*The New Horizon*

October 10, 2022

To the Honorable Mayor,  
Members of the City Council,  
And the Citizens of the City of Rockwall, Texas:

The Annual Comprehensive Financial Report (ACFR) of the City of Rockwall for the fiscal year ended September 30, 2021, is hereby submitted in accordance with Section 7.18 of the City Charter. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

Management assumes full responsibility for both the completeness and reliability of all of the information presented in this report. Fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds in the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

To provide a reasonable basis for making these representations, management of the City of Rockwall has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Rockwall's financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) the cost of a control should not exceed the benefits likely to be derived; and
- (2) The valuation of costs and benefits requires estimates and judgments by management.

Because the cost of internal controls should not outweigh their benefits, the City of Rockwall's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. The internal control structure is subject to periodic evaluation by City management.

The City of Rockwall's financial statements have been audited by BrooksWatson & Co., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Rockwall for the fiscal year ended September 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Rockwall's financial statements for the fiscal year ended September 30, 2021, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements as required by GAAP. MD&A complements this letter of transmittal and should be read in conjunction with it.

## **PROFILE OF THE GOVERNMENT**

The City of Rockwall, Texas, county seat of Rockwall County, Texas was incorporated in 1874. Its name is derived from an underground rock wall discovered in 1854. The unusual rock formations are found throughout the county. The City is located on the eastern shore of Lake Ray Hubbard, 22 miles east of downtown Dallas on Interstate Highway 30. The Dallas/Fort Worth area is recognized as one of the top growth areas in the country. The Dallas/Fort worth International Airport and Love Field in Dallas meet the air transportation needs of the region.

The City currently has a land area of approximately 30.09 square miles and an estimated population of 45,740.

The City of Rockwall adopted a home rule charter in 1985 which established a council-manager form of government. Charter amendments were adopted in 2005 and again in 2015. Policy making and legislative authority is vested in the City Council, which consists of a Mayor and six Council Members, all elected at large. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City and for appointing the heads of the various departments. The mayor and six council members are elected to two year staggered terms. The government is empowered to levy a property tax on both real and personal property located within its boundaries. The government also has the power by state statute to extend its corporate limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City of Rockwall provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure; planning and zoning, parks and recreational activities and general administrative services. Additionally, the City provides water and sewer services as an enterprise function.

Discretely presented component units are legally separate entities and are not part of the primary government's operations. The City of Rockwall is financially accountable for its component units. Accordingly, the Rockwall Economic Development Corporation (REDC) and Rockwall Technology Park Association are included in these financial statements and are explained in more detail in Note 1 of the Notes to the Financial Statements.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is best understood when considered from the broader perspective of the specific environment within which the City of Rockwall operates.

### **Local Economy**

The City of Rockwall is situated in the Dallas/Fort Worth Consolidated Metropolitan Statistical Area. With its concentration of commercial and retail development, the City of Rockwall has long drawn shoppers from surrounding areas. As the national economy began to improve over the last year, Rockwall's local economy benefitted from a mix of new businesses and the renewed success of others. Rockwall saw an increase of 20.4% in our local sales tax revenues in light of the strengthening economy and changes in online shopping patterns. FY2020 saw only a small increase due in large part to business closings with the pandemic response. The city has a varied tax base including a mix of residential, commercial and light industrial properties. Total property values rose by 8.1%. The most recent five-year average is 8.7% per annum. The City's largest taxpayers are varied and include industry, retail developments, multi-family properties, and medical facilities. Tables in the Statistical Section provides further information on the principal taxpayers. The Rockwall Economic Development Corporation continues to successfully market Rockwall and assist companies looking to locate their business in the City. The year's highlights included:

- Rockwall Economic Development Corporation acquired acres of raw land adjacent to their Technology Park and are designing infrastructure to get the land "shovel ready" for companies looking to relocate to Rockwall.
- K.E. Andrews, a nationally recognized tax advisory firm broke ground on their 80,000 square foot office headquarters in the City's scenic overlay district completed their construction in 2021.
- The Harbor retail development, saw new investment as it welcomed new restaurant, Giovanni. The Florence at the Harbor began leasing in late 2020 bringing residents closer to the Harbor restaurant and entertainment offerings. Another Condo project is under construction as well as a new parking garage for the retail center. New restaurant construction began in late 2021 with leasing expected in 2023.
- Other areas of the City saw several new projects including new restaurant offering and shopping opportunities to strengthen our role as a regional destinations.

### **Long-term Planning**

The City Council and staff recognize the need for long-range planning. It is the goal of the City government to provide responsible leadership, services, and infrastructure to achieve a safe environment and provide for a high quality of life.

## Financial Policies

The City Council adopted financial policies in 2001 which have guided the City, allowing us to build a strong fund balance, and reinforcing the city's philosophy to budget conservatively for both revenues and expenditures. The general fund reserve policy is reviewed annually. The policy states the City should maintain no less than 3 months of reserves and will allow reserves in excess of 3.5 months of recurring operating expenditures to be transferred to a capital projects fund to be used to fund future projects. The City has maintained reserves at or above this level for many years. This allows the City to respond to emergencies or downturns while not overburdening the taxpayers. Reserves over the 3.5 month level were available to fund capital purchases in 2021.

## Budget Overview

The City Manager proposes a balanced budget to the City Council each year by August 1. Public hearings are conducted to receive comments and priorities of the community at large. The City Council must adopt the operating budget and set the City's tax rate for the next year by October 1<sup>st</sup> of each year.

## Capital Improvement Planning

In May 2018, voters approved a proposition to begin the rehabilitation and reconstruction of \$85,000,000 of aging residential streets which would include utility relocations and drainage system improvement. A pavement assessment was conducted on all city streets and alleys which gave an index score to each one. This coupled with traffic load data and the condition of the drainage system are factors in the streets chosen for the program. Design work continued in 2021 on several of the projects and construction work will be phased over several years to minimize the impact of the debt issuance.

## Strategic Planning

The City Council and staff worked on an updated strategic planning document with the goal of a simplified, easy to understand final product. The initial stage of the plan included looking at the current breakdown between the residential and commercial tax base and whether or not the current land use plan will allow that mix to be maintained or improved in order to decrease the tax burden on residential properties. It was determined that sufficient non-residential land uses are planned but that any change from non-residential to residential zoning needs to be evaluated in light of the city's strategic goals. The City receives higher sales taxes per capita than other area cities, pointing to the City's long standing status as a regional shopping destination. As cities to the east grow and add retailers the City will strive to add specialty retailers to continue the regional draw. A citizen committee was formed to work with the City Planning Department staff to make amendments to the Comprehensive Plan and develop an I-30 Corridor plan both of which were adopted in 2019. This work resulted in a guide for future developers which broke the City into sub-districts with design principles and density guidelines for each area and includes the provision that the committee must perform an annual review to adjust the plan as needed. The impending reconstruction project for I-30 (details below) will result in the largest public works investment in Rockwall County's history. The project's impact to area businesses will be extensive. Recognizing this, the City of Rockwall will be working with area retailers, shopping center owners, the Chamber of Commerce and the other cities along the route to develop a

coordinated marketing approach to ensure shoppers know the area is still open for business during the several years of construction activities.

## Future Development

### Transportation

The majority of the City's main thoroughfares are state facilities. TxDOT has been planning for the widening of SH205 in the 3 counties it serves. The City Council and staff worked closely with TxDOT to come to agreement to move the current SH205 to existing John King Boulevard to the East. This had long been the City's desire but previous attempts had not come to fruition. This change will allow the present course of SH205 to become a city street with the ability for traffic flow and speed limits to be managed by the City.

TxDOT has been working on the plans for I-30 which runs through Rockwall County and is the link between the eastern counties and downtown Dallas. The project will add main travel lanes in both directions as well as three-lane service roads extending across Lake Ray Hubbard. This is expected to ease traffic issues when accidents occur on the main lanes. First phases of the project kicked off in 202; the project limits in Rockwall County are expected to be ready to let in late 2022; and is fully funded by TxDOT

The City is a member of a County-wide Consortium which allows County government officials to work with officials of each of the seven cities in the county to further transportation planning efforts. The Consortium meets monthly to discuss funding alternatives for the County's transportation needs, which also involve planning and state participation. The County's bond initiatives allows funding for the advance planning and design of several major roadway projects. This allows the projects to be ready to commence as soon as state funding is allocated for construction. The Consortium was successful in securing new state funding for the widening of SH205 through the City by eventually exchanging John King Boulevard for SH205. Allowing traffic patterns on SH205 to be managed by the City in the future. Construction work is still a few years away but the project is under design and TxDOT is acquiring rights of way now. The Consortium has worked closely with TxDOT on the widening of Interstate 30 through the County and the addition of service roads across Lake Ray Hubbard which should relieve traffic congestion when accidents occur in the main lanes. This work is expected to begin in very late 2022. The work of the Consortium which allows projects to be designed and ready to bid when dollars are available is crucial in getting these new funds.

### Retail / Entertainment

"The Harbor" development is situated on the shores of Lake Ray Hubbard at I-30 and had new restaurant openings in 2021 including Giovanni. The area's full service Hilton Hotel and Conference Center and Springhill Suites along with Tru Hilton provide hotel rooms for conference attendees in close proximity to conference space.

In 2019 construction began on 245 luxury condo units overlooking the Harbor area with residents moving in during late 2020 adding the residential component which has been long anticipated. An additional luxury condo project is expected to begin leasing in summer 2022 with another starting construction in late 2022.

In conjunction with private development, the City established a tax increment financing (TIF) zone on an approximately 103 acre tract which allowed the financing and development of public open space to complement the development and allow citizens access to the Lake Ray Hubbard shore line.

The City designation as the “Free Live Music Capital of North Texas” by the Texas Legislature is supported by the more than 100 concerts at the public venues at the Harbor and San Jacinto Plaza in Downtown Rockwall. The Main Street Advisory Board and “Friends of Downtown Rockwall”, citizen volunteer group, work to plan special events to bring shoppers downtown. The many shops in the Downtown area provide a wide variety of shopping opportunities and vacancies are rare and filled quickly.

Utilities

The water and wastewater rates were increased in 2019. The City purchases treated water as a founding member city of the North Texas Municipal Water District. Water consumption in fiscal year 2021 consumption decreased when compared to the prior year due to a rainy late summer causing sales to decrease by 3.6% over the prior fiscal year. The City’s water system is recognized with the Texas Commission on Environmental Quality’s “Superior” rating.

The City actively works to acquire the right to serve recently annexed areas which are currently served by wholesale water supply corporations. It remains the City’s desire to be the water provider for all residents in our city limits.

Debt Administration: Two ratios traditionally used to analyze the debt structure of municipalities are presented below.

Outstanding General Obligation Debt at 9-30-19 (net of Debt Service)	\$80,593,592
Estimated Population	45,740
G.O. Debt Per Capita	\$1,762
Net G.O. Debt per Assessed Value	1.23%

The City seeks a bond rating update as new debt is issued. The current ratings are shown below:

	<u>General Obligation</u>	<u>Sales Tax (REDC)</u>
Standard & Poor’s Rating Group	AA+	A-
Moody’s Investor Service Inc.	Aa2	A1

## ACKNOWLEDGEMENTS

The preparation of the comprehensive annual financial report was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

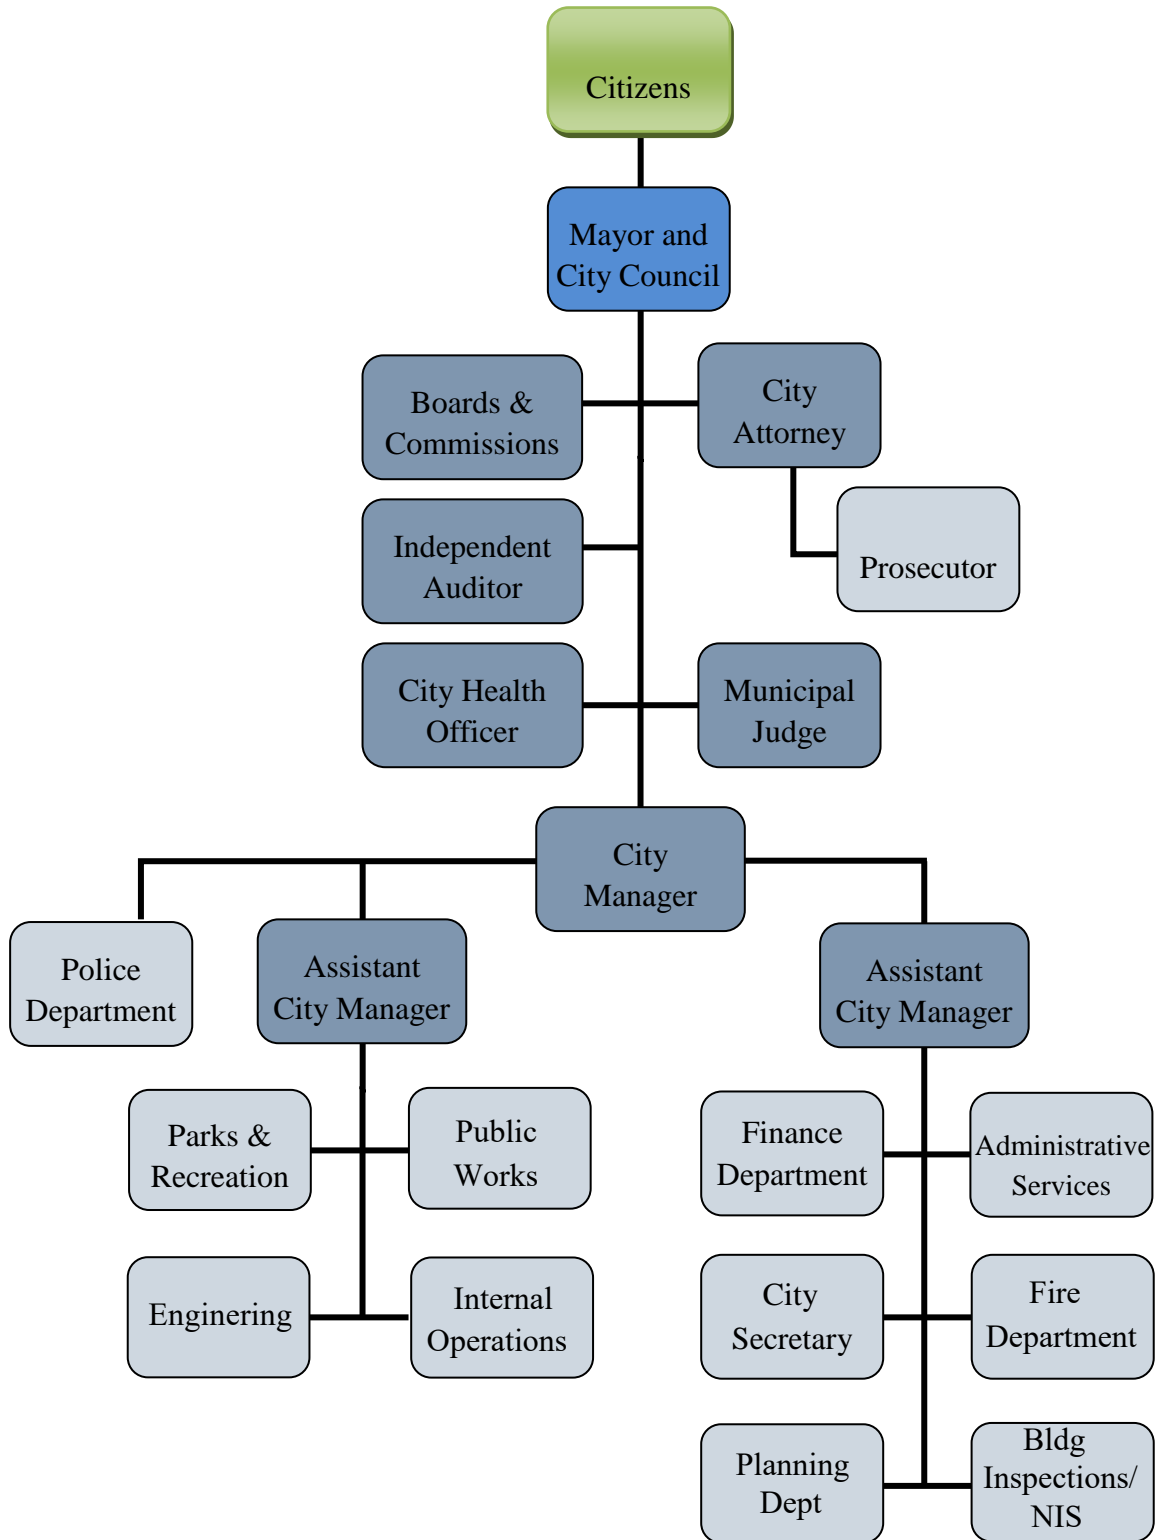

In closing, without the leadership and support of the governing body of the City, preparation of this report would not have been possible.

Sincerely,

A handwritten signature in black ink that reads "Mary Smith CPA". The signature is written in a cursive, flowing style.

Mary P. Smith, CPA

## ***INDEPENDENT AUDITOR'S REPORT***

To the Honorable Mayor and  
Members of the City Council  
City of Rockwall, Texas:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rockwall, Texas (the "City") as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness

of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of employer contributions to pension plan, schedule of changes in other postemployment benefits liability and related ratios, and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

*Other Reporting Required by Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2022 consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### September 30, 2021

The discussion and analysis of the City of Rockwall's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2021. Please read it in conjunction with the City's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The City's total net position was \$278,794,101 as of September 30, 2021. The City's primary government net position increased by \$30,510,433.
- During the year, the City's governmental activities expenses were \$21,509,981 less than the \$75,408,515 generated in program revenues, taxes, other revenues and transfers.
- The assets of the City of Rockwall attributable to governmental activities exceeded its liabilities, net of deferred inflows and deferred outflows of resources at the close of the fiscal year ending September 30, 2021 by \$160,462,377 (net position).
- At the end of this fiscal year, the unassigned fund balance for the general fund was \$25,999,158 or approximately 67.3% percent of the total general fund operating expenditures and transfers out.
- The City's total outstanding general obligation bonds and certificates of obligation for the primary government decreased by \$8,670,000 during fiscal year 2021. More detailed information is given in the notes section.

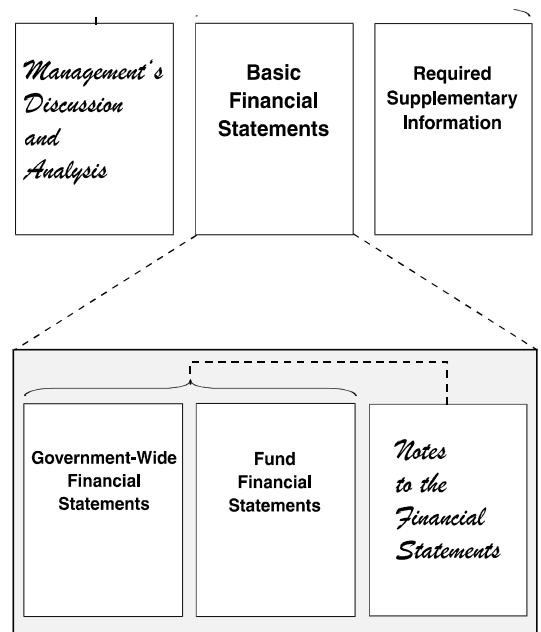

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements presenting different views of the City:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the City's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

**Figure A-1, Required Components of the City's Annual Financial Report**

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

### September 30, 2021

The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.

Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements, followed by a section of required supplementary information, further explain and support the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

**Figure A-2. Major Features of the City of Rockwall's Government-wide and Fund Financial Statements**

<i>Type of Statements</i>	<b>Fund Statements</b>		
	<b>Government-wide</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>
<i>Scope</i>	Entire City government (except fiduciary funds) and the City's component units	Activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private business.
<i>Required financial statements</i>	◆ Statement of net position	◆ Balance Sheet	◆ Statement of net position
	◆ Statement of activities	◆ Statement of revenues, expenditures & changes in fund balances	◆ Statement of revenues, expenses & changes in fund net position
			◆ Statement of cash flows
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

### **Government-Wide Financial Statements**

The government-wide statements are designed to provide readers with a broad overview of the City of Rockwall's finances, in a manner similar to private-sector business.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

The *statement of net position* presents information on all of the city of Rockwall's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the City of Rockwall is improving or deteriorating. The statement of net position combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health or financial condition of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods; for example uncollected taxes and earned but unused vacation leave. Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting.

In the Statement of Net Position and the Statement of Activities, the City is divided into three kinds of activities:

*Governmental activities* – Most of the City's basic services are reported here, including administration, police, fire, planning and zoning, finance, parks and recreation, municipal court and engineering. Property taxes, sales taxes, franchise fees and charges for services provide funds for most of the activities.

*Business-type activities* – The City charges fees to customers to help it cover all or most of the cost of certain services it provides. We report the City's water and sewer system here.

*Component Units* – The City of Rockwall (the primary government) includes two discretely presented component units. The City's Type A Sales Tax Corporation known as the Rockwall Economic Development Corporation and the Rockwall Technology Park Association. Although legally separate, The City of Rockwall is financially accountable for these component units. The City Council appoints the component unit's Board of Directors, sets the budget and approves any debt issuance.

The government-wide financial statements are found on pages 20-25 of this report.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

### Reporting the City's Most Significant Funds

#### Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. *Funds* are accounting devices the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. However, the City establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

*Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps users of the financial statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

The City of Rockwall maintains nineteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General fund, Debt Service fund, and G.O. Bonds Capital Projects fund, which are considered major funds. Data from the other eighteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

*Proprietary funds*—Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the government-wide statement but provide more detail and additional information such as cash flows, for proprietary funds. The Internal Service funds (the other component of proprietary funds) are utilized to report activities that provide services for the City's self-insurance funds.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

The Internal Service funds are reported as governmental activities in the government-wide financial statements.

The City of Rockwall maintains an Enterprise Fund to account for water and sewer services provided to the City's retail and wholesale customers. All activities associated with providing such services are accounted for in this fund, including administration, operations, maintenance, debt service, capital improvements, billing and collection. The City's intent is that all costs of providing the services to the public on a continuing basis are financed through user charges in a manner similar to a private business enterprise.

The City maintains two internal service funds to account for funds accumulated to self-insure for health and workers compensation claims. Individual fund data for each of these business-type funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary funds*—The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of assets and liabilities of the agency fund. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

*Notes to the financial statements*-The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### **Other Information**

In addition to the basic financial statements and accompanying notes, this report presents certain *required supplementary information* concerning the City of Rockwall, Texas. This information is required by accounting principles generally accepted in the United States of America.

**City of Rockwall, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2021**

**CONDENSED GOVERNMENT-WIDE FINANCIAL INFORMATION**

At the end of fiscal year 2021, the City's net position (assets and deferred outflows exceeding liabilities and deferred inflows) totaled \$278,794,101. The table below reflects the condensed Statement of Net Position.

The largest portion of the City's net position (87%) reflects its investment in capital assets (i.e., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets, which is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

### Governmental Activities

The City's total revenues of governmental activities including transfers in were \$75,408,515. A significant portion 31.7%, of the City's revenues came from property taxes. Another 32.0% of revenue came from sales taxes. Ad valorem property tax revenues as a percent of revenues remains stable as the City responds to the increases in assessed value of existing properties by reducing the ad valorem tax rate to a rate sufficient to generate the same revenues in the new year as were generated in the prior year. The City Council has chosen to lower the tax rate each of the last seven years. Total assessed values of the properties in the City increased by 7.05%. The City adopted a property tax rate of 37.00 cents per \$100 of assessed valuation for fiscal year 2021. Growth in the assessed valuation and conservative budgets allowed the City to lower the rate for fiscal year 2021 by 1.799 cents per hundred dollars of assessed valuation. Sales tax revenue increased over the prior year by 21.8%, reflecting strong internet sales growth and our continued population growth. Housing starts increased from the prior year by 36.7% and remain predominately the construction of larger homes on larger tracts resulting in significantly higher price points. Developers are building homes in additional phases of Breezy Hill, Ladera Rockwall, Gideon Grove, and Saddle Star in 2021. The permit revenues increased by 9.2% due to the increased housing starts. Over the past several years, Rockwall County, of which the City of Rockwall is the County seat, was one of the fastest growing counties in America, and named the wealthiest county in Texas.

### Governmental Activities - Expenses

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

The total cost of all programs and services were \$53,898,534. Of this total, \$18,102,100 (34%) were for the public safety functions in the Police and Fire Departments. The Fire department continues to increase staffing adding 12 firefighter positions in 2021. These positions were funded by a federal staffing grant which provides 100% of the payroll expense for these positions for three years. The city continues to grow and mature the department. The city's strategic planning was accepted by Council in 2018 and includes an ongoing focus on the staffing ratios and service needs of the area. The Public Works Department represents 22% of the City's costs due to street construction and rehabilitation projects underway. A study was previously funded to determine the pavement condition of all streets and alleys in the City limits. The results were evaluated and employed in the budget process for 2021 to determine priorities for maintenance projects which could reasonably be expected to improve the roadway and extend the time before more extensive repairs or replacement would be required in future capital projects.

### **Business-Type Activities**

The City's business-type activities recorded an increase of \$9,000,452 in net position. Retail water sales decreased by 3.76% due to a wetter than normal July resulting in decreased consumption for irrigation purposes. The City's rates were last increased in January 2019. The City implemented a conservation focused water rate structure in 2001 and increases the rate tiers each time new rates are adopted. The rates for sewer also increased in January 2019. Total sewer charges were relatively flat due in large part to the winter averaging to calculate sewer billing, as such revenues are largely unaffected by weather conditions. Water and sewer retail sales charges were \$24,167,191 which is a decrease of \$502,472 over the prior year.

Water and sewer impact fees (Capital recovery fees) totaled \$1,862,028 for the fiscal year. Impact fees, paid by developers, are designed to reduce the system's initial costs in building assets to serve new growth. Residential development is assessed an impact fee at the building permit stage while commercial projects are assessed at the beginning of site development.

### **Component Units**

The Rockwall Economic Development Corporation (REDC) reported revenues including the ½-cent sales tax, authorized under the Type A Corporation statutes, of \$7,927,932. Assets managed by the corporation include an inventory of 378 acres of land, zoned for light industrial uses and available for sale. The REDC continues to attract companies to the City through its marketing efforts and ability to match businesses to available land.

### **ANALYSIS OF INDIVIDUAL FUNDS**

The City's *General Fund* reported an ending unassigned fund balance of \$25,999,158. The largest source of general fund revenue is sales tax, it accounted for \$23,882,051 (44.7%) of total general

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

fund revenue. Ad valorem property taxes account for \$13,644,599 (25.6%) of general fund revenues. The City's property tax rate is split between maintenance/operations and debt service.

The City maintains the unassigned fund balance at or above acceptable levels as defined within the City's financial policies. This "reserve" balance allows the City Council to elect to fund projects unforeseen during the budgeting process and provides a measure of security against changes in the economy and the timing of cash flows. The unassigned balance increased by \$9,346,709 or 56% due to stronger than anticipated sales tax and permit revenue sources as well as less than appropriated expenditures in each department. In addition, the City was awarded a fire staffing grant which paid 100% of twelve firefighters in 2021.

### Revenues by Source – General Fund

#### Governmental Activities - Revenues

The City's *Debt Service Fund* reported an increase in fund balance of \$2,078,820. Property tax collections for debt service requirements were \$9,801,812. This is required in order to pay debt service payments on bonds issued to construct numerous road and parks projects completed since the City's bond election in 2005 and again in 2012 which authorized more than \$92,831,000 in projects. After extensive study, the City adopted a Roadway Impact Fee, which was updated in 2014, and again in 2019, and generated \$585,847 in new revenue to this fund in fiscal year 2021. The City Council chooses to budget a portion of this fund balance each year toward meeting the City's current debt service obligations. This allows the use of the debt service fund reserves to lessen the effect of new debt issues on the property tax rate each year.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

The *G.O. Bonds Capital Projects Fund* reported a deficit fund balance of \$12,807,929, a decrease of \$4,554,806 from the prior year.

### GENERAL FUND BUDGETARY HIGHLIGHTS

During fiscal year 2021, the City Council of the City of Rockwall amended the budget to provide funding for several unforeseen projects and to recognize salary savings over the year, as well as increases or decreases in revenues when compared to original projections. With the adjustments made to the budget, the original budgeted expenditures of \$37,119,350 increased to \$37,746,050, while revenue estimates increased from \$38,918,600 to \$47,103,450.

General fund revenues ultimately were \$53,368,291, a positive variance of \$6,264,841 over the amended budget estimate, reflecting a greater than anticipated increase in sales tax collections and intergovernmental revenues late in the budget year. In addition, the receipt of ARPA and fire staffing grant funds was not anticipated when the budget was drafted. Actual general fund total expenditures were \$35,745,157 or \$2,000,893 less than final projections. Final expenditures in each department were generally less than anticipated. The City ended the year with a fund balance of \$31,686,782, or \$15,031,245 more than the prior year.

### Capital Assets

At the end of the fiscal year 2021 the City had \$324,500,861 (Table 3) invested in a broad range of capital assets, including buildings, parks facilities, roads, police and fire equipment and water and sewer lines. The balances shown below are net of accumulated depreciation.

**Table 3**  
**Capital Assets at Year-End**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
Land	\$ 17,756,083	\$ 17,756,083	\$ 534,078	\$ 534,078	\$ 18,290,161	\$ 18,290,161
Buildings & systems	10,535,508	11,210,225	6,237,942	6,554,223	16,773,450	17,764,448

	<u>\$ 202,611,759</u>	<u>\$ 202,627,886</u>	<u>\$ 128,984,308</u>	<u>\$ 121,872,975</u>	<u>\$ 331,596,067</u>	<u>\$ 324,500,861</u>

The results of the street and alley condition assessment conducted in 2016 were used to develop a capital improvement program which included \$85 million of street reconstruction projects which was approved by the voters in May 2018. Projects have been prioritized and design will be undertaken on many of the projects in 2021 with construction timing and debt issuance phased over the next 8-10 years.

# City of Rockwall, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

September 30, 2021

Additional information regarding the City's capital assets is found in note IV-D on pages 61-63.

### Debt

At year-end, the City had \$88,539,998 in bonds and capitalized leases shown in Table 4.

**Table 4**

#### City of Rockwall Outstanding Debt

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2021	2020	2021	2020	2021	2020
General obligation bonds	\$ 61,765,000	\$ 67,380,000	\$ 12,655,000	\$ 14,720,000	\$ 74,420,000	\$ 82,100,000
Certificates of obligation	5,145,000	5,735,000	5,995,000	6,395,000	11,140,000	12,130,000
Capital Lease obligations	-	-	2,979,998	3,454,998	2,979,998	3,454,998
	<u>\$ 66,910,000</u>	<u>\$ 73,115,000</u>	<u>\$ 24,569,998</u>	<u>\$ 24,569,998</u>	<u>\$ 88,539,998</u>	<u>\$ 97,684,998</u>

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The current ratio of net tax-supported bonded debt to assessed value of all taxable property is 1.23% or \$1,762 per capita.

The City's bond ratings at September 30, 2021 were as follows:

	<u>General Obligation</u>	<u>Sales Tax(REDC)</u>
Standard & Poor's Rating Group	AA+	A-
Moody's Investor Service Inc.	Aa2	A1

Additional information on long-term debt may be found in note IV-F, on pages 65-71 of this report.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal year 2022 budget, tax rate, and fees that will be charged for the business-type activities. The City conservatively budgeted flat sales tax when compared to the prior year due to the unknowns associated uncertain economic conditions on a federal level and budgeting other revenues relatively flat in the coming year.

The City of Rockwall's citizens enjoy above-average income levels per household. This combined with the City's proximity to major highways, and the Dallas-Fort Worth SMSA make Rockwall an attractive city in which to locate. The City prides itself on a quality school district and "hometown" atmosphere. The Rockwall Economic Development Corporation works to

# City of Rockwall, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued*

September 30, 2021

attract businesses with relocation incentives as well as business retention incentives such as workforce training opportunities. The City's unemployment rate was 3.9%, which was below national levels.

The City of Rockwall considered these factors when adopting the General Fund budget for fiscal year 2022. The budgeted revenues for fiscal year 2022 total \$44,545,650 for the general fund. Ad valorem tax revenue is determined by two factors, the total assessed value established by the Rockwall Central Appraisal District and the tax rate established by the Rockwall City Council. The property tax rate was reduced to 35.00 cents per hundred dollars of assessed value due to growth in assessed values.

The City adopted written financial policies in 2001, which require that revenues and expenditures be projected conservatively. The policies include debt level guidelines. These policies were reviewed by the City Council in 2009 and certain provisions related to the City's fund balance were changed. The amended policy provides that the General Fund reserves should be no less than 3 months of recurring operating appropriations. In addition, the policies provide that should an audited fund balance at the end of the fiscal year exceed 3.5 months, the City Council may elect to transfer a portion to a Capital Projects Fund. The ending general fund balance for 2021 provided approximately 6.5 months of reserves for the City. The 2022 budget reflects planned expenditures from reserves including multiple vehicle replacements, updated paint and flooring at city facilities, and the upgrade or addition of generators at several city facilities. Street and alley maintenance funding was increased by \$1,988,000 to continue our efforts to address road issues before they become major problems.

The 2022 budget expenditures does not include any new positions but anticipates being able to be fully staffed throughout the fiscal year.

A comprehensive water and sewer rate study was developed during 2018 with rate recommendations over the next several years. This included looking at the North Texas Municipal Water District projected rates for treated water over the next five years and well as budget planning and capital planning for the City's own operations and projects. A phased program to add generators to each wastewater lift station will be finished in fiscal year 2022.

## RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS

September 30, 2021

<b>Fund Balances - Total Governmental Funds</b>	\$ 33,877,556
 <b>Adjustments for the Statement of Net Position:</b>	
Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.	
Capital assets - non-depreciable	22,362,234
Capital assets - net depreciable	180,249,525
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.	
	1,530,602
Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time	
Pension expected vs. actual experience	(1,377,032)
Pension investment experience	(2,279,474)
Deferred outflows of resources, represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expense/ expenditures) until then	
Pension contributions	2,372,057
OPEB contributions	8,780
OPEB assumption changes	121,723
Internal service funds are used by management to charge the cost of employee benefits and workers' compensation to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position	
Net position - governmental activities	1,427,622
Some liabilities, including bonds payable and deferred charges, are not reported as liabilities in the governmental funds.	
Accrued interest	(424,470)
Deferred charges:	
On refunding	31,499
Bond discount	127,752
Bond premium	(1,276,846)
Net pension liability	(6,711,100)
OPEB liability	(744,486)
Compensated absences	(1,923,565)
Non-current liabilities due in one year	(6,460,000)
Non-current liabilities due in more than one year	(60,450,000)
<b>Net Position of Governmental Activities</b>	<b>\$ 160,462,377</b>

See Notes to Financial Statements.

## *RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES*

**For the Year Ended September 30, 2021**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$	13,600,505
---	----	------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay		5,694,711
Capital contributions		7,233,055
Depreciation expense		(12,857,671)
Adjustment for capital asset disposals		(86,222)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		167,189
--	--	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated absences		151,904
Accrued interest		40,938
Pension expense		1,750,087
OPEB expense		(68,949)

Internal service funds are used by management to charge the cost of employee benefits and workers' compensation to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities		(424,615)
---	--	-----------

The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Amortization of deferred charges on refunding		(8,109)
Amortization of debt premium/discount		112,158
Principal payments		6,205,000

**City of Rockwall, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**September 30, 2021**

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Rockwall, Texas (the “City”) was founded in 1854 and incorporated in 1874. The City operates under the Council-Manager form of government as adopted by a home rule charter approved January 21, 1985. The City provides a full range of municipal services including public safety (police and fire), highway and streets, parks and recreation, health and social services, planning and zoning, and general administrative services. In addition, the City provides water and sewer services as a proprietary function of the City.

The accounting policies of the City conform to generally accepted accounting principles (GAAP) applicable to government units. The following is a summary of the more significant accounting policies.

**A. Description of Government-Wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

**B. Reporting Entity**

For financial reporting purposes, management has considered all potential component units. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The criteria used are as follows:

Financial Accountability – The primary government is deemed to be financially accountable if it appoints a voting majority of the organization’s governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits or impose specific financial burdens on the primary government. Additionally, the primary government may be financially accountable if an organization is fiscally dependent on the primary government and there is a potential for the organization to provide specific financial benefits or impose specific financial burdens on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government or a jointly appointed board.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### Discretely Presented Component Units

#### Rockwall Economic Development Corporation ("REDC")

The Rockwall Economic Development Corporation ("REDC") is governed by a seven-member Board of Directors appointed, at will, by the City Council. REDC represents the City by promoting it as a location for new business; it also acquires and develops land for that purpose. REDC collects a half-cent sales tax to support its activities. The funds of REDC are composed of governmental fund types. Stand-alone financial statements for REDC as of and for the fiscal year ended September 30, 2021 are not prepared.

#### Rockwall Technology Park Association ("RTPA")

The Rockwall Technology Park Association ("RTPA") provides repair and maintenance of the common area within the park being developed by REDC. RTPA's Board of Directors is composed of representatives of the landowners. At September 30, 2019, REDC owned the majority of the land and the Board was therefore composed of REDC board members. When the park becomes 75% or more owned by private landowners, it will become an entity independent of the City. Until then, it is controlled by REDC, a discretely presented component unit of the City. RTPA, is effectively controlled by the City through REDC and thus provides a potential financial benefit or burden to the City. The funds of RTPA are composed of governmental fund types. Stand-alone financial statements RTPA as of and for the fiscal year ended September 30, 2021 are not prepared.

### C. Basis of Presentation - Government-Wide and Fund Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As discussed earlier, the government has two discretely presented component units which are shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

### **General Fund**

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### **Debt Service Fund**

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

### **G.O. Bonds Capital Projects Fund**

The G.O. Bonds Capital Projects Fund accounts for the acquisition or construction of capital assets used in the operation of governmental funds.

The City reports the following major proprietary fund:

### **Water and Sewer Fund**

The Water and Sewer Fund operates the water distribution system and the wastewater treatment plants, wastewater pumping stations, and collection systems.

Additionally, the City reports the following fund types:

### **Internal Service Funds**

The Internal Service Funds account for employees' health insurance and workers' compensation coverage services provided to other departments or agencies of the government on a cost-reimbursement basis.

### **Special Revenue Funds**

The Special Revenue Funds account for specific revenue sources that are legally restricted to expenditures for specified purposes (not including expendable trusts or major capital projects.)

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### **Fiduciary Funds**

The Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for developer contributions for infrastructure projects related to various developments to be constructed at a later date.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

### **D. Measurement focus and basis of accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary, pension and other postemployment benefit trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Agency funds have no measurement focus but utilize the *accrual basis of accounting* for reporting its assets and liabilities.

### **E. Assets, Liabilities, Deferred Outflows/Inflows, and Fund Equity or Net Position**

#### **1. Deposits and Investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the City reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexPool, are reported using the pools' share price.

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, of the Texas Governmental Code. In summary, the City is authorized to invest in the following:

Direct obligations of the U.S. Government

Fully collateralized certificates of deposit and money market accounts

Statewide investment pools

SEC registered, no load money market mutual funds

### **2. Fair Value**

The City has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

### **3. Receivables and Interfund Transactions**

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

### **4. Inventories and Prepaid Items**

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventories are valued at the lower of cost or

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

market using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

### 5. Restricted Assets

Certain proceeds of enterprise fund certificates of obligation are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants.

### 6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art, and capital items received in a service concession arrangement are reported at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

<b>Asset Description</b>	<b>Estimated Useful Life</b>
Buildings	20 to 30 years
Building Improvements	20 to 50 years
Public domain infrastructure	20 years
System infrastructure	50 years
Equipment	3 to 10 years

### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows / inflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government only has three items that qualify for reporting in this category. One example is the

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, fines and forfeitures and ambulance fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources can also occur at the government wide level due to differences between investment gains and losses realized on pension investments compared to assumption used within the pension actuarial valuation model.

### 8. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed when incurred.

Net Pension Liability is valued using an actuarial model and represents the difference between the plan fiduciary net position and the net pension liability consistent with GASB statement no. 68. The portion of this liability presented as a current liability is based on actuarially calculations for estimated future payments of benefits and refunds over the twelve months following yearend.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

### **9. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **10. Other Postemployment Benefits ("OPEB")**

The City has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to the individual employers (TMRS cities) in the TMRS Supplemental Death Benefits (SDB) plan, with retiree coverage. The TMRS SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75 (i.e., no assets are accumulated for OPEB) and as such the SDBF is considered to be an unfunded OPEB plan. For purposes of reporting under GASB 75, the retiree portion of the SDBF is not considered a cost sharing plan and is instead considered a single employer, defined benefit OPEB plan. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary, calculated based on the employee's actual earnings on which TMRS deposits are made, for the 12-month period preceding the month of death. The death benefit amount for retirees is \$7,500. GASB No. 75 requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

### **11. Net Position Flow Assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

### **12. Fund Balance Flow Assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

### **13. Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (Council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### 14. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## F. Revenues and Expenditures/Expenses

### 1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

### 2. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City.

Property taxes at the fund level are recorded as receivables and deferred revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

### 3. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits up to specified limits. Sick leave is accrued at 6.67 hours per month. However, once an employee has accrued 120 days of sick leave, earned sick leave in excess of 120 days may be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave up to a maximum of 15 sick leave days per year. Upon termination, any accumulated sick leave over 120 days shall

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

be converted to vacation leave at a ratio of three days of sick leave to one day of vacation leave to be paid to the employee in accordance with the vacation leave policy. Upon retirement from the City, all accrued sick leave shall be converted to vacation pay at a ratio of three days of sick leave to one day of vacation leave and shall be paid to the employee if he/she has 10 or more years of service to the City. Unused compensatory time for nonexempt employees is paid on termination. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. Compensated absences are reported in governmental funds only if they have matured for example, as a result of employee's resignation and retirement.

#### **4. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund, is charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## **II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

### **A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.**

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

### **B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The legally adopted budgets for the General Fund, certain special revenue funds and the Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles. The City did not adopt budgets for the following special revenue funds: Emergency Siren, Art in Public Places, and Vehicle Acquisition funds. Budgeted amounts are as originally adopted or as amended by the City Council. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council, therefore, the fund level is the legal level of control. Any budgeted amounts appropriated at fiscal year-end and not spent automatically lapse.

#### A. Restricted Net Position

The City records restricted net position on amounts with externally imposed restrictions (e.g., through debt covenants or by grantors) or restrictions imposed by law through constitutional provisions or enabling legislation. Total restricted fund balance for governmental funds was \$14,974,819, of which, \$1,822,106 is restricted by enabling legislation. Total restricted net position for enterprise funds was \$2,283,448.

#### B. Expenditures In Excess of Appropriations

For the current year, expenditures exceeded appropriations in the public safety fund by \$6,067.

#### C. Deficit Fund Balance

As of the end of the year, the G/O Bonds capital projects fund had a deficit fund balance of \$12,807,929. This will be replenished in the subsequent year with bond issuances.

### IV. DETAILED NOTES ON ALL FUNDS

#### A. Deposits and Investments

Deposits - State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. In addition, irrevocable letters of credit at 100% of the principal amounts of the deposits may be used to collateralize deposits. The City's deposits, as well as those of the City's component units, including certificates of deposit, were fully insured or collateralized as required by the state statutes at September 30, 2021.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

As of September 30, 2021, the primary government and fiduciary funds had the following investments:

Investment Type	Value	Weighted Average Maturity (Years)
US Treasury bills	\$ 6,553,282	2.45
External investment pools	27,093,624	0.13
Total value	\$ 33,646,906	
Portfolio weighted average maturity		0.58

As of September 30, 2021, the Rockwall Economic Development Corporation had the following investments:

Investment Type	Carrying Value	Weighted Average Maturity (Years)
Certificates of deposits	\$ 300,000	1.13
External investment pools	8,238,649	0.17
Total value	\$ 8,538,649	
Portfolio weighted average maturity		0.21

*Interest rate risk:* In compliance with the City’s Investment Policy, as of September 30, 2021, the City minimized the interest rate risk, related to current events market turmoil in the portfolio by: limiting the effective duration of security types not to exceed two years with the exception of securities purchases related to reserve funds; structuring the investment portfolio so that securities matured to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the secondary market prior to maturity; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the Public Funds Investment Act; and investing operating funds primarily in short-term securities, money market mutual funds, or similar government investment pools.

*Credit risk:* The City’s investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than “A” or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service.

*Custodial credit risk – deposits:* In the case of deposits, this is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. State statutes require that all deposits in

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2021, the market values of pledged securities and FDIC exceeded bank balances.

*Custodial credit risk – investments:* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City’s investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City’s safekeeping account prior to the release of funds.

### TexasTERM

TexasTERM is an external investment pool operated by a private asset management corporation and is not SEC registered. The Texas Interlocal Cooperation Act and the Texas Public Investments Act provide for the creation of public funds investment pools and permit eligible governmental entities to jointly invest their funds in authorized investments. The City participates in both investment options operated by TexasTERM – a daily investment pool (TexasDAILY) and a long-term investment pool (TexasTERM). At September 30, 2021, the fair value of the position in both the TexasTERM and the TexasDAILY approximate fair value of the shares. There were no limitations or restrictions on withdrawals.

### B. Receivables

The following comprise receivable balances of the primary government at year end:

	General	Debt Service	Nonmajor Governmental	Water & Sewer	Employee Benefits	Total
Property taxes	\$ 253,263	\$ 217,917	\$ 241	\$ -	\$ -	\$ 471,421

<b>Total Component Unit</b>					
<b>Activities</b>	<u>\$ 23,983,045</u>	<u>\$ -</u>	<u>\$ (1,778,792)</u>	<u>\$ 22,204,253</u>	<u>\$ 1,825,000</u>
	<b>Long-term liabilities due in more than one year</b>			<u>\$ 20,379,253</u>	

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. The City intends to retire all of its general long-term liabilities, plus accrued interest, from property taxes and other current revenues from the debt service fund as has been done in prior years. The proprietary fund type long-term debt will be repaid, plus accrued interest, from operating revenues of the respective fund.

**City of Rockwall, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

The compositions of interfund due to/from balances as of the year ended September 30, 2021 were as follows:

<u>Receivable fund:</u>	<u>Payable fund:</u>			<u>Total</u>
	<u>G/O Bonds - Capital Projects</u>	<u>Internal Service Funds</u>	<u>Water and Sewer</u>	
General	\$ 12,880,000	\$ 95,955	\$ 241	\$ 12,976,196
<b>Total</b>	<b>\$ 12,880,000</b>	<b>\$ 95,955</b>	<b>\$ 241</b>	<b>\$ 12,976,196</b>

The compositions of primary government and component unit due to/from balances as of the year ended September 30, 2021 were as follows:

<u>Receivable fund:</u>	<u>Payable fund:</u>	
	<u>Water &amp; Sewer</u>	<u>Total</u>
Technology Park	\$ 2,305	\$ 2,305
<b>Total</b>	<b>\$ 2,305</b>	<b>\$ 2,305</b>

Interfund balances resulted from the timing difference between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All balances are expected to be paid in the subsequent year.

Transfers between the primary government during the 2021 year were as follows:

<u>Transfer In:</u>	<u>Transfers Out:</u>				<u>Total</u>
	<u>General</u>	<u>G/O Bonds - Capital Projects</u>	<u>Nonmajor Governmental</u>	<u>Water and Sewer</u>	
General	\$ -	\$ -	\$ 1,461	\$ 300,000	\$ 301,461
Nonmajor governmental	463,350	40,384	-	69,800	573,534
Water and sewer	-	-	54,286	-	54,286
Internal service funds	2,430,000	-	-	865,000	3,295,000
<b>Total</b>	<b>\$ 2,893,350</b>	<b>\$ 40,384</b>	<b>\$ 55,747</b>	<b>\$ 1,234,800</b>	<b>\$ 4,224,281</b>

Transfers between funds were primarily to support debt service requirements and operation of funds.

# City of Rockwall, Texas

### H. Committed Fund Balance

The City designates commitments to a portion of fund balance for a specific future use. The following is a summary of commitments within governmental activities:

	<b>Committed Fund Balance</b>
Public safety	\$ 259,349
Public works	478,483
Parks and recreation	1,498,041
Capital projects	625,805
Capital acquisitions	2,847,407
<b>Total</b>	<b>\$ 5,709,085</b>

### I. North Texas Municipal Water District

The District is a conservation and reclamation district and political subdivision of the State of Texas, created and functioning under Chapter 62, Acts of 1951, 52nd Legislature, Regular Session, as amended, originally compiled as Vernon's Article 8270-141 (the "Act"), pursuant to Article 16, Section 59 of the Texas Constitution. The District comprises all of the territory of its member cities, viz., Allen, Garland, Princeton, Plano, Mesquite, Wylie, Rockwall, Farmersville, McKinney, Richardson, Forney, Royse City, and Frisco (the "Member Cities"). The District was created for the purpose of providing a source of water supply for municipal, domestic and industrial use and for the treatment, processing, and transportation of such water to its Member Cities and to its other customers located in North Central Texas, all within the Dallas Standard Metropolitan Statistical Area.

Under the Act, including specifically Section 27 thereof, and under the Constitution and Statutes of the State of Texas, the District has broad powers to: (1) impound, control, store, preserve, treat, transmit and use storm and flood water, the water of rivers and streams, and underground water for irrigation, power and all other useful purposes and to supply water for municipal, domestic, power, industrial and commercial uses and purposes and all other beneficial uses and purposes; and (2) collect, transport, process, treat, dispose of, and control all municipal, domestic, industrial or commercial waste whether in fluid, solid or composite state, including specifically the control, abatement or reduction of all types of pollution. The City retains no ongoing financial interest, equity investments, and/or responsibilities for the District other than the contractual arrangements discussed more fully herein.

The District has long-term contracts with the City to supply treated water and sewer treatment. The City's water contract with the District provides that the City pay a predetermined annual amount for treated water in twelve monthly installments. The amount of this annual payment is based upon an annually established rate per thousand gallons and the largest annual amount of

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

water consumption of past years. The City owns one sewage treatment facility, Squabble Creek, and in 1978 entered into an agreement with the District for the construction of a second facility, Buffalo Creek. Under the terms of this agreement, the District issued contractually secured bonds in its name to construct and operate this sewage disposal plant for the City. In subsequent years, similar contractual agreements have been made to enable the District to expand the sewage treatment facilities and continue to provide sewage treatment services to the City. Under the terms of these contracts, the City's payments, which began when the facilities were first utilized, are equal to the operating and maintenance expenses for the next ensuing calendar year, as shown in the annual budget. The contracts further provide that the debt service payments will be equal to the principal and/or interest coming due on the bonds on the next succeeding interest payment date, plus the fees and charges of the paying agent and the registrar.

These contractual obligations have been included as capital lease obligations in amounts equal to the bonds outstanding under these agreements. Accordingly, the related assets have been capitalized and are being depreciated over the estimated life of the facilities.

The outstanding principal balance on the debt issues as of September 30, 2021, is \$2,979,998. See Note IV.D. for the annual requirements to amortize the bonds as of September 30, 2021.

With respect to the ground storage reservoir discussed above, prior to the current year, the Cities of Rockwall and Heath were contractually obligated to make timely payments to the District representing 66.67% and 33.33%, respectively, of the related operating expenses and debt service payments.

## V. OTHER INFORMATION

### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures.

The City uses a medical self-insurance fund to pay medical and dental claims of City employees and their covered dependents and minimize the total cost of annual medical insurance to the City. Medical claims in any one year exceeding \$100,000 per covered individual, or approximately \$2,922,175 in the aggregate for the group, are covered through a private insurance carrier. Additionally, life insurance policy premiums for each employee are paid through the fund. The self-insurance fund is funded by operating transfers from other funds and charges to employees for extended benefits at their option. The City does not believe there are material claims incurred but not reported as of September 30, 2021.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

The City uses a Self-Insurance and Risk Management Program (as permitted by law and its home rule charter) to insure itself against the various risks of liability or loss to which it is exposed, either through an insurance provider or through a defined self-insurance program. The City issued certificates of obligation, based on an actuarial analysis, to fund a self-insured workers' compensation plan. Under this plan, workers' compensation insurance is provided in accordance with state statutes to all City employees. To protect the assets of the plan from a catastrophic claim, the City has purchased stop loss coverage in the amount of \$100,000 per occurrence, with a maximum City liability of \$300,000 per year.

The Workers' Compensation Fund (an internal service fund) accounts for the activity of this plan. The City establishes claim liabilities based on estimates of the ultimate cost of claims reported but unsettled and of claims incurred but not reported. Any claims incurred and not reported are not believed to be significant to the City's financial statements.

Changes in the balances of claims liabilities during the past two years are as follows:

	Employee Benefits		Workers' Compensation	
	2020	2020	2020	2020
Claims payable, beg. of the year	\$ 735,214	\$ 180,920	\$ 79,254	\$ 45,580
Claims incurred	3,754,671	4,001,371	285,973	138,798
Payment on claims	(4,033,775)	(3,447,077)	(184,307)	(105,124)
<b>Total</b>	\$ 456,110	\$ 735,214	\$ 180,920	\$ 79,254

Commercial insurance is purchased for the other risks of loss to which the City is exposed. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

### B. Contingent Liabilities

The City is involved in lawsuits with other parties from time to time. While the ultimate result of these matters cannot be predicted with certainty, the City does not expect them to have a materially adverse effect on the basic financial statements.

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

### C. Pension Plans

#### Texas Municipal Retirement Systems

##### **Plan Description**

The City of Rockwall participates as one of 895 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.tmr.com](http://www.tmr.com).

All eligible employees of the city are required to participate in TMRS.

##### **Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS. At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

Plan provisions for the City were as follows:

	<u>Plan Year 2021</u>	<u>Plan Year 2020</u>
Employee deposit rate	7%	7%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	70% of CPI repeating	70% of CPI repeating

### Employees covered by benefit terms

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	119
Inactive employees entitled to but not yet receiving benefits	119
Active employees	289
<b>Total</b>	<b>527</b>

### Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Rockwall were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Rockwall were 15.45% and 15.24% in calendar years 2020 and 2021, respectively. The City voluntarily elected to contribute 16.21%, which is more than the required rates. The City's contributions to TMRS for the year ended September 30, 2021, totaled \$3,701,559, and were \$174,067 more than the required contributions.

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

### Actuarial assumptions:

The Total Pension Liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a

# City of Rockwall, Texas

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	30.0%	5.30%
Core Fixed Income	10.0%	1.25%
Non-Core Fixed Income	20.0%	4.14%
Real Return	10.0%	3.85%
Real Estate	10.0%	4.00%
Absolute Return	10.0%	3.48%
Private Equity	10.0%	7.75%
Total	100.0%	

### **Discount Rate:**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability. Of the net pension liability, \$7,490,058 is related to the primary government and \$104,030 is attributable to discretely presented component units.

**Pension Plan Fiduciary Net Position:**

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the internet at [www.tmr.com](http://www.tmr.com).

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:**

For the year ended September 30, 2021, the City recognized pension expense of \$1,765,254. Of this amount, \$1,741,072 is related to the primary government and \$24,182 is attributable to discretely presented component units.

**City of Rockwall, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

At September 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred (Inflows) of Resources</u>
<b>Primary Government:</b>		
Difference between projected and actual investment earnings	\$ -	\$ (1,536,864)
Pension investment experience	-	(2,544,053)
Contributions subsequent to the measurement date	2,647,382	-
<b>Component Units:</b>		
Difference between projected and actual investment earnings	-	(21,345)
Pension investment experience	-	(35,335)
Contributions subsequent to the measurement date	36,769	-
<b>Total</b>	<u>\$ 2,684,151</u>	<u>\$ (4,137,597)</u>

The primary government and component units reported \$2,647,382 and \$36,769, respectively, as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2022.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended December 31:</b>	<b>Primary</b>	<b>Discretely Presented</b>	<b>Total</b>
	<b>Government</b>	<b>Component Units</b>	
2021	\$ (1,458,176)	\$ (20,253)	\$ (1,478,429)

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### Other Postemployment Benefits

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an “other postemployment benefit,” or OPEB.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees’ entire careers.

### Employees covered by benefit terms

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	84
Inactive employees entitled to but not yet receiving benefits	28
Active employees	289
Total	401

The City’s contributions to the TMRS SDBF for the years ended 2021 and 2020 were \$11,190 and \$4,333, respectively, which equaled the required contributions each year.

Schedule of Contribution Rates  
(RETIREE-only portion of the rate)

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2019	0.02%	0.02%	100.0%
2020	0.02%	0.02%	100.0%
2021	0.06%	0.06%	100.0%

## NOTES TO THE FINANCIAL STATEMENTS, *Continued*

September 30, 2021

### Total OPEB Liability

The City's Postemployment Benefits Other Than Pensions Liability (OPEB) was measured as of December 31, 2020, and the Total OPEB Liability was determined by an actuarial valuation as of that date.

### Actuarial assumptions:

The Total OPEB Liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.5% to 11.5%, including inflation per year
Discount rate	2.00%
Retirees' share of benefit-related costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

### Discount Rate:

The discount rate used to measure the Total OPEB Liability was 2.00%. The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2020.

# City of Rockwall, Texas

Benefit payments	(4,365)
Net changes	150,779
<b>Balance at 12/31/20</b>	<b>\$ 842,438</b>

### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2021, the City recognized OPEB expense of \$91,666. Of this amount, \$90,410 is related to the primary government and \$1,256 is attributable to the discretely presented component units.

**City of Rockwall, Texas**  
**NOTES TO THE FINANCIAL STATEMENTS, Continued**  
**September 30, 2021**

At September 30, 2021, the City reported deferred outflows of resources related to the OPEB liability from the following sources:

	<b>Deferred Outflows of Resources</b>	
<b>Primary Government:</b>		
Assumption changes	\$	135,851
Contributions subsequent to the measurement date		9,799
<b>Component Units:</b>		
Assumption changes		1,887
Contributions subsequent to the measurement date		136
<b>Total</b>	\$	147,673

The primary government and component units reported \$9,799 and \$136, respectively, as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the OPEB liability for the year ending September 30, 2022.

Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

	<b>Primary Government</b>	<b>Discretely Presented Component Units</b>	<b>Total</b>
<b>Year ended December 31:</b>			
2021	\$ 23,714	\$ 329	\$ 24,043
2022	23,714	329	24,043
2023	23,714	329	24,043
2024	22,492	312	22,804
2025	18,969	263	19,232
Thereafter	23,250	323	23,573
	\$ 135,851	\$ 1,887	\$ 137,738

**F. Subsequent Events**

There were no additional subsequent events through October 10, 2022, the date the financial statements were issued.

Employer contributions as a percentage of covered payroll	16.21%	16.21%	16.21%

1) This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, only available information is shown.

### NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

**Valuation Date:**

Notes Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

**Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	26 years
Asset Valuation Method	10 Year smoothed market; 12% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 11.5%, including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018.

Mortality Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.

Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

**Other Information:**

Notes There were no benefit changes during the year.

## STATISTICAL SECTION

Tables in the statistical section present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the overall financial health of the City.

<b>Contents</b>	<b>Page</b>
Financial Trends - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	120
Revenue Capacity - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	132
Debt Capacity - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	146
Demographic and Economic Information - These schedules offer demographics and economic indicators to help the reader understand the environment within which the City's financial activities take place.	157
Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	160

*Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.*

Total Direct and Overlapping Bonded Debt	\$ 719,618,572		\$ 441,570,997
Average debt per capita			\$ 11,394

Source: Municipal Advisory Council of Texas Annual Report

- (1) Includes all Governmental Activities General Obligation Bonds, Contractual Obligations, Certificates of Obligation and Capital Leases

The percentage of overlapping debt applicable is estimated using taxable assessed property values.

- (2) Applicable percentages were estimated by determining the portion of each governmental unit's taxable value that is within the city's boundaries and dividing it by each unit's total taxable value.

**City of Rockwall, Texas**  
**LEGAL DEBT MARGIN INFORMATION**  
**Last Ten Fiscal Years (Unaudited)**

The City of Rockwall, Texas does not have a legal debt limit prescribed by state law. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits ad valorem tax rates to \$2.50 per \$100 assessed valuation for cities operating under a Home Rule Charter. Accordingly, the City's tax margin for the previous ten years was:

	<u>2021</u>	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>2017</u>	<u>2016</u>
