRAFT ORDINANCE 10.08.2019

dissimilarity on the same side of the street beginning with the home adjacent to the subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.



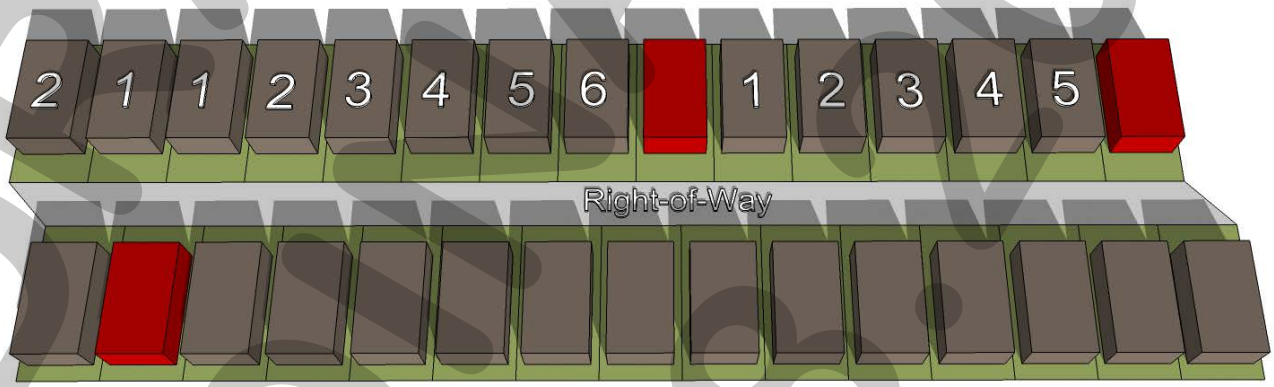


Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

DRAFT
ORDINANCE
19-08

(c) Corner Lots. Corner lots fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (John King Boulevard). A minimum of a 50-foot landscape buffer shall be provided along the frontage of John King Boulevard (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and shrubbery along the entire length of the frontage. Berms and shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a ten (10) foot curvilinear sidewalk situated within the 50-foot landscape buffer adjacent to John King Boulevard.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

DRAFT
ORDINANCE
10.08.2019

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(4) *Irrigation Requirements.* Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

12. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 14.082-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

Continued on Next Page …

DRAFT ORDINANCE 10.08.2019

13. *Trail Rest Area.* The developer shall be responsible for the construction of a *Trail Rest Area* that generally conforms to the rest area depicted in *Figure 1* (*below*).

Figure 1: *Trail Rest Area Concept*

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

16. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 10.08.2019

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	October 8, 2019
APPLICANT:	Marty Wright
CASE NUMBER:	Z2019-022; *Specific Use Permit (SUP) for an Accessory Building*

SUMMARY

Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for a detached garage on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

BACKGROUND

The subject property was annexed in 1999 [*Ordinance No. 99-33*], is zoned single-family 16 (SF-16) District, and is addressed as 2340 Saddlebrook Lane. On November 11, 2001, the City Council approved a change in zoning [*Case No. PZ2008-102; Ordinance No. 01-102*], from an Agricultural (AG) District to a Single-Family 16 (SF-16) District for the Saddlebrook Estates #2 Addition. On October 21, 2002, the City Council approved a replat [*Case No. PZ2002-71-01*] for the Saddlebrook Estates #2 Addition.

PURPOSE

The applicant is requesting approval of a Specific Use Permit (SUP) to allow a detached garage that exceeds the maximum allowable size for a property in a Single-Family 16 (SF-16) District.

ADJACENT LAND USES AND ACCESS

The subject property is located at 2340 Saddlebrook Lane. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property there are several single-family homes located within the Saddlebrook Estates #2 Addition, followed by the corporate limits of the City of Rockwall. These homes are zoned Single-Family 16 (SF-16) District. Beyond this is E. Quail Run Road, which is identified as a M4U (*major collector, four [4] lane, undivided roadway*) on the City's Master Thoroughfare Plan. Following this, there is a large vacant tract of land zoned Agricultural (AG) District.

South: Directly south of the subject property, are several single-family homes within the Saddlebrook Estates #2 Addition, which are zoned Single-Family 16 (SF-16) District, followed by the corporate limits of the City of Rockwall. Beyond this is FM-1141, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan.

East: Directly east of the subject property there are several single-family homes within the Saddlebrook Estates #2 Addition, which are zoned Single-Family 16 (SF-16) District. Beyond this is FM-1141, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan and delineates the corporate limits of the City of Rockwall.

West: Directly west of the subject property are several single-family homes within the Saddlebrook Estates #2 Addition, which are zoned Single-Family 16 (SF-16) District. Beyond this are several single-family homes zoned Agricultural (AG) District followed by John King Boulevard, which is identified as a P6D (*principle arterial, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan.

CHARACTERISTICS OF THE REQUEST

The applicant is requesting approval of a Specific Use Permit (SUP) for a detached garage that exceeds the maximum allowable size for properties located within a Single-Family 16 (SF-16) District. Currently situated on the subject property, there is a 3,397 SF brick single-family home and a 216 SF accessory building that is clad with wood. The proposed building will be situated behind the main structure, will be 13' 8" in height, and will be constructed of metal. The building will include a 24' x 40' (*i.e. 960 SF*) detached garage and a 6' x 40' (*i.e. 240 SF*) porch that will be on the front of the building. The total footprint of the building will be 1,200 SF (*i.e. 35% of the size of the home*). The porch will incorporate windows with shutters, double walk-in doors, and wooden posts. The applicant has stated that the purpose of the porch is to blend the building with the neighborhood by incorporating architectural elements that are typically seen on a single-family home. The building will have two (2) roll-up doors located on each of the side façades (*i.e. north and south façade*) and the applicant has stated that detached garage will be utilized to store several antique vehicles. The existing 12' x 18' (*i.e. 216 SF*) accessory building will be relocated and will be situated adjacent to the northern side façade of the proposed detached garage. The applicant has provided a site plan and proposed building elevations to be reviewed by the Planning and Zoning Commission.

CONFORMANCE WITH THE CITY'S CODES

According to Subsection 7.04, *Accessory Structure Development Standards*, of Section 7, *District Development Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), in a Single-Family 16 (SF-16) District a detached garage is permitted provided that it is no larger than 625 SF. The detached garage shall include a minimum of one (1) garage bay door large enough to accommodate a standard size motor vehicle and shall be architecturally compatible with the primary structure. In this case, the proposed detached garage is 960 SF and the porch is 240 SF (*i.e. a total building footprint of 1,200 SF*), which exceeds the maximum allowable size of a detached garage. Although the proposed building exceeds the maximum allowable size, the applicant has provided additional architectural elements (*i.e. the front porch, windows and shutters, and the double walk-in doors*) on the building in order for the building to be consistent with the main structure. Additionally, the proposed building incorporates two (2) roll-up doors that are large enough to accommodate a standard passenger vehicle. Based on the proposed design of the building, the applicant's request appears to be in conformance with the requirements stipulated by the Unified Development Code (UDC) with regard to detached garages; however, the Planning and Zoning Commission and City Council are tasked with determining if the proposed building is architecturally compatible with the primary structure.

STAFF ANALYSIS

When looking at the applicant's request, it was observed that a large majority of property owners *(i.e. 26 of the 44 homes or roughly 60%*) currently have a detached garage and/or accessory building on their properties. Of the existing accessory buildings within the Saddlebrook Estates #2 Addition, several are roughly the same size or larger than (*i.e. 900-1,300 SF*) the proposed detached garage. It should be noted that most of the accessory buildings that are visible from the street utilize exterior materials similar to the main structure (*i.e. a combination of brick and cementitious lap siding*). Staff was able to determine that 30 building permits have been for accessory buildings within the Saddlebrook Estates #2 Addition and 27 of the permits are still active (*i.e. not expired, voided, or withdrawn*). A vast majority of the permits were issued between 2002 (*i.e. shortly after this area was annexed*) and 2009. In this case, the proposed detached garage is larger than the maximum allowable

detached garage; however, the design of the structure (*i.e. inclusion of a front entryway door, windows, shutters, and front porch*) appears to be architecturally compatible with the main house and would resemble a residential building. The building will sit more than 100-feet from the front property line and be approximately four (4)-feet higher than the street. Due to this, visibility of the garage bay doors will be limited from the front of the property line. Should the detached garage be visible from of the front of the property, the garage would likely resemble the existing detached garages on the surrounding properties (*i.e. the bay doors would be visible from the street*). Given that a majority of the surrounding homes have a detached garage, an accessory building, and/or a portable building approval of this request does not appear to negatively impact the subject property or surrounding properties. Staff should note, approval of a Specific Use Permit (SUP) is a discretionary decision for the City Council, pending a recommendation from the Planning and Zoning Commission. Should this request be approved, a total of two (2) accessory buildings will be located on the subject property.

NOTIFICATIONS

On September 20, 2019, staff sent 30 notices to all residents/property owners within 500-feet of the subject property. There are no Homeowner's Associations (HOA's)/Neighborhood Associations located within 1,500-feet of the subject property and are participating in the Neighborhood Notification Program. At the time this report was written, staff had received three (3) emails and one (1) notice in favor of this request.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request, then staff would propose the following conditions of approval:

(1) The following conditions pertain to the operation of a *detached garage* on the *Subject Property* and conformance to these conditions are required for continued operations:

  (a) The detached garage shall generally conform to the concept plan and the conceptual building elevations depicted in *Exhibits 'B' & 'C'* of the attached ordinance;

  (b) The detached garage shall not exceed a maximum size of 1,200 SF;

  (c) The detached garage shall not exceed an overall height of 15-feet;

  (d) The subject property shall not have more than two (2) accessory buildings;

(2) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-022: SUP for Accessory Building

Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Subject: Case No. Z2019-022

This is in regards to the above SUP request for 2340 Saddlebrook Lane.

First of all, we are 100% in favor of the request to build an accessory building in excess of 900 square feet which we assume is the reason for the SUP.

We know from building our own workshop in 2006 that at that time, the city required that the exterior cladding contains the same materials, excluding glass, as found on the main structure which in our case meant that we needed to brick the accessory building. I can think of at least 7 accessory buildings in Saddlebrook Estates that have been built and all of them comply with this requirement. From looking at the request and viewing the renderings, it appears that this structure is a 100% steel building.

Is this SUP just for the structure being greater than 900 square feet?

Is there an additional variance being applied for not using the same cladding material as the main residence?

Has the Rockwall UDC changed since 2006 that allows for a metal accessory building not allowed previously?

We know that bricking an accessory building is more expensive than not, but up to this point everyone in our neighborhood has had to comply. And honestly it has kept the neighborhood looking much better than if we had all built metal buildings.

Thanks for any clarification you can provide,

Kevin & Debbie Berger

Our names are Willard and Peggy Thomas and we are in favor of the request for the zoning change. It is our belief that the inhabitants of the home will build an appropriate structure for our neighborhood, as their home is one of the nicest ones in the neighborhood and so very well-kept thank you very much.

☐ I am opposed to the request for the reasons listed below.

While I recognize the fact that no one wants their neighborhood to become a warehouse district, I think Mr. Wright's request should be approved. If anyone will keep it looking nice, he will. He and his wife and son are always out doing yard work & landscaping. Best yard in the neighborhood! I'm sure it will be done tastefully to fit in and maintained to look great.

Planning and zoning:

The situs address is 2340 Saddlebrook Ln. Rockwall, Texas 75087. We hope to build a storage building on our property. The property is 1 acre and currently has our home, pool, cabana, accessory building and all fence is wrought iron and a 8 foot wood fence on the east side that belongs to my neighbor.

What we plan to do is move our current accessory building to the north end of the property and add a storage building just of south of that structure. The proposed storage building will have a slab 30x40. The structure will include 24x40 of storage and a 6x40 porch on the west side. All windows and walk-in doors will be on the porch side and it will include overhead roll up door on the north and south end of the building. Maximun height will be 13 foot 8 inches. Colors will be Sandstone, Brown and wainscot trim on the bottom. No plumbing will be added and electricity will be added at a later time. A 90 foot driveway will be added to meet up with the proposed building at a later time.

We have a building quote from Eversafe Buildings for a total of $14,245.52 not including the slab. Eversafe has also included the concrete slab recommendations, which I have included in this packet. The slab cost is estimated to be approx. $9600.00, for a total project cost of approx. $23,850.00.

In our neighborhood we have other projects that also went past the maximum square footage and one having a second floor and going well above the 15-foot maximum height requirement.

Our use of this building to store several antique cars. The reason for the porch was my wife's idea.

I have included:

Site map of my property indicating proposed building site and feet between borders

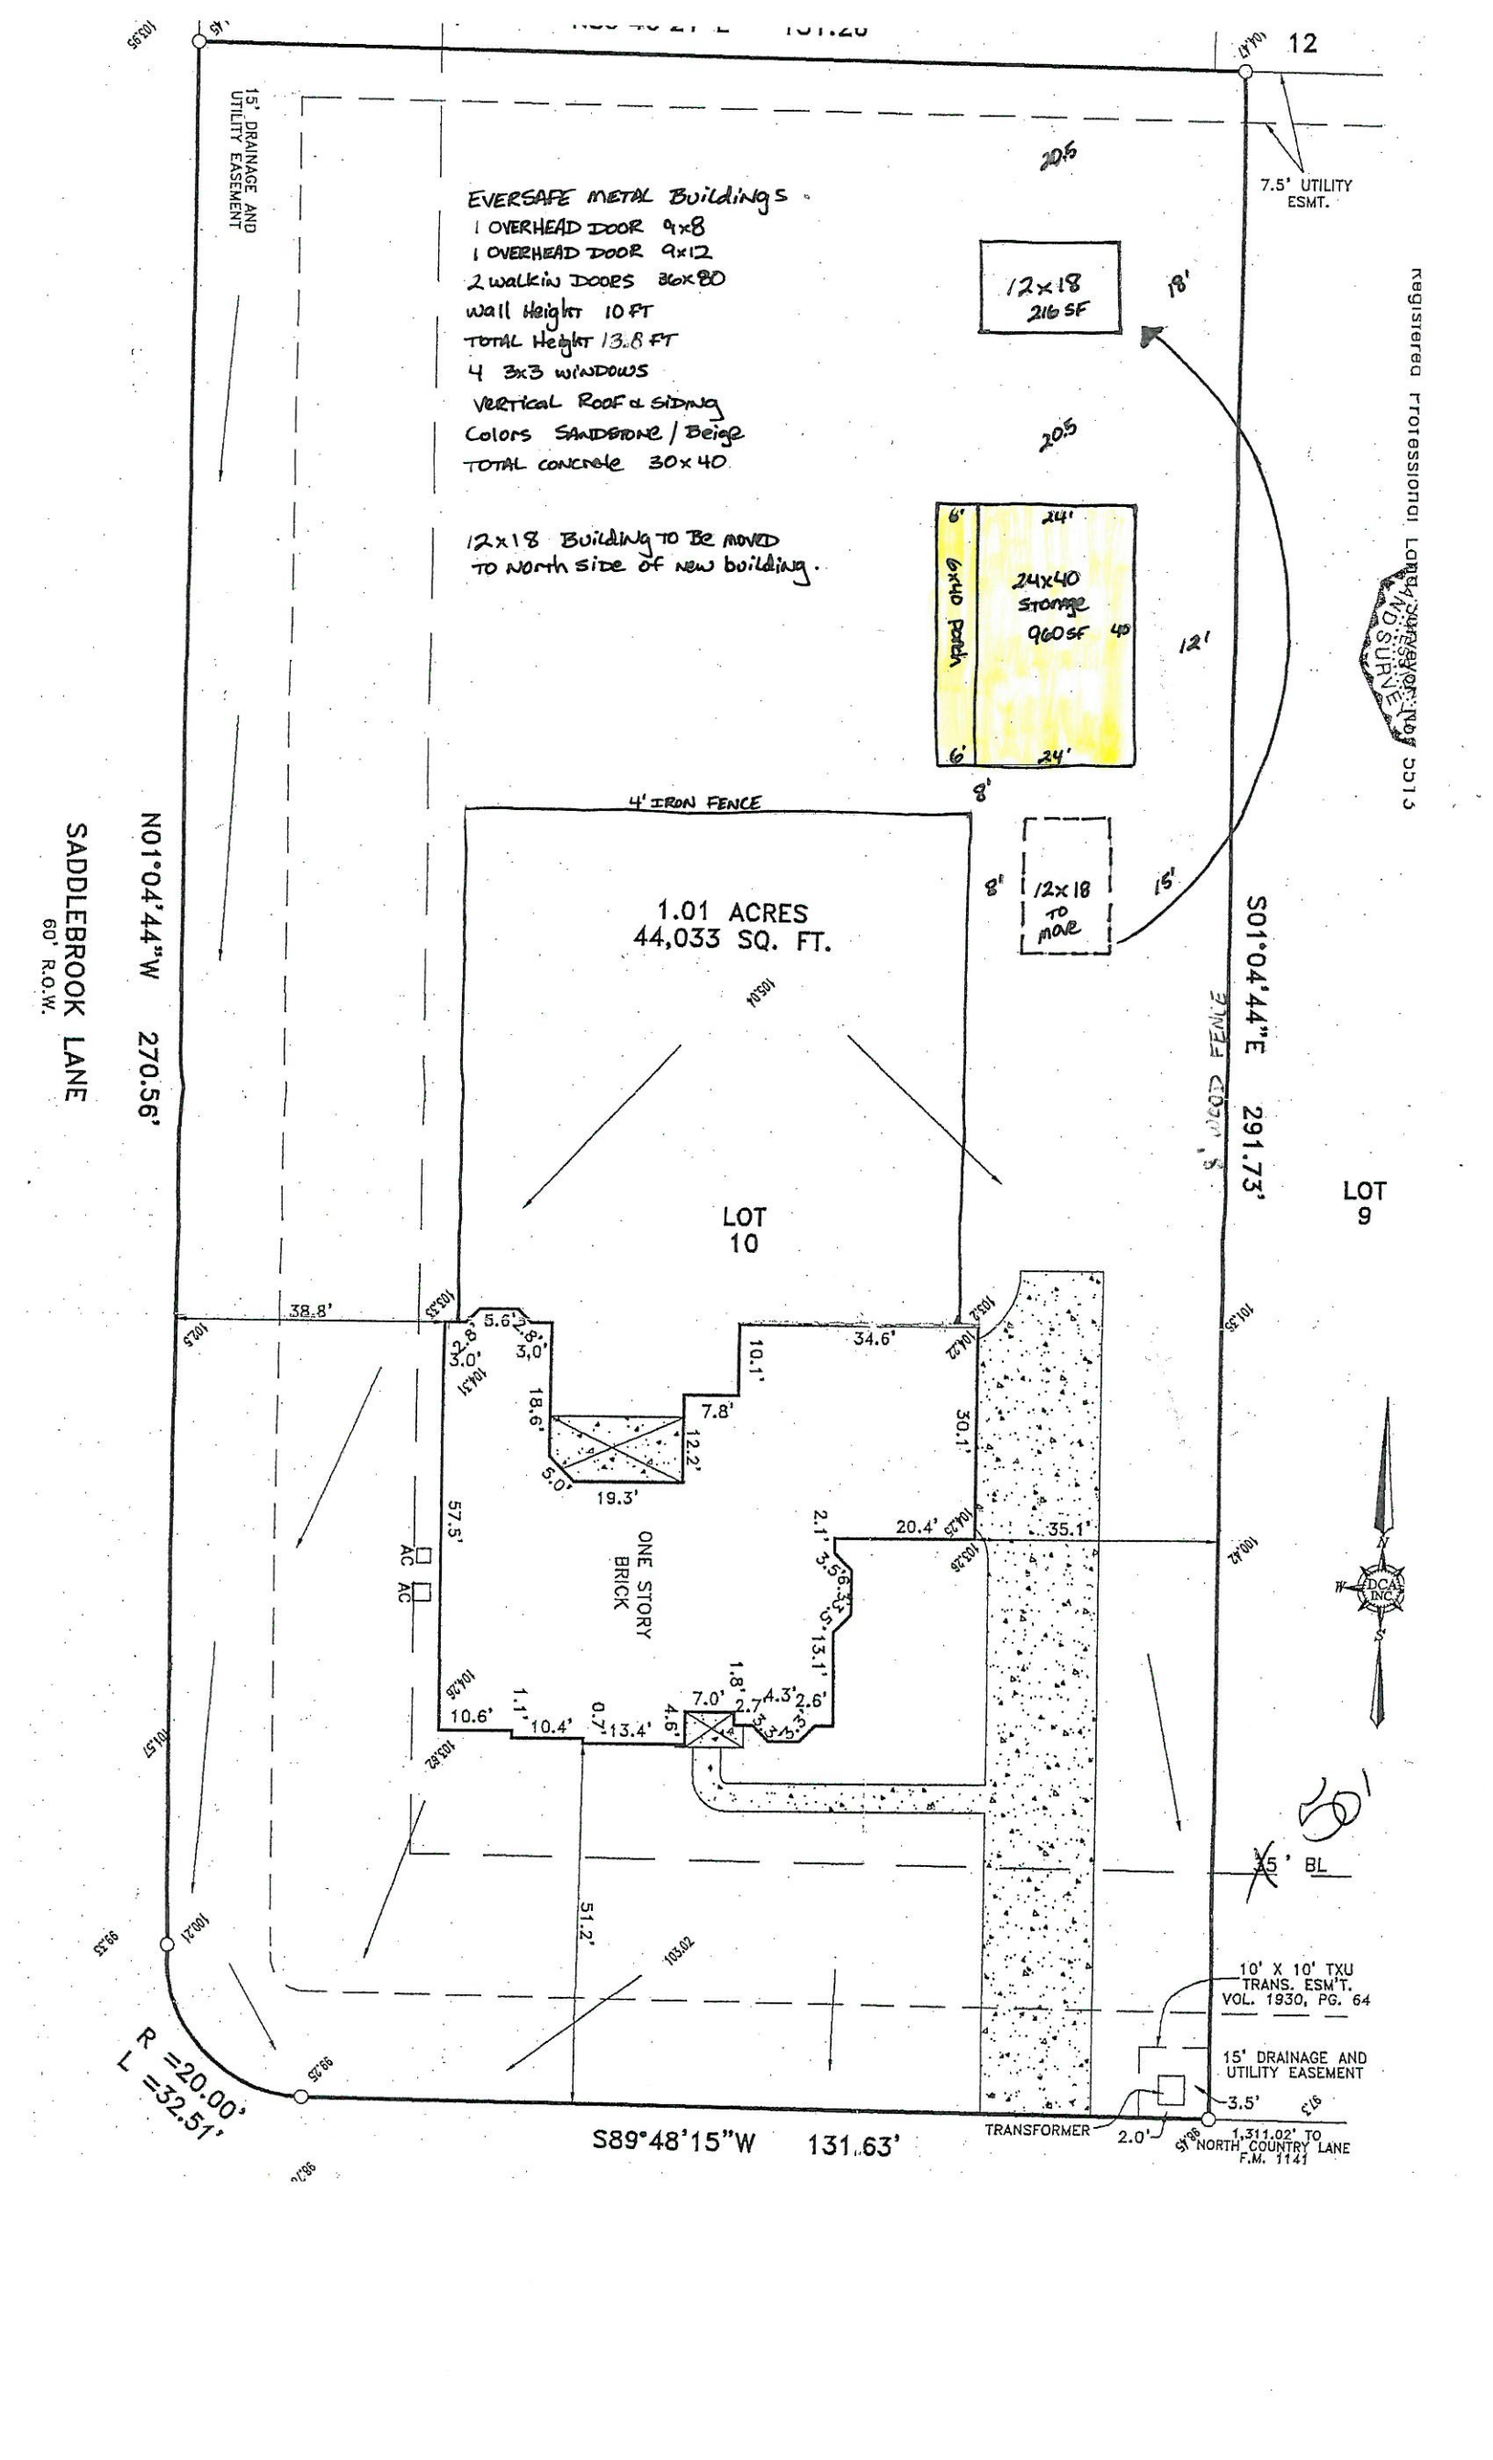
Building quote

Recommendation of concrete slab

3D models of proposed storage building

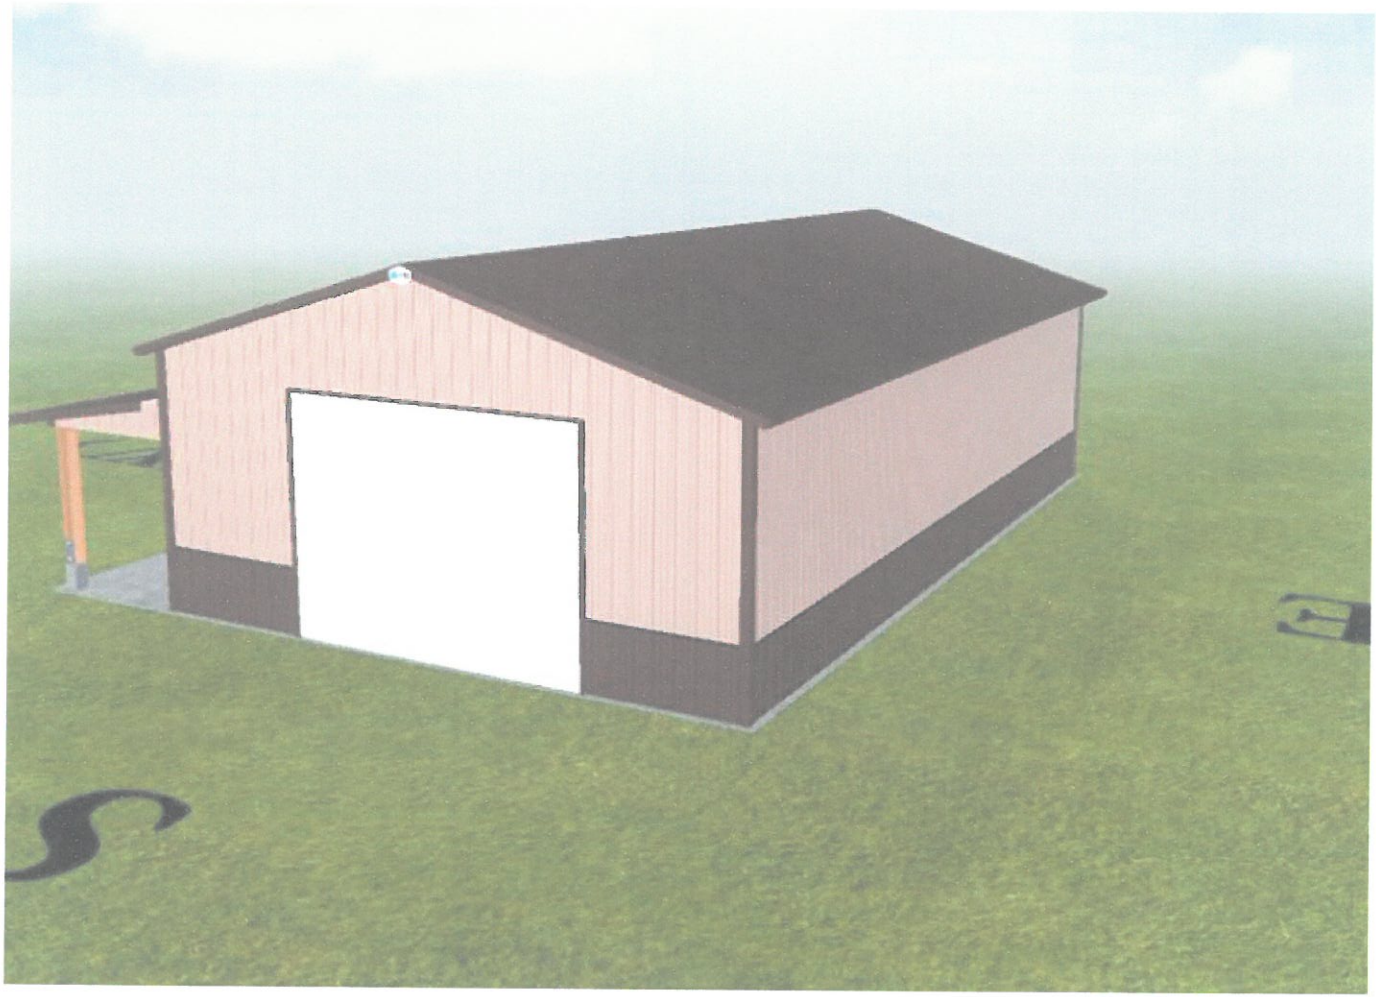
Two photos of current accessory building to be moved

Two photos of proposed site of building



If you need any other information, please call me or email anytime.

Thanks for your time,



Marty and Debra Wright

Building Colors

Eversafe Steel Buildings offers a variety of standard colors for your steel building. You can select from 13 different colors for the roof, the sides and the trim. Make your choices from the selections below:

*Colors shown represent finish colors as accurately as possible, however color may vary slightly on actual building. Due to monitor and screen variations on different devices, digital depictions of colors may vary. Not all colors are available in every state and colors may vary by state. Non-standard colors, color matching and two-tone wall color wainscoting available in certain states. Please ask your representative for details.

Concrete Specifications

From: Bob Fuerstenau (bfuerstenau@eversafebuildings.com)

To: mwright-1@att.net

Date: Friday, September 6, 2019, 10:41 AM CDT

Marty,

The concrete slab that we recommend should be/have:

- 4" thick ***(minimum)*** w/ a 12"x12" continuous footer
- same exact dimensions as your building frame (e.g. 24'x35')**
- 2,500 PSI concrete ***(minimum)***
- two #5 rebar continuous
- NO wet-set anchors (anchors will be provided at installation)

**If pulling a permit using our generic engineer-stamped drawings, foundation should be 5 5/8" wider than the building frame with a ¾" step down all around.

This e-mail is strictly for the purposes of budgeting and obtaining estimates. Please do not use the information herein as sole guidelines for pouring concrete slab.

Let me know if you have any questions or concerns.

Sincerely,

Bob Fuerstenau

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE (UDC) [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, ROCKWALL COUNTY TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW A *DETACHED GARAGE BUILDING* THAT EXCEEDS THE MAXIMUM ALLOWABLE SIZE ON A ONE (1)-ACRE PARCEL OF LAND, IDENTIFIED AS LOT 10, BLOCK B, SADDLEBROOK ESTATES #2 ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Marty Wright for the approval of a Specific Use Permit (SUP) to allow a *detached garage* that exceeds the maximum allowable size on a one (1)-acre parcel of land being described as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *detached garage* as stipulated by Subsection 7.04, *Accessory Structure Development Standards,* of Section 7, *District Development Standards*, of Article V, *District Development Standards*, the Unified Development Code (UDC) [*Ordinance No. 04-38*] on the *Subject Property*; and,

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the requirements set forth in Subsection 7.04, *Accessory Structure Development Standards*, of Section 7, *District Development Standards,* of Article V, *District Development Standards*, of the Unified

EXHIBIT 'A' ORDINANCE NO. 19-XX

Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *detached garage* on the *Subject Property* and conformance to these conditions are required for continued operations:

1) The detached garage shall generally conform to the concept plan and the conceptual building elevations depicted in *Exhibits 'B' & 'C'* of this ordinance;

2) The detached garage shall not exceed a maximum size of 1,200 SF;

3) The detached garage shall not exceed an overall height of 15-feet;

4) The subject property shall not have more than two (2) accessory buildings;

2.2 COMPLIANCE

Approval of this ordinance in accordance with Subsection 2.05, City *Council Action*, of Article XI, *Zoning Related Applications,* of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a building permit, should the homeowner fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 2.02.D(3) of Article XI, *Zoning Related Applications*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF NOVEMBER, 2019.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	10/08/2019
APPLICANT:	Adam Buczek; *Stone Creek Balance, LTD*
CASE NUMBER:	Z2019-024; *Amendment to Planned Development District 70 (PD-70)*

SUMMARY

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336.00-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*], and take any action necessary.

BACKGROUND

The subject property was annexed into the City by four (4) different ordinances: [*1*] *Ordinance No. 61-01* on February 6, 1961, [*2*] *Ordinance No. 61-02* on February 6, 1961, [*3*] *Ordinance No. 86-37* on May 19, 1986, and [*4*] *Ordinance No. 98-10* on March 16, 1998. On October 18, 2004, the City Council denied a preliminary plat [*Case No. P2004-046*] that proposed establishing 1,519 single-family lots on a 405.29-acre property situated within the City's extraterritorial jurisdiction, and that would later become the Breezy Hill Subdivision. After three (3) years of litigation over this case, Richard Skorburg of the Skorburg Company submitted two (2) development agreements covering both the subject property and the 405.29-acre property covered by the 2004 preliminary plat request. In addition, a request to rezone the subject property from an Agricultural (AG) District to a Planned Development District for General Retail (GR) District and Single Family 10 (SF-10) District land uses was submitted. This request [*i.e. Z2007-006 and the development agreements*] was approved by the City Council on April 2, 2007 by *Ordinance No. 07-13*, which established Planned Development District 70 (PD-70) in accordance with the approved development agreement. Planned Development District 70 (PD-70) would later be amended twice [*i.e. Ordinance No.'s 09-44 & 11-35*] both times to increase the amount of land zoned for General Retail (GR) District land uses at the southwestern corner of the Planned Development (PD) District (*i.e. adjacent to the Walgreens Pharmacy*).

At the time of establishment Planned Development District 70 (PD-70) permitted 918 single-family homes that had lot sizes that ranged from 50' x 120' to 100' x 200'. As of today, the Skorburg Co. has established 768 of the permitted 918 single-family lots, and has submitted a final plat (*i.e. P2019-035 -- which was withdrawn by the applicant with the intent of resubmitting the case at the conclusion of this zoning case*) proposing an additional 118 single-family lots. This means that the total development will include 886 single-family lots, or 32 lots less than the maximum permitted by Planned Development District 70 (PD-70). In addition, the original site plan included a location for a fire station (*i.e. presently Fire Station #7*), a school site (*i.e. Rockwall Elementary No. 15 -- currently under construction*), and private open space areas. In 2014, the Skorburg Co. and the City agreed to the establishment of a 11.35-acre public park at the northwest corner of Featherstone Drive and John King Boulevard.

PURPOSE

On September 13, 2019, the applicant submitted an application requesting to amend Planned Development District 70 (PD-70) [*Ordinance No.'s 09-44 & 11-35*] for the purpose of reducing the number of required hard edged retention ponds from four (4) ponds to three (3) ponds. Additionally, the applicant has submitted a letter stating an intent to provide an additional fountain feature for the existing retention pond located adjacent to York Street.

ADJACENT LAND USES AND ACCESS

The subject property is located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is FM-552, which is identified as TXDOT4D (*i.e. TXDOT, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is the corporate boundaries for the City of Rockwall.

South: Directly south of the *subject property* is E. Quail Run Road, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is Planned Development District 5 (PD-5), which is zoned for Single Family 7 (SF-7) District land uses and consists of ~539.00-acres.

East: Directly east of the *subject property* is J. W. Williams Middle School, which is situated on a 25.569-acre tract of land zoned Single-Family 16 (SF-16) District. Continuing along the eastern boundary of PD-70 are several parcels of land zoned Agricultural (AG) District, and Planned Development District 79 (PD-79) for Single-Family 10 (SF-10) District land uses. Beyond this is John King Boulevard, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan.

West: Directly west of the *subject property* is N. Goliad Street, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this are several properties that are zoned Single-Family 16 (SF-16) District, Planned Development District 37 (PD-37), Agricultural (AG) District, Single-Family Estate (SFE-1.5) District, and Planned Development District 3 (PD-3). These areas include a mix of land uses, but are primarily residential.

CHARACTERISTICS OF THE REQUEST

Planned Development District 70 (PD-70) [*Ordinance No. 09-44*] -- *in accordance with the original development agreement* -- requires the developer to provide a minimum of four (4) retention ponds with hard edges and fountain features. According to the ordinance, the location and configuration of the proposed ponds is to be determined at the time of development. Currently, the developer has constructed three (3) of the four (4) ponds required by Planned Development District 70 (PD-70): [*1*] the first pond is located at the northeast corner of the intersection of N. Goliad Street [*SH-205*] and Featherstone Drive (*i.e. at the entry to the subdivision*), [*2*] the second pond located south of and adjacent to homes along Crestbrook Drive, and [*3*] the third pond located within the public park located at the northwest corner of Featherstone Drive and John King Boulevard. The pond at the entryway to the subdivision is the only pond that incorporates both a hardedge and a fountain feature. The pond located south of and adjacent to Crestbrook Drive only incorporates a hardedge, and the pond in the public park does not incorporate either a hardedge or a fountain; however, this pond was exempted by the City to make the park eligible for matching grants through the State of Texas, which were applied to increase the amenity of the park. The applicant has requested to change the language in the Planned Development District 70 (PD-70) to reduce the number of ponds from three (3) to four (4) ponds, and has agreed to incorporate a fountain feature in the pond adjacent to Crestbrook Drive and another in a secondary pond along York Street. This means that the only thing the applicant is lacking to meet the

current requirements would be a hardedge along the pond located adjacent to York Street; however, staff should point out that this pond is located within the 100-year floodplain and is not highly visible from the street. The applicant has stated the reason for the request is tied to the lengthy and indefinite permitting process required by the Texas Commission on Environmental Quality (TCEQ), and a desire to ***not*** put an additional cost burden on the Stone Creek Homeowner's Association (HOA).

As has been done with past requests to amend Planned Development (PD) District ordinances, staff has consolidated the two (2) regulating ordinances into one (1) regulating ordinances; however, the only change made in the attached draft ordinance is to the verbiage relating to the number of retention ponds permitted within the development.

INFRASTRUCTURE

There are no infrastructure requirements associated with the proposed amendment. In addition, staff should point out that the additional retention pond is not needed to meet the stormwater detention requirements, as the retention ponds were not accounted for in the required detention for the subdivision (*i.e. the development was required to provide detention in other areas of the subdivision to meet the City's engineering requirements*).

CONFORMANCE WITH THE CITY'S CODES

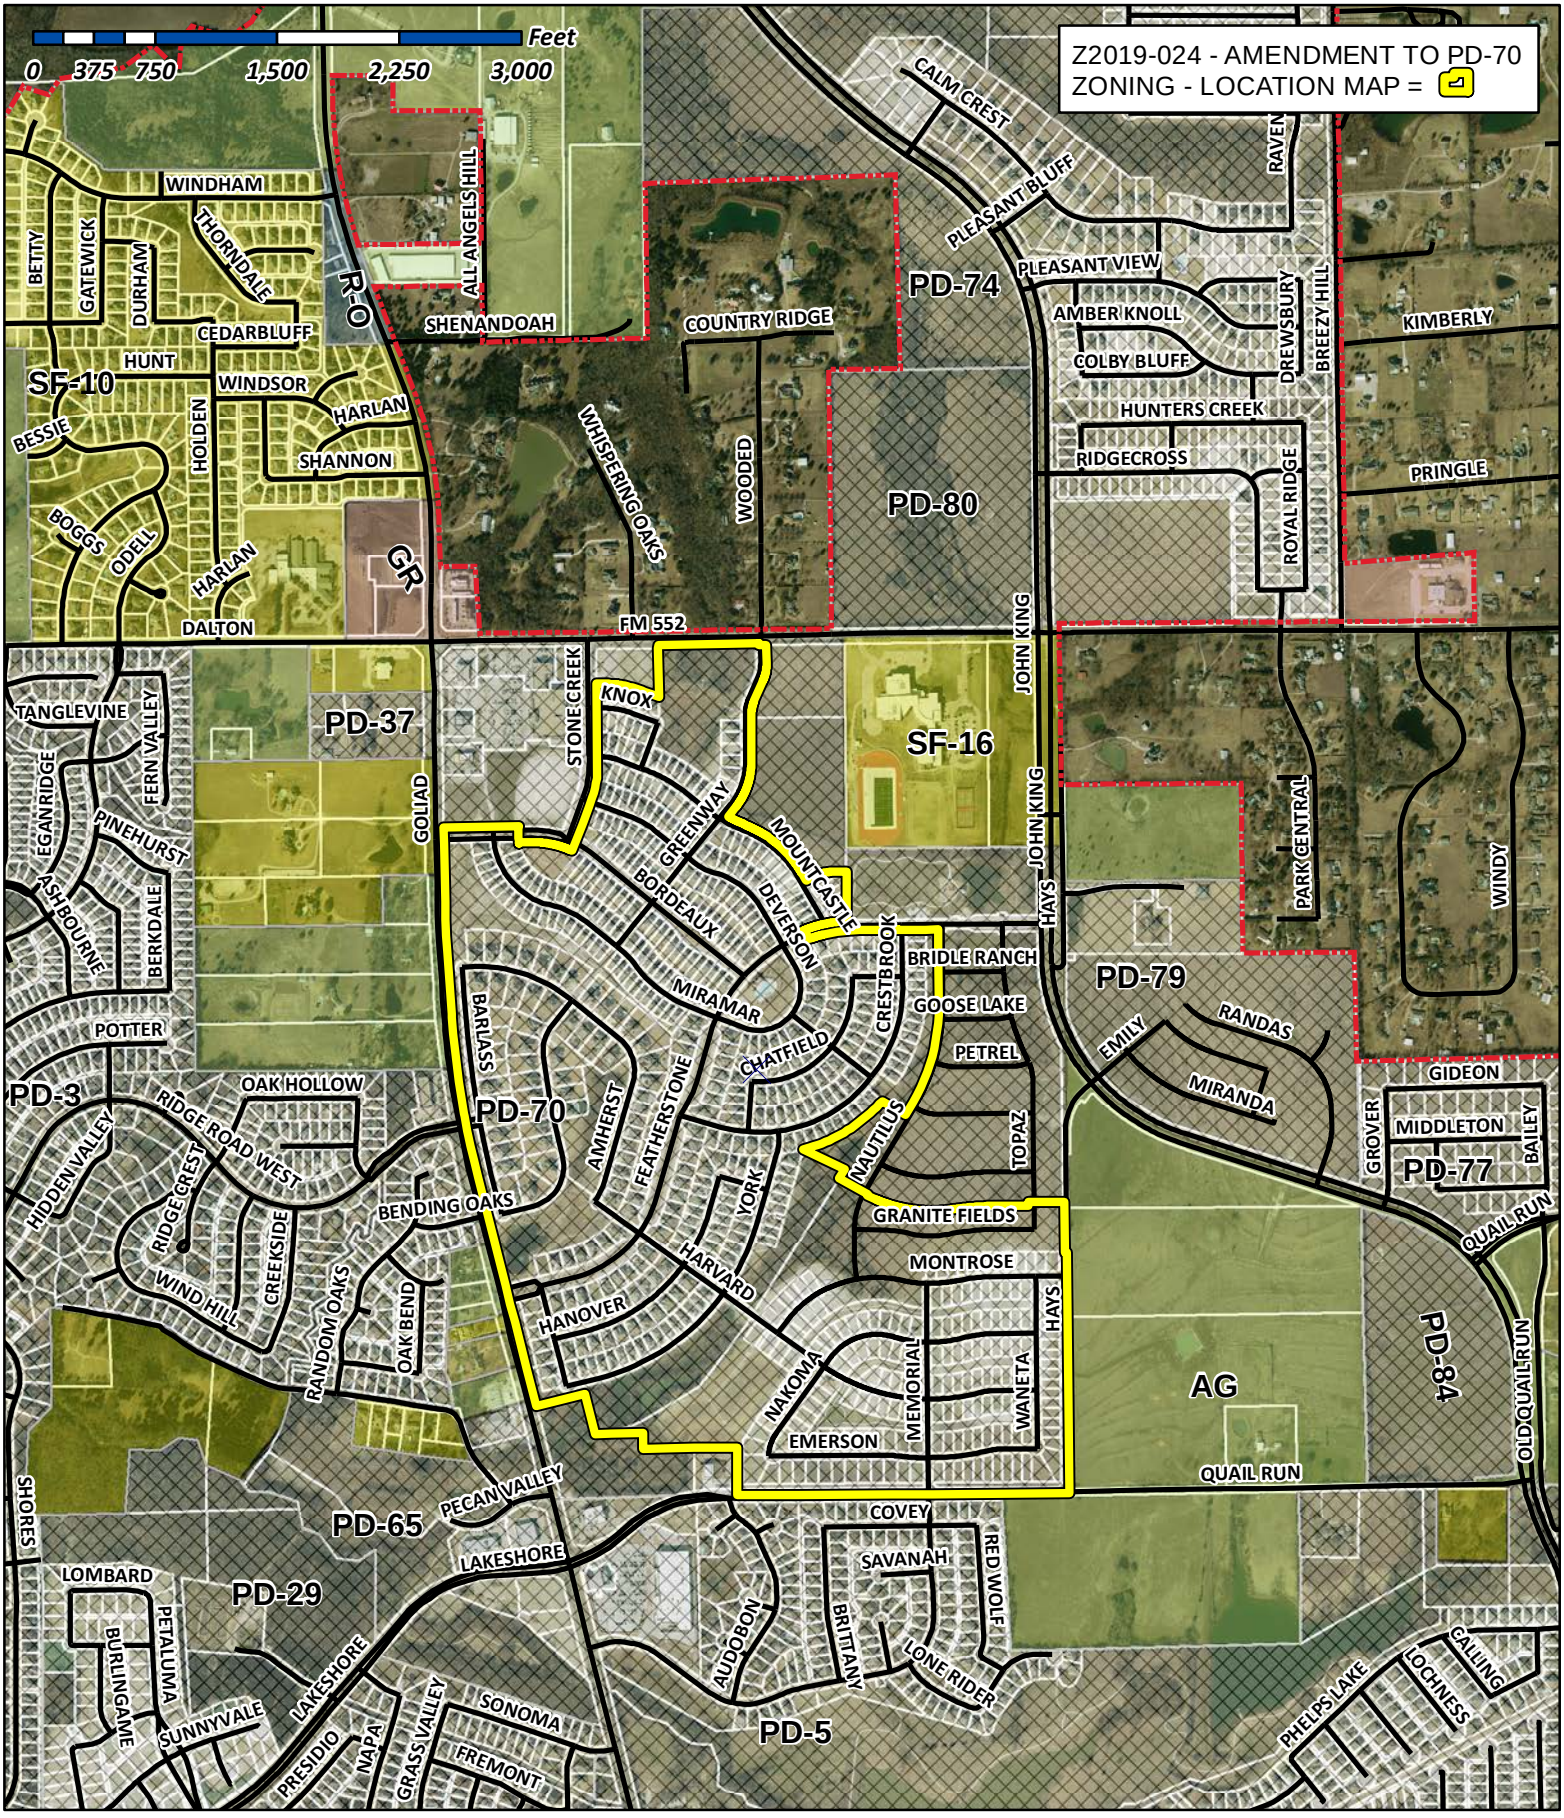
Since the request is only tied to a requirement of Planned Development District 70 (PD-70), the request remains in compliance with all of the requirements of the City's codes.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The proposed request does not change any of the land uses permitted within Planned Development District 70 (PD-70), and as a result does not have an impact on the City's Future Land Use Map. In addition, the request does not relate to any of the specific goals, policies, or strategies contained within the OURHometown Vision 2040 Comprehensive Plan.

NOTIFICATIONS

On September 20, 2019, staff mailed 928 notices to property owners and residents within 500-feet of Planned Development District 70 (PD-70). Staff also emailed notices to the Quail Run Valley, Lakeview Summit, Random Oaks, and Rockwall Shores Homeowner's Associations (HOA's), which are the only HOA's located within 1,500-feet of Planned Development District 70 (PD-70) participating in the *Neighborhood Notification Program*. Additionally, staff posted a sign adjacent to the subject property along N. Goliad Street [*SH-205*], and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff had received five (5) notices in favor of the request, and four (4) notices and one (1) email opposed to the request.



CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 70 (PD-70), then staff would propose the following conditions of approval:

(1) The applicant shall be responsible for maintaining compliance with the conditions contained within the Planned Development District ordinance;

(2) Any construction resulting from the approval of this zoning amendment shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and

with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

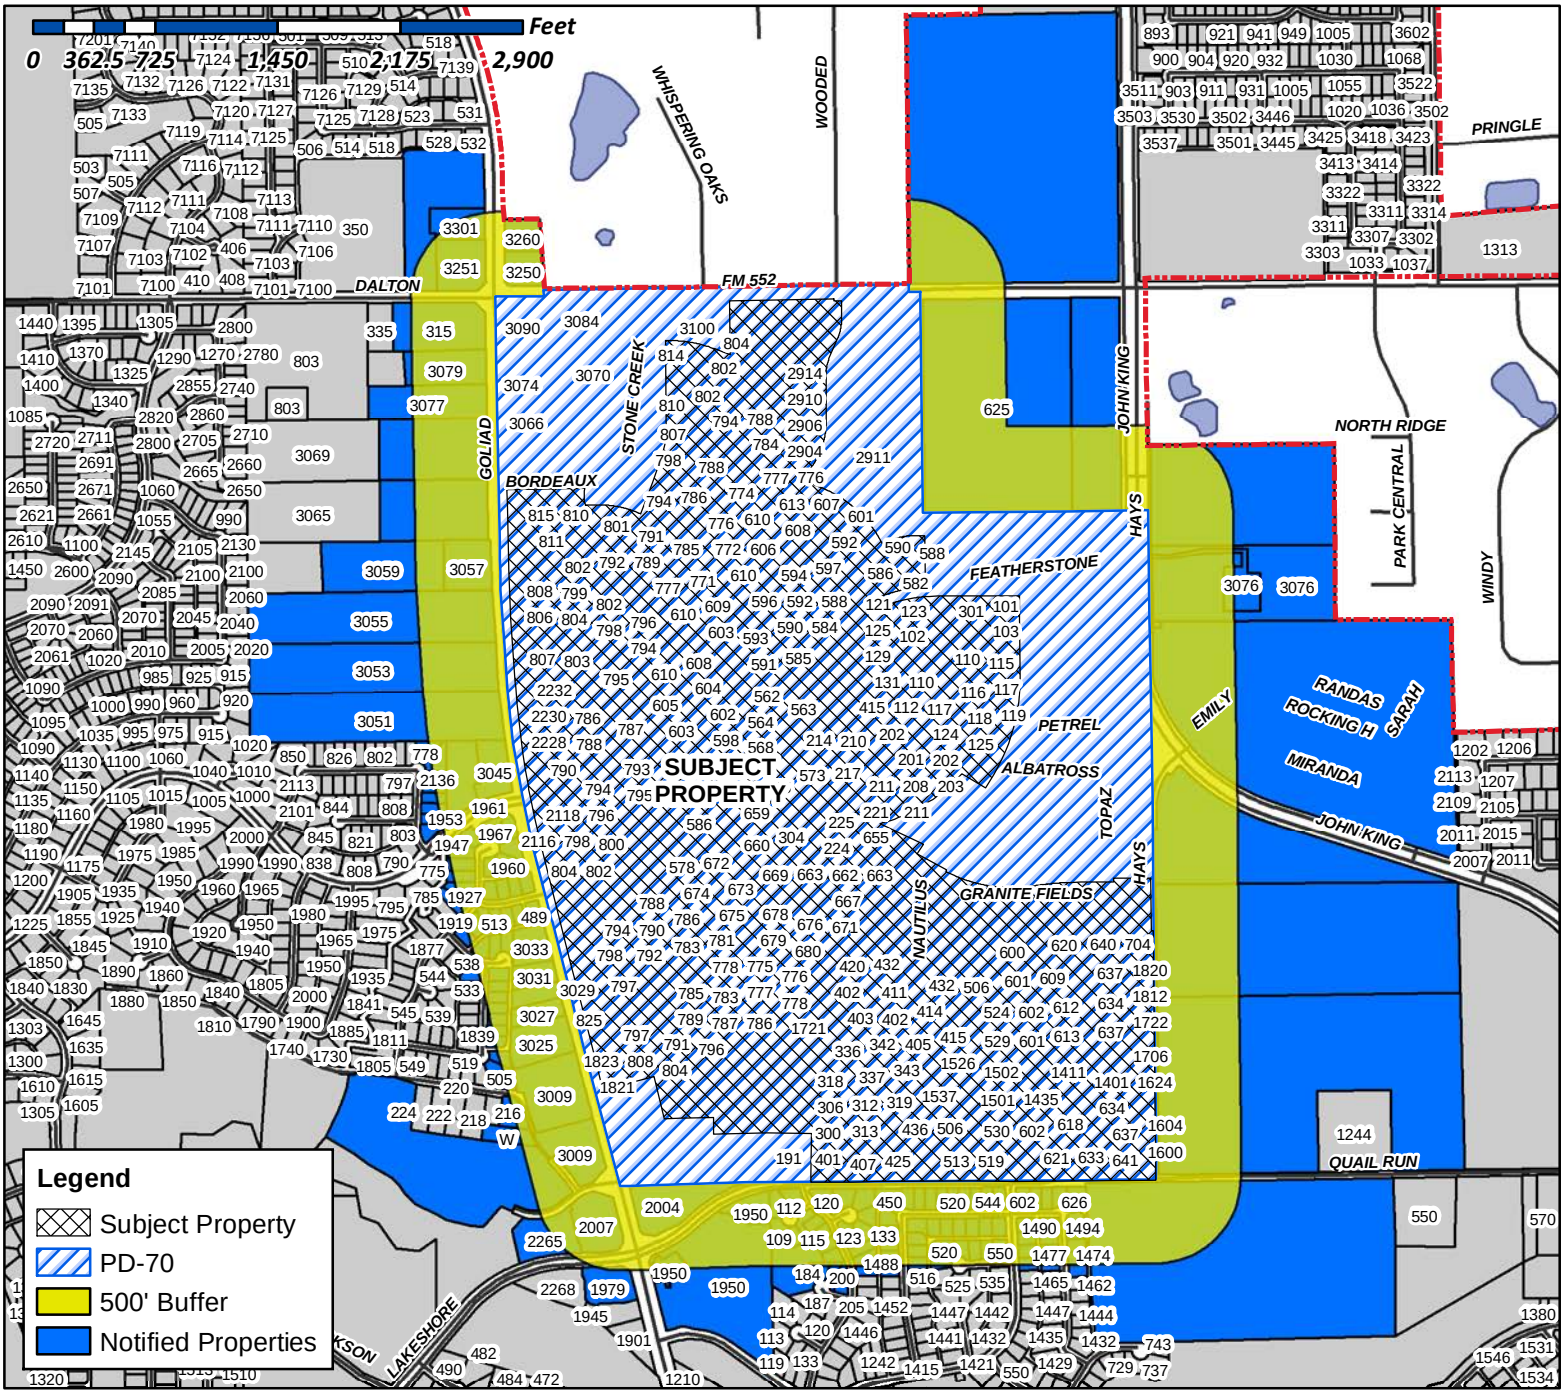
To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attach ed a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that was published in the Rockwall Herald Banner ***September 20, 2019***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 10/8/2019 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday 10/21/2019 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development/development-cases

> **Z2019-024- Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [N. Goliad Street], and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-024: PD Amendment to PD-70

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [N. Goliad Street], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Subject: Case Z2019-024 PD Amendment to PD-70

Good morning

I received a notice for this change in the mail. I will be out of town and will not be able to attend the hearing. I would like to express my opposition to the change. I feel that the developer needs to stick with the original plans for the neighborhood.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2019-024: PD Amendment to PD-70

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [N. Goliad Street], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 10/8/2019 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 10/21/2019 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **10/21/2019** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Mr. Ryan Miller
Director of Planning & Zoning
385 S. Goliad Street
Rockwall, Texas 75087

September 12, 2019

Dear Mr. Miller:

Please accept this request for a zoning change to reduce the required number of hard edge retention ponds from four (4) to three (3) as described in Exhibit "C" (Planned Development District No. 70) to PD Ordinance No. 07-13 (as amended by Ordinance No. 09-44), more specifically contained in the last paragraph of Section C ("Standards for District Design and Connectivity"), Paragraph 6(d) (under "Parks and Open Space"). No other changes to the PD are being requested.

The original Stone Creek PD was approved in 2007 that included a requirement to have four (4) hard edge ponds built throughout Stone Creek Estates. The exact location and configuration of the ponds was to be determined at the time of development.

To date, three (3) ponds have been fulfilled: two (2) hard edge retention ponds were constructed with Phase I, and the third pond is located within the 11.3 acre City park that was dedicated to the City of Rockwall in January 2014. An exhibit showing the location of these three (3) existing ponds is included on the attached **Exhibit "A"**. While the pond located in the City park does not have a hard edge, it has been counted towards the PD requirement as it was the City's decision to not install a hard edge to be eligible for a State matching grant for the park. Hence, three (3) of the four (4) hard edge ponds as required by the existing PD have been satisfied.

For additional background on this request, Phase I was constructed in 2007-08, which included two (2) hard edge retention ponds. In 2012, we received notice from the City that the City's process for obtaining a Texas Commission on Environmental Quality ("TCEQ") permit for retention ponds had changed, which lengthened the permitting time period to up to a year, and due to water rights, there would be no guarantee if the permit would be approved after that time period.

To avoid the potential need for another TCEQ permit (that may or may not be approved) and adding more long-term maintenance cost burden on the HOA, we believe it is in the best interests of Stone Creek Estates not to construct an additional hard edge pond.

As such, we respectfully request the PD be modified per the attached **Exhibit "B"** to reduce the number of hard edge ponds from four (4) to three (3).

In lieu of installing a hard edge around the City park pond and a fourth hard edge pond somewhere that could pose potential future TCEQ issues in the future, we redirected value to Stone Creek residents and the City by enlarging the park dedication area (resulting in fewer lots), and will be finishing the build out of Stone Creek Estates with 32 fewer lots than allowed under the PD (the PD allows a maximum of 918 total SF lots, but the final phase of Stone Creek will result in the build out being only 886 SF lots based on the City approved preliminary plat for the final phase).

We look forward to visiting with the Planning and Zoning Commission and City Council on this proposed amendment to our master planned community.

Sincerely,

Adam J. Buczek
Skorburg Company, Development Partner
On behalf of Stone Creek Balance, Ltd, a Texas limited partnership (Owner and Applicant)

EXHIBIT "A"

Three (3) Existing Pond Locations

The single-family zoned land of Stone Creek Estates is outlined in yellow below.

The two (2) existing hard edge retention ponds are outlined in **BLUE.**

The one (1) existing City park pond (no hard edge, but counted toward PD hard edge pond requirement) is outlined in **ORANGE**.

EXHIBIT "B"

Requested Stone Creek PD Language Modification

With respect to Exhibit "C" (Planned Development District No. 70) to PD Ordinance No. 07-13 (as amended by Ordinance No. 09-44), this zoning application requests that the last paragraph of Section C ("Standards for District Design and Connectivity"), Paragraph 6(d) (under "Parks and Open Space") be modified to read as follows:

"The Developer shall provide retention ponds in the locations depicted on the Concept Plan in Exhibit "B" of this ordinance. Hardedges and fountain features shall be incorporated into Ponds 1 & 2, Pond 3 shall incorporate a natural edge, and Pond 4 shall incorporate a fountain feature and a natural edge. All retention pond hard edges shall be similar to the hard edge shown in Figure 5 below."

Figure 5: Retention Pond with Hardedge.

In addition to the above change, the Concept Plan included on Exhibit "B" of the ordinance would be updated accordingly.

Subject: FW: Stone Creek Q&A / information on requested PD change

Follow Up Flag: Follow up
Flag Status: Flagged

Good morning, Ryan and David.

I am forwarding you this e-mail exchange with Bob Wacker (Stone Creek resident) in which he has helped compile feedback from Stone Creek residents (on the HOA NextDoor website) about the zoning change request. I have provided responses to each on in red font below, and I want you to have this on record as we're going to install a fountain in the Crestbrook pond regardless of the outcome of this case so that pond is fully compliant with the existing PD (giving us 3 fully compliant ponds including the main entry pond (which has a fountain already) and the City Park pond – which counts even though it does not but that's with City direction.

Insofar as the 4th pond…….if this PD request gets approved, based on resident input below, we (developer) will also install an additional fountain in the pond along York (which does not have a hard edge). If not, then we'll just build the 4th pond and include a fountain in a TBD location within Stone Creek Estates while we develop the last phase of Stone Creek.

This will hopefully provide clarity and additional context for how 3 of the 4 ponds under the current PD conditions will be fully satisfied "as is", and if the PD is approved as requested – then we'll also install a fountain in the York pond (even though no hard edge) to help address the "aesthetics" comments below.

Subject: Stone Creek Q&A / information on requested PD change

Good morning, Bob. Thanks for keeping me in the loop and helping me get resident feedback. I have typed responses to each comment below under "Against PD-70 Change" in **red font**. I also added some commentary / clarifying notes to your original email to make sure there's no confusion on certain facts. Feel free to share as you wish with homeowners as we want to be 100% transparent. The main things here are that we are going to install a fountain in the Crestbrook pond regardless to fulfill the PD requirement on that pond.

Also – if the PD amendment is approved, we will also install a fountain in the pond off York (which does not have a hard edge), but we'll do it anyway. If the PD amendment is not approved, then we will NOT install a fountain in the York pond – but instead, will plan to install a fountain in the 4th hard edge pond that we end up building to fulfill the existing requirements of the PD.

I will be sharing this correspondence with NMI and city staff so we are all in the loop. Questions let me know. Thanks.

Subject: Status

I've summarized the key posts (Nextdoor and emails).

AGAINST PD-70 CHANGE

The City should hold the Developer accountable for the requirements (shall provide) stated in the PD?
It's the "aesthetic purpose" that we are concerned about that has not been met.

1. Why not consider a natural edge pond, with a water feature, in a different area within the neighborhood? If the City (and Stone Creek residents) prefer to leave the PD unchanged and have us install a 4th hard edge pond, we will do so. For reasons cited in our summary letter with the zoning application, the developer does not think it's the best use of HOA funds long-term – but we are happy to proceed either way.

2. Isn't the actual reason for finishing out the PD with fewer lots due to the fact that the PD requires an
average lot size of 8,000 s.f., and the Developer has to put in larger lots in Phase X to maintain that average? No. Our average lot size is voluntarily larger than what was required in the PD. For instance, we opted for a larger lot mix, dedicated a City park that is 45% larger than required by the PD, and sold additional land to the Rockwall ISD – all of which contributed to the planned build out of Stone Creek being 32 lots less than allowed by the PD.

3. Why should this pond (the one behind Crestbrook) be acceptable to the City or our neighborhood? Other than the fact that it does not currently have a fountain in it, the

pond meets the requirements of the PD. The developer will install a fountain in the Crestbrook pond in conjunction with the development of the last phase of Stone Creek to fully satisfy the PD with respect to the pond behind Crestbrook. A fountain was not previously installed due to it being a low visibility area, and therefore, we did not think it would be the best use of HOA funds in terms of directing maintenance dollars, but unless residents object, we're going to install a fountain in this pond to complete this PD element.

4. if the Developer were to agree to go back and clean-up some of these under-developed Common
Areas, perhaps the City/Developer (and residents of Stone Creek) might then be able to come to
a reasonable compromise. First and foremost, we want our residents to be happy. Open spaces in prior phases have been dedicated to the City of Rockwall and are to be maintained by the HOA pursuant to the PD and their respective recorded plats. If there are some specific areas or items that residents would like the developer to consider assisting with, they should send such items to NMI and ask them to pass on and share / discuss with the developer. One of the functions an HOA management company serves is to provide a path of communication between residents and the developer. The developer is happy to privately and in good faith review items that residents would like to be taken into consideration. Notwithstanding the foregoing, we respectfully ask residents and the City to take into account the following items in context with this zoning request:

A. Reducing the required number of hard edge ponds from 4 to 3 would help keep homeowners dues down via lower maintenance costs. A 4th pond for the HOA to maintain is not going to add value to the community, as this is an amenity that already exists in other locations. Ponds are not cheap to maintain – particularly long-term. In our view, HOA dues could be better spent / directed towards adding other types of assets in open space areas, if residents desire down the road. In turn, we have redirected value for the residents in Items B through D below.

B. With our current approved preliminary plat for the last phase of Stone Creek, we plan to finish the build out of Stone Creek with 32 fewer lots than allowed under the PD, which is significantly lower density than allowed under the PD. As stated in #2 above, we opted for a larger lot mix, dedicated a City park that is 45% larger than required, and sold additional land to the Rockwall ISD – all of which contributed to the planned build out of Stone Creek being 32 lots less than allowed by the PD.

C. Part of our plan in lieu of not doing a 4th pond was that we donated a 45% larger City park than required by the PD (and did so in a manner which got matching grant dollars to the City from the Texas Parks & Wildlife Foundation to help expedite and enhance the park improvements). The required City Park area per the PD was 7.8 acres of contiguous land. Our City Park dedication area was 11.3 acres – an increase of 3.5 acres.

D. The long-term value that is being enjoyed by the City and residents of Stone Creek is reflected in the fact that the price points of the homes throughout the community have far exceeded expectations from original projections / requirements of the original 212 agreement with the City.

5. Why not require that all the creeks and ponds be consistent with the picture that the Developer
submitted as Appendix "C" in the original PD? The existing ponds are constructed in a manner consistent with the intent of the PD. The picture attached to the PD is conceptual, and as stated in the PD, the exact size/shape/configuration of ponds were to be determined at the time of development.

6. A reasonable solution would be for the Developer to clean all the Common Areas to be consistent
with the picture in Appendix "C" (without a hard edge) so that all Common Areas could be mowed
to the water line. Each pond has its own natural configuration, design, and maintenance needs. All common areas that have been completed to date have been timely turned over to the HOA in good condition as required. Once a common area is turned over to the HOA, the maintenance becomes the responsibility of the HOA.

7. A fountain feature needs to be added to the ponds on York Drive and maybe to the one on
Crestbrook Drive to decrease algae and inhibit mosquito growth. As stated in #3 above, the developer will add a fountain to the Crestbrook pond so this pond will be 100% in compliant with the existing PD. The pond along York Drive is not one of the existing 3 ponds that have been counted towards the PD requirements; however, if this PD request gets approved, the developer will happily install an additional fountain in the pond along York Drive as well. If the zoning change request is not approved, then the 4th pond requirement will be satisfied with the construction of a separate 4th pond and fountain located elsewhere within Stone Creek Estates.

The City-owned land across from the new elementary school needs to be cleaned out for easy
mowing. Then the Developer could proceed to finish out Phase X as he has initially presented
with no additional pond. The City controls and maintains City-owned property.

If many of the features required by the city were not done by the developer, then this would
be something he needs to complete. I feel there are many areas that are wasted and not taken advantage of due to the developer and if this is our chance to hold his feet to the fire,
this is our last chance to do so. For purposes of this zoning request, the definition of "Many features…not done by the developer" means just 1 more pond and adding 2 more fountains to said ponds. All other requirements of the PD have been fulfilled to

date. On the flip, additional value has been added for the benefit of the community as described in #4 above.

I happen to view the existing pond in Phase X from my back yard, but that does afford me the
ability to see the pond in active use by neighbors, and the wildlife that it facilitates. I would love
to see it remain and to help future neighbors avoid future foundation issues. This pond is a stock tank pond – non-jurisdictional, and will be filled in with the development of the last phase of Stone Creek.

FOR PD-70 CHANGE

My initial posting on Nextdoor

When Stone Creek was started, the City's PD (Planned Development-70) ordinance required
4 hard-edge (stone, brick, concrete, etc) ponds. Two were built … #1 and #2. The HOA has
to maintain them. The annual cost is typically $7k-$10k. Pond #3 was planned for the park,
but the city waived that requirement. Its a natural area and they wanted it to stay that way.

The developer submitted the last plot of land (Phase 10) to the city for approval. The developer
wants to finish Stone Creek ASAP and doesn't want to build the pond. The reason we don't want to build the pond is because we don't see it adding any value as an additional amenity to the HOA, and since we've redirected value via other avenues as stated above. Adding another pond will only add ongoing maintenance cost to the HOA, and while the location of a 4th pond is not yet determined – if we build it along the floodplain – it could require us to obtain another TCEQ permit, which we don't want to deal with. The only remaining location
would be the 'pond' across from the park. Not true. We have a few options for the 4th pond location, so regardless – this stock tank pond is going to be filled in and go away with the development of the last phase of Stone Creek (Phase X). It is not a natural pond, nor a necessary retention or
detention pond. It is a very old shallow stock pond. Correct. It's maintenance would be very expensive.
The park already has a large enough pond immediately across Featherstone Drive for adequate
recreation. Agreed – no need for pond overkill. The HOA can accumulate $7K-$10K per year in funds and save up to add much more complimentary and other value-added amenities if it so chooses down the road rather than continually sink money into another pond.

If the PD change request is denied and a hard-edge pond must be built, it would take several

months of planning and approvals. Not true. This would only be true in the event we opted to pick a location that would require a TCEQ permit to construct the last pond. If the PD modification request is denied, we would then look for options to construct a 4th pond somewhere that would not require a TCEQ permit. And then be an extra annual maintenance cost to the HOA.

If the PD change is approved, then Phase 10 can be started quickly. Phase 10 can and is planned to start this fall regardless of the outcome of this zoning request, and the 4th pond can be built (if the PD change is not approved) anywhere within Stone Creek Estates. That will allow the homeowners
to continue to take control of their HOA Board of Directors. We already have one on the Board,
and the sale of the Phase 10 lots would let us replace the other two BOD members (i.e., the
developer's officers) right away. Bob – the Developer will remain in control of the HOA until the last lot is sold to builders (so the homeowners will not take control of the HOA until that time – which will likely take a few more years).

I support the change and recommend that those who also agree, should read the notice we
just received, check the appropriate box, sign it, and then mail it back to the City.

Another reply of mine….

1. The existing ponds have been resolved with TCEQ and the City.
2. The differences in green spaces were approved at each Phase
   by the City. We should have raised any concerns then.
   WE SHOULD BE DOING THAT FOR PHASE 10 NOW.
3. The HOA is responsible for the existing ponds.
   We decide and pay for maintenance and whatever
   improvements we want to make.

And another of mine …

The push to force Skorburg into building a 4th pond is also to try to get leverage on him for
alternative actions ... clean up the main pond, help fix the Amenity Center, etc. If he does
build a 4th pond, his costs will be passed on to the new lot owners, but the HOA will have the
cost of maintaining another pond. It likely would delay (TCEQ plans, approvals, construction)
the homeowners takeover of the HOA BOD. The outcome of this zoning request will have no impact on the timing at which the homeowners take over the HOA BOD, as the timing of the last phase of Stone Creek will not be delayed over this item.

Approving the PD-70 amendment expedites build-out of Stone Creek Estates and our take-over..
That's why I'm in favor of it.

Bob Wacker

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 70 (PD-70) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 09-44, BEING A 395.075-ACRE TRACT OF LAND SITUATED IN THE W. T. DEWEESE SURVEY, ABSTRACT NO. 71 AND THE S. KING SURVEY, ABSTRACT NO. 131, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the Stone Creek Subdivision being a 395.075-acre tract of land situated in the W. T. DeWeese Survey, Abstract No. 71 and the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District and Single Family 10 (SF-10) District land uses, located at the southwest corner of FM-552 and N. Goliad Street (*SH-205*), and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 70 [*Ordinance No.'s 07-13, 09-44 & 11-35*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 07-13, 09-44 & 11-35*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, contained in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a

DRAFT ORDINANCE 10.08.19

condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, contained in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. A PD Development Plan must be approved for the areas designated as *Retail* on the *Concept Plan* contained in *Exhibit 'B'*; however, the *PD Development Plan* application may be processed by the City of Rockwall concurrently with a preliminary plat application and *PD Site Plan* application.

Section 6. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* (*$2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF NOVEMBER, 2019.

DRAFT ORDINANCE 10.08.2019

Exhibit 'A':
Legal Description

LEGAL DESCRIPTION

Being a 395.075-Acre tract of land situated in the W. T. DeWeese Survey, Abstract No. 71 and the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas and being all of a called 385.075-acre tract of land conveyed to W. W. Caruth Jr. by Deed recorded in *Volume 54, Page 22* Deed Records, Rockwall County, Texas (DRRCT) and also being all of a called 2.25-acre tract of land conveyed to Soden H. Harris and wife Adrine V. Harris by deed recorded in *Volume 50, Page 375* (DRRCT) being more particularly described by metes and bounds as follows:

BEGINNING at a ½-inch iron pipe found for a northeast corner of aforesaid 392.938-acre tract and being the northwest corner of Rockwall Middle School No. 4 Addition to the County of Rockwall by plat recorded in *Cabinet F, Page 67*, Plat Records, Rockwall County, Texas and being on the south right-of-way line of FM-552 (a variable width right-of-way).

THENCE South 00 Degrees 35 Minutes 35 Seconds East along a east line of aforesaid 392.938-acre tract and the common west line of aforesaid Rockwall Middle School No. 4 Addition a distance of 1,270.02-feet to a ½-inch capped iron rod found for the inside corner of said 382-938-acre tract and the southwest corner of said Rockwall Middle School No. 4 Addition.

THENCE North 69 Degrees 25 Minutes 13 Seconds East along a north line of aforesaid 392.938-acre tract and the common south line of aforesaid Rockwall Middle School No. 4 Addition a distance of 1,331.00-feet to a PK Nail set for a northeast corner of said 392.938-acre tract in the approximate centerline of Hayes Road (a variable width prescriptive right-of-way) and being on the west line of a called 15.00-acre tract of land conveyed to Steve L. Branch and wife Judy C. Branch by deed recorded in *Volume 234, Page 527 D*eed Records, Rockwall County, Texas a ½-inch capped iron rod found bears North 87 Degrees 58 Minutes 03 Seconds a distance of 22.82-feet.

THENCE South 00 Degrees 35 Minutes 35 Seconds East along the east line of aforesaid 392.938-acre tract and the approximate centerline of aforesaid Hayes Road and the west line of aforesaid 15.00-acre tract and the west line of a called 11.126-acre tract of land conveyed to Leon A. Smith by deed recorded in *Volume 160, Page 1,* Deed Records, Rockwall County, Texas and the west line of a called 32.00-acre and 35.5-acre tracts of land conveyed to Roy Lee Hance by deed recorded in *Volume 68, Page 73*, Deed Records, Rockwall County, Texas, a distance of 3,980.56-feet to a PK Nail set for the southeast corner of said 392.938-acre tract and being on the north line of a called 38.639-acre tract of land conveyed to Roy L. Hance and wife, Randa B. Hance by deed recorded in *Volume 91, Page 107* Deed Records, Rockwall County, Texas.

THENCE along the south line of aforesaid 392.938-acre tract and the common north line of aforesaid 30.033-acre tract and the north line of Quail Run Valley No. 2 an addition to the City of Rockwall by plat recorded in *Cabinet E, Page 185*, Plat Records, Rockwall County, Texas and the north line of Quail Run Valley, No. 1 an addition to the City of Rockwall by Plat Recorded in *Cabinet E, Page 57,* Plat Records, Rockwall County, Texas the following courses and distances:

South 89 Degrees 34 Minutes 36 Seconds West a distance of 2,364.65-Feet to a 5/8-inch iron rod with a yellow plastic cap stamped *Carter Burgress* set for corner.

South 88 Degrees 24 Minutes 39 Seconds West a distance of 650.72-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgress* set for a southwest corner of aforesaid 392.938-acre tract.

THENCE North 54 Degrees 44 Minutes 21 Seconds West a distance of 165.14-feet to a ½-inch iron pipe found for corner on the east right-of-way of State Highway 205 (a 100-foot right-of-way).

THENCE along the west line of aforesaid 392.938-acre tract and the common east right-of-way of aforesaid State Highway 205 the following courses and distances:

North 14 Degrees 18 Minutes 45 Seconds West a distance of 1,942.08-feet to a 5/8 inch iron rod with a

DRAFT ORDINANCE 10.08.19

yellow plastic cap stamped *Carter Burgess* set for corner and the beginning of a tangent curve to the right having a central angle of 10 Degrees 15 Minutes 35 Seconds a radius of 5,380.00-feet. A chord bearing of North 69 Degrees 11 Minutes 27 Seconds West and a chord length of 1,015.74-feet.

Along said tangent curve to the right an arc length of 1,017.09-feet to a concrete right-of-way monument found for corner.

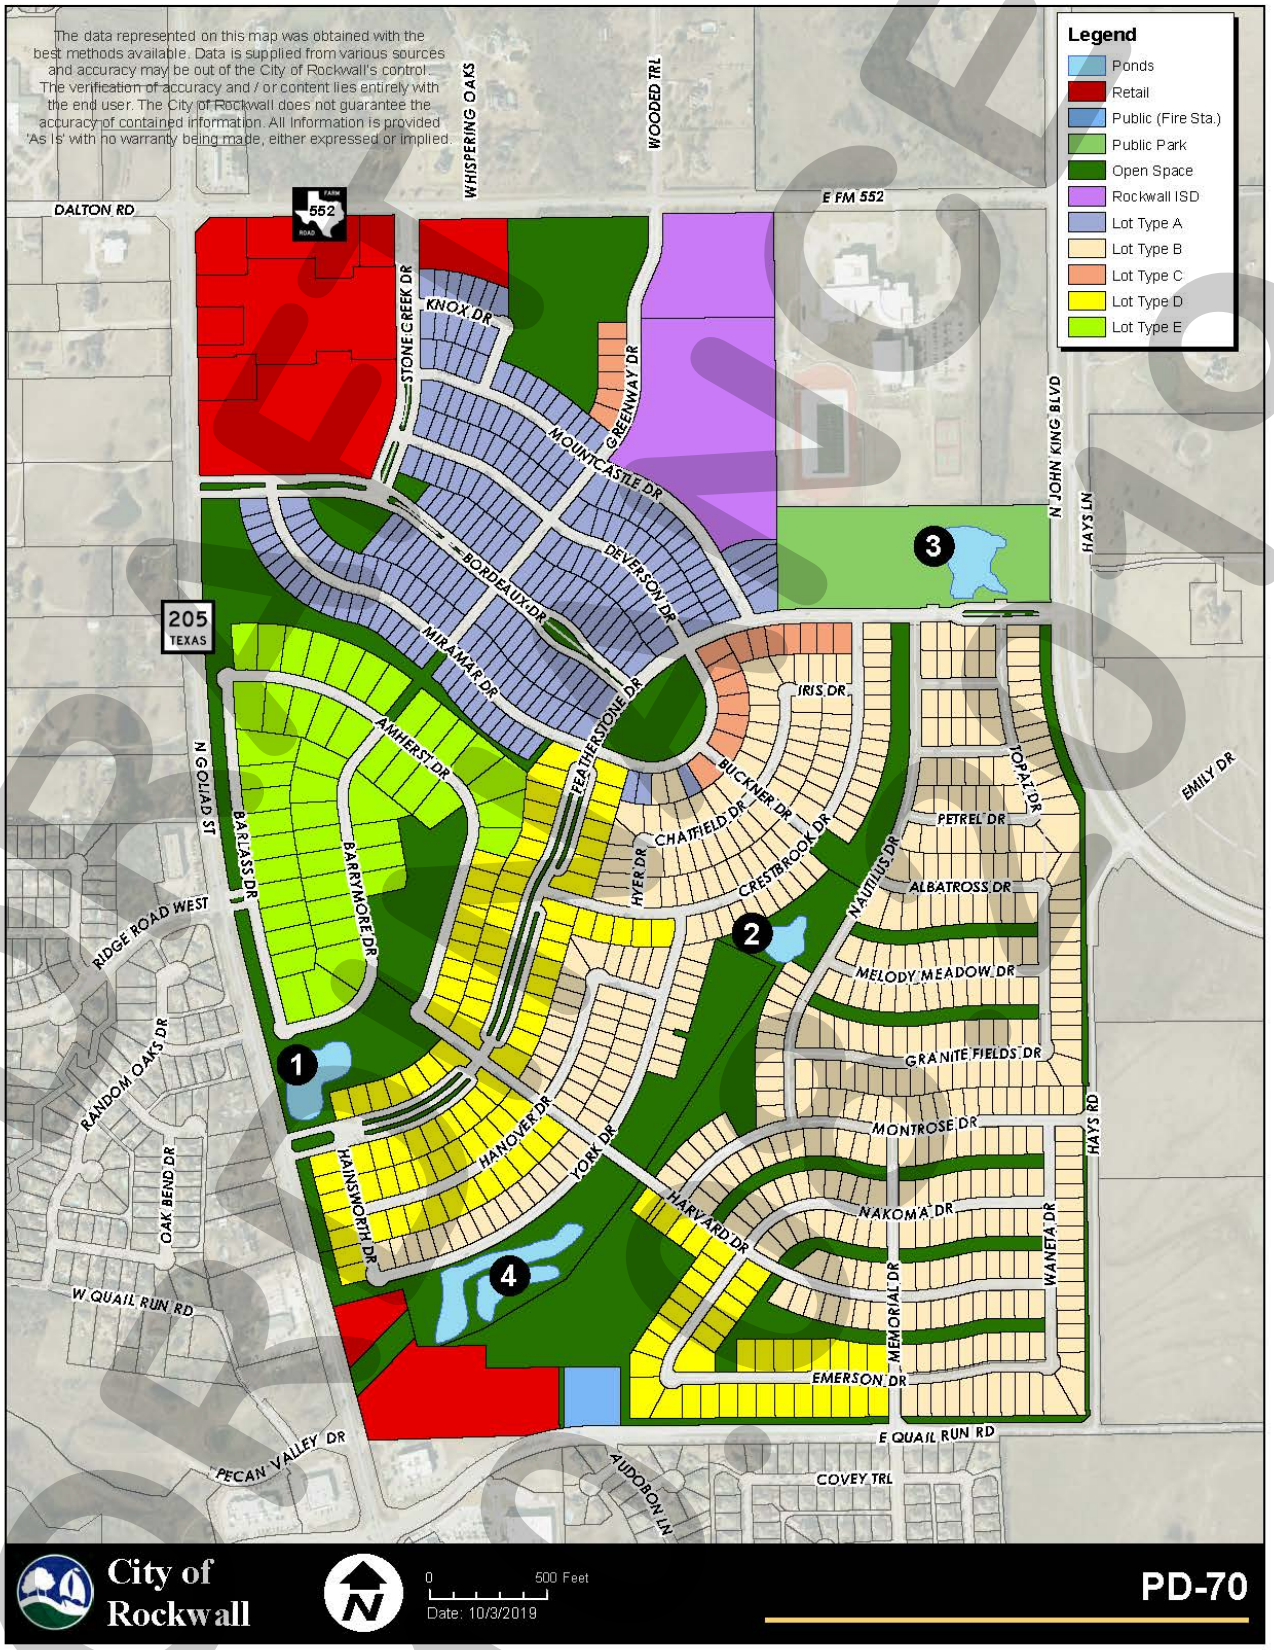
North 04 Degrees 03 Minutes 51 Seconds West a distance of 379.29-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner, a concrete right-of-way monument found bears South 00 Degrees 29 Minutes 25 Seconds West a distance of 4.10-feet and being the beginning of a tangent curve to the right having a central angle of 03 Degrees 07 Minutes 00 Seconds a radius of 5,580.00-feet a cord bearing of North 02 Degrees 30 Minutes 27 Seconds West and a chord length of 305.93-feet.

Along said tangent curve to the right an arc length of 305.97-feet, to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner a concrete right-of-way monument found bears South 02 Degrees 45 Minutes 01 Seconds East a distance of 3.95-feet.

North 00 Degrees 56 Minutes 57 Seconds West a Distance of 1,499.13-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner a concrete right-of-way monument found bears South 10 Degrees 54 Minutes 38 Seconds East, a distance of 5.48-feet.

North 44 Degrees 58 Minutes 31 Seconds East a distance of 85.41-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner at the intersection of the east right-of-way of aforesaid State Highway 205 and the south right-of-way of aforesaid FM-552 a concrete right-of-way monument found bears South 83 Degrees 49 Minutes 06 Seconds West a distance of 16.86-feet.

THENCE along the north line of aforesaid 392.938-acre tract and the common south right-of-way of aforesaid FM-552 the following courses and distances:



North 89 Degrees 09 Minutes 25 Seconds East a distance of 1,890.00-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner.

South 00 Degrees 50 Minutes 35 Seconds East, a distance of 10.00-feet to a 5/8 inch iron rod with a yellow plastic cap stamped *Carter Burgess* set for corner.

North 89 Degrees 09 Minutes 25 Seconds East a distance of 521.43-feet to the *Point of Beginning* and containing 395.075-acres of land, more or less.

DRAFT ORDINANCE 10.08.2019

Exhibit 'B':
Concept Plan

DRAFT 10/3/19

Exhibit 'C':
PD Development Standards

A. GENERAL REQUIREMENTS

1. *Uses Allowed.* The following uses are permitted for the *Subject Property*.

    a. *Residential Uses*. Uses permitted of right or by Specific Use Permit (SUP) for the Single Family 10 (SF-10) District, as set forth in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance 04-38*], shall be allowed for areas designated for single-family (*i.e. labeled as 50's, 60's, 70's, 80's & 100's*) on the *Concept Plan*, subject to approval of a Specific Use Permit (SUP) if required by the Single Family 10 (SF-10) District regulations.

    b. *Non-residential uses*. Non-residential uses shall be allowed only within the area designated as retail on the approved *Concept Plan* for the district, and are limited to those uses permitted of right or by special use permit for the General Retail (GR) District subject to approval of a *PD Development Plan* and *PD Site Plan* in accordance with the Planned Development District regulations contained in Section 2 of Article X, *Planned Development Regulations*. of the Unified Development Code [*Ordinance No. 04-38*], and subject to approval of a Specific Use Permit (SUP) if required by the General Retail (GR) District regulations; provided, however, that the following uses are expressly prohibited:

    - ☑ Animal Hospital/Clinic
    - ☑ Animal Boarding/Kennel without Outside Pens
    - ☑ Convent or Monastery
    - ☑ Hotel or Motel
    - ☑ Hotel, Residence
    - ☑ Cemetery/Mausoleum
    - ☑ Mortuary of Funeral Chapel
    - ☑ Social Service Provider
    - ☑ Billiard Parlor or Pool Hall
    - ☑ Carnival, Circus, or Amusement Ride
    - ☑ Commercial Amusement/Recreation (*Outside*)
    - ☑ Gun Club, Skeet or Target Range (*Indoor*)
    - ☑ Astrologer, Hypnotist, or Psychic Art and Science
    - ☑ Garden Supply/Plant Nursery
    - ☑ Night Club, Discotheque, or Dance Hall
    - ☑ Secondhand Dealer
    - ☑ Auto Repair Garage (*Minor*)
    - ☑ Car Wash, Self Service*
    - ☑ Service Station*
    - ☑ Mining and Extraction (*Sand, Gravel, Oil & Other*)
    - ☑ Helipad
    - ☑ Railroad Yard or Shop
    - ☑ Transit Passenger Facility

    ** Not including a convenience store with an accessory car wash use or more than two (2) gas pumps, which accessory uses are permitted by SUP.*

    The following additional use shall be permitted of right in the PD District:

    - ☑ Grocery Store with a maximum building area of eighty thousand (80,000) square feet.

    c. *Design of Non-Residential Uses.* The retail areas shall be designed to be pedestrian-oriented and easily accessible to adjacent residential neighborhoods. Additionally, the retail area shall be designed and constructed to be integrated with adjacent uses, not separated from them by screening walls or other physical barriers. This will be

DRAFT
ORD 08.20.19

accomplished by creating paths from adjacent development into the retail area and through the use of landscaping buffers, building design and other urban design elements to create compatibility with the surrounding residential neighborhood.

d. *Density and Lot Composition*. No more than 918 single-family residential dwelling units may be constructed within the *Subject Property*. Except as provided in subsection (e), single-family residential units shall be allocated by product type in accordance with the following table:

Table 1: Lot Composition

Lot Type	Lot Size Minimum	Lot SF Minimum	Driveway Access	Total Units	Total Dwelling Units (%)
A	50' x 120'	6,000	Front	180	19.6%
B	60' x 120'	7,200	Front	521	56.8%
C	70' x 120'	8,400	Front	36	03.9%
D	80' x 125'	10,000	Front	134	14.6%
E	100' x 200'	20,000	Front	47	05.1%
AVERAGE LOT SIZE:		8,000 SF			
			MAXIMUM ALLOWED TOTAL UNITS:	918	100%

e. *Variation in lot composition.* The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwelling units does not exceed 918 units, the average lot size for the development is not less than 8,000 square feet, and the following rules are met:

(1) Lot types 'A', 'B', & 'C' may increase not more than 5% in aggregate number.

(2) Lot type 'D' shall not be decreased below 124 lots of the total lots developed on the *Subject Property*.

(3) Lot type 'E' shall not be decreased below 47 lots of the total lots developed on the *Subject Property*.

2. Development Standards Applicable.

(1) *Residential uses*. Except as may be modified by these *PD Development Standards*, areas designated for single-family (*i.e. labeled as 50's, 60's, 70's, 80's & 100's*) shall be subject to the development standards for the Single Family 10 (SF-10) District, as set forth in Subsection 3.07 of Article V, *District Development Standards*, of the Unified Development Code (UDC), to the development standards stipulated for the North SH-205 Overlay (N SH-205 OV) and the SH-205 Bypass Overlay (205 BY-OV) Districts, and to all supplemental standards contained in the Unified Development Code in effect on the effective date of this ordinance.

(2) *Non-residential uses.* Except as may be modified by these *PD Development Standards*, areas designed for *Retail* land uses shall be subject to the development standards for the General Retail (GR) District, as set forth in Subsection 4.04 of Article V, *District Development Standards*, of the Unified Development Code (UDC), to the development standards stipulated for the North SH-205 Overlay (N SH-205

DRAFT ORDINANCE 10.08.2019

OV) and the SH-205 Bypass Overlay (205 BY-OV) Districts, and to all supplemental standards contained in the Unified Development Code in effect on the effective date of this ordinance.

3. *Homeowner's Association (HOA).* A *Homeowner's Association* (*HOA*) shall be formed and duly incorporated in the State of Texas for the *Subject Property*. Membership shall be mandatory for the owner of each residential lot within these areas of the *Subject Property*. This HOA shall be established to ensure the proper maintenance of all common areas for which the HOA is either the owner or is the party designated as responsible for maintenance. The bylaws of this HOA shall establish a system of payment of dues, a system of enforcement of its rules and regulations; and an explanation of the responsibility of each member with regard to the common areas. The bylaws shall be submitted to the Director of Planning for review and approval, not to be unreasonably withheld, for conformity with this paragraph prior to the initial transfer to the HOA of ownership of any real property.

4. *Architectural Review.* All developments within the PD District shall be reviewed by an Architectural Review Committee (ARC) for the *Subject Property*, which will be composed of *Developer* representatives, throughout the completion of development. The ARC shall remain in effect until all new construction has concluded. City of Rockwall building permits shall not be issued prior to ARC approval. Certification of ARC approval shall be submitted with each building permit application, which shall comply with all anti-monotony standards as described in *Section B.4.*, *Anti-Monotony Features* of this document.

B. SPECIAL DEVELOPMENT STANDARDS

1. Dimensional Standards for Residential Uses.

Table 2: Lot Type Matrix

Lot Types	A	B	C	D	E
Maximum Building Height	36'	36'	36'	36'	36'
Minimum Air Conditioned Square Footage	1,800	2,200	2,400	2,600 [2]	3,000
Minimum Front Yard Building Setback	15'	20'	20'	20'	25'
Minimum Rear Yard Building Setback	10'	10'	15'	15'	15'
Minimum Side Yard (*Interior*)	5'	5'	5'	6'	7'
Minimum Side Yard Adjacent to a Street	15'	15'	15'	15'	15'
Minimum Distance of Driveway (*from Property Line*)	*N/A*	20'	20'	20'	25'
Minimum Lot Area (*Square Feet*)	6,000	7,200	8,400	10,000	20,000
Minimum Lot Frontage [1]	50'	60'	70'	80'	100'

Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by twenty percent (20%) in lot width measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10 percent (10%) but shall meet the minimum lot size for each lot type as referenced within Table 1.

[2]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

DRAFT
10.08.2019

2. *Development Standards for Residential Uses by Lot Product/Type*

a. *Detached Single Family Lot Type A*

Development Standards	
Minimum Lot Size	6,000 SF
Minimum Lot Width (@ Front Building Line)	50'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	55'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	15'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	1,800 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco, cementitious siding with color palette*]	80%
Garage Orientation	Garages will be allowed to be accessed from the street; however, a minimum driveway length of 20-foot must be provided.
Maximum Lot Coverage	75%

b. *Detached Single Family Lot Type B*

Development Standards	
Minimum Lot Size	7,200 SF
Minimum Lot Width (@ Front Building Line)	60'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	65'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,200 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. A second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'B' lots shall have 3 car garages.
Maximum Lot Coverage	65%

c. *Detached Single Family Lot Type C*

Development Standards	
Minimum Lot Size	8,400 SF
Minimum Lot Width (@ Front Building Line)	70'
Minimum Lot Depth	120'
Minimum Lot Width (Corner Lot)	75'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,400 SF

DRAFT ORDINANCE 10.08.2019

Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. A second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'C' lots shall have 3 car garages.
Maximum Lot Coverage	65%

d. *Detached Single Family Lot Type D*

Development Standards	
Minimum Lot Size	10,000 SF
Minimum Lot Width (@ Front Building Line)	80'
Minimum Lot Depth	125'
Minimum Lot Width (Corner Lot)	85'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	2,600 SF [1]
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. A second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'D' lots shall have 3 car garages.
Maximum Lot Coverage	65%

Notes:
[1]: *A maximum of 20% of the lots may have homes not less than 2,500 SF.*

e. Detached Single Family Lot Type E

Development Standards	
Minimum Lot Size	20,000 SF
Minimum Lot Width (@ Front Building Line)	100'
Minimum Lot Depth	175'
Minimum Lot Width (Corner Lot)	100'
Minimum Side Yard Setback	7'
Minimum Front Yard Building Setback	25'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	3,000 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. A second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'E' lots shall have 3 car garages.
Maximum Lot Coverage	70%

DRAFT ORDINANCE 10.08.2019

3. *Fencing.*

    a. *Residential uses.* All individual residential fencing shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property. Tubular steel fencing is also acceptable for individual residential fencing, and shall be *required* on lots located along perimeter roadways, and/or abutting open spaces, greenbelts and parks. Corner lot fencing (adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear property line corner and terminates ten (10') feet behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5') feet. The property owner shall maintain that portion of the property outside the fence. Fencing shall be consistent with the language described above and *Figure 1* below.

Figure 1: *Fence Example.*

4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

Table 3 : Anti-Monotony Matrix

Lot Type	Lot Size (Approx.)	Elevation Features
A	50' x 120'	i, iii, iv
B	60' x 120'	ii, iii, iv

C	70' x 120'	ii, iii, iv
D	80' x 125'	ii, iii, iv
E	100' x 200'	ii, iii, iv

i. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, three-part stucco, cementitious siding). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least three (3) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street or two (2) intervening homes on the opposite side of the street. All chimneys shall be constructed of masonry materials, excluding cementitious siding.

ii. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). All chimneys shall be constructed of masonry materials, excluding cementitious siding.

iii. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized. No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens and bathrooms.

iv. If the garage is accessed from the street a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. *Streetscape Landscape.* Prior to issuance of a Certificate of Occupancy, yards for all single-family lots on the *Subject Property* shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.

(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot for properties in the areas identified as *Residential* on the *Concept Plan* in *Exhibit B* of this ordinance.

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

DRAFT ORDINANCE 10.08.19

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards as modified by *Street Buffer Strip Elevation and Street Cross-Section Elevations* below in *Figure 2*.

Figure 2: Illustration on next page

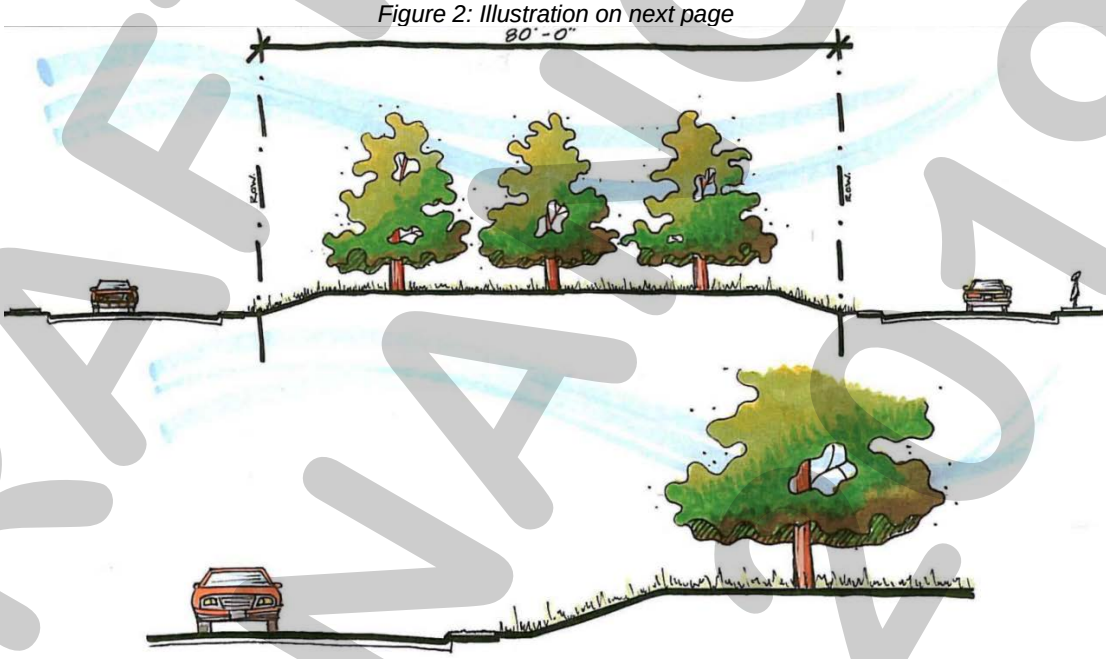


Figure 2: *Street Buffer Strip Elevation and Street Cross-Section Elevations.*

a. *Buffer-Strip for the North SH-205 Overlay (N. SH-205 OV) District.* The landscape buffer strip shall be as described in Section E, *Landscape Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), and be a minimum width of 60-feet as illustrated below in *Figures 3 & 4* and as indicated on the PD Concept Plan. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

b. *Buffer-Strip for the SH-205 By-Pass Overlay (SH-205 BY-OV) District.* The landscape buffer strip shall be as described in Section E, *Landscape Standards*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), and be a minimum width of 50-feet as illustrated below in *Figures 3 & 4* and as indicated on the PD Concept Plan. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

DRAFT ORDINANCE 10.08.2019

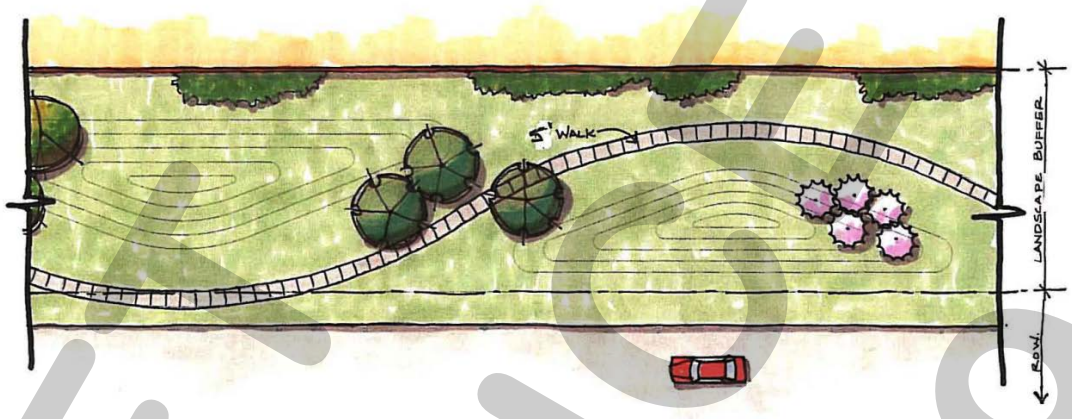

Figure 3: *Landscape Buffer Plan*

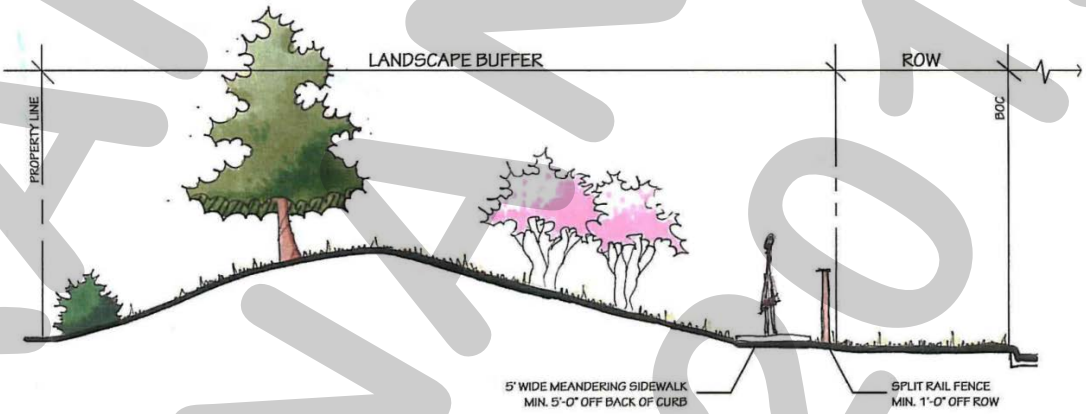

Figure 4: *Landscape Buffer Cross Section*

c. *Buffer-Strip (Outside of Overlay Districts).* The landscape buffer strip shall be a minimum of ten (10) feet on Hays Road and Quail Run Road. Sidewalks and Hike & Bike Trails are to be placed according to city requirements and as set forth in the *Open Space Master Plan* for the District.

d. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.

e. *HOA Maintained Fencing.* The Homeowner's Association (HOA) will maintain all common area and perimeter fencing surrounding the *Subject Property*. Such perimeter fencing shall be composed of a six (6) foot tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.

f. *Curvilinear Walks. Curvilinear Walks* are to be a minimum of five (5) feet in width and a maximum of six (6) feet in width (*i.e. Hike & Bike Trails*) consistent with the approved *Open Space Master Plan*. *Collector Streets*, with or without center medians, may incorporate sidewalks six (6) feet in width adjacent to or within the *front yard* landscape easements. *Curvilinear Walks* may meander within the

DRAFT ORDINANCE 2019

parkway and common areas; however, the edge of the walk shall be no closer than four (4) feet from the back-of-curb.

g. *Medians.* Any proposed median openings shall meet the City standards at the time of *PD Site Plan* approval.

2. *Lighting.* Light poles shall not exceed 20-feet in height, and all light fixtures shall direct light downward and be contained within the *Subject Property*.

3. *Sidewalks.* At a minimum, sidewalks located on streets shall begin four (4) feet behind the back of curb and shall be five (5) feet in overall width.

4. *Curbing.* Within *Lot Types A & B*, *roll-up-curbing* may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity. These *roll-up-curbs* shall be approved by the City of Rockwall Engineering Department with the approval of the final plat application.

5. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*i.e. 3-phase lines*), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*, except along the SH-205 By-Pass (*i.e. John King Boulevard*). Additionally, if such above ground lines are installed along the perimeter of the *Subject Property* and adjacent to non-residential uses, then the lines shall be installed behind the non-residential buildings where the installation is possible. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.

6. *Parks and Open Space.* Allowing inclusion of approximately 50% of the school sites and floodplain shown on the *Concept Plan* and approximately 20.0% of the land on the *Subject Property* shall constitute open space, which is hereby deemed sufficient if supported by the following standards and conditions.

a. The *Subject Property* shall contain not less than 79-acres of open space including approximately 26.6-acres of floodplain as shown on *Exhibit B* of this ordinance.

b. Allowable open space may include but is not limited to public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (*including any HOA recreation center or similar facilities*) and other features depicted on the *Concept Plan*, as set forth in the *Open Space Master Plan* prepared in accordance with subparagraph (c) below. Street right-of-way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within 800-feet of a public or private open space. In

DRAFT ORDINANCE 08.23.19

order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than 50-feet in width.

c. The *Developer* shall prepare the *Open Space Master Plan* to be consistent with the approved *Concept Plan*. The purpose of an *Open Space Master Plan* is to supplement the *Concept Plan* by providing an additional level of detail for public and private open space areas. The *Open Space Master Plan* shall identify the locations of and improvements to public parks, school sites and other public and private open space or common areas, taking into consideration the proximity of single-family dwellings, as required by subparagraph (a), and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the *Subject Property* to parks and open space within the *Subject Property* and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's *Master Park and Recreation Plan*. The *Open Space Master Plan* shall clearly differentiate public parks from private facilities and common lands to be maintained by the HOA. The locations of public parks, school sites and other public and private open space or common areas shown on the *Open Space Master Plan* shall be in conformance with the *Concept Plan*, except as otherwise provided in Section 7 of Article II of the *Capital Facilities Agreement* pertaining to school sites. The *Open Space Master Plan* shall include a phasing plan for construction of all trails and parks, and common open space and facilities. The *Open Space Master Plan* shall be considered for approval if it complies with this section, the applicable City regulations, the *Concept Plan*, and generally accepted park-planning practices.

d. The District shall contain not less than 7.8 acres of land to be used as public or private parkland. A minimum of 7.8 contiguous acres shall be dedicated to the City in accordance with the City's *Neighborhood Parkland Dedication Ordinance* on approval of the final plat for the first phase of the development. This dedication shall include the dedication of a five (5) foot wide parcel to connect the *City Park* within the *Subject Property* to the existing City property to the east of the middle school. The remaining area will be retained as a private park within the *District*. Park improvements shall be constructed in accordance with the approved *Open Space Master Plan*. The site plan incorporating the design of park improvements and hike /bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's *Neighborhood Parkland Dedication Ordinance* regarding land dedication. At the time of recordation of final plats for each phase, *Developer* shall pay park improvement fees to the City. These fees shall be held in an escrow account until the commencement of *Phase 3*, at which time the *Developer* shall inform the City if the *Developer* wishes to use the escrowed fees as well as future fees to construct park improvements. Said improvements shall be approved by *Parks Director*, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to *Parks Director* for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's *Neighborhood Parkland Dedication Ordinance* regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire *District*

DRAFT ORDINANCE 2.19

applicable at that time, or improvement fees are paid. Thereafter, the *Developer* shall not be responsible for additional parkland dedication or park development fees associated with the *Subject Property*, except as otherwise may be provided in a *Capital Facilities Agreement* approved by the City.

The *Developer* shall provide retention ponds in the locations depicted on the *Concept Plan* in *Exhibit 'B'* of this ordinance. Hardedges and fountain features shall be incorporated into *Ponds 1 & 2*, *Pond 3* shall incorporate a natural edge, and *Pond 4* shall incorporate a fountain feature and a natural edge. All retention pond hardedges shall be similar to the hardedge shown in *Figure 5* below.

Figure 5: *Retention Pond with Hardedge.*

7. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage elevations and plan shown below in *Figures 6 & 7*. Final design of entry features to be determined with the Planned Development Site Plan.

DRAFT
10.08.19

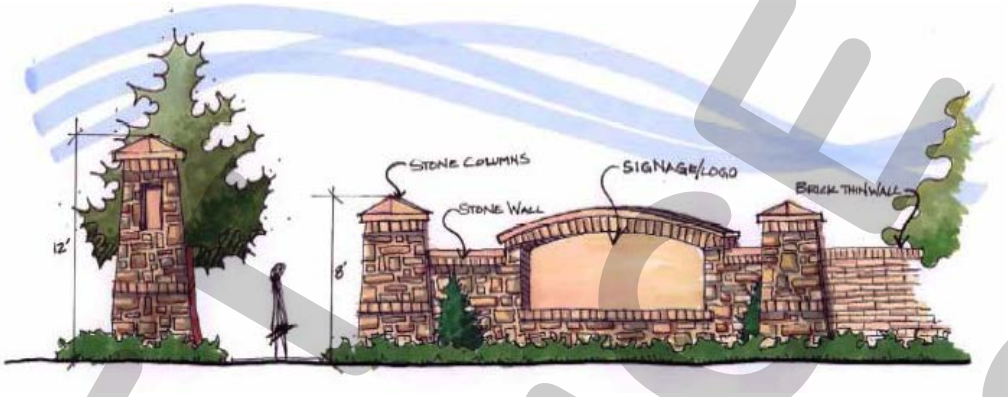

Figure 6: *Main Entry Subdivision Signage Elevations*

Figure 7: *Main Entry Subdivision Signage Plan*

8. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code (UDC) shall apply to any application for variance(s) to this ordinance.

9. *Amenity Center.* Developer shall construct an amenity center in approximate size and detail as shown below in *Figure 8*.

DRAFT ORDINANCE 10.08.19

Figure 8: *Amenity Center*

10. *Trees.* All trees planted within the District shall be a minimum three (3) inch caliper in size as measured six (6) inches above the root ball.

DRAFT ORDINANCE 10.08.2019

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	October 8, 2019
APPLICANT:	Greg Wallis; *Mershawn Architects*
CASE NUMBER:	SP2019-035; *Site Plan for Kwik Kar*

SUMMARY

Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [FM-3097], and take any action necessary.

BACKGROUND

The subject property was annexed on May 19, 1986 by *Ordinance No. 86-37*. On May 16, 2005, the City Council approved a Specific Use Permit (SUP) [*Ordinance 05-20; Case No. Z2005-012; S-019*] to allow a minor automotive repair garage on the subject property. On September 3, 2019, the City Council approved a Specific Use Permit (SUP) [*Ordinance 19-31; Case No. Z2019-015; S-211*] to allow the expansion of an existing minor auto repair garage on the subject property.

PURPOSE

The applicant is requesting approval of a site plan for the purpose of expanding an existing minor automotive repair garage (*i.e. Kwik Kar*). The applicant has stated that constructing a second building on the subject property will help manage the current volume of vehicles being serviced.

ADJACENT LAND USES AND ACCESS

The subject property is located at 2581 Horizon Road [FM-3097]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a hardware store (*i.e. Lowes Improvement Store*) followed by Steger Towne Drive, which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this is a commercial shopping center (*i.e. Steger Towne Crossing*) followed by IH-30, which is identified as a TxDOT6D *(Texas Department of Transportation, principle arterial, six [6] lane, divided roadway)* on the City's Master Thoroughfare Plan. These areas are zoned Commercial (C) District.

South: Directly south of the subject property is Horizon Road [FM-3097], which is identified as a *TxDOT4D (Texas Department of Transportation principle arterial, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Following this roadway is a financial institution (*i.e. Well Fargo Bank*) and a rehabilitation facility (*i.e. Horizon Ridge Rehabilitation Managemen*t). These areas are zoned Commercial (C) District and Planned Development District 9 (PD-9) for General Retail (GR) District land uses.

East: Directly east of the subject property is a restaurant (*i.e. Sonic*) followed by several commercial businesses (*e.g. National Tire & Battery, Standard Service, Bel Fiore Salon*). Beyond this is Ralph Hall Parkway, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. These areas are zoned Commercial (C) District.

West: Directly west of the subject property is a carwash facility (*i.e. Horizon Car Wash*) followed by Horizon Road [FM-3097], which is identified as a TxDOT4D (*Texas Department of Transportation principle arterial, six [6] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this there are several commercial businesses (*e.g. Bank of America, Pizza Hut, Kroger*). These areas are zoned Commercial (C) District and Planned Development District 9 (PD-9) for General Retail (GR) District land uses.

DENSITY AND DIMENSIONAL REQUIREMENTS

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a *Minor Auto Repair Garage* is permitted by Specific Use Permit (SUP) in a Commercial (C) District. In this case, on September 3, 2019, the City Council approved a Specific Use Permit (SUP) [*Ordinance 05-20; Case No. Z2005-012; S-019*] and no additional approvals regarding land use are necessary. Currently, there is an 8,431 SF building on the subject property and the applicant is proposing to construct a second building that will be approximately 1,440 SF and located behind the existing building. According to the submitted building elevations, the new structure will match the existing structure with regard to design and materials. With the exception of the exceptions being requested the submitted site plan, landscape plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Commercial (C) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*48,383 SF; In Compliance*
Minimum Lot Frontage	*60-Feet*	*161-Feet; In Compliance*
Minimum Lot Depth	*100-Feet*	*371-Feet; In Compliance*
Minimum Front Yard Setback	*15-Feet*	*15-Feet; In Compliance*
Minimum Rear Yard Setback	*10-Feet*	*10-Feet; In Compliance*
Minimum Side Yard Setback	*10-Feet*	*10-Feet; In Compliance*
Maximum Building Height	*60-Feet*	*20-Feet; In Compliance*
Max Building/Lot Coverage	*60%*	*9%; In Compliance*
Minimum Number of Parking Spaces	*18-Spaces*	*18-Spaces; In Compliance*
Minimum Landscaping Percentage	*25%*	*41%; In Compliance*
Maximum Impervious Coverage	*85-90%*	*59%; In Compliance*

TREESCAPE PLAN

This request does not require a treescape plan since there are no protected trees being removed.

CONFORMANCE WITH THE CITY'S CODES

According to Subsection 4.05, *Commercial (C) District*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the Commercial (C) District is the "…proper zoning classification for most types of commercial development…" and "…excludes land uses that are not compatible with retail shopping…" The Unified Development Code (UDC) goes on to state that the Commercial (C) District is a "…general business zoning and is intended to service most commercial land uses…" In this case, since the minor auto repair garage is a general commercial operation, the applicant's request appears to conform to the district development standards stipulated in the Unified Development Code (UDC).

VARIANCES/EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following exceptions to the requirements of the Unified Development Code (UDC):

(1) *Conditional Land Use Standards*

According to Subsection 2.03(H)(2), *Minor Auto Repair Garage,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), garage doors or bays shall not face the street or a residential lot. In this case, since the bays of proposed building face the street, approval of an exception to the *Conditional Land Use Standards* is required.

(2) *Building Articulation*

(a) According to Subsection 4.01.C, *Building Articulation*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the maximum wall length of primary building facades shall not exceed three (3) times the wall height (*i.e. 14-feet x 3 = 42-feet in length*) without incorporating a secondary entryway/architectural element. In this case, the south (front) and north (rear) elevations are 48-feet in length and do not incorporate a secondary entryway/architectural element. Since this exceeds the maximum allowable wall length of 42-feet in length, approval of an exception to the building articulation standards is required. In this case, the applicant is providing additional canopy trees and plants on site adjacent to the new building. Additionally, the applicant is including 24-38% natural stone on each façade. Staff should note, the front of the building will consist of bay doors, which provide some relief on the façade. Since there is an existing building on the property, it seems appropriate for the design and materials of the new building to be consistent.

Section 9, *Exceptions and Variances*, of Article XI, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), gives the Planning and Zoning Commission the ability to grant exceptions to the general standards should the request meet one (1) of the following; [*1*] where unique or extraordinary conditions exist or [*2*] where strict adherence to the technical requirements of the Unified Development Code (UDC) would create an undue hardship. When exceptions are being requested, the applicant shall provide two (2) compensatory measures that directly offset each requested exception. In this case, the applicant is providing a combination of a berm, shrubs and plants in the landscape buffer and is utilizing 100% masonry. In addition, the applicant is incorporating 24%-38% natural stone on each building façade. Staff should note, that the property is adjacent to other automotive land uses. The proposed building will be located behind the main structure, which will limit visibility of the bays; however, the bays may still be slightly visible from the street. It should also be noted, that the bay doors on the front of the building provide some relief to the buildings' façade. Since there is an existing building on the property, it seems appropriate for the design and materials of the new building be consistent with the existing building. With this being said these exceptions are discretionary decisions for the Planning and Zoning Commission and require approval by a supermajority vote (*i.e. three-fourths vote of those members present*) . In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The OurHometown Vision 2040 Comprehensive Plan indicates that the subject property is located within the Southwest Residential District. This district contains a mixture of low and medium density residential, commercial/ industrial and commercial/retail land uses. It is expected that in the future, the district will continue to function as it does today with low density master planned communities being developed on the remaining vacant land. The subject property is considered to be a commercial/retail land use, which is characterized by single to multi-tenant commercial retail centers along major intersections. Primary land uses of the commercial/retail land use include restaurants, neighborhood centers, convenience centers, and commercial retail buildings. Secondary land uses are comprised of

office/financial institutions, parks, open space, and institutional/civic land uses. Typically, commercial/retail land uses are zoned Neighborhood Services (NS) District, General Retail (GR) District, Commercial (C) District and certain mixed-use Planned Development (PD) Districts. In this case, the property is zoned Commercial (C) District and the proposed minor automotive repair garage can be considered a neighborhood/convenience use. Taking these factors into consideration, the applicant's request appears to conform to the OURHometown Vision 2040 Comprehensive Plan.

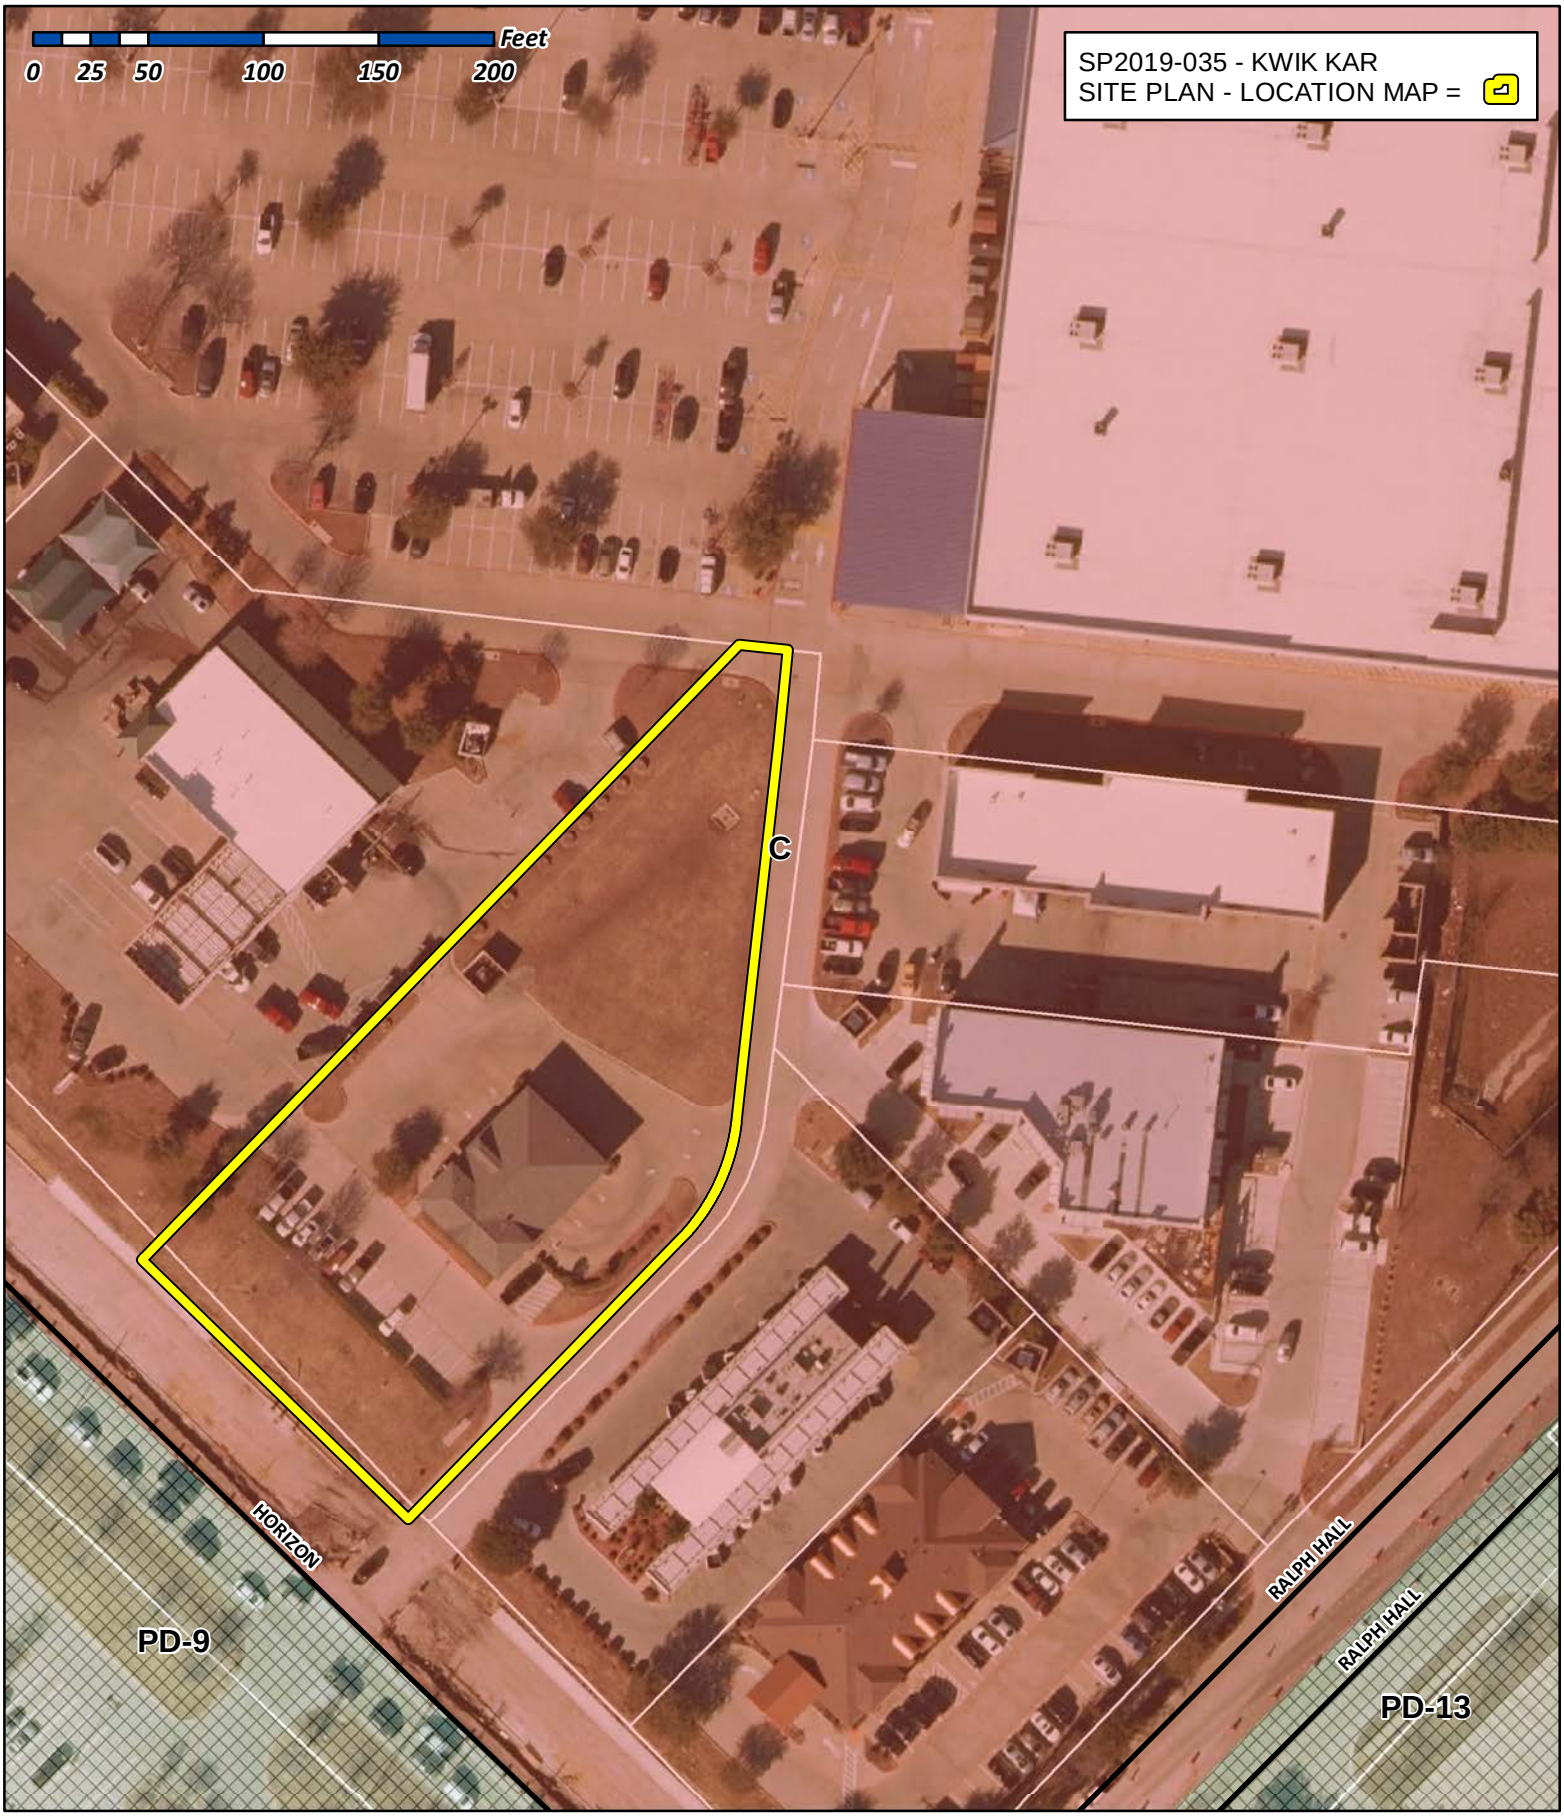
ARCHITECTURAL REVIEW BOARD (ARB):

On September 24, 2019, the Architectural Review Board (ARB) reviewed the proposed building elevations and passed a motion to approve by a vote of 5-0 with Board Members Mitchell and Johnson absent.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request, then staff would propose the following conditions of approval:

(1) The minor automotive repair garage shall generally conform to the concept plan and building elevations depicted in Exhibits '*B*' and '*C*' of the approved Specific Use Permit (SUP) ordinance;



(2) Vehicles, equipment, parts, and/or inventory shall not be stored outside overnight;

(3) All work must be performed within an enclosed building;

(4) The addition shall match the design and materials of the existing buildings;

(5) A ten (10)-foot landscape buffer consisting of ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage; and

(6) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

   Discuss and consider a request by Steven Homeyer of Homeyer Engineering, Inc. on behalf of Julia McKinney for the approval of a replat for Lot 8, Block A, Ellis Centre Phase 2 Addition being a 1.21-acre parcel of land identified as Lot 4, Block A, Ellis Centre Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located west of the intersection of Alpha Drive and Sigma Court, and take any action necessary.

4. **P2019-041** **(Korey)**
   Consider a request by David Raines for the approval of a replat for Lot 35, Block A, Chandler's Landing, Phase 18, Section 2 being a 0.19-acre tract of land identified as Lot 12, Block A, Chandler's Landing, Phase 18, Section 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development 8 (PD-8) District for single family land uses, addressed as 5808 Constellation Circle, and take any action necessary.

APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARINGS

6. Hold a public hearing to discuss and consider imposing a moratorium on accepting and reviewing subdivision plats for commercial and residential property situated within the City's Extraterritorial Jurisdiction (ETJ), and take any action necessary.

DISCUSSION ITEMS

7. **MIS2019-014** **(Ryan)**
   Hold a public hearing to discuss and consider an amendment to the OURHometown Vision 2040 Comprehensive Plan for the purpose of updating the water and wastewater master plans, and take any action necessary.

8. **P2019-040** **(Korey)**
   Discuss and consider a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street, and take any action necessary.

9. **SP2019-037** **(David)**
   Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

10. **SP2019-040** **(David)**
    Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

11. **SP2019-041** **(Korey)**
    Discuss and consider a request by LeeAnn Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

12. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

    - ✓ MIS2019-001: Impact Fee Update (*1st Reading*) [*Approved*]
    - ✓ Z2019-021: Amendment to Planned Development District 79 (PD-79) (*1st Reading*) [*Approved*]
    - ✓ Z2019-022: SUP for an Accessory Building at 2340 Saddlebrook Lane (*1st Reading*) [*Postponed to November 4, 2019*]
    - ✓ Z2019-024: Amendment to Planned Development District 70 (PD-70) (*1st Reading*) [*Approved*]

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 25th day of October 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
October 29, 2019
5:00 PM

CALL TO ORDER

OPEN FORUM

ACTION ITEMS

1. **SP2019-037** **(David)**
   Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

2. **SP2019-039** **(David)**
   Discuss and consider a request by Jake Fears, PE of Weir & Associates, Inc. on behalf of Goliad Real Estate, LLC for the approval of an amended site plan for a multi-tenant retail building on a 2.542-acre tract of land identified as Tract 1 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of Pecan Valley Drive and N. Goliad Street [SH-205], and take any action necessary.

3. **SP2019-040** **(David)**
   Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

4. **SP2019-041** **(Korey)**
   Discuss and consider a request by LeeAnn Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

ADJOURNMENT

The City of Rockwall Architecture Review Board (ARB) reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 25th day of October 2019, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 10, 2019
6:00 P.M.

I. CALL TO ORDER

Chairman Eric Chodun called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Jerry Welch, Annie Fishman, John Womble, Tracey Logan, and Sedrick Thomas. Absent from the meeting was Mark Moeller. Staff members present were Planning Director, Ryan Miller, Planning Manager, David Gonzales, Senior Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, and Civil Engineers, Jeremy White and Sarah Johnston.

II. OPEN FORUM

Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time.

Melba Jeffus
1903 S. FM 549
Rockwall, TX

Ms. Jeffus came forward and expressed her strong concern and opposition to a proposed RV park that is being proposed in the County that she feels will greatly negatively impact her property.

Barbara Lee
668 Cornelius Rd.
Rockwall, TX

Mr. Lee came forward and expressed concern and opposition to the proposed RV park that is being proposed in the County.

Steve Curtis
2130 FM1141
Rockwall, TX

Mr. Curtis came forward and expressed concern and opposition to the proposed RV park for the county's proposal.

Allen Stevenson
427 Clem Road
Rockwall, TX

Mr. Stevenson came forward and expressed concern and strong opposition to the proposed RV park that is being proposed by the Count.

Chairman Chodun asked if anyone else wished to speak to come forward and do so, there being no one indicating such; Chairman Chodun closed the open forum.

III. CONSENT AGENDA

1. Approval of Minutes for the August 13, 2019 Planning and Zoning Commission meeting.

2. P2019-017

Consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of Suresh Shridharani of Harlan Properties, Inc. for the approval of a preliminary plat for the Emerson Farms Subdivision containing 107 single-family residential lots on a 138.756-acre tract of land identified as Tract 1 of the J. Lockhart Survey, Abstract No. 137, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 76 (PD-

76) for Single Family 1 (SF-1) District land uses, generally located on the east side of Dowell Road south of the intersection of SH-276 and Dowell Road, and take any action necessary.

3. P2019-031

Consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owner Jeff Kennemer of the Saddle Star Land Development, LLC for the approval of a final plat for Phase 1 of the Saddle Star South Subdivision containing 66 single-family residential lots on a 26.411-acre tract of land identified as a portion of a larger 44.292-acre tract of land identified as Tract 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

4. P2019-033

Consider a request by Bill Bricker of Columbia Development Company, LLC on behalf of David and Laura Cline for the approval of a replat for Lot 47, Block D, Park Place West Phase II Addition being a 0.184-acre parcel of land being currently identified as Lot 20, Block D, Park Place West Phase II Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 59 (PD-59) for Single-Family 7 (SF-7) District land uses, addressed as 408 Jordan Farm Circle, and take any action necessary.

Commissioner Welch made a motion to approve the consent agenda. Commissioner Womble seconded the motion which passed with a vote of 6-0 with Commissioner Moeller absent.

IV. APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

V. PUBLIC HEARING ITEMS

6. Z2019-017

Hold a public hearing to discuss and consider a request by Lance Tyler of Marc Development, LLC for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Two-Family (2F) District land uses to allow townhomes on a 1.27-acre tract of land identified as Tract 29 & 29-1 of the S. S. McCurry Survey, Abstract No. 146, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, addressed as 1451 FM-1141, and take any action necessary.

Senior Planner, Korey Brooks, provided an explanation and background of the request. The subject property was annexed in 1961 by Ordinance No. 60-01 and at the time of annexation, the subject property was zoned Agricultural District. Currently situated on the subject property is a 2,176 square foot single-family home, which according to the Rockwall Central Appraisal District was constructed in 1971.The applicant is requesting to change the zoning of the subject property from an Agricultural District to a Planned Development District for Residential-Office District land uses for the purpose of constructing townhomes. The proposed development will consist of 12 townhomes laid out as two groups of six homes and a private park/open space. The development will incorporate approximately 64% open space, and will have a density of 9.45 units per gross acre. The proposed townhomes will be constructed utilizing a Neo-Traditional architecture style and utilize a combination of brick and cementitious lap siding being Hardy Board. The homes will incorporate front porches, rear facing garages, and utilize extended driveways with a minimum of 40-feet in length to accommodate guest parking. The applicant has stated that the purposed 40-foot long driveway can accommodate up to four vehicles and that with the garage parking each unit will have a total of six parking spaces for vehicles. The garages will be accessible via an existing 20-foot public right-of-way that is accessible through Phase 6 of the Caruth Lakes Subdivision, and that serves as an alleyway for seven single-family homes. According to the applicant, each home will be a maximum of two stories in height and be a minimum of 2,000 square feet in size. The front and rear building elevations will not repeat without at least two intervening homes of differing appearance such as front encroachment layout, primary materials, roof type and layout, or articulation of the front façade.

Mr. Brooks went on to share that according to the concept plan submitted by the applicant the private park will include amenities such as benches, bike racks, and a trail that will meander through the development and connect to the existing sidewalk adjacent to John King Boulevard. The private park will be maintained by the Homeowner's Association, will be located in the front of the homes, and will include a pedestrian rest area that connects to FM-1141. This area will include a wrought iron fence that will be four feet in height and an emergency access lane will be accessible from FM-1141 and will utilize bollards to prohibit motor-vehicle access. This area will incorporate upgraded pavement and decorative brick pavers. In addition, the private park area will be directly adjacent to a property owned by the Caruth Ridge Estates Homeowner's Association and which is undevelopable. This means that the townhomes will be setback a minimum of 120-feet from John King Boulevard. The proposed Planned Development District will be subject to the land uses and requirements stipulated for the Residential-Office District unless specifically called out in the Planned Development District ordinance. In order to develop the subject property as shown on the concept plan, the applicant will be required to provide drainage and detention on the property to prevent increasing the stormwater run-off in the Squabble Creek Watershed. Additionally, an eight inch water line will be required to be installed along the entire length of the property line adjacent to FM-1141 and each home will be required to have an individual water meter. With regard to sanitary sewer, the applicant will need to perform an Infrastructure Study and decide if the sanitary sewer will connect to the existing subdivision through the alleyway, or [2] down FM-1141 to Waters Edge Drive. Regardless, the sanitary sewer line will need to be a minimum of an eight inch pipe and meet all applicable City standards.

Mr. Brooks further noted that according to the Unified Development Code, the Residential Office District is a zoning district intended to recognize the existence of older residential areas of the city where larger houses have been or can be converted from single-family uses to low-intensity office uses in order to extend the economic life of these structures. The UDC goes on the state that a Residential Office District should have principle access to major or secondary thoroughfares and serves as a transition between high intensity, non-residential areas to lower intensity residential areas. In this case, the applicant is proposing a new townhome development, which according to the Unified Development Code is a land use that is only permitted in the Residential-Office, Multi-Family 14 and Downtown Districts. Based on this limitation staff tied the Planned Development District ordinance to the Residential-Office District as this district is the most restrictive and most appropriate district considering the subject property's adjacencies. Additionally, this development does seem to serve as a transition from the proposed higher intensity general retail land uses to the south and east of the subject property to the lower intensity single-family residential land uses to the north and west of the subject property.

Mr. Brooks further noted that On August 31, 2019, staff sent 75 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Caruth Lakes Homeowner's Association, which is the only HOA/Neighborhood Association within 1,500-feet of the subject property and participating in the Neighborhood Notification Program. At the time this report was written, staff had received 21 notices in opposition and one notice in favor of the request.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked for questions from the Commission for staff.

Commissioner Fishman asked in regards to how the Residential Office use would be restricted. Mr. Brooks explained that should any changes be requested aside from the townhome use, there would have to be a request to change the Planned Development which would be a zoning change that would require notifications be sent out to surrounding properties.

Chairman Chodun asked the applicant to come forward and speak.

Lance Tyler
1501
Rockwall, TX

Mr. Tyler came forward and provided additional details pertaining to the request. He indicated he was available for questions.

Chairman Chodun asked for questions from the Commission for the applicant.

Commissioner Logan expressed concern with the limited space that the driveways provide. Mr. Tyler shared that with providing a 40 foot driveway they feel that would provide sufficient parking.

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so.

Aaron McGrew
1160 Crystal Lake
Rockwall, TX

Mr. McGreew came forward and generally expressed the opposition of the request. His property backs up to the proposed site and he shared he feels it will greatly impact his home.

Colleen Gauvin
1421 Whitewater Lane
Rockwall, TX

Ms. Gauvin came forward and expressed her strong opposition to the request.

Patrick Mullowney
1409 Whitewater Lane
Rockwall, TX

Mr. Malloney came forward and expressed his strong opposition to the request.

John Lahair
1174 Crystal Lake Drive.
Rockwall, TX

Mr. Lahair came forward and expressed being in opposition of the request for townhomes in this area.

Bob Wacker
Rockwall, TX

Mr. Wacker came forward and shared his opposition to the request.

Rosie Cox
1800 E. Quail Run Road
Rockwall, TX

Mrs. Cox came forward and shared she feels townhomes are needed.

Glen Cox
1800 E. Quail Run Road
Rockwall, TX

Mr. Cox came forward and expressed the need and inevitable growth and shared being in favor of the proposal.

Austin Rylaarsdam
1035 Hampton Bay Drive
Rockwall, TX

Mr. Rylaarsdam came forward and expressed opposition to the request.

Jim Turner
1691 E. Quail Run Road
Rockwall, TX

Mr. Turner came forward and shared his opposition for the request.

Donna Dorman
1093 Shady Grove
Rockwall, TX

Ms. Dorman came forward and expressed opposition of the request.

Steve Curtis
2130 FM 1141
Rockwall, TX

Mr. Curtis came forward and expressed his opposition to the request.

Melba Jeffus
1903 S. FM 549
Rockwall, TX

Ms. Jeffus came forward and shared concern over the limited space alleyways would provide. He expressed his opposition of the request.

Lori McGary
1327 Crescent Cove
Rockwall, TX

Mr. McGary came forward and generally expressed being in opposition of the request.

Tim Baker
1386 Whitewater
Rockwall, TX

Mr. Baker came forward and shared his opposition to the request for the townhomes being proposed.

Chairman Chodun asked if anyone else wished to speak to come forward and do so, there being no one indicating such; Chairman Chodun closed the public hearing.

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Womble generally expressed not being in favor of the development in this area although townhomes are a product the city could use, this not being the ideal area. Commissioner Fishman and Commissioner Logan expressed not being in favor of the proposal due to the area it is being proposed.

After discussion from the Commission generally expressing not being in favor of the request, Commissioner Welch made a motion to deny Z2019-017. Commissioner Fishman seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

7. Z2019-018

Hold a public hearing to discuss and consider a request by Rob Whittle for the approval of an amendment to Planned Development District 5 (PD-5) to change the garage setback requirements for an 11.003-acre tract of land identified as Lots 1-40, Block A, the Highlands Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 5 (PD-5) for Zero Lot Line (ZL-5) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, located at the northwest corner of the intersection of SH-66 and FM-1114, and take any action necessary.

Planning Director, Ryan Miller, provided an explanation and background of the request a request by Rob Whittle for the approval of an amendment to Planned Development District 5 to change the garage setback requirements for an 11.003-acre tract of land. The subject property was annexed in 1959 by Ordinance No. 60-01 zoned to Planned Development District 5 in 1973 by Ordinance No. 73-31. This ordinance included a concept plan that showed that the subject property was

designated for a Neighborhood Shopping Center and Garden Apartments. Planned Development District 5 was amended in1987 by Ordinance No. 87-23. This zoning amendment incorporated a new concept plan and development standards designating the property for Multifamily land uses. In 1996, at the request of the City of Rockwall, the City Council approved Ordinance No. 96-25 amending Planned Development District 5 and changing the designation of the subject property to Zero Lot Line land uses. On May 15, 2017, a preliminary plat for the Highlands Subdivision consisting of 53 single-family homes on a 13.376-acre tract of land was approved. As part of this case, the applicant proposed a five foot side yard building setback in lieu of the zero ten foot side yard setback permitted in the Zero Lot Line District. This preliminary plat was later amended decreasing the number of lots and land area to 43 single-family residential lots on the 11.003-acre subject property. On January 16, 2018, the City Council approved the final plat for the Highlands Subdivision, which consisted of 36 single family residential lots and four open space lots on the subject property.

Mr. Miller further noted that the applicant is requesting to change the garage setback requirements which currently require a J-Swing or Traditional Swing garage orientation, or recessed front entry with a minimum of 20-feet behind the front façade of the primary structure to allow 100% recessed front entry garages that are setback a minimum of five feet from the primary structure. As a compensatory measure for this request, the applicant has proposed incorporating a 25-foot front yard building setback in lieu of the current 20-foot front yard building setback. This will create a 30-foot driveway for the proposed housing product as opposed to the 40-foot driveway created by the recessed front entry required by the Unified Development Code, and set the house back an addition five feet off of public right-of-way. As staff has been done with past amendments to existing planned development districts that consist of several regulating ordinances, staff has taken this opportunity to consolidate the regulating ordinances of Planned Development District 5 into one ordinance; however, no changes with regard to the requirements, intent or permitted land uses have been made to any other portion of the planned development district with the exception of changing the garage requirements for the subject property.

Mr. Miller went on to share that the applicant is proposing to set the primary structure a minimum of 25-feet from the front property line. This coupled with the proposed five foot recessed garage would create a minimum of a 30-foot driveway or ten feet less than the 40-foot driveway created by meeting the current requirements. The only part of the applicant's request that is not in conformance with the OURHometown Vision 2040 Comprehensive Plan is the applicant's request to incorporate 100% flat front entry. The applicant has stated that the reason for this request is due to the inability to incorporate a J-Swing or Traditional Swing garage orientation with a 50-foot wide lot.

Mr. Miller advised the Commission that staff also emailed notices to the Caruth Lakes/Caruth Ridge Estates, Lakeview Summit, the Preserve, Stone Creek, and Quail Run Valley Homeowner's Associations (HOA), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign on the subject property, and advertised the public hearings in the Rockwall Herald Banner as required by the Unified Development Code notices returned.

Chairman Chodun asked the applicant to come forward.

Rob Whittle
P.O. Box 369
Rockwall, TX

Mr. Whittle came forward and provided additional details pertaining to the request and indicated he was available for questions.

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so. There being no one indicating such, Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Logan made a motion to approve Z2019-018 with staff recommendations. Commissioner Welch seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

8. Z2019-019

Hold a public hearing to discuss and consider a request by Doug Henderson of Crafton Communications, Inc. for the approval of a Specific Use Permit (SUP) allowing a *Freestanding Commercial Antenna* on a 0.0055-acre portion of a larger 1.24-acre parcel of land, identified as Lot 9, Block A, Horizon Ridge Center Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, addressed as 920 Rockwall Parkway, and take any action necessary.

Senior Planner, Korey Brooks, provided an explanation of the request for the approval of a Specific Use Permit allowing a Freestanding Commercial Antenna. According to the applicant, the proposed communications tower will be approximately 110-feet in height and will be situated behind the main structure which is Fire Station No. 2. Currently, there is an existing telecommunications tower that is approximately 200-feet in height and will remain in order to serve the needs of the fire station and other emergency responders. The proposed tower will be a freestanding tower and include a ground-mounted equipment cabinet that will be approximately 560 square feet and approximately nine feet in height. The applicant is proposing to screen the existing ground-mounted telecommunications equipment and the new equipment with a combination of a wrought iron fence that will be six feet height and mature landscaping. The proposed landscaping will be Leland Cypress trees that are a minimum of six feet in height and planted between five to six feet on-center. Mr. Brooks went on to share that there is a single-family residential subdivision located immediately across Summer Lee Drive and, if approved, there will be a second tower on the subject property. The proposed tower will be approximately one-half the height of the existing tower. Due to the design of the tower it appears that the tower will occupy a smaller footprint since no guy-wires will be necessary. Given that there is an existing telecommunications tower located adjacent to the proposed monopole tower coupled with the proposed landscape screening of the existing and proposed equipment, approval of this request to allow a second telecommunications tower on the subject property does not appear to negatively impact the subject property or the surrounding properties. Additionally according to the Unified Development Code, a freestanding commercial antenna shall not exceed 125-feet in height. The Unified Development Code also stipulates that any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity. In this case, the proposed freestanding antenna will be 110-feet in height and the applicant is proposing to provide a wrought iron fence with mature landscaping to screen the equipment cabinet. Due to the proposed tower being lower than the maximum allowable height and the applicant will be providing the decorative fence with landscaping, and therefore appears to conform to the requirements of the Unified Development Code. If the request should be approved the applicant would be required to submit a site plan to be reviewed by Planning and Zoning Commission.

Mr. Brooks further noted that on August 30, 2019, staff notified 61 property owners and occupants within 500-feet of the subject property and also notified the Foxchase Homeowner's Association. At the time the meeting was held staff received 16 notices in opposition and 3 in favor of the request.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward.

David

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so.

Mr. Maze came forward and expressed concern with the height of the tower.

Chris Sipple
1145 Skylar
Rockwall, TX

Mr. Sipple came forward and expressed his opposition to the request.

Carol Gemmell
1157 Skylar Drive
Rockwall, TX

Ms. Gemmell came forward and expressed her strong opposition to the request.

Kyle Cavendar
1169 Skylar
Rockwall, TX

Mr. Cavendar came forward and expressed his opposition to the request.

Mike Richard
1163 Skylar
Rockwall, TX

Mr. Richard came forward and expressed his opposition to the request. He feels it will lower the value of his home.

Jennifer Sipple
1169 Skylar
Rockwall, TX

Ms. Sipple came forward and expressed her opposition to the request.

Tony Gemmell
1157 Skylar Drive
Rockwall, TX

Mr. Gemmell came forward and expressed his opposition to the request. He shared concerns with the safety issues such towers so close to his home would result in.

Larry Warren
921 Hunters Glen
Rockwall, TX

Mr. Warren came forward and expressed his opposition to the request.

Chairman Chodun asked if anyone else wished to speak to come forward and do so, there being no one indicating such; Chairman Chodun closed the public hearing and asked the applicant to come forward for any rebuttal.

Chairman Chodun brought the item back to the Commission for discussion or action.

Extensive discussion took place between the Commission shared generally not being in favor of the request.

Commissioner Fishman made a motion to deny Z2019-019. Commissioner Womble seconded the motion which passed by a vote of 5-0 with Commissioner Logan dissenting and Commissioner Moeller absent.

9. Z2019-020

Hold a public hearing to discuss and consider a request by Todd Panzner for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 11.85-acre tract of land identified as Tract 1-1 of the J. H. Bailey Survey, Abstract No. 22, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-276 Overlay (SH-276 OV) District, generally located south of the intersection of Green Circle and SH-276, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation and background of the request for the approval of a zoning change from an Agricultural District to a Commercial District. The applicant is requesting to rezone the subject property from an Agricultural District to a Commercial District for the purpose of facilitating the sale or future development of the property.

Currently, the subject property is vacant, and consists of 11.85-acres. The majority of this tract of land is situated within the 100-year floodplain, which will limit the development this property in the future. When development occurs on this property adequate public services, infrastructure, necessary to serve the property will be required and all proposed infrastructure improvements must meet the Engineering Department's Standards of Design and Construction.

On August 28, 2019, staff mailed 16 notices to property owners and residents within 500-feet of the subject property. Staff did not send a neighborhood notification as there are no Homeowners Associations within 1,500-feet of the subject property. No responses were received for or against.

Chairman Chodun asked the applicant to come forward.

Todd Panzner
1600 Eldridge Parkway
Houston, TX

Mr. Panzner came forward and provided additional information in regards to the request and indicated he was available for questions.

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so. There being no one indicating such, Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Welch made a motion to approve Z2019-020 with staff recommendations. Commissioner Womble seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

VI. ACTION ITEMS

10. MIS2019-010
Discuss and consider a request by Tim Lyssy of the Rockwall Independent School District (RISD) for the approval of an exception to the minimum masonry requirements for a property in the IH-30 Overlay (IH-30 OV) District for the purpose of constructing an accessory building on a 35.295-acre parcel of land identified as Lot 1, Block A, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 901 W. Yellow Jacket Lane, and take any action necessary.

Senior Planner, Korey Brook, provided a brief explanation of the request. The applicant is requesting approval of an exception to the minimum masonry requirements as stipulated in the Unified Development Code. The purpose of the exception is to allow the construction of a metal accessory building on the subject property. The proposed building will be 12' x 18', utilize a shingled pitched roof system, and be clad with cementitious lap siding that will match the existing accessory buildings. The proposed structure will be located adjacent to the existing accessory buildings and the applicant has stated that the structure will be screened from public view by the retaining wall, the existing building, and existing landscaping. According to the applicant, the new building will be approximately 40% smaller than the existing accessory buildings and will be utilized as additional storage for the school's athletics department. The Unified Development Code stipulates that each exterior wall or a building consist of 90% primary materials with cementitious materials being limited to 50% of the overall primary material being utilized. In this case, since the applicant is requesting to utilize 100% cementitious materials, an exception to the materials and masonry composition standards is required to be approved by the Planning and Zoning Commission. Additionally, after the accessory building is constructed there will be a total of three accessory buildings on the site. In this case, the proposed accessory building is considered to be a commercial structure that is allowed by-right and the Planning and Zoning Commission is tasked with reviewing the masonry exception to determine if approval of the exception will negatively impact the subject property or other properties within the IH-30 Overlay District. The applicant has submitted a site plan and building elevations for the proposed accessory building.
Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward.

Tim Lissy
1051 Williams Drive
Rockwall, TX

Mr. Lissy came forward and provided additional information pertaining to the request and indicated he was available for questions.

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Fishman made a motion to approve MIS2019-010 with staff recommendations. Commissioner Thomas seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

11. SP2019-030

Discuss and consider a request by David A. Morales of Pross Design Group, Inc. on behalf of Carolina Molina of Alvaplast US (SPR Packaging) for the approval of a site plan for an expansion of an existing office/warehouse/manufacturing facility on a 10.1893-acre tract of land identified Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation and background of the request. The applicant is requesting approval of an amended site plan for the purpose of constructing an approximately 22,564 square foot, two story office addition to their existing office/warehouse/manufacturing facility being SPR Packing. Additionally, the site will incorporate a 7,046 square foot one story ink/locker room that is located on the south facing façade. The office addition will be composed of a curtain wall system, canopies finished with aluminum composite materials ACM paneling, and EIFS. The applicant is requesting variances to allow for the ACM paneling and EIFS. The ink/locker room addition will be composed of tilt-up wall construction, matching their existing building and be located on the southern portion of the existing facility. The site is subject to the requirements and land uses stipulated for the Light Industrial District as stated by the Unified Development Code. Additionally according the Unified Development Code, a warehouse facility is a permitted by-right land use in a Light Industrial District. Other than the variances being requested, the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Light Industrial District.

Mr. Brooks further noted that the treescape plan provided by the applicant indicates there are existing trees totaling 762-caliper inches on site, with six trees totaling 51-caliper inches being removed due to the proposed expansion. Of the caliper inches being removed, 12-inches will require mitigation. The applicant is providing a total of 24-caliper inches on site and according to the UDC, the Planning and Zoning Commission will review and approve or disapprove the treescape plan. Mr. Brooks went on to explain the variances the applicant is seeking which the Architectural Review Board reviewed the proposed building elevations and variances to the stone, secondary material, and articulation requirements, and approved a motion to recommend approval of the building elevations and variances being requested. Variances are discretionary decisions for the Planning and Zoning Commission and will require approval by a ¾ majority vote. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward.

Bobby Pross
4050 Wayne's Brick Road
Dallas, TX

Mr. Pross came forward and provided additional comments in regards to the request and indicated he was available for questions.

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Thomas made a motion to approve building materials. Commissioner Womble seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

Commissioner Thomas made a motion to approve the articulation. Commissioner Womble seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

Commissioner Thomas made a motion to approve parking. Commissioner Fishman seconded the motion which passed by a vote 6-0 with Commissioner Moeller absent.

Commissioner Logan made a motion to approve the dumpster enclosure. Commissioner Thomas seconded the motion which passed by a vote of 6-0 with Moeller absent.

Commissioner Thomas made a motion to approve the site plan with staff recommendations. Commissioner Womble seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

12. SP2019-031

Discuss and consider a request by Ryan Moorman of R. D. Moorman, Inc. for the approval of a site plan for an office building on a 1.244-acre parcel of land identified as Lot 22, Rainbow Acres Addition, City or Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 259 Ranch Trail, and take any action necessary.

Senior Planner, Korey Brooks, provided a brief explanation and background pertaining to the request. The applicant is requesting to construct a metal office building in conjunction with and adjacent to the existing office building. The subject property is a 1.244-acre parcel of land that is zoned Commercial District and according to the applicant, the purpose of the building is to provide additional office space and storage. The proposed office building will be approximately 4,950 square feet, 16-feet in height, and be situated adjacent to the north façade of the existing office building. The structure will be constructed of metal and utilize a four foot brick wainscot, storefront glass, and a roll-up door on the front façade. According to the applicant, the existing metal accessory building will be removed. The applicant is proposing to screen the loading dock by providing additional landscaping directly in front of the roll-up door to limit visibility from Ranch Trail. Additionally, the landscape buffer adjacent to Ranch Trail will also provide screening from the street. Staff should note, although screening is being provided, it is possible that the roll-up door will still have limited visibility from Ranch Trail. Additionally, most of the surrounding buildings are metal and this office building will be located directly in front of a proposed mini-warehouse facility that will consist of 575 units within 19 metal buildings.

Mr. Brooks further noted that according to the Unified Development Code, an office building is permitted by-right in a Commercial District and no additional approvals are necessary with regard to the proposed land use and with the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Commercial District. Mr. Brooks went over the exceptions being requested by the applicant and the Architectural Review Board reviewed the proposed building elevations and passed a motion to recommend approval of the site plan and approval is discretionary to the Planning and Zoning Commission.

Mr. Brooks indicated the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward.

Ryan Moorman
417 Windermere
Heath, TX

Mr. Moorman came forward and did not add any additional comments.

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Thomas made a motion to approve SP2019-031 the variance and the site plan with staff recommendations. Commissioner Fishman seconded the motion. Approval of the site plan passed by a vote of 4-2 with Commissioners Womble and Welch dissenting and Commissioner Moeller absent; however, since the vote was not a supermajority, approval of the exception failed.

13. SP2019-033

Discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of Dan Bobst of J-BR2, LLC for the approval of a site plan for a strip retail center and restaurant on a 2.893-acre parcel of land identified as Lot 1, Block B, Harbor District Addition, City of Rockwall, Rockwall County, Texas, situated within the Hillside Sub-District of Planned Development District 32 (PD-32), located within the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of the intersection of the IH-30 frontage road and Sunset Ridge Drive, and take any action necessary.

Planning Director, Ryan Miller, provided a brief explanation and background of the request. The applicant is requesting approval of a site plan for a strip retail center and restaurant. On September 20, 2010, the City Council passed Ordinance No. 10-21, PD-32, which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as PD-32 or the Harbor District. Within the approved concept plan, PD-32 was divided into ten subdistricts that contained individual development and land use standards. On November 17, 2014, the City Council adopted Ordinance No. 14-51, which contained a PD Development Plan for a 2.893-acre tract of land located in the subject property. This PD Development Plan showed a series of buildings would be constructed along Harbor Heights Drive in conformance to the requirements of Ordinance No. 10-21. With the approval of Ordinance No. 14-51, the City Council also approved waivers to the building placement requirements and pedestrian access requirements to allow retaining walls ranging from seven to nine feet in height to be established along Harbor Heights Drive. The approval of these walls were tied to building elevations submitted by the applicant and which were tied down as a part of the City Council's approval. On May 1, 2017, the City Council adopted Ordinance No. 17-22, which amended Ordinance No. 10-21 to update various exhibits in the ordinance; however, no changes were made to the requirements of the Hillside Subdistrict or for the subject property. The applicant is requesting to amend Ordinance No. 14-51 to change the PD Development Plan approved for the subject property. The new PD Development Plan showed additional buildings being added along Sunset Ridge Drive and a central green space being incorporated adjacent to Harbor Heights Drive the request was approved on July 1, 2019 by Ordinance No. 19-25. Additionally, the subject property does not currently have any trees on it, and as a result the Treescape Plan requirement was waived for this case. Mr. Miller went over the variance and exceptions being requested by the applicant. On August 27, 2019, the applicant met with the Architectural Review Board to discuss the proposed building elevations. At this meeting the applicant introduced two (2) different design schemes. Based on the proposed design schemes, the ARB requested that the applicant utilize the contrasting building material scheme, the scheme that proposed elements that contrasted with the colors and materials used on the Trend Tower elevations. In addition, the ARB requested that the applicant better conform to the vertical articulation requirements and revise the tower element on the building at the corner of the intersection of Sunset Ridge Drive and Harbor Heights Drive. The ARB also requested a material sample board for the purpose of reviewing the proposed stone veneer and providing a recommendation to the Planning and Zoning Commission. The applicant has since submitted building elevations conforming with the majority of the ARB's recommendations; however, the applicant is requesting a variance to the articulation requirements.

Mr. Miller advised the Commission that the applicant was present and available for questions.

Chairman Chodun asked the applicant to come forward.

Jimmy Strohmeyer
2701 Sunset Ridge
Rockwall, TX

Mr. Strohmeyer came forward and provided additional comments pertaining to the request and indicated he was available for questions

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Womble made a motion to the variance for the stone requirement. Commissioner Thomas seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent. Commissioner Womble made a motion to approve the articulation requirement. Commissioner Fishman seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent. Commissioner Thomas made a motion to approve the site plan. Commissioner Fishman seconded the motion which passed by a vote of 6-0 with Commissioner Moeller absent.

VII. DISCUSSION ITEMS

14. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

- ✓ P2019-032: Replat for Lot 8, Block A, Bodin Industrial Addition [*Approved*]
- ✓ P2019-034: Replat for Lots 29-33, Block A, Whisper Rock Addition [*Approved*]
- ✓ P2019-036: Replat for Lot 1, Block A, TCB Addition [*Approved*]
- ✓ MIS2019-001: Resolution for Impact Fee Public Hearing [*Approved*]
- ✓ Z2019-015: SUP for a Minor Automotive Facility (*2nd Reading*) [*Approved*]
- ✓ Z2019-016: Legislative Update Text Amendment (*2nd Reading*) [*Approved*]

VIII. ADJOURNMENT

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

_____
Eric Chodun, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

Chairman Chodun adjourned the meeting at 9:19 p.m.

15. Capital Improvements Advisory Committee Meeting (CIAC) [*6:30 PM*]

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 24, 2019
6:00 P.M.

I. CALL TO ORDER

Chairman Eric Chodun called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Jerry Welch, Annie Fishman, John Womble, Tracey Logan, and Sedrick Thomas. Absent from the meeting was Mark Moeller. Staff members present were Planning Director, Ryan Miller, Planning Manager, David Gonzales, Senior Planner, Korey Brooks, City Engineer, Amy Williams, and Civil Engineers, Jeremy White and Sarah Johnston.

II. OPEN FORUM

Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward and do so, there being no one indicating such; Chairman Chodun closed the open forum.

III. CONSENT AGENDA

1. Approval of Minutes for the August 27, 2019 Planning and Zoning Commission meeting.

2. P2019-037
Consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Carla Rankin Real Estate Holding for the approval of a final plat for Lot 1, Block A, Rankin Addition being a 0.29-acre tract of land identified as Tract 22 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Residential Office (RO) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 4035 N. Goliad Street [*SH-205*], and take any action necessary.

3. P2019-038
Consider a request by Bryon Connally of CBG Surveying Texas, LLC on behalf of Shannon McCord Riddell for the approval of a replat for Lot 1, Block A, Goliad-Riddle Addition being a 0.4079-acre tract of land identified as Lot C, Block 117, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 501 S. Goliad Street, and take any action necessary.

Commissioner Moeller made a motion to approve the consent agenda. Commissioner Thomas seconded the motion which passed by a vote of 7-0.

IV. APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

V. DISCUSSION ITEMS

5. Z2019-021
Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4)

District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

Planning Manager, David Gonzales, indicated that the applicant was present and pointed out that there are some issues with water and the sanitary sewer that need to be addressed which will be addressed at the time of preliminary plat.

Chairman Chodun asked the applicant to come forward.

Pat Atkins
3076 Hays Lane
Rockwall, TX

Mr. Atkins came forward and provided comments pertaining to the request. The purpose of the request is for the addition of land that they have acquired to the north of the Saddle Star project requiring an amendment to the Planned Development. Mr. Atkins indicated he was available for questions.

Chairman Chodun asked for questions from the Commission.

There being no questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

6. Z2019-022

Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

Chairman Chodun asked the applicant to come forward.

Marty Wright
2340 Saddlebrook Lane
Rockwall, TX

Mr. Wright came forward and provided comments pertaining to the request. Currently there is a 12x18 building on his one acre lot next to the rod iron fence that he will be moving to the back and will be 18 feet from the 8 foot fence on the east and 20 feet from the rod iron fence. The request is to build a storage garage that will be used for storage.

Chairman Chodun asked how tall the structure would be. Mr. Wright indicated that it would be 10 foot wall and peak 13.9 feet. Chairman Chodun asked what the maximum height allowed. Senior Planner, Korey Brooks, stated that the maximum allowed is 15 feet. Mr. Brooks added that in the neighborhood there are other accessory building that are of similar size however they all match the materials of the main structure and should this request be approved it would set precedence in the neighborhood that could possibly change the character of the neighborhood.

Commissioner Fishman asked if there is a driveway requirement given the size being proposed. Mr. Brooks indicated there is not due to it being a detached garage. Mr. Wright added that he plans on adding a driveway in the future. Planning Director, Ryan Miller, noted that with the applicant's permission staff could bring the request forward as a detached garage.

Commissioner Womble asked if the applicant considered building it brick as the other buildings in the neighborhood. Mr. Wright shared that he had however it is cost prohibitive from doing so.

Commissioner Fishman asked if the request were to be changed to a detached garage, would the materials still have an impact. Mr. Brooks explained that as a detached garage 900 feet is the maximum and therefore the applicant would only be requesting 60 feet over the maximum. Mr. Miller added that in regards to the materials, HB2439 limits staffs ability to regulate materials, however the City Attorney feels that since SUP's are contingent zoning, Boards and Commissions do have the ability to dictate materials through SUP Ordinances.

Chairman Chodun asked for further questions from the Commission.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

7. Z2019-024

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a ~336-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*], and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation of the request. The only change being made to the Planned Development will be regarding the ponds and what was approved in 2009 and what is being requested now from four hard edge ponds to down to three ponds. Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward.

Adam Buzcek
8214 Westchester Drive, Suite 710
Dallas, TX

Mr. Buzcek came forward and provided a short power point presentation detailing the proposed request. To date three hard edge retention pond locations have been satisfied and a city park pond with no hard edge. They are requesting to reduce the ponds to three instead of four as to not burden the HOA with an additional one. In the original 2007 Settlement Agreement up to 935 square foot lots were allowed with the current PD allowing up to 918 square foot lots. At build out Stone Creek will now finish with 32 fewer lots than allowed which will be lower density due to the combination of enlarged park dedication. He indicated he was available for questions.

Chairman Chodun asked for questions from the Commission.

Commissioner Logan asked if they would be reducing the amount of runoff that were originally calculated with the four ponds. City Engineer, Amy Williams, shared that the ponds are not detention ponds but decorative retention ponds.

Chairman Chodun asked for further questions from the Commission.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

8. SP2019-035

Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [*FM-3097*], and take any action necessary.

Chairman Chodun asked the applicant to come forward.

Greg Wallis
Mershawn Architects
1520 E. IH-30
Rockwall, TX

Mr. Wallis came forward and indicated he was available for questions.

Senior Planner, Korey Brooks, added that the Commission recommended approval of a Specific Use Permit and with the proposed addition there will be two variances associated with it. The first one will be due to the bay doors face Horizon Road a variance is required. The second one will be for the horizontal articulation along the two long ends of the building.

Chairman Chodun asked for questions or discussion from the Commission.

There being no questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

9. SP2019-037

Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

Chairman Chodun asked the applicant to come forward.

Anna Blackwell
Carrillo Engineering
301 Commerce Street, Suite 1410
Fort Worth, TX

Ms. Blackwell came forward and indicated she is the civil engineer and is representing the owner. She shared they met with the Architectural Review Board before the meeting and will be making modifications to the elevations of the building as well as to the articulation and other architectural components to further meet the intent of the regulations of the area. They will be requesting to variances to the site plan one being having three rows of parking in the front of the building and also for the orientation of the dumpster enclosure. Ms. Blackwell indicated she was available for questions.

Chairman Chodun asked for questions from the Commission.

Commissioner Womble asked if after speaking with the Architectural Review Board any thought had been given as to how to go around not requesting numerous variances. Ms. Blackwell referred the question to the architect of the project.

Jim Hurt
1716 Virginia Place
Fort Worth, TX

Mr. Hurt came forward and shared they had a good discussion with the Architectural Review Board in regards to the articulation of the façade and they feel they have good direction to meet the intent of the regulations of the area.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

10. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

- ✓ P2019-017: Preliminary Plat for the Emerson Farms Addition [*Approved*]
- ✓ P2019-031: Final Plat for Saddle Star South, Phase 1 Addition [*Approved*]
- ✓ P2019-033: Replat for Lot 47, Block D, Park Place West, Phase II Addition 1 [*Approved*]
- ✓ Z2019-017: Zoning Change (AG to PD) for Townhomes (*1st Reading*) [*Withdrawn*]
- ✓ Z2019-018: Amendment to Planned Development District 5 (PD-5) (*1st Reading*) [*Approved*]

- ✓ Z2019-019: Specific Use Permit (SUP) for a Freestanding Commercial Antenna (*1st Reading*) [*Withdrawn*]
- ✓ Z2019-020: Zoning Change (AG to C) for the Panzner Addition (*1st Reading*) [*Approved*]

VI. ADJOURNMENT

Chairman Chodun adjourned the meeting at 6:40 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	October 29, 2019
APPLICANT:	Steven Homeyer; *Homeyer Engineering, Inc.*
CASE NUMBER:	P2019-039; *Lot 8, Block A, Ellis Centre, Phase Two Addition*

SUMMARY

Discuss and consider a request by Steven Homeyer of Homeyer Engineering, Inc. on behalf of Julia McKinney for the approval of a replat for Lot 8, Block A, Ellis Centre Phase 2 Addition being a 1.21-acre parcel of land identified as Lot 4, Block A, Ellis Centre Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located west of the intersection of Alpha Drive and Sigma Court, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 1.21-acre parcel of land [i.e. *Lot 8, Block A, Ellis Centre, Phase 2 Addition*] that will establish firelane, public access, utility, and detention easements for the purpose of developing the *subject property*. The *subject property* is zoned Light Industrial (LI) District and is addressed as 1920 Alpha Drive.

☑ On May 17, 2019, Steven Homeyer of Homeyer Engineering, Inc. submitted a site plan [*i.e. Case No. SP2019-017*] proposing the construction of a ~6,042 SF single-story, animal boarding/kennel facility. On June 11, 2019, the Planning and Zoning Commission approved the site plan and all exceptions requested.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the replat for *Lot 8, Block A, Ellis Centre, Phase 2 Addition,* staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall

Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(10/25/2019 10:03 AM DG)
P2019-039: Replat – Ellis Centre, Phase 2 Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a replat for Lot 8, Block A, Ellis Centre Phase 2 Addition being a 1.21-acre parcel of land identified as Lot 4, Block A, Ellis Centre Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located west of the intersection of Alpha Drive and Sigma Court.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (P2019-039 in the lower right hand corner of all pages on future submittals.

I.4 The final plat shall conform to all standards and requirements of Chapter 38 of the Rockwall Code of Ordinances, the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

M.5 The plat is required to fit onto an 18" x 24' sheet. Please correct. This may require two (2) pages in order to convey the information. (Chapter 38, Subdivisions, Sec. 38-10(a), Code of Ordinances)

M.5 Correct Title Block to read as follows:
Final Plat
ELLIS CENTRE, PHASE 2
Lot 8, Block A
Being a replat of Lots 4, Block A, of the Ellis Centre Addition,
Recorded in Cabinet G, Page 143, P.R.R.C.T.,
Situated in the Archibald Hanna Survey, Abstract No. 99
City of Rockwall, Rockwall County, Texas

I.6 Correct the Lot number on the plat to "Lot 8". Additionally, change the lot number to "Lot 8" where lot 4r appears (i.e. Certificate of Approval, Owners Certificate, Title Block, etc.) on the plat.

M.7 Refer to the standard plat wording as found in the application package and provide in its entirety as applicable. The plat as provided is incomplete and doesnot meet this standard. (See attached with staff comments)

I.8 Notary certificate is not necessary when plat is stamped by surveyor.

I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; however, it is encouraged for the applicants to submit revisions as soon as possible to give staff ample time to review the case for compliance. Please provide one (1) large copy [18" X 24" FOLDED] and one PDF version for a final review by staff.

I.10 The Planning and Zoning meeting will be held on October 29, 2019. This case will be on the Consent Agenda.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

I.11 The City Council meeting will be held on November 4, 2019. This case will be on the Consent Agenda.

I.12 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.

I.13 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

STANDARD PLAT WORDING FOR FINAL PLATS AND REPLATS

City of Rockwall
Planning and Zoning Department
385 S. Goliad Street
Rockwall, Texas 75087

GENERAL REFERENCE: CHAPTER 38, *SUBDIVISIONS*, OF THE MUNICIPAL CODE OF ORDINANCES

OWNER'S CERTIFICATION [PUBLIC DEDICATION]

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS [OWNER'S NAME], *BEING THE OWNER OF A TRACT OF* land in the County of Rockwall, State of Texas, said tract being described as follows: ***[LEGAL DESCRIPTION]***

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I *(we)* the undersigned owner(s) of the land shown on this plat, and designated herein as the ***[SUBDIVISION NAME]*** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the ***[SUBDIVISION NAME]*** subdivision have been notified and signed this plat. I *(we)* understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or
7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements.

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

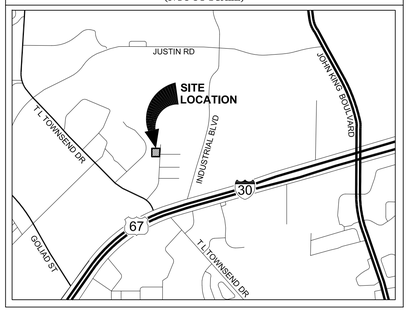
Director of Planning & Zoning ***City Engineer***

PLAT FILING REQUIREMENTS [AFTER APPROVAL OF THE PLAT]



Final plats and replats must be filed with the County Clerk within 180 days of the City Council approval date or the plat will be considered void. If the plat is voided, it must be re-approved by the Planning & Zoning Commission and City Council.

All plats will be filed with Rockwall County by City of Rockwall staff; however, the applicant is responsible for providing City staff with the appropriate plat information necessary to file the plat with the County Clerk. This includes a minimum of one (1) signed mylar sets (18" x 24") with current Tax Certificates and a check for the filing fees made payable to the ***Rockwall County Clerk*****.** Tax Certificates can be obtained from the Rockwall County Appraisal District located at 841 Justin Road, Rockwall, Texas 75087.

FILING FEES:
Mylars: $50.00 per page for the 1st set only (*No charge for additional sets*).
Tax Certificates: $30.00 for the 1st certificate and $4.00 for each additional certificate.

Per Rockwall County:
*Please note if submitting mylars between September 1st through December 31st, ***tax receipts*** must also be filed with the plat. The filing of the tax receipt will incur a filing fee of $4.00 per tax receipt, made payable to the ***Rockwall County Clerk***.

VICINITY MAP
(NOT TO SCALE)

GENERAL NOTES

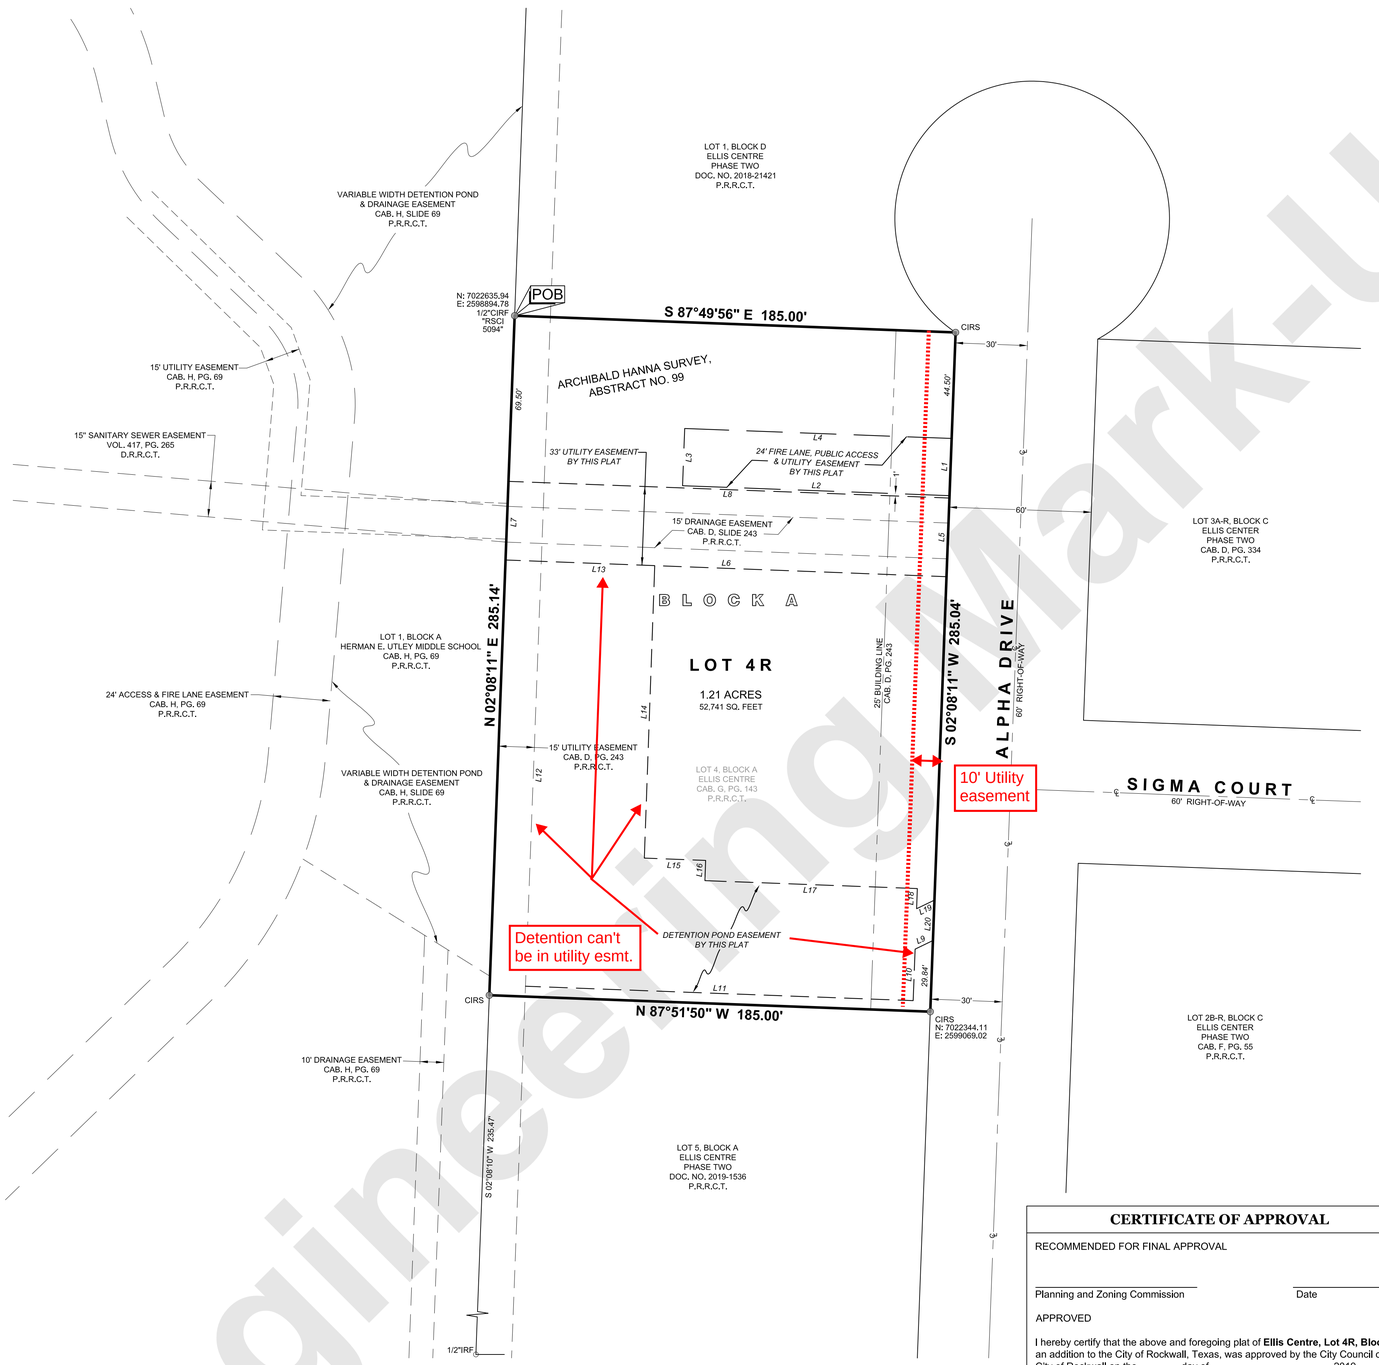
1.) The purpose of this plat is to dedicate easements for site development.

2.) This property is located in "Non-shaded Zone X" and "Zone AE" according to the F.E.M.A. Flood Insurance Rate Map dated September 26, 2008 as shown on Map Number 48397C0040L.

3.) The grid coordinates shown on this plat are based on GPS observations utilizing the AllTerra RTKNET Cooperative network. NAD 83(2011) State Plane Coordinate System (Texas North Central Zone - 4202).

4.) Selling a portion of this addition by metes and bounds is a violation of City Ordinance and State Law, and is subject to fines and/or withholding of utilities and building permits.

5.) All interior property corners are marked with a 1/2-inch iron rod with a green plastic cap stamped "EAGLE SURVEYING" unless noted otherwise.



6.) The bearings shown on this plat are based on GPS observations utilizing the AllTerra RTKNET Cooperative network. NAD 83(2011) Datum.

7.) Property owner is responsible for repair, replacement, and maintenance off all detention and drainage systems in easements on-site.

STATE OF TEXAS §
COUNTY OF ROCKWALL §

WHEREAS, **CANINE PROPERTIES, LLC**, is the owner of a 1.21 acre tract of land situated in the ARCHIBALD HANNA SURVEY, ABSTRACT NUMBER 99, City of Rockwall, Rockwall County, Texas, being all of Lot 4, Block A of Ellis Centre, an addition to the City of Rockwall, Texas, recorded in Cabinet G, Page 143, Plat Records of Rockwall County, Texas, and being conveyed by General Warranty Deed to Canine Properties, LLC, recorded in Document Number 20190000012843, Official Public Records of Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a 1/2-inch iron rod with plastic cap stamped "RSCI 5094" found at the Northwest corner of said Lot 4, Block A, being in the East line of Lot 1, Block A of Herman E. Utley Middle School, an addition to the City of Rockwall, Texas, recorded in Cabinet H, Page 69, Plat Records of Rockwall County, Texas, and being at the Southwest corner of Lot 1, Block D of Ellis Centre, Phase Two, an addition to the City of Rockwall, Texas, recorded in Document Number 2018-21421, Plat Records of Rockwall County, Texas;

THENCE South 87°49'56" East, with the North line of said Lot 4, Block A and the common South line of said Lot 1, Block D, a distance of 185.00 feet to a 1/2-inch iron rod with green plastic cap stamped "EAGLE SURVEYING" set at the Northeast corner of said Lot 4, Block A, and being in the West right-of-way line of Alpha Drive (a 60-foot right-of-way);

THENCE South 02°08'11" West, with the East line of said Lot 4, Block A and the West right-of-way line of said Alpha Drive, a distance of 285.04 feet to a 1/2-inch iron rod with green plastic cap stamped "EAGLE SURVEYING" set at the Southeast corner of said Lot 4, Block A and being at the Northeast corner of Lot 5, Block A of said Ellis Centre, an addition to the City of Rockwall, Texas, recorded in Document Number 2019-1536, Plat Records of Rockwall County, Texas;

THENCE North 87°51'50" West, with the South line of said Lot 4, Block A and the common North line of said Lot 5, Block A, a distance of 185.00 feet to a 1/2-inch iron rod with green plastic cap stamped "EAGLE SURVEYING" set at the Southwest corner of said Lot 4, Block A, being at the Northwest corner of said Lot 5, Block A and being in the East line of said Lot 1, Block A;

THENCE North 02°08'11" East, with the West line of said Lot 4, Block A and the common East line of said Lot 1, Block A, a distance of 285.14 feet to the **POINT OF BEGINNING**, and containing 1.21 acres of land, more or less.

NOW THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT, **CANINE PROPERTIES, LLC,** does hereby adopt this plat, designating herein described property as **ELLIS CENTRE, LOT 4R, BLOCK A,** an addition to the City of Rockwall, Rockwall County, Texas, and does hereby dedicate to public use forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown for the purpose and consideration therein expressed. No buildings, fences, trees, shrubs or other improvements or growths shall be constructed or placed upon, over or across the drainage and utility easements as shown. Said drainage and utility easements being hereby reserved for the mutual use and accommodation of all public utilities desiring to use same. All and any public utility shall have the right to remove and keep removed all or parts of any buildings, fences, trees, shrubs or other improvements or growths which may in any way endanger or interfere with the construction, maintenance, or efficiency of its respective system on the drainage and utility easement and all public utilities shall at all times have the full right of ingress and egress to or from and upon the said drainage and utility easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining and adding to or removing all or parts of its respective systems without the necessity at any time of procuring the permission of anyone.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	October 29, 2019
APPLICANT:	David Rains
CASE NUMBER:	P2019-041; *Lot 35, Block A, Chandler's Landing, Phase 18, Section 2*

SUMMARY

Consider a request by David Raines for the approval of a replat for Lot 35, Block A, Chandler's Landing, Phase 18, Section 2 being a 0.19-acre tract of land identified as Lot 12, Block A, Chandler's Landing, Phase 18, Section 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development 8 (PD-8) District for single-family land uses, addressed as 5808 Constellation Circle, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to replat one (1) lot (*i.e. Lot 12, Block A, Chandler's Landing, Phase 18, Section 2 Addition*) into Lot 35, Block A, Chandler's Landing Phase 18, Section 2 for the purpose of abandoning a portion of a sanitary sewer easement.

☑ The subject property was annexed in 1973 [*Ordinance No. 73-42*], is zoned as Planned Development District 8 (PD-8) for single-family land uses, and is addressed as 5808 Constellation Circle.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for replats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the replat for *Lot 35, Block A, Chandler's Landing Phase 18, Section 2*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

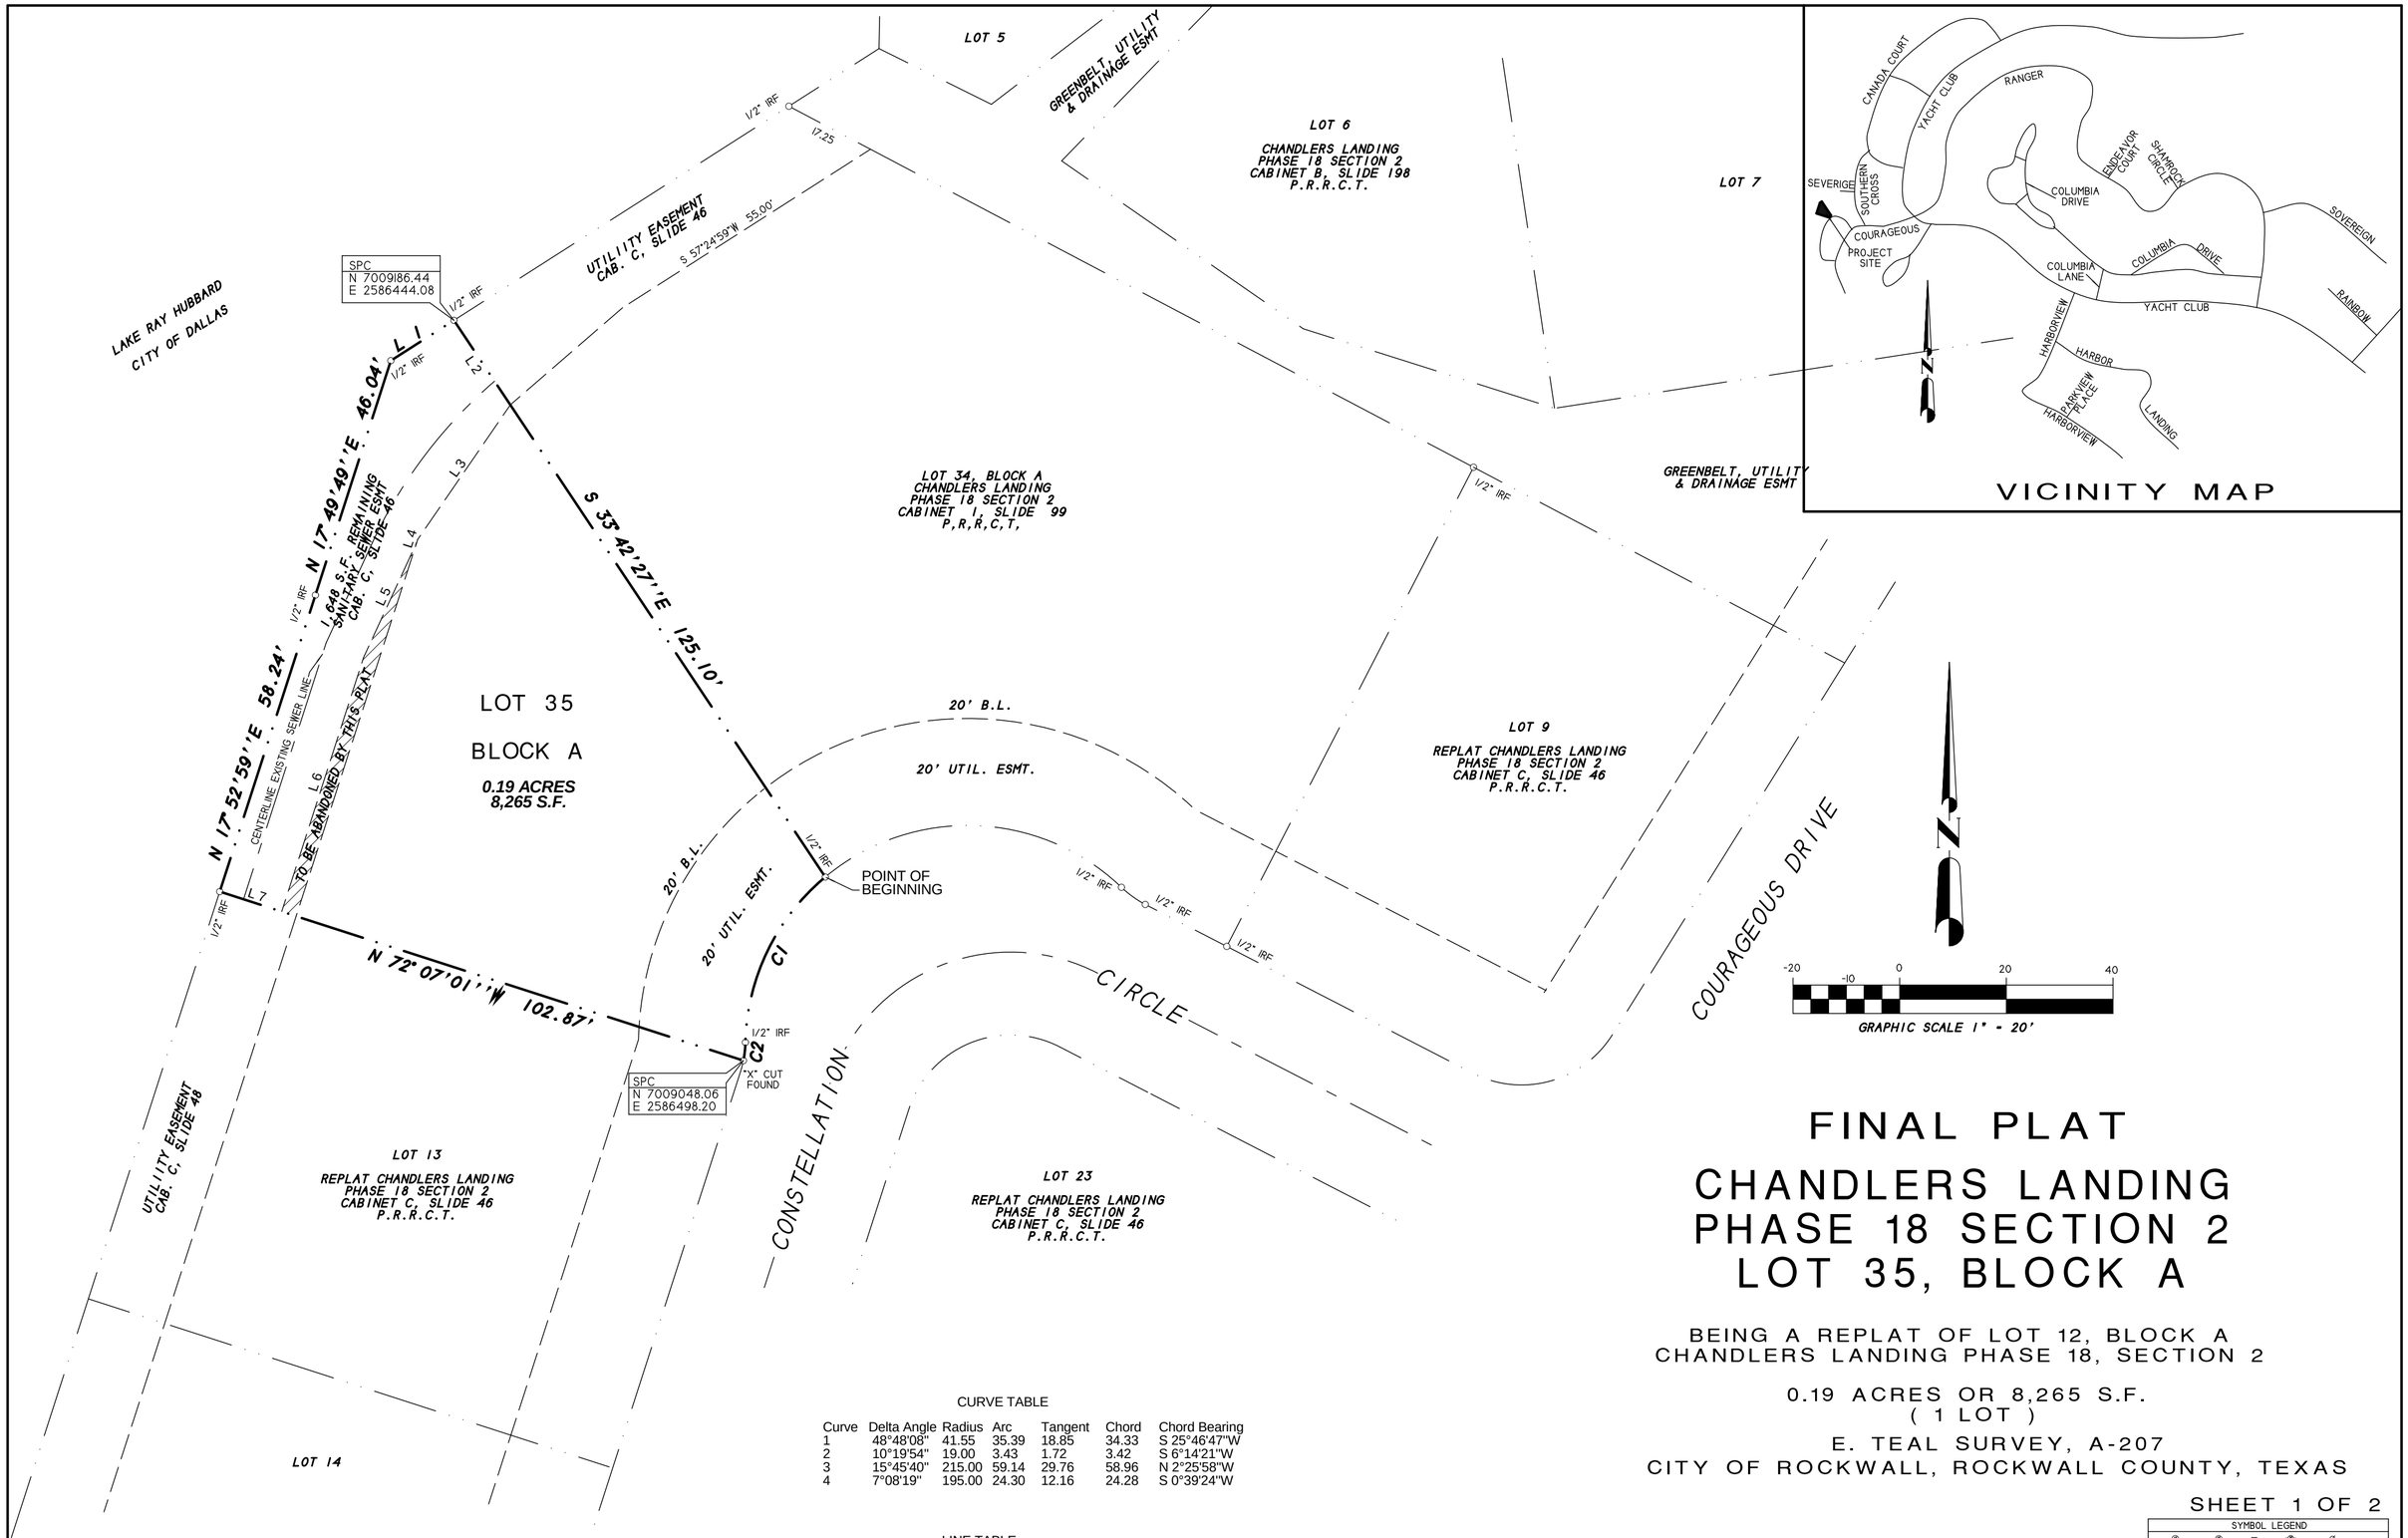
P2019-041; Replat for Lot 38, Block A, Chandlers Landing Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by David Raines for the approval of a replat for Lot 35, Block A, Chandler's Landing, Phase 18, Section 2 being a 0.19-acre tract of land identified as Lot 12, Block A, Chandler's Landing, Phase 18, Section 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development 8 (PD-8) District for single family land uses, addressed as 5808 Constellation Circle.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2019-041) in the lower right-hand corner of all pages on future submittals.
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).
M.5 This request is considered to be a complete application.
M.6 Replat. Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please provider a purpose statement.
2) Is there an instrument # for the greenbelt and utility easement adjacent to Lot 34.
3) Is there an instrument number for the 20-foot utility easement at the front property line.
4) Please note that there is a signature block for two owners. Is this property owned by two people?
5) Please note that the signature block for the Planning and Zoning Chair is missing.
6) Please add "7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements."



I.7 Please note that failure to address all comments provided by staff by 5:00 PM on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that aredenied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; The Planning & Zoning Meeting October 29, 2019.

STATE OF TEXAS
COUNTY OF ROCKWALL

OWNER'S CERTIFICATE
(Public Dedication)

WHEREAS, DAVID RAINS, BEING the Owner of a tract of land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING all of Lot 12, Block A, REPLAT CHANDLERS LANDING, PHASE 18, SECTION 2 an Addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet C, Slide 46, of the Plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the curving right-of-way line of Constellation Circle, a variable width right-of-way, said point being at the east corner of said Lot 12 and the southwest corner of said Lot 34, Block A;

THENCE in a southwesterly direction along a curve to the left having a central angle of 48 deg. 48 min. 08 sec., a radius of 41.55 feet, a tangent of 18.85 feet, a chord of S. 25 deg. 46 min. 47 sec. W., 34.33 feet, along said right-of-way line, an arc distance of 35.39 feet to a 1/2" iron rod found for corner;

THENCE in a southwesterly direction along a curve to the right having a central angle of 10 deg. 19 min. 54 sec., a radius of 19.00 feet, a tangent of 1.72 feet, a chord of S. 06 deg. 14 min. 21 sec. W., 3.42 feet, along said right-of-way line, an arc distance of 3.43 feet to an "X" found chiseled in concrete for corner at the southeast corner of Lot 12 and northeast corner of Lot 13;

THENCE N. 72 deg. 07 min. 01 sec. W. along the northeast boundary line of Lot 13, a distance of 102.87 feet to a 1/2" iron rod found for corner in the take line of the City of Dallas for Lake Ray Hubbard and being the northwest corner of said Lot 13;

THENCE N. 17 deg. 52 min. 59 sec. E. along said take line and the northwest line of Lot 12, a distance of 58.24 feet to a 1/2" iron rod found for corner;

THENCE N. 17 deg. 49 min. 49 sec. E. along said take line and the northwest line of Lot 12, a distance of 46.04 feet to a 1/2" iron rod found for corner;

THENCE N. 57 deg. 24 min. 55 sec. E. along said take line and north line of Lot 12, a distance of 14.00 feet to a 1/2" iron rod found for corner at the north corner of Lot 12 and the northwest corner of Lot 34;

THENCE S. 33 deg. 42 min. 27 sec. E. a distance of 125.10 feet to the POINT OF BEGINNING and containing 8,265 square feet or 0.19 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner of the land shown on this plat, and designated herein as CHANDLERS LANDING, PHASE 18, SECTION 2, LOT 35, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	October 29, 2019
SUBJECT:	Temporary Moratorium on the Acceptance and Processing of Subdivision Plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ)

In conformance with Chapter 242 of the Texas Local Government Code (TLGC), the City of Rockwall and Rockwall County entered into an *Interlocal Agreement* on November 12, 2013 requiring the City of Rockwall to process and review subdivision plats within the City's Extraterritorial Jurisdiction (ETJ). The City was required to enforce its *Subdivision Regulations* and the *Unified Regulations*, which were contained in the *Interlocal Agreement* as *Exhibit 'A'*. On October 22, 2019, the Rockwall County Commissioner's Court approved a motion to notify all cities in Rockwall County that the interlocal agreements would need to be amended to account for changes in the *Subdivision Regulations* of Rockwall County, which would affect the *Unified Regulations* contained in the *Interlocal Agreement* agreed to be enforced in the City's Extraterritorial Jurisdiction (ETJ). This motion was in response to the County's work with their consultant -- *Freese & Nichols, Inc.* -- on revising their *Subdivision Regulations*, and based on a lawsuit challenging certain requirements contained in the current County *Subdivision Regulations* and which are also contained in *Unified Regulations* of the *Interlocal Agreement* between Rockwall and Rockwall County and which are required to be enforced by the City.

As the Planning and Zoning Commission is aware, subdivision plats are an important way that the City ensures that proper public facilities, infrastructure, drainage, and fire protection are being provided to support development of property in the City's Extraterritorial Jurisdiction (ETJ); and, with the uncertainty of how the changes to the *Unified Regulations* will impact the review criteria contained in the *Interlocal Agreement*, the City of Rockwall is proposing to impose a moratorium on the acceptance and processing of subdivision plats for residential and commercial property in the City's Extraterritorial Jurisdiction (ETJ). The power to invoke a moratorium is granted to the City by Chapter 212, *Municipal Regulation of Subdivisions and Property Development*, of the Texas Local Government Code. This section of the code lays out the specific procedures for imposing a moratorium, and staff has included a memorandum prepared by the City Attorney outlining the circumstances and procedures involved with imposing a moratorium. The attached draft ordinance would impose a moratorium of 90-days on commercial development and 120-days on residential development, which would allow staff to work with the County to prepare a revised *Interlocal Agreement* without undermining the effectiveness of the revised review criteria by approving applications that may or may not meet this new criterion. The moratorium is not expected to be in place for the entire duration allowed under the law, just until the new *Unified Regulations* are adopted by the County and agreed to by the City.

Unit the new *Unified Regulations* are adopted, it is clear that applying the existing development ordinances and/or regulations, that have been stricken down by the court, is inadequate to prevent any new development from possibly causing the overcapacity of infrastructure or being detrimental to the public's health, safety, and general welfare in the City's Extraterritorial Jurisdiction (ETJ).

A calendar for the proposed temporary moratorium is as follows:

- ✓ *October 25, 2019*: 1st Notice of Public Hearing Published in the Dallas Morning News
- ✓ *October 29, 2019*: Planning and Zoning Commission Public Hearing
- ✓ *October 31, 2019*: 2nd Notice of Public Hearing Published in the Dallas Morning News

- ✓ *November 1, 2019*: Temporary Moratorium Take Effect
- ✓ *November 4, 2019*: City Council Public Hearing and 1st Reading of the Ordinance
- ✓ *November 5, 2019*: Agenda Posted for Special City Council Meeting
- ✓ *November 8, 2019*: Special City Council Meeting and 2nd Reading of the Ordinance

At the Planning and Zoning Commission meeting on *October 29, 2019*, the Planning and Zoning Commission will need to hold a public hearing on the moratorium and provide a recommendation to the City Council concerning the imposition of the proposed moratorium.

MEMORANDUM

DATE: October 21, 2019, 2019

Re: Moratorium of Development

There is a process under state law that allows a city to adopt a moratorium on development; however, before the City can approve a moratorium, it must follow very precise procedures that are outlined in Chapter 212 of the Texas Local Government Code.

The state law on moratoriums was adopted by the Texas Legislature in 2001 but was significantly amended in 2005 making it more difficult for cities to adopt a moratorium on development. Under Section 212.133 of the Texas Local Government Code, **a city may not adopt a moratorium unless it complies with strict notice and hearing procedures and makes written findings required by law**. Specifically, state law requires the following steps before a developmental moratorium can be adopted:

Public Hearing and Notice Requirements

Section 212.134 of the Texas Local Government Code

- Before a moratorium on property development may be imposed, the city must conduct two public hearings, one before the Planning and Zoning Commission and one before the City Council.
- The city must publish notice of the time and place of the hearings in a newspaper of general circulation on the **fourth day before the date of each hearing**. (Requires daily newspaper).
- A public hearing must provide residents and individuals affected by the proposed moratorium an opportunity to be heard.
- On the fifth business day after the date a notice is published, **a temporary moratorium takes effect**. During the period of the temporary moratorium, the city may stop accepting permits, authorizations, and approvals necessary for the subdivision of, site planning of, or construction on real property.
- Within 12 days after the date of the Council public hearing, the city shall make a final determination on the imposition of a moratorium. Before an ordinance adopting a moratorium may be imposed, the ordinance must be given at least two readings by the City Council. The readings must be separated by at least four days. If the City fails to adopt an ordinance within the period required by law, an ordinance imposing a moratorium may not be adopted, and the temporary moratorium expires.

Written Findings Requirement

Section 212.135 of the Texas Local Government Code

City must issue written findings that include evidence demonstrating the estimated capacity of **existing essential public facilities is insufficient to support new property development**. City must identify the following:

- Any essential public facilities currently operating near, at, or beyond capacity. Essential public facilities is defined by state law as **water, sewer, drainage facilities or street improvements**;
- The portion of that capacity committed to the development subject to the moratorium; and
- Evidence demonstrating that the moratorium is reasonably limited to areas of the city or ETJ where a shortage of essential public facilities would otherwise occur; and property that has not been approved for development because of the lack of existing essential public facilities.

A moratorium that is not based on a shortage of essential public facilities is justified only by **demonstrating a significant need for other public facilities**, including police and fire facilities. A significant need for public facilities is established if the failure to provide those public facilities would be detrimental to the health, safety, and welfare of the residents of the City. Written findings must be issued by the City which includes:

- Evidence demonstrating that applying existing development ordinances or regulations is inadequate to prevent the new development from causing the overcapacity of municipal infrastructure or being detrimental to the public health, safety, and welfare in an affected geographical area;
- Evidence demonstrating that alternative methods of achieving the objectives of the moratorium are unsatisfactory; and
- Evidence demonstrating that the city has a **Council approved** plan and time schedule for achieving the objectives of the moratorium.

If the City were to adopt a moratorium after complying with the above stated procedures, the moratorium would **not apply to any existing developments that were submitted to the City prior to the temporary moratorium going into effect.** Once the moratorium goes into effect, the duration cannot exceed 120 days unless extended by holding an additional public hearing and making additional written findings as to why the moratorium should be extended. Moreover, state law also requires the city to allow for a waiver process for any applicant who wishes to proceed with development once the moratorium is adopted.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ENACTING A TEMPORARY MORATORIUM STAYING THE ACCEPTANCE AND PROCESSING OF SUBDIVISION PLAT APPLICATIONS IN THE CITY OF ROCKWALL'S EXTRATERRITORIAL JURISDICTION; PROVIDING FOR FINDINGS OF FACT; PROVIDING FOR DEFINITIONS; PROVDING FOR APPLICABILITY, PURPOSE, ENACTMENT, DURATION, EXTENSION, EXCEPTIONS AND EXEMPTIONS, DETERMINATION, AND APPEALS; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR REMEDIES; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, in conformance with Chapter 242, *Authority of Municipality and County to Regulate Subdivisions In and Outside Municipality's Extraterritorial Jurisdiction*, of the Texas Local Government Code the City of Rockwall has entered into an agreement (the *Interlocal Agreement*) with Rockwall County for the processing and review of subdivision plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ); and

WHEREAS, *Exhibit 'A'*, *Unified Regulations for Review of Plats in ETJ of City of Rockwall*, of the *Interlocal Agreement* provides the review criteria for subdivision plats in the Extraterritorial Jurisdiction (ETJ); and

WHEREAS, in accordance with the *Terms of Agreement* of the *Interlocal Agreement*, Rockwall County notified the City of Rockwall in writing on October 23, 2019 requesting to make changes to *Exhibit 'A'* of the *Interlocal Agreement* for the purpose of addressing changes in the *Subdivision Regulations* of Rockwall County; and

WHEREAS, the City of Rockwall finds that subdivision plats are a necessary mechanism to ensure that proper public facilities, infrastructure, drainage, and fire protection can be provided to support future development within the City's Extraterritorial Jurisdiction (ETJ), and to protect the health, safety, natural environment, quality of life, and general welfare of Rockwall County residents; and

WHEREAS, the City of Rockwall finds that the issues identified by Rockwall County contained in the *Interlocal Agreement* leave the City without sufficient review criteria to effectively review subdivision plats for property in the City's Extraterritorial Jurisdiction (ETJ), and that the agreement no longer adequately addresses the subdivision of land and the provision of adequate public facilities needed by citizens of Rockwall County; and

WHEREAS, in order for the City of Rockwall and Rockwall County to have adequate and reasonable time to review, evaluate, and revise and approve the *Interlocal Agreement*, and to consider the impact of the review criteria for subdivision plats -- *contained in Exhibit 'A' of the agreement* -- on the provision of adequate public facilities, infrastructure, drainage, and fire protection for future developments within the City's Extraterritorial Jurisdiction (ETJ), the City intends on imposing a temporary moratorium lasting for a period of 90-days for commercial property and 120-days for residential property, during which no applications for subdivision plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ) will be accepted; and

WHEREAS, the purpose of prohibiting subdivision plat applications for commercial and residential property in the City's Extraterritorial Jurisdiction (ETJ) during this temporary moratorium is to preserve the *status quo*, facilitate thoughtful and consistent planning, avoid exploitation of the delays inherent in the municipal legislative process, and prevent applications from undermining the effectiveness of the revised review criteria by submitting a subdivision plat to avoid the application of new -- *and possibly more restrictive -- Interlocal Agreement*.

DRAFT 10.29.19

WHEREAS, in recognition of the importance of subdivision plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ) to property owners in this area, the City desires to implement this moratorium for a stated and fixed time period, and to include an exception and exemption clause -- *in accordance with Subchapter E of Chapter 212 of the Texas Local Government Code* -- to facilitate subdivision plat approval in cases of necessity and undue hardship; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the City Council of the City of Rockwall, in compliance with the laws of the State of Texas have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all persons interested in and situated in the affected area and in the vicinity thereof, the City Council in the exercise of its legislative discretion has concluded that a moratorium on residential and commercial development for property in the City's Extraterritorial Jurisdiction (ETJ) is necessary and in the interest of good governance, and ultimately in the best interest of the City of Rockwall;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. ***Findings of Fact.*** The foregoing recitals are incorporated into this ordinance by reference as legislative findings of fact as if expressly set forth herein.

SECTION 2. ***Definitions.*** As used in this ordinance, the following terms are defined. Any term appearing in this ordinance that is not specifically defined below shall have the meanings provided in the Municipal Code of Ordinances for the City of Rockwall, or if not defined in this document then the common meaning of the word shall apply.

(1) *Commercial Property.* Commercial property is defined as any property that is being platted for the purpose of authorizing any land use other than single-family or agricultural land uses (*e.g. multi-family, industrial, commercial, etc.*).

(2) *Proper Public Facilities.* Unless otherwise indicated in this ordinance, proper public facilities shall be defined as meaning water, wastewater or sewer, drainage facilities, street improvements, and fire and police protection.

(3) *Residential Property.* Residential property is defined as any property that is being platted for the purpose of authorizing single-family and agricultural land uses.

SECTION 3. ***Applicability.*** The City of Rockwall hereby enacts this ordinance in order to impose a temporary moratorium on the acceptance and processing of subdivision plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ).

SECTION 4. ***Purpose.*** This temporary moratorium is being enacted to allow the City of Rockwall and Rockwall County to evaluate the *Interlocal Agreement* and to update the review criteria for subdivision plats contained in *Exhibit 'A'* of the agreement.

SECTION 5. ***Enactment.*** The City of Rockwall hereby enacts this ordinance implementing a temporary moratorium on the City of Rockwall acceptance, review, and approval of subdivision plats in the City of Rockwall's Extraterritorial Jurisdiction (ETJ).

SECTION 6. ***Duration.*** The initial duration of this temporary moratorium shall be for a period not to exceed 90-days for commercial properties and not to exceed 120-days for residential properties after the approval and adoption of this ordinance, or the repeal of this ordinance by the City Council of the City of Rockwall, whichever occurs first.

SECTION 7. ***Exceptions and Exemptions.*** The following projects shall be considered for exceptions and exemptions from the moratorium:

(1) Exceptions.

DRAFT ORDINANCE 10.29.2019

(A) *No Impact Projects.* The temporary moratorium implemented by this ordinance does not apply to subdivision plat applications proposing to assemble or subdivide residential property into two (2) or less lots where each lot is a minimum of 1½-acres gross area and has a minimum of 150-feet of frontage on a public right-of-way.

(B) *Ongoing Projects.* The temporary moratorium implemented by this ordinance does not apply to any commercial or residential property that has an active subdivision plat application with the City of Rockwall or Rockwall County that has not expired in accordance with the rules and requirements of Rockwall County, the City of Rockwall, or the Texas Local Government Code.

(C) *Vested Projects.* The temporary moratorium implemented by this ordinance does not apply to any commercial or residential property that are vested under Chapter 245, *Issuance of Local Permits*, of the Texas Local Government Code. Property owners asserting vested rights shall submit an application claiming an exception to this temporary moratorium to the Planning and Zoning Department of the City of Rockwall for review in accordance with the requirements of the current *Interlocal Agreement*.

(2) *Exemptions.* Any property owner who does not assert rights under Chapter 245, *Issuance of Local Permits*, of the Texas Local Government Code, but who seeks authorization to proceed with a subdivision plat outside of the exceptions listed in this ordinance and during the temporary moratorium can request the following alternative forms of approval:

(A) *212 Development Agreement.* Property owners with a negotiated approval granted by the City Council that provides for construction standards, platting and development rules pursuant to Subchapter G, *Agreement Governing Certain Land in a Municipality's Extraterritorial Jurisdiction*, Chapter 212, *Regulations of Subdivisions*, of the Texas Local Government Code may apply for an exemption from the temporary moratorium.

SECTION 8. ***Determination and Appeals.***

(1) *Determinations.* The Director of Planning and Zoning or his/her designee shall make all initial determinations regarding the status of all projects seeking to submit a subdivision plat application during this temporary moratorium concerning the status of a project as provided for above in the *Exceptions and Exemptions* section of this ordinance.

(2) *Appeals.* Property owners seeking to challenge a determination made by the Director of Planning and Zoning may appeal that initial determination to the City Manager. Secondary determinations of the City Manager may be appealed to the City Council. The City Council's decision shall be final.

(3) Exemptions. The decision to approve an *Exemption* as provided for above in the *Exceptions and Exemptions* section of this ordinance shall rest solely with the City Council.

SECTION 9. ***Ordinances Cumulative.*** All ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby superseded to the extent of that conflict.

SECTION 10. ***Severability.*** If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Subdivision Regulations of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

SECTION 11. ***Effective Date.*** This ordinance shall take effect immediately.

DRAFT ORDINANCE 10-29-19

DRAFT ORDINANCE 10.29.2019

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	October 29, 2019
SUBJECT:	MIS2019-004; *Master Water/Wastewater Plan Update*

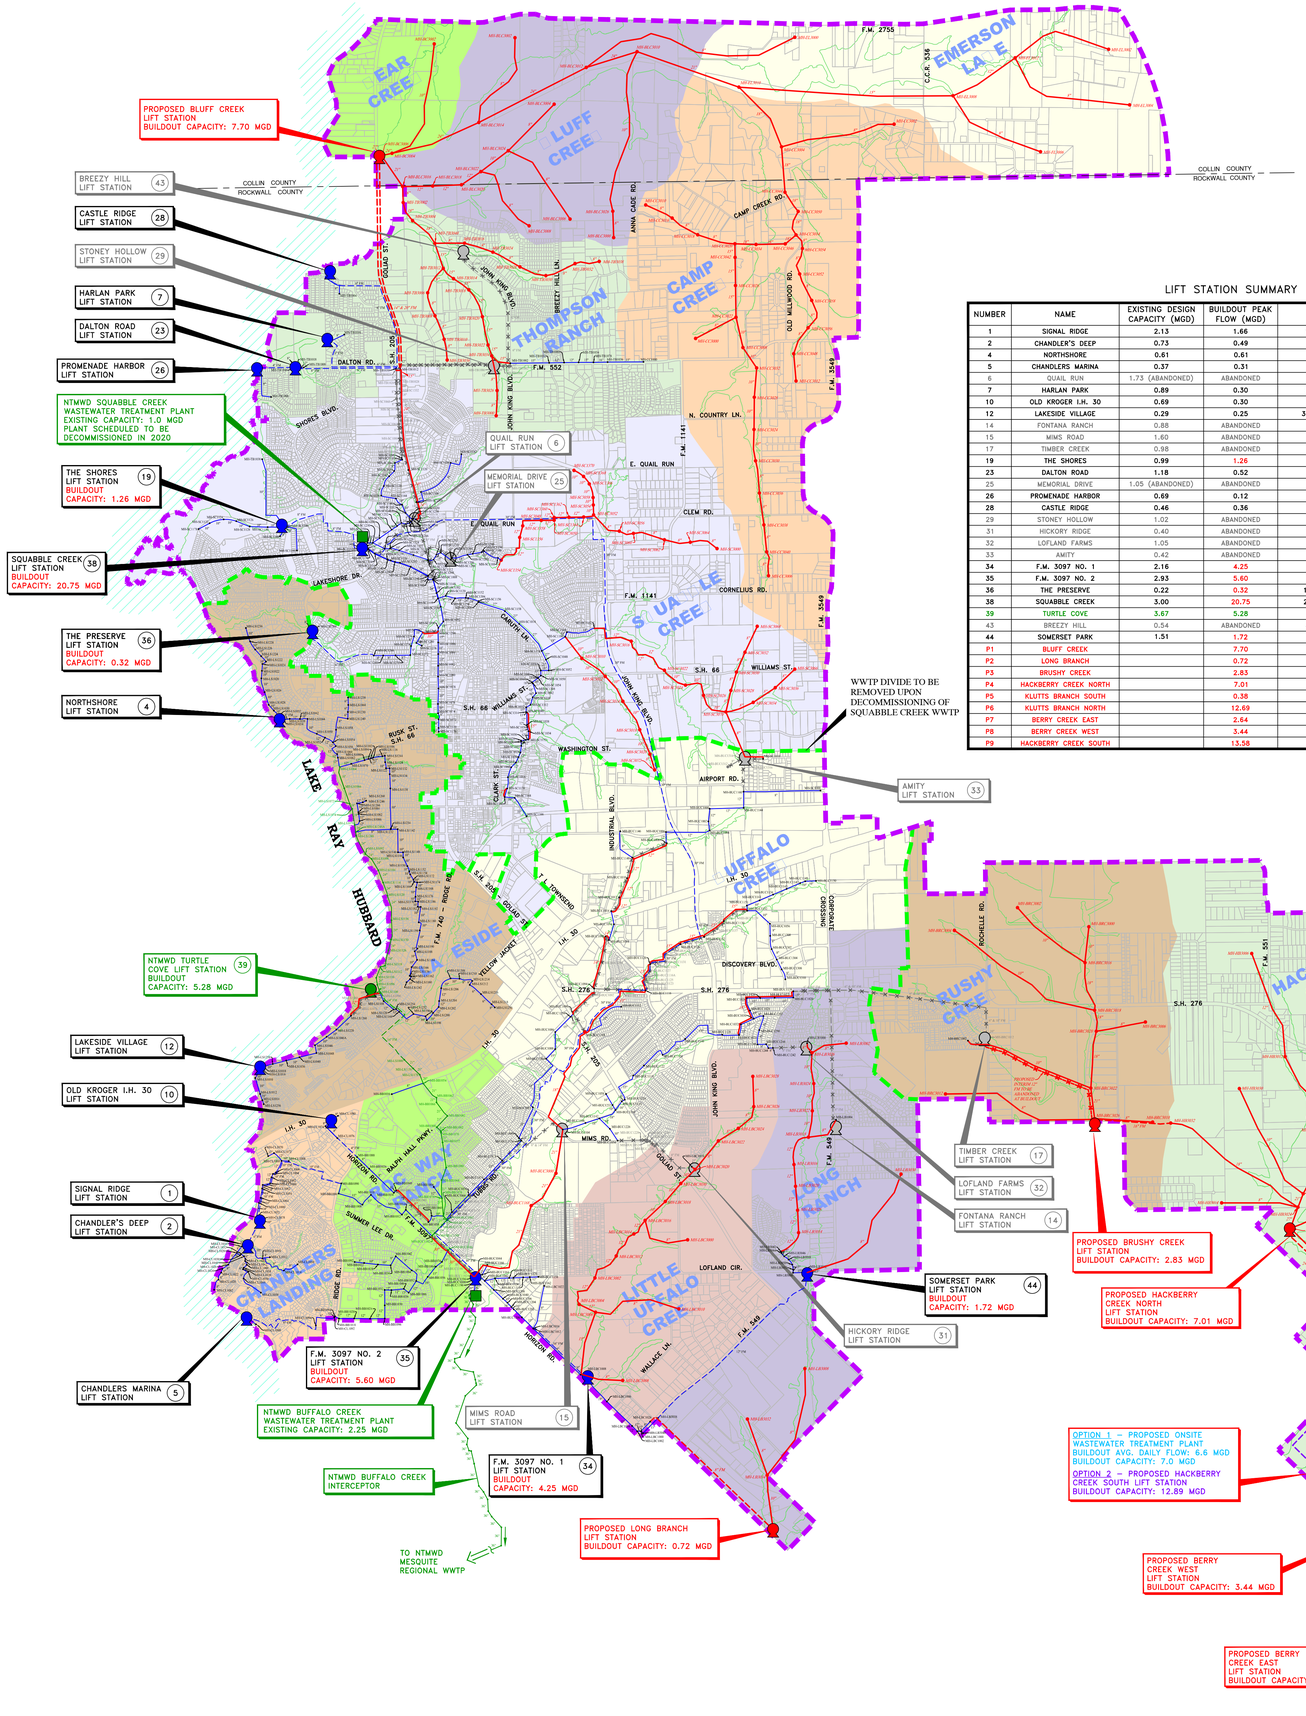
Recently, the City's consultant -- *Birkhoff, Hendricks & Carter LLP* -- finished revising the water and wastewater master plans. These plans were incorporated into the OURHometown Vision 2040 Comprehensive Plan on December 3, 2018 by *Ordinance No. 18-48*. As a result of their incorporation, staff is bringing forward an amendment to the Comprehensive Plan to incorporate the revisions identified by the City's consultants. According to Section 213.003 of the Texas Local Government Code, "*(a) comprehensive plan may be adopted or amended by ordinance following:*

(1) A hearing at which the public is given the opportunity to give testimony and present written evidence; and

(2) Review by the municipality's planning commission or department, if one exists."

Additionally, Section 9.03 of the City's Home Rule Charter states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change." Furthermore, Section 9.04 states that the "City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revision or any part thereof as submitted within sixty (60) days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council."

The projected meeting dates for this case are as follows:



Planning and Zoning Commission Work Session: October 29, 2019
Planning and Zoning Commission Public Hearing: November 12, 2019
City Council Public Hearing/1st Reading: November 18, 2019
City Council 2nd Reading: December 2, 2019.

Should the Planning and Zoning Commission have any question concerning the amendment, staff will be available at the ***October 29, 2019*** work session meeting.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER WATER PLAN AND THE MASTER WASTEWATER PLAN CONTAINED IN THE OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in a citizen action committee (*i.e. the Comprehensive Plan Advisory Committee [CPAC]*) and public meetings; and

WHEREAS, the OURHometown Vision 2040 Comprehensive Plan was adopted by the City Council of the City of Rockwall on December 3, 2019 by *Ordinance No. 18-43*; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations, and expenditures for capital improvements; and

WHEREAS, the Water/Wastewater Master Plans are updated on a five (5) year basis and the City Council of the City of Rockwall authorized Brickoff, Hendricks & Cater, LLP to perform the update; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Master Water Plan and Master Wastewater Plan contained within *Appendix 'C'* of the OURHometown Vision 2040 Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and

Section 2. The Comprehensive Plan shall be used by City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF DECEMBER, 2019.

(10/24/2019 4:47 PM SJ)
M - Add note, "Property owner is responsible for maintaining, repairing, or replacing any drainage system/drainway in drainage easement."
M - Add a 10' utility easement along S Clark St frontage.
M - The existing Harris plat shows the lots to be 120' deep. Are you combining with the B.F. Boydstun Survey?
M - Must show the drainage Easement for floodplain defined per section 3.2.7 of standards.
M - Need to show 100-YR floodplain of squabble creek along with X-sections and 100-YR WSEL.
M - Will need topographic survey and contours to determine exact location of floodplain live to determine easement.

P2019-040; Replat for Lots 1 & 2, Block A, Haley & Kyle Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2019-040) in the lower right-hand corner of all pages on future submittals.
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).
M.5 This request is considered to be a complete application.
M.6 Replat. Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please provide Point of Beginning
2) Please review title block and legal description. Is this a replat of Lot A, Block 107, B.F. Boydstun Addition?
3) Please add "7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements."
4) Please show topography lines on this plat.

I.7 Please note that failure to address all comments provided by staff by noon on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; The Park Board Meeting for this case is November 5, 2019. The Planning & Zoning Meeting November 12, 2019. The City Council Meeting is November 18, 2019.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 48397C0030L dated SEPT 26, 2008, this property lies in Zone X. This property does not appear to lie within a 100-year flood plain.

2) BEARING SOURCE: CITY OF ROCKWALL CONTROL MONUMENT SYSTEM.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "RPLS 5034."

4) PROPERTY OWNER TO MAINTAIN, REPAIR, AND REPLACE DRAINAGE SYSTEMS ON SITE.

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representa tion, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, as required under Ordinance 83-54.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS KYLE BRYAN and HALEY BROOKE BOWEN, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.F. BOYDSTUN SURVEY, ABSTRACT NO. 14, City of Rockwall, Rockwall County, Texas, and being all of that 0.97 acres tract of land as described in a Warranty deed from Mario Del Bosque to Kyle Bryan and Haley Brooke Bowen, dated May 19, 2019 and being recorded in Document no. 20190000007530 of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the East right-of-way line of Clark Street (60' R.O.W.) at the Southwest corner of the above cited tract of land, said point also being at the Northwest corner of a 0.52 acres tract of land as described in a Contract for deed to David Lecour and Renee Lecour, dated January 15, 1999 and being recorded in Volume 1821, Page 207 of the Real Property Records of Rockwall County, Texas;

THENCE N. 01 deg. 19 min. 59 sec. W. along said right-of-way line, a distance of 150.00 feet to a 1/2" iron rod found for corner at the Northwest corner of said Bryan and Bowen tract and at the southwest corner of Lot 2, Block 1, Clark Street Homesites Addition, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet F, Slide 41 of the Plat Records of Rockwall County, Texas;

THENCE N. 88 deg. 38 min. 00 sec. E. a distance of 283.36 feet to a 1/2" iron rod found for corner at the Northeast corner of said Bryan and Bowen tract;

THENCE S. 00 deg. 39 min. 40 sec. E. a distance of 150.04 feet to a 1/2" iron rod found for corner at the Northeast corner of said Lecour tract;

THENCE S. 88 deg. 38 min. 21 sec. W. a distance of 281.60 feet to the POINT OF BEGINNING and containing 42,375 square feet or 0.97 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as HALEY & KYLE ADDITION, LOTS 1 & 2, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We , our successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

(9/20/2019 8:44 AM DG)
SP2019-037; Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-037) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], Resolution No. 10-40 (Design Guideline of PD-32), and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

I.6 Provide Site Data Table on all revised plans (i.e. landscape, treescape, photometric, and site plan).

I.7 Please relabel the proposed street section to Glen Hill Way (i.e. not Cemetery Road) on all revised plans (i.e. landscape, treescape, photometric, site plan).

M.8 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please relabel the street to Glen Hill Way (i.e. not Cemetery Road).
2) Verify the building square footage. Indicates 7,025 SF. The SF for each unit = 7,195 SF.
3) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
4) Will there be a dedicated 24-ft firelane in the parking lot? If so, please label.
5) Remove the label "to be abandoned" underneath Cemetery Road.
6) Is the chain link fence being removed? If so, please remove label from all other plans.
7) Under the Construction Schedule legend, No. 7 indicates a detail for the dumpster enclosure is located on the building elevations. The detail was not provided.
8) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required if not screened or reoriented.
9) Parking for a retail (4,592 SF) and restaurant (2603 SF) uses requires as follows: A) Retail Facility - a minimum of one (1) parking space per 250-SF (i.e. 1:250 SF = 18 parking spaces) & B) Restaurant - a minimum of one (1) parking space per 100-SF (i.e. 1:100 SF = 26 parking spaces) of gross floor area. Based on these uses, the proposed 7,025 SF facility requires a minimum of 44 parking spaces. Approval of a variance to Section 5, Off-Street Parking Requirements, of Article VI, Parking and Loading is required by the Planning and Zoning Commission.
10) The proposed parking lot has more than one (1) full row of parking (i.e. two rows of parking with a drive aisle) that is between the primary building façade and the right-of-way (i.e. Ridge Road) and requires a variance. (Subsection 6.02.D.2, Art. V, UDC).

M.9 Dumpster Enclosure. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, Trash/Recycling Receptacles and Dumpster Enclosures. Trash/Recycling Enclosures shall be four (4) sided. These receptacles shall be screened by a minimum eight (8) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. These enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building.

1) Provide detail of dumpster meeting the Scenic Overlay District's minimum standard for height, materials, etc. (Sec. 6.02.D.7, Art. V, UDC)

M.10 Streetscape Plan. Please provide a streetscape plan that shows conformance to the requirements of Ordinance No. 17-22. According to this ordinance the required streetscape plan shall include cut sheets and product specification sheets indicating the proposed products, and a plan indicating the location of all the products.

M.11 Building Elevations. Resolution No. 10-40 lays out three (3) architectural styles (i.e. Tuscan, Traditional, and/or Transitional) that are acceptable within Planned Development District 32 (PD-32). The proposed building elevations do not appear to adhere to any of the recommended architectural styles

M.12 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the submitted building elevations does not appear to have stone incorporated into the building's design. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.13 Building Elevations. Please review the articulation formulas contained in Section 4.01.C of Article V, District Development Standards, of the UDC. The submitted building elevations do not appear to meet all the formulas required for building articulation This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

I.11 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.
3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west).
4) Provide calculation of building materials as a percentage.

M.14 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
2) A minimum of two (2) canopy and four (4) accent trees are required in the 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC). Please indicate conformance to this requirement on the landscape plan and relabel where needed
3) Please provide an exhibit showing headlight screening for the head-in parking adjacent to the street (Subsection 5.02(C), Art. VIII, UDC).
4) Please provide an exhibit showing that all parking spaces are located within 80-feet from the trunk of a large canopy tree (Sec. 5.9; Art. VIII, UDC).
5) Parking Lot Landscaping – requires one (1), three (3) inch caliper 65 gallon tree be provided for every eight (8) parking spaces and the trees are to be provided in

5-ft x 5-ft diamond planters or island planters. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide tree leave outs.

6) Parking Lot Landscaping – landscape buffers adjacent to public streets are to consist of trees, shrubs, perennial, and/or ornamental grasses in natural groupings. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide exhibit.

7) Please provide an identifying symbol for each tree type to better identify what is being planted

8) Please ghost-in the existing trees in order to distinguish between proposed plantings.

9) Under General Planting Notes, number 5 indicates the "City of Canyon". Please change to City of Rockwall.

M.15 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, the director of planning and zoning, or his/her designee, shall review the treescape plan and approve the plan per the requirements of this article, or forward any recommendations to the planning and zoning commission As part of the treescape plan review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees The planning and zoning commission will review and approve or disapprove the treescape plan The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted

(1) Adjust mitigation inches due for all landscape trees being provided The minimum size required for planting of a canopy tree is four(4) inches. (Sec. 4.A.2, Art VIII, UDC)

M.16 Photometric Plan. Ordinance No. 17-22 stipulates a design standard for all pedestrian scale street lighting and parking lot light fixtures The proposed pedestrian scale street light does appear to conform to the design standards for this district

M.17 Based on the submittal staff has identified the following variances

1) Building Materials. The proposed addition exceeds the maximum permitted percentage of secondary materials and does not include a minimumof20% stone.
2) Building Articulation. The proposed addition does not meet the articulation standards established by the UDC.
3) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street.
4) Parking Count. The proposed site does not meet the minimum parking standards.
5) Parking Restrictions. The proposed parking lot has more than one (1) full row of parking (i.e. two (2) rows of parking with a drive aisle) adjacent to Ridge Road and within the Scenic Overlay (SOV) District.

To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two(2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.18 Please note that failure to address all comments provided by staff by5:00 PM on September 4, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.19 Staff has identified the aforementioned items necessary to continue the submittal process Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 8, 2019 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 24, 2019.

I.20 The Architectural Review Board (ARB) meeting will be held on September 24, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
forward a recommendation to the Planning and Zoning Commission I.21 Staff recommends that a representative be present for the meetings as scheduled above The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

SP2019-037; Revised Submittal -- Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-037) in the lower right-hand corner of all pages of all revised plan submittals (i.e. site plan, landscape plan, treescape plan, photometric plan, building elevations).

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

I.6 Provide Site Data Table on all revised plans (i.e. landscape, treescape, and photometric).

I.7 Please provide a label for the proposed street section of Glen Hill Way on all plans (i.e. landscape, treescape, and photometric).

M.8 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Under the Construction Schedule legend No. 7, change the minimum dumpster enclosure to indicate 8-ft.
2) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required.
3) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director.

M.9 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the revised building elevations do not incorporate stone on the front (east) and side (south) facing facades. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

I.10 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in RTU's) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west). 4) Provide calculation of building materials as a percentage. M.11 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions: 1) Please provide an exhibit showing headlight screeningfor the head-in parking adjacent to the street (Subsection 5.02(C), Art. VIII, UDC). M.12 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, The planning and zoning commission will review and approve or disapprove the treescape plan. The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted. (1) Total mitigation due= 336 caliper inches. Refer to Article IX, Sec. 5, Tree Mitigation Requirements in order to satisfy mitigation balance M.13 Based on the submittal staff has identified the following variances 1) Building Materials. The proposed addition does not meet the minimum of 20% stone. 2) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street. To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two(2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures. I.14 Please note that failure to address all comments provided by staff by8:00 AM on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case. I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the November12, 2019 Planning & Zoning Meeting. Please note that the Planning & Zoning Work Session meeting will be held on October 29, 2019. I.16 The Architectural Review Board (ARB) meeting will be held on October 29, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will forward a recommendation to the Planning and Zoning Commission. I.17 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

Responses from Capt. Ed Fowler 09.20.2019:

SP2019-037 Ridge Road Retail Center
Considerations.

- Consider Security lighting above all entrances, including rear doors, rear parking areas and dumpster(s).
- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding(fencing) area.
- Lighting placed on or in fencing area around dumpster to eliminate shadow and dark areas and prevent theft from dumpster(ID Theft, etc.)
- Add photocell to main exterior lighting and update all lighting to LED fixtures. Ensure that all lighting is positioned in a manner to minimize glare and reduce all shadows especially at the rear of business.
- Consider auxiliary locking system on rear doors.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider installation of locking mechanisms/bars on rear doors during closed hours.
- Consider installation of solid core doors for offices inside the business including the room that houses any monies or safe Single cylinder locks for all offices and a double cylinder lock for the safe room.
- Consider an additional alarm inside the safe room, either attached to the entrance door or safe.
- Consider the addition of security cameras on the exterior of the building that provide360 degree coverage.
- Consider camera monitors for the rear of the business to ensure that employees will have a complete and unobstructed view prior to exiting into the rear parkin area.
- Consider the addition of security cameras for the interior the business.
- Ensure new or existing trees and bushes are trimmed within acceptable standards(Trees Trimmed up to7' and Bushes Trimmed Down to3') and consider ground wash lighting to illuminate the area and provide territorial reinforcement, ownership and enhance natural lines of sight at night.
- More than willing to speak directly with the business owners or developers about the property.

The implementation of all or any portion of the considerations are NO guarantee or assurance that crime will not occur or that the property will be crimeproof. The considerations should, however, reduce the probability of crime if the strategies and recommendations are properly applied and consistently maintained Any changes should still meet with the City of Rockwall's building code, code of ordinances and fire code.

GENERAL PLANTING NOTES

1. CONTRACTOR SHALL ADHERE TO CITY CONSTRUCTION REQUIREMENTS INCLUDING BUT NOT LIMITED TO ANY PERMITS, INSPECTIONS, AND METHODS OF MATERIAL INSTALLATION.
2. CONTRACTOR SHALL ADHERE TO ALL AGENCY REQUIREMENTS MEANS AND METHODS OF CONSTRUCTION.
3. CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UTILITIES ABOVE AND BELOW GRADE, AS WELL AS FINDING OUT EACH COMPANY'S RESTRICTIONS ON WORKING WITHIN THEIR EASEMENTS AND UTILITY LINES PRIOR TO COMMENCING CONSTRUCTION.
4. CONTRACTOR SHALL VERIFY LOCATION OF ALL EXISTING IMPROVEMENTS AND TO NOT DISTURB THOSE THAT ARE OUTSIDE OF THE SCOPE OF WORK. ANY STRUCTURES THAT ARE TO REMAIN WITHIN THE SCOPE OF WORK AREA SHALL NOT BE DAMAGED. PHOTOGRAPHS AND NOTES SHOULD BE MADE FOR ANY EXISTING DAMAGED CONDITIONS PRIOR TO COMMENCING CONSTRUCTION AND DISTRIBUTED TO OWNERS REPRESENTATIVE.
5. A LANDSCAPE IRRIGATION PLAN SHALL BE PREPARED PRIOR TO LANDSCAPE CONSTRUCTION AND WILL BE DESIGNED BY A TEXAS LICENSED IRRIGATION DESIGNER. ALL PLANTING AREAS SHALL BE IRRIGATED WITH AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE AND RAIN SENSOR. THE SYSTEM SHALL BE DESIGNED TO MEET THE CITY AND THE STATE OF TEXAS IRRIGATION REQUIREMENTS. THE IRRIGATION INSTALLER SHALL BE A STATE OF TEXAS LICENSED IRRIGATION DESIGNER.
6. CONTRACTOR SHALL NOTIFY OWNERS REPRESENTATIVE IF THERE ARE ANY WATER RESTRICTIONS AND WHAT IF ANY IMPACT THIS MAY HAVE ON THE INSTALLATION OF PLANT MATERIAL.
7. QUANTITIES SHOWN IN PLANT LIST FOR PLANT MATERIAL AREA PROVIDED AS A COURTESY FOR THE CONTRACTOR. CONTRACTOR SHALL VERIFY PRIOR TO BIDDING THAT THE QUANTITY WILL COVER THE SPECIFIED AREAS AT THE SPACING STATED IN THE PLANT LIST UNDER THE REMARKS COLUMN. IF THERE IS A DIFFERENCE, THE CONTRACTOR SHALL MAKE NOTE ON THEIR BID AND SHOW THE ADDED OR REDUCED COST.
8. CONTRACTOR SHALL ESTABLISH SOURCES FOR ALL PLANT MATERIAL ON PLANT LIST WHEN BIDDING PROJECT. NO PLANTS SUBSTITUTIONS.
9. CONTRACTOR SHALL BECOME FAMILIAR WITH THE DRAWINGS FOR THIS PROJECT PRIOR TO INSTALLATION.
10. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ADVISE THE OWNERS REPRESENTATIVE OF ANY CONDITION FOUND ON-SITE WHICH PROHIBITS INSTALLATION AS SHOWN ON THESE PLANS.
11. ALL NEW PLANTING BEDS SHALL HAVE A MINIMUM SIX (6") INCHES OF BED PREPARATION.
12. LAWN AREA SHALL HAVE FERTILE AND CLEAN TOP SOIL TILLED 4" DEEP.
13. GRADING IN PLANTING BEDS SHALL BE SMOOTH AND PROVIDE POSITIVE DRAINAGE.
14. CONTRACTOR SHALL STAKE OUT LOCATION OF ALL TREES, AND SHRUBS FOR APPROVAL BY OWNERS REPRESENTATIVE PRIOR TO PLANTING.
15. MULCHING OF SHRUB AND ANY GROUND COVER AREAS SHALL HAVE 3 INCHES OF SHREDDED HARDWOOD MULCH.
16. LANDSCAPED AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS, AND OTHER SUCH MATERIAL OR PLANTS NOT A PART OF THE LANDSCAPING.
17. THE PROPERTY OWNER, TENANT AND ANY AGENT THEREOF SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING MATERIALS IN GOOD CONDITION AT ALL TIMES SO AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE. ANY LANDSCAPING MATERIAL THAT DIES SHALL BE REPLACED WITH HEALTHY MATERIAL WITHIN A REASONABLE TIME. ALL LANDSCAPED AREAS SHALL BE CONTINUOUSLY MAINTAINED FREE OF WEEDS, DEBRIS AND LITTER. WEEDS AND NATURAL UNCULTIVATED GRASS SHALL NOT BE CONSIDERED LANDSCAPING.

Pole top luminaires with asymmetrical light distribution

Type:
BEGA Product:
Project:
Voltage:
Color:
Options:
Modified:

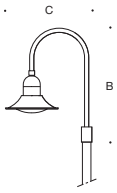
Housing: Two interlocking die-cast aluminum housings. Heavy gauge .080" spun aluminum shade with rolled edge, finished white inside. Die castings are marine grade, copper free (≤ 0.3% copper content) A360.0 aluminum alloy.

Arm: Fabricated from .125" wall aluminum extrusion formed into a continuous smooth radius, terminating and welded into a one piece die-cast aluminum fitter. Fitter slip fits a 3" O.D. pole top and is secured by six (6) socket head stainless steel set screws threaded into stainless steel inserts.

Enclosure: Lamp enclosure/optical system comprises an assembly of two pure anodized aluminum asymmetrical main beam reflectors with clear impact resistant acrylic lens with optical texture fixed to a heavy gauge .080" spun aluminum shade with rolled edge, finished white inside and rigidly fastened to the luminaire housing. Fasteners are stainless steel.

Electrical: 42.8W LED luminaire, 48 total system watts, -30°C start temperature. Integral 120V through 277V electronic LED driver located in luminaire head, 0-10V dimming. Standard LED color temperature is 4000K with a >80 CRI. Available in 3000K (>80 CRI); add suffix K3 to order.
Note: Due to the dynamic nature of LED technology, LED luminaire data on this sheet is subject to change at the discretion of BEGA-US. For the most current technical data, please refer to www.bega-us.com.

Finish: All BEGA standard finishes are polyester powder coat with minimum 3 mil thickness. Available in four standard BEGA colors: Black (BLK); White (WHT); Bronze (BRZ); Silver (SLV). To specify, add appropriate suffix to catalog number. Custom colors supplied on special order.



UL listed for US and Canadian Standards, suitable for wet locations. Protection class: IP65.

Weight: 27.6 lbs.

EPA (Effective projection area): 2.37 sq. ft.

Luminaire Lumens: 2548
Tested in accordance with LM-79-08

Single pole-top luminaires

	Lamp	LEED	A	B	C
77911	42.8W LED	LZ-2	26⅝	46¼	40⅛

Recommended for use with 14' to 18' poles.

D-Series LED, Size 1

Area Luminaire

Refined Styling. Sophisticated Technology.

The modern styling of the D-Series LED Area, Size 1 luminaire is striking yet unobtrusive—making a bold, progressive statement even as it blends seamlessly with its environment. Its outstanding photometric performance results in sites with excellent uniformity, greater pole spacing and lower power density.

Key Features:

- Energy savings of up to 75% vs. comparable metal halide luminaires; saves $263 per luminaire, per year over 750W metal halide
- 20+ years expected service life (with lumen maintenance up to L99/100,000 hours at 25°C)
- Proprietary precision optics deliver exceptional uniformity and allow for increased spacing, resulting in fewer poles and lower overall cost
- Control options from Acuity Controls include standalone photocell, switched bi-level, part-night scheduled dimming, multi-level motion sensor, and ROAM® wireless monitoring and control

DSX1			
Model	Input Watts	Lumens	Metal Halide Replacement
DSX1 LED P5 40k T3M	138W	15,377	400W
DSX1 LED P7 40k T3M	209W	20,141	650W
DSX1 LED P9 40k T3M	241W	26,791	750W

Quick Facts:

- Up to 750W MH replacement
- Lumen packages from 4,000 to 29,000 lumens up to L92/50,000 hours
- Efficacies up to 136 lumens per watt
- 14 factory-rotatable distributions available
- Available in 3000K, 4000K & 5000K CCT and Amber LED
- Weight: 27 lbs; EPA: 1.0 ft^2

SP2019-040; Site Plan for Rockwall Urban & Industrial Center (Ellis Centre, Phase 2)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive.

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at(972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-040) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code(UDC); including the District Development Standards, of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

M.6 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please provide a label for the parking count for each row of spaces in order to determine total parking count
2) The cross sections of concrete pavement thickness is to be determined by the engineering department during the civil submittal process and is not considered to be approved during this site plan process.
3) Parking for an office use requires a minimum of one (1) parking space per 300-SF (i.e. 1:300 SF) of gross floor area. Will there be offices uses within this complex? If so, please update parking legend. (Article VI, Table 3).
4) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director.
5) Is there a front building set back? If so, this is required to be 25-ft. Please adjust accordingly.
6) Provide a label for all drive aisle widths.
7) Indicate and label all sidewalk widths proposed for this site.
8) Delineate and label all loading dock parking spaces. Minimum 12-ft wide & 65-ft in length. (Art. VI, Section 6.04)
9) Ground mounted utility equipment and RTU's shall be screened from adjacent public rights-of-way and adjacent property. Provide screening detail for these units. (Art. V, Sec. 1.05.3)
10) Provide screening along the western property boundary from the school district property. (Art. VIII, Sec. 5.02.B Landscape Screening)
11) Will there be any outside storage of materials, products, etc.?

M.8 Building Elevations. According to Subsection 5.01.A1, of the General Industrial District Standards, of Article V, District Development Standards, of the UDC, requires a minimum of 20% stone (i.e. natural or synthetic/cultured) on all building façades. In this case, the construction of the addition does not include stone on any façade. This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.9 Building Elevations. According to Subsection 5.01A.1, General Industrial District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 90% primary materials and ten (10) percent secondary materials. In this case, the construction consists of concrete tilt-up wall. The use of concrete tilt-up walls may be permitted on a case-by-case basis in accordance with the exception requirements outlined in this section of the UDC This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.10 Building Elevations. Please review the articulation formulas contained in Section 5.01.C of Article V, District Development Standards, of the UDC. The submitted building elevations do not appear to meet all the formulas required for building articulation This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.11 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Indicate all HVAC units (i.e. dash-in RTU's) on the building elevations so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Provide calculation of building materials as a percentage.

M.12 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Provide screening along the western property boundary from the school district property. Art. VIII, Sec. 5.02.B Landscape Screening, states (a)ny non-residential...land use or parking area that has a ide or rear contiguous to any residentially zoned or used property shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers (as depicted in Figures 6 & 7 below). As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three (3) tiered screening along the entire length of the adjacency. The canopy trees shall be placed on 20-foot centers. As a note, the Agricultural (AG) District is considered residential.
2) Correct table to indicate a minimum 15% landscaping required (currently indicates 10%).
3) All new tree plantings are to be a minimum of 4-inch caliper trees. Correct plan. (Art. VIII, Sec. 4.A.2)
4) Parking lots greater than 20,000 SF are required to provide a minimum of one (1) tree for each 10 parking spaces. 161 parking spaces = 16 trees within the parking lot area. (Art. VIII, Sec. 5.03.E.2)

M.13 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, the director of planning and zoning, or his/her designee, shall review the treescape plan and approve the plan per the requirements of this article, or forward any recommendations to the planning and zoning commission. As part of the treescape plan review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees The planning and zoning commission will review and approve or disapprove the treescape plan The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted

M.14 Photometric Plan. According to Section 3.3, Minimum Requirements, of Article VII, Environmental Performance, of the UDC, the maximum allowable light intensity measured at the property line of any non-residentially zoned lot shall be 0.2 FC. In this case, the submitted photometric plan conforms to the requirements of the UDC.

1) No light pole, base or combination thereof shall exceed an overall height of 30-ft. Provide pole detail. (Art. VII, Sec. 3.3.D)

M.15 Based on the submittal staff has identified the following exceptions

1) Building Materials. The proposed addition is requesting the use of tilt-up wall construction and does not include a minimum of 20% stone.
2) Building Articulation. The proposed addition does not meet the articulation standards established by the UDC

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two (2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures. I.14 Please note that failure to address all comments provided by staff by 8:00 AM on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case. I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the November 12, 2019 Planning & Zoning Meeting. Please note that the Planning & Zoning Work Session meeting will be held on October 29, 2019. I.16 The Architectural Review Board (ARB) meeting will be held on October 29, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will forward a recommendation to the Planning and Zoning Commission. I.17 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

(10/25/2019 12:12 PM DG)
The following CPTED comments are from Captain Ed Fowler of the Rockwall Police Department

SP2019-040 Ellis Center Phase 2
Considerations

- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding(fencing) area.
- Consider lighting spaced at intervals around the overhead doors(sides) and rear that fully illuminate the area.
- Evaluate transitional lighting for employees entering the parking lot from an area that has bright lighting to dim lighting and may pose a visual problem.
- There does not appear to be shrubs or trees that will obstruct views around the business.
- Consider additional locking mechanisms for overhead doors in the form of a bar system and case hardened locking system
- Consider the addition of removable bollards for overhead doors to prevent vehicles from being used to breach the doors
- Consider auxiliary locking system on main entrance door(s) with limited key access, key pad or electronic badges for afterhours employees.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider installation of locking mechanisms on all sliding windows up to the use of security rods.
- Roof access points should be locked from the inside.
- Consider installation of solid core doors for offices inside the business including the room that houses the safe Single cylinder locks for all offices and a double cylinder lock for the safe room.
- Consider an additional alarm inside the safe room, either attached to the entrance door or safe.
- Consider the addition of security cameras on the exterior of the building that provide360 degree coverage.
- Consider the addition of security cameras forthe interior the business.
- Interior considerations are not being added without speaking with the business owners/reps first.

The implementation of all or any portion of the considerations are NO guarantee or assurance that crime will not occur or that the property will be crimeproof. The considerations should, however, reduce the probability of crime if the strategies and recommendations are properly applied and consistently maintained Any changes should still meet with the City of Rockwall's building code, code of ordinances and fire code.

PLANTING NOTES

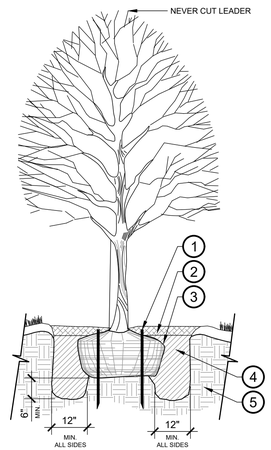
PREPARATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE CORRECT LOCATION OF ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS IN THE FIELD PRIOR TO THE INSTALLATION OF ANY PLANT MATERIALS.

PLANT LOCATIONS
REFER TO PLANTING PLAN FOR PlaNTING LOCATION AND PLANT MATERIAL LEGEND FOR SPECIFICATIONS. PLANT MATERIAL LOCATION TO BE STAKED IN THE FIELD AND APPROVED BY LANDSCAPE ARCHITECT PRIOR TO PLANTING.

COORDINATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH OTHER CONTRACTORS ON SITE AS REQUIRED TO ACCOMPLISH ALL PLANTING OPERATIONS.

MAINTENANCE
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ALL PLANTING BEDS IN A WEED AND DEBRIS FREE CONDITION AND SHALL ACCOMPLISH WATERING BY HAND AS DEEMED NECESSARY UNTIL SUBSTANTIAL COMPLETION AND ACCEPTANCE BY THE OWNER. THE CONTRACTOR SHALL MAINTAIN ALL WORK FOR A PERIOD OF 30 DAYS AFTER SUBSTANTIAL COMPLETION AND ACCEPTANCE.

VERIFICATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL QUANTITIES PER DRAWINGS AND SPECIFICATION BY IANDSCAPE ARCHITECT. PLANT QUANTITIES HAVE BEEN PROVIDED AS A CONVENIENCE ONLY AND SHALL NOT BE CONSIDERED ABSOLUTE. LANDSCAPE ARCHITECT TO BE NOTIFIED IF DISCREPANCIES OCCUR. OTHERWISE, THE CONTRACTOR IS TO BID THEIR OWN VERIFIED QUANTITIES PER LANDSCAPE PLAN.



PLANTING BEDS
ALL BED AREAS ARE TO BE FLUSH WITH FINISHED GRADE AT ADJACENT PAVEMENT. ALL BED AREAS SHALL BE ROTOTILLED TO BE A DEPTH OF 6", ADDING PREPARED SOIL MIXTURE AS REQUIRED.

MULCH
AFTER SETTLEMENT, ALL PLANTING BED MULCH DEPTHS SHALL BE A MIN. OF 3". ALL AREAS DISTURBED BY PLANTING OPERATIONS SHALL BE FINE GRADED AND REPLANTED. MULCH SHALL BE TEXAS NATIVE CEDAR

STANDARDS
ALL PLANT MATERIAL SHALL CONFORM TO THE SIZES GIVEN IN THE PLANT LIST AND SHALL BE NURSERY GROWN IN ACCORDANCE WITH THE "AMERICAN STANDARD FOR NURSERY STOCK", LATEST EDITION. ALL PLANTING SHALL BE IN ACCORDANCE WITH STANDARD AMERICAN ASSOCIATION OF NURSERYMEN PROCEDURES AND SPECIFICATIONS.

PROTECTED TREES
PROTECTED TREES SHALL BE MARKED AND THE DRIP LINE OF SAID TREES SHALL BE PROTECTED PRIOR TO AND DURING ALL CONSTRUCTION, INCLUDING EARTHWORK.

IRRIGATION
IRRIGATION WILL MEET ALL TCEQ AND UDC REQUIREMENTS.

1 NEW TREE PLANTING
N.T.S.

PLANTING NOTES

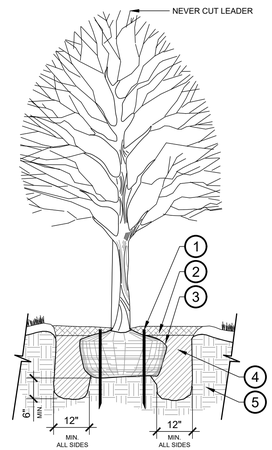
PREPARATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE CORRECT LOCATION OF ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS IN THE FIELD PRIOR TO THE INSTALLATION OF ANY PLANT MATERIALS.

PLANT LOCATIONS
REFER TO PLANTING PLAN FOR PlaNTING LOCATION AND PLANT MATERIAL LEGEND FOR SPECIFICATIONS. PLANT MATERIAL LOCATION TO BE STAKED IN THE FIELD AND APPROVED BY LANDSCAPE ARCHITECT PRIOR TO PLANTING.

COORDINATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH OTHER CONTRACTORS ON SITE AS REQUIRED TO ACCOMPLISH ALL PLANTING OPERATIONS.

MAINTENANCE
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ALL PLANTING BEDS IN A WEED AND DEBRIS FREE CONDITION AND SHALL ACCOMPLISH WATERING BY HAND AS DEEMED NECESSARY UNTIL SUBSTANTIAL COMPLETION AND ACCEPTANCE BY THE OWNER. THE CONTRACTOR SHALL MAINTAIN ALL WORK FOR A PERIOD OF 30 DAYS AFTER SUBSTANTIAL COMPLETION AND ACCEPTANCE.

VERIFICATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL QUANTITIES PER DRAWINGS AND SPECIFICATION BY IANDSCAPE ARCHITECT. PLANT QUANTITIES HAVE BEEN PROVIDED AS A CONVENIENCE ONLY AND SHALL NOT BE CONSIDERED ABSOLUTE. LANDSCAPE ARCHITECT TO BE NOTIFIED IF DISCREPANCIES OCCUR. OTHERWISE, THE CONTRACTOR IS TO BID THEIR OWN VERIFIED QUANTITIES PER LANDSCAPE PLAN.



PLANTING BEDS
ALL BED AREAS ARE TO BE FLUSH WITH FINISHED GRADE AT ADJACENT PAVEMENT. ALL BED AREAS SHALL BE ROTOTILLED TO BE A DEPTH OF 6", ADDING PREPARED SOIL MIXTURE AS REQUIRED.

MULCH
AFTER SETTLEMENT, ALL PLANTING BED MULCH DEPTHS SHALL BE A MIN. OF 3". ALL AREAS DISTURBED BY PLANTING OPERATIONS SHALL BE FINE GRADED AND REPLANTED. MULCH SHALL BE TEXAS NATIVE CEDAR

STANDARDS
ALL PLANT MATERIAL SHALL CONFORM TO THE SIZES GIVEN IN THE PLANT LIST AND SHALL BE NURSERY GROWN IN ACCORDANCE WITH THE "AMERICAN STANDARD FOR NURSERY STOCK", LATEST EDITION. ALL PLANTING SHALL BE IN ACCORDANCE WITH STANDARD AMERICAN ASSOCIATION OF NURSERYMEN PROCEDURES AND SPECIFICATIONS.

PROTECTED TREES
PROTECTED TREES SHALL BE MARKED AND THE DRIP LINE OF SAID TREES SHALL BE PROTECTED PRIOR TO AND DURING ALL CONSTRUCTION, INCLUDING EARTHWORK.

IRRIGATION
IRRIGATION WILL MEET ALL TCEQ AND UDC REQUIREMENTS.

1 NEW TREE PLANTING
N.T.S.

KEY:

1. (3) ARBOR STAKES. INSTALL PER MANUFACTURE'S SPECIFICATIONS
2. SPECIFIED MULCH - 3" MIN. DEPTH ENTIRE TREE BASIN
3. SET TOP OF ROOT BALL 3" ABOVE FINISH GRADE. BUILD 3" HT. SAUCER AROUND PLANTING PIT WITH TOPSOIL.
4. LIVING EARTH PLANTING MIX OR APPROVED EQUAL BY LANDSCAPE ARCHITECT. WATER AND TAMP TO REMOVE SIDE AND BOTTOM AIR POCKETS 6" MIN.
5. UNCOMPACTED NATIVE SOIL/UNDISTURBED SUBGRADE

NOTE:
FOR BALL & BURLAP REMOVE WIRE/TWINE FROM AROUND BURLAP, FOLD TOP THIRD DOWN OR CUT/REMOVE PRIOR TO BACKFILL.

01 TREE PROTECTION DETAIL
SCALE: N.T.S.

STANDARD PRESERVATION NOTES FOR
TREE AND NATURAL AREA PROTECTION

1. All trees and natural areas shown on plan to be preserved shall be protected during construction with temporary fencing and other measures as needed which may include retaining walls, pruning of limbs, roots, etc.
2. Protective fences shall be erected according to City Standards for Tree Protection.
3. Protective fences shall be installed prior to the start of any site preparation work (clearing, grubbing or grading), and shall be maintained throughout all phases of the construction project.
4. Erosion and sedimentation control barriers shall be installed or maintained in a manner which does not result in soil build-up within tree drip lines.
5. Protective fences shall surround the trees or group of trees, and will be located no closer than the outermost limit of branches (drip line) plus an additional 2'-0" away from the limits of dripline. For natural areas, protective fences shall follow the Limit of Construction line, in order to prevent the following:
   A. Soil compaction in the root zone area resulting from vehicular traffic or storage of equipment or materials;
   B. Root zone disturbances due to grade changes (greater than 6 inches cut or fill), or trenching not reviewed and authorized by the City Parks Department;
   C. Wounds to exposed roots, trunk or limbs by mechanical equipment;
   D. Other activities detrimental to trees such as chemical storage, cement truck cleaning, and fires.
6. Exceptions to installing fences at tree drip lines may be permitted in the following cases:
   A. Where there is to be an approved grade change, impermeable paving surface, tree well, or other such site development, erect the fence approximately 2 to 4 feet beyond the area disturbed;
   B. Where permeable paving is to be installed within a tree's drip line, erect the fence at the outer limits of the permeable paving area (prior to site grading so that this area is graded separately by hand prior to paving installation to minimized root damage);
   C. Where trees are close to proposed buildings, erect the fence to allow root pruning in the work space between the fence and the building, prior to disturbance. The fence can be erected at the point of root pruning;
   D. Where there are severe space constraints due to tract size, or other special requirements, contact an Arborist to discuss alternatives.

   Special Note: Exceptions are permitted for areas outside the critical root zone. No disturbances are permitted within the critical root zone (75% of the dripline area). For the protection of natural areas, no exceptions to installing fences at the Limit of Construction line will be permitted, and no silting of stock piling of material or dirt is allowed around trees.
7. Where any of the above exceptions result in a fence being closer than 4 feet to a tree trunk, protect the trunk with strapped-on planking to a height of 8 ft. in addition to the reduced fencing provided.
8. Trees approved for removal shall be removed in a manner which does not impact trees to be preserved.
9. Any roots exposed by construction activity shall be pruned flush with the soil. Backfill root areas with good quality top soil as soon as possible. If exposed root areas are not backfilled within 2 days, cover them with organic material in a manner which reduces soil temperature and minimizes water loss due to evaporation.
10. Trenching required for the installation of irrigation shall be placed as far from existing tree trunks as possible.
11. No landscape topsoil dressing greater than 2 inches shall be permitted within the drip line of trees. No soil or mulch is permitted on the root flare of any tree.
12. Limbing & pruning to provide clearance for structures, traffic and equipment shall take place before damage occurs.
13. All finished pruning shall be done according to recognized, approved standards of the industry (Reference the National Arborist Association Pruning Standards for Shade Trees).

Capable Luminaire
This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and system-level interoperability.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is A+ Certified when ordered with DTLL® controls marked by a shaded background. DTL DLL equipped luminaires meet the A+ specification for luminaire to photocontrol interoperability1
- This luminaire is part of an A+ Certified solution for ROAM® or XPoint™ Wireless control networks, providing out-of-the-box control compatibility with simple commissioning, when ordered with drivers and control options marked by a shaded background.

To learn more about A+, visit www.acuitybrands.com/aplus.

See ordering tree for details.

A+ Certified Solutions for ROAM require the order of one ROAM node per luminaire. Sold Separately: Link to Roam; Link to DTL DLL

DMG	0-10V dimming extend out back of housing for external control (control ordered separate)[15]		
E7WH	Emergency battery backup, Non CEC compliant (7W)[7]		

Accessories
Ordered and shipped separately.

WSTXPBBW DDBXD U Premium Surface - mounted back box
WSBBW DDBTXD U Surface - mounted back box
RBPW DDBXD U Bersafe back plate

NOTES
1 MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
2 Single fuse (SF) requires 120V, 277V or 347V. Double fuse (DF) requires 208V, 240V or 480V.
3 Also available as a separate accessory; see accessories information.
4 Top conduit entry standard.
5 Not available with VG or WG. See PER Table.
6 Reference Motion Sensor table.
7 Need to specify 120, 208, 240 or 277 voltage.
8 Photocell ordered and shipped as a separate line item from Acuity Brands Controls. Shorting Cap included.
9 Not available with Emergency options, PE or PER options.
10 DMG option not available with standalone or networked sensors/ receptacle options.
11 Not available with 347/480V.
12 Battery pack rated for -20° to 40°C.
13 Comes with PBBW.
14 Warranty period is 3-years.
15 Not available with BBW.
16 Must order with fixture; not an accessory.

Emergency Battery Operation
The emergency battery backup is integral to the luminaire — no external housing required! This design provides reliable emergency operation while maintaining the aesthetics of the product.
All emergency backup configurations include an independent secondary driver with an integral relay to immediately detect AC power loss, meeting interpretations of NFPA 70/NEC 2008 - 700.16.
The emergency battery will power the luminaire for a minimum duration of 90 minutes (maximum duration of three hours) from the time supply power is lost, per International Building Code Section 1006 and NFPA 101 Life Safety Code Section 7.9, provided luminaires are mounted at an appropriate height and illuminate an open space with no major obstructions.
The examples below show illuminance of 1 fc average and 0.1 fc minimum of the P1 power package and VF distribution product in emergency mode.

Distribution overlay comparison to 175W metal halide.

FEATURES & SPECIFICATIONS

INTENDED USE
The classic architectural shape of the WST LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION
The single-piece die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS
Well crafted reflector optics allow the light engine to be recessed within the luminaire, providing visual comfort, superior distribution, uniformity, and spacing in wall-mount applications. The WST LED has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 98 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 40°C, L87). Class 2 electronic driver has a power factor >90%, THD <20%. Easily-serviceable surge protection device meets a minimum Category B (per ANSI/IEEE C62.41.2).

INSTALLATION
A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS
CSA certified to U.S. and Canadian standards. Luminaire is IP65 rated. PIR and back box options are rated for wet location. Rated for -30°C to 40°C ambient.

DesignLights Consortium® (DLC) Premium qualified product. Not all versions of this product may be DLC Premium qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

WARRANTY
5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/resources/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

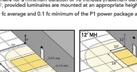
WSR LED
Architectural Wall Sconce

Catalog Number
Notes
Type

Hit the Tab key or mouse over the page to see all interactive elements.

Inverted available with WLU option only.



Specifications
Luminaire

Height: 7-1/4" (18.4 cm)
Width: 18" (45.7 cm)
Depth: 9" (22.8 cm)
Weight: 17 lbs (7.7 kg)

Optional Back Box (BBW)

Height: 4" (10.2 cm)
Width: 5-1/2" (14.0 cm)
Depth: 1-1/2" (3.8 cm)

Introduction
Classic Architectural Wall Sconce with the LED technology. Long-life, maintenance-free product with typical energy savings of 80% compared to metal halide versions. The integral battery backup option provides emergency egress lighting, without the use of a back-box or remote gear, so installations maintain their aesthetic integrity. The WSR LED is ideal for replacing existing 50 – 250W metal halide wall-mounted products. The expected service life is 20+ years of nighttime use.

Emergency Battery Operation
The emergency battery backup (E20WC & E10WH options) is integral to the luminaire - no external housing required! This design provides reliable emergency operation while maintaining the aesthetics of the product.
All E20WC and E10WH configurations include an independent secondary driver with an integral relay to immediately detect AC power loss.
The emergency battery will power the luminaire for a minimum duration of 90 minutes (maximum duration of three hours) from the time supply power is lost, per International Building Code Section 1006 and NFPA 101 Life Safety Code Section 7.9, provided luminaires are mounted at an appropriate height and illuminate an open space with no major obstructions.
The examples below show illuminance of 1 fc average and 0.1 fc minimum of the P1 power package type IV product in emergency mode.

WSR P1 LED 40K SR4 MVOLT E30WC
10' x 10' Gridlines
8' and 12' Mounting Height

NOTES
1 MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
2 Not available with 480V option.
3 PE requires specified voltage.
4 Single fuse (SF) requires 120V, 277V or 347V options. Double fuse (DF) requires 208V, 240V or 480V options.
5 Not available with 347V or 480V. Not available with WLU.
6 WLU not available with PIR, E20WC or E10WH.
7 See PIR Table for default settings.
8 Only available with P3 & P4 packages. Provides 50/50 luminaire operation via two independent drivers and light engines on two separate circuits.
9 See electrical section on page 2 for more details.

FEATURES & SPECIFICATIONS

INTENDED USE
The classic architectural shape of the WSR LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION
The die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS
Precision-molded acrylic lenses are engineered for superior distribution, uniformity, and spacing in wall-mount applications. Light engines are 4000K (70 CRI). The WSR LED has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 8 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 25°C, L77). Class 2 electronic driver has a power factor >90%, THD <20%, and a minimum 6 KV surge protection. When ordering the SPD option, a separate surge protection device is installed within the luminaire which meets a minimum Category C low operation (per ANSI/ IEEE C62.41.2).

INSTALLATION
A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS
CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated and suitable for wet locations when mounted with the lenses down. WLU option offers wet location listing in "up" orientation. Rated for -30°C minimum ambient. DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product. Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

WARRANTY
5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.asp.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

Ordering Information

Accessories

Ordered and shipped separately.

DLL127 1.5 IR	Photocell - SSL twist-lock (120-277V) *
DLL347 1.5 CUL IR	Photocell - SSL twist-lock (347V) *
DLL480 1.5 CUL IR	Photocell - SSL twist-lock (480V) *
DSX0ST DDBXD	Shorting cap
DSX0EGS DDBXD	Field adjustable EGS (PIR, PIRH, PIR1FC3V and PIRH1FC3V)
DSX0EGS DDBXD U	Rear-side shield for PLOW and PLOW2
DSX0DDL X	Diffused drop lens (polycarbonate)[1]
PUMA DDBXD U	Square and round pole universal mounting bracket adapter (specify finish)[4]
RPUMA DDBXD U	Mast arm mounting bracket adapter (specify finish)[4]

For more control options, visit DTL and ROAM online. Look for nLight AIR.

NOTES
1 P3, P11, P12 and P13 are not rotated optics (L90 or R90) only available together.
2 Not available with HS or SA.
3 Single fuse (SF) requires 277V, 347V or 480V. Double fuse (DF) requires 208V, 240V or 480V.
4 Not available with BLSS, BLSD or PIRBT options.
5 Universal mounting bracket adapter kit for existing pre-drilled poles only. 1.5 G vibration load rating per ANSI C136.31.
6 Must order fixture with SPA mounting. Must be ordered as a separate accessory, see Accessories information. For use with 2-3/8" mast arm (not included).
7 Must be ordered with PIR or PIRH.
8 Not available with finishes in dark bronze, black, white and natural aluminum colors.
9 Must be ordered with NLTAIR2. For more information on nLight AIR generation 2, visit this link.
10 Provided standard and shipped as a separate line item from Acuity Brands Controls. See accessories. Shorting Cap included.
11 Not available with P1, P2, P3, P4, P5, P6, P7, P10, P11, P12 or P13 configurations. Acuity Brands Controls. Shorting Cap included.
12 DMG not available with PIRHN, PIR1FC3V, PIR, PIRH, PIRH1FC3V or PIRHN1FC3V.
13 Not available with P7.
14 Reference PER Table on page 3 to see functionality.
15 Not available with other dimming controls options.
16 Not available with P10, P11, P12, P13 or SF/DF options.
17 Must be ordered with fixture for factory pre-drilling.
18 Requires luminaires to be specified with PER, PERS or PE57 option. See PER Table on page 3.
20 For retrofit use only.

Performance Data

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient	Lumen Multiplier
0°C	32°F	1.04
5°C	41°F	1.04
10°C	50°F	1.03
15°C	59°F	1.02
20°C	68°F	1.01
25°C	**77°F**	**1.00**
30°C	86°F	0.99
35°C	95°F	0.98
40°C	104°F	0.97

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the platforms noted in a **25°C** ambient, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate L28 use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	Lumen Maintenance Factor
25,000	0.96
50,000	0.92
100,000	0.85

Controls Options

Nonwireless	Powerfaze	Nonfloatility	Primary control device	Notes
FAO	Field adjustable analog 0-10 volt driver included inside the luminaire, wired to the driver leads.	Allows the luminaire to be manually dimmed, effectively trimming the light output.	PAD device	Cannot be used with other controls options that need the 0-10V leads.
DS	Drivers wired independently for 50/50 luminaire operation.	The luminaire is wired in two separate circuits, allowing for 50/50 operation.	Independently wired drivers	Requires two separately switched circuits. Consider nLight AIR as a more cost effective alternative.
PERS or PE57	Twist-lock photocell receptacle	Compatible with standard twist-lock photocells for dusk to dawn operation, or advanced control nodes such as ROAM.	Twist-lock photocells such as DLL120a or advanced control nodes such as ROAM.	Pins 4 & 5 to dimming leads on driver, Pins 6 & 7 are capped inside luminaire
PIR or PIRH	Motion sensors with integral photocell, PIR for 8-15' mounting; PIRH for 15-30' mounting.	Luminaires dim when no occupancy is detected.	Acuity Controls SBOR	Also available with PIR1FC3V when the sensor photocell is used for dusk-to-dawn operation.
NLTAIR2 PIRHN	nLight AIR enabled luminaire for motion sensing, photocell and wireless communication.	Motion and ambient light sensing with group response. Scheduled dimming with zero-crossing 0-10V dimming. Wireless control with nLight AIR enabled devices.	nLight Air rSBOR	nLight AIR sensors can be programmed and commissioned from the ground using the CWArchy Pro app.

Performance Data

Lumen Output

Lumen values are from photometric tests performed in accordance with IESNA LM-79-08. Data is considered to be representative of the configurations shown, within the tolerances allowed by Lighting Facts. Contact factory for performance data on any configurations not shown here.

RE: Detention Pond Slope Variance for Rockwall Urban + Industrial Center

Dear Mr. Brooks:

On behalf of Reid Caldwell and Rockwall Urban Industrial, LP we request a variance to section 3.3.4A of the City of Rockwall Standards of Design and Construction that states "Detention ponds shall have a side slope 4:1 or flatter." Based on maximizing the value of this property and the proposed site layout the detention pond will need to have retaining walls in order to meet the City of Rockwall drainage design.

We believe this variance request is reasonable because it is consistent with the developments directly around our site. The site located directly to our south at the NE Corner of Alpha Dr. and Sigma Ct. has retaining walls built as part of its detention system. If there are any questions or concerns please do not hesitate to contact me.

Sincerely,

Matthew Gardner

M - Parking near the building or head to head parking to be 20'x9'. All other parking to be 18'x9'. Standards of Design 2.19
M – All fire lanes or drive isles must be a minimum of 24’ wide. Standards of Design and Construction 2.19
M - Must show existing and proposed utilities.
M - Must label that detention for this property was accounted for in phase 1.
M - Minimum easement width is 20' for proposed easements. Standards of Design 5.3.1 and 6.4

I - 4% Engineering Fees
I - Impact Fees
I - Walls 3' and over must be engineered
I - Retaining walls to be rock or stone face, No smooth concrete walls
I - Must dowell into old paving where trying on
I - Must meet all standards of design & Construction
I - No structures in easements. This includes retaining walls and footings, dumpster and screening wall must be out of easements. Standards of Design 6.4.1

SP2019-041 Medical Office

Considerations.

- Consider additional security lighting at corners of building and dumpster(s) area.
- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing.
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding (fencing) area.
- Lighting placed on or in fencing area around dumpster to eliminate shadow and dark areas and prevent theft from dumpster (ID Theft, etc.)
- Ensure that all lighting is positioned in a manner to minimize glare and reduce all shadows especially at the rear of business.
- Consider auxiliary locking system on all entrance and exit doors with keypad or electronic badge requirement.
- Consider the placement of bollards at the front of the front and rear of the business to keep a vehicle from being driven through these doors as a breaching tool. They should match the architecture.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider installation of locking mechanisms/bars on rear doors during closed hours.
- Consider installation of solid core doors for offices inside the business including the room that houses any monies or safe. Single cylinder locks for all offices and a double cylinder lock for the safe room.
- Consider an additional alarm inside the safe room, either attached to the entrance door or safe.
- Consider the addition of security cameras on the exterior of the building that provide 360 degree coverage and have IR capability.
- Consider camera monitors for the rear of the business to ensure that employees will have a complete and unobstructed view prior to exiting into the rear parking area (Especially after hours).
- Consider the addition of security cameras for the interior the business.
- Ensure new trees andbushes are trimmed within acceptable standards (Trees Trimmed up to 7’ and Bushes Trimmed Down to 3’) and consider ground wash lighting to illuminate the area and provide territorial reinforcement, ownership and enhance natural lines of sight at night.
- Consider ground wash lighting around the 10’ landscape buffer to eliminate any shadows or dark areas.
- Consider additional ground wash lighting around the building to enhance the look and further eliminate any shadows or dark areas.
- Utilize plants around all first floor widows that will deter anyone from entering this area (e.g. native bushes or plants that have thorns).
- More than willing to speak directly with the business owners or developers about the property.
- Interior considerations are not being added without speaking with the business owners/reps first.

FRONT ELEVATION ← West

6,377. SF = 73% OF PROPOSED LANDSCAPE PROVIDED IN FRONT YARD.

C. DETENTION BASIN
N/A
Being detained with regional detention on Lot 3

9.1 MAINTENANCE REQUIREMENT:
ALL REQUIRED LANDSCAPING MUST BE MAINTAINED IN A HEALTHY, GROWING CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE FOR THE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PRUNING, OR OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES MUST BE REPLACED WITH ANOTHER LIVING PLANT THAT COMPLIES WITH THE APPROVED LANDSCAPE PLAN WITH WITHIN 6 MONTHS AFTER NOTIFICATION BY THE CITY.
A REQUIRED TREE THAT DIES AFTER ITS ORIGINAL PLANTING MUST BE REPLACED BY ANOTHER LIVING TREE HAVING A MINIMUM HEIGHT OF 14' AND A MINIMUM TRUNK CALIPER OF 4" MEASURED AT 12 INCHES ABOVE THE ROOT BALL.

9.2 UTILITY LINES AND RIGHTS-OF-WAY:
ANY DAMAGE TO UTILITIES RESULTING FROM THE NEGLIGENCE OF THE PROPERTY OWNER, HIS AGENTS, OR EMPLOYEES IN THE INSTALLATION AND MAINTENANCE OF REQUIRED LANDSCAPING IN THE PUBLIC RIGHT-OF-WAY IS THE RESPONSIBILITY OF THE PROPERTY OWNER. IF A PUBLIC UTILITY DISTURBS A LANDSCAPED AREA IN THE PUBLIC RIGHT-OF-WAY, IT SHALL MAKE EVERY REASONABLE EFFORT TO PRESERVE THE LANDSCAPING MATERIALS AND RETURN THEM TO THEIR PRIOR LOCATIONS AFTER THE UTILITY WORK. IF NONETHELESS SOME PLANT MATERIALS DIE, IT IS THE OBLIGATION OF THE PROPERTY OWNER TO REPLACE THE PLAN MATERIAL.

THERE ARE NO TREES ARE TO BE LOCATED WITHIN 5' OF ANY PUBLIC UTILITY.

TREESCAPE - PROTECTED TREE MITIGATION
THERE ARE NO PROTECTED TREES EXISTING ON SITE

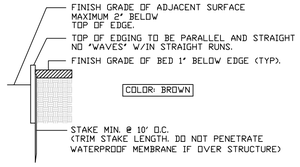
PRELIMINARY 10/15/19
NOT FOR CONSTRUCTION

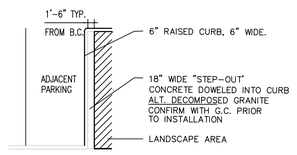
NOTE:
1. USE MIXED COMPOST TO BACKFILL.
2. FERTILIZE AND WATER THOROUGHLY AFTER INSTALLATION.
3. EXCAVATE ENTIRE SHRUB BED, AS SHOWN.
4. NO SHRUB, EDGER OR ROOTBALL, SHALL BE PLANTED CLOSER THAN 2'-0" FROM FOUNDATION OF BUILDING.

SHRUB PLANTING-SECTION



N.T.S.

NOTE:
1. THE "ON CENTER" MAY VARY PER PLANT TYPE. REFER TO PLANT SCHEDULE, FOR VARIOUS "ON CENTERS".

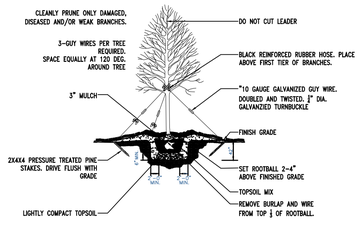


GROUNDCOVER PLANTING-PLAN

N.T.S.

STEEL EDGE-SECTION

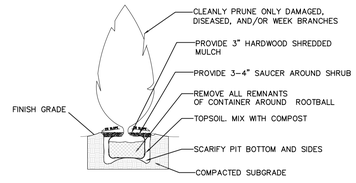
N.T.S.



TYPICAL PARKING ISLAND-PLAN

N.T.S.

GENERAL PLANTING NOTES:



1. QUANTITIES INDICATED ON PLANT LIST ARE LANDSCAPE ARCHITECT'S ESTIMATE ONLY AND SHOULD BE VERIFIED PRIOR TO BIDDING. CONTRACTOR IS RESPONSIBLE FOR BIDDING AND PROVIDING QUANTITY OF PLANTS REQUIRED AT SPACING DESIGNATED FOR BED SIZES AND CONFIGURATIONS SHOWN ON PLANS REGARDLESS OF QUANTITIES DESIGNATED ON PLANT SCHEDULE.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES, AMBIGUITY OR UNLABELED PLANTS ON PLANS PRIOR TO BID SUBMITTAL. IF ANY OF THESE IS NOT CLARIFIED BY LANDSCAPE ARCHITECT PRIOR TO BID SUBMITTAL DATE, CONTRACTOR SHALL NOTE SUCH ITEMS ON BID.
3. SOIL AMENDMENTS TO BE "MIXED SOIL WITH COMPOST" AS PRODUCED BY LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL. INSTALL 5" OF TOPSOIL WITHIN ALL PLANTING AREAS. REMOVE EXISTING SOIL AND REPLACE WITH TOPSOIL. TO GRADE.
4. TREE HOLES TO BE EXCAVATED 2' GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED INN#3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
5. SHRUB PIT SHALL BE EXCAVATED 12" GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED IN #3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
6. MULCH TOP DRESSING FOR ALL PLANTING BEDS UNLESS OTHERWISE NOTED SHALL BE A MINI. 3" DEPTH LAYER, DECOMPOSED GRANITE UNIFORMLY SPREAD ON ALL SHRUB AND GROUND COVER BEDS.
7. BED EDGING TO BE STEEL EDGING 12G, X 5.5" AS MANUFACTURED BY COL-MET , COLOR: BLACK OR APPROVED EQUAL. ALL HOLES FOR TREES AND LARGE SHRUBS SHALL BE TESTED FOR WATER RETENTION PRIOR TO TREE OR SHRUB PLANTING. AFTER HOLE IS EXCAVATED, IT IS TO BE FILLED WITH WATER TO THE TOP OF THE EXCAVATION. IF, AFTER 24 HOURS, THE HOLE STILL HOLDS WATER, THE CONTRACTOR SHALL EXCAVATE AND ADDITIONAL 6" FROM THE BOTTOM OF THE HOLE. THE LANDSCAPE CONTRACTOR SHALL THEN INSTALL 6" OF NATIVE WASHED GRAVEL COVERED ON THE TOP (AND UP TO A MINIMUM OF 12" ON THE SIDES OF THE HOLE) WITH FILTER FABRIC. THE CONTRACTOR SHALL ALSO INSTALL A CAPPED 3" DIAMETER PVC SUMP WHICH WILL EXTEND FROM NEAR THE BOTTOM OF THE ROCK LAYER TO 3" ABOVE THE PROPOSED FINISH GRADE SO THE HOLE CAN BE EXCAVATED THROUGH MECHANICAL MEANS.
8. ALL PLANTING (TREES, SHRUBS, GROUND COVER, AND/OR GRASS APPLICABLE) SHALL BE GUARANTEED FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE.
9. ALL PROPOSED PLANT MATERIAL SHALL BE CONTAINER GROWN.
10. ANY LARGE OR SMALL TREE SHALL BE PLANTED AT LEAST 48" MIN. FROM THE EDGE OF ANY PAVED SURFACE.
11. GENERAL MAINTENANCE: REQUIRED PLANTS SHALL BE MAINTAINED IN A HEALTHY CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PEST PREVENTION, PRUNING AND OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES SHALL BE REPLACED WITH ANOTHER LIVING PLANT THAT IS COMPARABLE TO THE EXISTING PLANT MATERIALS SPECIFIED IN THE APPROVED LANDSCAPE PLAN
12. LANDSCAPES AREAS WILL BE IRRIGATED WITH A SYSTEM THAT IS SUITABLE FOR "WATER EFFICIENT LANDSCAPE" WITHIN NINETY (90) DAYS AFTER NOTIFICATION BY THE CITY.
13. THE LOCATION OF ALL UTILITIES, INDICATED ON THESE PLANS, WERE PROVIDED BY OTHERS. THE EXACT LOCATION AND ELEVATION OF ALL PUBLIC UTILITIES SHOULD BE DETERMINED BY THE LANDSCAPE CONTRACTOR PRIOR TO HIS COMMENCEMENT OF WORK.
14. LANDSCAPE ARCHITECT ASSUMES NO RESPONSIBILITY FOR ANY EXCAVATION OR GRADING INDICATED IT SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO MAKE HIMSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS, PRIOR TO CONSTRUCTION. PROTECT ALL SITE UTILITIES DURING CONSTRUCTION.
15. THE CONTRACTOR SHALL ASSUME RESPONSIBILITY FOR ANY DEMOLITION, ADJUSTMENTS, OR RECONSTRUCTION RESULTING FROM UNAUTHORIZED CONSTRUCTION ACTIVITIES.
16. GROUNDCOVER / SEASONAL COLOR BEDS WILL RECEIVE 3" OF "MIXED SOIL WITH COMPOST" TILLED INTO PLACE TO A 6" DEPTH.

Calculation Summary						
Calculation Grid Location	Calc. Height (Ft.)	Units	Avg	Max	Min	Avg/Min
CANOPY	0	Fc	13.20	14.4	11.8	1.12
GRADE_Planar	0	Fc	0.20	6.7	0.0	N.A.

Notes:
1. Surface reflectances: Vertical/Horizontal - 50/20.
2. Calculation values are at height indicated in summary table.
3. Mounting heights are designated on drawing with "MH."
4. Luminaire description does not necessarily reflect specification model number. Contact salesperson for verification.
5. Sylvania lamp data used unless otherwise noted. LED luminaires use integrated photometric lamp data provided by manufacturer.
6. Lighting power density is calculated based on estimated ballast/driver energy consumption. Engineer to verify.
7. For lumen output of scaled luminaires, multiply Total Lumen Output by User Defined Factor.

ALL LANDSCAPING REQUIRED TO BE IN AN ARE NO LESS THAN 5' WIDE AND MINIMUM OF 25 SF.
ALL LANDSCAPING PROVIDED TO BE IN AN ARE NO LESS THAN 5' WIDE AND MINIMUM OF 25 SF.

5.12 REQUIRED LANDSCAPING:
ZONED: COMMERCIAL
A. AMOUNT OF LANDSCAPING
3,677. SF = 15% OF SITE REQUIRED TO BE LANDSCAPED.
8,624. SF = 35% OF SITE PROPOSED TO BE LANDSCAPED.

B. LOCATION OF LANDSCAPING
1,839. FF = 50% REQUIRED IN FRONT YARD
6,377. SF = 73% OF PROPOSED LANDSCAPE PROVIDED IN FRONT YARD.

C. DETENTION BASIN
N/A

9.1 MAINTENANCE REQUIREMENT:
ALL REQUIRED LANDSCAPING MUST BE MAINTAINED IN A HEALTHY, GROWING CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE FOR THE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PRUNING, OR OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES MUST BE REPLACED WITH ANOTHER LIVING PLANT THAT COMPLIES WITH THE APPROVED LANDSCAPE PLAN WITH WITHIN 6 MONTHS AFTER NOTIFICATION BY THE CITY.
A REQUIRED TREE THAT DIES AFTER ITS ORIGINAL PLANTING MUST BE REPLACED BY ANOTHER LIVING TREE HAVING A MINIMUM HEIGHT OF 14' AND A MINIMUM TRUNK CALIPER OF 4" MEASURED AT 12 INCHES ABOVE THE ROOT BALL.

9.2 UTILITY LINES AND RIGHTS-OF-WAY:
ANY DAMAGE TO UTILITIES RESULTING FROM THE NEGLIGENCE OF THE PROPERTY OWNER, HIS AGENTS, OR EMPLOYEES IN THE INSTALLATION AND MAINTENANCE OF REQUIRED LANDSCAPING IN THE PUBLIC RIGHT-OF-WAY IS THE RESPONSIBILITY OF THE PROPERTY OWNER. IF A PUBLIC UTILITY DISTURBS A LANDSCAPED AREA IN THE PUBLIC RIGHT-OF-WAY, IT SHALL MAKE EVERY REASONABLE EFFORT TO PRESERVE THE LANDSCAPING MATERIALS AND RETURN THEM TO THEIR PRIOR LOCATIONS AFTER THE UTILITY WORK. IF NONETHELESS SOME PLANT MATERIALS DIE, IT IS THE OBLIGATION OF THE PROPERTY OWNER TO REPLACE THE PLAN MATERIAL.

THERE ARE NO TREES ARE TO BE LOCATED WITHIN 5' OF ANY PUBLIC UTILITY.

TREESCAPE - PROTECTED TREE MITIGATION
THERE ARE NO PROTECTED TREES EXISTING ON SITE

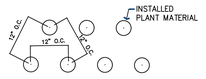
CASE # XXXX

SHEET TITLE:
LANDSCAPE DEVELOPMENT PLAN (2)

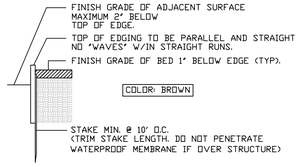
SHEET NO.:
L1.01



PRELIMINARY 10/15/19
NOT FOR CONSTRUCTION

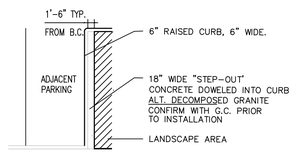
NOTE:
1. USE MIXED COMPOST TO BACKFILL.
2. FERTILIZE AND WATER THOROUGHLY AFTER INSTALLATION.
3. EXCAVATE ENTIRE SHRUB BED, AS SHOWN.
4. NO SHRUB, EDGER OR ROOTBALL, SHALL BE PLANTED CLOSER THAN 2'-0" FROM FOUNDATION OF BUILDING.

SHRUB PLANTING-SECTION



N.T.S.

NOTE:
1. THE "ON CENTER" MAY VARY PER PLANT TYPE. REFER TO PLANT SCHEDULE, FOR VARIOUS "ON CENTERS".

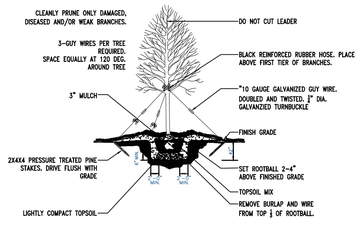


GROUNDCOVER PLANTING-PLAN

N.T.S.

STEEL EDGE-SECTION

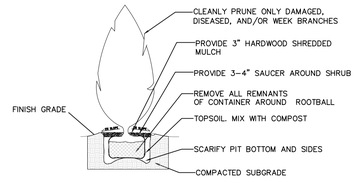
N.T.S.



TYPICAL PARKING ISLAND-PLAN

N.T.S.

GENERAL PLANTING NOTES:



1. QUANTITIES INDICATED ON PLANT LIST ARE LANDSCAPE ARCHITECT'S ESTIMATE ONLY AND SHOULD BE VERIFIED PRIOR TO BIDDING. CONTRACTOR IS RESPONSIBLE FOR BIDDING AND PROVIDING QUANTITY OF PLANTS REQUIRED AT SPACING DESIGNATED FOR BED SIZES AND CONFIGURATIONS SHOWN ON PLANS REGARDLESS OF QUANTITIES DESIGNATED ON PLANT SCHEDULE.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES, AMBIGUITY OR UNLABELED PLANTS ON PLANS PRIOR TO BID SUBMITTAL. IF ANY OF THESE IS NOT CLARIFIED BY LANDSCAPE ARCHITECT PRIOR TO BID SUBMITTAL DATE, CONTRACTOR SHALL NOTE SUCH ITEMS ON BID.
3. SOIL AMENDMENTS TO BE "MIXED SOIL WITH COMPOST" AS PRODUCED BY LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL. INSTALL 5" OF TOPSOIL WITHIN ALL PLANTING AREAS. REMOVE EXISTING SOIL AND REPLACE WITH TOPSOIL. TO GRADE.
4. TREE HOLES TO BE EXCAVATED 2' GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED INN#3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
5. SHRUB PIT SHALL BE EXCAVATED 12" GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED IN #3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
6. MULCH TOP DRESSING FOR ALL PLANTING BEDS UNLESS OTHERWISE NOTED SHALL BE A MINI. 3" DEPTH LAYER, DECOMPOSED GRANITE UNIFORMLY SPREAD ON ALL SHRUB AND GROUND COVER BEDS.
7. BED EDGING TO BE STEEL EDGING 12G, X 5.5" AS MANUFACTURED BY COL-MET , COLOR: BLACK OR APPROVED EQUAL. ALL HOLES FOR TREES AND LARGE SHRUBS SHALL BE TESTED FOR WATER RETENTION PRIOR TO TREE OR SHRUB PLANTING. AFTER HOLE IS EXCAVATED, IT IS TO BE FILLED WITH WATER TO THE TOP OF THE EXCAVATION. IF, AFTER 24 HOURS, THE HOLE STILL HOLDS WATER, THE CONTRACTOR SHALL EXCAVATE AND ADDITIONAL 6" FROM THE BOTTOM OF THE HOLE. THE LANDSCAPE CONTRACTOR SHALL THEN INSTALL 6" OF NATIVE WASHED GRAVEL COVERED ON THE TOP (AND UP TO A MINIMUM OF 12" ON THE SIDES OF THE HOLE) WITH FILTER FABRIC. THE CONTRACTOR SHALL ALSO INSTALL A CAPPED 3" DIAMETER PVC SUMP WHICH WILL EXTEND FROM NEAR THE BOTTOM OF THE ROCK LAYER TO 3" ABOVE THE PROPOSED FINISH GRADE SO THE HOLE CAN BE EXCAVATED THROUGH MECHANICAL MEANS.
8. ALL PLANTING (TREES, SHRUBS, GROUND COVER, AND/OR GRASS APPLICABLE) SHALL BE GUARANTEED FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE.
9. ALL PROPOSED PLANT MATERIAL SHALL BE CONTAINER GROWN.
10. ANY LARGE OR SMALL TREE SHALL BE PLANTED AT LEAST 48" MIN. FROM THE EDGE OF ANY PAVED SURFACE.
11. GENERAL MAINTENANCE: REQUIRED PLANTS SHALL BE MAINTAINED IN A HEALTHY CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PEST PREVENTION, PRUNING AND OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES SHALL BE REPLACED WITH ANOTHER LIVING PLANT THAT IS COMPARABLE TO THE EXISTING PLANT MATERIALS SPECIFIED IN THE APPROVED LANDSCAPE PLAN
12. LANDSCAPES AREAS WILL BE IRRIGATED WITH A SYSTEM THAT IS SUITABLE FOR "WATER EFFICIENT LANDSCAPE" WITHIN NINETY (90) DAYS AFTER NOTIFICATION BY THE CITY.
13. THE LOCATION OF ALL UTILITIES, INDICATED ON THESE PLANS, WERE PROVIDED BY OTHERS. THE EXACT LOCATION AND ELEVATION OF ALL PUBLIC UTILITIES SHOULD BE DETERMINED BY THE LANDSCAPE CONTRACTOR PRIOR TO HIS COMMENCEMENT OF WORK.
14. LANDSCAPE ARCHITECT ASSUMES NO RESPONSIBILITY FOR ANY EXCAVATION OR GRADING INDICATED IT SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO MAKE HIMSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS, PRIOR TO CONSTRUCTION. PROTECT ALL SITE UTILITIES DURING CONSTRUCTION.
15. THE CONTRACTOR SHALL ASSUME RESPONSIBILITY FOR ANY DEMOLITION, ADJUSTMENTS, OR RECONSTRUCTION RESULTING FROM UNAUTHORIZED CONSTRUCTION ACTIVITIES.
16. GROUNDCOVER / SEASONAL COLOR BEDS WILL RECEIVE 3" OF "MIXED SOIL WITH COMPOST" TILLED INTO PLACE TO A 6" DEPTH.

PRELIMINARY 10/15/19
NOT FOR CONSTRUCTION

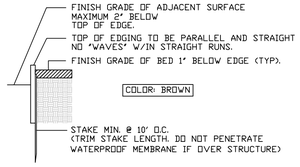
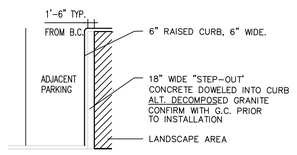
NOTE:
1. USE MIXED COMPOST TO BACKFILL.
2. FERTILIZE AND WATER THOROUGHLY AFTER INSTALLATION.
3. EXCAVATE ENTIRE SHRUB BED, AS SHOWN.
4. NO SHRUB, EDGER OR ROOTBALL, SHALL BE PLANTED CLOSER THAN 2'-0" FROM FOUNDATION OF BUILDING.

SHRUB PLANTING-SECTION



N.T.S.

NOTE:
1. THE "ON CENTER" MAY VARY PER PLANT TYPE. REFER TO PLANT SCHEDULE, FOR VARIOUS "ON CENTERS".

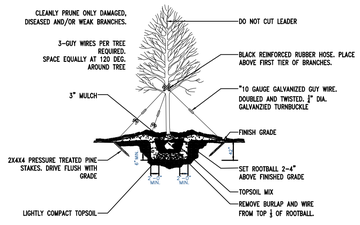


GROUNDCOVER PLANTING-PLAN

N.T.S.

STEEL EDGE-SECTION

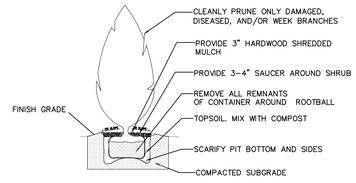
N.T.S.



TYPICAL PARKING ISLAND-PLAN

N.T.S.

GENERAL PLANTING NOTES:



1. QUANTITIES INDICATED ON PLANT LIST ARE LANDSCAPE ARCHITECT'S ESTIMATE ONLY AND SHOULD BE VERIFIED PRIOR TO BIDDING. CONTRACTOR IS RESPONSIBLE FOR BIDDING AND PROVIDING QUANTITY OF PLANTS REQUIRED AT SPACING DESIGNATED FOR BED SIZES AND CONFIGURATIONS SHOWN ON PLANS REGARDLESS OF QUANTITIES DESIGNATED ON PLANT SCHEDULE.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES, AMBIGUITY OR UNLABELED PLANTS ON PLANS PRIOR TO BID SUBMITTAL. IF ANY OF THESE IS NOT CLARIFIED BY LANDSCAPE ARCHITECT PRIOR TO BID SUBMITTAL DATE, CONTRACTOR SHALL NOTE SUCH ITEMS ON BID.
3. SOIL AMENDMENTS TO BE "MIXED SOIL WITH COMPOST" AS PRODUCED BY LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL. INSTALL 5" OF TOPSOIL WITHIN ALL PLANTING AREAS. REMOVE EXISTING SOIL AND REPLACE WITH TOPSOIL. TO GRADE.
4. TREE HOLES TO BE EXCAVATED 2' GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED INN#3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
5. SHRUB PIT SHALL BE EXCAVATED 12" GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED IN #3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
6. MULCH TOP DRESSING FOR ALL PLANTING BEDS UNLESS OTHERWISE NOTED SHALL BE A MINI. 3" DEPTH LAYER, DECOMPOSED GRANITE UNIFORMLY SPREAD ON ALL SHRUB AND GROUND COVER BEDS.
7. BED EDGING TO BE STEEL EDGING 12G, X 5.5" AS MANUFACTURED BY COL-MET , COLOR: BLACK OR APPROVED EQUAL. ALL HOLES FOR TREES AND LARGE SHRUBS SHALL BE TESTED FOR WATER RETENTION PRIOR TO TREE OR SHRUB PLANTING. AFTER HOLE IS EXCAVATED, IT IS TO BE FILLED WITH WATER TO THE TOP OF THE EXCAVATION. IF, AFTER 24 HOURS, THE HOLE STILL HOLDS WATER, THE CONTRACTOR SHALL EXCAVATE AND ADDITIONAL 6" FROM THE BOTTOM OF THE HOLE. THE LANDSCAPE CONTRACTOR SHALL THEN INSTALL 6" OF NATIVE WASHED GRAVEL COVERED ON THE TOP (AND UP TO A MINIMUM OF 12" ON THE SIDES OF THE HOLE) WITH FILTER FABRIC. THE CONTRACTOR SHALL ALSO INSTALL A CAPPED 3" DIAMETER PVC SUMP WHICH WILL EXTEND FROM NEAR THE BOTTOM OF THE ROCK LAYER TO 3" ABOVE THE PROPOSED FINISH GRADE SO THE HOLE CAN BE EXCAVATED THROUGH MECHANICAL MEANS.
8. ALL PLANTING (TREES, SHRUBS, GROUND COVER, AND/OR GRASS APPLICABLE) SHALL BE GUARANTEED FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE.
9. ALL PROPOSED PLANT MATERIAL SHALL BE CONTAINER GROWN.
10. ANY LARGE OR SMALL TREE SHALL BE PLANTED AT LEAST 48" MIN. FROM THE EDGE OF ANY PAVED SURFACE.
11. GENERAL MAINTENANCE: REQUIRED PLANTS SHALL BE MAINTAINED IN A HEALTHY CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PEST PREVENTION, PRUNING AND OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES SHALL BE REPLACED WITH ANOTHER LIVING PLANT THAT IS COMPARABLE TO THE EXISTING PLANT MATERIALS SPECIFIED IN THE APPROVED LANDSCAPE PLAN
12. LANDSCAPES AREAS WILL BE IRRIGATED WITH A SYSTEM THAT IS SUITABLE FOR "WATER EFFICIENT LANDSCAPE" WITHIN NINETY (90) DAYS AFTER NOTIFICATION BY THE CITY.
13. THE LOCATION OF ALL UTILITIES, INDICATED ON THESE PLANS, WERE PROVIDED BY OTHERS. THE EXACT LOCATION AND ELEVATION OF ALL PUBLIC UTILITIES SHOULD BE DETERMINED BY THE LANDSCAPE CONTRACTOR PRIOR TO HIS COMMENCEMENT OF WORK.
14. LANDSCAPE ARCHITECT ASSUMES NO RESPONSIBILITY FOR ANY EXCAVATION OR GRADING INDICATED IT SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO MAKE HIMSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS, PRIOR TO CONSTRUCTION. PROTECT ALL SITE UTILITIES DURING CONSTRUCTION.
15. THE CONTRACTOR SHALL ASSUME RESPONSIBILITY FOR ANY DEMOLITION, ADJUSTMENTS, OR RECONSTRUCTION RESULTING FROM UNAUTHORIZED CONSTRUCTION ACTIVITIES.
16. GROUNDCOVER / SEASONAL COLOR BEDS WILL RECEIVE 3" OF "MIXED SOIL WITH COMPOST" TILLED INTO PLACE TO A 6" DEPTH.

CITY OF ROCKWALL

ARCHITECTURAL REVIEW BOARD MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Architectural Review Board
FROM:	David Gonzales, Planning & Zoning Manager
DATE:	October 29, 2019
SUBJECT:	SP2019-039.; *Amended Building Elevations for 3005 N. Goliad Street*

On July 9, 2019, the Planning and Zoning Commission approved a site plan [*i.e. SP2019-023*] for a strip retail center that will be constructed at 3005 N. Goliad Street. On October 18, 2019, the applicant Matthew *King of Matthew King Architect* submitted an application requesting approval of an amended site plan for the purpose of changing the exterior materials of the approved building. The applicant's request does not change the buildings' elevations, only the color of the limestone from a light tan to a darker (*i.e. Austin Mist*) limestone. Additionally, the color pallet of the stucco appears to be generally the same color as was previously approved. Despite the changes to the colors of the limestone (and stucco), the building will maintain conformance with the North SH-205 Overlay (*N. SH-205 OV*) District standard for natural stone; however, the Architectural Review Board (ARB) is tasked with evaluating the proposed color change to the elevations for compatibility with the surrounding area. Staff will be available at the meeting.

Subject: FW: JSP Silvermist Oklahoma Stone Info

David, below are pictures from the quarry of the silver mist limestone on pallets. You can see the silver edges of the stone w/ the colored face.

Would it be possible for you to print copies of these pictures to include w/ my submittal? I have also attached below how they handle the outside corners so you don't see the grey edges. This is a different stone, but it show the edge arrangement.

Thanks,

Matt King – Architect

APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

CONSENT AGENDA

2. Approval of Minutes for the *October 8, 2019* Planning and Zoning Commission meeting.

3. Approval of Minutes for the *October 29, 2019* Planning and Zoning Commission meeting.

4. **P2019-040** **(Korey)**
   Discuss and consider a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street, and take any action necessary.

5. **SP2019-041** **(Korey)**
   Discuss and consider a request by LeeAnn Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

PUBLIC HEARING ITEMS

6. **MIS2019-014** **(Ryan)**
   Hold a public hearing to discuss and consider an amendment to the OURHometown Vision 2040 Comprehensive Plan for the purpose of updating the water and wastewater master plans, and take any action necessary.

ACTION ITEMS

7. **SP2019-037** **(David)**
   Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

8. **SP2019-040** **(David)**
   Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

DISCUSSION ITEMS

9. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 8th day of November 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 8, 2019
6:00 P.M.

I. CALL TO ORDER

Chairman Eric Chodun called the meeting to order at 6:01 p.m. The Commissioners present at the meeting were, Jerry Welch, Tracey Logan, Mark Moeller, and John Womble. Absent from the meeting was Annie Fishman and Sedric Thomas. Staff members present were Planning Manager, David Gonzales, Senior Planner, Korey Brooks, Planning Coordinator, Laura Morales, Civil Engineers Jeremy White and Sarah Hager.

Commissioners Fishman and Thomas arrived at the meeting at 6:03 p.m.

II. OPEN FORUM

Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time.

Dennis Denney
162 Meadowbrook Circle
Rockwall, TX

Mr. Denney came forward and shared his strong opposition to the County of Rockwall's proposed planned RV Park on Cornelius Road.

Chairman Chodun asked if anyone else wished to come forward and do so, there being no one indicating such; Chairman Chodun closed the open forum.

III. APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Chairman Chodun indicated no cases went before the Architectural Review Board for their review.

IV. PUBLIC HEARING ITEMS

2. Z2019-021

Hold a public hearing to discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Gwen Reed, Saddle Star South Holdings, LLC, and CDT Rockwall/2017, LLC for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the development standards and concept plan on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation and background in regards to the request. On January 4, 2016, the City Council approved Planned Development District 79 Ordinance No. 16-07, which rezoned a 45.292-acre portion of the subject property from an Agricultural District to a Planned Development District establishing an entitlement for a single-family residential subdivision consisting of 113 single-family lots. On May 16, 2019, the applicant voluntarily annexed an additional 11.121-acre tract of land and amended Planned Development District 79, incorporating this property into the subdivision. The annexation created a 55.413-acre residential subdivision. The amendment to PD-79 also increased the lot count from 113 to 138 lots, and granted an increase in the maximum front entry garages from 0% to 50%. On January 22, 2019, the applicant voluntarily annexed an additional 14.995-acre tract of land with the intent

of incorporating it into Planned Development District 79. On September 13, 2019, the applicant submitted an application requesting to amend PD-79 for the purpose of amending the development standards and concept plan by incorporating the additional 14.995-acre tract of land into the existing 55.413-acre tract of land to create Phase III for the Saddle Star Estates Subdivision. This amendment would increase the total acreage of the subdivision to 70.408-acres.

Mr. Gonzales added that currently, Planned Development District 79 allows the applicant to construct 138, 70' x 125' single-family lots on 55.413-acres. The proposed amendment would increase the size of the proposed subdivision to 70.408-acres and add an additional five 70' x 125' lots and 33, 80' x 125' single family lots. The new lot product would be subject to all of the same standards as the existing lot type; however, the applicant would be incorporating 100% j-swing or traditional swing garages with the 80' x 125' as opposed to the 50% flat front entry currently permitted on 138, 70' x 125' lot product. Additionally the applicant will be adding an addition five lots of which 50% would be able to be flat front entry. Based on the applicant's request to rezone the subject property, the following infrastructure will be required to be constructed in order to provide adequate public services to the subject property. The City does not currently have the rights to serve the proposed 14.995-acre addition to Planned Development District 79. The applicant will need to work with Mt. Zion Water Supply Corporation to secure the right for the City of Rockwall to serve the additional acreage. Additionally the lift station located at John King Boulevard and FM-552 is not currently sized to serve the proposed 14.995-acre addition to Planned Development District 79. The applicant will be required to perform an infrastructure study to determine the upgrades necessary to meet the required capacity an all proposed infrastructure improvements must meet the Engineering Department's Standards of Design and Construction. The changes to Planned Development District 79 do not change the conformance of the proposed subdivision with regards to the City's existing codes.

Mr. Gonzales further noted that on September 20, 2019, staff mailed nine notices to property owners and residents within 500-feet of the subject property and also emailed notices to the Stone Creek and Stoney Hollow Homeowner's Associations. Staff did not received any notices regarding the applicant's request.

Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked the applicant to come forward

Pat Atkins
3076 Hays Lane
Rockwall, TX

Mr. Atkins came forward and provided a brief explanation and power point presentation in regards to the request.

Chairman Chodun asked for questions from the Commission.

Chairman Chodun opened the public hearing and asked if anyone wished to speak to come forward and do so, there being no one wishing to do so; Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Welch made a motion to approve Z2019-021 with staff recommendations. Commissioner Womble seconded the motion which passed by a vote of 7-0.

3. Z2019-022

Hold a public hearing to discuss and consider a request by Marty Wright for the approval of a Specific Use Permit (SUP) for an accessory building on a one (1) acre tract of land identified as Lot 10, Block B, Saddlebrook Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 16 (SF-16) District, addressed as 2340 Saddlebrook Lane, and take any action necessary.

Senior Planner, Korey Brooks, provided a brief explanation and background concerning the case. The applicant is requesting approval of a Specific Use Permit (SUP) for a detached garage that exceeds the maximum allowable size for properties located within a Single-Family 16 District. Currently situated on the subject property, there is a 3,397 square foot brick single-family home

and a 216 square foot accessory building that is clad with wood. The proposed building will be situated behind the main structure, will be 13' 8" in height, and will be constructed of metal. The building will include a 24' x 40' detached garage and a 6' x 40' porch that will be on the front of the building. The total footprint of the building will be 1,200 square feet, 35% of the size of the home. The porch will incorporate windows with shutters, double walk-in doors, and wooden posts. The applicant has stated that the purpose of the porch is to blend the building with the neighborhood by incorporating architectural elements that are typically seen on a single-family home. The building will have two roll-up doors located on each of the north and south façade and the applicant has stated that detached garage will be utilized to store several antique vehicles. The existing 12' x 18' accessory building will be relocated and will be situated adjacent to the northern side façade of the proposed detached garage.

Mr. Brooks further noted that according to the Unified Development Code, in a Single-Family 16 District a detached garage is permitted provided that it is no larger than 625 square feet. The detached garage should include a minimum of one garage bay door large enough to accommodate a standard size motor vehicle and shall be architecturally compatible with the primary structure. In this case, the proposed detached garage is 960 square feet and the porch is 240 a total building footprint of 1,200 square feet, which exceeds the maximum allowable size of a detached garage. Although the proposed building exceeds the maximum allowable size, the applicant has provided additional architectural elements such as the front porch, windows and shutters, and the double walk-in doors on the building in order for the building to be consistent with the main structure. Additionally, the proposed building incorporates two roll-up doors that are large enough to accommodate a standard passenger vehicle. Based on the proposed design of the building, the applicant's request appears to be in conformance with the requirements stipulated by the Unified Development Code with regard to detached garages; however, the Planning and Zoning Commission and City Council are tasked with determining if the proposed building is architecturally compatible with the primary structure. When looking at the applicant's request, it was observed that a large majority of property owners currently have a detached garage and/or accessory building on their properties. Of the existing accessory buildings within the Saddlebrook Estates #2 Addition, several are roughly the same size or larger than the proposed detached garage. It should be noted that most of the accessory buildings that are visible from the street utilize exterior materials similar to the main structure. Staff was able to determine that 30 building permits have been for accessory buildings within the Saddlebrook Estates #2 Addition and 27 of the permits are still active. A vast majority of the permits were issued between 2002 and 2009 shortly after this area was annexed. In this case, the proposed detached garage is larger than the maximum allowable detached garage; however, the design of the structure appears to be architecturally compatible with the main house and would resemble a residential building. The building will sit more than 100-feet from the front property line and be approximately four feet higher than the street. Due to this, visibility of the garage bay doors will be limited from the front of the property line. Should the detached garage be visible from of the front of the property, the garage would likely resemble the existing detached garages on the surrounding properties. Given that a majority of the surrounding homes have a detached garage, an accessory building, and/or a portable building approval of this request does not appear to negatively impact the subject property or surrounding properties.

Mr. Brooks shared that on September 20, 2019, staff sent 30 notices to all residents/property owners within 500-feet of the subject property and there are no Homeowner's Associations Neighborhood Associations located within 1,500-feet of the subject property. Staff received 3 emails and 1 notice in favor of the request and 1 email in opposition of the request.

Mr. Brooks advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked for questions from the Commission.

Commissioner Thomas asked if there were any old ordinance that required brick to be incorporated in the building as seen in some of the surrounding properties with accessory buildings. Mr. Brooks explained that the ordinances have changed over the years and at one point in time masonry was a requirement however the City can no longer regulate masonry. However if the Planning and Zoning Commission determines that some masonry would make it more architecturally compatible, that could be something that the Commission could ask the applicant to do.

Commissioner Logan asked if the outside porch would be used as storage as well. Mr. Brooks shared that there would be no outside storage allowed and the ordinance would indicate that.

Chairman Chodun asked the applicant to come forward.

Marty Wright
2340 Saddlebrook Lane
Rockwall, TX

Mr. Wright came forward and provided a short presentation and additional comments in regards to the request. He shared that prior to a legislative change that took effect September 1st of this year it was a requirement to have masonry, however with that house bill the requirements have changed. Mr. Wright indicated he was available for questions.

Commissioner Logan shared concerns with the maintenance such a building would create in the future should there be a time when someone that does not take such owner prideship occupy the home.

Commissioner Moeller asked if the building would be visible from the street. Mr. Wright indicated that it would be visible.

Chairman Chodun opened the public hearing and asked if anyone wished to speak to come forward and do so.

Patty Muggeo
2317 Saddlebrook Lane
Rockwall, TX

Ms. Muggeo came forward and shared what an excellent neighbor Mr. Wright has been. However although she does not have a problem with the building itself, the issue she has is that it is not cohesive to the neighborhood what is being proposed. She generally expressed not being in favor of the request unless it is at least partially bricked.

Kevin Barger
2364 Saddlebrook Lane
Rockwall, TX

Mr. Barger came forward and said he shares Ms. Muggeo's opinion in regards to the request.

Eddie Smith
2312 Saddlebrook
Rockwall, TX

Ms. Smith came forward and shared she just built a large shop that required to have brick and they adhered to that requirement. She generally expressed not being in opposition of the structure as long as it has some brick and masonry to be cohesive to the neighborhood.

Chairman Chodun asked if anyone else wished to speak to come forward and do so there being no one wishing to do so, Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Chairman Chodun expressed concern with setting a precedent in approving a request such as this. General discussion took place between the Commission concerning the concerns expressed by those who spoke.

Commissioner Womble made a motion to deny Z2019-022. Commissioner Logan seconded the motion which passed by a vote of 7-0.

4. Z2019-024

Hold a public hearing to discuss and consider a request by Adam Buczek of Stone Creek Balance, LTD for the approval of a zoning amendment to Planned Development District 70 (PD-70) for the purpose of changing the number of hard-edged retention ponds required for the residential subdivision being a

~336.00-acre tract of land identified as the Stone Creek Subdivision and being situated within the W. T. Deweese Survey, Abstract No. 71 and the S. King Survey, Abstract No 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single-Family 10 (SF-10) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) and SH-205 By-Pass Overlay (SH-205 BY-OV) Districts, generally located at the southeast corner of the intersection of FM-552 and SH-205 [*N. Goliad Street*], and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation and background of the request. The applicant submitted an application requesting to amend Planned Development District 70 for the purpose of reducing the number of required hard edged retention ponds from four ponds to three ponds. Additionally, the applicant has submitted a letter stating an intent to provide an additional fountain feature for the existing retention pond located adjacent to York Street. Planned Development District 70, in accordance with the original development agreement, requires the developer to provide a minimum of four retention ponds with hard edges and fountain features. According to the ordinance, the location and configuration of the proposed ponds is to be determined at the time of development. Currently, the developer has constructed three of the four ponds required by Planned Development District 70: [1] the first pond is located at the northeast corner of the intersection of N. Goliad Street and Featherstone Drive which is at the entry to the subdivision, [2] the second pond located south of and adjacent to homes along Crestbrook Drive, and [3] the third pond located within the public park located at the northwest corner of Featherstone Drive and John King Boulevard. The pond at the entryway to the subdivision is the only pond that incorporates both a hardedge and a fountain feature. The pond located south of and adjacent to Crestbrook Drive only incorporates a hardedge, and the pond in the public park does not incorporate either a hardedge or a fountain; however, this pond was exempted by the City to make the park eligible for matching grants through the State of Texas, which were applied to increase the amenity of the park. The applicant has requested to change the language in the Planned Development District 70 to reduce the number of ponds from three to four ponds, and has agreed to incorporate a fountain feature in the pond adjacent to Crestbrook Drive and another in a secondary pond along York Street. This means that the only thing the applicant is lacking to meet the current requirements would be a hardedge along the pond located adjacent to York Street; however, staff should point out that this pond is located within the 100-year floodplain and is not highly visible from the street. The applicant has stated the reason for the request is tied to the lengthy and indefinite permitting process required by the Texas Commission on Environmental Quality, and a desire to not put an additional cost burden on the Stone Creek Homeowner's Association. Additionally, as has been done with past requests to amend Planned Development District ordinances, staff has consolidated the two regulating ordinances into one regulating ordinances; however, the only change made in the attached draft ordinance is to the verbiage relating to the number of retention ponds permitted within the development. There are no infrastructure requirements associated with the proposed amendment. In addition, the additional retention pond is not needed to meet the stormwater detention requirements, as the retention ponds were not accounted for in the required detention for the subdivision since the development was required to provide detention in other areas of the subdivision to meet the City's engineering requirements. Since the request is only tied to a requirement of Planned Development District 70, the request remains in compliance with all of the requirements of the City's codes.

Mr. Gonzales further noted that on September 20, 2019, staff mailed 928 notices to property owners and residents within 500-feet of Planned Development District 70 and also emailed notices to the Quail Run Valley, Lakeview Summit, Random Oaks, and Rockwall Shores Homeowner's Associations which are the only HOA's located within 1,500-feet of Planned Development District 70 participating in the Neighborhood Notification Program. Staff received seven in favor and seven in opposition of the request.

Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Chairman Chodun asked for questions from the Commission. Commissioner Logan asked for clarification that pond 4 would be getting the fountain not the hardedge. Mr. Gonzales indicated if the request was approved the ordinance would require the fountain to be included with pond 4.

Chairman Chodun asked the applicant to come forward and speak.

Adam Buzcek
8214 Westchester Drive, Suite. 710
Dallas, TX

Mr. Buzcek came forward and provided a power point presentation along with additional comments in regards to the request. Mr. Buzcek indicated he was available for questions.

Chairman Chodun opened the public hearing and asked if anyone wished to speak to come forward and do so.

Bob Wacker
309 Featherstone
Rockwall, TX

Mr. Wacker came forward and provided a brief presentation in regards to the request. Mr. Wacker generally expressed being in favor of the request.

Shirley Smith
609 Amherst Drive
Rockwall, TX

Mrs. Smith came forward came forward and shared her disappointment at the condition the ponds were handed over to the HOA by the developer. She is asking that maintenance but kept up with the existing ponds if the fourth pond will not have hardedge to better enhance the aesthetics of the neighborhood. She generally expressed being against the request.

Jim Smith
609 Amherst Drive
Rockwall, TX

Mr. Smith came forward and shared that the current condition of the existing ponds are not being maintained. Crestbrook Pond that is hard-edged is almost impossible for residents to reach it and therefore does not meet the needs of amenities. He feels the TECQ requirements shouldn't play a role because the developer was award of those requirements when it first began the development. He feels if the fourth pond will not be incorporated the developer then needs to better maintain the ponds and make Crestbrook Pond accessible to the residents. He generally expressed not being in favor of the request.

Sara Driscoll
306 Iris Drive
Rockwall, TX

Ms. Driscoll came forward and generally expressed being in favor of the request for another pond and feels the ideal location for it would be the intersection of SH-205 and Featherstone.

Kate Wilke
129 Deverson Drive
Rockwall, TX

Ms. Wilke came forward and generally expressed not being in favor with the additional pond being added.

Chairman Chodun asked if anyone else wished to speak to come forward and do so, there being no one indicating such Chairman Chodun closed the public hearing and asked the applicant to come forward with any rebuttal.

Mr. Buzcek came forward and provided rebuttal for the comments that were given by the residents present.

Chairman Chodun brought the item back to the Commission for discussion or action.

After general discussion among the Commission, Commissioner Womble made a motion to approve Z2019-024 with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 5-2 with Commissioners Welch and Thomas dissenting.

V. ACTION ITEMS

5. SP2019-035

Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of the owner for the approval of a site plan for the expansion of an existing Minor Auto Repair Garage on a 1.1107-acre parcel of land identified as Lot 4, Block 1, Horizon Village Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 2581 Horizon Road [*FM-3097*], and take any action necessary.

Senior Planner, Korey Brooks, provided a brief explanation of the request. The applicant is requesting approval of a site plan for the purpose of expanding an existing minor automotive repair garage, Kwik Kar. The applicant has stated that constructing a second building on the subject property will help manage the current volume of vehicles being serviced. According to the Unified Development Code, a Minor Auto Repair Garage is permitted by Specific Use Permit in a Commercial District. In this case, on September 3, 2019, the City Council approved a Specific Use Permit and no additional approvals regarding land use are necessary. Currently, there is an 8,431 square foot building on the subject property and the applicant is proposing to construct a second building that will be approximately 1,440 square feet and located behind the existing building. According to the submitted building elevations, the new structure will match the existing structure with regard to design and materials. With the exception of the exceptions being requested the submitted site plan, landscape plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Commercial District.

Mr. Brooks went over the exceptions the applicant is requesting to the requirements of the Unified Development Code. According to the Unified Development Code, garage doors or bays shall not face the street or a residential lot. In this case, since the bays of proposed building face the street, approval of an exception to the Conditional Land Use Standards is required. Additionally according to the UDC, the maximum wall length of primary building facades shall not exceed three times the wall height without incorporating a secondary entryway/architectural element. In this case, the south and north elevations are 48-feet in length and do not incorporate a secondary entryway/architectural element. Since this exceeds the maximum allowable wall length of 42-feet in length, approval of an exception to the building articulation standards is required. In this case, the applicant is providing additional canopy trees and plants on site adjacent to the new building. Additionally, the applicant is including 24-38% natural stone on each façade. Staff should note, the front of the building will consist of bay doors, which provide some relief on the façade. Since there is an existing building on the property, it seems appropriate for the design and materials of the new building to be consistent. Further, the Unified Development Code, gives the Planning and Zoning Commission the ability to grant exceptions to the general standards should the request meet one of the following; [1] where unique or extraordinary conditions exist or [2] where strict adherence to the technical requirements of the Unified Development Code would create an undue hardship. When exceptions are being requested, the applicant shall provide two compensatory measures that directly offset each requested exception. In this case, the applicant is providing a combination of a berm, shrubs and plants in the landscape buffer and is utilizing 100% masonry. In addition, the applicant is incorporating 24%-38% natural stone on each building façade. Staff should note, that the property is adjacent to other automotive land uses. The proposed building will be located behind the main structure, which will limit visibility of the bays; however, the bays may still be slightly visible from the street. It should also be noted, that the bay doors on the front of the building provide some relief to the buildings' façade. Since there is an existing building on the property, it seems appropriate for the design and materials of the new building be consistent with the existing building. With this being said these exceptions are discretionary decisions for the Planning and Zoning Commission and require approval by a supermajority vote. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

Mr. Brooks further noted that the Architectural Review Board reviewed the proposed building elevations and recommended approval. Mr. Brooks advised the Commission that the applicant was unable to be present however staff was available for que4stions.

Chairman Chodun brought the item back to the Commission for discussion or a motion.

Commissioner Moeller made a motion to approve SP2019-035 with staff recommendations. Commissioner Logan seconded the motion which passed by a vote of 7-0.

VI. DISCUSSION ITEMS

6. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

Planning Manager, David Gonzales, advised the Commission that the City Council meeting was held the night before and the outcome of items brought forward will be discussed at the next scheduled meeting.

VII. ADJOURNMENT

Chairman Chodun adjourned the meeting at 8:16 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

_____
Eric Chodun, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 29, 2019
6:00 P.M.

I. CALL TO ORDER

Chairman Eric Chodun called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Jerry Welch, Tracey Logan, Mark Moeller, John Womble, Annie Fishman and Sedric Thomas. Staff members present were Planning Director, Ryan Miller, Senior Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, Civil Engineers Jeremy White and Sarah Hager.

II. OPEN FORUM

Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time. There being no one coming forward to speak Chairman Chodun closed the open forum.

III. CONSENT AGENDA

1. Approval of Minutes for the September 10, 2019 Planning and Zoning Commission meeting.

2. Approval of Minutes for the September 24, 2019 Planning and Zoning Commission meeting.

3. P2019-039
Consider a request by Steven Homeyer of Homeyer Engineering, Inc. on behalf of Julia McKinney for the approval of a replat for Lot 8, Block A, Ellis Centre Phase 2 Addition being a 1.21-acre parcel of land identified as Lot 4, Block A, Ellis Centre Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located west of the intersection of Alpha Drive and Sigma Court, and take any action necessary.

4. P2019-041
Consider a request by David Raines for the approval of a replat for Lot 35, Block A, Chandler's Landing, Phase 18, Section 2 being a 0.19-acre tract of land identified as Lot 12, Block A, Chandler's Landing, Phase 18, Section 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development 8 (PD-8) District for single family land uses, addressed as 5808 Constellation Circle, and take any action necessary.

Commissioner Moeller made a motion to approve the consent agenda. Commissioner Logan seconded the motion which passed by a vote of 7-0.

IV. APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

V. PUBLIC HEARINGS

6. Hold a public hearing to discuss and consider imposing a moratorium on accepting and reviewing subdivision plats for commercial and residential property situated within the City's Extraterritorial Jurisdiction (ETJ), and take any action necessary.

Planning Director, Ryan Miller, provided a background and explanation of the request. He shared that the City has an interlocal agreement with Rockwall County that allows the City to process and review subdivision plats within the City's extraterritorial jurisdiction. The subdivision plat is an important way that the City ensures that the proper infrastructure is being provided to property being developed within the City's ETJ. On October 22nd the Rockwall County Commissioners Court approved a motion to notify all cities in Rockwall County that the interlocal agreements would need to be amended to account for two things. The County is in the process of changing their subdivision regulations which will affect the unified regulations contained in the document and there was also a lawsuit challenging certain requirements of their subdivision regulations which are incorporated in those unified regulations contained in the interlocal agreement. Until the new unified regulations are adopted it would become difficult for the City to review plats, therefore what the City is proposing is to impose a moratorium of 90 days on commercial development and 120 days on residential developments for subdivision plats in the ETJ.

Mr. Miller advised the Commission staff was available for questions.

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so; there being no one indicating so Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Welch made a motion to approve the moratorium. Commissioner Womble seconded the motion which passed by a vote of 7-0.

VI. DISCUSSION ITEMS

7. MIS2019-014

Hold a public hearing to discuss and consider an amendment to the OURHometown Vision 2040 Comprehensive Plan for the purpose of updating the water and wastewater master plans, and take any action necessary.

Senior Planner, Korey Brooks provided a brief explanation of the request. Planning Director indicated that with the impact fees are on the way to be approved, the City had the consultants look at the water, water waste master plan and based on the Capital Improvement Plans approved with the impact fee study they have adjusted the plan as necessary. When the Comprehensive Plan was done those master plans were incorporated into the Comprehensive Plan because of that public hearings will have to be held to go over any changes to those Master Plans. Once approved by City Council it will be adopted by Ordinance.

Mr. Miller indicated staff was available for questions.

Chairman Chodun asked for questions from the Commission.

There being no questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

8. P2019-040

Discuss and consider a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street, and take any action necessary.

Senior Planner, Korey Brooks, shared that the agenda item was in the discussion items because it will go before the Park Board next week to have park fees accessed. It will come back at the next scheduled Planning and Zoning meeting on the consent agenda.

Mr. Brooks indicted he was available for questions.

Chairman Chodun asked for questions from the Commission.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

9. SP2019-037

Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

Planning Director, Ryan Miller, shared that the request came before the Commission last cycle, however because of the 30 day rule by the state, the applicant withdrew the request and now are bringing back the request with the changes and will come before the Commission for action at the next scheduled meeting.

Mr. Miller advised the Commission that the applicant was present and available for questions.

Chairman Chodun asked the applicant to come forward.

Anna Blackwell
301 Commerce Street
Fort Worth, TX

Ms. Blackwell came forward provided a brief explanation of the request and indicated that she is the civil engineer on the project on behalf of the owner. She shared that they have been working closely with staff and the Architectural Review Board to address the comments that were provided to them and have made necessary modifications. She indicated she was available for questions.

Chairman Chodun asked for questions from the Commission.

Commissioner Womble asked for recap of the variances being requested, if those were only for the dumpster orientation, space between the drive isles and articulation requirements. Ms. Blackwell indicated that was correct.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

10. SP2019-040

Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

Planning Director, Ryan Miller, advised the Commission that the applicant was present to provide comments on the request.

Chairman Chodun asked the applicant to come forward.

Mathew Gardner
3618 Regent Street
Midlothian, TX

Mr. Gardner came forward and provided a brief explanation of the request. They are proposing three light industrial buildings that they are proposing on the site for the purpose of leasing to individual tenants. He shared that they met with the Architectural Review Board who provided comments which they will be addressing. They will be asking for a variance to the slope requirement in the detention pond. He indicated he was available for questions.

Chairman Chodun asked if the tree line would be staying in place. Mr. Gardner stated most would as most are not on their property.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

11. SP2019-041

Discuss and consider a request by LeeAnn Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

Senior Planner, Korey Brooks, shared that the applicant was unable to attend and went on to give a brief explanation of the request. The applicant is proposing to build a medical office building. The Architectural Review Board took a look at the building elevations and provided some suggestions which staff will provide to the applicant. Mr. Brooks indicated staff was available for questions.

Chairman Chodun asked for questions from the Commission.

Commissioner Womble asked if there would be any variances. Mr. Brooks stated that there would not due to it meeting both the vertical and horizontal articulation requirements.

There being no further questions Chairman Chodun indicated the case will return to the Commission for action at the next scheduled meeting.

12. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ MIS2019-001: Impact Fee Update (*1st Reading*) [*Approved*]
- ✓ Z2019-021: Amendment to Planned Development District 79 (PD-79) (*1st Reading*) [*Approved*]
- ✓ Z2019-022: SUP for an Accessory Building at 2340 Saddlebrook Lane (*1st Reading*) [*Postponed to November 4, 2019*]
- ✓ Z2019-024: Amendment to Planned Development District 70 (PD-70) (*1st Reading*) [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

VII. ADJOURNMENT

Chairman Chodun adjourned the meeting at 6:29 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	November 12, 2019
APPLICANT:	Perry Bowen
CASE NUMBER:	P2019-040.; *Lots 1 & 2, Block A, Haley & Kyle Addition*

SUMMARY

Discuss and consider a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting to replat one (1) lot (*i.e. Lot A, Block 107, B. F. Boydstun Addition*) into two (2) lots (*i.e. Lots 1 & 2, Block A, Haley & Kyle Addition*) for the purpose of subdividing the property in order to construct two (2) single-family homes.

☑ The subject property was annexed prior to 1959, is zoned Single-Family 7 (SF-7) District, and is addressed as 501 S. Clark Street.

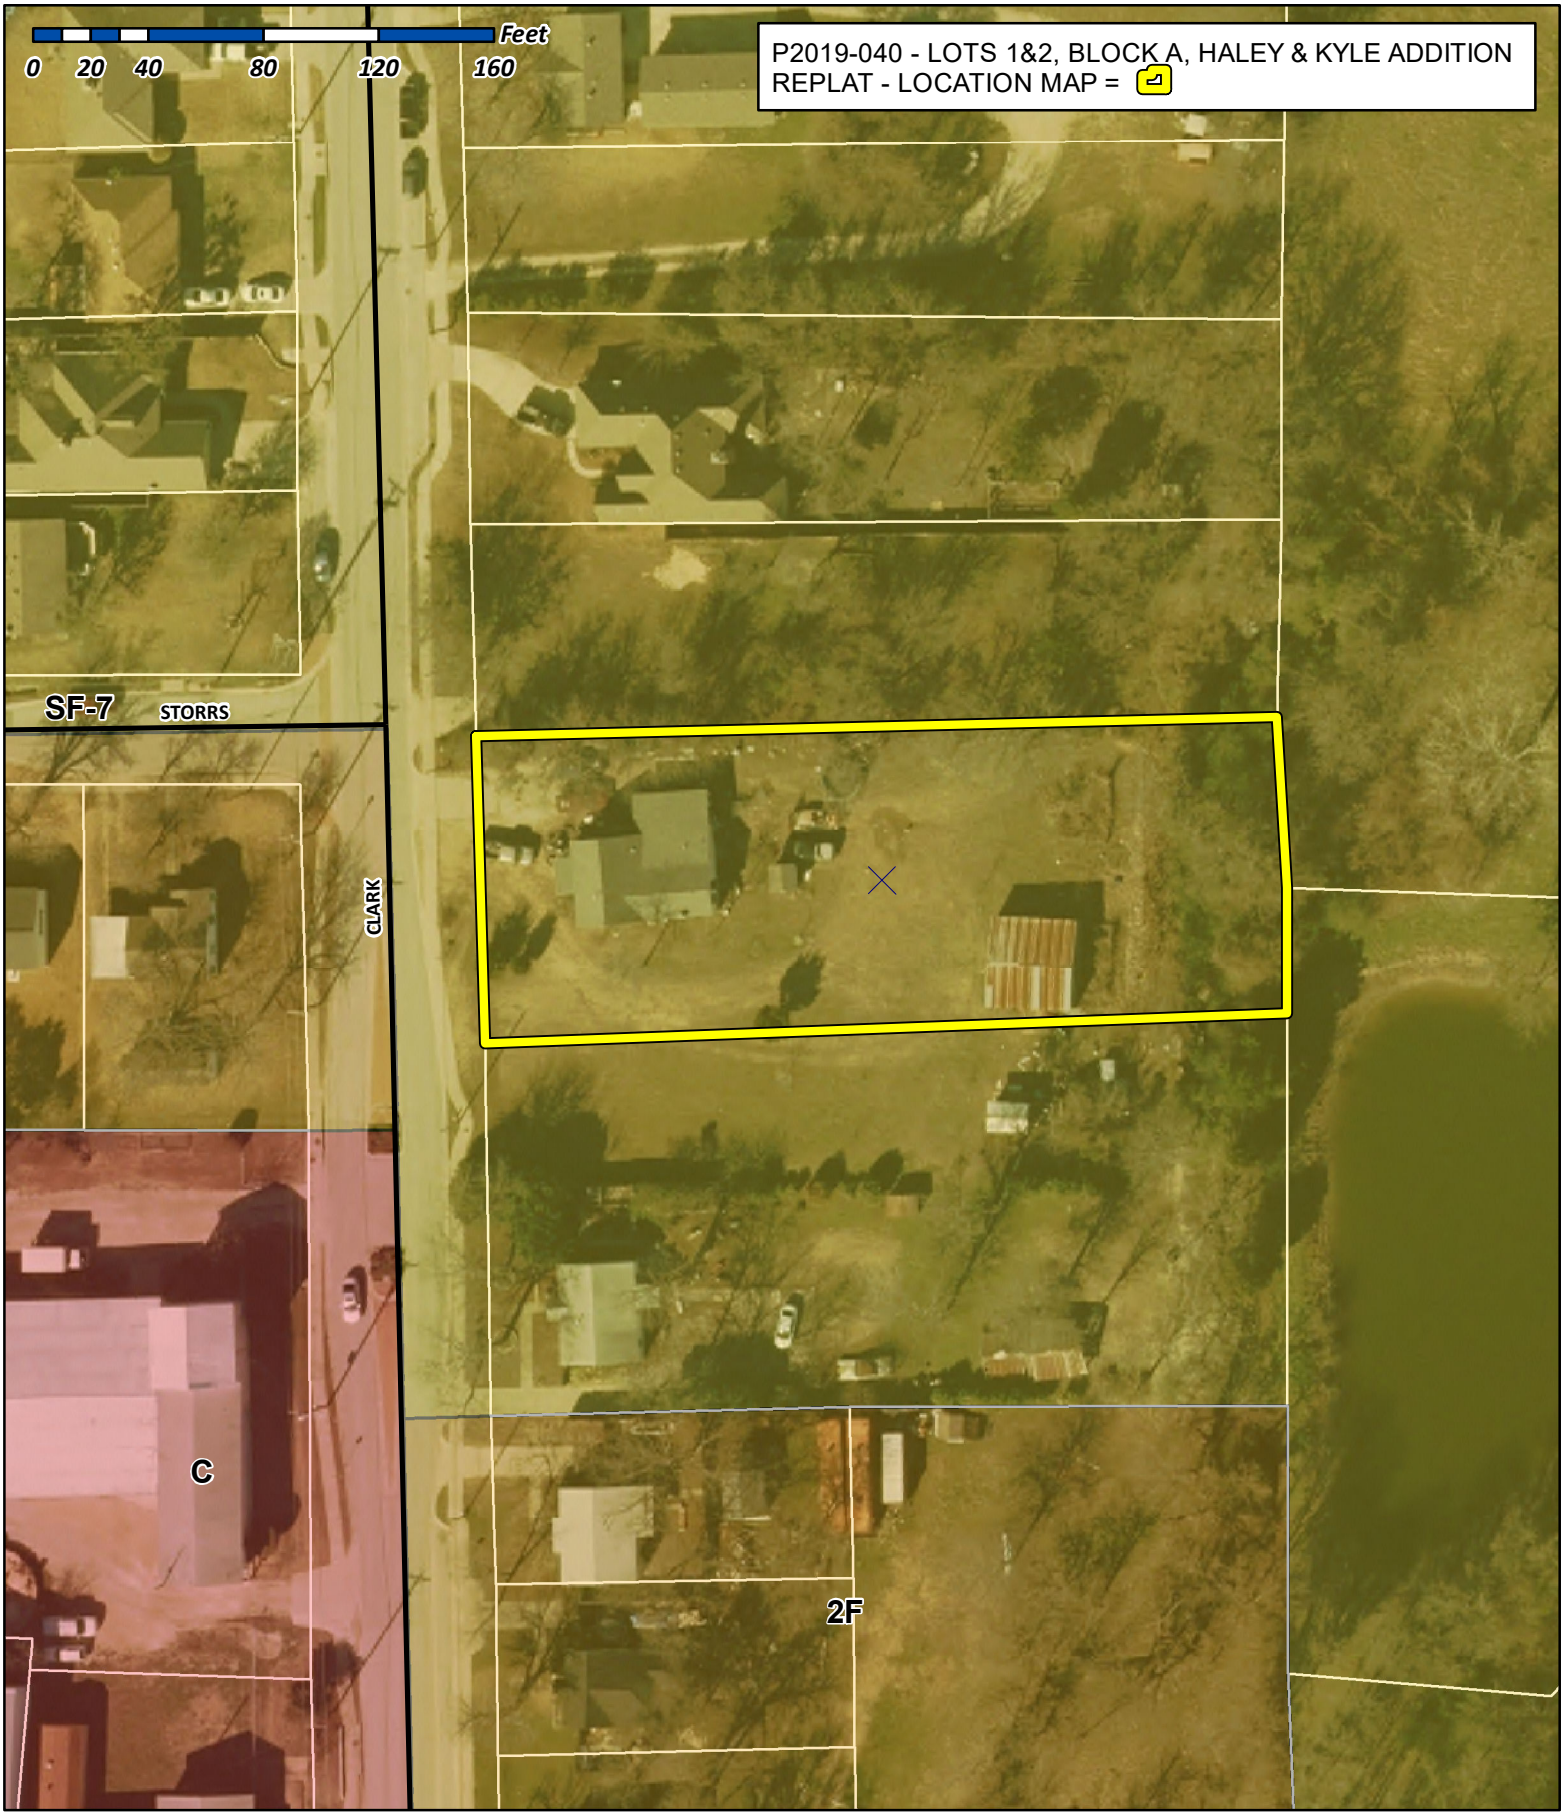
☑ On November 5, 2019, the Parks and Recreation Board reviewed the proposed *replat* and made the following recommendations:

1) The developer shall pay pro-rata equipment fees for Park District No. 21 in the amount of $516.00 for Lot 2. This will need to be paid at time of final plat; and

2) The developer shall pay cash-in-lieu of land fees for Park District No. 21 in the amount of $499.00 for Lot 2 to be paid at the time of final plat.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

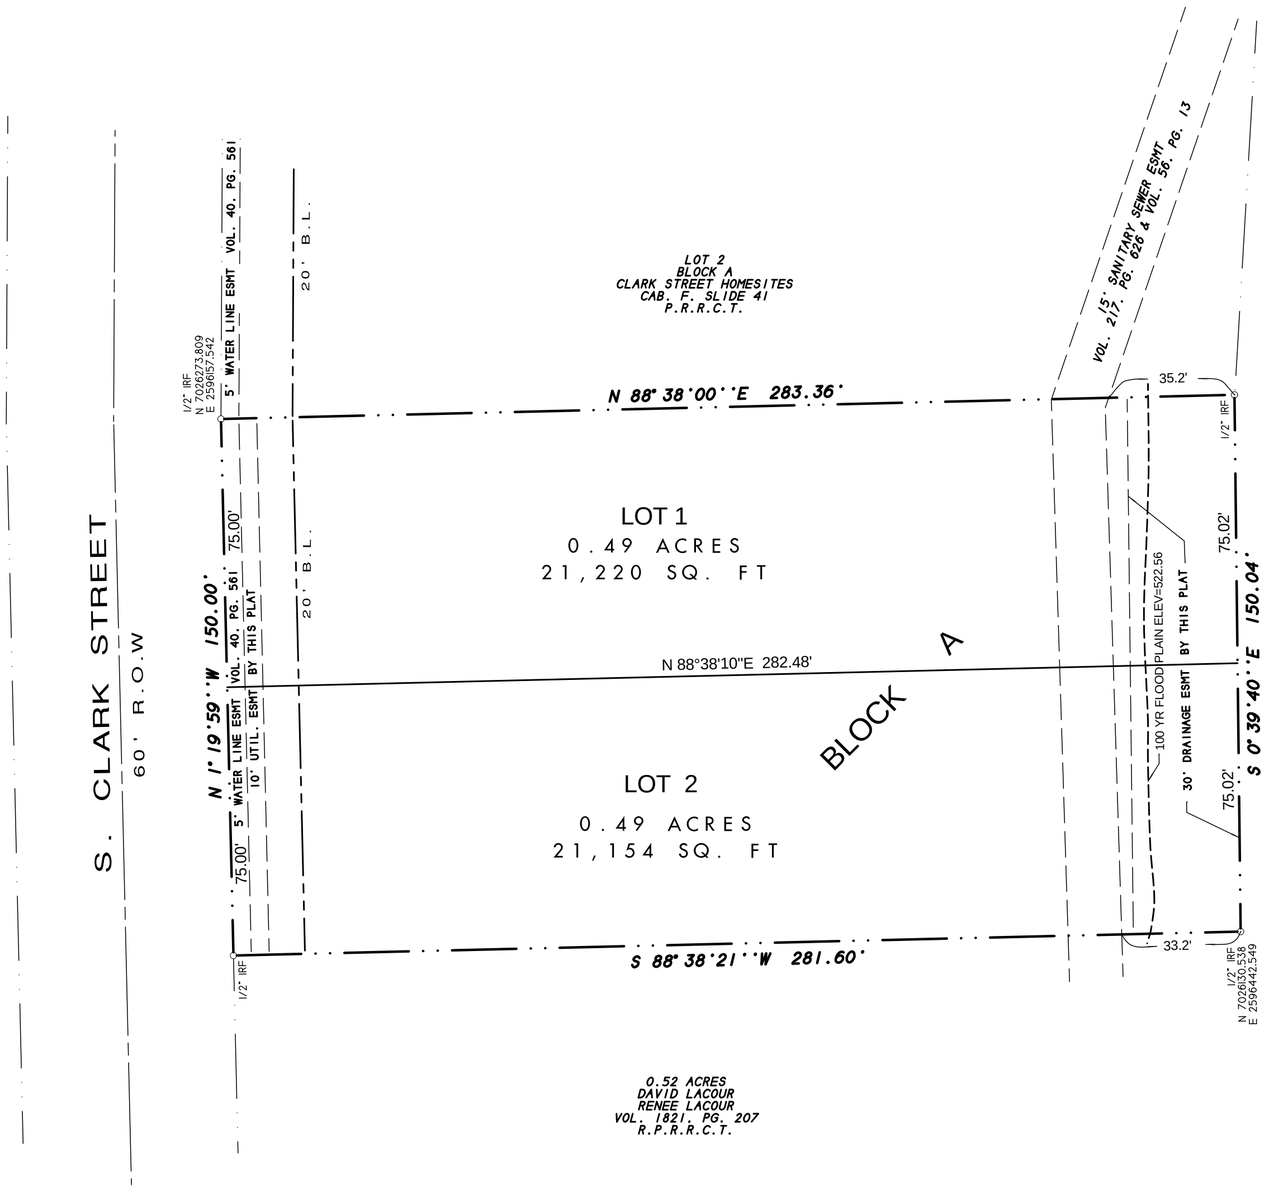


☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the replat for *Lots 1 & 2, Block A, Haley & Kyle Addition*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;



(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 48397C0030L dated SEPT 26, 2008, this property lies in Zone X. This property does not appear to lie within a 100-year flood plain.

2) BEARING SOURCE: CITY OF ROCKWALL CONTROL MONUMENT SYSTEM.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "RPLS 5034."

4) PROPERTY OWNER TO MAINTAIN, REPAIR, AND REPLACE DRAINAGE SYSTEMS ON SITE.

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representa tion, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, as required under Ordinance 83-54.

(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS KYLE BRYAN and HALEY BROOKE BOWEN, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.F. BOYDSTUN SURVEY, ABSTRACT NO. 14, City of Rockwall, Rockwall County, Texas, and being all of that 0.97 acres tract of land as described in a Warranty deed from Mario Del Bosque to Kyle Bryan and Haley Brooke Bowen, dated May 19, 2019 and being recorded in Document no. 20190000007530 of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the East right-of-way line of Clark Street (60' R.O.W.) at the Southwest corner of the above cited tract of land, said point also being at the Northwest corner of a 0.52 acres tract of land as described in a Contract for deed to David Lecour and Renee Lecour, dated January 15, 1999 and being recorded in Volume 1821, Page 207 of the Real Property Records of Rockwall County, Texas;

THENCE N. 01 deg. 19 min. 59 sec. W. along said right-of-way line, a distance of 150.00 feet to a 1/2" iron rod found for corner at the Northwest corner of said Bryan and Bowen tract and at the southwest corner of Lot 2, Block 1, Clark Street Homesites Addition, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet F, Slide 41 of the Plat Records of Rockwall County, Texas;

THENCE N. 88 deg. 38 min. 00 sec. E. a distance of 283.36 feet to a 1/2" iron rod found for corner at the Northeast corner of said Bryan and Bowen tract;

THENCE S. 00 deg. 39 min. 40 sec. E. a distance of 150.04 feet to a 1/2" iron rod found for corner at the Northeast corner of said Lecour tract;

THENCE S. 88 deg. 38 min. 21 sec. W. a distance of 281.60 feet to the POINT OF BEGINNING and containing 42,375 square feet or 0.97 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as HALEY & KYLE ADDITION, LOTS 1 & 2, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We , our successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	November 12, 2019
APPLICANT:	Lee Ann Latimer
CASE NUMBER:	SP2019-041; *Site Plan for T3 Chiropractic*

SUMMARY

Discuss and consider a request by Lee Ann Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

BACKGROUND

The subject property was annexed in 1986 [*Ordinance No. 86-30*] is zoned Commercial (C) District, and is located north of the intersection of Industrial Boulevard and Airport Road. On July 7, 2012, The City Council approved a change in zoning from an Agricultural (AG) District to a Commercial (C) District [*Ordinance No. 12-14*] on the subject property. On August 9, 2016, the Planning and Zoning Commission approved a site plan [*Case No. SP2016-015*] for an indoor recreation facility (*i.e. Adventure Sports*) on Lot 2. Subsequently, on August 15, 2016, the City Council approved variances associated with the approved site plan; however, the developer submitted an amended site plan [*Case No. SP2017-021*] to relocate the indoor recreational facility to Lot 3 in 2017. On June 5, 2017 the City Council approved a final plat [*Case No. P2017-026*] for Lots 1-3, Block A, Landing Point Addition.

PURPOSE

The applicant is requesting approval of a site plan for a 2,900 SF medical office building on Lot 2, Block A, Landing Point Addition.

ADJACENT LAND USES AND ACCESS

The subject property is located north of the intersection of Airport Road and Industrial Boulevard. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Lot 3, Block A, Landing Point Addition, which is occupied by an indoor recreation/amusement business (*i.e. Adventure Sports*). Beyond this there are several large vacant tracts of land that are zoned Agricultural (AG) District and Planned Development District 71 (PD-71) for Commercial (C) District land uses. Following this William Street [*SH-66*], which is identified as a *Minor Collector* on the City's Master Thoroughfare Plan. Beyond this is a vacant tract of land that is zoned Planned Development District 85 (PD-85) for General Retail (GR) District land uses.

South: Directly south of the subject property is a vacant lot (*i.e. Lot 1, Block A, Landing Point Addition*). Beyond this is Airport Road, which is identified as a *M4U* (*major collector, four [4]-lane, undivided roadway*) on the City's Master Thoroughfare Plan. Following this, there is an athletic complex (*i.e. Leon Tuttle Athletic Complex*) and a railway (*i.e. Union Pacific/Dallas Garland N. E.*

railway). Beyond this, there is a light industrial facility (*i.e. Graham Packaging Pet Technologies*). These areas are zoned Light Industrial (LI) District.

East: Directly east of the subject property, there is a medical office facility (*i.e. Lakes Regional Mental Health*), a house of worship (*i.e. Cornerstone Church*), and a vacant tract of land (*i.e. Tract 4-06, N. Butler Survey, Abstract No. A0020*). These areas are zoned Commercial (C) District. Following this is John King Boulevard, which is identified as a *P6D* (*principle arterial, six [6]-lane, divided roadway*) on the City's Master Thoroughfare Plan.

West: Directly west of the subject property, there are several vacant tracts of land followed by Airport Road, which is identified as a *M4U* (*major collector, four [4]-lane, undivided roadway*) on the City's Master Thoroughfare Plan. Beyond this, there are several vacant tracts of land, a light industrial facility (*i.e. Columbia Extrusion*), and a mixed-use subdivision (*i.e. Park Station*). These areas are zoned Light Industrial (LI) District and Planned Development District 87 (PD-87) for townhome, commercial, and light industrial land uses.

DENSITY AND DIMENSIONAL REQUIREMENTS

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Use*s, of the Unified Development Code (UDC), a *medical office facility* is permitted by-right in a Commercial (C) District and no additional discretionary approvals are necessary with regard to land use. The proposed medical office building will be approximately 2,900 SF, will be two (2) stories, and will be clad with a combination of brick, stone, and cementitious lap siding (*i.e. Hardi-Board or similar*). The building will utilize a pitched roof system, will be constructed in a residential architectural-style and scale, and will serve as a chiropractic facility (*i.e. T3 Chiropractic*) for an existing medical practice. The submitted site plan, landscape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Commercial (C) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*24,570; In Conformance*
Minimum Lot Frontage	*60-Feet*	*60-Feet: In Conformance*
Minimum Lot Depth	*100-Feet*	*179-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*10-Feet; In Conformance*
Maximum Building Height	*60-Feet*	*28-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*12%: In Conformance*
Minimum Number of Parking Spaces	*15 Spaces*	*32 Spaces; In Conformance*
Minimum Landscaping Percentage	*20%*	*35%: In Conformance*
Maximum Impervious Coverage	*85-90%*	*48%; In Conformance*

TREESCAPE PLAN

This request does not require a treescape plan since there are no protected trees being removed.

CONFORMANCE WITH THE CITY'S CODES

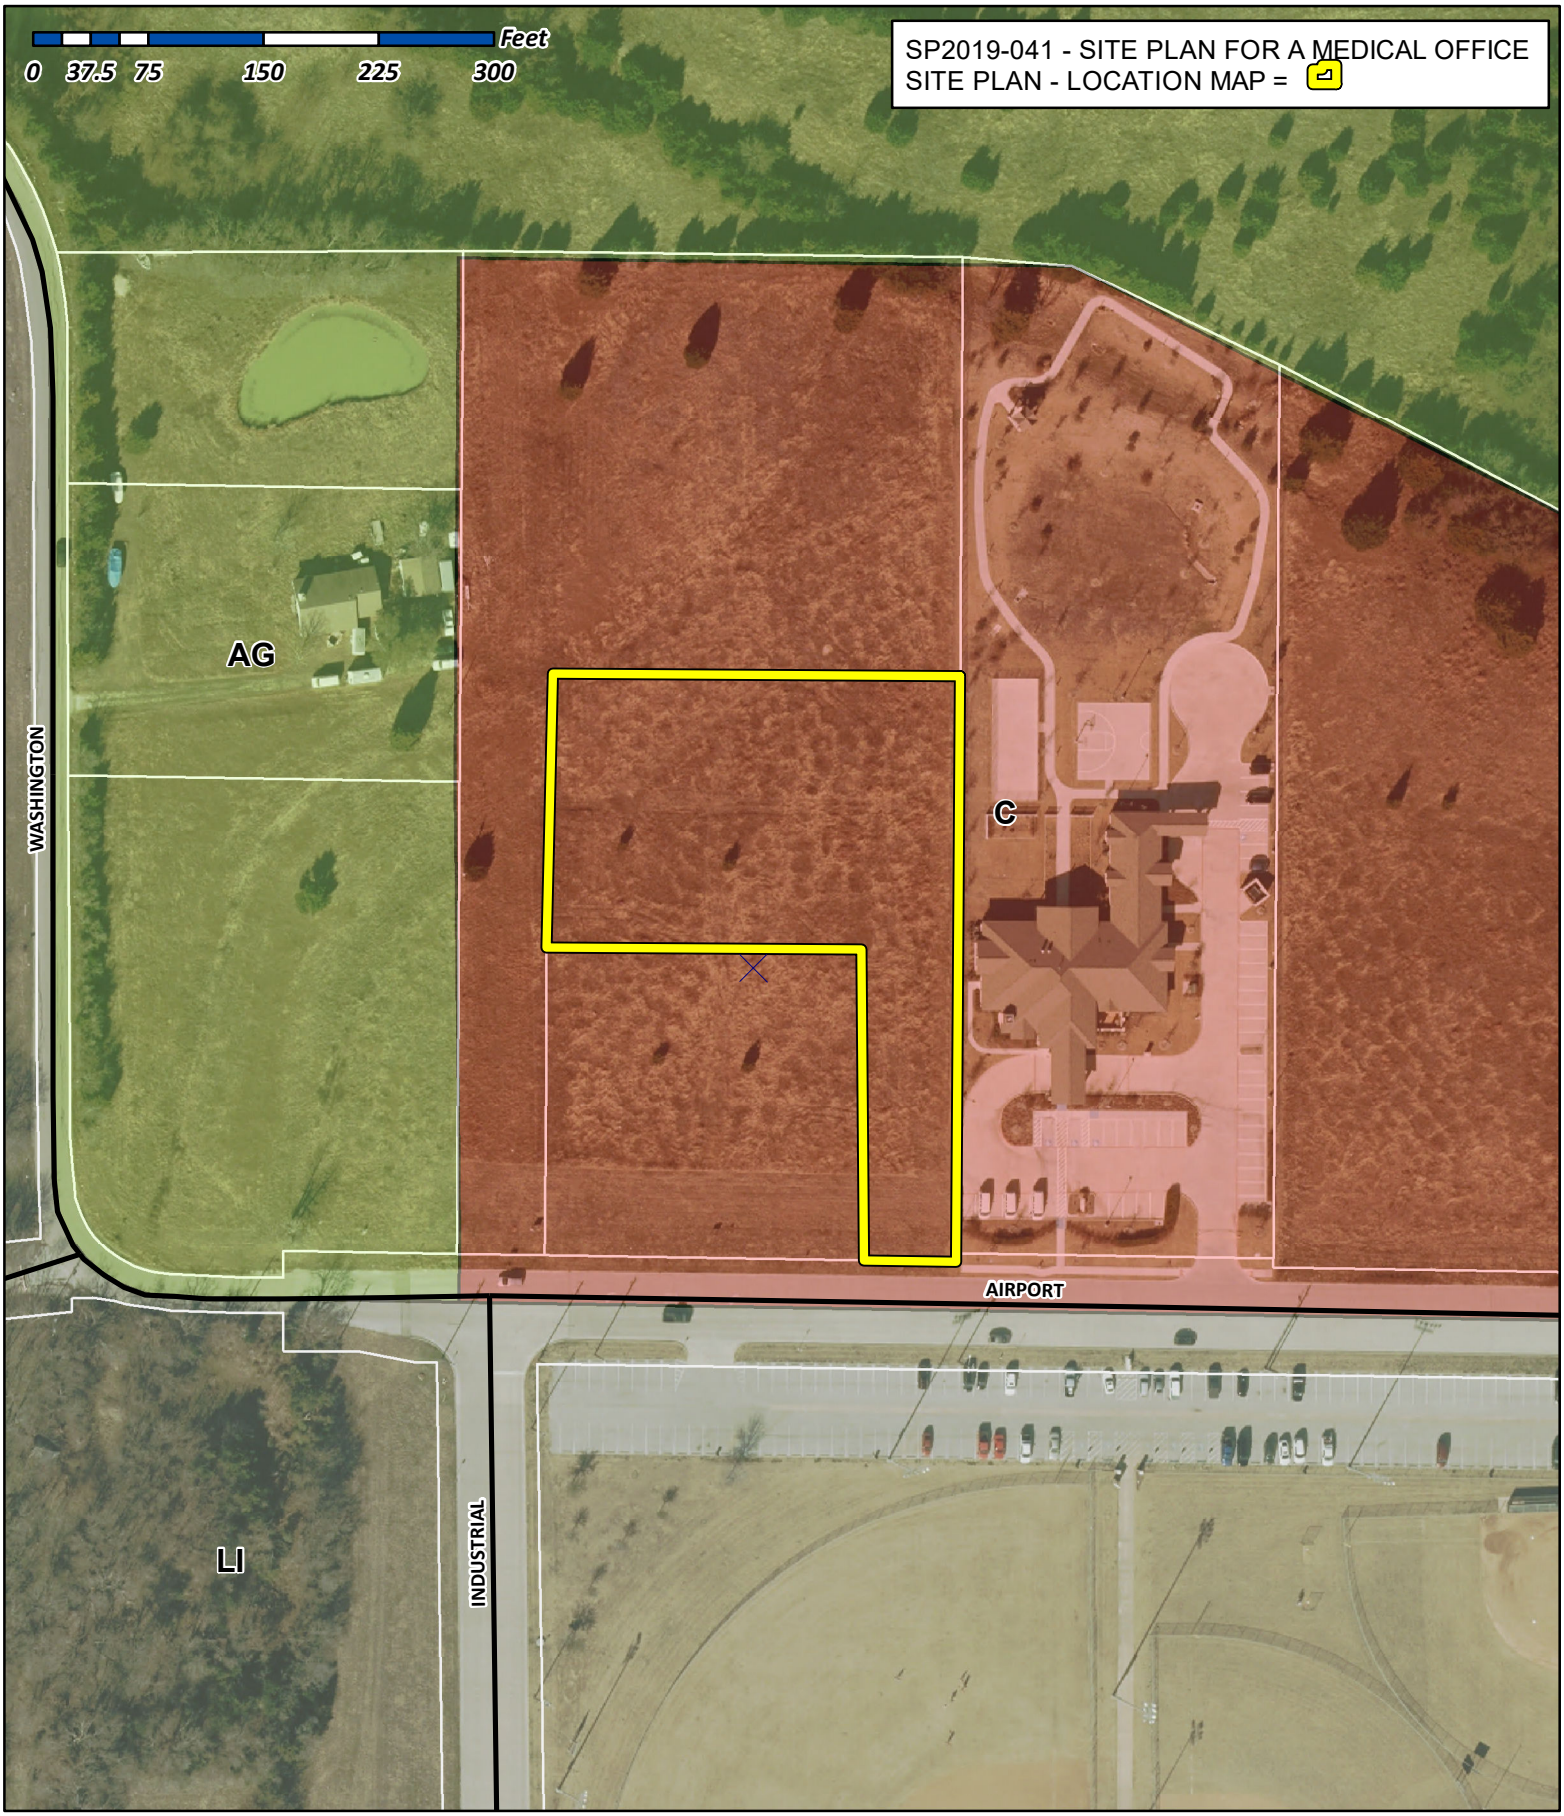
Subsection 4.01, *General Commercial District Standards*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), stipulates that all commercial development utilize a pitched (*minimum of a 6:12 roof pitch*), parapet, or a mansard roof. In this case, the applicant is proposing to utilize a pitched roof that appears to meet the roof design standards for properties located within a Commercial (C) District. In addition, primary and secondary building façades shall not exceed more than three (3) times the wall height (*i.e. 81-feet in this case*)

without a projecting secondary entryway or architectural element. In this case, the building is 27-feet in height, is 71-feet in length, and 42-feet in width. Since the primary and secondary facades are below the maximum allowable wall length, the proposed building seems to conform to the building articulation standards.

According to the purpose statement outlined in Subsection 4.05, *Commercial (C) District*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the Commercial (C) District is "…the proper zoning classification for most types of commercial development…" and "…includes most types of office land uses…". Areas should not be zoned Commercial (C) District unless they are located on or close to an arterial or major collector that is capable of carrying the additional traffic generated by land uses in the district. In this case, the proposed use, *a medical office facility*, is allowed by-right in a Commercial (C) District and the applicant is not proposing to rezone the subject property. Due to those factors, the applicant's request appears to conform to the district development standards outlined in the Unified Development Code (UDC).

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The Future Land Use Map that was adopted with the OURHometown Vision 2040 Comprehensive Plan depicts the subject property being located within the *Central District*. This district contains a wide range of land uses that vary from single-family residential to industrial land uses. The residential areas within the district are largely rural and estate developments. Although there are some residential and commercial/retail developments within the district, the *Technology/Employment Center (TEC)* land use occupies the largest acreage (*i.e. 390.78-acres*). This can likely be attributed to the Union Pacific/Dallas Garland and Northeastern Rail Road that bisects the district and serves as a major mode of transportation for the facilities within the Rockwall Technology Park. The commercial/retail centers in this district are intended to support existing and proposed residential developments and should be compatible in scale with adjacent residential structures and incorporate appropriate screening (*e.g. berms, landscaping, and large buffers*) to transition uses. In this case, it appears that the proposed medical office building can be viewed as a supporting service for the residential developments located to the north and to the west of the subject property. The applicant is utilizing a residential-scale architectural style and the property is surrounded by commercial and industrial land uses. Due to these factors, the applicant's request appears to be in conformance with the district strategies of the Central District and the Commercial/Retail land use outlined in the Comprehensive Plan.

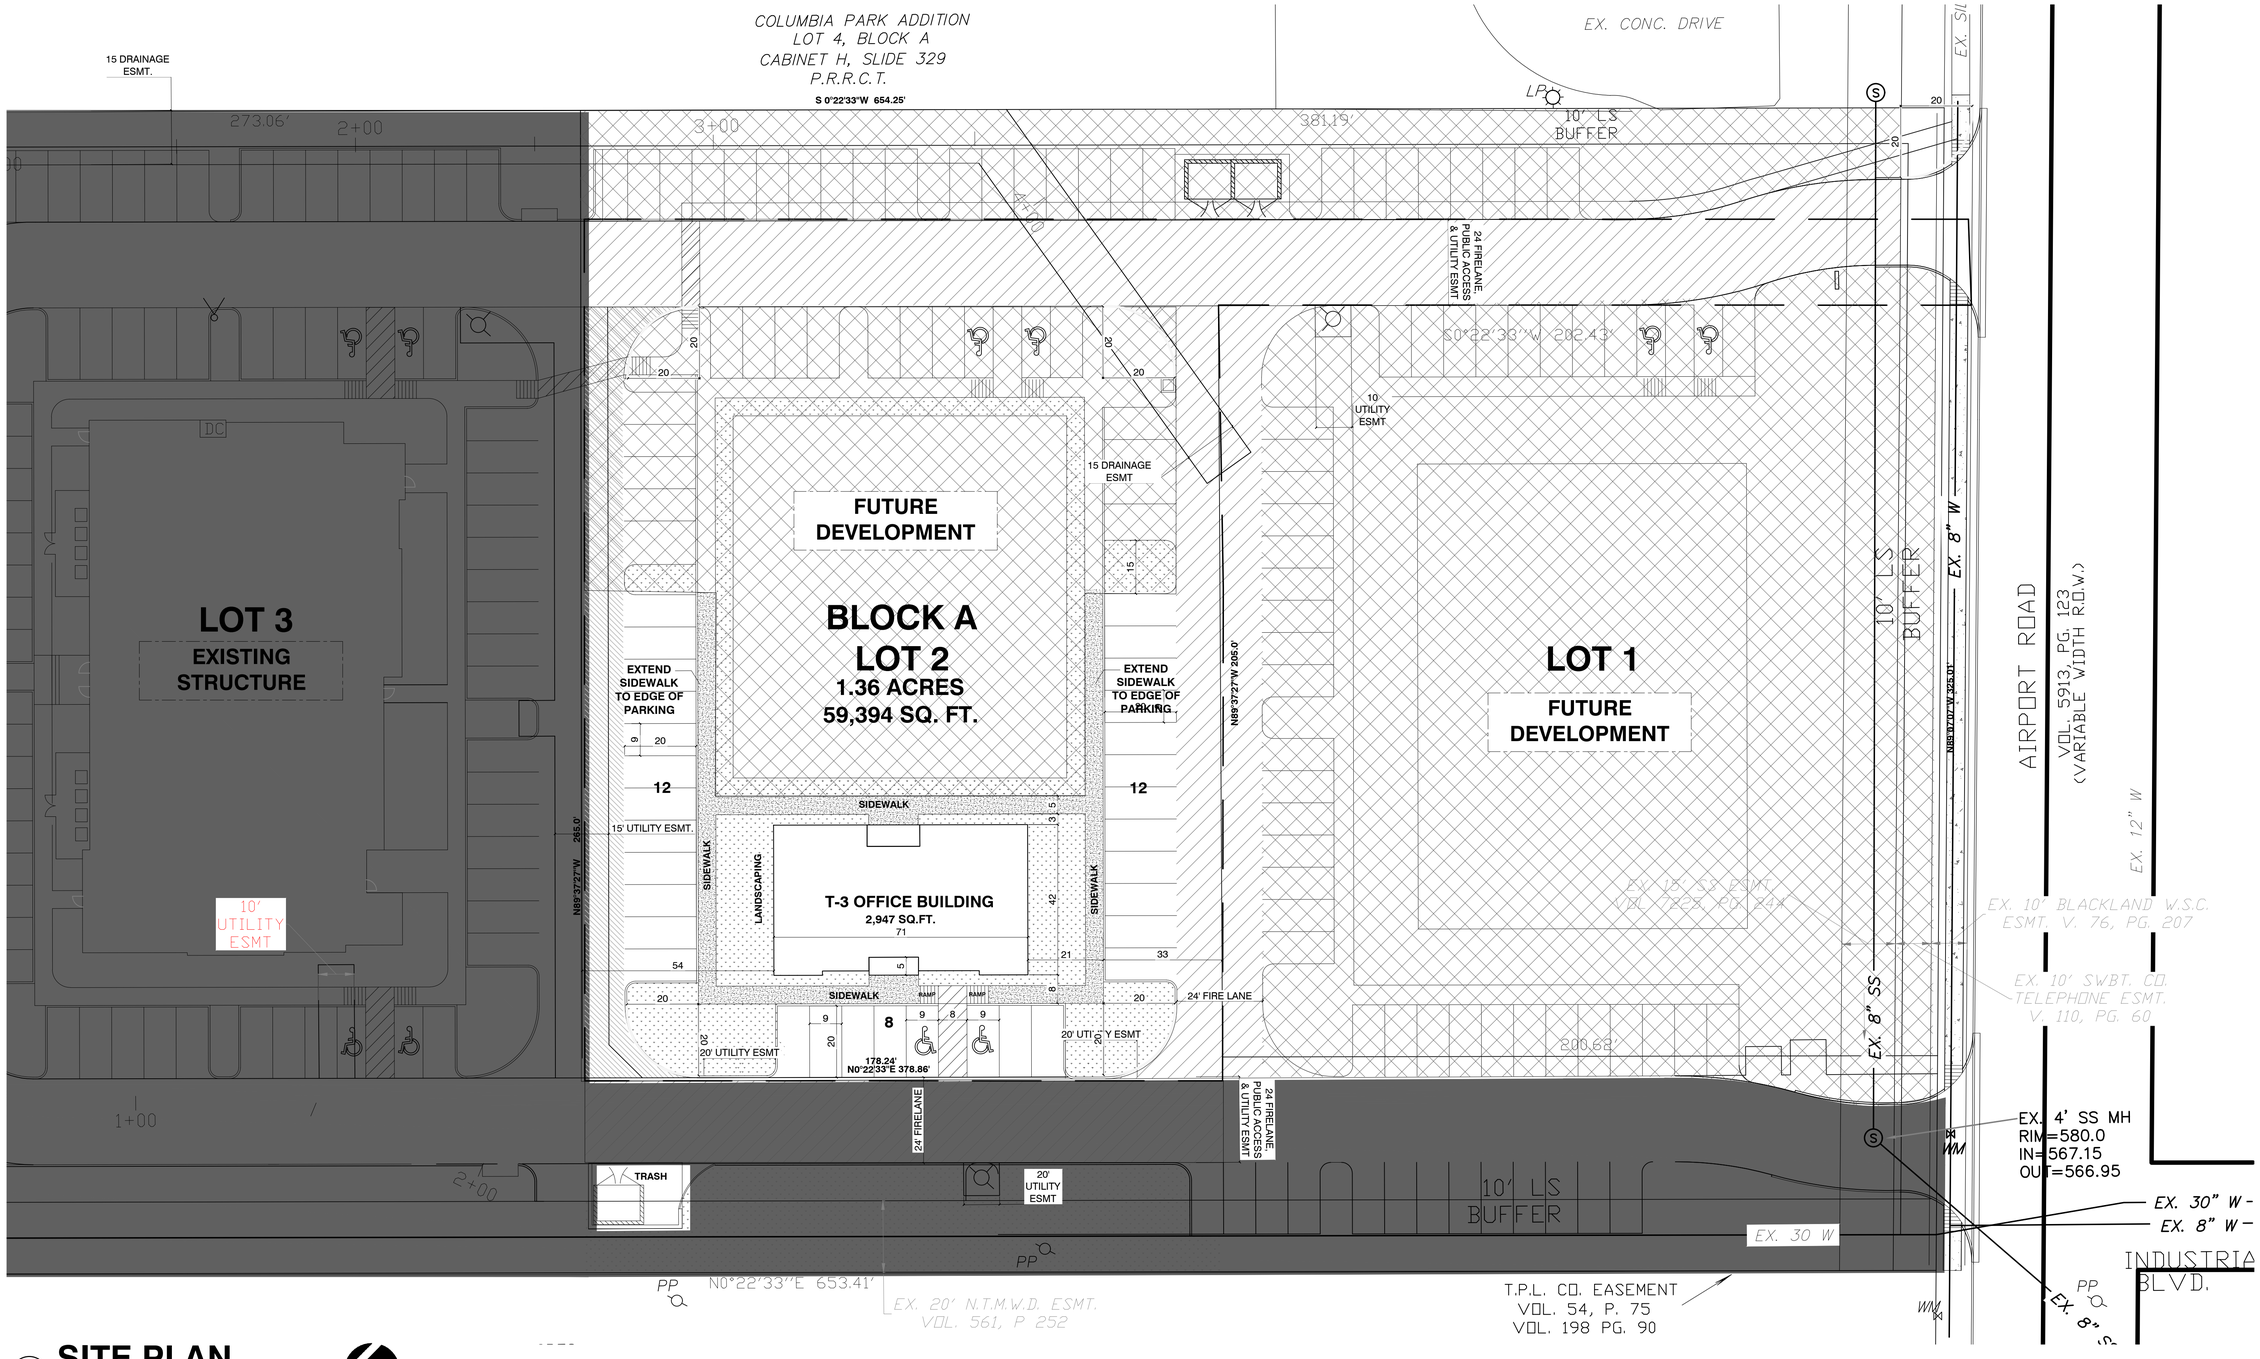


ARCHITECTURAL REVIEW BOARD (ARB):

On October 29, 2019, the Architectural Review Board (ARB) reviewed the proposed building elevations and provided feedback to the applicant. Specifically, the Architectural Review Board (ARB) requested that the applicant utilize a pitched roof system on the front façade in order to match the rear façade. The applicant agreed to incorporate the revisions and will provide revised building elevations for the Architectural Review Board (ARB) to review during the meeting that will be held on November 12, 2019. Pending any additional revisions, the Architectural Review Board (ARB) will forward a recommendation to the Planning and Zoning Commission.

CONDITION OF APPROVAL

If the Planning and Zoning Commission chooses to approve the applicant's request, then staff would propose the following condition of approval:



(1) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

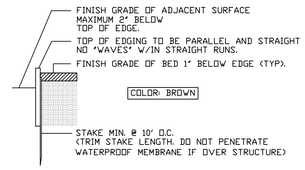
NOT FOR CONSTRUCTION

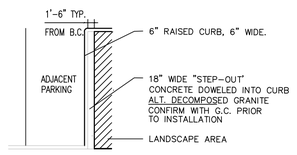
NOTE:
1. USE MIXED COMPOST TO BACKFILL.
2. FERTILIZE AND WATER THOROUGHLY AFTER INSTALLATION.
3. EXCAVATE ENTIRE SHRUB BED, AS SHOWN.
4. NO SHRUB, EDGER OR ROOTBALL, SHALL BE PLANTED CLOSER THAN 2'-0" FROM FOUNDATION OF BUILDING.

SHRUB PLANTING-SECTION



N.T.S.

NOTE:
1. THE "ON CENTER" MAY VARY PER PLANT TYPE. REFER TO PLANT SCHEDULE, FOR VARIOUS "ON CENTERS".

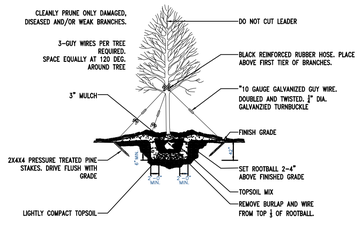


GROUNDCOVER PLANTING-PLAN

N.T.S.

STEEL EDGE-SECTION

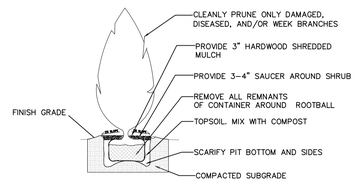
N.T.S.



TYPICAL PARKING ISLAND-PLAN

N.T.S.

GENERAL PLANTING NOTES:



1. QUANTITIES INDICATED ON PLANT LIST ARE LANDSCAPE ARCHITECT'S ESTIMATE ONLY AND SHOULD BE VERIFIED PRIOR TO BIDDING. CONTRACTOR IS RESPONSIBLE FOR BIDDING AND PROVIDING QUANTITY OF PLANTS REQUIRED AT SPACING DESIGNATED FOR BED SIZES AND CONFIGURATIONS SHOWN ON PLANS REGARDLESS OF QUANTITIES DESIGNATED ON PLANT SCHEDULE.
2. CONTRACTOR SHALL NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES, AMBIGUITY OR UNLABELED PLANTS ON PLANS PRIOR TO BID SUBMITTAL. IF ANY OF THESE IS NOT CLARIFIED BY LANDSCAPE ARCHITECT PRIOR TO BID SUBMITTAL DATE, CONTRACTOR SHALL NOTE SUCH ITEMS ON BID.
3. SOIL AMENDMENTS TO BE "MIXED SOIL WITH COMPOST" AS PRODUCED BY LIVING EARTH TECHNOLOGY, OR APPROVED EQUAL. INSTALL 5" OF TOPSOIL WITHIN ALL PLANTING AREAS. REMOVE EXISTING SOIL AND REPLACE WITH TOPSOIL. TO GRADE.
4. TREE HOLES TO BE EXCAVATED 2' GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED INN#3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
5. SHRUB PIT SHALL BE EXCAVATED 12" GREATER THAN BALL DIAMETER AND 6" DEEPER. BACK FILL WITH 1/2 EXISTING SOIL AND 1/2 COMPOST AS NOTED IN #3 ABOVE. THOROUGHLY BLENDED BY MECHANICAL MEANS PRIOR TO BACKFILL.
6. MULCH TOP DRESSING FOR ALL PLANTING BEDS UNLESS OTHERWISE NOTED SHALL BE A MINI. 3" DEPTH LAYER, DECOMPOSED GRANITE UNIFORMLY SPREAD ON ALL SHRUB AND GROUND COVER BEDS.
7. BED EDGING TO BE STEEL EDGING 12G, X 5.5" AS MANUFACTURED BY COL-MET , COLOR: BLACK OR APPROVED EQUAL. ALL HOLES FOR TREES AND LARGE SHRUBS SHALL BE TESTED FOR WATER RETENTION PRIOR TO TREE OR SHRUB PLANTING. AFTER HOLE IS EXCAVATED, IT IS TO BE FILLED WITH WATER TO THE TOP OF THE EXCAVATION. IF, AFTER 24 HOURS, THE HOLE STILL HOLDS WATER, THE CONTRACTOR SHALL EXCAVATE AND ADDITIONAL 6" FROM THE BOTTOM OF THE HOLE. THE LANDSCAPE CONTRACTOR SHALL THEN INSTALL 6" OF NATIVE WASHED GRAVEL COVERED ON THE TOP (AND UP TO A MINIMUM OF 12" ON THE SIDES OF THE HOLE) WITH FILTER FABRIC. THE CONTRACTOR SHALL ALSO INSTALL A CAPPED 3" DIAMETER PVC SUMP WHICH WILL EXTEND FROM NEAR THE BOTTOM OF THE ROCK LAYER TO 3" ABOVE THE PROPOSED FINISH GRADE SO THE HOLE CAN BE EXCAVATED THROUGH MECHANICAL MEANS.
8. ALL PLANTING (TREES, SHRUBS, GROUND COVER, AND/OR GRASS APPLICABLE) SHALL BE GUARANTEED FOR A PERIOD OF ONE YEAR AFTER FINAL ACCEPTANCE.
9. ALL PROPOSED PLANT MATERIAL SHALL BE CONTAINER GROWN.
10. ANY LARGE OR SMALL TREE SHALL BE PLANTED AT LEAST 48" MIN. FROM THE EDGE OF ANY PAVED SURFACE.
11. GENERAL MAINTENANCE: REQUIRED PLANTS SHALL BE MAINTAINED IN A HEALTHY CONDITION AT ALL TIMES. THE PROPERTY OWNER IS RESPONSIBLE REGULAR WEEDING, MOWING OF GRASS, IRRIGATING, FERTILIZING, PEST PREVENTION, PRUNING AND OTHER MAINTENANCE OF ALL PLANTINGS AS NEEDED. ANY PLANT THAT DIES SHALL BE REPLACED WITH ANOTHER LIVING PLANT THAT IS COMPARABLE TO THE EXISTING PLANT MATERIALS SPECIFIED IN THE APPROVED LANDSCAPE PLAN
12. LANDSCAPES AREAS WILL BE IRRIGATED WITH A SYSTEM THAT IS SUITABLE FOR "WATER EFFICIENT LANDSCAPE" WITHIN NINETY (90) DAYS AFTER NOTIFICATION BY THE CITY.
13. THE LOCATION OF ALL UTILITIES, INDICATED ON THESE PLANS, WERE PROVIDED BY OTHERS. THE EXACT LOCATION AND ELEVATION OF ALL PUBLIC UTILITIES SHOULD BE DETERMINED BY THE LANDSCAPE CONTRACTOR PRIOR TO HIS COMMENCEMENT OF WORK.
14. LANDSCAPE ARCHITECT ASSUMES NO RESPONSIBILITY FOR ANY EXCAVATION OR GRADING INDICATED IT SHALL BE THE RESPONSIBILITY OF THE LANDSCAPE CONTRACTOR TO MAKE HIMSELF FAMILIAR WITH ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS, PRIOR TO CONSTRUCTION. PROTECT ALL SITE UTILITIES DURING CONSTRUCTION.
15. THE CONTRACTOR SHALL ASSUME RESPONSIBILITY FOR ANY DEMOLITION, ADJUSTMENTS, OR RECONSTRUCTION RESULTING FROM UNAUTHORIZED CONSTRUCTION ACTIVITIES.
16. GROUNDCOVER / SEASONAL COLOR BEDS WILL RECEIVE 3" OF "MIXED SOIL WITH COMPOST" TILLED INTO PLACE TO A 6" DEPTH.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	Ryan Miller, *Director of Planning and Zoning*
DATE:	November 12, 2019
SUBJECT:	MIS2019-004; *Master Water/Wastewater Plan Update*

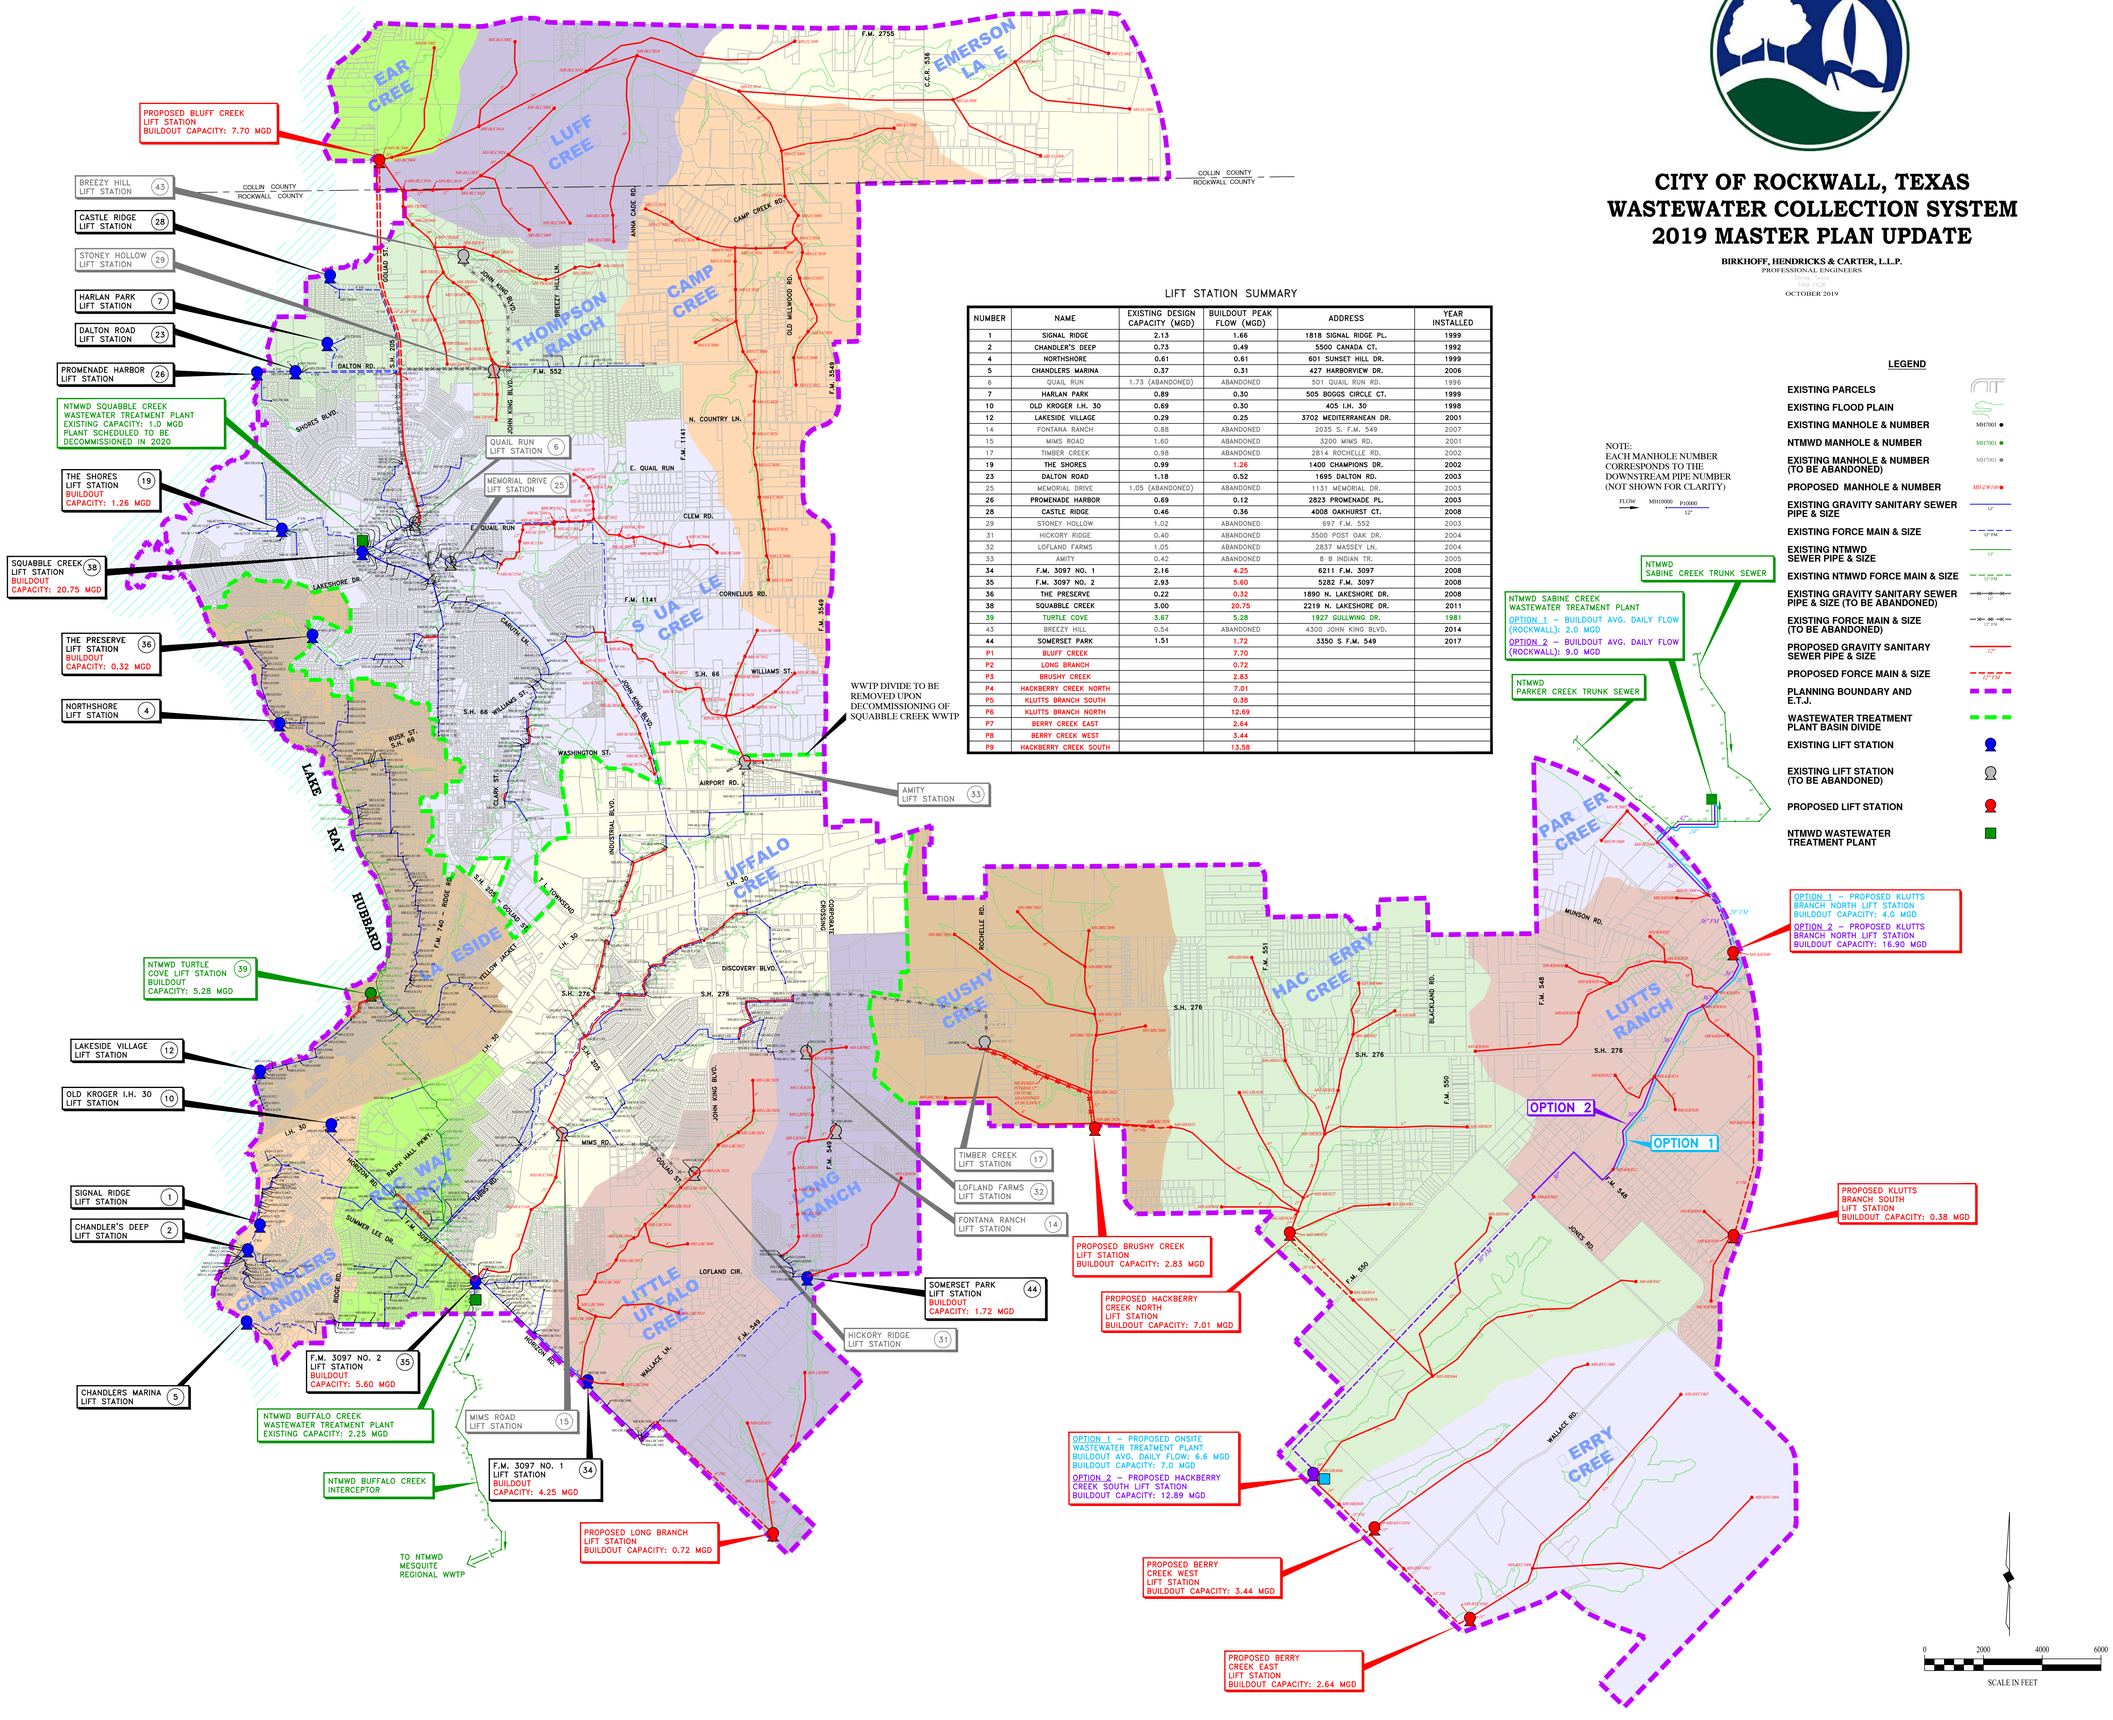
Recently, the City's consultant -- *Birkhoff, Hendricks & Carter LLP* -- finished revising the water and wastewater master plans. These plans were incorporated into the OURHometown Vision 2040 Comprehensive Plan on December 3, 2018 by *Ordinance No. 18-48*. As a result of their incorporation, staff is bringing forward an amendment to the Comprehensive Plan to incorporate the revisions identified by the City's consultants. According to Section 213.003 of the Texas Local Government Code, "*(a) comprehensive plan may be adopted or amended by ordinance following:*

(1) A hearing at which the public is given the opportunity to give testimony and present written evidence; and

(2) Review by the municipality's planning commission or department, if one exists."

Additionally, Section 9.03 of the City's Home Rule Charter states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change." Furthermore, Section 9.04 states that the "City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revision or any part thereof as submitted within sixty (60) days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council."

The projected meeting dates for this case are as follows:



~~Planning and Zoning Commission Work Session: October 29, 2019~~
Planning and Zoning Commission Public Hearing: November 12, 2019
City Council Public Hearing/1st Reading: November 18, 2019
City Council 2nd Reading: December 2, 2019.

Should the Planning and Zoning Commission have any question concerning the amendment, staff will be available at the ***November 12, 2019*** work session meeting.

CITY OF ROCKWALL

ORDINANCE NO. 19-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER WATER PLAN AND THE MASTER WASTEWATER PLAN CONTAINED IN THE OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in a citizen action committee (*i.e. the Comprehensive Plan Advisory Committee [CPAC]*) and public meetings; and

WHEREAS, the OURHometown Vision 2040 Comprehensive Plan was adopted by the City Council of the City of Rockwall on December 3, 2019 by *Ordinance No. 18-43*; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations, and expenditures for capital improvements; and

WHEREAS, the Water/Wastewater Master Plans are updated on a five (5) year basis and the City Council of the City of Rockwall authorized Brickoff, Hendricks & Cater, LLP to perform the update; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Master Water Plan and Master Wastewater Plan contained within *Appendix 'C'* of the OURHometown Vision 2040 Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and

Section 2. The Comprehensive Plan shall be used by City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF DECEMBER, 2019.

CASE NUMBER:	SP2019-037; *Site Plan for Strip Retail Center on Ridge Road*

SUMMARY

Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

BACKGROUND

The subject property was annexed in to the City of Rockwall on June 7, 1982 by *Ordinance No. 82-27.* According to the City's historic zoning maps, the subject property was zoned Agricultural (AG) District at the time of annexation. On February 17, 2003, the City Council approved a zoning change for the subject property from an Agricultural (AG) District to a General Retail (GR) District by *Ordinance No. 03-08* (*Case No. PZ2002-095-01*). This designation was changed to Planned Development District 32 (PD-32) on September 20, 2010 by *Ordinance No. 10-21*.

PURPOSE

On October 18, 2019, the applicant -- *Anna C. Blackwell; Carrillo Engineering, LLC* -- submitted an application requesting the approval of a site plan for the purpose of constructing a ~7,000 SF multi-tenant commercial/retail building.

ADJACENT LAND USES AND ACCESS

The subject property is located at the northwest corner of Ridge Road [*FM-740*] and Glen Hill Way. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are several properties zoned General Retail (GR) District (*i.e. Minth Dentistry, Credit Union of Texas, Park Venue Cleaners, etc.*). Beyond this are properties zoned Planned Development District 32 (PD-32).

South: Directly south of the subject property are several properties zoned General Retail (GR) District (*i.e. Ridge Road Animal Hospital, Willis Building, etc.*). Beyond this are properties zoned Planned Development District 18 (PD-18) for General Retail (GR) District and Single Family 10 (SF-10) District land uses, and two (2) properties zoned Agricultural (AG) District that have single-family homes situated on them.

East: Directly east of the subject property is Ridge Road, which is identified as a M4D (*major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this is Planned Development District 9 (PD-9), which includes the Kroger Shopping Center. PD-9

has an underlying zoning of General Retail (GR) District and Single Family Residential (*i.e. SF-10, SF-12.5, SF-22.5*) District land uses.

West: Directly west of the subject property is Planned Development District 32 (PD-32), which is a design district with various land uses. Also, west of the subject property is Planned Development District 18 (PD-18), which allows for General Retail (GR) District and Single Family 10 (SF-10) District land uses.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], the subject property is located within the *Ridge Road Retail Subdistrict*, which allows general retail land uses *by-right*. The intent of this subdistrict (*i.e. Ridge Road Retail Subdistrict*) is to provide retail or restaurant land uses with Ridge Road frontage. The proposed development will construct a single-story retail facility totaling ~7,000 SF. The development will provide 33 surface parking spaces that can be accessed from Ridge Road and Glen Hill Way. The proposed sidewalks -- *which located on both sides of Glen Hill Way* -- will incorporate streetscape elements required by PD-32 [*Ordinance No. 17-22*], and provide decorative trees and pedestrian scaled lighting features. The sidewalks are intended to provide access to the Harbor District and the associated amenities within PD-32. With the exception of the variances being requested, the submitted site plan, landscape plan, photometric plan, and building elevations, generally conform to the technical requirements contained within PD-32 [*Ordinance No. 17-22*], the Scenic Overlay (SOV) District, and the Unified Development Code (UDC). It should be noted that since the subject property is adjacent to Ridge Road, the Scenic Overlay (SOV) District would be considered the regulating ordinance with regard to the design of the subject property. A summary of the applicable requirements for this case are as follows:

Ordinance Provisions	*Ridge Road Retail Subdistrict Standards*	*Conformance to the Standards*
Setback Distance from ROW (Glen Hill Way)	*10-Feet*	*x>10-ft; In Conformance*
Building Form	*40% Maximum Lot Coverage*	*X=19%; In Conformance*
Ground Floor Land Uses	*Retail and/or, Restaurant*	*Retail; In Conformance*
Upper Floor Land Uses	*N/A*	*N/A*
Maximum Building Height	*1-Story or 35-Feet*	*x=1-Story/29'7" Height; In Conformance*
First Floor Minimum Commercial Height	*20-Feet*	*x<20-ft; In Conformance*
Encroachments to Street	*5-Feet*	*0-Feet; In Conformance*
Surface Parking Setbacks from ROW	*10-Feet*	*x>10-ft; In Conformance*
Maximum Surface Parking	*Surface Parking*	*Surface Parking Required; In Conformance*
Minimum Number of Pedestrian Ways	*1 Per Block Face*	*2; In Conformance*
Minimum Masonry Percentage	*90%*	*x>90%; In Conformance*
Minimum Stone Requirement	*20% Each Façade*	*X<20%; Variance Required*
Minimum Landscaping Percentage	*With Streetscape Plan Elements*	*Streetscape Elements Incorporated with Landscape Plan; In Conformance*
Maximum Lot Coverage	*40%*	*x<40%; In Conformance*

TREESCAPE AND LANDSCAPE PLAN

According to the *Tree Preservation Plan* provided by the applicant, a total of 557-inches of trees will be removed from the site, while a total of 105-inches of trees will be preserved. Additionally, the applicant has indicated that nine (9) trees greater than 25-inch caliper will be removed. These nine (9) trees are considered to be *Feature Trees*, which require replacement at double the caliper inch being removed (*i.e. 256 inches x 2 = 512 inches*). With this being said, the *Tree Preservation Plan* shows that 105-inches of trees will be preserved on-site, which entitles the applicant to a total *Tree Preservation Credit* of 21-inches. This means that taking into account the proposed Landscape Plan -- *which shows that*

156-inches of additional trees will be added to the site -- and a *Tree Preservation Credit* of 21-inches the applicant's total mitigation balance would be 491-inches. This balance will need to be satisfied prior to the submission of a final plat.

CONFORMANCE WITH THE CITY'S CODES

Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], provides flexibility in order to create high quality projects for the *Harbor District*. Non-residentially zoned projects are to generally conform with the Commercial (C) District standards. In this case, the subject property is located within the Scenic Overlay (SOV) District, which is more restrictive than the Design Guidelines [*Resolution No. 10-40*] required by PD-32. With this being said, the standards of the SOV and Subsection 4.05, *Commercial (C) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) shall apply to the development of the subject property. The Commercial (C) District is a district intended to provide commercial land uses such as retail, large shopping centers, office, and restaurants. Commercial (C) Districts are generally situated in close proximity to an arterial or major collector that is capable of carrying the traffic generated by the land uses in the district. In addition, these areas may require increased water, fire protection, and wastewater and drainage capacity. Since the Commercial (C) District is general in nature, development standards are less stringent than lower intensity districts [*e.g. Residential-Office (RO), Neighborhood Services (NS), and General Retail (GR) Districts*]. In this case, the applicant's proposal is adjacent to Ridge Road, which is identified as a M4D (*i.e. major collector, four (4) lane, divided roadway*) on the City's Master Thoroughfare Plan. In addition, retail buildings are not typically high-volume water/wastewater users. With regard to the land use, a retail facility is permitted *by-right* in Planned Development District 32 (PD-32).

VARIANCES/EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following variances to the requirements of Subsection 6.02, *General Overlay District Standards*, of Article V, *District Development Standards*, of the *Unified Development Code* (UDC):

(1) Materials and Masonry Composition.

(a) *Primary Materials.* According to Subsection 6.02(C)(1)(a)(1) of Article V, *District Development Standards*, of the Unified Development Code (UDC), "(a) minimum of 20% natural or quarried stone is required on all building facades …" In this case, the applicant's proposed building elevations do not incorporate stone on the front (east = 0.0%) and side (south = 5.76%) facing facades. Since the building design does not meet the standard for the east and south facing façades, a variance to the stone requirements is required to be approved by the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

(2) Trash/Recycling Receptacles and Dumpster Enclosures.

(b) *Dumpster Enclosure.* According to Subsection 6.02(D)(7) of Article V, *District Development Standards*, of the Unified Development Code (UDC), "these enclosures [*i.e. Trash/Recycling Enclosures*] shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building." In this case, the applicant has stated that due to site constraints, they are unable to orient the dumpster in a way that both complies to the ordinance and allows the necessary maneuverability needed by the waste management truck. As a result, the applicant has oriented the dumpster at the rear of the building, but facing onto the public right-of-way of Glen Hill Road. As a compensatory measure the applicant has increased the landscape screening around the dumpster.

According to Section 9, *Exceptions and Variances*, of Article XI, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), "(u)nless otherwise specified by the Unified

Development Code (UDC), an applicant may request the Planning and Zoning Commission grant a variance to the provisions contained in Subsection 06.02, *General Overlay District Standards*, of Article V, *District Development Standards*, where unique or extraordinary conditions exist or where strict adherence to the technical requirements of this section would create an undue hardship. In cases where a variance or variances is/are being requested, the applicant shall provide compensatory measures that directly offset the requested exception." In this case, the applicant has provided a letter explaining the requested variances and proposing to construct the entire roadway for Glen Hill Way. Staff should point out that the applicant would be required to dedicated the right-of-way for Glen Hill Way based on a proportionality study prepared by staff for the current owner; however, that proportionality study did not require the applicant to build the roadway. Based on the cost of construction of that roadway, this proposal does appear to be a sufficient compensatory measure for the requested variances; however, this request does remain a discretionary decision for the Planning and Zoning Commission and will require approval by a super majority vote (*i.e. a three-fourths vote of those members present*), with a minimum of four (4) votes in the affirmative required for approval. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The Future Land Use Plan adopted with the OURHometown Vision 2040 Comprehensive Plan identifies the subject property as being situated in the *Harbor District*. The *Harbor District* is considered an entry portal to the City of Rockwall and is intended to provide a pedestrian oriented, mixed use district accommodating residential and non-residential land uses. The *Harbor District* is a live, work, and play district that offers professional offices, scenic condominiums, with restaurants, shopping and entertainment venues, and is intended to be a regional commercial center. When reviewing the mixed use strategies for this district, the applicant's site plan is targeted at providing a pedestrian friendly and walkable environment by providing streetscape elements along both sides of Glen Hill Way and connecting this area from Ridge Road to the Harbor District.

ARCHITECTURAL REVIEW BOARD (ARB)

On October 29, 2019, the Architectural Review Board (ARB) reviewed the proposed site plan and building elevations. Upon review, the Architectural Review Board (ARB) recommended that the applicant incorporate false windows and increase the parapet height on the southern and western façades of the building. The applicant has revised the building elevations to incorporate the recommendations. The Architectural Review Board (ARB) will review the applicant's revised building elevations at the *November 12, 2019* meeting and provide a recommendation to the Planning and Zoning Commission.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to approve the applicant's request, then staff would propose the following conditions of approval:

(1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

(2) The applicant will be required to dedicate, design and build the right-of-way for Glen Hill Way adjacent to the subject property.

(3) The applicant shall be required to satisfy the outstanding tree mitigation balance prior to the filing of the final plat; and,

(4) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2019-037; Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-037) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], Resolution No. 10-40 (Design Guideline of PD-32), and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

I.6 Provide Site Data Table on all revised plans (i.e. landscape, treescape, photometric, and site plan).

I.7 Please relabel the proposed street section to Glen Hill Way (i.e. not Cemetery Road) on all revised plans (i.e. landscape, treescape, photometric, site plan).

M.8 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please relabel the street to Glen Hill Way (i.e. not Cemetery Road).
2) Verify the building square footage. Indicates 7,025 SF. The SF for each unit = 7,195 SF.
3) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
4) Will there be a dedicated 24-ft firelane in the parking lot? If so, please label.
5) Remove the label "to be abandoned" underneath Cemetery Road.
6) Is the chain link fence being removed? If so, please remove label from all other plans.
7) Under the Construction Schedule legend, No. 7 indicates a detail for the dumpster enclosure is located on the building elevations. The detail was not provided.
8) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required if not screened or reoriented.
9) Parking for a retail (4,592 SF) and restaurant (2603 SF) uses requires as follows: A) Retail Facility - a minimum of one (1) parking space per 250-SF (i.e. 1:250 SF = 18 parking spaces) & B) Restaurant - a minimum of one (1) parking space per 100-SF (i.e. 1:100 SF = 26 parking spaces) of gross floor area. Based on these uses, the proposed 7,025 SF facility requires a minimum of 44 parking spaces. Approval of a variance to Section 5, Off-Street Parking Requirements, of Article VI, Parking and Loading is required by the Planning and Zoning Commission.
10) The proposed parking lot has more than one (1) full row of parking (i.e. two rows of parking with a drive aisle) that is between the primary building façade and the right-of-way (i.e. Ridge Road) and requires a variance. (Subsection 6.02.D.2, Art. V, UDC).

M.9 Dumpster Enclosure. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, Trash/Recycling Receptacles and Dumpster Enclosures. Trash/Recycling Enclosures shall be four (4) sided. These receptacles shall be screened by a minimum eight (8) foot, solid masonry dumpster enclosure that utilizes the same masonry materials as the primary building and incorporates an opaque, self-latching gate. These enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building.

1) Provide detail of dumpster meeting the Scenic Overlay District's minimum standard for height, materials, etc. (Sec. 6.02.D.7, Art. V, UDC)

M.10 Streetscape Plan. Please provide a streetscape plan that shows conformance to the requirements of Ordinance No. 17-22. According to this ordinance the required streetscape plan shall include cut sheets and product specification sheets indicating the proposed products, and a plan indicating the location of all the products.

M.11 Building Elevations. Resolution No. 10-40 lays out three (3) architectural styles (i.e. Tuscan, Traditional, and/or Transitional) that are acceptable within Planned Development District 32 (PD-32). The proposed building elevations do not appear to adhere to any of the recommended architectural styles

M.12 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the submitted building elevations does not appear to have stone incorporated into the building's design. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.13 Building Elevations. Please review the articulation formulas contained in Section 4.01.C of Article V, District Development Standards, of the UDC. The submitted building elevations do not appear to meet all the formulas required for building articulation This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board(ARB).

I.11 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.
3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west).
4) Provide calculation of building materials as a percentage.

M.14 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please label a 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC).
2) A minimum of two (2) canopy and four (4) accent trees are required in the 20-foot landscape buffer adjacent to Ridge Road (Sec. 6.02.E; Art. V; UDC). Please indicate conformance to this requirement on the landscape plan and relabel where needed
3) Please provide an exhibit showing headlight screening for the head-in parking adjacent to the street (Subsection 5.02(C), Art. VIII, UDC).
4) Please provide an exhibit showing that all parking spaces are located within 80-feet from the trunk of a large canopy tree (Sec. 5.9; Art. VIII, UDC).
5) Parking Lot Landscaping – requires one (1), three (3) inch caliper 65 gallon tree be provided for every eight (8) parking spaces and the trees are to be provided in

5-ft x 5-ft diamond planters or island planters. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide tree leave outs.

6) Parking Lot Landscaping – landscape buffers adjacent to public streets are to consist of trees, shrubs, perennial, and/or ornamental grasses in natural groupings. (Ord. No. 17-22, Exhibit 'F-1', of PD-32) Provide exhibit.

7) Please provide an identifying symbol for each tree type to better identify what is being planted

8) Please ghost-in the existing trees in order to distinguish between proposed plantings.

9) Under General Planting Notes, number 5 indicates the "City of Canyon". Please change to City of Rockwall.

M.15 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, the director of planning and zoning, or his/her designee, shall review the treescape plan and approve the plan per the requirements of this article, or forward any recommendations to the planning and zoning commission As part of the treescape plan review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees The planning and zoning commission will review and approve or disapprove the treescape plan The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted

(1) Adjust mitigation inches due for all landscape trees being provided The minimum size required for planting of a canopy tree is four (4) inches. (Sec. 4.A.2, Art VIII, UDC)

M.16 Photometric Plan. Ordinance No. 17-22 stipulates a design standard for all pedestrian scale street lighting and parking lot light fixtures The proposed pedestrian scale street light does appear to conform to the design standards for this district

M.17 Based on the submittal staff has identified the following variances

1) Building Materials. The proposed addition exceeds the maximum permitted percentage of secondary materials and does not include a minimum of 20% stone.
2) Building Articulation. The proposed addition does not meet the articulation standards established by the UDC.
3) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street.
4) Parking Count. The proposed site does not meet the minimum parking standards.
5) Parking Restrictions. The proposed parking lot has more than one (1) full row of parking (i.e. two (2) rows of parking with a drive aisle) adjacent to Ridge Road and within the Scenic Overlay (SOV) District.

To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two (2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.18 Please note that failure to address all comments provided by staff by 5:00 PM on September 4, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.19 Staff has identified the aforementioned items necessary to continue the submittal process Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 1, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 8, 2019 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 24, 2019.

I.20 The Architectural Review Board (ARB) meeting will be held on September 24, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
forward a recommendation to the Planning and Zoning Commission. I.21 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.							
PLANNING	David Gonzales	10/24/2019	10/31/2019	10/24/2019		COMMENTS	Revised Submittal

(10/24/2019 7:21 PM DG)
SP2019-037; Revised Submittal -- Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-037) in the lower right-hand corner of all pages of all revised plan submittals (i.e. site plan, landscape plan, treescape plan, photometric plan, building elevations).

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

I.6 Provide Site Data Table on all revised plans (i.e. landscape, treescape, and photometric).

I.7 Please provide a label for the proposed street section of Glen Hill Way on all plans (i.e. landscape, treescape, and photometric).

M.8 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Under the Construction Schedule legend No. 7, change the minimum dumpster enclosure to indicate 8-ft.
2) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required.
3) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director.

M.9 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the revised building elevations do not incorporate stone on the front (east) and side (south) facing facades. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

I.10 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in RTU's) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.

3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west).
4) Provide calculation of building materials as a percentage.

M.11 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please provide an exhibit showing headlight screeningfor the head-in parking adjacent to the street (Subsection 5.02(C), Art. VIII, UDC).

M.12 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, The planning and zoning commission will review and approve or disapprove the treescape plan. The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted.

(1) Total mitigation due= 336 caliper inches. Refer to Article IX, Sec. 5, Tree Mitigation Requirements in order to satisfy mitigation balance

M.13 Based on the submittal staff has identified the following variances

1) Building Materials. The proposed addition does not meet the minimum of 20% stone.
2) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street.

To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two(2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.14 Please note that failure to address all comments provided by staff by8:00 AM on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the November12, 2019 Planning & Zoning Meeting. Please note that the Planning & Zoning Work Session meeting will be held on October 29, 2019.

I.16 The Architectural Review Board (ARB) meeting will be held on October 29, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will forward a recommendation to the Planning and Zoning Commission.

I.17 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

PLANNING	David Gonzales	11/6/2019	11/13/2019	11/6/2019	COMMENTS	Revision 1 - Revised Plans

(11/6/2019 2:12 PM DG)
SP2019-037; REVISION 1 - Revised Submittal -- Site Plan for Ridge Road Retail Center (PD-32)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the Ridge Road Retail Subdistrict of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [FM-740].

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

I.3 This project is subject to all requirements stipulated by the Unified Development Code (UDC); including the regulations pertaining to Planned Development District 32 (PD-32) [i.e. Ordinance No. 17-22], and the Development Standards of Article V, that are applicable to the subject property.

I.4 Please note that the property will require a replat prior to the issuance of a building permit.

M.5 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Under the Construction Schedule legend No. 7, change the minimum dumpster enclosure to indicate 8-ft.
2) The proposed dumpster enclosure is facing Glen Hill Way. According to Subsection 6.02, General Overlay District Standards, of Article V, District Development Standards, of the UDC, dumpster enclosures shall be located to the side or rear of the primary building, and shall not front on to a public right-of-way. Every effort shall be made to reduce the visibility of these structures utilizing landscaping and/or the building. Variance required.
3) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director.

M.6 Building Elevations. According to Section 6.2, General Overlay District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 20% natural or quarried stone. In this case, the revised building elevations do not incorporate stone on the front (east) and side (south) facing facades. This will require a variance from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

I.7 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey al of the required elements to the City's boards and commissions:

1) Indicate all HVAC units on the building elevations (i.e. dash-in RTU's) so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Please provide a detail for the parapet height to determine screening of RTUs.
3) Please provide a label for each building elevation's facing direction (i.e. north, south, east, west).
4) Provide calculation of building materials as a percentage.

M.8 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, The planning and zoning commission will review and approve or disapprove the treescape plan. The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
(1) Total mitigation due= 512 caliper inches. Refer to Article IX, Sec. 5, Tree Mitigation Requirements in order to satisfy mitigation balance M.9 Based on the submittal staff has identified the following variances 1) Building Materials. The proposed addition does not meet the minimum of 20% stone. 2) Dumpster Enclosure. The proposed relocation of the dumpster enclosure faces a public street. To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two(2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures. LANDSCAPING PROVIDED. I.10 Please note that the Planning & Zoning Commission Meeting will be held on November 12, 2019. I.11 The Architectural Review Board (ARB) meeting will be held on November 12, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will forward a recommendation to the Planning and Zoning Commission. I.12 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

Responses from Capt. Ed Fowler 09.20.2019:

SP2019-037 Ridge Road Retail Center
Considerations.

- Consider Security lighting above all entrances, including rear doors, rear parking areas and dumpster(s).
- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding(fencing) area.
- Lighting placed on or in fencing area around dumpster to eliminate shadow and dark areas and prevent theft from dumpster(ID Theft, etc.)
- Add photocell to main exterior lighting and update all lighting to LED fixtures. Ensure that all lighting is positioned in a manner to minimize glare and reduce all shadows especially at the rear of business.
- Consider auxiliary locking system on rear doors.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider installation of locking mechanisms/bars on rear doors during closed hours.
- Consider installation of solid core doors for offices inside the business including the room that houses any monies or safe Single cylinder locks for all offices and a double cylinder lock for the safe room.
- Consider an additional alarm inside the safe room, either attached to the entrance door or safe.
- Consider the addition of security cameras on the exterior of the building that provide360 degree coverage.
- Consider camera monitors for the rear of the business to ensure that employees will have a complete and unobstructed view prior to exiting into the rear parkin area.
- Consider the addition of security cameras for the interior the business.
- Ensure new or existing trees and bushes are trimmed within acceptable standards(Trees Trimmed up to7' and Bushes Trimmed Down to3') and consider ground wash lighting to illuminate the area and provide territorial reinforcement, ownership and enhance natural lines of sight at night.
- More than willing to speak directly with the business owners or developers about the property.

The implementation of all or any portion of the considerations are NO guarantee or assurance that crime will not occur or that the property will be crimeproof. The considerations should, however, reduce the probability of crime if the strategies and recommendations are properly applied and consistently maintained Any changes should still meet with the City of Rockwall's building code, code of ordinances and fire code.

GENERAL PLANTING NOTES

1. CONTRACTOR SHALL ADHERE TO CITY CONSTRUCTION REQUIREMENTS INCLUDING BUT NOT LIMITED TO ANY PERMITS, INSPECTIONS, AND METHODS OF MATERIAL INSTALLATION.
2. CONTRACTOR SHALL ADHERE TO ALL AGENCY REQUIREMENTS MEANS AND METHODS OF CONSTRUCTION.
3. CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UTILITIES ABOVE AND BELOW GRADE, AS WELL AS FINDING OUT EACH COMPANY'S RESTRICTIONS ON WORKING WITHIN THEIR EASEMENTS AND UTILITY LINES PRIOR TO COMMENCING CONSTRUCTION.
4. CONTRACTOR SHALL VERIFY LOCATION OF ALL EXISTING IMPROVEMENTS AND TO NOT DISTURB THOSE THAT ARE OUTSIDE OF THE SCOPE OF WORK. ANY STRUCTURES THAT ARE TO REMAIN WITHIN THE SCOPE OF WORK AREA SHALL NOT BE DAMAGED. PHOTOGRAPHS AND NOTES SHOULD BE MADE FOR ANY EXISTING DAMAGED CONDITIONS PRIOR TO COMMENCING CONSTRUCTION AND DISTRIBUTED TO OWNERS REPRESENTATIVE.
5. A LANDSCAPE IRRIGATION PLAN SHALL BE PREPARED PRIOR TO LANDSCAPE CONSTRUCTION AND WILL BE DESIGNED BY A TEXAS LICENSED IRRIGATION DESIGNER. ALL PLANTING AREAS SHALL BE IRRIGATED WITH AN AUTOMATIC IRRIGATION SYSTEM WITH A FREEZE AND RAIN SENSOR. THE SYSTEM SHALL BE DESIGNED TO MEET THE CITY AND THE STATE OF TEXAS IRRIGATION REQUIREMENTS. THE IRRIGATION INSTALLER SHALL BE A STATE OF TEXAS LICENSED IRRIGATION DESIGNER.
6. CONTRACTOR SHALL NOTIFY OWNERS REPRESENTATIVE IF THERE ARE ANY WATER RESTRICTIONS AND WHAT IF ANY IMPACT THIS MAY HAVE ON THE INSTALLATION OF PLANT MATERIAL.
7. QUANTITIES SHOWN IN PLANT LIST FOR PLANT MATERIAL AREA PROVIDED AS A COURTESY FOR THE CONTRACTOR. CONTRACTOR SHALL VERIFY PRIOR TO BIDDING THAT THE QUANTITY WILL COVER THE SPECIFIED AREAS AT THE SPACING STATED IN THE PLANT LIST UNDER THE REMARKS COLUMN. IF THERE IS A DIFFERENCE, THE CONTRACTOR SHALL MAKE NOTE ON THEIR BID AND SHOW THE ADDED OR REDUCED COST.
8. CONTRACTOR SHALL ESTABLISH SOURCES FOR ALL PLANT MATERIAL ON PLANT LIST WHEN BIDDING PROJECT. NO PLANTS SUBSTITUTIONS.
9. CONTRACTOR SHALL BECOME FAMILIAR WITH THE DRAWINGS FOR THIS PROJECT PRIOR TO INSTALLATION.
10. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ADVISE THE OWNERS REPRESENTATIVE OF ANY CONDITION FOUND ON-SITE WHICH PROHIBITS INSTALLATION AS SHOWN ON THESE PLANS.
11. ALL NEW PLANTING BEDS SHALL HAVE A MINIMUM SIX (6") INCHES OF BED PREPARATION.
12. LAWN AREA SHALL HAVE FERTILE AND CLEAN TOP SOIL TILLED 4" DEEP.
13. GRADING IN PLANTING BEDS SHALL BE SMOOTH AND PROVIDE POSITIVE DRAINAGE.
14. CONTRACTOR SHALL STAKE OUT LOCATION OF ALL TREES, AND SHRUBS FOR APPROVAL BY OWNERS REPRESENTATIVE PRIOR TO PLANTING.
15. MULCHING OF SHRUB AND ANY GROUND COVER AREAS SHALL HAVE 3 INCHES OF SHREDDED HARDWOOD MULCH.
16. LANDSCAPED AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS, AND OTHER SUCH MATERIAL OR PLANTS NOT A PART OF THE LANDSCAPING.
17. THE PROPERTY OWNER, TENANT AND ANY AGENT THEREOF SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPING MATERIALS IN GOOD CONDITION AT ALL TIMES SO AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE. ANY LANDSCAPING MATERIAL THAT DIES SHALL BE REPLACED WITH HEALTHY MATERIAL WITHIN A REASONABLE TIME. ALL LANDSCAPED AREAS SHALL BE CONTINUOUSLY MAINTAINED FREE OF WEEDS, DEBRIS AND LITTER. WEEDS AND NATURAL UNCULTIVATED GRASS SHALL NOT BE CONSIDERED LANDSCAPING.

LITHONIA LIGHTING

D-Series LED, Size 1

Area Luminaire

Refined Styling. Sophisticated Technology.

The modern styling of the D-Series LED Area, Size 1 luminaire is striking yet unobtrusive—making a bold, progressive statement even as it blends seamlessly with its environment. Its outstanding photometric performance results in sites with excellent uniformity, greater pole spacing and lower power density.

Key Features:

- Energy savings of up to 75% vs. comparable metal halide luminaires; saves $263 per luminaire, per year over 750W metal halide
- 20+ years expected service life (with lumen maintenance up to L99/100,000 hours at 25°C)
- Proprietary precision optics deliver exceptional uniformity and allow for increased spacing, resulting in fewer poles and lower overall cost
- Control options from Acuity Controls include standalone photocell, switched bi-level, part-night scheduled dimming, multi-level motion sensor, and ROAM® wireless monitoring and control

DSX1

Model	Input Watts	Lumens	Metal Halide Replacement
DSX1 LED P5 40k T3M	138W	15,377	400W
DSX1 LED P7 40k T3M	209W	20,141	650W
DSX1 LED P9 40k T3M	241W	26,791	750W

Quick Facts:

- Up to 750W MH replacement
- Lumen packages from 4,000 to 29,000 lumens up to L92/50,000 hours
- Efficacies up to 136 lumens per watt
- 14 factory-rotatable distributions available
- Available in 3000K, 4000K & 5000K CCT and Amber LED
- Weight: 27 lbs; EPA: 1.0 ft²

Pole top luminaires with asymmetrical light distribution

Type:
BEGA Product:
Project:
Voltage:
Color:
Options:
Modified:

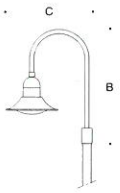
Housing: Two interlocking die-cast aluminum housings. Heavy gauge .080" spun aluminum shade with rolled edge, finished white inside. Die castings are marine grade, copper free (≤ 0.3% copper content) A360.0 aluminum alloy.

Arm: Fabricated from .125" wall aluminum extrusion formed into a continuous smooth radius, terminating and welded into a one piece die-cast aluminum fitter. Fitter slip fits a 3" O.D. pole top and is secured by six (6) socket head stainless steel set screws threaded into stainless steel inserts.

Enclosure: Lamp enclosure/optical system comprises an assembly of two pure anodized aluminum asymmetrical main beam reflectors with clear impact resistant acrylic lens with optical texture fixed to a heavy gauge .080" spun aluminum shade with rolled edge, finished white inside and rigidly fastened to the luminaire housing. Fasteners are stainless steel.

Electrical: 42.8W LED luminaire, 48 total system watts, -30°C start temperature. Integral 120V through 277V electronic LED driver located in luminaire head, 0-10V dimming. Standard LED color temperature is 4000K with a >80 CRI. Available in 3000K (>80 CRI); add suffix K3 to order.
Note: Due to the dynamic nature of LED technology, LED luminaire data on this sheet is subject to change at the discretion of BEGA-US. For the most current technical data, please refer to www.bega-us.com.

Finish: All BEGA standard finishes are polyester powder coat with minimum 3 mil thickness. Available in four standard BEGA colors: Black (BLK); White (WHT); Bronze (BRZ); Silver (SLV). To specify, add appropriate suffix to catalog number. Custom colors supplied on special order.



UL listed for US and Canadian Standards, suitable for wet locations. Protection class: IP65.

Weight: 27.6 lbs.

EPA (Effective projection area): 2.37 sq. ft.

Luminaire Lumens: 2548
Tested in accordance with LM-79-08

Re: Proposed Ridge Road Retail

Dear Ryan:

As part of the proposed Ridge Road Retail Development, we are requesting approval of the following variances:

1. **Dumpster Orientation:**
   Reason for Variance Request: As part of this project, Glen Hill Way will be realigned to provide a gateway into the future PD32 master planned area. Right-of-Way is being dedicated for Glen Hill Way out of this property. Because the alignment of Glen Hill Way has been previously in PD32, this results in various challenges and site constraints, especially in the rear of the property. The site in the rear becomes very narrow and does not provide enough space for a trash pickup truck to enter the site and turn.

2. **Driveway Spacing:**
   Reason for Variance Request: As with the variance request above, the reason for this variance request is due to the site constraints resulting from the Right-of-Way dedication of Glen Hill Way and its pre-determined alignment. Because of the site constraints and narrow nature of the rear portion of the site, it makes more sense for the building and front parking lot to be closer to Ridge Road. This also allows to maintain only two rows of parking in the front. The resulting spacing is 68.7 feet and not the 100 feet that is required.

3. **Stone Percentage Requirement:**
   Reason for Variance Request: The siting of this building is a bit of a challenge. We are working with a constrained site that is remote to the rest of the buildings covered under this PD. Working with the Architectural Design Committee on a final solution we discussed how stone might be implemented on this project in a unique way. We have provided more than 20% of the façade material as a whole. However as this material is not equally applied to all 4 elevations we need a variance. We have introduced a dark gray burnished CMU in the base courses of the project to ground the building to the ground, which works the same stone would traditionally be used.

As a concession, the developer will construct the relocated Glen Hill Way along the length of the property.

Please contact me if you have any questions or need any additional information.

Very truly yours,
CARRILLO ENGINEERING, LLC

Anna C. Blackwell, P.E

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	November 12, 2019
APPLICANT:	Matthew Gardner; *Halff Associates*
CASE NUMBER:	SP2019-040; *Site Plan for Ellis Center, Phase 2 Addition*

SUMMARY

Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

BACKGROUND

The subject property was annexed on November 30, 1959 by *Ordinance No. 60-01.* The subject property was zoned -- *along with the remainder of the 23.888-acre tract of land that made up Phases 1 & 2 of the Ellis Center Addition* -- from an Agricultural (AG) District and Commercial (C) District to a Light Industrial (LI) District on December 5, 1983 by *Ordinance No. 83-61* (*PZ1983-035-01*). The subject property was then platted as part of Lot 2 and all of Lots 4 & 5 of the Ellis Center, Phase 2 Addition on February 15, 1985 as part of *Case No. PZ1984-014-01*. The subject property was later assembled into its current configuration (*i.e. Lot 1, Block D, Ellis Center, Phase 2 Addition*) by *Case No. P2018-015*.

PURPOSE

On October 18, 2019, the applicant -- *Matthew Gardner of Halff Associates* -- submitted an application requesting approval of a site plan for the purpose of developing a multi-tenant industrial site consisting of three (3) separate buildings that will be approximately 87,600 SF (*i.e. 50,400 SF, 25,200 SF, & 12,000 SF*). The proposed development is subject to the land use, density and dimensional requirements of the Light Industrial (LI) District as stipulated by the Unified Development Code (UDC).

ADJACENT LAND USES AND ACCESS

The subject property is located north of the intersection of Alpha Drive and Sigma Court. The land uses adjacent to the subject property are as follows:

North: Directly north of the property is an un-platted 71.022-acre tract of land that is vacant (*i.e. Tract 20-1 of the A. Hanna Survey, Abstract No. 99*), which is zoned Light Industrial (LI) District. Beyond this property is Justin Road, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan.

South: Directly south of the subject property is the continuation of Phases 1 & 2 of the Ellis Centre Addition, which are occupied with light industrial land uses. All of these properties are zoned Light Industrial (LI) District. Beyond this is an urgent care/medical office facility (*i.e. Baylor Scott & White Emergency Hospital*) that is zoned Light Industrial (LI) District. South of this land use is the westbound frontage road for E. IH-30.

East: Directly east of the subject property are two (2) large tracts of land (*i.e. Lots 1 & 2 of the Rockwall Industrial*) which are bisected by Industrial Boulevard. Industrial Boulevard is identified as a M4U (*i.e. minor collector, four [4] lane, roadway*) on the City's Master Thoroughfare Plan. The majority of these properties were developed during the 1970's and 1980's. All of these properties are zoned Light Industrial (LI) District.

West: Directly west of the subject property is a 41.649-acre tract of land (*i.e. Lot 1, Block 1, Herman Utley Middle School Addition*) zoned Agricultural (AG) District. Adjacent to the subject property is Wilkerson-Sanders Memorial Stadium. Beyond this property is N. TL Townsend Drive, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's Master Thoroughfare Plan.

DENSITY AND DIMENSIONAL REQUIREMENTS

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), light manufacturing/multi-tenant warehouse facilities are permitted *by-right* land uses in a Light Industrial (LI) District. The subject property proposes one (1) point of ingress and egress at the terminus of Alpha Drive. Other than the exceptions being requested, the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Light Industrial (LI) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 SF*	*x>7.02-acres; In Conformance*
Minimum Lot frontage	*100-Feet*	*x> 750-feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>366-feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet + ½ H*	*x>15-feet; In Conformance*
Minimum Side Yard Setback	*0-Feet + ½ H*	*x>44-feet; In Conformance*
Maximum Building Height	*60-Feet*	*x>40-feet; In Conformance*
Max Building/Lot Coverage	*60%*	*x<29%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; Exception Required for Tilt-Up Wall Construction*
Minimum Number of Parking Spaces	*1:1000=88*	*x=161; In Conformance*
Minimum Stone Requirement	*20% Each Facade*	*x≤5%; Exception Required*
Minimum Landscaping Percentage	*15%*	*x=21%; In Conformance*
Maximum Impervious Coverage	*90-95%*	*x<95%; In Conformance*

TREESCAPE PLAN

The treescape plan provided by the applicant indicates a total of 59-caliper inches to be removed from the site, which are primarily cedar trees. The applicant is providing 144-caliper inches on site, which satisfies the mitigation requirements.

CONFORMANCE WITH THE CITY'S CODES

Subsection 5.02, *Light Industrial (LI) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), states that the "*Light Industrial (LI) District* is a zoning district intended to create a limited industrial zone that provides for modern types of industrial land uses." The proposed multi-tenant light industrial complex are a permitted land uses in the Light Industrial (LI) District. Additionally, all operations will be indoors with no outside storage of materials unless properly screened or buffered.

According to Subsection 5.02.B, *Screening from Residential Uses*, of Article VIII, *Landscape Standards*, of the Unified Development Code (UDC), non-residential developments that have a "…side or rear contiguous to any residential zoned or used property…shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers. As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three (3) tiered screening (*i.e. [1] small to mid-sized shrubs, large shrubs or accent trees, and canopy trees or [2] evergreen trees and canopy trees*) along the entire length of the adjacency…(t)he canopy trees shall be placed on 20-foot centers."

In this case, the applicant is providing a three (3) tiered screening system along the entire western property boundary that is adjacent to the Herman Utley Middle School; however, RISD has an existing wrought-iron fence along this western property boundary. Based on the existing fence on the RISD's property the applicant is not proposing to incorporate an additional wrought iron fence. Staff made this suggestion to the applicant to prevent the possibility of creating a strip of land in between the two (2) fences that would be hard for either property owner to maintain. With all this being said, the proposed landscape screening is a discretionary approval for the Planning and Zoning Commission upon a determination that the provided screening will achieve the intent of the screening ordinance. This has been included as a condition of approval in this case memo.

VARIANCES/EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following exceptions to the requirements of the Unified Development Code (UDC):

(1) *Building Materials.*

(a) *Stone*. According to Section 5.01.A.1, *General Industrial District Standards*, of Article V, *District Development Standards*, of the UDC, a minimum of 20% stone is required on all building façades. In this case, the applicant is providing stone on the columns at the entry ways of the buildings; however, the stone falls short of the 20% requirement. Staff should note that this is not an uncommon request with larger industrial buildings.

(b) *Tilt Wall.* According to Section 5.01.A.1, *General Industrial District Standards*, of Article V, *District Development Standards*, of the UDC, the use of concrete tilt-up walls may be permitted on a case-by-case basis by the Planning and Zoning Commission. The proposed building is 100% tilt-wall construction.

(2) *Articulation.*

(a) *Primary Building Façades. According to Section 5.01.C.1, General Industrial District Standards, of Article V, District Development Standards,* of the UDC, primary facades require projections associated with entryways, architectural elements and wall lengths. Specifically, primary architectural/entryway elements are required to extend a minimum of 25% above the top of the wall and a minimum of 25% from the walls surface. In addition, no wall should exceed a length of four (4) time the walls height without an architectural/entryway element. In this case, the proposed building does incorporate vertical projections, but does not meet the horizontal projection standards on the primary façades.

(b) *Secondary Building Façades.* According to Section 5.01.C.1, *General Industrial District Standards*, of Article V, *District Development Standards*, of the UDC, secondary facades require projections associated with entryways and architectural elements. Specifically, the secondary architectural/entryway elements are required to extend a minimum of 15% above the top of the wall and a minimum of 15% from the walls surface. In this case, the proposed building does

incorporate vertical projections, but does not meet the horizontal projection standards on the secondary façades.

(3) *Residential Screening Fence.*

Screening. According to Subsection 5.6, *Screening from Residential Uses*, of Section 5, *Mandatory Provisions*, of Article VIII, *Landscape Standards*, of the Unified Development Code (*UDC*), "any non-residential or multi-family land use or parking area that has a side or rear contiguous to any residentially zoned or used property shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers … (a)s an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three (3) tiered screening (*i.e. [1] small to mid-sized shrubs, large shrubs or accent trees, and canopy trees or [2] evergreen trees and canopy trees*)

(4) *Detention Pond.*

(a) *Maximum of 4:1 Slope.* According to the Engineering Department's Standards of Design and Construction Manual, "(d)etention ponds shall have a side slope 4:1 or flatter. No retaining walls are allowed in detention ponds." In this case the applicant is requesting vertical retaining walls within the detention system. According to Section 3, *Storm Drainage Facilities*, of the Standards of Design and Construction Manual, "(a) variance to allow retaining walls in a detention easement will require approval by the Planning and Zoning Commission with appeals being heard by the City Council." To off-set the variance, staff has included a condition of approval that the applicant be required to screen the detention system with a combination of trees and shrubs. This will require the applicant to revise the landscape plan prior to submitting civil plans.

According to Section 9, *Exceptions and Variances*, of Article XI, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), and unless otherwise specified by the UDC, "(a)n applicant may request the Planning and Zoning Commission grant an exception to the provisions contained in the Unified Development Code (UDC), where unique or extraordinary conditions exist or where strict adherence to the technical requirements of the…(UDC) would create an undue hardship. In cases where an exception or exceptions is/are being requested, the applicant shall provide compensatory measures that directly offset the requested exception." In this case, the applicant has provided a letter explaining the variances and offering compensatory measures for the requested variances. The Planning and Zoning Commission is tasked with determining if the compensatory measures properly off-set the requested variance. This is a discretionary decision for the Planning and Zoning Commission that require approval by a super majority vote (*i.e. a three-fourths vote of those members present*), with a minimum of four (4) votes in the affirmative required for approval. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The Future Land Use Plan adopted with the OURHometown Vision 2040 Comprehensive Plan (*Comp Plan*) indicates that the subject property is located within the *IH-30 Corridor District* which is "… the primary retail corridor for the City of Rockwall. Currently the corridor is approximately 55% developed, with the remaining 45% being vacant or raw land. The Corridor acts as the western gateway for both the City and County of Rockwall, and has land uses that include retail, personal services, medical, and industrial." Additionally, the *Special Commercial Corridor (SC)* designation "…is intended to provide an area for commercial/retail…activity centers that are intended to support and serve the entire region." (*Ch. 1; Land Use Plan*) In this case, the applicant's request does not conform to the development referred to in the Comprehensive Plan; however, the development is going into an existing industrial park that is already zoned for the proposed land use.

According to the Comprehensive Plan, industrial developments should be adequately buffered and/or screened from residential land uses. In addition, the Comprehensive Plan states that "(b)uffers utilizing a combination of berms, landscaping and trees should be used for industrial properties that are adjacent to non-industrial land uses or agricultural land." While the adjacent property (*i.e. Herman Utley Middle School*) is zoned Agricultural (AG) District -- *which is considered to be residential* -- the property is developed with a non-residential land use (*i.e. a football stadium*). Regardless of the adjacency, the applicant is proposing to install a three (3) tiered landscape screening system in conjunction with an existing wrought-iron fence (*located on the adjacent property*) to accomplish the screening required by the Comprehensive Plan and Unified Development Code (UDC).

ARCHITECTURAL REVIEW BOARD (ARB)

On October 29, 2019, the Architectural Review Board (ARB) reviewed the proposed site plan and building elevations. Based on the submittal the Architectural Review Board (ARB) requested that the applicant incorporate stone around the primary and secondary entryways for the building. The applicant has revised the building elevations to incorporate the stone. The Architectural Review Board (ARB) will review the applicant's changes at the *November 12, 2019* meeting and provide a recommendation to the Planning and Zoning Commission.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to approve the applicant's request, then staff would propose the following conditions of approval:

(1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

(2) Approval by the Planning and Zoning Commission of all exceptions requested as outlined in staff's report;

(3) The applicant will be required to revise the landscape plan to incorporate a mixture of trees and shrubs to screen the detention pond adjacent to the entryway off of Alpha Drive prior to submitting civil plans;

(4) All Roof Top Units (RTU's) will need to be screened and not visible from adjacent properties or public rights-of-way; and

(5) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(10/24/2019 8:50 PM DG)
SP2019-040; Site Plan for Rockwall Urban & Industrial Center (Ellis Centre, Phase 2)
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive.

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at(972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-040) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code(UDC); including the District Development Standards, of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit.

M.6 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Please provide a label for the parking count for each row of spaces in order to determine total parking count
2) The cross sections of concrete pavement thickness is to be determined by the engineering department during the civil submittal process and is not considered tc be approved during this site plan process.
3) Parking for an office use requires a minimum of one (1) parking space per 300-SF (i.e. 1:300 SF) of gross floor area. Will there be offices uses within this complex? If so, please update parking legend. (Article VI, Table 3).
4) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director.
5) Is there a front building set back? If so, this is required to be 25-ft. Please adjust accordingly.
6) Provide a label for all drive aisle widths.
7) Indicate and label all sidewalk widths proposed for this site.
8) Delineate and label all loading dock parking spaces. Minimum 12-ft wide & 65-ft in length. (Art. VI, Section 6.04)
9) Ground mounted utility equipment and RTU's shall be screened from adjacent public rights-of-way and adjacent property. Provide screening detail for these units. (Art. V, Sec. 1.05.3)
10) Provide screening along the western property boundary from the school district property. (Art. VIII, Sec. 5.02.B Landscape Screening)
11) Will there be any outside storage of materials, products, etc.?

M.8 Building Elevations. According to Subsection 5.01.A1, of the General Industrial District Standards, of Article V, District Development Standards, of the UDC, requires a minimum of 20% stone (i.e. natural or synthetic/cultured) on all building façades. In this case, the construction of the addition does not include stone on any façade. This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.9 Building Elevations. According to Subsection 5.01A.1, General Industrial District Standards, of Article V, District Development Standards, of the UDC, each exterior wall of a building's façade shall consist of a minimum of 90% primary materials and ten (10) percent secondary materials. In this case, the construction consists of concrete tilt-up wall. The use of concrete tilt-up walls may be permitted on a case-by-case basis in accordance with the exception requirements outlined in this section of the UDC This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board (ARB).

M.10 Building Elevations. Please review the articulation formulas contained in Section 5.01.C of Article V, District Development Standards, of the UDC. The submitted building elevations do not appear to meet all the formulas required for building articulation This will require an exception from the Planning and Zoning Commission pending a recommendation from the Architectural Review Board(ARB).

M.11 Building Elevations. Please make the following clarifications and changes to the building elevations to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Indicate all HVAC units (i.e. dash-in RTU's) on the building elevations so that staff can ensure that they meet the screening requirements dictated by the UDC (Subsection. 1.05.C.3; Art. V; UDC).
2) Provide calculation of building materials as a percentage.

M.12 Landscape Plan. Please make the following clarifications and changes to the landscape plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Provide screening along the western property boundary from the school district property. Art. VIII, Sec. 5.02.B Landscape Screening, states (a)ny non-residential...land use or parking area that has a ide or rear contiguous to any residentially zoned or used property shall be screened with a masonry fence a minimum of six (6) feet in height with canopy trees planted on 20-foot centers (as depicted in Figures 6 & 7 below). As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three(3) tiered screening along the entire length of the adjacency. The canopy trees shall be placed on 20-foot centers. As a note, the Agricultural (AG) District is considered residential.
2) Correct table to indicate a minimum 15% landscaping required (currently indicates 10%).
3) All new tree plantings are to be a minimum of 4-inch caliper trees. Correct plan. (Art. VIII, Sec. 4.A.2)
4) Parking lotsgreater than 20,000 SF are required to provide a minimum of one (1) tree for each 10 parking spaces. 161 parking spaces = 16 trees within the parking lot area. (Art. VIII, Sec. 5.03.E.2)

M.13 Treescape Plan. According to Section 3.4, Treescape Plan Review Process, of Article IX, of the UDC, the director of planning and zoning, or his/her designee, shall review the treescape plan and approve the plan per the requirements of this article, or forward any recommendations to the planning and zoning commission As part of the treescape plan review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees The planning and zoning commission will review and approve or disapprove the treescape plan The decision of the planning and zoning commission may be appealed to the city council. The treescape plan requires approval by the Planning and Zoning Commission as submitted

M.14 Photometric Plan. According to Section 3.3, Minimum Requirements, of Article VII, Environmental Performance, of the UDC, the maximum allowable light intensity measured at the property line of any non-residentially zoned lot shall be 0.2 FC. In this case, the submitted photometric plan conforms to the requirements of the UDC.

1) No light pole, base or combination thereof shall exceed an overall height of 30-ft. Provide pole detail. (Art. VII, Sec. 3.3.D)

M.15 Based on the submittal staff has identified the following exceptions

1) Building Materials. The proposed addition is requesting the use of tilt-up wall construction and does not include a minimum of 20% stone.
2) Building Articulation. The proposed addition does not meet the articulation standards established by the UDC

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

To be able to request a variance, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two (2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.14 Please note that failure to address all comments provided by staff by 8:00 AM on November 5, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on November 5, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the November 12, 2019 Planning & Zoning Meeting. Please note that the Planning & Zoning Work Session meeting will be held on October 29, 2019.

I.16 The Architectural Review Board (ARB) meeting will be held on October 29, 2019 and will begin at 5:00 p.m. in the City's Council Chambers. The ARB will forward a recommendation to the Planning and Zoning Commission.

I.17 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

(10/25/2019 12:12 PM DG)
The following CPTED comments are from Captain Ed Fowler of the Rockwall Police Department

SP2019-040 Ellis Center Phase 2
Considerations

- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding(fencing) area.
- Consider lighting spaced at intervals around the overhead doors(sides) and rear that fully illuminate the area.
- Evaluate transitional lighting for employees entering the parking lot from an area that has bright lighting to dim lighting and may pose a visual problem.
- There does not appear to be shrubs or trees that will obstruct views around the business.
- Consider additional locking mechanisms for overhead doors in the form of a bar system and case hardened locking system
- Consider the addition of removable bollards for overhead doors to prevent vehicles from being used to breach the doors
- Consider auxiliary locking system on main entrance door(s) with limited key access, key pad or electronic badges for afterhours employees.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider installation of locking mechanisms on all sliding windows up to the use of security rods.
- Roof access points should be locked from the inside.
- Consider installation of solid core doors for offices inside the business including the room that houses the safe Single cylinder locks for all offices and a double cylinder lock for the safe room.
- Consider an additional alarm inside the safe room, either attached to the entrance door or safe.
- Consider the addition of security cameras on the exterior of the building that provide360 degree coverage.
- Consider the addition of security cameras forthe interior the business.
- Interior considerations are not being added without speaking with the business owners/reps first.

The implementation of all or any portion of the considerations are NO guarantee or assurance that crime will not occur or that the property will be crimeproof. The considerations should, however, reduce the probability of crime if the strategies and recommendations are properly applied and consistently maintained Any changes should still meet with the City of Rockwall's building code, code of ordinances and fire code.

PLANTING NOTES

PREPARATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE CORRECT LOCATION OF ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS IN THE FIELD PRIOR TO THE INSTALLATION OF ANY PLANT MATERIALS.

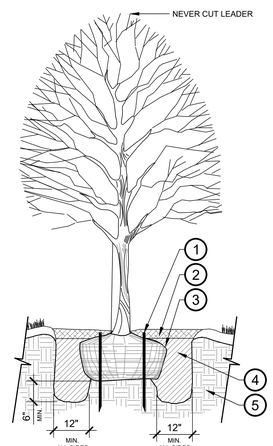
PLANT LOCATIONS
REFER TO PLANTING PLAN FOR PlaNTING LOCATION AND PLANT MATERIAL LEGEND FOR SPECIFICATIONS. PLANT MATERIAL LOCATION TO BE STAKED IN THE FIELD AND APPROVED BY LANDSCAPE ARCHITECT PRIOR TO PLANTING.

COORDINATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY COORDINATION WITH OTHER CONTRACTORS ON SITE AS REQUIRED TO ACCOMPLISH ALL PLANTING OPERATIONS.

MAINTENANCE
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ALL PLANTING BEDS IN A WEED AND DEBRIS FREE CONDITION AND SHALL ACCOMPLISH WATERING BY HAND AS DEEMED NECESSARY UNTIL SUBSTANTIAL COMPLETION AND ACCEPTANCE BY THE OWNER. THE CONTRACTOR SHALL MAINTAIN ALL WORK FOR A PERIOD OF 30 DAYS AFTER SUBSTANTIAL COMPLETION AND ACCEPTANCE.

VERIFICATION
LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL QUANTITIES PER DRAWINGS AND SPECIFICATION BY lANDSCAPE ARCHITECT. PLANT QUANTITIES HAVE BEEN PROVIDED AS A CONVENIENCE ONLY AND SHALL NOT BE CONSIDERED ABSOLUTE. LANDSCAPE ARCHITECT TO BE NOTIFIED IF DISCREPANCIES OCCUR. OTHERWISE, THE CONTRACTOR IS TO BID THEIR OWN VERIFIED QUANTITIES PER LANDSCAPE PLAN.

PLANTING BEDS
ALL BED AREAS ARE TO BE FLUSH WITH FINISHED GRADE AT ADJACENT PAVEMENT. ALL BED AREAS SHALL BE ROTOTILLED TO BE A DEPTH OF 6", ADDING PREPARED SOIL MIXTURE AS REQUIRED.



MULCH
AFTER SETTLEMENT, ALL PLANTING BED MULCH DEPTHS SHALL BE A MIN. OF 3". ALL AREAS DISTURBED BY PLANTING OPERATIONS SHALL BE FINE GRADED AND REPLANTED. MULCH SHALL BE TEXAS NATIVE CEDAR

STANDARDS
ALL PLANT MATERIAL SHALL CONFORM TO THE SIZES GIVEN IN THE PLANT LIST AND SHALL BE NURSERY GROWN IN ACCORDANCE WITH THE "AMERICAN STANDARD FOR NURSERY STOCK", LATEST EDITION. ALL PLANTING SHALL BE IN ACCORDANCE WITH STANDARD AMERICAN ASSOCIATION OF NURSERYMEN PROCEDURES AND SPECIFICATIONS.

PROTECTED TREES
PROTECTED TREES SHALL BE MARKED AND THE DRIP LINE OF SAID TREES SHALL BE PROTECTED PRIOR TO AND DURING ALL CONSTRUCTION, INCLUDING EARTHWORK.

IRRIGATION
IRRIGATION WILL MEET ALL TCEQ AND UDC REQUIREMENTS.

NO TREES SHALL BE PLANTED WITHIN 5' OF UTILITIES

KEY:

1. (3) ARBOR STAKES. INSTALL PER MANUFACTURE'S SPECIFICATIONS
2. SPECIFIED MULCH - 3" MIN. DEPTH ENTIRE TREE BASIN
3. SET TOP OF ROOT BALL 3" ABOVE FINISH GRADE. BUILD 3" HT. SAUCER AROUND PLANTING PIT WITH TOPSOIL.
4. LIVING EARTH PLANTING MIX OR APPROVED EQUAL BY LANDSCAPE ARCHITECT. WATER AND TAMP TO REMOVE SIDE AND BOTTOM AIR POCKETS 6" MIN.
5. UNCOMPACTED NATIVE SOIL/UNDISTURBED SUBGRADE

NOTE:
FOR BALL & BURLAP REMOVE WIRE/TWINE FROM AROUND BURLAP, FOLD TOP THIRD DOWN OR CUT/REMOVE PRIOR TO BACKFILL.

NEW TREE PLANTING

01 TREE PROTECTION DETAIL
SCALE: N.T.S.

STANDARD PRESERVATION NOTES FOR
TREE AND NATURAL AREA PROTECTION

1. All trees and natural areas shown on plan to be preserved shall be protected during construction with temporary fencing and other measures as needed which may include retaining walls, pruning of limbs, roots, etc.
2. Protective fences shall be erected according to City Standards for Tree Protection.
3. Protective fences shall be installed prior to the start of any site preparation work (clearing, grubbing or grading), and shall be maintained throughout all phases of the construction project.
4. Erosion and sedimentation control barriers shall be installed or maintained in a manner which does not result in soil build-up within tree drip lines.
5. Protective fences shall surround the trees or group of trees, and will be located no closer than the outermost limit of branches (drip line) plus an additional 2'-0" away from the limits of dripline. For natural areas, protective fences shall follow the Limit of Construction line, in order to prevent the following:
   A. Soil compaction in the root zone area resulting from vehicular traffic or storage of equipment or materials;
   B. Root zone disturbances due to grade changes (greater than 6 inches cut or fill), or trenching not reviewed and authorized by the City Parks Department;
   C. Wounds to exposed roots, trunk or limbs by mechanical equipment;
   D. Other activities detrimental to trees such as chemical storage, cement truck cleaning, and fires.
6. Exceptions to installing fences at tree drip lines may be permitted in the following cases:
   A. Where there is to be an approved grade change, impermeable paving surface, tree well, or other such site development, erect the fence approximately 2 to 4 feet beyond the area disturbed;
   B. Where permeable paving is to be installed within a tree's drip line, erect the fence at the outer limits of the permeable paving area (prior to site grading so that this area is graded separately by hand prior to paving installation to minimized root damage);
   C. Where trees are close to proposed buildings, erect the fence to allow root pruning in the work space between the fence and the building, prior to disturbance. The fence can be erected at the point of root pruning;
   D. Where there are severe space constraints due to tract size, or other special requirements, contact an Arborist to discuss alternatives.

   Special Note: Exceptions are permitted for areas outside the critical root zone. No disturbances are permitted within the critical root zone (75% of the dripline area). For the protection of natural areas, no exceptions to installing fences at the Limit of Construction line will be permitted, and no silting of stock piling of material or dirt is allowed around trees.
7. Where any of the above exceptions result in a fence being closer than 4 feet to a tree trunk, protect the trunk with strapped-on planking to a height of 8 ft. in addition to the reduced fencing provided.
8. Trees approved for removal shall be removed in a manner which does not impact trees to be preserved.
9. Any roots exposed by construction activity shall be pruned flush with the soil. Backfill root areas with good quality top soil as soon as possible. If exposed root areas are not backfilled within 2 days, cover them with organic material in a manner which reduces soil temperature and minimizes water loss due to evaporation.
10. Trenching required for the installation of irrigation shall be placed as far from existing tree trunks as possible.
11. No landscape topsoil dressing greater than 2 inches shall be permitted within the drip line of trees. No soil or mulch is permitted on the root flare of any tree.
12. Limbing & pruning to provide clearance for structures, traffic and equipment shall take place before damage occurs.
13. All finished pruning shall be done according to recognized, approved standards of the industry (Reference the National Arborist Association Pruning Standards for Shade Trees).

Height: 4" (10.2 cm)
Width: 5-1/2" (14.0 cm)
Depth: 1-1/2" (3.8 cm)

Capable Luminaire
This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and system-level interoperability.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is A+ Certified when ordered with DTLL® controls marked by a shaded background. DTL DLL equipped luminaires meet the A+ specification for luminaire to photocontrol interoperability1
- This luminaire is part of an A+ Certified solution for ROAM® or XPoint™ Wireless control networks, providing out-of-the-box control compatibility with simple commissioning, when ordered with drivers and control options marked by a shaded background.

To learn more about A+, visit www.acuitybrands.com/aplus.

See ordering tree for details.

A+ Certified Solutions for ROAM require the order of one ROAM node per luminaire. Sold Separately: Link to Roam; Link to DTL DLL

© 2011-2019 Acuity Brands Lighting, Inc. All rights reserved.

A+ Capable options indicated by this color background.

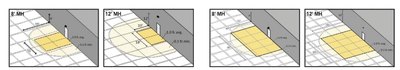
DF	Double fuse (208, 240, 480V)[5]		
DS	Dual switching[14]		
DMG	0-10V dimming extend out back of housing for external control (control ordered separate)[15]		
E7WH	Emergency battery backup, Non CEC compliant (7W)[7]		



Accessories
Ordered and shipped separately.

WSTXPBBW DDBXD U Premium Surface - mounted back box
WSBBW DDBTXD U Surface - mounted back box
RBPW DDBXD U Bersafe back plate

NOTES
1 MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
2 Single fuse (SF) requires 120V, 277V or 347V. Double fuse (DF) requires 208V, 240V or 480V.
3 Also available as a separate accessory; see accessories information.
4 Top conduit entry standard.
5 Not available with VG or WG. See PER Table.
6 Reference Motion Sensor table.
7 Need to specify 120, 208, 240 or 277 voltage.
8 Photocell ordered and shipped as a separate line item from Acuity Brands Controls. Shorting Cap included.
9 Not available with Emergency options, PE or PER options.
10 DMG option not available with standalone or networked sensors/ receptacle options.
11 Not available with 347/480V.
12 Battery pack rated for -20° to 40°C.
13 Comes with PBBW.
14 Warranty period is 3-years.
15 Not available with BBW.
16 Must order with fixture; not an accessory.

Emergency Battery Operation
The emergency battery backup is integral to the luminaire — no external housing required! This design provides reliable emergency operation while maintaining the aesthetics of the product.
All emergency backup configurations include an independent secondary driver with an integral relay to immediately detect AC power loss, meeting interpretations of NFPA 70/NEC 2008 - 700.16.
The emergency battery will power the luminaire for a minimum duration of 90 minutes (maximum duration of three hours) from the time supply power is lost, per International Building Code Section 1006 and NFPA 101 Life Safety Code Section 7.9, provided luminaires are mounted at an appropriate height and illuminate an open space with no major obstructions.
The examples below show illuminance of 1 fc average and 0.1 fc minimum of the P1 power package and VF distribution product in emergency mode.

FEATURES & SPECIFICATIONS

INTENDED USE
The classic architectural shape of the WST LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION
The single-piece die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS
Well crafted reflector optics allow the light engine to be recessed within the luminaire, providing visual comfort, superior distribution, uniformity, and spacing in wall-mount applications. The WST LED has zero uplight and qualifies as a Nightime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 98 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 25°C, L70). Class 2 electronic driver has a power factor >90%, THD <20%, and a minimum 6 KV surge protection. When ordering the SPD option, a separate surge protection device is installed within the luminaire which meets a minimum Category C low operation (per ANSI/ IEEE C62.41.2).

INSTALLATION
A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS
CSA certified to U.S. and Canadian standards. Luminaire is IP65 rated. PIR and back box options are rated for wet location. Rated for -30°C to 40°C ambient.

DesignLights Consortium® (DLC) Premium qualified product. Not all versions of this product may be DLC Premium qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL, to confirm which versions are qualified.

WARRANTY
5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/resources/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

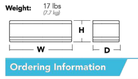
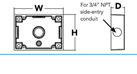
WSR LED
Architectural Wall Sconce



Catalog Number
Notes
Type

Hit the Tab key or mouse over the page to see all interactive elements.

Inverted available with WLU option only.



Specifications
Luminaire

Height: 7-1/4" (18.4 cm)
Width: 18" (45.7 cm)
Depth: 9" (22.8 cm)
Weight: 17 lbs (7.7 kg)

Optional Back Box (BBW)

Height: 4" (10.2 cm)
Width: 5-1/2" (14.0 cm)
Depth: 1-1/2" (3.8 cm)

Introduction
Classic Architectural Wall Sconce with the LED technology. Long-life, maintenance-free product with typical energy savings of 80% compared to metal halide versions. The integral battery backup option provides emergency egress lighting, without the use of a back-box or remote gear, so installations maintain their aesthetic integrity. The WSR LED is ideal for replacing existing 50 – 250W metal halide wall-mounted products. The expected service life is 20+ years of nighttime use.

Emergency Battery Operation
The emergency battery backup (E20WC & E10WH options) is integral to the luminaire - no external housing required! This design provides reliable emergency operation while maintaining the aesthetics of the product.
All E20WC and E10WH configurations include an independent secondary driver with an integral relay to immediately detect AC power loss.
The emergency battery will power the luminaire for a minimum duration of 90 minutes (maximum duration of three hours) from the time supply power is lost, per International Building Code Section 1006 and NFPA 101 Life Safety Code Section 7.9, provided luminaires are mounted at an appropriate height and illuminate an open space with no major obstructions.
The examples below show illuminance of 1 fc average and 0.1 fc minimum of the P1 power package Type IV product in emergency mode.

WSR P1 LED 40K SR4 MVOLT E30WC
10' x 10' Gridlines
8' and 12' Mounting Height

NOTES
1 MVOLT driver operates on any line voltage from 120-277V (50/60 Hz).
2 Not available with 480V option.
3 PE requires specified voltage.
4 Single fuse (SF) requires 120V, 277V or 347V options. Double fuse (DF) requires 208V, 240V or 480V options.
5 Not available with 347V or 480V. Not available with WLU.
6 WLU not available with PIR, E20WC or E10WH.
7 See PIR Table for default settings.
8 Only available with P3 & P4 packages. Provides 50/50 luminaire operation via two independent drivers and light engines on two separate circuits.
9 Not available with E20WC, E10WH, PE, DF, SF, DF. When ordered with photocell (PE) or motion sensor (PIR), only the primary power source leads will be controlled.
See electrical section on page 2 for more details.

FEATURES & SPECIFICATIONS

INTENDED USE
The classic architectural shape of the WSR LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION
The die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS
Precision-molded acrylic lenses are engineered for superior distribution, uniformity, and spacing in wall-mount applications. Light engines are 4000K (70 CRI). The WSR LED has zero uplight and qualifies as a Nightime Friendly™ product, meaning it is consistent with the LEEDB and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 8 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 25°C, L70). Class 2 electronic driver has a power factor >90%, THD <20%, and a minimum 6 KV surge protection. When ordering the SPD option, a separate surge protection device is installed within the luminaire which meets a minimum Category C low operation (per ANSI/ IEEE C62.41.2).

INSTALLATION
A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS
CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated and suitable for wet locations when mounted with the lenses down. WLU option offers wet location listing in "up" orientation. Rated for -30°C minimum ambient. DesignLights Consortium® (DLC) Premium qualified product and DLC qualified product. Not all versions of this product may be DLC Premium qualified or DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL, to confirm which versions are qualified.

WARRANTY

Introduction

The modern styling of the D-Series is striking yet unobtrusive - making a bold, progressive statement even as it blends seamlessly with its environment. The D-Series distills the benefits of the latest in LED technology into a high performance, high efficacy, long-life luminaire. The outstanding photometric performance results in sites with excellent uniformity, greater pole spacing and lower power density. It is ideal for replacing up to 400W metal halide with typical energy savings of 70% and expected service life of over 100,000 hours.

NOTES
1 P3, P11, P12 and P13 and rotated options (L90 or R90) only available together.
2 Not available with HS or DA.
3 MVOLT driver operates from any voltage from 120-277V (50/60 Hz).
4 Single fuse (SF) requires 120V, 277V or 347V. Double fuse (DF) requires 208V, 240V or 480V.
5 Not available with BLSS, BLSD or PIRBT options.
6 Universal mounting adaptor includes tenon for existing pre-drilled poles only. 1.5 G vibration load rating per ANSI C136.31.
7 Must order fixture with SPA mounting. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
8 Must be ordered with PIR or PIRH.
9 Not available with Textured dark bronze, black, white and natural aluminum colors.
10 Must be ordered with NLTAIR2. For more information on nLight AIR generation 2, visit this link.
11 Photocell ordered and shipped as a separate line item from Acuity Brands Controls. See accessories. Shorting Cap included.
12 5W, 0.15A source. 0-10V dimming wires pulled back into fixture for connection to an external control. Shorting Cap included.
13 CR2O not available with PIR4FH, PIR1FC3V, PIR, PIRH, PIR1FC3V or PIRH1FC3V.
14 Reference PER Table on page 3 to see functionality.
15 Not available with other dimming controls options.
16 Not available with P4, P5, P6, P7, P10, P11, P12 or P13 options.
17 Must be ordered with fixture for factory pre-drilling.
18 Requires luminaire to be specified with PER, PERS or PE57 option. See PER Table on page 3.
19 For retrofit use only.
20 For retrofit use only.

Performance Data

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient	Lumen Multiplier
0°C	32°F	1.04
5°C	41°F	1.04
10°C	50°F	1.03
15°C	59°F	1.02
20°C	68°F	1.01
25°C	**77°F**	**1.00**
30°C	86°F	0.99
35°C	95°F	0.98
40°C	104°F	0.97

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the platforms noted in a **25°C** ambient, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate L28 use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	Lumen Maintenance Factor
25,000	0.96
50,000	0.92
100,000	0.85

Options					
Optics	Dimmed State	High Level (Normal Output) (triggering)	Photocell Operation	Dwell Time	Ramp-up Time	Ramp-down Time
PIR or PIRH	7V (21%) (Default)	10V (100%) (Default)	Enabled at 3fc	5 min	3 sec	5 min
PIR1FC3V or PIRH1FC3V	7V (21%) (Default)	10V (100%) (Default)	Enabled at 1fc	5 min	3 sec	5 min

*For use with separate Dusk to Dawn or timer.

Controls Options

Networkable	Functions	Functionality	Primary control device	Notes
FAO	Field adjustable output drivers installed inside the luminaire, wired to the driver dimming leads.	Allows the luminaire to be manually dimmed, effectively trimming the light output.	PAE device	Cannot be used with other controls options that need the 0-10V leads.
DS	Drivers wired independently for 50/50 luminaire operation.	The luminaire is wired to two separate circuits, allowing for 50/50 operation.	Independently wired drivers	Requires two seperately switched circuits. Consider nLight AIR as a lower cost effective alternative.
PERS or PE57	Twist-lock photocell receptacle	Compatible with standard twist-lock photocells for dusk to dawn operation, or advanced control nodes that provide 0-10V dimming signals.	Twist-lock photocells such as DLL120a or advanced control nodes such as ROAM.	Pins 4 & 5 to dimming leads on driver, Pins 6 & 7 are capped inside luminaire
PIR or PIRH	Motion sensors with integral photocell, PIR for 8-15' mounting; PIRH for 15-30' mounting.	Luminaires dim when no occupancy is detected.	Acuity Controls SBOR	Also available with PIR1FC3V when the sensor photocell is used for dusk-to-dawn operation.
NLTAIR2 PIRHN	nLight AIR enabled luminaire for motion sensing, photocell and wireless communication.	Motion and ambient light sensing with group response. Scheduled dimming with zero-crossing 0-10V dimming. Wireless mesh networking using nLight AIR generation 2 enabled sensors and wall controls.	nLight Air eGSR	nLight AIR sensors can be programmed and commissioned from the ground using the CWB0p Pro app.

Performance Data

Lumen Output

Lumen values are from photometric tests performed in accordance with IESNA LM-79-08. Data is considered to be representative of the configurations shown, within the tolerances allowed by Lighting Facts. Contact factory for performance data on any configurations not shown here.

Rockwall, TX 75087

RE: Requested Variance for Rockwall Urban + Industrial Center (SP2019-040)

Dear Mr. Miller:

On behalf of Reid Caldwell and Rockwall Urban Industrial, LP we request a variance to the following ordinances:

1. Article V, District Development Standards, UDC - Industrial Districts Section 5.01.A.1.a.1 – Stone. (A minimum 20% stone)
    a. We added stone at the request of the ARB (10-29-19) with the caveat that the 20% requirement would not be enforced.

2. Article V, District Development Standards, UDC - Industrial Districts Section 5.01.C.2 – Building Articulation for Secondary Facades.
    a. This is a worth request, because having a flat façade provides flexibility to the property owner and future tenants with the intended utilitarian use of these loading/dock sides of the buildings for future utility and door locations. These facades will still maintain the vertical articulation prescribed for secondary facades. The specific variance being requested is for the North façade of Building 1, a loading dock with overhead coiling doors and West façade of Building 3 with on grade loading overhead coiling doors, neither face a street. Also, for the North façade of Building 2 that faces a property line that is currently screened by trees on the adjacent property, and any likely future development on that property would likely require screening based on differing uses. This façade also does not face a street or is easily seen from any adjacent property.

RICHARDSON, TX 75081-2275
TEL (214) 346-6200
FAX (214) 739-0095
WWW.HALFF.COM

3. 3.4A of the City of Rockwall Standards of Design and Construction – "Detention ponds shall have a side slope 4:1 or flatter."
    a. Based on maximizing the value of this property and the proposed site layout the detention pond will need to have retaining walls in order to meet the City of Rockwall drainage design. We believe this variance request is reasonable because it is consistent with the developments directly around our site. The site located directly to our south at the NE Corner of Alpha Dr. and Sigma Ct. has retaining walls built as part of its detention system.

Our compensatory measures are for the variance requests are as follows:

1. Stone was added to the façade after not originally being included and based on ARB comments on (10-29-19) the 20% requirement would not be enforced.
2. The landscape plan as shown is at 21% coverage, which is over the minimum of 15%.
3. Landscape screening will be added to the detention pond to screen along Alpha Drive.

If there are any questions, please don't hesitate to contact me.

Sincerely,

Matthew Gardner

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
November 26, 2019
6:00 P.M.

CALL TO ORDER

OPEN FORUM

APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

CONSENT AGENDA

2. Approval of Minutes for the *November 12, 2019* Planning and Zoning Commission meeting.

3. P2019-044 (David)
Consider a request by Arlyn Samuelson of Westwood Professional Services on behalf of Carolina Molina of SPR Packaging for the approval of Lot 3, Block A, SPR Packaging Addition being a replat of a 10.189-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

4. P2019-047 (David)
Consider a request by Matt Lucas, PE of Kimley Horn on behalf of Kevin J. Lloyd of 2424 MTA Realty, LLC for the approval of Lots 1, 2, & 3, Block A, MTA Andrews Addition being a final plat of a 9.6990-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwest corner of Ridge Road [FM-740] and Turtle Cove Boulevard, addressed as 2424 Ridge Road, and take any action necessary.

ACTION ITEMS

5. MIS2019-015 (David)
Discuss and consider a request by Michael Guerrero of Atticus Harbor Village, LLC for the approval of an alternative tree mitigation plan for a 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

DISCUSSION ITEMS

6. Z2019-025 (Korey)
Hold a public hearing to discuss and consider a request for the approval of a text amendment to the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of allowing the *Rental, Sales, and Service of Heavy Machinery and Equipment* land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary.

7. P2019-043 (David)
Discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Jeff Kennemer and Robert Witte of Saddle Star South Holdings, LLC, William Thrailkill of CDT Rockwall/2017 LLC, and Gwendolyn Reed for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 176 single-family residential lots on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King

Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

8. **P2019-045** **(David)**
Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 10, LTD for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive, and take any action necessary.

9. **P2019-046** **(Korey)**
Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a preliminary plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552, and take any action necessary.

10. **SP2019-043** **(Korey)**
Discuss and consider a request by Clay Cristy of ClayMoore Engineering, Inc. on behalf of Brian Berry of Milestone Electric, Inc. for the approval of an amended site plan for a multi-tenant office complex on a 9.52-acre tract of land identified as Lot 18 and the south portion of Lot 19, Rainbow Acres Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 407 Ranch Trail, and take any action necessary.

11. **SP2019-044** **(Korey)**
Discuss and consider a request by Steven Reyes of Ramsay & Reyes, LLC on behalf of Jimmy McClintock of LMGC, LLC for the approval of a site plan for an office building on a 0.739-acre tract of land identified as a portion of Lot 14 of the Lowe & Allen Addition [*0.4590-acres*] and Lot 2-R, Block A, Washington Place Addition [*0.28-acres*] , City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, situated within the SH-66 Overlay (SH-66 OV) District, addressed as 409 W. Washington Street, and take any action necessary.

12. **SP2019-045** **(David)**
Discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Alton Frazier of Channell Commercial Corporation for the approval of an amended site plan for an existing industrial building on an 18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

13. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2019-040: Lots 1 & 2, Block A, Haley & Kyle Addition [*Approved*]
- ✓ MIS2019-014: Water/Wastewater Master Plans [*Approved*]

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of November 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
November 12, 2019
6:00 P.M.

I. CALL TO ORDER

Chairman Eric Chodun called the meeting to order at 6:01 p.m. The Commissioners present at the meeting were, Tracey Logan, Mark Moeller, John Womble, and Sedric Thomas. Absent from the meeting were Commissioners Annie Fishman and Jerry Welch. Staff members present were Planning Director, Ryan Miller, Planning Manager, David Gonzales, Senior Planner, Korey Brooks, Planning Coordinator, Laura Morales, City Engineer, Amy Williams, Civil Engineers Jeremy White and Sarah Hager.

II. OPEN FORUM

Chairman Chodun explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time. There being no one coming forward to speak Chairman Chodun closed the open forum.

III. APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

IV. CONSENT AGENDA

2. Approval of Minutes for the October 8, 2019 Planning and Zoning Commission meeting.

3. Approval of Minutes for the October 29, 2019 Planning and Zoning Commission meeting.

4. **P2019-040**
Discuss and consider a request by Perry Bowen on behalf of Kyle Bryan and Haley Brook Bowen for the approval of a replat for Lots 1 & 2, Block A, Haley & Kyle Addition being a 0.97-acre parcel of land currently identified as Lot A, Block 107, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, being zoned Single-Family 7 (SF-7) District, addressed as 501 S. Clark Street, and take any action necessary.

5. SP2019-041
Discuss and consider a request by LeeAnn Latimer on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for a medical office building on a 1.36-acre tract of land identified as Lot 2, Block A, Landing Point Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

Commissioner Moeller made a motion to approve the consent agenda. Commissioner Womble seconded the motion which passed by a vote of 5-0 with Commissioners Fishman and Welch absent.

V. PUBLIC HEARING ITEMS

6. MIS2019-014
Hold a public hearing to discuss and consider an amendment to the OURHometown Vision 2040 Comprehensive Plan for the purpose of updating the water and wastewater master plans, and take any action necessary.

Planning Director, Ryan Miller, provided a brief explanation of the request. Recently, the City's consultant finished revising the water and wastewater master plans. These plans were incorporated into the OURHometown Vision 2040 Comprehensive Plan on December 3, 2018 by Ordinance No. 18-48 and as a result of their incorporation, staff is bringing forward an amendment to the Comprehensive Plan to incorporate the revisions identified by the City's consultants. According to the Texas Local Government Code, a comprehensive plan may be adopted or amended by ordinance following: (1) A hearing at which the public is given the opportunity to give testimony and present written evidence; and (2)Review by the municipality's planning commission or department, if one exists. Additionally, Section 9.03 of the City's Home Rule Charter states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change. Furthermore, Section 9.04 states that the City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revision or any part thereof as submitted within sixty days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council.

Mr. Miller advised the Commission that staff was available for questions.

Chairman Chodun opened up the public hearing and asked if anyone wished to speak to come forward and do so.

Richard Marks
204 W. Boydstun
Rockwall, TX

Mr. Marks came forward and asked if the proposal is related to the project to widen W. Boydstun Street. Mr. Miller indicted it is not a part of any sidewalk, street or water projects it is for underground for what is needed for future development.

Chairman Chodun asked if anyone else wished to speak to come forward and do so, there being no one indicating such; Chairman Chodun closed the public hearing and brought the item back to the Commission for discussion or action.

Commissioner Womble made a motion to approve MIS2019-014. Commissioner Thomas seconded the item which passed by a vote of 5-0 with Commissioners Fishman and Welch absent.

VI. ACTION ITEMS

7. SP2019-037

Discuss and consider a request by Anna C. Blackwell of Carrillo Engineering, LLC on behalf of Eddie Martin of Retail Partners, LLC for the approval of a site plan for a strip retail center on a 1.1755-acre parcel of land identified as Lot 26 of the Lake Ridge Estates Addition, City of Rockwall, Rockwall County, Texas, situated within the *Ridge Road Retail Subdistrict* of Planned Development District 32 (PD-32), located within the Scenic Overlay (SOV) District, addressed as 2930 Ridge Road [*FM-740*], and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation of the request. The applicant is requesting the approval of a site plan for the purpose of constructing a 7,000 square foot multi-tenant commercial/retail building. According to Planned Development District 32 the subject property is located within the Ridge Road Retail Subdistrict, which allows general retail land uses by-right. The intent of this Ridge Road Retail Subdistrict is to provide retail or restaurant land uses with Ridge Road frontage. The proposed development will construct a single-story retail facility totaling 7,000 square feet. The development will provide 33 surface parking spaces that can be accessed from Ridge Road and Glen Hill Way. The proposed sidewalks which located on both sides of Glen Hill Way will incorporate streetscape elements required by PD-32 and provide decorative trees and pedestrian scaled lighting features. The sidewalks are intended to provide access to the Harbor District and the associated amenities within PD-32. With the exception of the variances being requested, the submitted site plan, landscape plan, photometric plan, and building elevations, generally conform to the technical requirements contained within PD-32 the

Scenic Overlay District, and the Unified Development Code. Since the subject property is adjacent to Ridge Road, the Scenic Overlay District would be considered the regulating ordinance with regard to the design of the subject property.

Mr. Gonzales further noted that according to the Tree Preservation Plan provided by the applicant, a total of 557-inches of trees will be removed from the site, while a total of 105-inches of trees will be preserved. Additionally, the applicant has indicated that nine trees greater than 25-inch caliper will be removed and these nine trees are considered to be Feature Trees, which require replacement at double the caliper inch being removed. The Tree Preservation Plan shows that 105-inches of trees will be preserved on-site, which entitles the applicant to a total Tree Preservation Credit of 21-inches which means that taking into account the proposed Landscape Plan which shows that 156-inches of additional trees will be added to the site and a Tree Preservation Credit of 21-inches the applicant's total mitigation balance would be 491-inches and this balance will need to be satisfied prior to the submission of a final plat. With regard to the land use, a retail facility is permitted by-right in Planned Development District 32.

Mr. Gonzales went over the variances and exceptions being requested by the applicant to the primary materials and the dumpster enclosure. According to the Unified Development Code a minimum of 20% natural or quarried stone is required on all building facades. In this case, the applicant's proposed building elevations do not incorporate stone on the front (east = 0.0%) and side (south = 5.76%) facing facades. Since the building design does not meet the standard for the east and south facing façades a variance to the stone requirements is required to be approved by the Planning and Zoning Commission pending a recommendation from the Architectural Review Board. In regards to the dumpster enclosure according the Unified Development Code these enclosures need to be located to the side or rear of the primary building, and not front on to a public right-of-way and every effort should be made to reduce the visibility of these structures utilizing landscaping and/or the building. In this case, the applicant has stated that due to site constraints, they are unable to orient the dumpster in a way that both complies with the ordinance and allows the necessary maneuverability needed by the waste management truck. As a result, the applicant has oriented the dumpster at the rear of the building, but facing onto the public right-of-way of Glen Hill Road and as a compensatory measure the applicant has increased the landscape screening around the dumpster. According to the Unified Development Code, unless otherwise specified by the Unified Development Code, an applicant may request the Planning and Zoning Commission grant a variance to the provisions contained in the UDC, where unique or extraordinary conditions exist or where strict adherence to the technical requirements of this section would create an undue hardship. In cases where a variance or variances is/are being requested, the applicant shall provide compensatory measures that directly offset the requested exception." In this case, the applicant has provided a letter explaining the requested variances and proposing to construct the entire roadway for Glen Hill Way. Staff should point out that the applicant would be required to dedicated the right-of-way for Glen Hill Way based on a proportionality study prepared by staff for the current owner; however, that proportionality study did not require the applicant to build the roadway. Based on the cost of construction of that roadway, this proposal does appear to be a sufficient compensatory measure for the requested variances; however, this request does remain a discretionary decision for the Planning and Zoning Commission and will require approval by a super majority vote, with a minimum of four votes in the affirmative required for approval. In the event that the exception is denied, the applicant has the ability to appeal the Planning and Zoning Commission's decision to the City Council by filing a written request with the Planning and Zoning Department. Mr. Gonzales indicated that the Architectural Review Board reviewed the request and forwarded a recommendation for approval.

Mr. Gonzales advised the Commission that the applicant was present and available for questions as well as staff.

Commissioner Chodun asked for additional information in regards to the PD-32 requirements.

Chairman Chodun asked the applicant to come forward.

Anna Blackwell
301 Commerce Street
Fort Worth, TX

Ms. Blackwell came forward and provided addition comments in regards to the request. She indicated she was available for questions.

Chairman Chodun brought the item back to the Commission for discussion or action.

Commissioner Thomas made a motion to approve SP2019-037 with staff recommendations as well as the Architectural Review Board's recommendation. Commissioner Moeller seconded the motion which passed by a vote of 5-0 with Commissioners Fishman and Welch absent.

8. SP2019-040

Discuss and consider a request by Matthew Gardner and Halff Associates on behalf of Reid Caldwell of Rockwall Urban Industrial, LP for the approval of a site plan for a multi-tenant industrial building on a 7.02-acre parcel of land identified as Lot 1, Block D, Ellis Center Phase 2 Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the terminus of Alpha Drive, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation of the request. The applicant I is requesting approval of a site plan for the purpose of developing a multi-tenant industrial site consisting of three separate buildings that will be approximately 87,600 square feet. The proposed development is subject to the land use, density and dimensional requirements of the Light Industrial District as stipulated by the Unified Development Code. According to the Unified Development Code, light manufacturing/multi-tenant warehouse facilities are permitted by-right land uses in a Light Industrial District. The subject property proposes one point of ingress and egress at the terminus of Alpha Drive. Other than the exceptions being requested, the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within a Light Industrial District. Additionally, according to the Unified Development Code, states that the Light Industrial District is a zoning district intended to create a limited industrial zone that provides for modern types of industrial land uses. The proposed multi-tenant light industrial complex are a permitted land uses in the Light Industrial District and all operations will be indoors with no outside storage of materials unless properly screened or buffered. According the Unified Development Code, non-residential developments that have a side or rear contiguous to any residential zoned or used property shall be screened with a masonry fence a minimum of six feet in height with canopy trees planted on 20-foot centers. As an alternative, the Planning and Zoning Commission may approve an alternative screening method that incorporates a wrought iron fence and three tiered screening such as small to mid-sized shrubs, large shrubs or accent trees, and canopy trees or evergreen trees and canopy trees along the entire length of the adjacency the canopy trees shall be placed on 20-foot centers. In this case, the applicant is providing a three tiered screening system along the entire western property boundary that is adjacent to the Herman Utley Middle School; however, RISD has an existing wrought-iron fence along this western property boundary. Based on the existing fence on the RISD's property the applicant is not proposing to incorporate an additional wrought iron fence. Staff made this suggestion to the applicant to prevent the possibility of creating a strip of land in between the two fences that would be hard for either property owner to maintain. The proposed landscape screening is a discretionary approval for the Planning and Zoning Commission upon a determination that the provided screening will achieve the intent of the screening ordinance. Mr. Gonzales then went over the variances and exceptions the applicant is requesting and indicated the Architectural Review Board made a recommendation of approval.

Chairman Chodun asked the applicant to come forward.

Matt Gardner
3618 Regent Street
Midlothian, TX

Mr. Gardner came forward and provided additional comments in regards to the request. He indicated he was available for questions.

Commissioner Moeller made a motion to approve SP2019-040 with staff recommendations. Commissioner Thomas seconded the motion which passed by a vote of 5-0 with Commissioners Fishman and Welch absent.

VII. DISCUSSION ITEMS

9. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

VIII. ADJOURNMENT

Chairman Chodun adjourned the meeting at 6:39 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	November 26, 2019
APPLICANT:	Arlyn Samuelson; *Westwood Professional Services*
CASE NUMBER:	P2019-044; *Lot 3, Block A, SPR Packaging Addition*

SUMMARY

Consider a request by Arlyn Samuelson of Westwood Professional Services on behalf of Carolina Molina of SPR Packaging for the approval of Lot 3, Block A, SPR Packaging Addition being a replat of a 10.189-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a replat for a 10.189-acre parcel of land [i.e. *Lot 3, Block A, SPR Packaging Addition*] that will abandon a portion of a 24-foot firelane, drainage, and utility easement and a water easement for the purpose of constructing an office addition to the existing office/warehouse/manufacturing facility. The *subject property* is zoned Light Industrial (LI) District and is addressed as 1480 Justin Road.

☑ On August 15, 2019, David A. Morales of Pross Design Group, Inc. on behalf of Carolina Molina of Alvaplast US (SPR Packaging) submitted a site plan [*i.e. Case No. SP2019-030*] proposing the construction of a ~22,564 SF, two (2) story office addition to the existing office/warehouse/manufacturing facility. Additionally, the site will incorporate a ~7,046 SF, one (1) story ink/locker room that is located on the south facing façade. On September 10, 2019, the Planning and Zoning Commission approved the site plan and all exceptions requested.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the replat for *Lot 3, Block A, SPR Packaging Addition,* staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(11/20/2019 12:05 PM DG)
P2019-044: Replat – SPR Packaging Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a replat for Lot 3, Block A, SPR Packaging Addition being a 10.189-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

I.3 For reference, include the case number (P2019-044) in the lower right hand corner of all pages on future submittals.

I.4 The final plat shall conform to all standards and requirements of Chapter 38 of the Rockwall Code of Ordinances, the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

I.5 Correct Title Block to read as follows:
Final Plat
SPR PACKAGING ADDITION
Lot 3, Block A
Being a replat of Lot 2, Block A, SPR Packaging Addition,
Being 10.189-Acres and being an addition to the City of Rockwall, Texas
And being out of the N. Butler Survey, Abstract No. 20
and R. Ballard Survey, Abstract No. 29
City of Rockwall, Rockwall County, Texas

I.6 Correct the Lot number on the plat to "Lot 3". Additionally, change the lot number to "Lot 3" where Lot 2R may appear (i.e. Certificate of Approval, Owners Certificate, Title Block, etc.) on the plat.

M.7 Refer to the standard City Signature Block for wording of the City Council approval as found in the application package and provide in its entirety as applicable (Section 38-10, of Chapter 38, of the Municipal Code of Ordinances)

I.8 Provide a center line for the right-of-way for Industrial Blvd.

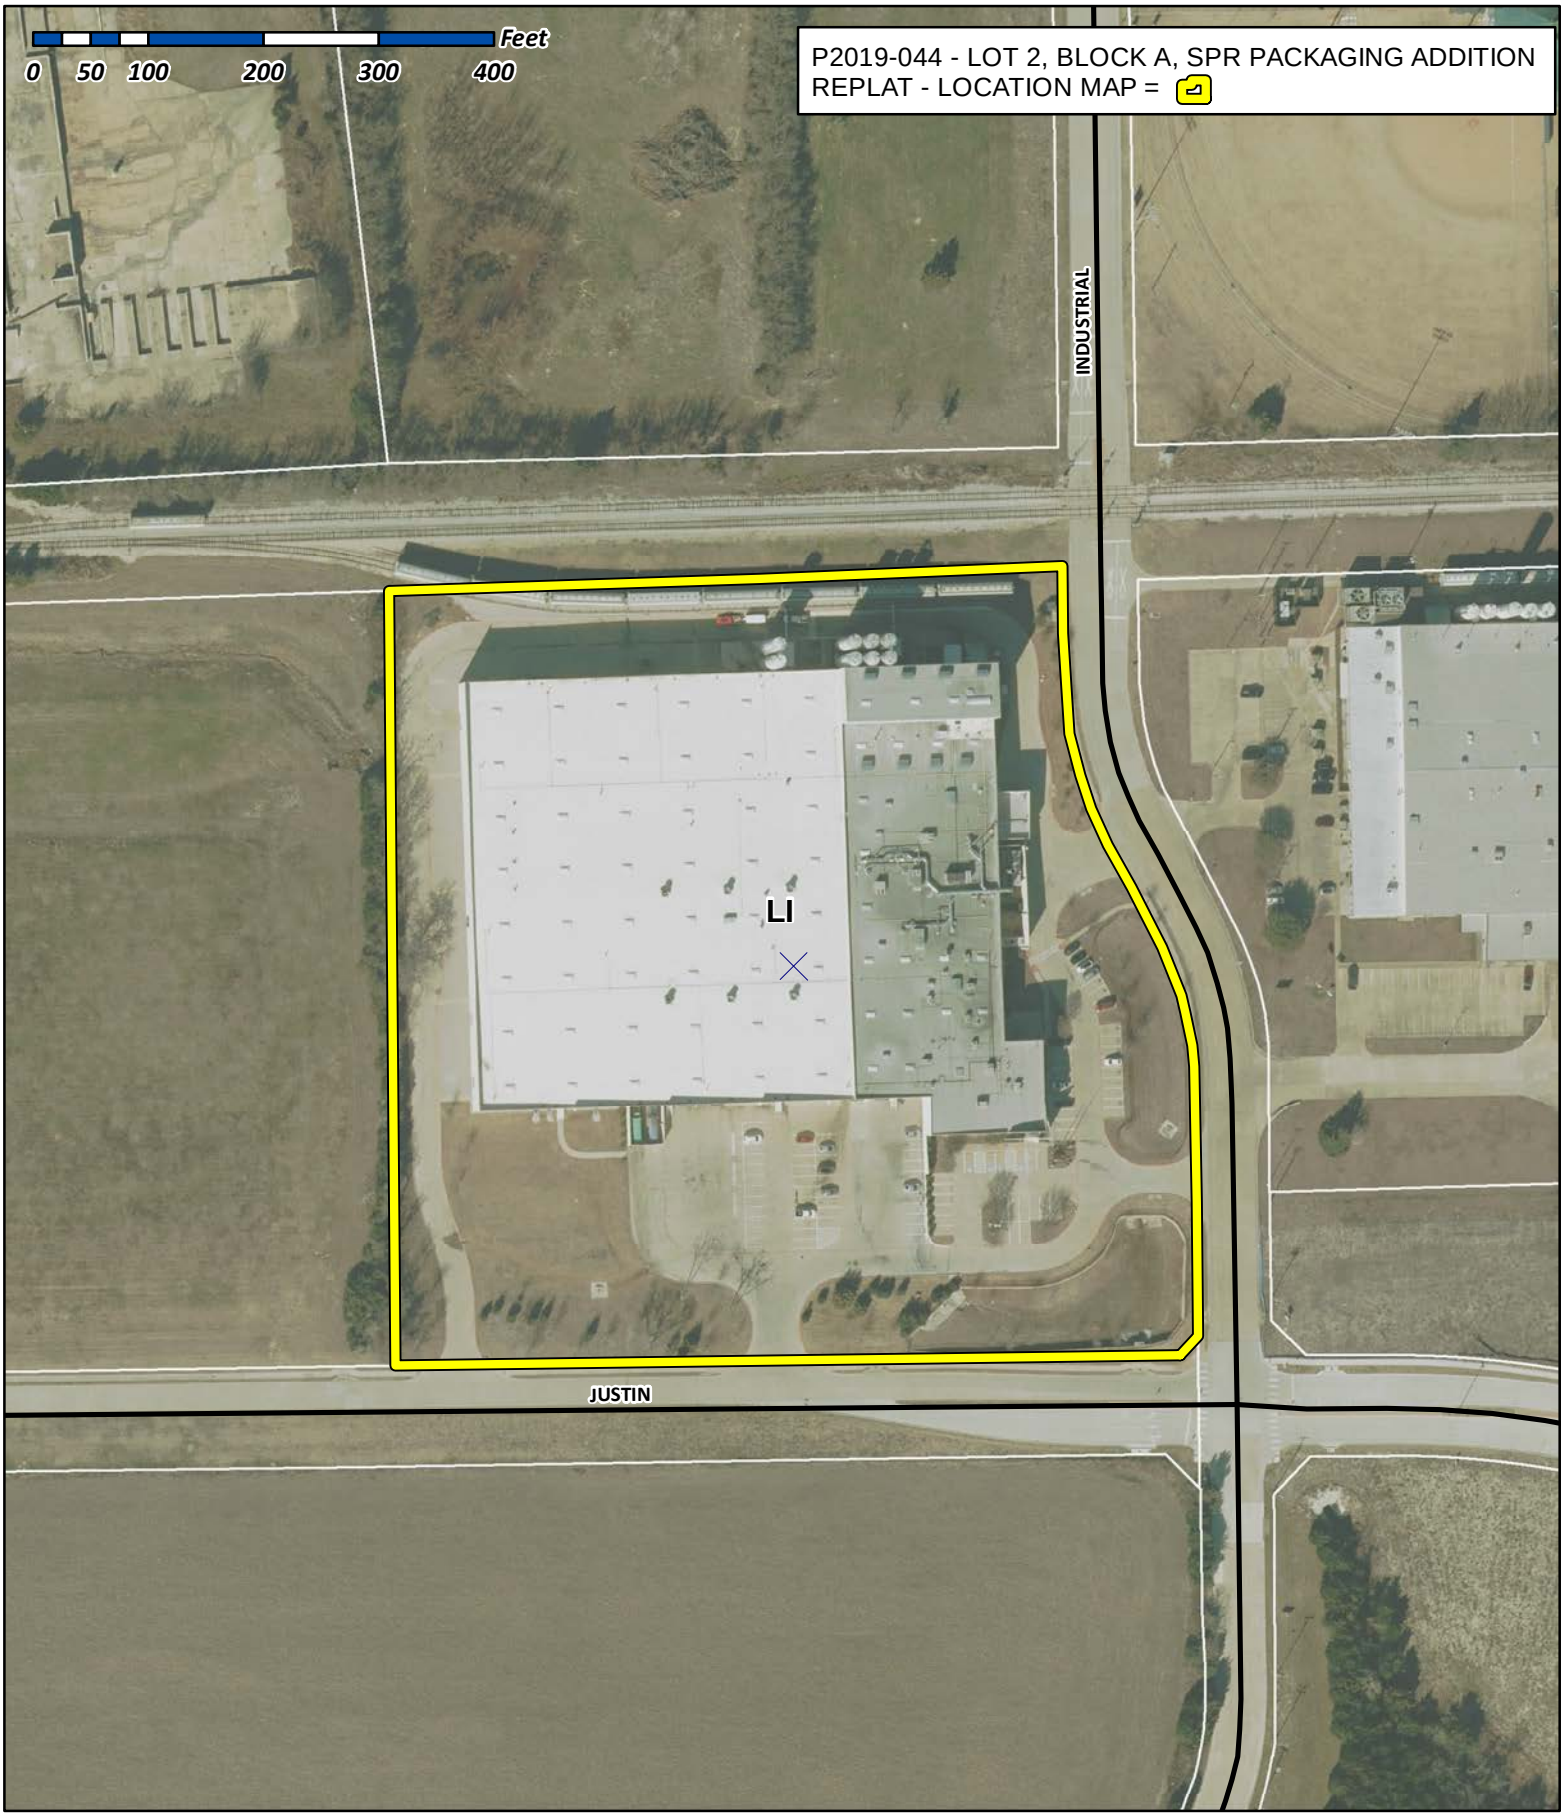
I.9 Consider changing all year dates on page 2 of the plat to a blank line to fill in the year or 2020. This is for filing purposes as the plat may be filed in the year 2020.

M.10 Correct the Owner's Certification by including statement number 7 as found on the application package, which reads as follows:

7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements. (Section 38-10, of Chapter 38, of the Municipal Code of Ordinances)

I.11 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for the applicants to submit revisions as

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks



soon as possible to give staff ample time to review the case for compliance. Please provide one (1) large copy [18" X 24" FOLDED] and one PDF version for a final review by staff.

I.12 The Planning and Zoning meeting will be held on November 26, 2019. This case will be on the Consent Agenda.

I.13 The City Council meeting will be held on December 2, 2019. This case will be on the Consent Agenda.

I.14 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.

I.15 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Flexland, L.P. is the owner of a 10.189 acre tract of land situated in the N. Butler Survey, Abstract No. 20 and the R. Ballard Survey, Abstract No. 29, Rockwall County, Texas; said tract being all of Lot 2, Block A, SPR Packaging Addition, an addition to the City of Rockwall, Texas according to the plat recorded in Cabinet H, Slide 155 of the Plat Records of Rockwall County, Texas; said 10.189 acre tract being more particularly described as follows:

BEGINNING, at a 5/8-inch iron rod with "Pogue Eng & Dev" cap found for corner at the north end of a right-of-way corner clip at the intersection of the northerly right-of-way line of Justin Road (a variable width right-of-way) and the westerly right-of-way line of Industrial Boulevard (a 65-foot right-of-way);

THENCE, South 44 degrees, 36 minutes, 19 seconds West, along the said right-of-way corner clip, a distance of 34.53 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found for corner in the said northerly line of Justin Road; said point also being at the south end of said corner clip;

THENCE, along the said northerly line of Justin Road, the following three (3) calls:

South 89 degrees, 36 minutes, 19 seconds West, a distance of 73.95 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found at an angle point;

North 89 degrees, 20 minutes, 30 seconds West, a distance of 86.95 feet to a 5/8-inch iron rod with "WESTWOOD PS" cap set at an angle point;

South 89 degrees, 05 minutes, 40 seconds West, a distance of 510.83 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found at the southwest corner of said Lot 2, Block A; said point also being the southeast corner of Lot 3, Block A, Whitmore Manufacturing Addition, an addition to the City of Rockwall, Texas according to the plat recorded in Cabinet H, Slide 237 of the said Plat Records;

THENCE, North 00 degrees, 29 minutes, 20 seconds West, departing the said northerly line of Justin Road and along the west line of said Lot 2, Block A and the east line of the said Lot 3, Block A, a distance of 674.79 feet to a 5/8-inch iron rod with "WESTWOOD PS" cap set in the southerly right-of-way line of UP/Dallas Garland N.E. Rail Road (a 100-foot wide right-of-way); said point being the northwest corner of said Lot 2, Block A and also being the northeast corner of said Lot 3, Block A;

THENCE, North 88 degrees, 04 minutes, 51 seconds East, departing the said west line of Lot 2, Block A and the said east line of Lot 3, Block A and along the north line of said Lot 2, Block A and the said southerly line of UP/Dallas Garland N.E. Rail Road, a distance of 584.53 feet to a "+" cut in concrete found at the intersection of said southerly line of UP/Dallas Garland N.E. Rail Road and the said westerly line of Industrial Boulevard; said point being the northeast corner of said Lot 2, Block A;

THENCE, departing the said north line of Lot 2, Block A and the said southerly line of UP/Dallas Garland N.E. Rail Road and along the said westerly line of Industrial Boulevard, the following five (5) calls:

South 00 degrees, 45 minutes, 22 seconds East, a distance of 81.19 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found at the beginning of a tangent curve to the left;

In a southeasterly direction, along said curve to the left, having a central angle of 27 degrees, 20 minutes, 30 seconds, a radius of 332.50 feet, a chord bearing and distance of South 14 degrees, 25 minutes, 36 seconds East, 157.17 feet, an arc distance of 158.67 feet to a "PK" nail found at the end of said curve;

South 28 degrees, 05 minutes, 51 seconds East, a distance of 87.64 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found at the beginning of a tangent curve to the right;

In a southeasterly direction, along said curve to the right, having a central angle of 26 degrees, 59 minutes, 12 seconds, a radius of 267.50 feet, a chord bearing and distance of South 14 degrees, 36 minutes, 15 seconds East, 124.83 feet, an arc distance of 125.99 feet to a 5/8-inch iron rod with "Pogue Eng & Dev" cap found at the end of said curve;

South 01 degrees, 06 minutes, 39 seconds East, a distance of 230.71 feet to the POINT OF BEGINNING;

CONTAINING, 443,847 square feet or 10.189 acres of land, more or less.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL
I the undersigned owner of the land shown on this plat, and designated herein as the ***SPR PACKAGING ADDITION, LOT 2R, BLOCK A****, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the SPR PACKAGING ADDITION have been notified and signed this plat.*

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. *No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.*
2. *Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.*
3. *The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.*
4. *The developer and subdivision engineer shall bear total responsibility for storm drain improvements.*
5. *The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.*
6. *No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or*

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; Our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

PLANNING AND ZONING COMMISSION CASE MEMO

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	November 26, 2019
APPLICANT:	Matt Lucus, PE; *Kimley Horn*
CASE NUMBER:	P2019-047; *Lots 1, 2, & 3, Block A, MTA Andrews Addition*

SUMMARY

Consider a request by Matt Lucas, PE of Kimley Horn on behalf of Kevin J. Lloyd of 2424 MTA Realty, LLC for the approval of Lots 1, 2, & 3, Block A, MTA Andrews Addition being a final plat of a 9.6990-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwest corner of Ridge Road [FM-740] and Turtle Cove Boulevard, addressed as 2424 Ridge Road, and take any action necessary.

PLAT INFORMATION

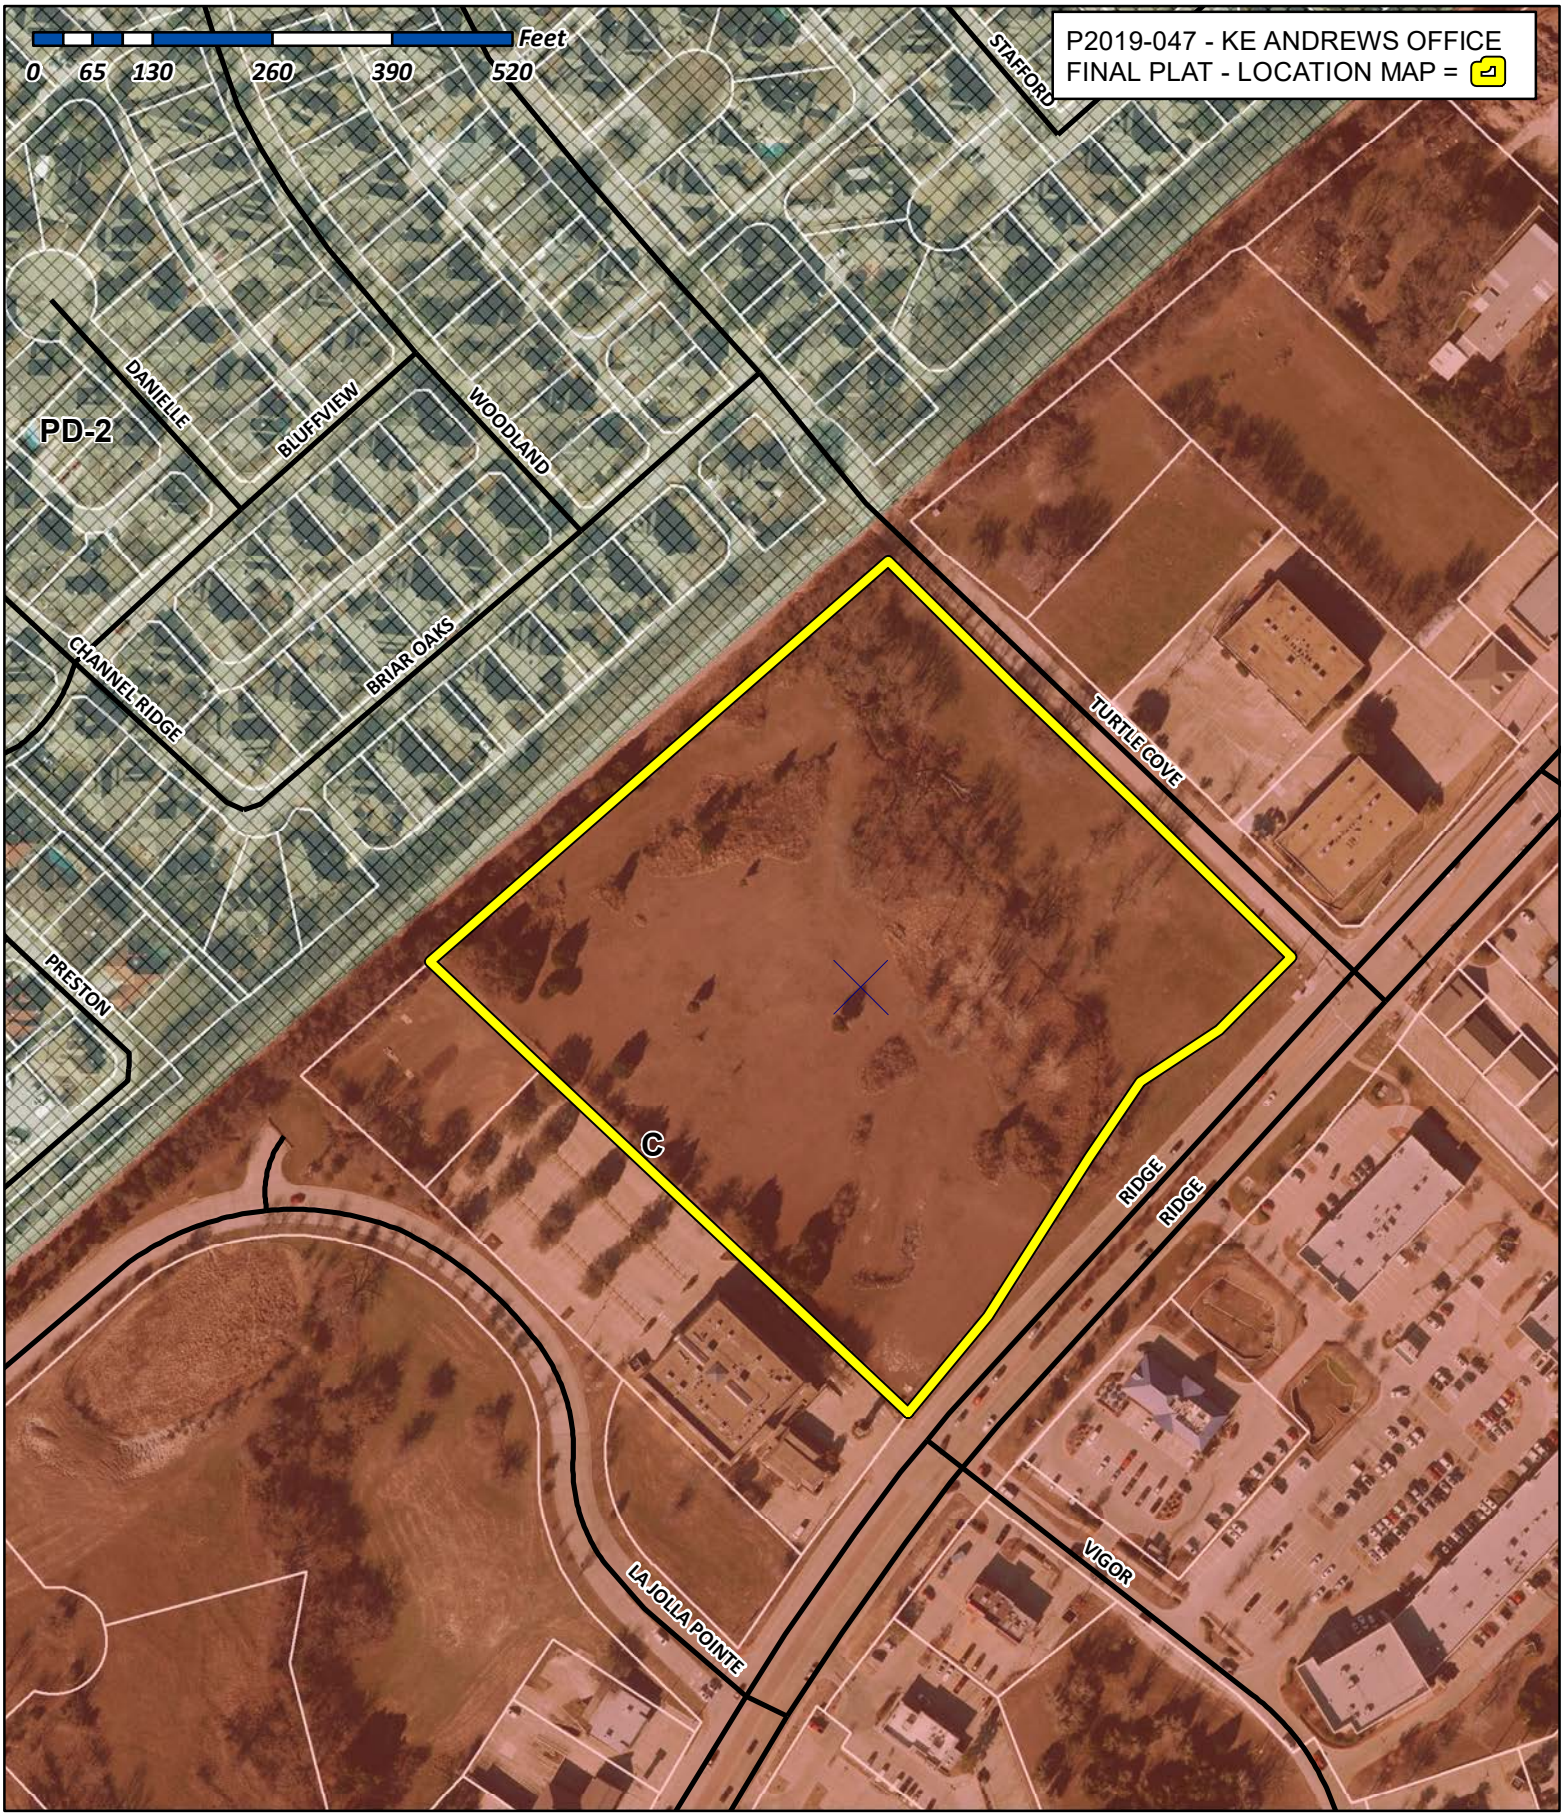
- ☑ The applicant is requesting the approval of a final plat for a 9.6990-acre tract of land [i.e. *Lots 1, 2, & 3, Block A, MTA Andrews Addition*] for the purpose of establishing firelane, public access, drainage, and utility easements for the purpose of constructing a four (4) story office complex. The *subject property* is zoned Commercial (C) District and is addressed as 2424 Ridge Road.

- ☑ On November 19, 2018, Andrew Bennett of BOKA, LLC submitted a request for a Specific Use Permit (SUP) [*i.e. Z2018-054*] to allow for a building to exceed 36-feet in height within the Scenic Overlay (SOV) District. On January 7, 2019, the City Council approved the Specific Use Permit (SUP) [*i.e. Ordinance No. 19-05, SUP No. S-203*].

- ☑ On June 14, 2019, Matt Lucas, PE of Kimley Horn on behalf of Kevin Lloyd of 2424 MTA Realty, LLC submitted a site plan [*i.e. Case No. SP2019-025*] proposing the construction of a four (4) story, 80,236 SF office complex. On September 10, 2019, the Planning and Zoning Commission approved the site plan and all exceptions requested. Additionally, the Planning and Zoning Commission included a condition that the outstanding tree mitigation balance had to be satisfied at the time of final plat. The applicant has provided an updated treescape and landscape plan that indicates the mitigation balance will be satisfied.

- ☑ The applicant is dedicating a 0.925-acre [*i.e. 40,299 SF*] portion as right-of-way for the purpose of constructing a two (2) lane roadway that will provide connection from Turtle Cove Boulevard to La Jolla Pointe Drive. The proposed roadway will be built to the *Minor Collector* specification; however, the paving width of this roadway will be reduced to a 37-foot back-to-back roadway. This will be done in conjunction with an existing facilities agreement that was approved by the City Council and signed by the adjacent property owner on June 22, 1994.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

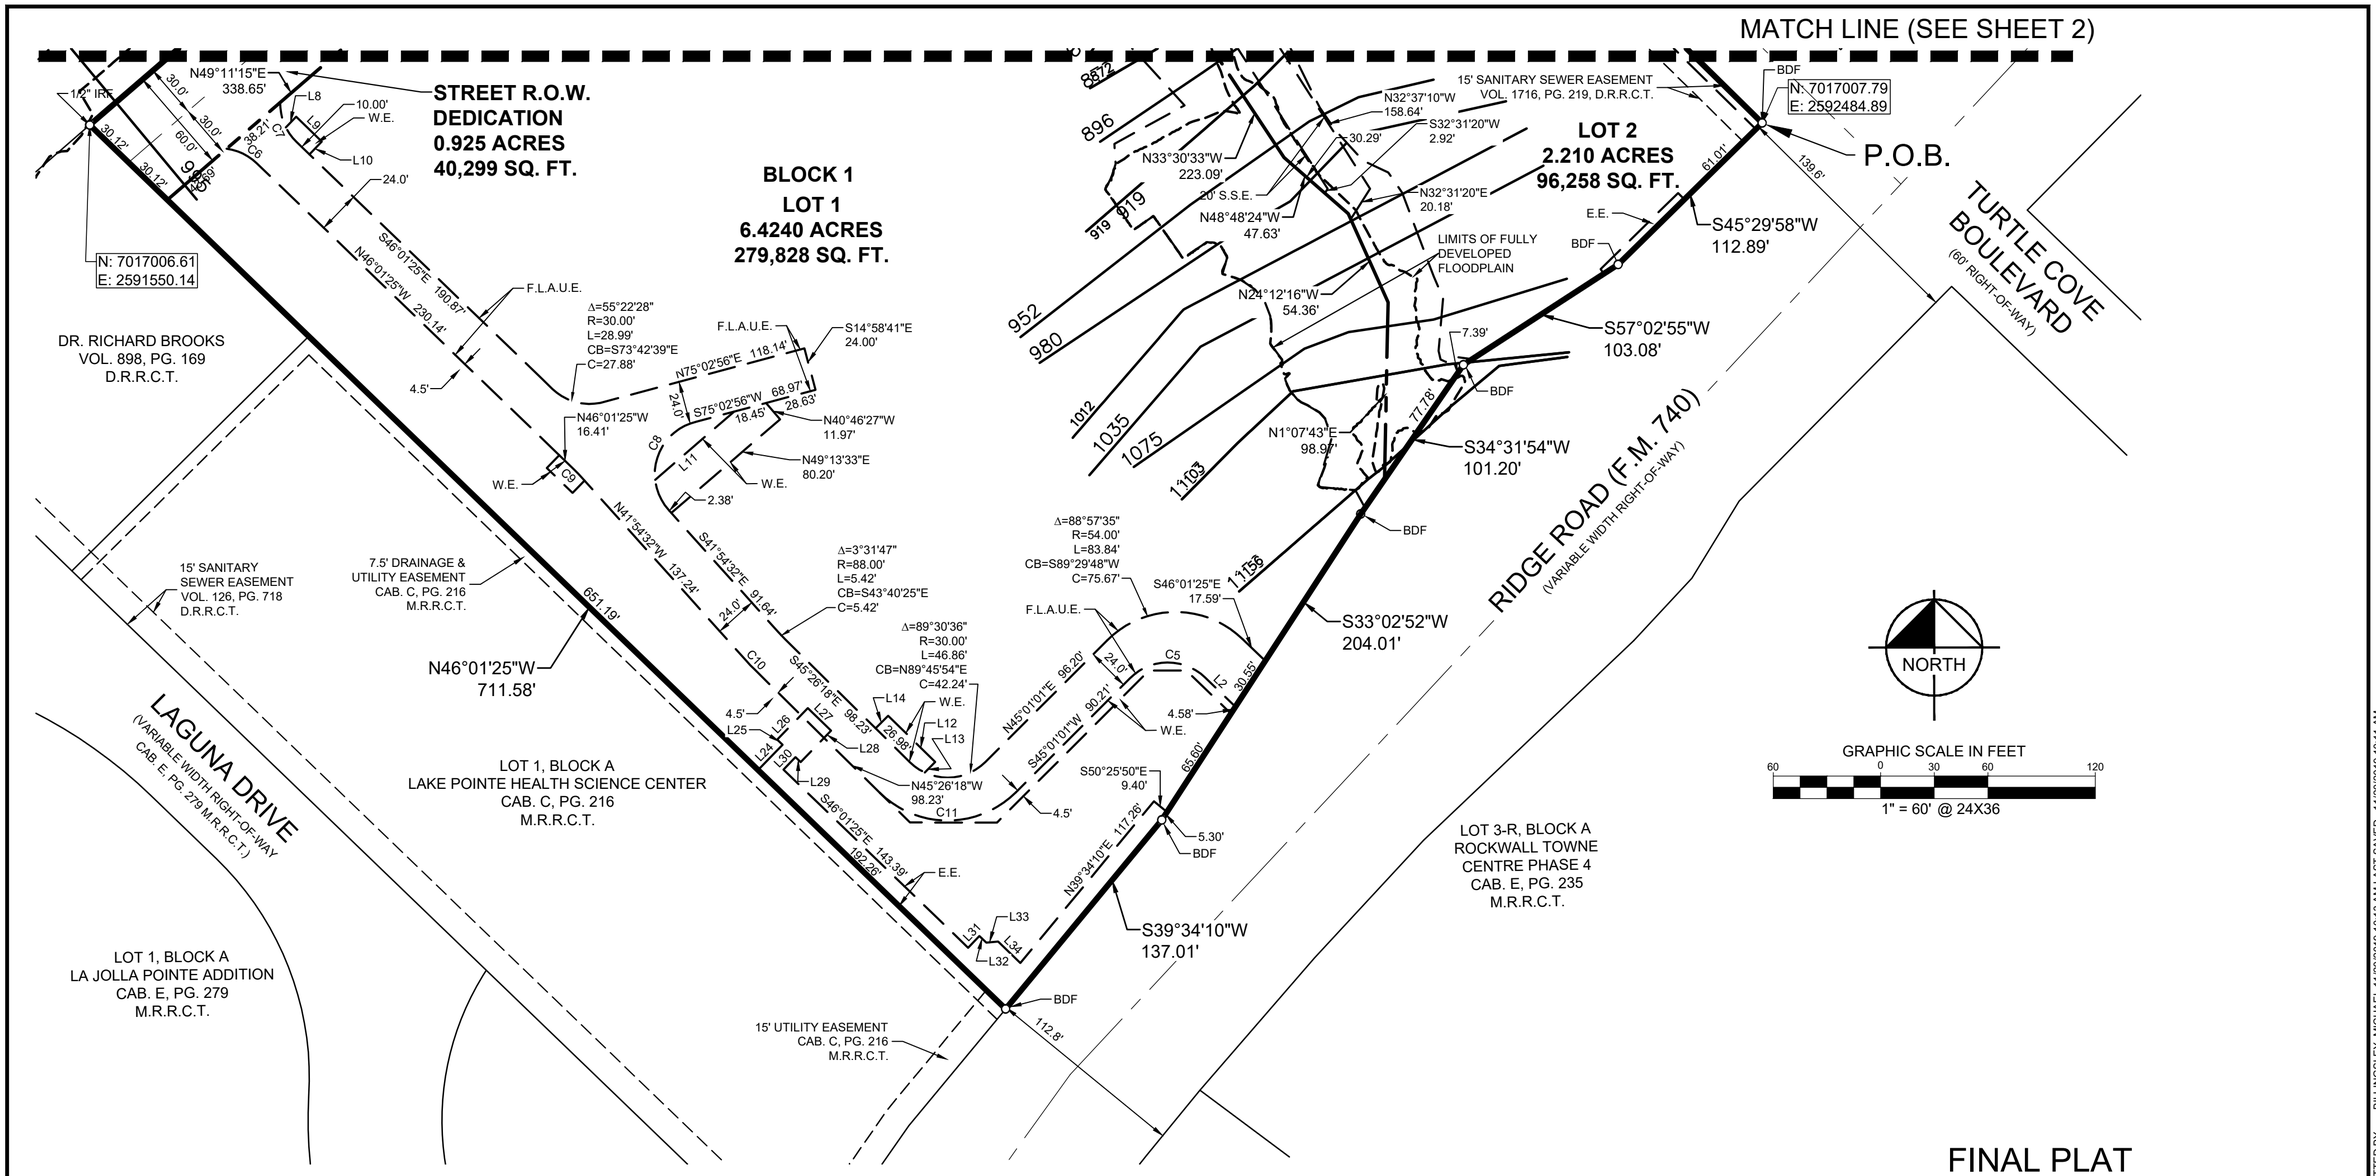


☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Lots 1, 2, & 3, Block A, MTA Andrews Addition,* staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;



(2) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS

COUNTY OF ROCKWALL

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as the **MTA Andrews Addition** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the **MTA Andrews Addition** have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

   Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

   Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

City of Rockwall - Article VIII - Landscape Standards	REQUIRED	PROVIDED
TOTAL LANDSCAPE AREA REQUIREMENT		
Minimum square footage requirements for landscaping shall be provided and maintained in the zoning districts. 279,442 SF x 15% = 41,916 SF	15% (41,916 SF)	30.5% (137,361 SF)
LANDSCAPE BUFFER STRIP		
A minimum 10' wide landscape buffer strip must be provided along the entire length of the portion of the perimeter of any commercial or industrial lot that abuts, without an alley or drive separation, or is directly across a public street from a residential zoning district.	Yes	Yes
For the Scenic Overlay, there shall be a minimum 20' landscape buffer.	Yes	Yes
A street landscape buffer strip with a minimum width of 10' must be provided along the entire length of the property to the developed that is adjacent to a major arterial or collector street.	Yes	Yes
STREET LANDSCAPING		
One large tree shall be provided in the required buffer in numbers equal to one tree for each 50 feet of street frontage (excluding driveways and access-ways) Due to existing utility conflicts along Ridge Road and Turtle Cove Boulevard, various trees have been placed around the site.		
KE Andrews Parkway - 486' / 50' = 10 Trees	10 Trees	10 Trees
For the Scenic Overlay, minimum two 4" caliper trees and four accent trees are required inside the 20' landscape buffer per 100 linear feet of R.O.W.		
Ridge Road - 334' / 50' = 7 Trees, 13 Accent Trees	7 Trees (4") 13 Accent Trees	7 Trees (4") 13 Accent Trees
SCREENING OF OFF-STREET LOADING DOCKS		
Off-street loading docks in commercial zoning classifications must be screening from: 1. All public streets 2. Any residential district that abuts or is directly across a public street or alley from the lot.	Yes	Yes
PARKING LOT LANDSCAPING		
Any parking lot with more than two rows of spaces shall have a minimum of 5% or 200 SF in the interior of the parking lot in landscaping. Such landscaping shall be counted toward the total landscaping. Total Parking Area = 106,191 sf	5% (5,310 sf)	10.6% (11,293 sf)
If parking and maneuvering space exceeds 20,000 square feet, one large canopy tree for every ten required parking spaces shall be required internal to the parking lot. (268 required parking spaces / 10 = 27 trees)	27 Trees	27 Trees
No required parking space may be located more than 80 feet from the trunk of a large canopy tree	Yes	Yes
All trees must be internal to the parking lot.	Yes	Yes
No tree shall be planted closer than 2 1/2' to the pavement.	Yes	Yes
DETENTION BASINS		
Detention basins shall have a minimum of one tree for each 750 square feet of dry land area OR detention areas that utilize native grasses in lieu of turf shall be exempt from the requirements stipulated by section 5.12.C. Instead, 1 shrub or ornamental grass per every 1,500 sf of dry land area shall be required to be planted on site or around the detention area. (20,813 sf / 1500 sf =14 Shrubs)	14 Shrubs and Native Grasses	14 Shrubs and Native Grasses

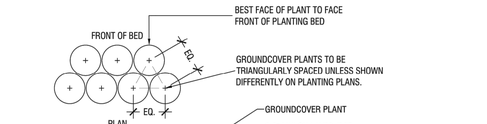
	IV	11	Ilex vomitoria / Yaupon Holly	Cont.	3" Cal.	8`-10` HT.	Multi-trunk (3-5 stems), Full and Matching

SHRUBS	CODE	QTY	BOTANICAL / COMMON NAME	CONT.	SIZE	SPACING	REMARKS
	TS	14	Leucophyllum frutescens / Texas Sage	Cont.	30" h x 24" w	48" O.C.	Full and Matching

GROUND COVERS	CODE	QTY	BOTANICAL / COMMON NAME	CONT	SIZE	SPACING	REMARKS
	SOD	TBD	Cynodon dactylon / Bermuda Grass	-			Sod to have tight, sand filled joints and be free of weeds.
	WF	TBD	Native Mix / Wildflower Seed	-			Prepare soiid and broadcast at recommended rate



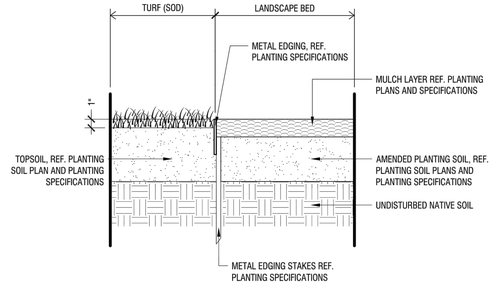
NOTE:

TOTAL CALIPER INCHES BEING ADDED FOR TREE MITIGATION = 241"

PER CONVERSATION WITH DAVID GONZALES AND THE CITY OF ROCKWALL ON DATE 07/11/2019, ACCENT TREES WITH A DBH OF 3" AND A MATURE HEIGHT OF 15' ARE TO BE COUNTED TOWARDS CITY OF ROCKWALL TREE REPLACEMENT/MITIGATION REQUIREMENTS.

PLANTING NOTES:

1. CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE LOCATIONS OF ALL UNDERGROUND UTILITIES, PIPES, STRUCTURES, AND LINE RUNS IN THE FIELD PRIOR TO THE INSTALLATION OF ANY PLANT MATERIAL.
2. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ADVISE THE LANDSCAPE ARCHITECT OF ANY CONDITION FOUND ON SITE WHICH PERMITS INSTALLATION AS SHOWN ON THESE DRAWINGS.
3. ALL PLANT MATERIAL SHALL BE MAINTAINED IN A HEALTHY, GROWING CONDITION AND MUST BE REPLACED WITHIN 30 DAYS WITH PLANT MATERIAL OF THE SAME VARIETY AND SIZE IF DAMAGED, DESTROYED, OR REMOVED.
4. CONTRACTOR SHALL BE RESPONSIBLE FOR FINE GRADING AND REMOVAL OF DEBRIS PRIOR TO PLANTING IN ALL AREAS.
5. FINAL FINISH GRADING SHALL BE REVIEWED AND APPROVED BY THE LANDSCAPE ARCHITECT. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY ADDITIONAL TOPSOIL REQUIRED TO CREATE A SMOOTH CONDITION PRIOR TO PLANTING.
6. CONTRACTOR SHALL VERIFY ALL PLANT QUANTITIES. ALL PLANT QUANTITIES ARE LISTED FOR INFORMATION PURPOSES ONLY. IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROVIDE FULL COVERAGE IN ALL PLANTING AREAS AS SHOWN ON THE PLANS AND SPECIFIED IN THE PLANT SCHEDULE.
7. CONTRACTOR TO PROVIDE STEEL EDGING BETWEEN ALL PLANTING BEDS AND TURF AREAS UNLESS OTHERWISE INDICATED ON THE DRAWINGS.
8. ALL PLANT MATERIAL SHALL CONFORM TO THE SPECIFICATIONS GIVEN IN THE PLANT SCHEDULE, PLANTING DETAILS, AND PLANTING SPECIFICATIONS.
9. ALL PLANT MATERIAL SHALL MEET INDUSTRY STANDARDS AS INDICATED IN THE CURRENT EDITION OF THE AMERICAN STANDARD FOR NURSERY STOCK (ANSI Z60.1).
10. ALL PLANT MATERIAL SUBSTITUTIONS SHALL BE APPROVED BY LANDSCAPE ARCHITECT PRIOR TO PURCHASE.
11. CONTRACTOR IS RESPONSIBLE FOR ALL COORDINATION WITH OTHER CONTRACTORS ON SITE AS REQUIRED TO ACCOMPLISH ALL PLANTING OPERATIONS.
12. ALL PLANTING AREAS SHALL RECEIVED SOIL AMENDMENTS AS NOTED ON THE PLANTING SOIL PLANS, DETAILS, AND SPECIFICATIONS.
13. PLANT MATERIAL SHALL BE PRUNED PER PLANTING SPECIFICATIONS UNLESS OTHERWISE NOTED ON DRAWINGS.
14. PLANTING AREAS SHALL BE KEPT FREE OF TRASH, WEEDS, DEBRIS, AND DEAD PLANT MATERIAL.
15. ALL LIME STABILIZED SOIL AND INORGANIC SELECT FILL FOR BUILDING OR PAVING CONSTRUCTION SHALL BE REMOVED FROM ALL PLANTING BEDS TO A MINIMUM DEPTH OF 24" UNLESS OTHERWISE NOTED ON PLANTING SOILS PLANS. REPLACE MATERIAL REMOVED WITH IMPORTED TOPSOIL.
16. TREES OVERHANGING PEDESTRIAN WALKS SHALL BE LIMBED TO A HEIGHT OF SEVEN FEET (7'). TREE OVERHANGING PUBLIC STREETS AND FIRELANES SHALL BE LIMBED TO A HEIGHT OF FOURTEEN FEET (14').
17. TREES PLANTED NEXT TO ACCESSIBLE ROUTES AND ACCESSIBLE AREAS SHALL BE LIMBED TO 7'6" (80" MIN.) AFF.
18. ALL PROPSED TREES SHALL BE STAKED WITH AN AT-GRADE ROOT BALL SECURING SYSTEM AS SHOWN IN THE PLANTING DETAILS AND SPECIFICATIONS. NO ABOVE-GROUND STAKING SYSTEMS, GUY WIRES/WIRES, HOSES, STRAPS, POSTS (METAL OR WOOD) SHALL BE ALLOWED UNLESS AURTHORIZED IN WRITING BY THE LANDSCAPE ARCHITECT.



NOTES:
1. REF. PLANTING SPECIFICATIONS FOR ADDITIONAL INFORMATION.
2. REF. PLANT SCHEDULE AND PLANTING PLANS FOR SPACING/LAYOUT.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	Michael Guerrero; *Atticus Harbor Village, LLC*
DATE:	November 26, 2019
SUBJECT:	MIS2019-015; *Alternative Tree Mitigation Settlement Agreement*

The applicant, Michael Guerrero of Atticus Harbor Village, LLC, is requesting approval of an alternative tree mitigation settlement agreement for the subject property. On December 13, 2016, the Planning and Zoning Commission approved two (2) site plans for the subject property laying out a 228-unit condominium development and a 48-unit townhome development [*i.e. SP2016-030 & SP2016-031*]. At the time of approval, the treescape plans for these cases indicated a total of 3,561 caliper-inches of trees would be removed from the subject property. The approved landscape plans for these cases indicated a total of 1,032 caliper inches would be added back to the subject property. This left an outstanding mitigation balance of 2,529-inches.

To address the outstanding balance the applicant has provided an invoice to staff indicating the cost of providing the City with 843, three (3) caliper inch trees (*i.e. 596 Cedar Elms & 247 Eastern Red Cedars x 3" = 2,529"*). The invoice includes the cost of the trees and a delivery fee for a total of $125,000. According to Section 5.6 of Article IX, *Tree Preservation*, of the *Unified Development Code* (UDC), the mitigation balance may be satisfied by one (1) or a combination of the following:

(1) The developer can provide trees on site to off-set the mitigation balance.
(2) The developer may petition the Parks and Recreation Department to accept the required number of trees to off-set the mitigation balance.
(3) Tree preservation credits may be purchased at a rate of $200.00 per inch for up to 20 percent of the total replacement inches. Additionally, if the developer plants a tree on the property, the developer would be eligible for a reduction in the cost of tree preservation credits of up to 50 percent (*i.e. $100.00 per inch*).

Based on these choices, the applicant could purchase 20% of the total replacement inches (*i.e. 505" = $50,580.00*), which would leave a mitigation balance of 2,023-inches. The remaining mitigation balance would translate to 674, three (3)-caliper inch trees, which would need to be provided to the Parks and Recreations Department for off-site planting. In lieu of providing the trees the applicant has submitted an offer indicating they would like to settle the mitigation balance through an alternative tree mitigation settlement agreement.

Section 5.7, *Alternative Tree Mitigation Settlement Agreements,* of Article IX, *Tree Preservation*, of the Unified Development Code (UDC), this gives the City Council the ability to approve an alternative tree mitigation plans on a case-by-case basis pending a recommendation from the Planning and Zoning Commission. Should this request be approved, the applicant is proposing to satisfy the mitigation balance by providing a check in the amount of $125,000. These funds will be deposited in the City's tree mitigation fund and will be used for planting trees in the city's parks, medians, and other similar areas. If the City Council does not approve an alternative tree mitigation settlement agreement, the applicant intends to provide the full balance to the Parks Department to be used in other areas of the City.

Should the Planning and Zoning Commission have any questions staff will be available at the *November 26, 2019* meeting.

TO:	Planning and Zoning Commission
FROM:	Korey Brooks; Senior Planner
DATE:	November 26, 2019
SUBJECT:	Z2019-025; *Amendment to Article IV, Permissible Uses, of the UDC to amend Rental, Sales, and Service of Heavy Machinery*

On November 4, 2019, the City Council directed staff to amend the *Land Use Standards* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) to allow the *Rental, Sales, and Service of Heavy Machinery* land use with a Specific Use Permit (SUP) in a Commercial (C) District. This direction came in response to a request submitted by Scott Mommer of Lars Anderson & Associates, Inc. to amend the code to allow a *Tool Rental Center* and in conjunction with an existing hardware store (*i.e. Home Depot*). The proposed facility will operate as a tool rental center (*i.e. power drills, saws, electric sanders*), which is permitted by-right in a Commercial (C) District. In addition to the rental of tools, the facility will also offer the rental of heavy equipment. Currently, the Unified Development Code (UDC) only permits *Rental, Sales, and Service of Heavy Machinery* in a Heavy Commercial (HC) or Heavy Industrial (HI) District by-right and in a Light Industrial (LI) District with a Specific Use Permit (SUP).

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications,* of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. The schedule for this text amendment is as follows:

Planning and Zoning Work Session: November 26, 2019
Planning and Zoning Public Hearing: December 10, 2019
City Council Public Hearing/First Reading: December 16, 2019
City Council Second Reading: January 6, 2020

Staff will send out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. Should the Planning and Zoning Commission have any questions staff will be available at the meeting on *November 26, 2019*.

RE: Home Depot – Amended Site Plan – Tool Rental Center (TRC) & THD Rental Equipment
765 E-I30, Rockwall, TX 75087

Korey,

On behalf of Home Depot, our Firm is submitting for an Amended Site Plan to Permit a proposed Tool Rental Center (TRC) and THD Rental Equipment Display. The general operations for the TRC is the rental of tools associated with general construction, which could range from a drill to a larger power equipment. This operation is utilized by both our general customers and contractors. In conjunction with the TRC, Home Depot is requesting to utilize approximately 10 parking stalls identified on the proposed Site Plan to store and display compact power rental equipment that can be rented through the TRC. Such equipment are items like small trailers, see the attached file for a list of example compact power equipment. It should be noted that the HD Rental equipment is owned and operated by Home Depot and there are no Third-Party Entities involved with this accessory use. In addition, no service, repairs, or maintenance or done on THD Rental equipment at the store, as Home Depot owns various locations where they are serviced by Home Depot at their maintenance facility throughout the region.

Attached you will find the following submittal items:

- Application signed by Home Depot
- Four (4) full size (24” x 36”) proposed Site Plan
- Four (4) full size (24” x 36”) proposed Building Elevation/Colored Rendering
- Check # 1238 for $100.00

In advance, we greatly appreciate the City’s review of the proposed project and feel free to contact me with any questions by email at smommer@larsandersen.com or by cell at 559-978-7060.

Sincerely,
LARS ANDERSEN & ASSOCIATES, INC.

(11/21/2019 6:43 PM DG)
P2019-043: Master Plat – Saddle Star South Addion
Please address the following comments (M= Mandatory Comments; I = Informaonal Commen ts).

I.1 This is a request for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 176 single-family residenal lots on a 70.408-acre tract of land idenfied as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 Please change the case number to P2019-043 in the lower right hand corner when subming the revised master plat.

M.4 The final plat shall conform to all standards and requirements of Planned Development District 79 (PD-79) [i.e. Ordinance No. 19-40], the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspecons , and Fire Department as indicated in the Project Plan Review document.

I.5 Street names must be approved prior to the filing of the final plat (i.e. Jennifer Lane and Judith Drive). Contact Lance Singleton, GIS Supervisor – lsingleton@rockwall.com for approval.

I.6 Correct/include the following data under the Land Use Data Table as follows:
a) Remove “Typical” from the lot size designaon .
b) Add: Lot Type A - 70’ x 125’
c) Add: Lot Type B – 80’ x 125’
d) Add: Zoned Planned Development District No. 79 (PD-79)

M.7 Indicate and label the drainage areas and proposed storm drains from preliminary drainage exhibit onto the Master Plat without the calculations. Donot use heavy line drawing.

M.8 Trail rest area to be indicated at the intersection of Randas Way and John King Boulevard.

I. 9 Provide a hatch to the 10-foot hike and bike trail to better delineate. Addionally , the 10-foot hike and bike trail is to be within a Pedestrian Access Easement.

I.10 Provide a label indicang th e SF/Acres for all open space areas.

M.11 The street cross secons ar e to be indicav e of the Engineering Departments Standards of Design Manual. Correct detail.

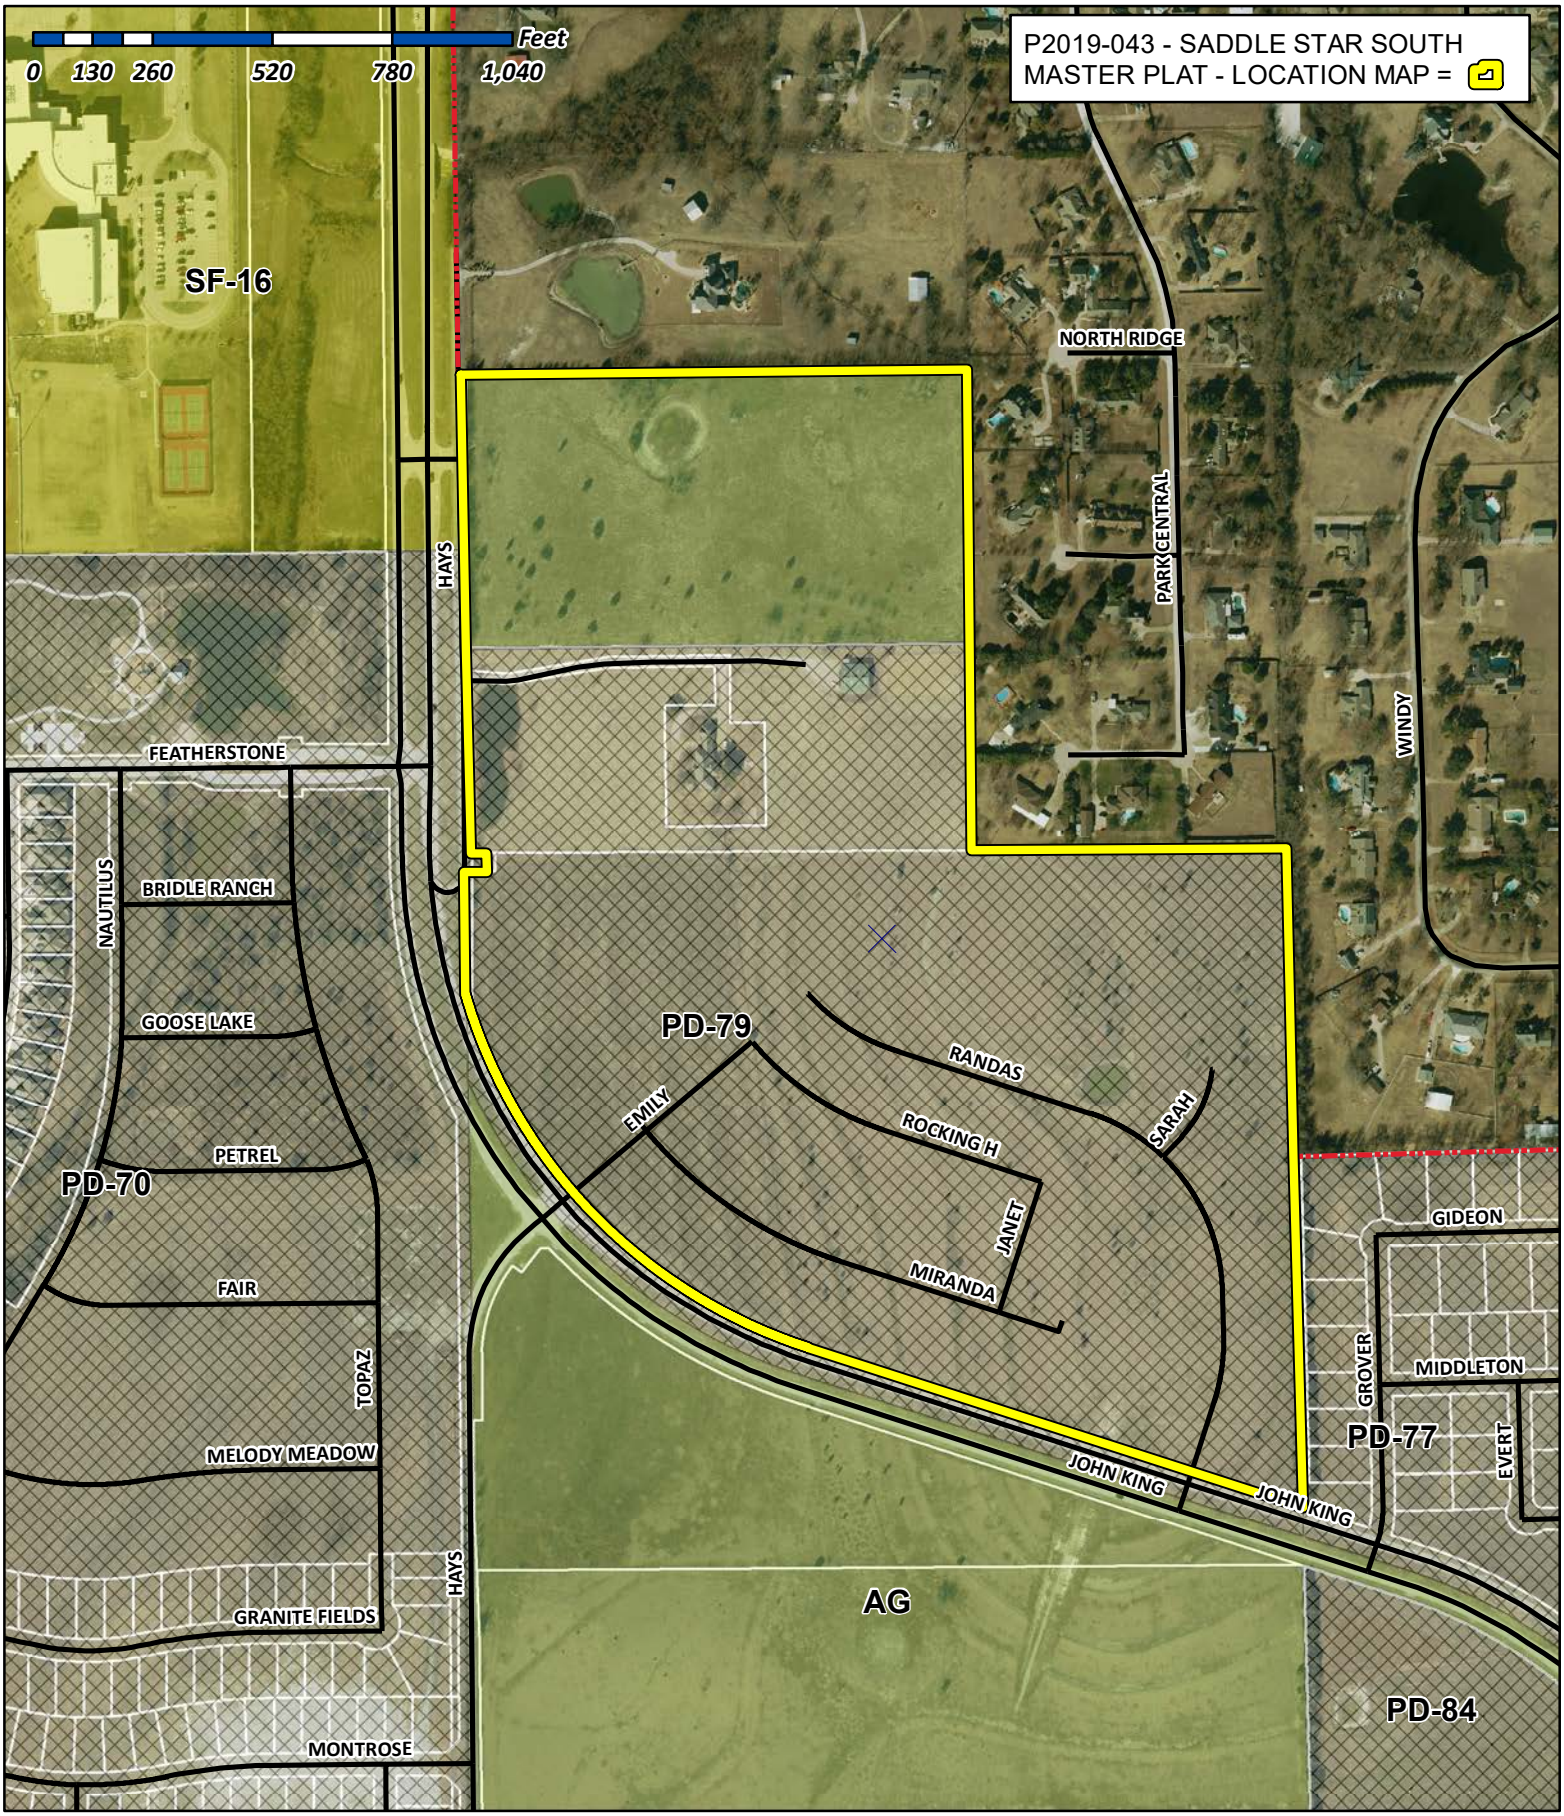
I.12 Do you have a detail of the proposed amenity center for the Parks and Recreaons Boar d to review? If so, please provide prior to the December 3, 2019 meeng.

I.13 Staff has identified the aforemenoned it ems necessary to continue the submi al process. Please make these revisions and correcons , and provide any addional inf ormation that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for the applicants to submit revisions as

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

soon as possible to give staff ample time to review the case prior to the December 10, 2019 Planning and Zoning Meeting.

**The Planning and Zoning Work Session will be held on November 26, 2019. **



I.14 The City Council meeting for this case is scheduled to be held on December 16, 2019.

I.15 The Parks and Recreation Board Meeting for this case is scheduled to be held on December 3, 2019.

I.16 Please provide one (1) large copy [24" X 36" FOLDED] and one PDF version for a subsequent/final review by staff.

I.17 Please note that failure to address all comments provided by staff by 3:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.18 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

(11/20/2019 3:28 PM DG)
P2019-045: Final Plat – Stone Creek, Phase X Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive.

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 Please change the case number to P2019-045 in the lower right hand corner of all pages for the revised plat submittal.

I.4 The final plat shall conform to all standards and requirements of Planned Development District 70 (PD-70) [i.e. Ordinance No. 19-41], the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

I.5 If there are any further street names changes prior to the plat being filed, contact Lance Singleton, GIS Supervisor – lsingleton@rockwall.com for approval.

I.6 Provide a label for all open space areas to read as follows: 'Open Space To Be Maintained by the Homeowner's Association (HOA).' Although line 5 under 'Notes' indicates HOA responsibility, the label as requested is to provide consistency throughout this development.

I.7 Consider changing all year dates on pages 2 & 3 of the plat to a blank line in order to fill in the year or use 2020. This is for filing purposes as the plat may be filed in the year 2020.

M.8 Correct the Owner's Certificate by changing statement No. 6 and including the language in statement number 7 as found on the application package, which reads as follows:

7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements.

(Section 38-10, of Chapter 38, of the Municipal Code of Ordinances)

I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for the applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the December 10, 2019 Planning and Zoning Meeting.

**The Planning and Zoning Work Session will be held on November 26, 2019. **

I.10 The City Council meeting for this case is scheduled to be held on December 16, 2019.

I.11 The Parks and Recreation Board Meeting for this case is scheduled to be held on December 3, 2019.

I.12 Please provide one (1) large copy [18" X 24" FOLDED] and one PDF version for a subsequent/final review by staff.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

I.13 Please note that failure to address all comments provided by staff by3:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.14 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.

I.15 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the STONE CREEK PHASE X, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the STONE CREEK PHASE X, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

_____
John Arnold
Director

STATE OF TEXAS
COUNTY OF DALLAS
Before me, the undersigned authority, on this day personally appeared JOHN ARNOLD, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated. Given upon my hand and seal of office this_____day of_____, 2019.

Notary Public in and for the State of Texas My Commission Expires: _____

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

_____ _____
Planning & Zoning Commission Date

APPROVED

I hereby certify that the above and foregoing plat of an addition to the City of Rockwall, Texas, was approved by the City Council of the City of Rockwall on the_____day of _____, 2019.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the Counrt Clerk of Rockwall, County, Texas, within one hundred eighty (180) days from said date of final approval.

WITNESS OUR HANDS, this_____day of_____, 2019.

LEGAL DESCRIPTION

BEING, a tract of land situated in the W.T. DeWeese Survey, Abstract No. 71 and the S. King Survey, Abstract No. 131 in the City of Rockwall, Rockwall County, Texas, being part of a tract of land as described in Stone Creek Balance LTD., Clerks File No. 2007-00375394 and Stone Creek SF, LTD., Clerks File No. 2007-00375398 in said Deed Records, and being more particularly described as follows:

BEGINNING, at a 1/2 inch iron rod found at the northeast corner of Stone Creek Phase IX, an addition to the City of Rockwall, as described in Cab._Pg,_in the Plat Records of Rockwall County, Texas, and being in Hays Road;

THENCE, South 89° 24'25" West, along the north line of said Stone Creek Phase IX, for a distance of 222.00 feet, to a 1/2 inch iron rod found;

THENCE, South 00° 35'35" East, continuing along said north line, for a distance of 21.11 feet, to a 1/2 inch iron rod found;

THENCE, South 89° 24'25" West, continuing along said north line, for a distance of 226.33 feet, to a 1/2 inch iron rod found at the point of curvature of a curve to the left, having a radius of 1560.00 feet, a central angle of 08° 38'43";

THENCE, continuing along said north line and with said curve to the left for an arc distance of 235.39 feet (Chord Bearing South 85° 05'03" West - 235.16 feet), to a 1/2 inch iron rod found at the point of reverse curvature of a curve to the right, having a radius of 880.00 feet, a central angle of 36° 03'38";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 553.85 feet (Chord Bearing North 81° 12'30" West - 544.75 feet), to a 1/2 inch iron rod found on a non-tangent curve to the right, having a radius of 475.00 feet, a central angle of 01° 01'09";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 8.45 feet (Chord Bearing North 28° 02'57" East - 8.45 feet), to a 1/2 inch iron rod found;

THENCE, North 61° 26'29" West, continuing along said north line, for a distance of 201.15 feet, to a 1/2 inch iron rod found in the east line of Stone Creek Phase IV, an addition to the City of Rockwall, as described in Cab. H, Pgs. 317-318, in said Plat Records and being the northwest corner of said Stone Creek Phase IX;

THENCE, North 32° 48'57" East, along the east line of said Stone Creek Phase IV, for a distance of 68.38 feet, to a 1/2 inch rod found at the most easterly northeast corner of said Stone Creek Phase IV;

THENCE, North 65° 00'04" West, along the north line of said Stone Creek Phase IV, for a distance of 283.02 feet, to a 1/2 inch iron rod found, being in a south line of Stone Creek Phase I, an addition to the City of Rockwall, as described in Cabinet G, Pages 359-365 in said Plat Records, being on a non-tangent curve to the left, having a radius of 1030.00 feet, a central angle of 37° 07'00";

THENCE, departing the north line of said Stone Creek Phase IV and along the south line of said Stone Creek Phase I and with said curve to the left for an arc distance of 577.36 feet (Chord Bearing North 58° 24'09" East - 569.83 feet), to a 1/2 inch iron rod found, being the southeast corner of Lot 10 Block I out of said Stone Creek Phase I, same being the south line of Stone Creek Phase IIA, an addition to the City of Rockwall, as described in Cabinet H, Pages 293-294 in said Plat Records;

THENCE, South 59° 19'11" East, departing the south line of said Stone Creek Phase I and along the south line of said Stone Creek Phase IIA, for a distance of 164.69 feet, to a 1/2 inch iron rod found being the southwest corner of said Stone Creek Phase IIA;

THENCE, North 30° 40'49" East, along the east line of said Stone Creek Phase IIA, for a distance of 90.28 feet, to a 1/2 inch iron rod found being the point of curvature of a curve to the left, having a radius of 1125.00 feet, a central angle of 24° 31'11";

THENCE, continuing along said east line and with said curve to the left for an arc distance of 481.44 feet (Chord Bearing North 11° 40'00" East 477.78 feet), to a 1/2 inch iron rod found at the point of tangency;

THENCE, North 00° 35'35" West, continuing along said east line, for a distance of 460.08 feet, to a 1/2 inch iron rod found being in the south line of Featherstone Drive, an addition to the City of Rockwall, as described in Cab. H, Pgs. 33-34, in said Plat Records;

THENCE, North 89° 25'13" East, departing said east line and with said south line, for a distance of 50.00 feet, to a 1/2 inch iron rod found;

THENCE, North 00° 35'35" West, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 133.20 feet, to a 1/2 inch iron rod found, being on a curve to the left, having a radius of 110.00 feet, a central angle of 34° 10'49";

THENCE, continuing along said south line and with said curve to the left for an arc distance of 65.62 feet (Chord Bearing South 73° 29'23" East - 64.65 feet), to a 1/2 inch iron rod found, being the point of tangency;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 125.01 feet, to a 1/2 inch iron rod found;

THENCE, South 00° 35'35" East, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 50.00 feet, to a 1/2 inch iron rod found;

THENCE, North 00° 35'35" West, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 190.00 feet, to a ½ inch iron rod found at the most easterly southeast corner of said Featherstone Drive and being in the west line of John King Boulevard (120' R.O.W.), as described in Doc. No. 2007-0038477 in said Deed Records;

THENCE, South 00° 35'35" East, along the west line of said John King Boulevard, for a distance of 142.99 feet, to a 1/2 inch iron rod found being the point of curvature of a curve to the left, having a radius of 1260.00 feet, a central angle of 20° 22'32";

THENCE, continuing along said west line and with said curve to the left for an arc distance of 448.08 feet (Chord Bearing South 10° 46'51" East - 445.72 feet), to a 1/2 inch iron rod found;

THENCE, South 19° 17'03" East, continuing along said west line, for a distance of 34.76 feet, to a nail found;

THENCE, South 15° 03'48" East, continuing along said west line, for a distance of 61.67 feet, to a nail found on a non-tangent curve to the left, having a radius of 1271.00 feet, a central angle of 05° 21'14";

THENCE, continuing along said west line and with said curve to the left for an arc distance of 118.77 feet (Chord Bearing South 27° 58'51" East - 118.72 feet), to a nail found in the east line of said Stone Creek Balance, being in said Hays Road;

THENCE, South 00° 35'35" East, departing said west line and along the east line of said Stone Creek Balance and with said Hays Road, for a distance of 191.20 feet, to a 1/2 inch iron rod found at the most northerly corner of Part 2, R.O.W. Dedication, as described in Doc. No. 2007-00384711, in said Deed Records being on a curve to the left, having a radius of 380.00 feet, a central angle of 22° 31'28";; THENCE, South 89° 24'25" West, along the north line of said Stone Creek Phase IX, for a distance of 222.00 feet,to a 1/2 inch iron rod found;

THENCE, departing the east line of said Stone Creek Balance Tract and continuing along Hays Road with the west line of said Part 2 tract and along said curve to the left having an arc distance of 149.39 feet (Chord Bearing South 10° 53'46" West 148.43 feet), to a 1/2 inch iron rod found;

THENCE, South 00° 21'58" East, continuing along said lines, for a distance of 136.79 feet, to a nail found at the southwest corner of said Part 2 tract;

THENCE, North 89° 38'02" East, along the south line of said Part 2 tract, for a distance of 30.11 feet, to a 1/2 inch iron rod found at the southeast corner of said Part 2 tract, being in east line of said Stone Creek Balance tract and said Hays Road;

THENCE, South 00° 35'35" East, along the east line of said Stone Creek Balance tract and with Hays Road, for a distance of 339.01 feet, to the POINT OF BEGINNING and containing 36.428 acres of land.

SURVEYOR CERTIFICATE

I, WARREN L. CORWIN, do hereby certify that the plat shown hereon accurately represents the results of an on-the-ground survey made under my direction and supervision and all corners are as shown thereon and there are no encroachments, conflicts, protrusions or visible utilities on the ground except as shown and said plat has been prepared in accordance with the platting rules and regulations of the City Plan Commission of the City of Rockwall, Texas.

CASE NO. P2019-035 SHEET 3 OF 3

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the STONE CREEK PHASE X, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the STONE CREEK PHASE X, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

John Arnold
Director

STATE OF TEXAS
COUNTY OF DALLAS
Before me, the undersigned authority, on this day personally appeared JOHN ARNOLD, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated. Given upon my hand and seal of office this_____day of_____, 2019.

Notary Public in and for the State of Texas My Commission Expires: _____

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

_____ _____
Planning & Zoning Commission Date

APPROVED

I hereby certify that the above and foregoing plat of an addition to the City of Rockwall, Texas, was approved by the City Council of the City of Rockwall on the_____day of_____, 2019.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the Counrt Clerk of Rockwall, County, Texas, within one hundred eighty (180) days from said date of final approval.

WITNESS OUR HANDS, this_____day of_____, 2019.

P2019-046; Breezy Hill, Phase XI Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a preliminary plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2019-046) in the lower right-hand corner of all pages on future submittals.

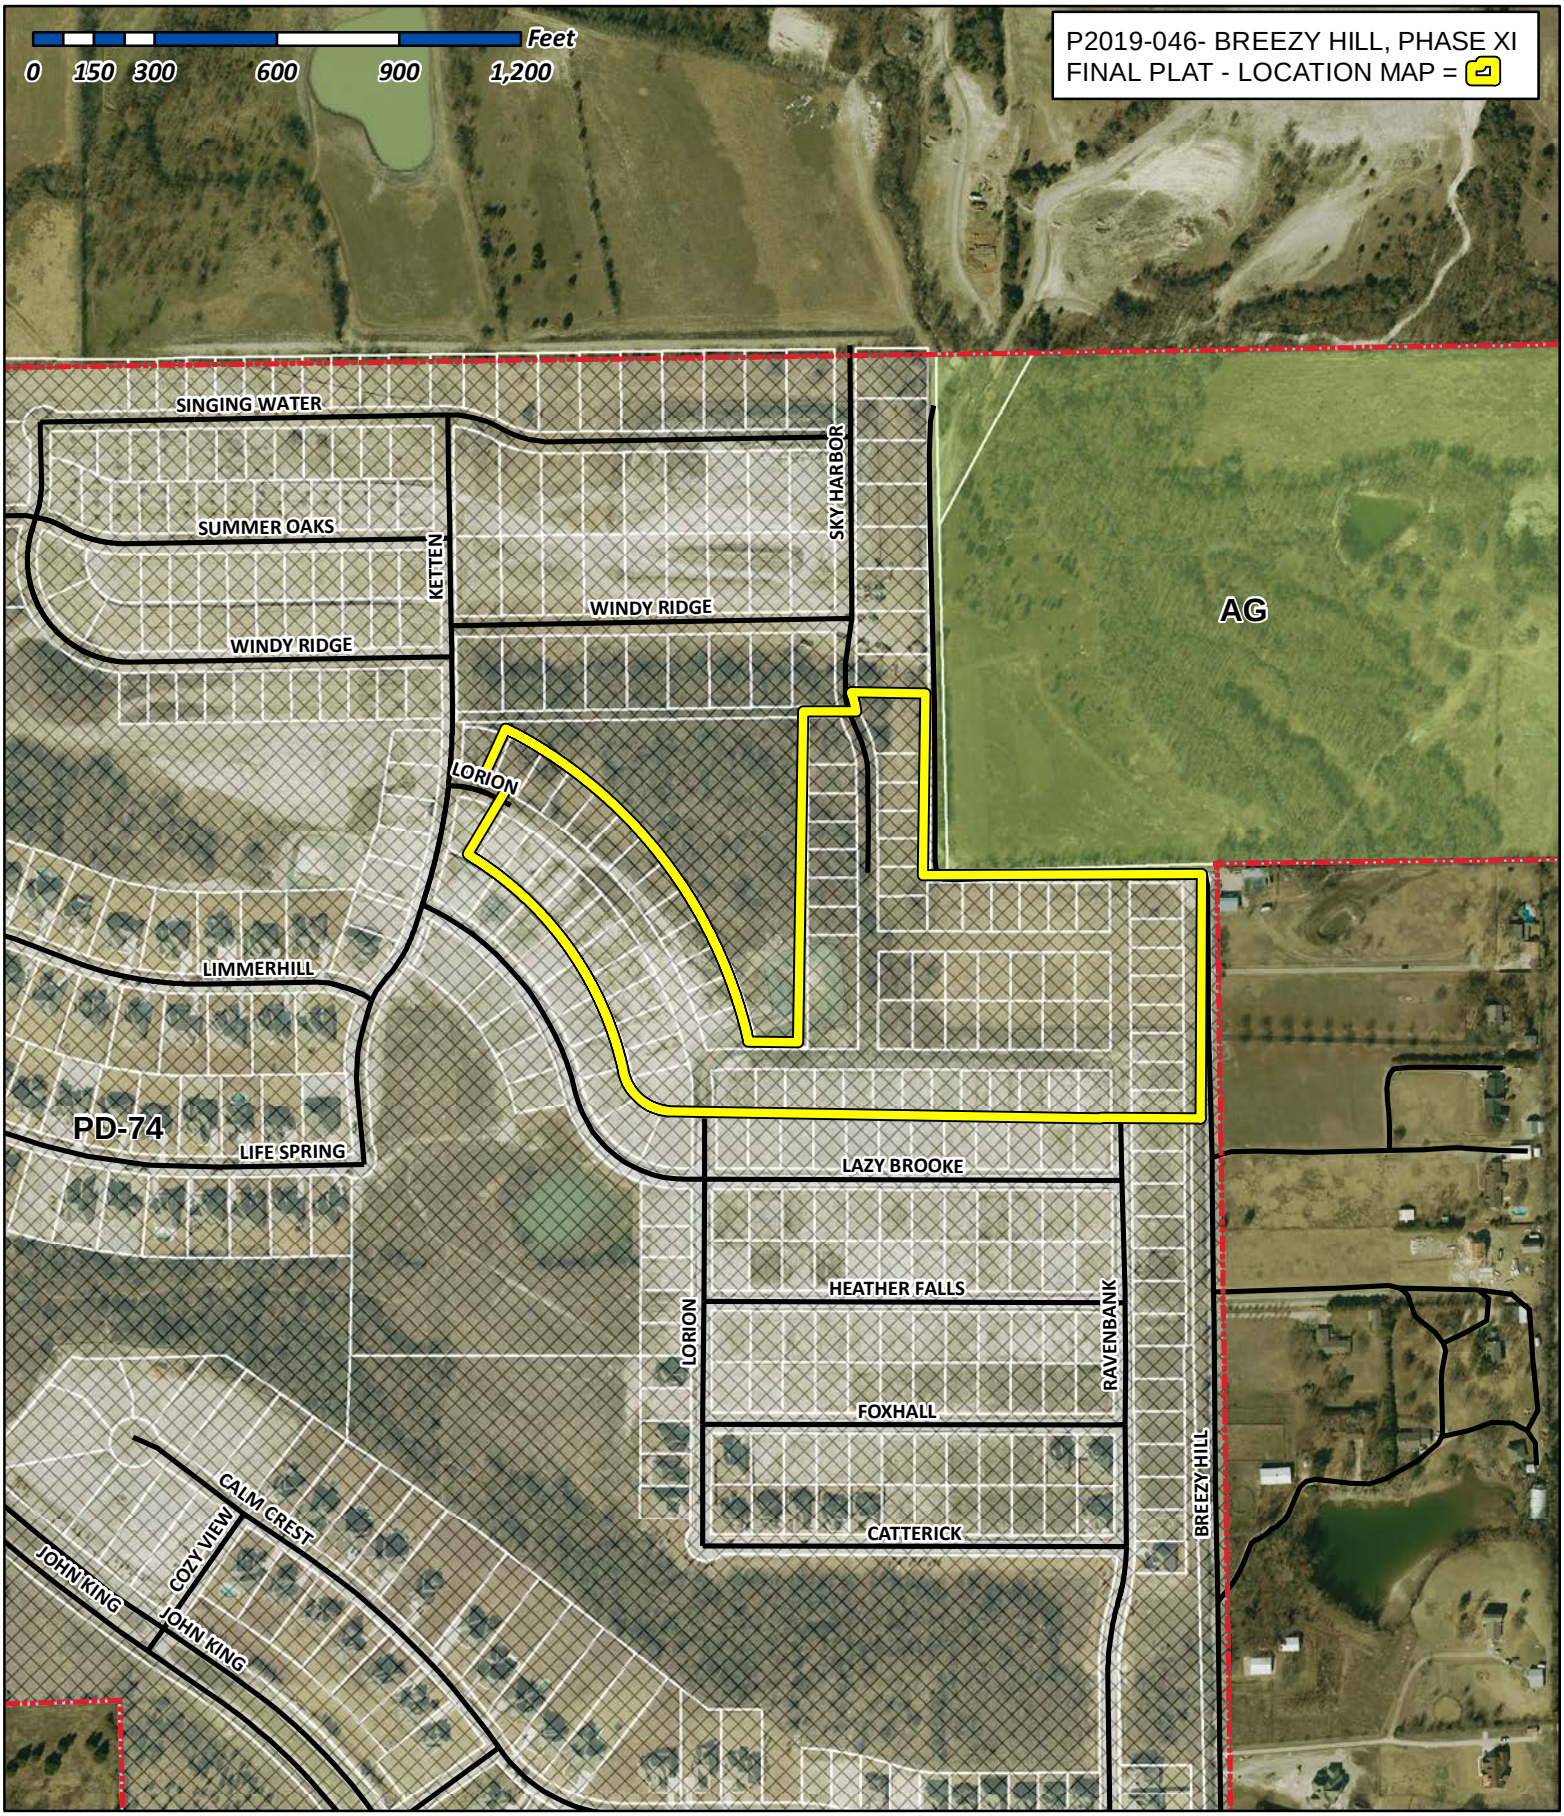
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).

M.5 Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

(1) Please label the Point of Beginning

(2) Please show and label landscape buffer adjacent to BH Road.

(3) Please provide signature line for Chuck Sink



(4) Please review and confirm lot count

Lot Types	A	B	C	D	E	F	G	TOTAL

REMAINING	23	-12	-10	32	0	11	-9	35

I.6 Please note thatfailure to address all comments provided by staff by 5:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested.

- Revisions for this case will be due on December 3, 2019;
- The Planning & Zoning Worksession is November 26, 2019.
- The Park Board Meeting for this case is December 3, 2019
- The Planning and Zoning Commission Meeting for this case is December 10, 2019
- The City Council Meeting for this case is December 16, 2019.

   V.A.M.S. - Visibility, Maintenance & Sidewalk Easement
   H.O.A. - Homeowners Association
   ◊ - Street Name Change
5. All open spaces, drainage easements, detention easements and other common areas shall be repaired, replaced, and maintained by property owner and/or Homeowners Association.
6. No building permits will be issued until all public improvements are accepted by the City.
7. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer, and storm drainage system have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

LEGAL DESCRIPTION

BEING, a tract of land situated in the J. Strickland Survey, Abstract No. 187 in the City of Rockwall, Rockwall County, Texas, being out of a 39.298 acre tract, as described in Clerks File No. 20130000498882 in the Deed Records of Rockwall County, Texas and being all of a 2.944 acre tract, as described in Clerks File No. 20180000010717 and being more particularly described as follows:

BEGINNING, at a 1/2 inch iron rod found at the northeast corner of Breezy Hill Phase V, as addition to the City of Rockwall, as described in a Cab. J, Pg. 27 in the Plat Records of Rockwall County, Texas and being in the east line of said 39.298 acre tract same being in Breezy Hill Road (Variable R.O.W.);

THENCE, North 89° 43'54" West, along the north line of said Breezy Hill Phase V, for a distance of 244.79 feet, to a 1•2 inch iron rod found;

THENCE, South 00° 16'06" West, continuing along said north line, for a distance of 1.16 feet, to a 1•2 inch iron rod found;

THENCE, North 89° 02'54" West, continuing along said north line, for a distance of 1054.06 feet, to a 1/2 inch iron rod found at the point of curvature of a curve to the right, having a radius of 125.00 feet, a central angle of 76° 51'49";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 167.69 feet (Chord Bearing North 50° 36'59" West 155.40 feet), to a 1/2 inch iron rod found at the point of reverse curvature of a curve to the left, having a radius of 825.00 feet, a central angle of 46° 53'29";

THENCE, continuing along said north line and said with curve to the left for an arc distance of 675.19 feet (Chord Bearing North 35° 37'50" West 656.50 feet), to a 1/2 inch iron rod found at the most southerly southeast corner of Breezy Hill Phase VI, an addition to the City of Rockwall, as described in Cab. J Pg. 291 in said Plat Records;

THENCE, North 30° 55'26" East, departing said north line and along the east line of said Breezy Hill Phase VI, for a distance of 191.00 feet, to a 1/2 inch iron rod found on a curve to the left, having a radius of 1016.00 feet, a central angle of 02° 27'58";

THENCE, continuing along said east line and with curve to the left for an arc distance of 43.73 feet (Chord Bearing North 60° 18'33" West 43.73 feet), to a 1/2 inch iron rod found at the point of compound curvature of a curve to the left, having a radius of 275.00 feet, a central angle of 04° 19'35";

THENCE, continuing along said east line and with said curve to the left for an arc distance of 20.77 feet (Chord Bearing North 63° 42'20" West 20.76 feet), to a 1/2 inch iron rod found;

THENCE, North 24° 07'53" East, continuing along said east line, for a distance of 125.00 feet, to a 1/2 inch iron rod found in the south line of a 6.705 acre tract, as described in Clerks File No. 20150000004156 in said Deed Records and being in the north line of said 39.298 acre tract being on a curve to the right, having a radius 400.00 feet, a central angle of 04° 19'35";

THENCE, along the south line of said 6.705 acre tract and north line of said 39.298 acre tract with said curve to the right for an arc distance of 30.20 feet (Chord Bearing South 63° 42'20" East 30.20 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the point of compound curvature of a curve to the right, having a radius of 1141.00 feet, a central angle of 49° 01'03";

THENCE, continuing along said lines and with said curve to the right for an arc distance of 976.14 feet (Chord Bearing South 37° 02'01" East 946.65 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most southerly southwest corner of said 6.705 acre tract;

THENCE, South 89° 02'54" East, continuing along said lines, for an arc distance of 121.36 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most southerly southeast corner of said 6.705 acre tract and being an interior ell corner of said 39.298 acre tract;

THENCE, North 00° 57'06" East, along the east line of said 6.705 acre tract and a west line of said 39.298 acre tract, at 390.00 feet, passing the southwest corner of said 2.944 acre tract and a northwest corner of said 39.298 acre tract, continuing for a total distance of 813.56 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the northeast corner of said 6.705 acre tract and being in the south line of a 30.728 acre tract, as described Clerks File No. 20170000023682, in said Deed Records same being the northwest corner of said 2.944 acre tract;

THENCE, South 89° 39'37" East, along the south line of said 30.728 acre tract and the north line of said 2.944 acre tract, for a distance of 130.28 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", on a non-tangent curve to the right, having a radius of 225.00 feet, a central angle of 12° 28'10";

THENCE, continuing along said north and south lines and with said curve to the right for an arc distance of 48.97 feet (Chord Bearing North 14° 00'23" West 48.87 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, South 89° 02'37" East, continuing along said lines, for a distance of 182.39 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the northeast corner of said 2.944 acre tract and being an ell corner of said 30.728 acre tract being in the west line of a 2.64 acre tract, as described in Vol. 4341, Pg. 2426, in the Deed Records of Collin County, Texas;

THENCE, South 00° 57'23" West, along east line of said 2.944 acre tract, at 430.02 feet, passing the southeast corner of said 2.944 acre tract and an ell corner of said 39.298 acre tract and continuing with the west line of said 2.64 acre tract, for a total distance of 446.89 feet, to a 5/8 inch iron rod found at the southwest corner of said 2.64 acre tract;

THENCE, North 89° 40'58" East, along the south line of said 2.64 acre tract, for a distance of 686.22 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc." at the southeast corner of said 2.64 acre tract being in said Breezy Hill Road same being in the east line of said 39.298 acre tract;

THENCE, South 00° 17'23" West, along the east line of said 39.298 acre tract and Breezy Hill Road, for a distance of 601.42 feet, to the POINT OF BEGINNING and containing 23.849 acres of land.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owner"s" of the land shown on this plat, and designated herein as the BREEZY HILL PHASE XI, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration thereinexpressed. We further certify that all other parties who have a mortgage or lien interest in the BREEZY HILL PHASE XI, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements asdescribed herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

7. The Homeowners Association is responsible for maintaining all non-standard decorative signs, poles/post, hardware or other non standard items. The City of Rockwall has no maintenance or other responsibility related to these items. The City of Rockwall and the Homeowners Association agree the association will bear any and all maintenance cost related the said improvements. The City has the statutory authority to install and maintain Traffic Control Devices for Vehicular traffic on public Streets/Roads within the public right-of-way. This agreement in no way constitutes a change in that authority and does not constitute any delegation of that authority of the Association.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

(11/22/2019 10:43 AM SJ)
M - Add note, "No trees within 5' of utilities" to the landscape plan. Standards of Design and Construction Sect. 4.4
M - No structures in easements. This includes retaining walls and footings. Standards of Design 5.1.3
M - All fire lane radii to be 20' min. If the building is 36’ or taller, the fire lane radius must be 30’min. Standards of Design 2.20
M - Driveway radii to be 30' min. Standards of Design 2.20
M - No structures in easements. This includes retaining walls and footings, dumpster and screening wall must be out of easements. Standards of Design 5.1.3
M - All fire hydrants must have a 20'x20' easement established. Fire hydrants to have 5’ of clearance around all sides. Standards of Design 5.2.11
M - Minimum easement width is 20' for proposed easements. Standards of Design 5.1.3
M - Retaining walls in detention require a variance by Planning and Zoning Commision. Standards of Design 3.4.4
M – All fire lanes or drive isles must be a minimum of 24’ wide. Standards of Design and Construction 2.20
M - Parking to be 20'x9' against the building or nose-to-nose. All other to be 18'x9' min with a 2' clear overhang. Standards of Design 2.19
M - Must install 5' sidewalk along County Line. Standards of Design and Construction 2.14.
M - Dumpster area to drain to oil/water separator or grease trap, depending on use. Standards of Design and Construction 3.2.2.12.
M - Water line must be centered in a 20' easement. Standards of Design and Construction 5.1.3
M - Must include a 10' utility easement along all street frontage. Standards of Design 5.1.3
M - Must meet all standards of design and construction.

I - 4% Engineering inspection fees
I - Impact fees.
I - Min 20' utility easements.
I - Fire lane easement to be on plat.
I - 8" water available across Ranch Trl. Must loop 8" waterline in site. Full panel concrete replacement required.
I - 8" sewer in Ranch Trl.
I - Sewer pro-rata of $432.74/acre.
I - Retaining walls3' and over must be designed by a licensed engineer. All walks to be rock or stone. No smooth concrete walls.
I - Must have detention. Manning's "c-value" is per zoning for the entire property.
I - If using the pond for detention, it must be over the existing level.
I - Must have a waters of the US study if touching the pond.
I - Detention outfall must reach sheet flow conditions prior to crossing the property line.
I - Engineering review fees apply
I - Must replace full panels of concrete for the utility tie-ins on Ranch Trail.
I - No grate inlets allowed.
I - Include a 2' sawcut line (for the curb and gutter).

FIRE	Ariana Hargrove	11/15/2019	11/22/2019	11/20/2019	5	COMMENTS	see notes

(11/20/2019 6:38 PM AA)
IFC 903.2 Approved automatic fire sprinkler systems shall be installed in all new buildings with a fire flow calculation area of 5,000 square feet or greater.

The fire-flow calculation area shall be the total floor area of all floor levels within the exterior walls including mezzanines, and under the horizontal projections of the roof of a building.

Note: Review IBC Chapter 6 Table 602 for fire rating requirements for the exterior walls based on fire separation distances.

SP2019-043; 407 Ranch Trail

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This a request by Clay Cristy of ClayMoore Engineering, Inc. on behalf of Brian Berry of Milestone Electric, Inc. for the approval of an amended site plan for a multi-tenant office complex on a 9.52-acre tract of land identified as Lot 18 and the south portion of Lot 19, Rainbow Acres Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 407 Ranch Trail.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2019-043) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).

M.5 Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

(1) Please note that walls in detention pond will require a variance.
(2) Please note that the addition of Buildings 11-16 will require a variance to the articulation standards.
(3) What is happening to the pond that was located on site?
(4) Please note that each variance will require 2 compensatory measures. Please provide for each variance.
(5) Please note that the lift station will need to be screened. Please show and label proposed screening.
(6) Please note that 3-tier screening will be required adjacent to the property line.
(7) Please show and label the landscape buffer adjacent to Ranch Trail and County Line Road.
(8) Please show and label the front setback.
(9) Please use a different hatch for the FL and remove the lines labeled "FL"
(10) Please provide a different hatch for the areas between the buildings. Are these areas grass?
(11) Please note that as shown, the driveways do not meet the min spacing requirements.
(12) Please note, the min size requirement for trees is 4 caliper-inches.
(13) Please note, the min size requirement for shrubs is 3 gallons.
(14) Please note, a berm is required adjacent to the street. Please review LS standards.
(15) Please note, since additional trees are being removed, another alternative tree mitigation plan will need to be approved by the City Council.
(16) Please note, hydromulch is not allowed. Sod is required.
(17) Please note that since the building above Buildings 1 & 2 was removed, a variance is required—no parking is allowed between the front of the building and the property line. With the building there, the parking was on the side of the building.
(18) Please check interior radii. It appears that the radii along the southern drive aisle are below the min requirement.
(19) Please provide topo on plans

I.6 Please note that failure to address all comments provided by staff by 5:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested.

- Revisions for this case will be due on December 3, 2019;
- The Planning & Zoning Worksession is November 26, 2019.
- The Planning and Zoning Commission Meeting for this case is December 10, 2019
- The City Council Meeting for this case is December 16, 2019.

LANDSCAPE NOTES

1. The project will have an undergound automatic irrigation system to water all new plantings.
2. Install 4" layer of shredded hardwood mulch to all planting beds.
3. Install 4" steel edging between all shrub beds and grass areas.
4. Shrub beds to have 12 inches of prepared planting mix (75% import topsoil, 15% composted amendment, 10% washed sand)
5. Shredded hardwood mulch must contain long strands along with double shred finer material obtained from a local source.
6. Install 4 inches of clean topsoil in all areas of the site disturbed by grading and construction operations. Topsoil shall be free from sticks, debris and rocks larger than 2 inches in diameter and have an organic matter level of 3 percent minimum and a pH range between 5.5 and 7.4 percent. Provide soil test analysis from a soil test laboratory showing soil makeup and organic percentage.
7. Solid sod all areas disturbed by construction activities.
8. No trees within 5' of utilities.
9. No parking space shall be more than 80 feet from a tree.

10. All ROW to be sodded.
11. Must have 75-80% of all disturbed areas must have a 1" stand of grass, not weeds or winter rye, prior to City Acceptance or C.O./T.C.O.

Bermuda Grass

LANDSCAPE NOTES

1. The project will have an undergound automatic irrigation system to water all new plantings.
2. Install 4" layer of shredded hardwood mulch to all planting beds.
3. Install 4" steel edging between all shrub beds and grass areas.
4. Shrub beds to have 12 inches of prepared planting mix (75% import topsoil, 15% composted amendment, 10% washed sand)
5. Shredded hardwood mulch must contain long strands along with double shred finer material obtained from a local source.
6. Install 4 inches of clean topsoil in all areas of the site disturbed by grading and construction operations. Topsoil shall be free from sticks, debris and rocks larger than 2 inches in diameter and have an organic matter level of 3 percent minimum and a pH range between 5.5 and 7.4 percent. Provide soil test analysis from a soil test laboratory showing soil makeup and organic percentage.
7. Solid sod all areas disturbed by construction activities.
8. No trees within 5' of utilities.
9. No parking space shall be more than 80 feet from a tree.

10. All ROW to be sodded.
11. Must have 75-80% of all disturbed areas must have a 1" stand of grass, not weeds or winter rye, prior to City Acceptance or C.O./T.C.O.

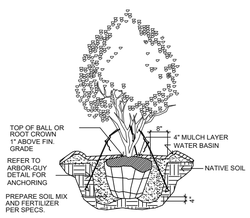
PHONE: (281) 778-1400
FAX: (281) 778-1425
www.treestakesolutions.com

1. WITH TREE IN A STRAIGHT & PLUMB POSITION, CENTER THE APPROPRIATE ROOT ANCHOR SAFETY STAKE AROUND THE TRUNK, WITH RINGS LAYING FLAT AGAINST ROOTBALL, U-BRACKETS FACING UP.



2. INSERT 1 OF 3 NAIL STAKES THROUGH EACH OF THE U-BRACKETS. NAILS SHOULD REST IN THE UNDISTURBED SOIL AT THE BOTTOM OF THE TREE PIT. ALL NAILS SHOULD FIT SNUG AGAINST THE SIDE OF THE ROOTBALL.
(FOR HAND OR MACHINE DUG TREES, IT MAY BE NECESSARY TO PENETRATE 1" - 4" OF OUTER AREA OF THE ROOTBALL WITH THE NAIL.)

3. NAIL STAKES SHOULD BE DRIVEN STRAIGHT DOWN INTO THE UNDISTURBED SOIL BELOW THE ROOTBALL. THE NAILS ARE NOW CAGING THE ROOTBALL IN PLACE, WHILE THE TOP BRACKET PINS THE ROOTBALL DOWN.
AFTER THE TREE STAKE IS INSTALLED, A LAYER OF MULCH CAN BE ADDED OVER THE STAKE. REMOVE ROOT ANCHOR AFTER TREE IS ESTABLISHED.

LANDSCAPE NOTES

1. The project will have an undergound automatic irrigation system to water all new plantings.
2. Install 4" layer of shredded hardwood mulch to all planting beds.
3. Install 4" steel edging between all shrub beds and grass areas.
4. Shrub beds to have 12 inches of prepared planting mix (75% import topsoil, 15% composted amendment, 10% washed sand)
5. Shredded hardwood mulch must contain long strands along with double shred finer material obtained from a local source.
6. Install 4 inches of clean topsoil in all areas of the site disturbed by grading and construction operations. Topsoil shall be free from sticks, debris and rocks larger than 2 inches in diameter and have an organic matter level of 3 percent minimum and a pH range between 5.5 and 7.4 percent. Provide soil test analysis from a soil test laboratory showing soil makeup and organic percentage.
7. Solid sod all areas disturbed by construction activities.
8. No trees within 5' of utilities.
9. No parking space shall be more than 80 feet from a tree.

LANDSCAPE NOTES

1. The project will have an undergound automatic irrigation system to water all new plantings.
2. Install 4" layer of shredded hardwood mulch to all planting beds.
3. Install 4" steel edging between all shrub beds and grass areas.
4. Shrub beds to have 12 inches of prepared planting mix (75% import topsoil, 15% composted amendment, 10% washed sand)
5. Shredded hardwood mulch must contain long strands along with double shred finer material obtained from a local source.
6. Install 4 inches of clean topsoil in all areas of the site disturbed by grading and construction operations. Topsoil shall be free from sticks, debris and rocks larger than 2 inches in diameter and have an organic matter level of 3 percent minimum and a pH range between 5.5 and 7.4 percent. Provide soil test analysis from a soil test laboratory showing soil makeup and organic percentage.
7. Solid sod all areas disturbed by construction activities.
8. No trees within 5' of utilities.

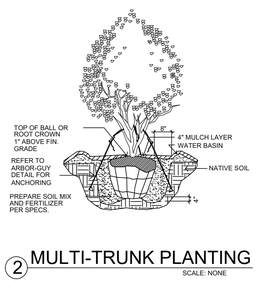
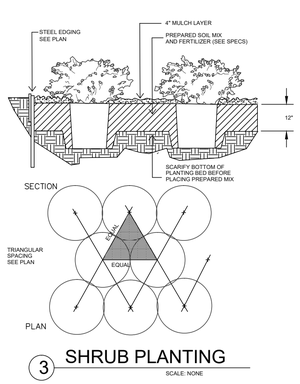
PHONE: (281) 778-1400
FAX: (281) 778-1425
www.treestakesolutions.com

1. WITH TREE IN A STRAIGHT & PLUMB POSITION, CENTER THE APPROPRIATE ROOT ANCHOR SAFETY STAKE AROUND THE TRUNK, WITH RINGS LAYING FLAT AGAINST ROOTBALL, U-BRACKETS FACING UP.



2. INSERT 1 OF 3 NAIL STAKES THROUGH EACH OF THE U-BRACKETS. NAILS SHOULD REST IN THE UNDISTURBED SOIL AT THE BOTTOM OF THE TREE PIT. ALL NAILS SHOULD FIT SNUG AGAINST THE SIDE OF THE ROOTBALL.
(FOR HAND OR MACHINE DUG TREES, IT MAY BE NECESSARY TO PENETRATE 1" - 4" OF OUTER AREA OF THE ROOTBALL WITH THE NAIL.)

3. NAIL STAKES SHOULD BE DRIVEN STRAIGHT DOWN INTO THE UNDISTURBED SOIL BELOW THE ROOTBALL. THE NAILS ARE NOW CAGING THE ROOTBALL IN PLACE, WHILE THE TOP BRACKET PINS THE ROOTBALL DOWN.
AFTER THE TREE STAKE IS INSTALLED, A LAYER OF MULCH CAN BE ADDED OVER THE STAKE. REMOVE ROOT ANCHOR AFTER TREE IS ESTABLISHED.



ROOT ANCHORTM BELOW GRADE SAFETY STAKE SIZING CHART

(11/22/2019 9:26 AM SJ)
M - Add note, "No trees within 5' of utilities" to the landscape plan. Standards of Design and Construction Sect. 4.4
M - Must dimension the distance from the driveways to the nearest driveway on either side. Standards of Design 2.6
M - Parking near the building or head to head parking to be 20'x9'. All other parking to be 18'x9'. Standards of Design 2.20
M - No structures in easements. This includes retaining walls and footings. Standards of Design 5.1.3
M - All fire lane radii to be 20' min. If the building is 36’ or taller, the fire lane radius must be 30’min. Standards of Design 2.20
M - No structures in easements. This includes retaining walls and footings, dumpster and screening wall must be out of easements. Standards of Design 5.1.3
M - All fire hydrants must have a 20'x20' easement established. Fire hydrants to have 5’ of clearance around all sides. Standards of Design 5.2.11
M - Minimum easement width is 20' for proposed easements. Standards of Design 5.1.3
M - Retaining walls in detention require a variance Standards of Design 3.4.4
M – Must stub out the 8” water and 8” sewer to the northern property for future expansion. Standards of Design 5.1.2
M – All fire lanes or drive isles must be a minimum of 24’ wide. Standards of Design and Construction 2.20
M - Must install a 6' sidewalk along the street frontage. Standards of Design 2.14.
M - Proposed & existing water and sewer to be shown on site plan (Not separate sheet)
M - 10' U.E required along ROW
M - Water line must be looped on-site place water line in fire lane instead of TXDOT ROW. Standards of Design 5.2.2
M - Must meet all standards of design and construction.

I - Landscape plan shows walls in detention. Not allowed without variance approval. from P&Z Commission
I - Was the ROW for Second St. purchased?
I - 4% Engineering Fees
I - Impact Fees
I - Must have detention on-site. Manning's C-value is per zoning
I - Water and sewer lines must have 10'of easement on both sides
I - No utilities in detention easements
I - No grate utilities allowed
I - Fire Lane paving to be 8" 3600 psi (6.5 sack mix)
I - No sand allowed under paving.
I - Walls 3' and over must be engineered
I - All retaining walls to be rock or stone face. No smooth concrete walls.
I - If using the pond for detention, it must be over the existing level.
I - Detention outfall must reach sheet flow conditions prior to crossing the property line.
I - Will need TxDOT driveway and utility permits.
I - TIA required w/ fees.
I - Engineering review fees apply

FIRE	Ariana Hargrove	11/18/2019	11/25/2019	11/20/2019	2	COMMENTS	See notes

(11/20/2019 6:55 PM AA)
Additional fire hydrant may be required based on needed fire flow.

A turning radius of 30-feet for buildings 30-feet or above in height and/or 3 or more stories in height.

Fire lane cannot exceed 10% in grade change, with cross slope not exceeding 5%. The angles of approach and departure for fire apparatus access roads shall be within the limits established by the fire code official based on the fire department’s apparatus.

PLANNING	Korey Brooks	11/18/2019	11/25/2019	11/22/2019	4	COMMENTS	Comments

SP2019-044; 409 W Washington Street

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This a request by Steven Reyes of Ramsay & Reyes, LLC on behalf of Jimmy McClintock of LMGC, LLC for the approval of a site plan for an office building on a 0.739-acre tract of land identified as a portion of Lot 14 of the Lowe & Allen Addition [0.4590-acres] and Lot 2-R, Block A, Washington Place Addition [0.28-acres] , City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, situated within the SH-66 Overlay (SH-66 OV) District, addressed as 409 W. Washington Street.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2019-044) in the lower right-hand corner of all pages on future submittals.

I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).

M.5 Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

(1) Please do not provide a separate page for utilities. Please show on site plan and landscape plan.

(2) Please show topo on site plan and landscape plan.

(3) Please remove labels for Lots 1R and 2R and provide existing lot and block information on site plan.

(4) Please correct address on plans. Some plans indicate 409 W Washington and some indicate 411 W. Washington.

(5) Please provide site data table on site plan.

(6) Please show centerlines of adjacent roadways.

(7) Please note that all plans need to match (i.e. currently the utility plan does not match site plan.

(8) Please note that the water line will need to be looped through the site.

(9) Please check the orientation of the stairs on the site plan.

(10) Please remove the concrete planter from the parking space

(11) Please remove signage from the site plan.

(12) Please utilize a variety of line types and line weights. It is difficult to determine what the lines are (i.e. there are several lines running N/S adjacent to the concrete planter)

(13) Please note that the dumpster enclosure cannot face the street. Also, a detail has been provided.

(14) Please dimension a typical parking space.

(15) Please check radii at drive aisles to ensure conformance to the engineering standards of design.

(16) Please show and label the property line.

(17) Please show FL with a hatch pattern, stipple, shade of gray, etc.

(18) Please provide pavement type and depth.

(19) Please show proposed sidewalks as a hatch pattern.

(20) Please dimension distance of building from property lines.

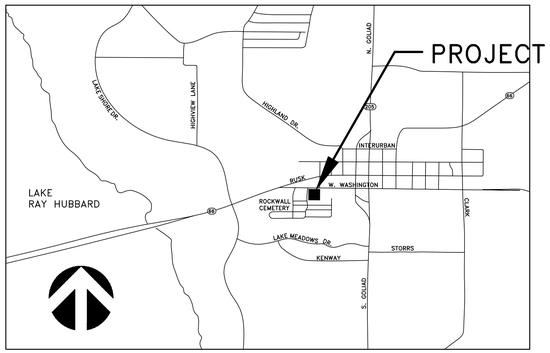
(21) Please note, the site plan, building elevations, rendering do not seem to match. (i.e. the site plan shows projections/recesses adjacent to Washington Street that do not appear in the rendering and building elevations.

(22) Please provide all engineering information on site plan.

(23) Please provide treescape plan

(24) Please note that walls in the detention area will require a variance.

(25) Please label detention pond and show on all plans.

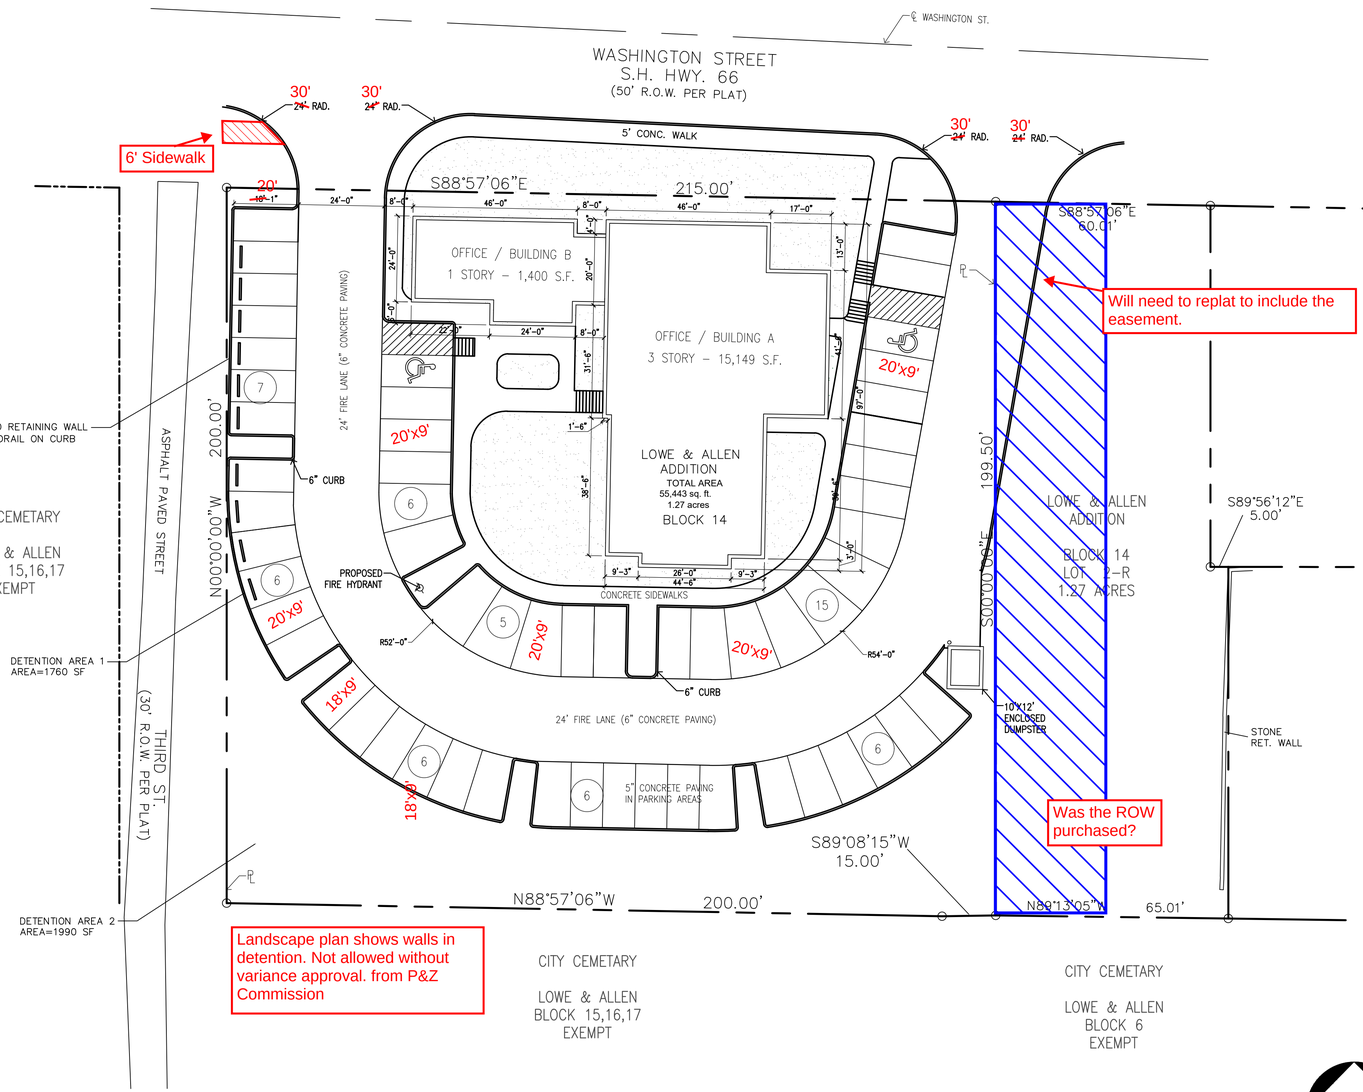


(26) Please show and label property line on LS Plan.

LANDSCAPE PLAN

(27) Please remove the cross slope % and show topo on landscape plan.

(28) Please check tree mitigation requirements. The ratio is not correct.
(29) Please show utilities and engineering information on LS Plan.
(30) Please note, the LS adjacent to Washington appears to be in the ROW and does not match the rendering.
(31) Please label and greyscale existing drives/curb cuts that will be modified (i.e. show existing vs proposed).
(32) Please show centerline of ROW.
(33) Please note, that the dumpster enclosure cannot face public ROW. Detail has been provided.
PHOTOMETRIC PLAN
(34) Please show and label property line.
(35) Please note, it is difficult to see location of fixtures. Please greyscale FC and bold the fixtures
BUILDING ELEVATIONS
(36) Please note, that the one-story building is required to be two-stories min
(37) What is the material below the stairs? Retaining wall? Please show and label.
I.6 Please note that failure to address all comments provided by staff by 5:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested.



- Revisions for this case will be due on December 3, 2019;
- The Planning & Zoning Worksession is November 26, 2019.
- The Planning and Zoning Commission Meeting for this case is December 10, 2019
- The City Council Meeting for this case is December 16, 2019.

PARKING REQ'D	57	

- 4% Engineering inspection fees (i)
- Impact fees. (i)
- Min 20' utility easements. (i)
- No structures in easements. (m)
- Fire lane to be 24' wide with 20' radii (or 30' rad. depending on height). (m)
- Parking to be 20'x9' (m)
- Dumpster area to drain to oil/water separator or grease trap, depending on use. (m)
- No trees within 5' of public utilities. (m)
- Retaining walls 3' and over must be designed by a licensed engineer. All walks to be rock or stone. No smooth concrete walls. (i)
- Must have detention. Manning's "c-value" is per zoning for the entire property. (i)
- If using the pond for detention, it must be over the existing level. (i)
- Water line must be looped on-site place water line in fire lane instead of TXDOT ROW. (m)
- Detention outfall must reach sheet flow conditions prior to crossing the property line. (i)
- Must meet all city engineering standards. (m)
- Engineering review fees apply (i)
- No walls in utility esmts (m)
- 10' U.E Required along ROW (m)
- Will need TxDOT driveway and utility permits. (i)
- TIA required w/ fees (i)
- Prop & existing water and sewer to be shown on site plan (Not separate sheet) (M)

NIGHTTIME FRIENDLY
Consistent with LEED® goals & Green Globes™ criteria for light pollution reduction

American Revolution
Series 247 and 247 Cutoff
50-150W HPS, 100-175W MH

PRODUCT OVERVIEW

SERIES 247

SERIES 247 CUTOFF

PREFERRED SELECTION CATALOG NUMBERS

Series 247
- 247 10S RN 120 R3 AY
- 247 15S RN 120 R3 AY
- 247 10S RN 120 R5 AY
- 247 15S RN 120 R5 AY

Series 247 Cutoff
- 247 10S RN 120 R2 FC TL
- 247 10M XN MT1 R2 FC TL

Features:
Die-cast aluminum housing and hood for long-life performance

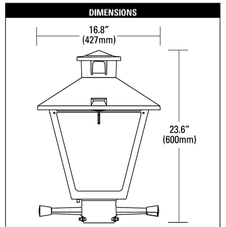
Die-cast trigger latch (TL) option available for easy access to internal components

Optical assembly designed for maximum performance

Hinged hood and captive screw provision afford quick, easy access to electrical and optical area for relamping or servicing

Slipfitter with three set screws allows secure installation to pole sizes 2-3/8" or 3" O.D.

E39 mogul base socket standard



All electrical components warranted by American Electric Lighting's 6-year guarantee

Complies with ANSI: C136.2, C136.10, C136.15, C136.31 (regular only), C136.16 (FC only)

Suitable for -30°C MH & / -40°C HPS

Applications:
Streetscapes
Walkways
Pathways
Parks

DIMENSIONS

Effective Projected Area (EPA)
The EPA for the American Revolution Series 247 is 1.8 sq. ft.
Approx. Wt. = 36 lbs.

ANTIQUE STREET LAMPS™ RESONANCE™ BOLLARD 1.0 HID
TLRCB10

CATALOG #
PROJECT
TYPE

Construction:
The luminaire is die cast and permanent mold aluminum. The roof has an internal hinge, hidden from view. Roof and ballast lids are sealed with silicone gaskets. All exposed hardware is weather resistant. FINISH:The luminaire has a powder coat finish utilizing a premium TGIC polyester powder. The finish is a three-stage process that consists of drying, powder application and curing. Before coating, the parts are treated with a five-stage pretreatment process, consisting of a heated alkaline cleaner, rinse, phosphate coating, rinse and sealant.

Optics:
The horizontal lens is tempered fl at glass with a continuous seal.The luminaire utilizes an internal anodized and segmented reflector with socket for horizontal lamp. Reflectors are available in Type II, III, IV, and V, full cutoff distributions, are interchangeable and rotatable.

Electrical:
Luminaire is furnished with an HID ballast assembly. Sockets are porcelain, medium base, with a copper alloy nickel-plated screw shell and center contact. Ballasts are core and coil, high-power factor, regulating type. Lamp is not included.

Installation:
The Resonance Bollard offers a patented impact resistant mounting and leveling design ensuring lifelong performance. Three leveling pads within the base mounting plate are easily accessible through the access panel.The leveling pads provide full contact with the concrete pad, providing a high degree of stability.The base mounting plate is fully welded to the bollard post, providing complete structural support from all directions, giving the bollard superior vandal resistance.

Listings:
The luminaire is tested to and meets all NRTL's outdoor requirement standards, wet location use, through the fully accredited and approved CSA laboratory.

Max EPA: 1.8 sq feet
Max Height: 3' 8" (111.8 cm)
Max Width: 1' 1" (33 cm)
Max Weight: 35 lbs (15.8 kg)

FINISH -Offered in exceptional finishes, comprised of: polyester/polished powder coat, baking enamal liquid, raw metal, or galvanized finishes.
Standard Finishes are: 91(Black), 93(White), 95(Dark Green), 96(Galvanized), BR47(Powder Coat Rust), BK01(Black Texture), GN20(Powder Coat Patina).
Upgraded Finishes are: 29, 66, 82, 90, 92, 94, 97, 99, 100, 103, 104, 105, 110, 112, 113, 114, 115, 117, 118, 119, 120, 127, 128, 129, 133, 134, 135, 136, 98, 101, 102, 137, 138, 139, 140, 121, 122, 123, 124, 125, 126, 11, 01, 22, 25, 33, 77, 89, 24, 44, 48, 49, 15, 16.
For interior finish of fixture refer to color chart on pages 344-348.

MOUNTING - Stem, Arm, and Flush mounting available.

ACCESSORIES - WGR(Wire Guard) and SK(Swivel Knuckle) available.

REFLECTOR - Heavy duty, spun shade, aluminum 6061-0 and/or 1100-0, galvanized 22 gauge, steel 20/22 gauge, copper 032/040 and brass 032/040 construction. Dependant on finish.

SOCKETS/LAMPS - Available in:
Incandescent
- rated 200 watt max/120 volt, medium base.

Compact Fluorescent(CFL)
- rated 13/18/26/32 watt max/120/277 volt, GX24Q base.

Metal Halide(MH)
- rated 35/50/70/100 watt max/120/208/240/277 volt, medium base, 4KV socket.

High Pressure Sodium(HPS)
- rated 50/70/100 watt max/120/277 volt, medium base.

MADE IN THE U.S.A.

Suitable for wet location.
(Except when cord mounted)

M - Shade any future items that are not being considered in this project. It is difficult to tell what is being proposed.
M - Must show all existing and proposed utilities.
M - Add note to the landscape plan, "No trees within 5' of utilities." Standards of Design and Construction Sect. 4.4

I - Must have approval from NTMWD to grade or construct anything in their easement.
I - 4% Engineering inspection fees
I - Impact fees for new/up-sizing water taps or building square footage.
I - No storage in fire lane or utility easements
I - Parking to be 20'x9' if adjacent to the building or head-to-head, all else to be 18'x9' min.
I - Must have detention for all future storage areas per reference plans for Justin Rd. On what is being detained already. portion at corner of Industrial and Justin that is not detained, that will need to be. In the future.
I - All retaining walls to be rock or stone faced. No smooth concrete walls.
I - Retaining walls 3' and over must be engineered.
I - Must meet all city standards of design and construction.
I - Engineering review fees apply.

SP2019-045; Amended Site Plan for Channell Communications Corp.
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of an amended site plan for an existing industrial building on an18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard.

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at(972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-045) in the lower right-hand corner of all pages of all revised plan submittals (i.e. site plan and landscape plan).

I.4 This project is subject to all requirements stipulated by the Unified Development Code(UDC), and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit. As a note, the site plan must be approved prior to the filing of the plat.

M.6 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Under the Parking Data table, the removal and addition of parking spaces are resulting in a net loss of 13 parking spaces. This will require approval of a variance to allow for the parking to not meet the standards. Additionally, with future parking being indicated on the east portion of the site, it is encouraged to provide staff with the total parking for this site (i.e. include, but hatch the future parking spaces) for an overall parking layout. Please provide the parking count for each use (i.e. office, warehouse, & manufacturing) and include the number of employees on each shift as justification -- refer to the approved 2014 site plan SP2014-011 as an example. (Section 6, Table 3, of Article VI, of the UDC) Exception Required (Section 9, Art. XI, UDC).
2) Provide a label identifying the parking count (i.e. 9, 10, etc.) for each parking aisle in order to verify the existing and proposed parking spaces.
3) Provide total SF of additions (i.e. parking areas, building additions, etc.).
4) Hatch the area located on the eastern portion of the lot (noted as future building) to better delineate the existing area vs future building area(s).
5) Outside storage areas are to be screened to the height of what is being stored(Subsection 1.05(5), of Article V, UDC). Is the proposed storage area on the eastern portion of the lot (i.e. future area) being considered? If so, see Subsection 5.02.A, of Article VIII, of the UDC for appropriate screening of this area.
6) Provide a label identifying the existing and proposed sidewalks, including the existing 10-ft trail/walkway along John King Blvd.
7) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director. See attachment with packet provided
8) There is a label on the North West corner of the site indicating future parking. Is there going to be future parking along this area as indicated?

M.7 Building Elevations. Provide building elevations for the proposed guard shack (Section 3, of Article XI, of the UDC).

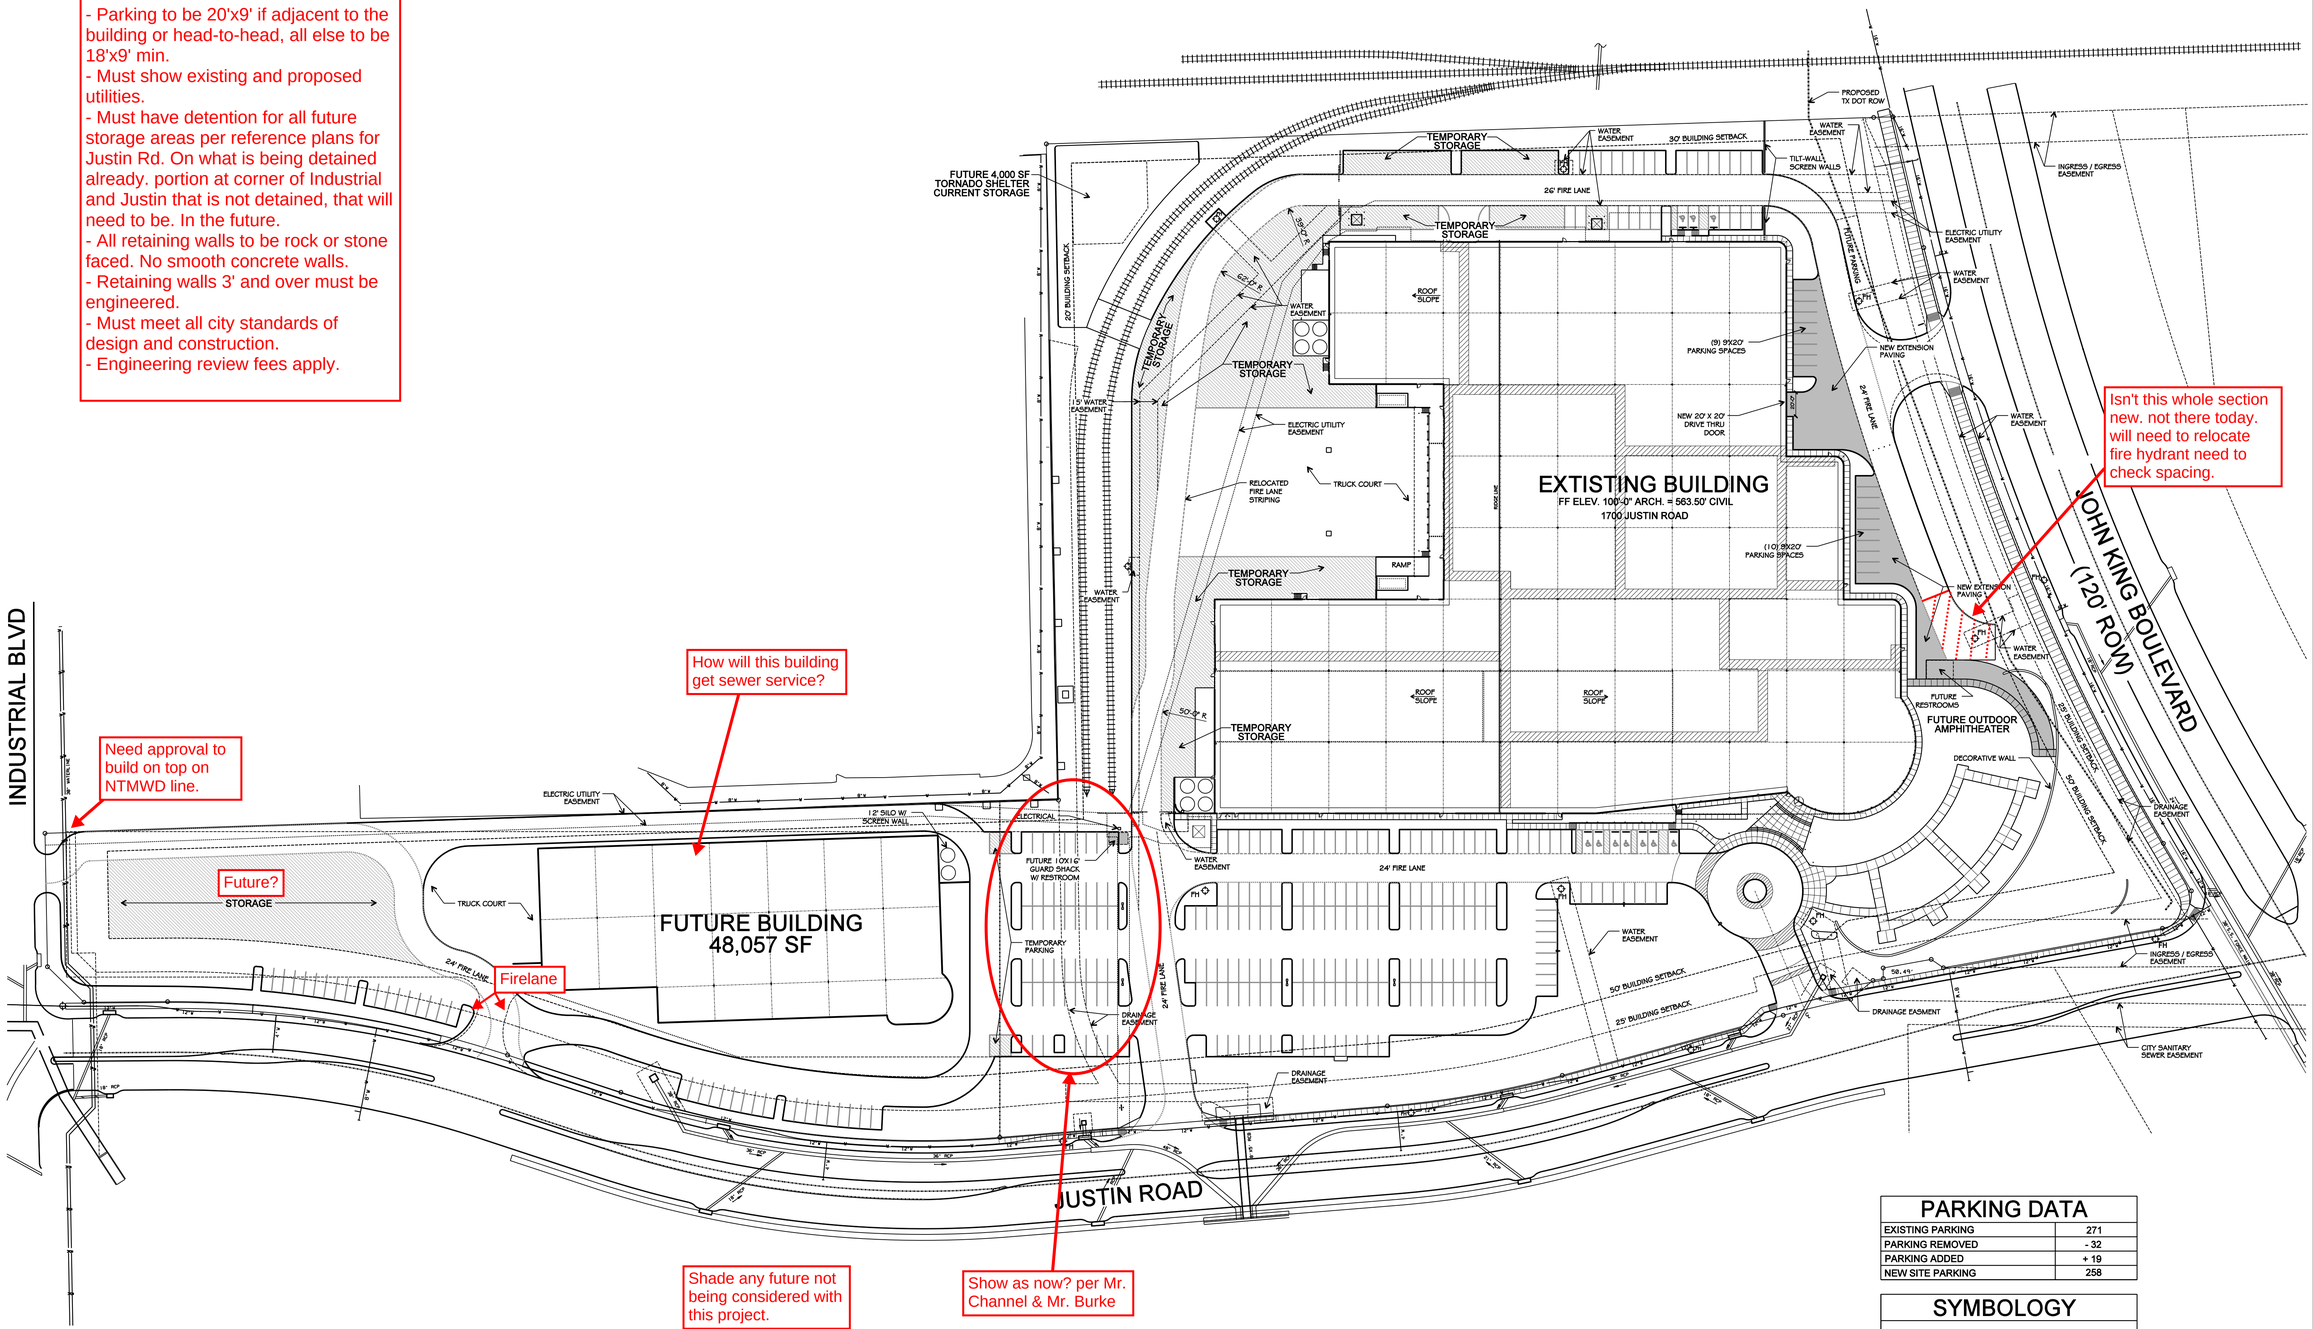
M.8 Landscape Plan. The proposed landscape screening located at the North West corner of the site requires approval by the Planning and Zoning Commission to allow for not meeting the standards of Subsection 1.05, Screening Standards, of Article V, District Development Standards, of the UDC (Subsection 5.02(C), Art. VIII, UDC).

I.9 Civil Set. As a note, the civil set submitted with this application on CD were not reviewed, and are not considered an engineering submittal with this application.

M.10 Based on the submittal staff has identified the following exceptions & variances:

1) Required Parking Spaces. The proposed site plan does not meet the minimum standards for parking for this site. The site plan indicates a reduction in the number of parking spaces to allow for outside storage areas that were not present on the approved site plan from July 21, 2014 [i.e. SP2014-011] and will require approval of an exception by the Planning and Zoning Commission.

To be able to request a exception, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two (2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.



I.11 Please note that failure to address all comments provided by staff by 3:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.12 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the December 10, 2019 Planning & Zoning Meeting.

** Please note that the Planning & Zoning Work Session meeting will be held on November 26, 2019.

I.13 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

- 4% Engineering inspection fees
- Impact fees for new/up-sizing water taps or building square footage.
- No storage in fire lane or utility easements
- Parking to be 20'x9' if adjacent to the building or head-to-head, all else to be 18'x9' min.
- Must show existing and proposed utilities.
- Must have detention for all future storage areas per reference plans for Justin Rd. On what is being detained already. portion at corner of Industrial and Justin that is not detained, that will need to be. In the future.
- All retaining walls to be rock or stone faced. No smooth concrete walls.
- Retaining walls 3' and over must be engineered.
- Must meet all city standards of design and construction.
- Engineering review fees apply.

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
December 10, 2019
6:00 P.M.

CALL TO ORDER

OPEN FORUM

APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

CONSENT AGENDA

2. Approval of Minutes for the *November 26, 2019* Planning and Zoning Commission meeting.

3. **P2019-045** **(David)**
Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 10, LTD for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive, and take any action necessary.

4. **P2019-046** **(Korey)**
Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a final plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552, and take any action necessary.

PUBLIC HEARING ITEMS

5. **Z2019-025** **(Korey)**
Hold a public hearing to discuss and consider a request for the approval of a text amendment to the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of allowing the *Rental, Sales, and Service of Heavy Machinery and Equipment* land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary.

ACTION ITEMS

6. **SP2019-045** **(David)**
Discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Alton Frazier of Channell Commercial Corporation for the approval of an amended site plan for an existing industrial building on an 18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

DISCUSSION ITEMS

7. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2019-044: Replat for Lot 3, Block A, SPR Packaging Addition [*Approved*]
- ✓ P2019-047: Final Plat for Lots 1, 2, & 3, Block A, MTA Andrews Addition [*Approved*]
- ✓ MIS2019-014: Comprehensive Plan Amendment Adopting the Revised Water/Wastewater Master Plans (*2nd Reading*) [*Approved*]

- ✓ MIS2019-015: Alternative Tree Mitigation Settlement Agreement [*Approved*]

ADJOURNMENT

The City of Rockwall Planning and Zoning Commission reserves the right to adjourn into executive session at any time to discuss any matters listed on the agenda above, as authorized by Texas Local Government Code §55.071 (*Consultation with City Attorney*) or any other exception allowed under Chapter 551 of the Texas Local Government Code.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Angelica Gamez, Planning and Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 6th day of December 2019 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
November 26, 2019
6:00 P.M.

I. CALL TO ORDER

Vice-Chairman Jerry Welch called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Sedric Thomas, John Womble, and Mark Moeller. Absent from the meeting was Commissioner Annie Fishman, Tracey Logan, and Chairman Chodun. Staff members present were Planning Director, Ryan Miller, Planning Manager, David Gonzales, Planning Coordinators, Laura Morales, Angelica Gamez, City Engineer, Amy Williams, and Civil Engineer Sarah Johnston.

II. OPEN FORUM

Vice-Chairman Welch explained how Open Forum is conducted and asked if anyone wished to speak to come forward at this time. There being no one coming forward to speak Vice-Chairman Welch closed the open forum.

III. APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review representative gave a brief explanation concerning agenda items that were discussed at the Architectural Review Board meeting.

IV. CONSENT AGENDA

2. Approval of Minutes for the November 12, 2019 Planning and Zoning Commission meeting.

3. P2019-044
Consider a request by Arlyn Samuelson of Westwood Professional Services on behalf of Carolina Molina of SPR Packaging for the approval of Lot 3, Block A, SPR Packaging Addition being a replat of a 10.189-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

4. P2019-047
Consider a request by Matt Lucas, PE of Kimley Horn on behalf of Kevin J. Lloyd of 2424 MTA Realty, LLC for the approval of Lots 1, 2, & 3, Block A, MTA Andrews Addition being a final plat of a 9.6990-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwest corner of Ridge Road [FM-740] and Turtle Cove Boulevard, addressed as 2424 Ridge Road, and take any action necessary.

Commissioner Thomas made a motion to approve the consent agenda. Commissioner Womble seconded the motion which passed by a vote of 4-0 with Commissioners Chodun, Fishman, and Logan absent.

V. ACTION ITEMS

5. MIS2019-015
Discuss and consider a request by Michael Guerrero of Atticus Harbor Village, LLC for the approval of an alternative tree mitigation plan for a 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32),

situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation and background of the request. The applicant is requesting approval of an alternative tree mitigation settlement agreement for the subject property. On December 13, 2016 two site plans for the subject property laying out a 228-unit condominium development and a 48-unit townhome development. At the time of approval, the treescape plans for these cases indicated a total of 3,561 caliper-inches of trees would be removed from the subject property. The approved landscape plans for these cases indicated a total of 1,032 caliper inches would be added back to the subject property which left an outstanding mitigation balance of 2,529-inches. To address the outstanding balance the applicant has provided an invoice indicating the cost of providing the City with 843, three caliper inch trees. The invoice includes the cost of the trees and a delivery fee for a total of $125,000. According to the Unified Development Code, the mitigation balance may be satisfied by one or a combination of means. The developer can provide trees on site to off-set the mitigation balance, the developer may petition the Parks and Recreation Department to accept the required number of trees to off-set the mitigation balance, or lastly tree preservation credits may be purchased at a rate of $200.00 per inch for up to 20 percent of the total replacement inches. Additionally, if the developer plants a tree on the property, the developer would be eligible for a reduction in the cost of tree preservation credits of up to 50 percent which would be $100.00 per inch. Based on these choices, the applicant could purchase 20% of the total replacement inches (i.e. 505" = $50,580.00), which would leave a mitigation balance of 2,023-inches. The remaining mitigation balance would translate to 674, three caliper inch trees, which would need to be provided to the Parks and Recreations Department for off-site planting. In lieu of providing the trees the applicant has submitted an offer indicating they would like to settle the mitigation balance through an alternative tree mitigation settlement agreement.

Mr. Gonzales further noted that according to the Unified Development Code, this gives the City Council the ability to approve an alternative tree mitigation plans on a case-by-case basis pending a recommendation from the Planning and Zoning Commission. Should this request be approved, the applicant is proposing to satisfy the mitigation balance by providing a check in the amount of $125,000. These funds will be deposited in the City's tree mitigation fund and will be used for planting trees in the city's parks, medians, and other similar areas. If the City Council does not approve an alternative tree mitigation settlement agreement, the applicant intends to provide the full balance to the Parks Department to be used in other areas of the City.

Mr. Gonzales indicated that the applicant was present and available for questions as well as staff.

Vice-Chairman Welch asked the applicant to come forward.

Michael Guerrero
Atticus Real Estate
5339 Alpha Road
Dallas, TX

Mr. Guerrero came forward and provided a brief explanation of the request. He shared that they are looking to do is replace the cedar elm trees and the red buds with Italian cypress however Planning Director, Ryan Miller, clarified that what was before the Commission at this time was an alternative tree mitigation plan and anything veering from that would require to go through the zoning process. Mr. Guerrero indicated staff was correct and all necessary information pertaining to the request for the alternative tree plan was provided to the Commission from staff and he would be available for questions.

Vice-Chairman Welch asked for questions from the Commission and brought the item back to the Commission for questions or action.

Commissioner Thomas made a motion to approve MIS2019-015 with staff recommendations. Commissioner Womble seconded the motion which passed by a vote of 4-0 with Commissioners Chodun, Fishman and Logan absent.

(Agenda item #7 was discussed before Agenda #6)

VI. DISCUSSION ITEMS

6. Z2019-025

Hold a public hearing to discuss and consider a request for the approval of a text amendment to the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of allowing the *Rental, Sales, and Service of Heavy Machinery and Equipment* land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary.

Planning Director, Ryan Miller, provided a brief explanation of the agenda item. At the last City Council meeting the Council heard a request from a representative of the Home Depot. What they are looking to do is establish a tool rental center which is an allowed by right use in the Commercial District but in addition they want to have the ability to rent out heavy machinery equipment which is not allowed in the Commercial District. They requested to the City Council to direct staff to amend the Ordinance to allow that use to be allowed with a Specific Use Permit. By doing so the code would be changed which would affect all commercial properties within the Commercial District to allow this use however the Commission will be able to see on a case by case basis any Specific Use Permit requested. Mr. Miller advised the Commission staff was available for questions.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

Commissioner Womble asked where the machinery would be stored. Mr. Miller shared that the City's outside storage ordinance would address that and screening would need to be provided which would be something the Commission would review during the Specific Use Permit process.

There being no further questions Vice-Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

7. P2019-043

Discuss and consider a request by Pat Atkins of KPA Consulting, Inc. on behalf of the owners Jeff Kennemer and Robert Witte of Saddle Star South Holdings, LLC, William Thrailkill of CDT Rockwall/2017 LLC, and Gwendolyn Reed for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 176 single-family residential lots on a 70.408-acre tract of land identified as Tracts 1, 1-03, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation of the request. The case is a continuation of Saddle Star South. The PD was amended last month and Phase III was approved and are now going through the master and open space process and also will be going before the Parks Board. Mr. Gonzales indicated staff was available for questions.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

There being no questions Vice-Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

8. P2019-045

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 10, LTD for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive, and take any action necessary.

Planning Manager, David Gonzales, provided a brief explanation of the request. This is the final phase of Stone Creek and this case is before the Commission because it will be going before the

Parks Board to access parks fees and will be on the consent agenda at the next scheduled meeting. Mr. Gonzales advised the Commission staff was available for questions.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

There being no questions Vice- Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

9. P2019-046

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a preliminary plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552, and take any action necessary.

Planning Director, Ryan Miller, provided a brief explanation of the request. This will be one of the final phases of Breezy Hill and this case is before the Commission because it will be going before the Parks Board to access parks fees and will be on the consent agenda at the next scheduled meeting. Mr. Miller advised the Commission staff was available for questions.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

There being no questions Vice- Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

10. SP2019-043

Discuss and consider a request by Clay Cristy of ClayMoore Engineering, Inc. on behalf of Brian Berry of Milestone Electric, Inc. for the approval of an amended site plan for a multi-tenant office complex on a 9.52-acre tract of land identified as Lot 18 and the south portion of Lot 19, Rainbow Acres Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 407 Ranch Trail, and take any action necessary.

Planning Director, Ryan Miller, indicated the applicant was present and would go over the details of the request and staff would be available for questions.

Vice-Chairman Welch asked the applicant to come forward.

Clay Cristy
1903 Central Drive, Suite 406
Bedford, TX

Mr. Cristy came forward and provided a brief explanation of the request. Mr. Cristy shared that they came before the Commission a few months ago with this site and through the process of working with the Engineering Department they deemed that there was additional land that they could develop and they are now amending the site plan. He indicated he was available for questions.

Mr. Miller added that there are a couple of variances associated with the request and since they are increasing the variances that were approved before some of the configurations have changed with regards to parking and staff will denote those when the case comes back. One of the variances that need to be addressed is for vertical walls in the detention area. Currently the City does not allow that a four to one slope is required with no walls in the detention area. Additionally the screening will have to be addressed sooner than the applicant indicated with the last approval. Mr. Miller advised the Commission that staff was available for questions.

Mr. Cristy added that they will work with staff as well as the Architectural Review Board with any comments they receive regarding the variances.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

Vice-Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

11. SP2019-044

Discuss and consider a request by Steven Reyes of Ramsay & Reyes, LLC on behalf of Jimmy McClintock of LMGC, LLC for the approval of a site plan for an office building on a 0.739-acre tract of land identified as a portion of Lot 14 of the Lowe & Allen Addition [*0.4590-acres*] and Lot 2-R, Block A, Washington Place Addition [*0.28-acres*] , City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, situated within the SH-66 Overlay (SH-66 OV) District, addressed as 409 W. Washington Street, and take any action necessary.

Planning Director, Ryan Miller, provided a brief explanation of the request. The applicant is requesting to put an office building within the Downtown District which has a unique ordinance that is built around a form based code and as a result it has a lot of strict design criteria that the applicant will be required to meet. Due to that strict criteria the applicant will be requesting numerous waivers however staff is working with the applicant to work through those waivers especially on the design side. Mr. Miller went on to discuss some issues that have found with the building elevations. Mr. Miller advised the Commission that this site plan would more than likely take a few cycles to work through and the Commission will see it come before them at a later date additionally he noted that the applicant was not present however staff would be available to answer any questions.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion. Commissioner Womble asked if it would occupy one tenant or multiple tenants. Mr. Miller stated it would be a spec.

There being no further questions Vice-Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

12. SP2019-045

Discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Alton Frazier of Channell Commercial Corporation for the approval of an amended site plan for an existing industrial building on an 18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

Planning Manager, David Gonzales, advised the Commission the applicant was present and would provide details in regards to the request.

Vice-Chairman Welch asked the applicant to come forward.

Alton Frazier
1700 Justin Road
Rockwall, TX

Mr. Frazier came forward and provided details in regards to the request. They are updating the site plan to reflect the expansion of the building. He indicated he was available for questions. Mr. Gonzales added that the applicant will be requesting an exception to the parking because they are reducing the amount of parking by thirteen spaces. Additionally the Amphitheater encroaches onto the setback and will need to go before the Board of Adjustments for their approval in order for it to be within the setback.

Vice-Chairman Welch brought the item back to the Commission for questions or discussion.

Vice-Chairman Welch asked if changes to the landscaping would be affected by the John King road expansion. Mr. Gonzales shared that the applicant is upgrading the landscaping ant that will also be an exception. Mr. Miller added that due to the TXDOT expansion on John King the applicant is not in the position to plant the landscaping however they will in the future and in the interim the applicant is showing what landscape they will be providing to hide the outside storage visible from John King currently.

Commissioner Womble asked for further clarification of the amphitheater. Mr. Miller shared that they will have to go before the Board of Adjustments and justify a hardship to have a structure within the build line.

After general discussion in regards to the parking exception that is being requested, Vice-Chairman Welch indicated the case will return to the Commission for action at the next scheduled meeting.

13. Director's Report of post Council meeting outcomes of Planning & Zoning cases.
- ✓ P2019-040: Lots 1 & 2, Block A, Haley & Kyle Addition [*Approved*]
- ✓ MIS2019-014: Water/Wastewater Master Plans [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting.

VII. ADJOURNMENT

Vice-Chairman Welch adjourned the meeting at 6:55 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2019.

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
DATE:	December 10, 2019
APPLICANT:	Chase Finch; *Corwin Engineering, Inc.*
CASE NUMBER:	P2019-045; *Final Plat for Stone Creek, Phase X*

SUMMARY

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 10, LTD for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive, and take any action necessary.

PLAT INFORMATION

☑ The applicant is requesting the approval of a final plat for a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131. The purpose of the final plat is to establish 118 single-family residential lots as part of the Stone Creek Subdivision. It should be noted this is the final phase of the Stone Creek Subdivision, which upon completion will consist of a total of 886 single-family lots (*i.e. 32 lots less than the maximum permitted by Planned Development District 70 [PD-70]0*.

☑ The proposed final plat conforms to the approved Preliminary Plat (*i.e. P2007-021*) and Master Plat (*i.e. P2007-017*) approved in conformance with Planned Development District (PD-70).

☑ The subject property was annexed into the City with the remainder of the Stone Creek Subdivision, which was annexed by four (4) different ordinances: [*1*] *Ordinance No. 61-01* on February 6, 1961, [*2*] *Ordinance No. 61-02* on February 6, 1961, [*3*] *Ordinance No. 86-37* on May 19, 1986, and [*4*] *Ordinance No. 98-10* on March 16, 1998.

☑ On April 2, 2007, the City Council approved *Ordinance No. 07-13* [*Case No. Z2007-006 and the development agreements*] establishing *Planned Development District 70* (PD-70) for Single-Family 10 (SF-10) District and General Retail (GR) District land uses. Planned Development District 70 (PD-70) would later be amended three (3) times [*i.e. Ordinance No.'s 09-44, 11-35, & 19-41*], two (2) of which increased the amount of land zoned for General Retail (GR) District land uses, and the third to redefine the number of hard-edged ponds required within the residential subdivision.

☑ On December 3, 2019, the Parks and Recreation Board reviewed the final plat and made the following recommendations:

(1) The developer shall pay pro-rata equipment fees of $83,898.00 (*i.e. $711.00 x 118 lots*) to be paid at the time of final plat.

(2) The developer shall install a 10-foot wide curvilinear trail along John King Boulevard right-of-way with landscaping, and connecting to the existing trail system.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the Municipal Code of Ordinances* -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Phase X of the Stone Creek Subdivision,* staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) That the pro-rata equipment fees shall be paid prior to filing the final plat. These fees are subject to change from the time of approval by the Parks and Recreations Board at their December 3, 2019 meeting;

(3) The developer shall be responsible for constructing a ten (10) foot curvilinear trail along the right-of-way of John King Boulevard, and provide the required landscaping as stipulated by the SH-205 By-Pass Overlay (SH-205 BY-OV) District; and,

(4) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(11/20/2019 3:28 PM DG)
P2019-045: Final Plat – Stone Creek, Phase X Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a final plat for Stone Creek, Phase X containing 118 single-family residential lots on a 36.428-acre tract of land identified as a portion of Tract 3 of the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for Single Family-10 (SF-10) District land uses, located at the southwest corner of John King Boulevard and Featherstone Drive

I.2 For questions or comments concerning this case, please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com.

M.3 Please change the case number to P2019-045 in the lower right hand corner of all pages for the revised plat submittal

I.4 The final plat shall conform to all standards and requirements of Planned Development District 70 (PD-70) [i.e. Ordinance No. 19-41], the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document.

I.5 If there are any further street names changes prior to the plat being filed, contact Lance Singleton, GIS Supervisor – lsingleton@rockwall.com for approval.

I.6 Provide a label for all open space areas to read as follows: 'Open Space To Be Maintained by the Homeowner's Association (HOA).' Although line 5 under 'Notes' indicates HOA responsibility, the label as requested is to provide consistency throughout this development.

I.7 Consider changing all year dates on pages 2 & 3 of the plat to a blank line in order to fill in the year or use 2020. This is for filing purposes as the plat may be filed in the year 2020.

M.8 Correct the Owner's Certificate by changing statement No. 6 and including the language in statement number 7 as found on the application package, which reads as follows:

7. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements.

(Section 38-10, of Chapter 38, of the Municipal Code of Ordinances)

I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for the applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the December 10, 2019 Planning and Zoning Meeting.

**The Planning and Zoning Work Session will be held on November 26, 2019. **

I.10 The City Council meeting for this case is scheduled to be held on December 16, 2019.

I.11 The Parks and Recreation Board Meeting for this case is scheduled to be held on December 3, 2019.

I.12 Please provide one (1) large copy [18" X 24" FOLDED] and one PDF version for a subsequent/final review by staff.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

I.13 Please note that failure to address all comments provided by staff by3:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal and a new application and fee will be required to resubmit the case.

I.14 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.

I.15 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

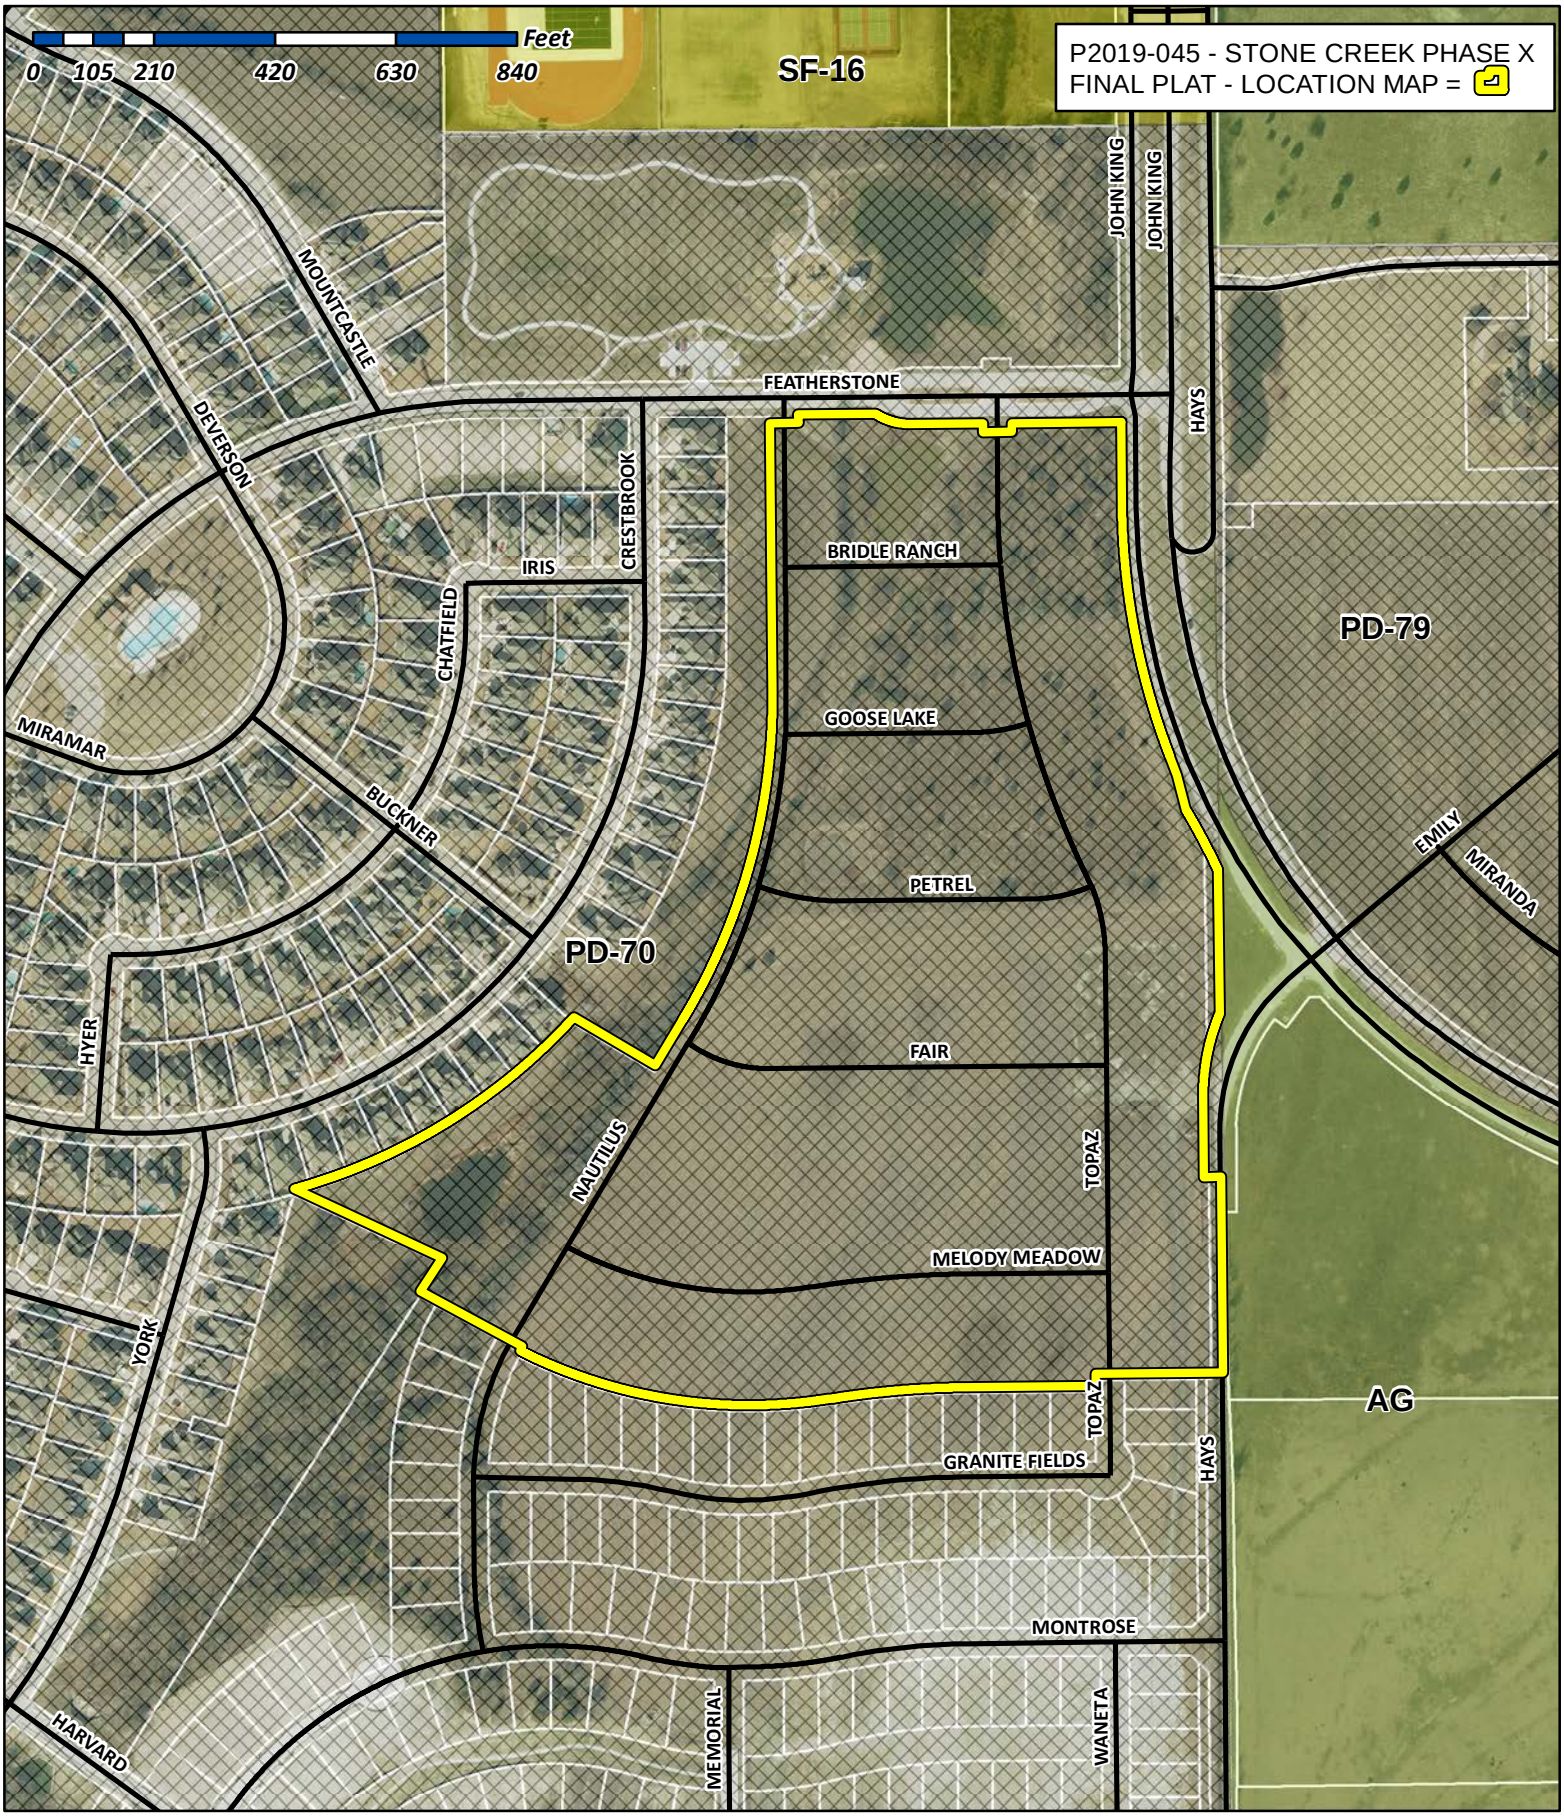
P2019-045: Revision 1 Final Plat – Stone Creek, Phase X Addition
Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 The final plat shall conform to all standards and requirements of Planned Development District 70 (PD-70) [i.e. Ordinance No. 19-41], the Unified Development Code (UDC), and staff comments provided by the Planning, Engineering, Building Inspections, and Fire Department as indicated in the Project Plan Review document. (Chapter 38, Municipal Code of Ordinances)

I.2 Provide a label on all open space areas of the plat to read as follows: 'Open Space To Be Maintained by the Homeowner's Association (HOA).' (Chapter 38, Municipal Code of Ordinances)

I.3 Change all year dates -- where appropriate -- on pages 3 of the plat to a blank line in order to fill in the year or use 2020. This is for filing purposes as the plat may be filed in the year 2020. (Chapter 38, Municipal Code of Ordinances)

I.4 Please note that once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions are to be approved (by staff) prior to the plat being submitted on mylar for filing.



I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please see the following scheduled meeting dates below (i.e. I.6 & I.7).

I.6 The Planning and Zoning Meeting will be held on December 10, 2019.

I.7 The City Council meeting for this case is scheduled to be held on December 16, 2019.

I.8 Please provide one (1) large copy [24" X 36" FOLDED] and one PDF version for a subsequent/final review by staff.

I.9 Staff recommends that a representative be present for the meetings as scheduled above. The meetings will be held in the City's Council Chambers and begin at 6:00 p.m.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the STONE CREEK PHASE X, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the STONE CREEK PHASE X, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision. Property owner shall be responsible for maintaining, repairing, and replacing all systems within the drainage and detention easements.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CASE NO. P2019-045

LEGAL DESCRIPTION

BEING, a tract of land situated in the W.T. DeWeese Survey, Abstract No. 71 and the S. King Survey, Abstract No. 131 in the City of Rockwall, Rockwall County, Texas, being part of a tract of land as described in Stone Creek Balance LTD., Clerks File No. 2007-00375394 and Stone Creek SF, LTD., Clerks File No. 2007-00375398 in said Deed Records, and being more particularly described as follows:

BEGINNING, at a 1/2 inch iron rod found at the northeast corner of Stone Creek Phase IX, an addition to the City of Rockwall, as described in Cab._Pg,_in the Plat Records of Rockwall County, Texas, and being in Hays Road;

THENCE, South 89° 24'25" West, along the north line of said Stone Creek Phase IX, for a distance of 222.00 feet, to a 1/2 inch iron rod found;

THENCE, South 00° 35'35" East, continuing along said north line, for a distance of 21.11 feet, to a 1/2 inch iron rod found;

THENCE, South 89° 24'25" West, continuing along said north line, for a distance of 226.33 feet, to a 1/2 inch iron rod found at the point of curvature of a curve to the left, having a radius of 1560.00 feet, a central angle of 08° 38'43";

THENCE, continuing along said north line and with said curve to the left for an arc distance of 235.39 feet (Chord Bearing South 85° 05'03" West - 235.16 feet), to a 1/2 inch iron rod found at the point of reverse curvature of a curve to the right, having a radius of 880.00 feet, a central angle of 36° 03'38";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 553.85 feet (Chord Bearing North 81° 12'30" West - 544.75 feet), to a 1/2 inch iron rod found on a non-tangent curve to the right, having a radius of 475.00 feet, a central angle of 01° 01'09";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 8.45 feet (Chord Bearing North 28° 02'57" East - 8.45 feet), to a 1/2 inch iron rod found;

THENCE, North 61° 26'29" West, continuing along said north line, for a distance of 201.15 feet, to a 1/2 inch iron rod found in the east line of Stone Creek Phase IV, an addition to the City of Rockwall, as described in Cab. H, Pgs. 317-318, in said Plat Records and being the northwest corner of said Stone Creek Phase IX;

THENCE, North 32° 48'57" East, along the east line of said Stone Creek Phase IV, for a distance of 68.38 feet, to a 1/2 inch rod found at the most easterly northeast corner of said Stone Creek Phase IV;

THENCE, North 65° 00'04" West, along the north line of said Stone Creek Phase IV, for a distance of 283.02 feet, to a 1/2 inch iron rod found, being in a south line of Stone Creek Phase I, an addition to the City of Rockwall, as described in Cabinet G, Pages 359-365 in said Plat Records, being on a non-tangent curve to the left, having a radius of 1030.00 feet, a central angle of 37° 07'00";

THENCE, departing the north line of said Stone Creek Phase IV and along the south line of said Stone Creek Phase I and with said curve to the left for an arc distance of 577.36 feet (Chord Bearing North 58° 24'09" East - 569.83 feet), to a 1/2 inch iron rod found, being the southeast corner of Lot 10 Block I out of said Stone Creek Phase I, same being the south line of Stone Creek Phase IIA, an addition to the City of Rockwall, as described in Cabinet H, Pages 293-294 in said Plat Records;

THENCE, South 59° 19'11" East, departing the south line of said Stone Creek Phase I and along the south line of said Stone Creek Phase IIA, for a distance of 164.69 feet, to a 1/2 inch iron rod found being the southwest corner of said Stone Creek Phase IIA;

THENCE, North 30° 40'49" East, along the east line of said Stone Creek Phase IIA, for a distance of 90.28 feet, to a 1/2 inch iron rod found being the point of curvature of a curve to the left, having a radius of 1125.00 feet, a central angle of 24° 31'11";

THENCE, continuing along said east line and with said curve to the left for an arc distance of 481.44 feet (Chord Bearing North 11° 40'00" East 477.78 feet), to a 1/2 inch iron rod found at the point of tangency;

THENCE, North 00° 35'35" West, continuing along said east line, for a distance of 460.08 feet, to a 1/2 inch iron rod found being in the south line of Featherstone Drive, an addition to the City of Rockwall, as described in Cab. H, Pgs. 33-34, in said Plat Records;

THENCE, North 89° 25'13" East, departing said east line and with said south line, for a distance of 50.00 feet, to a 1/2 inch iron rod found;

THENCE, North 00° 35'35" West, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 133.20 feet, to a 1/2 inch iron rod found, being on a curve to the left, having a radius of 110.00 feet, a central angle of 34° 10'49";

THENCE, continuing along said south line and with said curve to the left for an arc distance of 65.62 feet (Chord Bearing South 73° 29'23" East - 64.65 feet), to a 1/2 inch iron rod found, being the point of tangency;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 125.01 feet, to a 1/2 inch iron rod found;

THENCE, South 00° 35'35" East, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 50.00 feet, to a 1/2 inch iron rod found;

THENCE, North 00° 35'35" West, continuing along said south line, for a distance of 15.00 feet, to a 1/2 inch iron rod found;

THENCE, North 89° 25'13" East, continuing along said south line, for a distance of 190.00 feet, to a ½ inch iron rod found at the most easterly southeast corner of said Featherstone Drive and being in the west line of John King Boulevard (120' R.O.W.), as described in Doc. No. 2007-0038477 in said Deed Records;

THENCE, South 00° 35'35" East, along the west line of said John King Boulevard, for a distance of 142.99 feet, to a 1/2 inch iron rod found being the point of curvature of a curve to the left, having a radius of 1260.00 feet, a central angle of 20° 22'32";

THENCE, continuing along said west line and with said curve to the left for an arc distance of 448.08 feet (Chord Bearing South 10° 46'51" East - 445.72 feet), to a 1/2 inch iron rod found;

THENCE, South 19° 17'03" East, continuing along said west line, for a distance of 34.76 feet, to a nail found;

THENCE, South 15° 03'48" East, continuing along said west line, for a distance of 61.67 feet, to a nail found on a non-tangent curve to the left, having a radius of 1271.00 feet, a central angle of 05° 21'14";

THENCE, continuing along said west line and with said curve to the left for an arc distance of 118.77 feet (Chord Bearing South 27° 58'51" East - 118.72 feet), to a nail found in the east line of said Stone Creek Balance, being in said Hays Road;

THENCE, South 00° 35'35" East, departing said west line and along the east line of said Stone Creek Balance and with said Hays Road, for a distance of 191.20 feet, to a 1/2 inch iron rod found at the most northerly corner of Part 2, R.O.W. Dedication, as described in Doc. No. 2007-00384711, in said Deed Records being on a curve to the left, having a radius of 380.00 feet, a central angle of 22° 31'28";; THENCE, South 89° 24'25" West, along the north line of said Stone Creek Phase IX, for a distance of 222.00 feet,to a 1/2 inch iron rod found;

THENCE, departing the east line of said Stone Creek Balance Tract and continuing along Hays Road with the west line of said Part 2 tract and along said curve to the left having an arc distance of 149.39 feet (Chord Bearing South 10° 53'46" West 148.43 feet), to a 1/2 inch iron rod found;

THENCE, South 00° 21'58" East, continuing along said lines, for a distance of 136.79 feet, to a nail found at the southwest corner of said Part 2 tract;

THENCE, North 89° 38'02" East, along the south line of said Part 2 tract, for a distance of 30.11 feet, to a 1/2 inch iron rod found at the southeast corner of said Part 2 tract, being in east line of said Stone Creek Balance tract and said Hays Road;

THENCE, South 00° 35'35" East, along the east line of said Stone Creek Balance tract and with Hays Road, for a distance of 339.01 feet, to the POINT OF BEGINNING and containing 36.428 acres of land.

SURVEYOR CERTIFICATE

I, WARREN L. CORWIN, do hereby certify that the plat shown hereon accurately represents the results of an on-the-ground survey made under my direction and supervision and all corners are as shown thereon and there are no encroachments, conflicts, protrusions or visible utilities on the ground except as shown and said plat has been prepared in accordance with the platting rules and regulations of the City Plan Commission of the City of Rockwall, Texas.

APPLICANT:	Chase Finch; *Corwin Engineering, Inc.*
CASE NUMBER:	P2019-046; *Breezy Hill, Phase XI*

SUMMARY

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a final plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552, and take any action necessary.

PLAT INFORMATION

☑ The Breezy Hill Subdivision is a master planned community that will provide approximately 405-acres of residential and commercial development. The residential subdivision will be composed of 750 single-family lots on 371.45-acres of land, and be broken down per the lot mix indicated in Planned Development District 74 (PD-74). The lot mix in this Planned Development District is as follows.

Lot Types	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Typical Lot Frontage (Feet)	*60'*	*70'*	*80'*	*100'*	*60'*	*100'*	*70'*
Typical Lot Depth (Feet)	*120'*	*120'*	*125'*	*200'*	*110'*	*180'*	*120'*

☑ The applicant is requesting to *final plat* Phase XI of the Breezy Hill Subdivision for the purpose of laying out 78 lots on a ~23.849-acre portion of the 371.45-acre subdivision. The 78 proposed lots will be constructed to the *Type 'G'* standards (*all standards are displayed in the table above*).

☑ On December 3, 2019 the Parks and Recreation Board reviewed the *final plat* and made a recommendation to approve the plat with the following conditions:

- The developer is to pay the pro-rata equipment fees required in the amount of $19,890 [*i.e. 78 Lots @ $255.00 Per Lot*].

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat -- *conforming to the requirements for final plats as stipulated by the Subdivision Ordinance in the*

Municipal Code of Ordinances -- is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Conditions of Approval* section below.

☑ With the exception of the items listed in the *Conditions of Approval* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission chooses to recommend approval of the final plat for *Breezy Hill, Phase XI*, staff would propose the following conditions of approval:

(1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

(2) The development shall adhere to the recommendations of the Parks and Recreation Board;

(3) Any construction resulting from the approval of this plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2019-046; Breezy Hill, Phase XI Addition

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 11, LTD for the approval of a preliminary plat for the Breezy Hill, Phase XI containing 78 single-family lots on a 23.849-acre tract of land identified as a portion of Tract 7 and all of Tract 7-06 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single-Family 10 (SF-10) District land uses, generally located adjacent to Breezy Hill Road north of the intersection of Breezy Hill Road and FM-552.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2019-046) in the lower right-hand corner of all pages on future submittals.

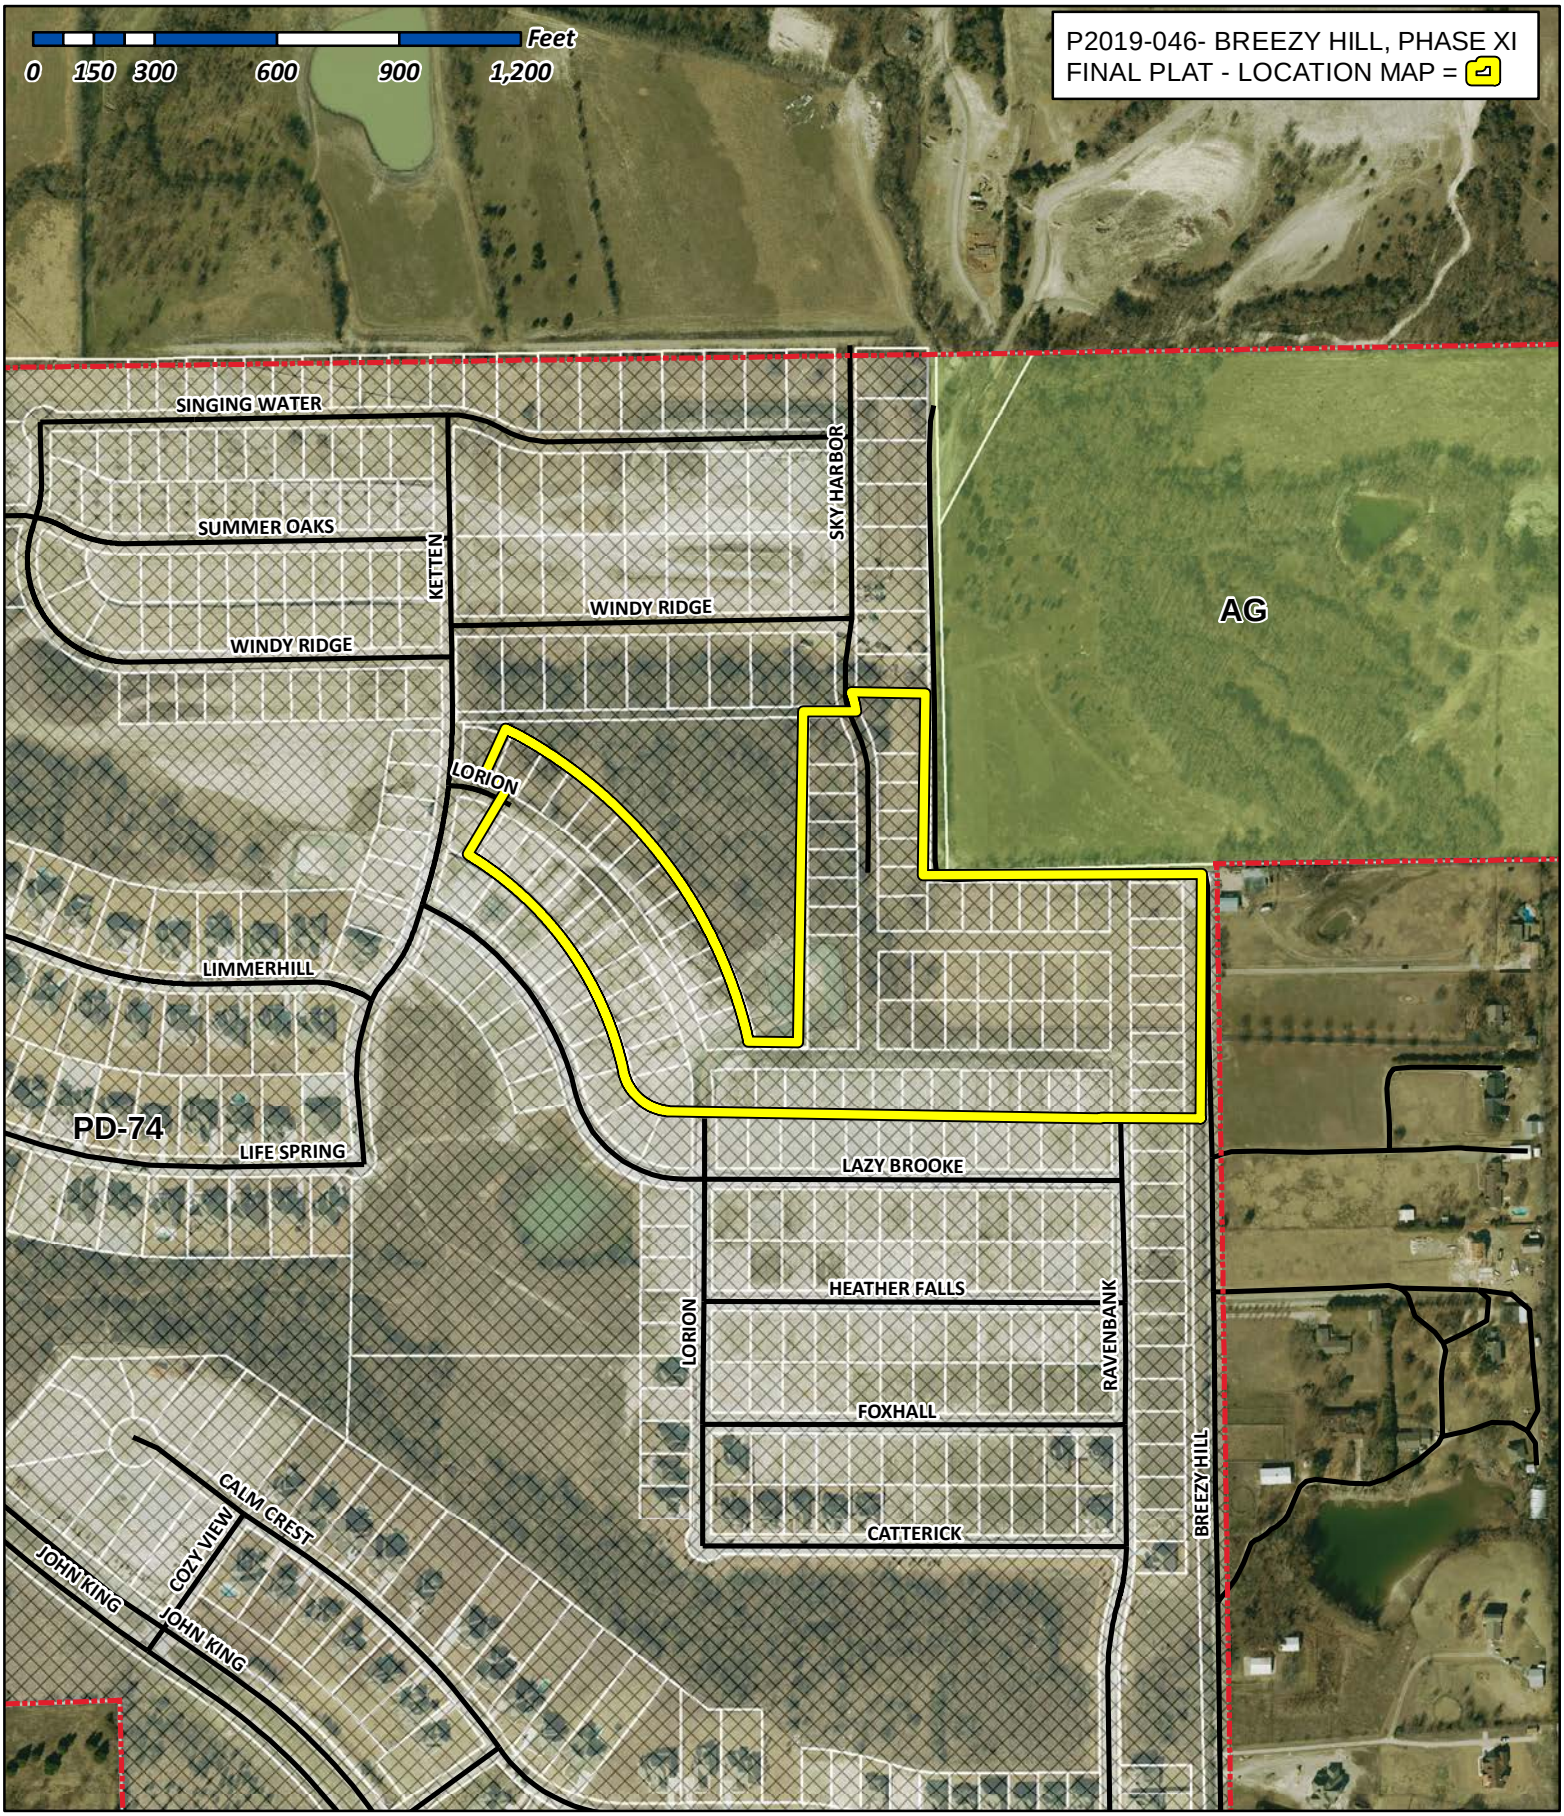
I.4 This project is subject to all requirements stipulated by the Unified Development Code (UDC).

M.5 Please make the following clarifications on the replat to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

(1) Please label the Point of Beginning

(2) Please show and label landscape buffer adjacent to BH Road.

(3) Please provide signature line for Chuck Sink



(4) Please review and confirm lot count

Lot Types	A	B	C	D	E	F	G	TOTAL

REMAINING	23	-12	-10	32	0	11	-9	35

I.6 Please note thatfailure to address all comments provided by staff by 5:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested.

- Revisions for this case will be due on December 3, 2019;
- The Planning & Zoning Worksession is November 26, 2019.
- The Park Board Meeting for this case is December 3, 2019
- The Planning and Zoning Commission Meeting for this case is December 10, 2019
- The City Council Meeting for this case is December 16, 2019.

   W.E. - Water line Easement
   S.S.E. - Sanitary Sewer Easement
   V.A.M.S. - Visibility, Maintenance & Sidewalk Easement
   H.O.A. - Homeowners Association
   ◊ - Street Name Change
5. All open spaces, drainage easements, detention easements and other common areas shall be repaired, replaced, and maintained by property owner and/or Homeowners Association.
6. No building permits will be issued until all public improvements are accepted by the City.
7. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer, and storm drainage system have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

LEGAL DESCRIPTION

BEING, a tract of land situated in the J. Strickland Survey, Abstract No. 187 in the City of Rockwall, Rockwall County, Texas, being out of a 39.298 acre tract, as described in Clerks File No. 20130000498882 in the Deed Records of Rockwall County, Texas and being all of a 2.944 acre tract, as described in Clerks File No. 20180000010717 and being more particularly described as follows:

BEGINNING, at a 1/2 inch iron rod found at the northeast corner of Breezy Hill Phase V, as addition to the City of Rockwall, as described in a Cab. J, Pg. 27 in the Plat Records of Rockwall County, Texas and being in the east line of said 39.298 acre tract same being in Breezy Hill Road (Variable R.O.W.);

THENCE, North 89° 43'54" West, along the north line of said Breezy Hill Phase V, for a distance of 244.79 feet, to a 1•2 inch iron rod found;

THENCE, South 00° 16'06" West, continuing along said north line, for a distance of 1.16 feet, to a 1•2 inch iron rod found;

THENCE, North 89° 02'54" West, continuing along said north line, for a distance of 1054.06 feet, to a 1/2 inch iron rod found at the point of curvature of a curve to the right, having a radius of 125.00 feet, a central angle of 76° 51'49";

THENCE, continuing along said north line and with said curve to the right for an arc distance of 167.69 feet (Chord Bearing North 50° 36'59" West 155.40 feet), to a 1/2 inch iron rod found at the point of reverse curvature of a curve to the left, having a radius of 825.00 feet, a central angle of 46° 53'29";

THENCE, continuing along said north line and said with curve to the left for an arc distance of 675.19 feet (Chord Bearing North 35° 37'50" West 656.50 feet), to a 1/2 inch iron rod found at the most southerly southeast corner of Breezy Hill Phase VI, an addition to the City of Rockwall, as described in Cab. J Pg. 291 in said Plat Records;

THENCE, North 30° 55'26" East, departing said north line and along the east line of said Breezy Hill Phase VI, for a distance of 191.00 feet, to a 1/2 inch iron rod found on a curve to the left, having a radius of 1016.00 feet, a central angle of 02° 27'58";

THENCE, continuing along said east line and with curve to the left for an arc distance of 43.73 feet (Chord Bearing North 60° 18'33" West 43.73 feet), to a 1/2 inch iron rod found at the point of compound curvature of a curve to the left, having a radius of 275.00 feet, a central angle of 04° 19'35";

THENCE, continuing along said east line and with said curve to the left for an arc distance of 20.77 feet (Chord Bearing North 63° 42'20" West 20.76 feet), to a 1/2 inch iron rod found;

THENCE, North 24° 07'53" East, continuing along said east line, for a distance of 125.00 feet, to a 1/2 inch iron rod found in the south line of a 6.705 acre tract, as described in Clerks File No. 20150000004156 in said Deed Records and being in the north line of said 39.298 acre tract being on a curve to the right, having a radius 400.00 feet, a central angle of 04° 19'35";

THENCE, along the south line of said 6.705 acre tract and north line of said 39.298 acre tract with said curve to the right for an arc distance of 30.20 feet (Chord Bearing South 63° 42'20" East 30.20 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the point of compound curvature of a curve to the right, having a radius of 1141.00 feet, a central angle of 49° 01'03";

THENCE, continuing along said lines and with said curve to the right for an arc distance of 976.14 feet (Chord Bearing South 37° 02'01" East 946.65 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most southerly southwest corner of said 6.705 acre tract;

THENCE, South 89° 02'54" East, continuing along said lines, for an arc distance of 121.36 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most southerly southeast corner of said 6.705 acre tract and being an interior ell corner of said 39.298 acre tract;

THENCE, North 00° 57'06" East, along the east line of said 6.705 acre tract and a west line of said 39.298 acre tract, at 390.00 feet, passing the southwest corner of said 2.944 acre tract and a northwest corner of said 39.298 acre tract, continuing for a total distance of 813.56 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the northeast corner of said 6.705 acre tract and being in the south line of a 30.728 acre tract, as described Clerks File No. 20170000023682, in said Deed Records same being the northwest corner of said 2.944 acre tract;

THENCE, South 89° 39'37" East, along the south line of said 30.728 acre tract and the north line of said 2.944 acre tract, for a distance of 130.28 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", on a non-tangent curve to the right, having a radius of 225.00 feet, a central angle of 12° 28'10";

THENCE, continuing along said north and south lines and with said curve to the right for an arc distance of 48.97 feet (Chord Bearing North 14° 00'23" West 48.87 feet), to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, South 89° 02'37" East, continuing along said lines, for a distance of 182.39 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the northeast corner of said 2.944 acre tract and being an ell corner of said 30.728 acre tract being in the west line of a 2.64 acre tract, as described in Vol. 4341, Pg. 2426, in the Deed Records of Collin County, Texas;

THENCE, South 00° 57'23" West, along east line of said 2.944 acre tract, at 430.02 feet, passing the southeast corner of said 2.944 acre tract and an ell corner of said 39.298 acre tract and continuing with the west line of said 2.64 acre tract, for a total distance of 446.89 feet, to a 5/8 inch iron rod found at the southwest corner of said 2.64 acre tract;

THENCE, North 89° 40'58" East, along the south line of said 2.64 acre tract, for a distance of 686.22 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc." at the southeast corner of said 2.64 acre tract being in said Breezy Hill Road same being in the east line of said 39.298 acre tract;

THENCE, South 00° 17'23" West, along the east line of said 39.298 acre tract and Breezy Hill Road, for a distance of 601.42 feet, to the POINT OF BEGINNING and containing 23.849 acres of land.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owner"s" of the land shown on this plat, and designated herein as the BREEZY HILL PHASE XI, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration thereinexpressed. We further certify that all other parties who have a mortgage or lien interest in the BREEZY HILL PHASE XI, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements asdescribed herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

7. The Homeowners Association is responsible for maintaining all non-standard decorative signs, poles/post, hardware or other non standard items. The City of Rockwall has no maintenance or other responsibility related to these items. The City of Rockwall and the Homeowners Association agree the association will bear any and all maintenance cost related the said improvements. The City has the statutory authority to install and maintain Traffic Control Devices for Vehicular traffic on public Streets/Roads within the public right-of-way. This agreement in no way constitutes a change in that authority and does not constitute any delegation of that authority of the Association.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	Korey Brooks; *Senior Planner*
DATE:	December 10, 2019
SUBJECT:	Z2019-025; *Amendment to Article IV, Permissible Uses, of the UDC to allow the Rental, Sales, and Service of Heavy Machinery in a Commercial (C) District*

On November 4, 2019, the City Council directed staff to amend the *Land Use Standards* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) to allow the *Rental, Sales, and Service of Heavy Machinery* land use with a Specific Use Permit (SUP) in a Commercial (C) District. This direction came in response to a request submitted by Scott Mommer of Lars Anderson & Associates, Inc. to amend the code to allow the *Rental, Sales and Service of Heavy Machinery* in conjunction with an existing hardware store (*i.e. Home Depot*). The proposed facility will operate as a tool rental center (*i.e. power drills, saws, electric sanders*), which is permitted by-right in a Commercial (C) District. In addition to the rental of tools, the facility will also offer the rental of heavy equipment. Currently, the Unified Development Code (UDC) only permits *Rental, Sales, and Service of Heavy Machinery* in a Heavy Commercial (HC) or Heavy Industrial (HI) District by-right and in a Light Industrial (LI) District with a Specific Use Permit (SUP). Based on the City Council's direction staff proposes to change the code as follows (with the *highlighted, italics* areas indicating the changes):

Additions: Highlighted
Deletions: ~~Highlighted, Strikeout~~

SECTION 2: CONDITIONAL LAND USE STANDARDS AND DEFINITIONS

SUBSECTION 2.03: CONDITIONAL LAND USE STANDARDS.

(G) *Commercial and Business Services Land Uses.*

(5) *Rental, Sales, and Service of Heavy Machinery*

(a) In the Commercial (C) District, the *Rental, Sales, and Service of Heavy Machinery* land use is only permitted as an ancillary use to a *General Retail Store* (*i.e. a business whose primary purpose is to sell finished goods*) by Specific Use Permit (SUP).

(b) All outside storage of equipment and machinery shall be visibly screened from all adjacent properties utilizing one of the screening alternatives outlined in Subsection 05.02.(A), *Loading Docks and Outside Storage Areas*, of Article VIII, *Landscape and Fence Standards*, of the Unified Development Code (UDC).

(c) The storage area for equipment and machinery shall not occupy any required parking spaces. Excess parking spaces may be used if all other requirements are met.

(d) The storage and/or display of equipment and machinery shall be in a stowed position so as to not extend any part of the equipment or machinery in an upward or outward manner.

(e) The conditions above shall not be construed to permit the outside storage of equipment and machinery for outside display, and does not permit additional outside storage of other materials that are not associated with the *Rental, Sales, and Service of Heavy Machinery* land use.

(f) Maintenance or service of any equipment and machinery shall not be performed on-site.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications,* of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. The schedule for this text amendment is as follows:

~~Planning and Zoning Work Session: November 26, 2019~~
Planning and Zoning Public Hearing: December 10, 2019
City Council Public Hearing/First Reading: December 16, 2019
City Council Second Reading: January 6, 2020

Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. Should the Planning and Zoning Commission have any questions staff will be available at the meeting on *December 10, 2019*.

CITY OF ROCKWALL

ORDINANCE NO. 20-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*, OF THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*], PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Municipal Code of Ordinances should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance;

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JANUARY, 2020.

DRAFT ORD. 20-XX

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT
385 S. GOLIAD STREET • ROCKWALL, TX 75087
PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO:	Planning and Zoning Commission
FROM:	David Gonzales, *Planning and Zoning Manager*
DATE:	December 10, 2019
SUBJECT:	SP2019-045; *Amended Site Plan for an Existing Manufacturing Facility (Channell Commercial Corporation)*

On July 8, 2014, the Planning and Zoning Commission approved a site plan [*i.e. SP2014-011*] for a ~295,910 SF warehouse/manufacturing facility [*i.e. Channell Commercial Corporation]*. In conjunction with this site plan approval, the City Council approved the following five (5) variances and exceptions for this development on July 21, 2014:

(1) A variance to the building materials (i.e. masonry and stone requirements) for not incorporating a minimum of 20% natural stone on all facades and to allow for tilt-up wall construction;
(2) A variance to allow for one (1) light pole to exceed the 20-feet overall maximum height (i.e. 27-ft OAH);
(3) A variance to the minimum parking requirements based on the number of employees per shift;
(4) An exception for the use of tilt-up wall construction; and,
(5) An exception to the vertical and horizontal articulation standards.

On November 15, 2019, the applicant -- *Mark Pross of Pross Design Group* -- submitted an application requesting the approval of an amended site plan for the purpose of establishing outside storage areas and realigning the western drive aisle. Staff should point out that *Channell Commercial Corporation* had submitted a replat [*i.e. Case No. P2019-027*] on June 13, 2019 for the purpose of realigning the drive aisle by abandoning certain portions of the firelane & water easements. On July 1, 2019, the City Council approved the plat with the condition that an amended site plan be approved for the realignment of the drive aisle. The final plat is to be filed after approval of the amended site plan. This has been made a condition of approval for this case. Additionally, the future amphitheater to be located at the southeastern portion of the lot -- *adjacent to John King Boulevard* -- will require approval by the Board of Adjustments in order to be located within the building setback as depicted on the site plan. This has also been made a condition of approval for this case.

Currently, the subject property has outside storage that is located on the north side of the building, adjacent to the Rockwall Service Center. It is the intent of the applicant to relocate a portion of the storage, losing 32 parking spaces; however, there are 42 parking spaces being added to the site increasing the existing parking by 10 spaces. With the additional outside storage being requested, it should be known that the current outside storage located on the north side of the building has limited screening [*i.e. two (2), six (6)-foot tall fence sections with black mesh*] and is visible from John King Boulevard. Based on the submitted landscape plan, the applicant is proposing to use a three (3) tiered living screen consisting of four (4), Live Oak trees that are ~14-16 feet in height and measuring 4½ to 5-caliper inches, nine (9) Nellie R. Stevens Holly trees, and 23 Needle Point Holly shrubs, with a six (6) foot tall wrought iron fence. The proposed landscape screening located at the northwest corner of the site requires approval by the Planning and Zoning Commission to allow for not meeting the standards of Subsection 1.05*, Screening Standards,* of Article V*, District Development Standards*, of the Unified Development Code (UDC), which requires a masonry wall and canopy trees on 20-ft centers. As an alternative, the Planning and Zoning Commission may approve a screening method in accordance with Subsection 5.02*, Landscape Screening Standards*, of Article VIII*, Landscape Standards*. The applicant is requesting to use *Alternative #1* of this section by incorporating a wrought iron fence and

three (3) tiered screening for this area. As a compensatory measure, the applicant is providing additional landscaping in this area, which will provide less visibility from John King Boulevard. A variance to the screening requirements for the use of landscape screening for the storage area remains a discretionary decision for the Planning and Zoning Commission. Should the Planning and Zoning Commission have any questions, staff will also be available at this meeting.

M - Shade any future items that are not being considered in this project. It is difficult to tell what is being proposed.
M - Must show all existing and proposed utilities.
M - Add note to the landscape plan, "No trees within 5' of utilities." Standards of Design and Construction Sect. 4.4

I - Must have approval from NTMWD to grade or construct anything in their easement.
I - 4% Engineering inspection fees
I - Impact fees for new/up-sizing water taps or building square footage.
I - No storage in fire lane or utility easements
I - Parking to be 20'x9' if adjacent to the building or head-to-head, all else to be 18'x9' min.
I - Must have detention for all future storage areas per reference plans for Justin Rd. On what is being detained already. portion at corner of Industrial and Justin that is not detained, that will need to be. In the future.
I - All retaining walls to be rock or stone faced. No smooth concrete walls.
I - Retaining walls 3' and over must be engineered.
I - Must meet all city standards of design and construction.
I - Engineering review fees apply.

SP2019-045; Amended Site Plan for Channell Communications Corp.
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of an amended site plan for an existing industrial building on an18.762-acre parcel of land identified as Lot 2, Block A, Channell Subdivision Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 1700 John King Boulevard.

I.2 For questions or comments concerning this case please contact David Gonzales in the Planning Department at(972) 772-6488 or email dgonzales@rockwall.com.

M.3 For reference, include the case number (SP2019-045) in the lower right-hand corner of all pages of all revised plan submittals (i.e. site plan and landscape plan).

I.4 This project is subject to all requirements stipulated by the Unified Development Code(UDC), and the Development Standards of Article V, that are applicable to the subject property.

I.5 Please note that the property will require a replat prior to the issuance of a building permit. As a note, the site plan must be approved prior to the filing of the plat.

M.6 Site Plan. Please make the following clarifications on the site plan to ensure staff can properly review this project and convey all of the required elements to the City's boards and commissions:

1) Under the Parking Data table, the removal and addition of parking spaces are resulting in a net loss of 13 parking spaces. This will require approval of a variance to allow for the parking to not meet the standards. Additionally, with future parking being indicated on the east portion of the site, it is encouraged to provide staff with the total parking for this site (i.e. include, but hatch the future parking spaces) for an overall parking layout. Please provide the parking count for each use (i.e. office, warehouse, & manufacturing) and include the number of employees on each shift as justification -- refer to the approved 2014 site plan SP2014-011 as an example. (Section 6, Table 3, of Article VI, of the UDC) Exception Required (Section 9, Art. XI, UDC).
2) Provide a label identifying the parking count (i.e. 9, 10, etc.) for each parking aisle in order to verify the existing and proposed parking spaces.
3) Provide total SF of additions (i.e. parking areas, building additions, etc.).
4) Hatch the area located on the eastern portion of the lot (noted as future building) to better delineate the existing area vs future building area(s).
5) Outside storage areas are to be screened to the height of what is being stored(Subsection 1.05(5), of Article V, UDC). Is the proposed storage area on the eastern portion of the lot (i.e. future area) being considered? If so, see Subsection 5.02.A, of Article VIII, of the UDC for appropriate screening of this area.
6) Provide a label identifying the existing and proposed sidewalks, including the existing 10-ft trail/walkway along John King Blvd.
7) Provide a standard signature block with signature space for the Planning and Zoning Chairman and Planning Director. See attachment with packet provided
8) There is a label on the North West corner of the site indicating future parking. Is there going to be future parking along this area as indicated?

M.7 Building Elevations. Provide building elevations for the proposed guard shack (Section 3, of Article XI, of the UDC).

M.8 Landscape Plan. The proposed landscape screening located at the North West corner of the site requires approval by the Planning and Zoning Commission to allow for not meeting the standards of Subsection 1.05, Screening Standards, of Article V, District Development Standards, of the UDC (Subsection 5.02(C), Art. VIII, UDC).

I.9 Civil Set. As a note, the civil set submitted with this application on CD were not reviewed, and are not considered an engineering submittal with this application.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

M.10 Based on the submittal staff has identified the following exceptions& variances:

1) Required Parking Spaces. The proposed site plan does not meet the minimum standards for parking for this site. The site plan indicates a reduction in the number of parking spaces to allow for outside storage areas that were not present on the approved site plan from July 21, 2014 [i.e. SP2014-011] and will require approval of an exception by the Planning and Zoning Commission.

To be able to request a exception, an applicant needs to provide a letter stating the justification for each variance requested and indicate a minimum of two (2) compensatory measures for each that directly tie to off-setting the impact of the variance. Please also note that all of the requested variances will require a simple majority vote for approval. Refer to Section 9, of Article XI, of the UDC for examples of compensatory measures.

I.11 Please note that failure to address all comments provided by staff by 3:00 PM on December 3, 2019 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

I.12 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on December 3, 2019; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the December 10, 2019 Planning & Zoning Meeting.

** Please note that the Planning & Zoning Work Session meeting will be held on November 26, 2019.

I.13 Staff recommends that a representative be present for the meetings as scheduled above. The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

(12/5/2019 11:01 AM DG) SP2019-045; Revision 1 - Amended Site Plan for Channell Communications Corp. Please address the following comments (M= Mandatory Comments; I = Informational Comments) I.1 For questions or comments concerning this case please contact David Gonzales in the Planning Department at(972) 772-6488 or email dgonzales@rockwall.com. I.2 Please note that the property will require a replat prior to the issuance of a building permit. As a note, the site plan must be approved prior to the filing of the plat. I.3 The future outdoor amphitheater will require approval by the Board of Adjustments to be located within the building set-back. This will be listed as a condition of approval of the site plan. M.4 Landscape Plan. The proposed landscape screening located at the North West corner of the site requires approval by the Planning and Zoning Commission to allow for not meeting the standards of Subsection 1.05, Screening Standards, of Article V, District Development Standards, of the UDC (Subsection 5.02(A), Art. VIII, UDC). I.5 Staff has identified the aforementioned items necessary to continue the submittal process Please make the revision to the site plan I.6 The Planning & Zoning meeting will be held on December 10, 2019. I.7 Staff recommends that a representative be present for the meetings as scheduled above The Planning and Zoning meeting will be held in the City's Council Chambers and will begin at 6:00 p.m.

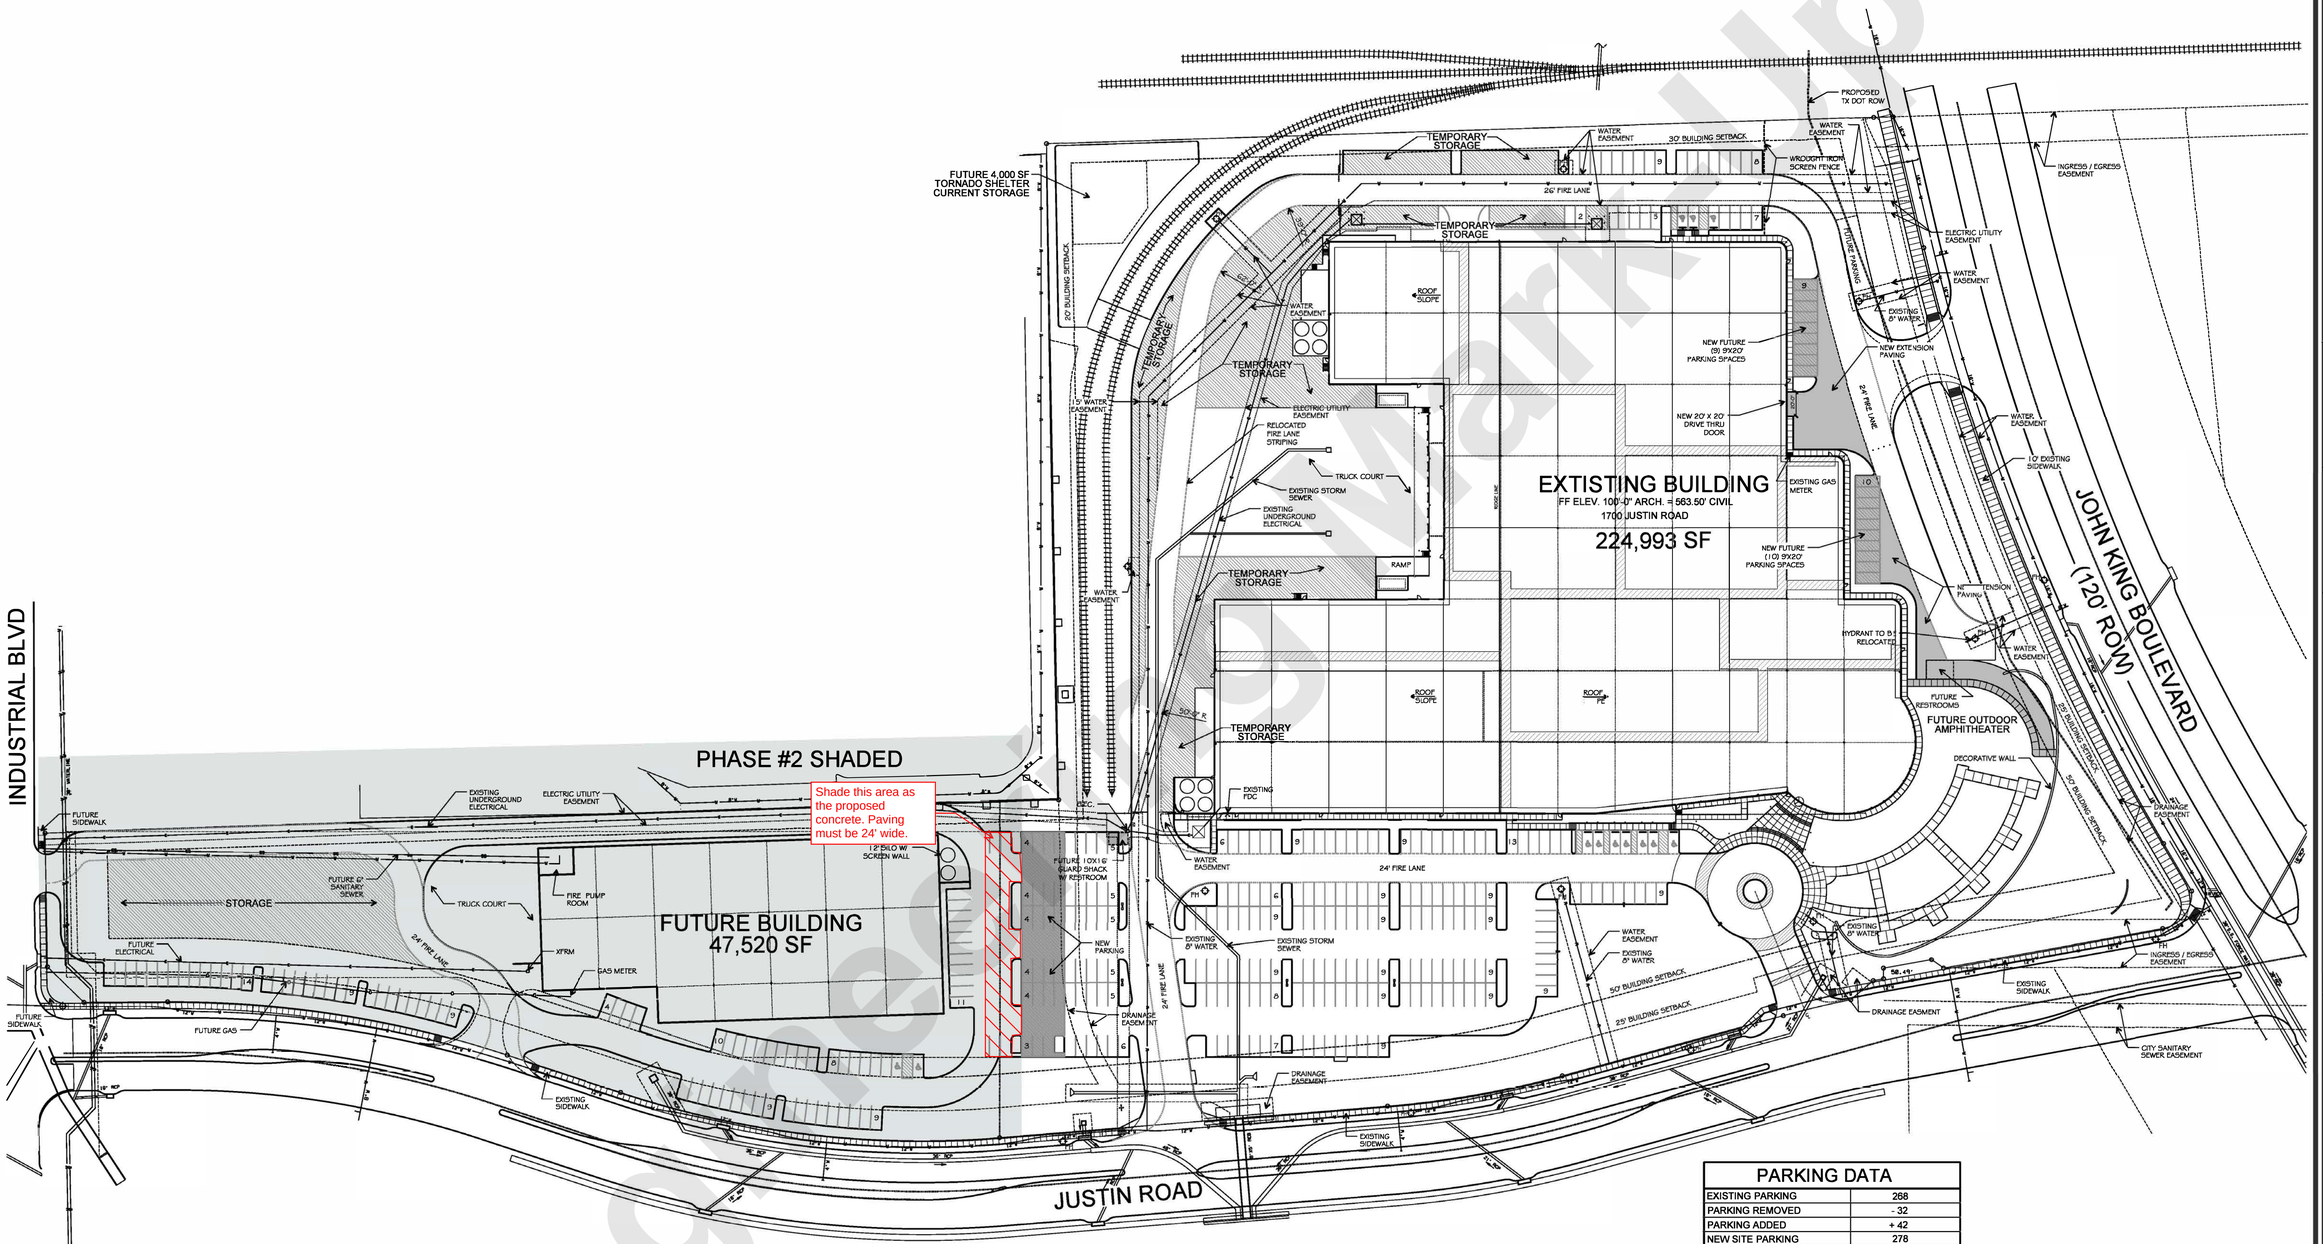
The following comments are from Captain Ed Fowler, Rockwall Police Department regarding CPTED Design:



SP2019-045 Cannel Commercial Corporation
Considerations:

- Consider Security lighting above all entrances, including rear doors, rear parking areas and dumpster(s).
- Provide clearance around the bottom of the fencing surrounding the dumpster for visual sight line of anyone inside fencing
- Consider mirror(s) on dumpster fencing to reveal any persons inside holding(fencing) area.
- Lighting placed on or in fencing area around dumpster to eliminate shadow and dark areas and prevent theft from dumpster(ID Theft, etc.)
- Utilize LED fixtures. Ensure that all lighting is positioned in a manner to minimize glare and reduce all shadows especially at the rear of business.
- Consider auxiliary locking system on rear doors.
- Consider all exterior doors being equipped with alarm contact sensors and windows with glass break sensors.
- Consider motion sensor alarms inside the business and motion activated lighting for the interior.
- Consider the addition of security cameras on the exterior of the building that provide 360 degree coverage.
- Consider camera monitors for the rear of the business to ensure that employees will have a complete and unobstructed view prior to exiting into the rear parkin area.
- Ensure new or existing trees and bushes are trimmed within acceptable standards (Trees Trimmed up to 7' and Bushes Trimmed Down to 3') and consider ground wash lighting to illuminate the area and provide territorial reinforcement, ownership and enhance natural lines of sight at night.
- More than willing to speak directly with the business owners or developers about the property.

The implementation of all or any portion of the considerations are NO guarantee or assurance that crime will not occur or that the property will be crimeproof. The considerations should, however, reduce the probability of crime if the strategies and recommendations are properly applied and consistently maintained Any changes should still meet with the City of Rockwall's building code, code of ordinances and fire code.

EVERGREEN GROUND COVER WITH STEEL EDGING

BERMUDA GRASS–ON SITE, ROLL TWO TIMES ,SEE DETAILS

BERMUDA SOD NOTES

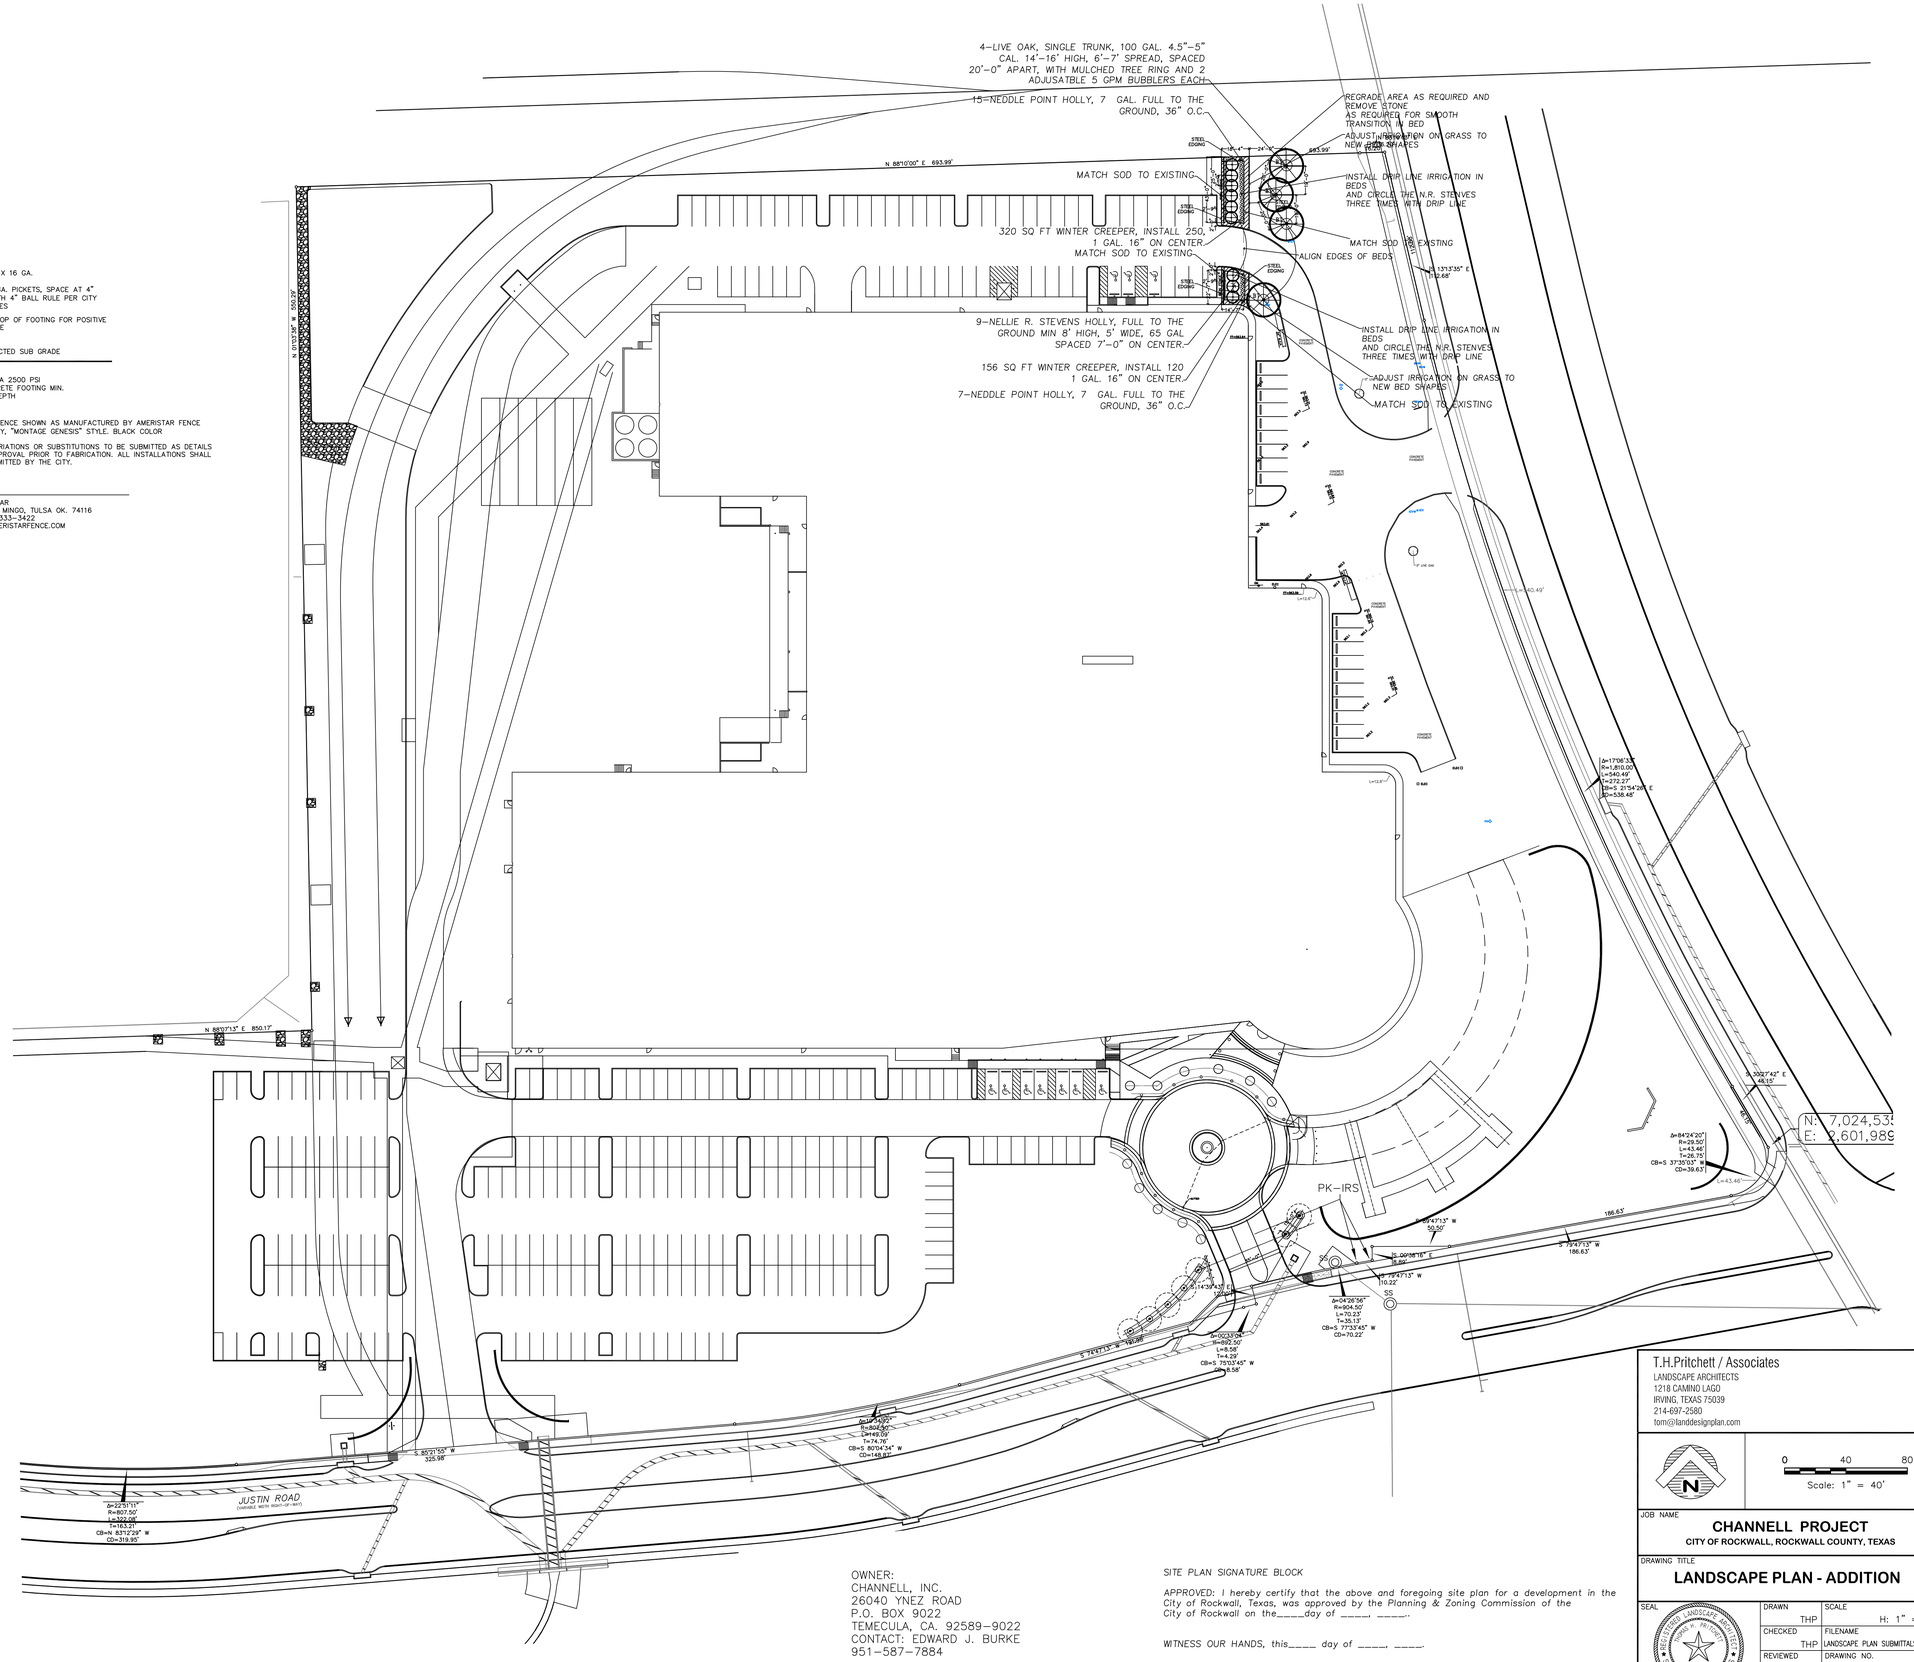
1. WATER SETTLE ALL TRENCHING ON SITE IN SOD AREA.
2. SITE SOIL TO BE TILLED, 6" DEEP BY MECHANICAL TILLER, BREAKING DOWN CLODS TO MAX 1" SIZES. REMOVING ALL ROCKS OVER 1" DIA AND DEBRIS IN ALL AREAS.
3. LEVEL TO DRAIN FINE GRADE SMOOTH TO DRAIN. FINISH WITH LARGE HAND RAKE SURFACE.
4. INSTALL 1" COMPOST, RAKE SMOOTH.
5. APPLY SLOW RELEASE FERTILIZER, PER MANUFACTURER INSTRUCTIONS.
6 INSTALL SOD, IN LARGE ROLLS, STAGGERING EDGES AND FITTING WITH NO GAPS ARE ALLOWED.
7. WATER (3) TIMES A DAY (4) FOUR MINUTES A DAY FOR 7 DAYS TO NOT LET ROOTS DRY OUT. ADJUST TIME AS REQUIRED TO NOT OVER WATER.
8. CONTRACTOR TO MAINTAIN GRASS AND INCLUDE (1) ONE MOWING IN BASE BID AFTER SOD REACHES 1.5"–2" HIGH..

LANDSCAPE IRRIGATION WARRANTEE

1. LANDSCAPE CONTRACTOR SHALL WARRANTEE ALL PLANT MATERIAL FOR A PERIOD OF ONE YEAR FROM TIME OF FINAL ACCEPTANCE AND PAYMENT OF THE COMPLETED WORK.
2. IRRIGATION SYSTEM SHALL BE WARRANTED FOR ONE YEAR PARTS AND LABOR FOR NEW ITEMS.

ROOT BARRIERS AT UTILITIES AND PAVING EDGES

1. NO TREE SHALL BE PLANTED WITHIN 5 FEET OF ALL UTILITIES WATER, SEWER, ELEC, CABLE, STORM, ECT.
2. ROOT BARRIERS ARE REQUIRED ON ALL TREES WITHIN UTILITY EASEMENTS AND AT EDGE OF PAVING WITHIN 5 FEET. PROVIDE ON ALL TREES SHOWN, UNLESS NOTED
3. DEEP ROOT BARRIERS, 1–800–458–7668, INSTALL UB–48–2 PER SPECIFICATIONS AT EACH TREE ON SIDE OF PAVING OR UTILITY. INCLUDE 2" WIDE TRENCH OF 3/4" DRAIN GRAVEL ON OUT SIDE OF BARRIER, 24" DEEP. BARRIER TO EXTEND 1" ABOVE GRADE.



CITY OF ROCKWALL MAINTENANCE NOTE;

MAINTENANCE: THE CURRENT OWNER AND SUBSEQUENT OWNERS OF THE LANDSCAPED PROPERTY, OR MANAGER OR AGENT OF THE OWNER, SHALL BE RESPONSIBLE FOR MAINTENANCE OF ALL THE LANDSCAPED AREAS AND MATERIALS, REQUIRED BUFFER YARD AREAS AND MATERIALS AND REQUIRED SCREENING MATERIALS. SAID AREAS MUST BE MAINTAINED O AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE AT ALL TIMES AND SHALL BE KEPT FREE OF REFUSE AND DEBRIS.
